LECTURE 1 (Topic1-4)

Topic: Introduction to Social Studies

1. What is the primary purpose of Social Studies?

- a) To teach mathematical skills
- b) To help young people make informed decisions for the public good
- c) To promote scientific research
- d) To encourage individualistic behavior

Answer: b) To help young people make informed decisions for the public good

2. Which of the following best describes Social Science?

- a) Study of natural phenomena
- b) Study of human beings and their behavior
- c) Study of art and culture
- d) Study of physical geography

Answer: b) Study of human beings and their behavior

3. Which of these is an example of a societal institution mentioned in the text?

- a) Hospitals
- b) Recreation clubs
- c) Libraries
- d) All of the above

Answer: d) All of the above

4. Why is Social Studies included in the school curriculum?

- a) To make students skilled in technical jobs
- b) To ensure students memorize historical dates
- c) To emphasize the role it plays in helping students live peacefully in society
- d) To focus on art and creativity

Answer: c) To emphasize the role it plays in helping students live peacefully in society

Awareness of the World and Environment

5. What do lessons like 'The French Revolution' and 'Indus Valley Civilization' help students understand?

- a) The geographical layout of cities
- b) Evolution of societies and world events
- c) Technological advancements in farming
- d) Medical advancements

Answer: b) Evolution of societies and world events

6. Which topic helps students understand the interrelationship between natural and human habitats?

- a) Disaster Management
- b) Water Resources
- c) Natural Vegetation
- d) All of the above

Answer: d) All of the above

7. What does learning about pollution teach students?

- a) The origin of human civilizations
- b) Strategies to conserve and preserve the environment

- c) Formation of solar systems
- d) The growth of cities

Answer: b) Strategies to conserve and preserve the environment

Critical Thinking and Analysis

8. What skills does Social Studies help inculcate in students?

- a) Rote learning
- b) Higher-order thinking abilities like evaluation and synthesis
- c) Physical endurance
- d) Sportsmanship

Answer: b) Higher-order thinking abilities like evaluation and synthesis

9. Which topic helps students analyze poverty in society?

- a) Caste System
- b) Political Ideologies
- c) Both a and b
- d) Solar System

Answer: c) Both a and b

10. How can Social Studies encourage creativity among students?

- a) By asking them to memorize facts
- b) By having them think about new solutions to societal problems
- c) By focusing solely on historical events
- d) By limiting interaction to textbooks

Answer: b) By having them think about new solutions to societal problems

Social Understanding and Multicultural Awareness

11. Learning about the diversity in society helps students to:

- a) Only interact within their own cultural groups
- b) Recognize the benefits and challenges of multiple cultures
- c) Promote isolation between communities
- d) Focus on national over global issues

Answer: b) Recognize the benefits and challenges of multiple cultures

12. Why is it important to learn about different religions and cultural beliefs

- a) To ignore cultural differences
- b) To understand and respect diversity in society
- c) To promote a single cultural ideology
- d) To focus only on historical aspects

Answer: b) To understand and respect diversity in society

13. What does studying festivals, food, and clothing teach students?

- a) Homogeneity of cultures
- b) Diversity and interdependence in society
- c) Historical dates of independence
- d) Climate changes

Answer: b) Diversity and interdependence in society

Citizenship and Responsibility

14. What topics educate students about their rights and duties as citizens?

- a) Economics and History
- b) Political Science and Constitutional Laws
- c) Geography and Sociology
- d) Anthropology and Psychology

Answer: b) Political Science and Constitutional Laws

15. How does Social Studies prepare students for societal roles?

- a) By focusing only on memorization of events
- b) By making them active and reflective members of society
- c) By isolating them from global issues
- d) By teaching them only theoretical concepts

Answer: b) By making them active and reflective members of society

16. What does Social Studies teach about democracy and rights?

- a) That they are unimportant in society
- b) That they require respect for diverse opinions
- c) That they are challenges to societal stability
- d) That they are applicable only to specific groups

Answer: b) That they require respect for diverse opinions

Lecture 02 (Topic5-9)

Key Concepts of Citizenship Education

1. Since which year has Citizenship Education been a statutory subject in the English National Curriculum?

- a) 1990
- b) 2001
- c) 2014
- d) 1985

Answer: b) 2001

2. Which age group must be taught Citizenship Education in England's maintained schools?

- a) 5–10 years old
- b) 7–12 years old

- c) 11–16 years old
- d) 14–18 years old

Answer c) 11–16 years old

3. Which of the following is NOT a key area of the Citizenship Education curriculum?

- a) Politics
- b) Financial Skills
- c) Volunteering
- d) Environmental Science

Answer: d) Environmental Science

4. What is included in the "Politics" area of Citizenship Education?

- a) UK parliamentary democracy
- b) Financial products and services
- c) Criminal and civil law
- d) Community volunteering

Answer:a) UK parliamentary democracy

5. What topic does the "Financial Skills" area of Citizenship Education cover?

- a) Electoral processes
- b) Personal budgeting and money management
- c) Volunteering opportunities
- d) Criminal justice

