CS408 Fall 2017 Final Term Papers Pattern & Questions 17 Feb 2018 to 28 Feb 2018

Paper 1

February 17, 2018 at 5:52pm

my paper for today

mcqs were all from the solved file by arsalan

Imagine you are an interface designer in well known software house. While designing an interface what are the four important points that you take care keenly with respect to alignment of visual elements?

Suppose you are an HCI specialist, what do you think that evaluation of design or product is beneficial? Justify your point of view in five lines.

For a designer of the design/product, there is important information/ issues that have to be identified from stakeholders. Understanding these issues and their impact on design solutions helps you as a designer to better serve your customer.

Being a designer, what are those issues that have impact of design solution so that customer could bitterly serve? Mention the names of at least three & explain any two of them.

You are a professional interviewer working as a research officer in IT based company. Use your intuition to answer whether conducting structured interview is different from semi-structured interview?

You have to design persona based design solutions in a company “ABC”. According to your experience which step in requirement definition serves as primary purpose of eliminating as much designer bias as possible before launching into scenarios, preparing the designers to take on the roles of the primary personas during the scenario process?

How many steps are involved in defining the requirements in Persona-based design? List down those steps.

As we know that Windows usually have various things associated with them that increase their usefulness.

How do scroll bars contribute to enhance the usefulness of the windows?

Suppose you are a system analyst. With your work experience briefly describe when it is useful to observe in context to observation process?

A software house “xyz ltd” develops a new web browser with innovative features. Now the developers of this browser want to know if users find items faster with their product.To findout these points developer wants to perform user testing. Why “xyz ltd” investing in user testing? Give at least three good reasons?

All users do mistakes while doing work on computers. In your point of view which tool allows the user to reverse one or more previous actions if he/she decides to change his/her mind in software user interface?

Paper 2

MY TODAY'S PAPER OF CS408
10 question ma se 7 likhy . ik tabel tha or 2 kafi lamby.

Q: What are good reasons for investing in user testing which are points out by tognazzini
Q: Developing questions and planning an interview(5 guidelines)
Q: LIMITATIONS OF SINGLE UNDO
Q: list three Evaluation paradigms
Q: Contextual needs and requirements
Q: When is it useful to observe in context to observation process
Q: Formulas for Color Harmony

Paper 3

Todays cs408 paper
50 questions
40MCQs 5 q for 3 marks and 5 q for 5 marks
MCQs mostly from past papers long question zyada tar conceptual thy like scenario diye thy explain krny thy, presentation par tha question ek. Visual art aur visual design ma difference tha 5 marks ka , HCI ka education , medical aur industry par impact pocha tha 5 five marks ka almost easy tha
But CS411 ka zyada e mushkil tha mostly new questions thy aur mostly questions programming k thy new bnany thy aur out put likni thi,
Java ka program tha Aur Jquery ka so be alert about CS411

Paper 4

todays paper

MCQS are new and totaly conceptual only were from past.

subjective part is also contains scenarios and from handouts.

- Suppose you are a system analyst. With your work experience briefly describe when it is useful to observe in context to observation process?
-error mesege

-functional elements

-ali is able to telephone his contatcs. what he needs now?mention functional elements.

-how computer science play role in human computer interaction?

-two diagrams are given and ask diffrence between them by interface.

Paper 5

My Today's Paper

90% of MCQS WERE FROM PAST PAPERS.

THINGS I REMEMBERED

1. DIFFERENCE BETWEEN SUMMATIVE EVALUATION AND FORMATIVE EVALUATION (5 MARKS)
2. SUPPOSE YOU ARE GIVEN THE WEBSITE TO EXAMINE.DETERMINE THE WEBSITE WITH TRUNK TEST. (5 MARKS)
3. LIST DOWN THE STEPS OF PERSONA BASED DESIGN (5 MARKS)
4. BACKGROUND COLORS K HAWALY SE QUESTION THA PAR YAAD NAHI (5 MARKS)
5. INTERVIEW K LIYE 5 GUIDELINES JO PAGE#371 PE MENTION HAIN. (5 MARKS)
6. ERROR MESSAGES K ANAY KA KYA PURPOSE HOTA HAI? (3 MARKS)
7. By breaking down Skeleton plane into its component elements then how all the pieces fit together to create this as a whole user experience? (3 Marks)
8. Does it is necessary for evaluation team to have the expertise needed to do the evaluation? Justify your answer with example (3 marks)
   baqi 2 yaad nahi

CS408 All current final term paper from 25 feb to 8 march 2017

Paper 6

Today my CS-408 paper
• 40 MCQz all from handouts n frm past papers – easy
• 12 Subjective also frm handouts – easy
1. What appropriate way for user of both transient and sovereign applications? (Ans: memory) (2)
2. Problems of excise tast? (2)
3. Identify the usability technique? (2)
4. Two arguments in the favour of software application implimented? (2)
5. Relatioship b/w needs and requirements? (3)
6. Metadata and its purpose? (3)
7. Software anticipate needs? (3)
8. Limitation od single undo? (5)
9. Characteristics of usability testing? (5)
10. Construct context effective scenario? (5)
11. Interaction b/w the user and pc? (5)

BEST OF LUCK

Paper 7

Mostly MCQS were from past papers. 4 mcqs were new & conceptual. 3,4 from mid-term.

- 1x question of Persona
- 1x question of Aligning visual elements
- 1x question of Symmetry
- 1x question of Usability test characteristics
- 1x question of Excise. Answer in yes or no with proper reason.
- 1x question of Web Navigation
- 1x question of difference between Need & Requirements
- 1x question of Context Effective
- 1x question of Postures
- 1x table was given had to match 5x correct values of column A with column B

Paper 8

Todays' current paper at 8.30 am

2/26/2017

Remember me in prayers.

1. What is co discovery
2. The names of two Conceptual framework planes are flowing her for developing user experience.
3. Which screen display when user launches the program and first loads in the memory
4. breaking down skeleton plane into its component elements, how do all the pieces fit together to create this as a whole user experience
5. There is a very close relationship between contextual needs and requirements.
6. Usability testing pertain not only on software but it also apply on all types of products like consumer products, electronic home appliances etc. though there is a different goals of usability testing in general
7. misunderstanding that most user interface designers being programmers imagine that their error message boxes are alerting the user to serious problem
8. when a typist a typist comes to you and asked about blind and explanatory undo.

Paper 9

Today my CS-408 paper
• 40 MCQz all from past papers – easy
• 12 Subjective also from handouts

How many people in group interview?

Symmetry types.

Purpose of Error message?

Difference between Visual art and Visual Design?

Relationship between needs and requirement?

Schedule and budget in Evaluation?

One question about Posture and scenario was given.

Skelton and prototype sy related bhi tha .

Mostly Conceptual tha paper.

GOOD LUCK …….

Paper 10

cs048
difference between contextual needs and user requirements?
utilities? names of conceptual framework planes?
columns match krny thy sovereign transient type waly? blind undo or explanatory undo ka difference? signposts ka question tha? page name ki characteristics thi ?
error message related b tha
mostly mcqs were new