Answer: b) Personal budgeting and money management

6. Which of these topics is covered under "Volunteering" in Citizenship Education?

- a) Financial risk
- b) Participating actively in community volunteering
- c) Criminal and civil law

d) Political ideologies

Answer: b) Participating actively in community volunteering

7. What is a key focus of the "Law" area in Citizenship Education?

a) Parliamentary elections

b) Diversity and mutual respect in the UK

c) Financial budgeting

d) Global warming

Answer: b) Diversity and mutual respect in the UK

8. Which system is explored beyond the UK as part of Citizenship Education?

a) Economic theories

b) Other systems of government

c) Cultural traditions

d) Environmental conservation

Answer: b) Other systems of government

Issues in Social Studies: Dealing with Controversial Issues

9. What is one key aim of discussing controversial issues in Social Studies?

a) To avoid opposing viewpoints

b) To encourage open and informed discussions

c) To focus solely on local issues

d) To memorize historical facts

Answer: b) To encourage open and informed discussions

10. What range of topics can be considered controversial in Social Studies?

a) Stereotypes and gender discrimination

b) Conflict in the Middle East

c) Distribution of world resources

d) All of the above

Answer: d) All of the above

11. What approach should students take when dealing with controversial issues?

- a) Avoid forming opinions
- b) Listen to multiple perspectives and formulate personal positions
- c) Focus only on one side of the issue
- d) Ignore the issue entirely

Answer: b) Listen to multiple perspectives and formulate personal positions

Role of Social Studies in Controversial Issues

12. What do some educators argue about addressing controversial issues in the classroom?

- a) It should always be done privately at home
- b) It is a key skill students need to develop in a classroom context
- c) Controversial issues should be avoided
- d) Teachers should take sides on issues

Answer: b) It is a key skill students need to develop in a classroom context

13. Which controversial topics must Social Studies teachers address in classrooms?

- a) Immigration and fairness
- b) Equality in democracy
- c) Distribution of world resources
- d) All of the above

Answer: d) All of the above

14. What skills are developed when students address controversial issues?

- a) Memorization of facts
- b) Thorough research, mastering concepts, and developing perspectives

- c) Ignoring differing opinions
- d) Repeating information verbatim

Answer: b) Thorough research, mastering concepts, and developing perspectives

15. Why is it important for students to listen to opposing viewpoints in a democracy?

- a) To learn how to dominate debates
- b) To create an open forum for respectful discussion
- c) To disregard conflicting opinions
- d) To focus only on personal opinions

Answer: b) To create an open forum for respectful discussion

16. What is a teacher's role when dealing with controversial issues in the classroom?

- a) Take sides in debates
- b) Create an open forum for discussion and maintain objectivity
- c) Avoid controversial topics entirely
- d) Encourage students to agree with the teacher's opinion

Answer: b) Create an open forum for discussion and maintain objectivity

17. What challenge do teachers face when discussing controversial issues in Social Studies?

- a) Finding a balance between engaging students and maintaining objectivity
- b) Avoiding difficult issues
- c) Ensuring all students agree on one perspective
- d) Eliminating discussions on controversial topics

Answer: a) Finding a balance between engaging students and maintaining objectivity

18. What does addressing public controversy in Social Studies teach students?

- a) To avoid debates in society
- b) To work collaboratively and address multiple perspectives
- c) To focus on subjective opinions

d) To reject opposing views

Answer: b) To work collaboratively and address multiple perspectives

Lecture 03 (Topic 10-13) :

Topic 10: Counterculture

1. What defines a counterculture?

- a) A culture that accepts all mainstream norms
- b) Values and behaviors in opposition to the broader culture
- c) A culture focused solely on economic systems
- d) A culture unrelated to societal norms

Answer: b) Values and behaviors in opposition to the broader culture

2. How does mainstream culture typically respond to an assault on its core values?

- a) By ignoring it
- b) By resisting it
- c) By adopting new values
- d) By embracing counterculture

Answer: b) By resisting it

3. What actions might members of mainstream culture take to affirm their own values?

- a) Ridicule, isolate, or attack members of counterculture
- b) Integrate with counterculture
- c) Promote counterculture
- d) Abandon their own norms

Answer: a) Ridicule, isolate, or attack members of counterculture

4. Which of the following is NOT an example of counterculture mentioned?

- a) Motorcycle gangs
- b) Drug addicts
- c) Traffic rule violators
- d) Environmental activists

Answer: d) Environmental activists

Topic 11: Factors Defining Culture

5. Which of the following is considered a factor that shapes culture?

- a) Technology
- b) Administrative systems
- c) Geography only
- d) Individual choices

Answer: b) Administrative systems

6. What are traditions in the context of culture?

- a) Newly adopted customs
- b) Recurrent and long-lasting ways of doing things
- c) Temporary behaviors
- d) Legal systems of a country

Answer: b) Recurrent and long-lasting ways of doing things

7. Which of these is an element of symbolic culture in a society?

- a) History

- b) Languages
- c) Administrative systems
- d) Geography

Answer: b) Languages

8. What are "social currents" in the context of culture?

- a) Economic trends
- b) Shared societal attitudes and values
- c) Political decisions
- d) Globalization trends

Answer: b) Shared societal attitudes and values

Topic 12: Introduction to Pakistani Society and Culture

9. What is the structure of family organization in Pakistan?

- a) Matriarchal
- b) Nuclear
- c) Patriarchal
- d) Egalitarian

Answer: c) Patriarchal

10. Who is the leader of a Pakistani family?

- a) The eldest female
- b) The eldest male
- c) The wealthiest member
- d) The most educated member

Answer: b) The eldest male

11. Which of the following is exclusively a woman's job in Punjab?

- a) Teaching
- b) Cotton picking
- c) Working in men's section
- d) Serving in the judiciary

Answer: b) Cotton picking

12. What is "purdah" in Pakistani society?

- a) A form of governance
- b) Seclusion of women
- c) A type of dress
- d) A system of inheritance

Answer: b) Seclusion of women

13. Which group in Pakistan has shown the most rapid change due to exposure to Western values?

- a) Rural poor
- b) Urban middle-income group
- c) Wealthy landowners
- d) Farmers

Answer: b) Urban middle-income group

Topic 13: Religion & Beliefs

14. What percentage of Pakistanis are Muslim?

- a) 50%

b) 77%

c) 97%

d) 20%

Answer: c) 97%

15. Which Muslim sect forms the largest group in Pakistan?

a) Shi'a

b) Sunni

c) Sufi

d) Ahmadi

Answer: b) Sunni

16. How many times a day are Muslims required to pray?

a) Three

b) Five

c) Six

d) Seven

Answer: b) Five

17. What is the Muslim holy day?

a) Saturday

b) Friday

c) Sunday

d) Thursday

Answer: b) Friday

18. What is a significant practice during Ramadan for Muslims?

- a) No work for a month
- b) Fasting from dawn to dusk
- c) Visiting a holy shrine daily
- d) Eating only vegetarian food

Answer: b) Fasting from dawn to dusk

19. What is prohibited during fasting in Ramadan?

- a) Eating and drinking
- b) Smoking cigarettes
- c) Chewing gum
- d) All of the above

Answer: d) All of the above

20. What is the maximum working duration for Muslims during Ramadan?

- a) Eight hours per day
- b) Six hours per day
- c) Ten hours per day
- d) Four hours per day

Answer: b) Six hours per day

Lecture 04 (Topic 14-17):

Topic 14: Definitions Old vs New

1. What is the largest and most complex group studied by sociologists?

- a) Family
- b) Society

c) Government

d) Corporation

Answer: b) Society

2. What is the sociological principle regarding the type of society we live in?

a) It has no effect on individuals.

b) It is the fundamental reason for why we become who we are.

c) It only influences our emotions.

d) It determines economic success.

Answer: b) It is the fundamental reason for why we become who we are.

3. Thousands of years ago, societies were characterized by which of the following?

a) Technological advancements and equality

b) Small size and limited technology

c) Large cities and industrial development

d) Global trade networks

Answer: b) Small size and limited technology

4. What defines today's global society according to Nolan and Lenski (2014)?

a) Lack of social differentiation

b) Highly evolved social differentiation and inequality

c) Elimination of inequality

d) A return to small, localized societies

Answer: b) Highly evolved social differentiation and inequality

5. Sociologists distinguish societies based on all of the following EXCEPT:

a) Complexity of their social structure

b) The number of languages spoken

c) Overall cultural accumulation

d) Level of technology

Answer: b) The number of languages spoken

Topic 15: Hunting and Gathering Societies

6. What is the primary economic base of hunting and gathering societies?

a) Agriculture

b) Hunting animals and gathering plants

c) Manufacturing

d) Trading goods

Answer: b) Hunting animals and gathering plants

7. What is the size of hunting and gathering societies compared to other societies?

a) Large urban populations

b) Less than 50 members

c) Thousands of members

d) Unlimited population size

Answer: b) Less than 50 members

8. Which of the following is a key characteristic of hunting and gathering societies?

a) Permanent settlement

b) Nomadic lifestyle

c) Technological advancements

d) Hierarchical organization

Answer: b) Nomadic lifestyle

9. In hunting and gathering societies, which institution is primary?

a) Government

b) Religion

- c) Family
- d) Education

Answer: c) Family

10. What is the division of labor in hunting and gathering societies primarily based on?

- a) Age
- b) Religion
- c) Gender
- d) Class

Answer: c) Gender

Topic 16: Horticultural and Agricultural Societies

11. What defines horticultural societies?

- a) Cultivation of fruits, vegetables, and plants
- b) Relying on hunting and gathering
- c) Use of plows for farming
- d) Industrial manufacturing

Answer: a) Cultivation of fruits, vegetables, and plants

12. What is the economic base of agricultural societies?

- a) Use of technology for large-scale agricultural production
- b) Small-scale horticulture
- c) Nomadic hunting
- d) Fishing and trapping

Answer: a) Use of technology for large-scale agricultural production

13. What invention revolutionized agricultural societies?

- a) The plow

- b) Steam engines
- c) Electricity
- d) Computer microchips

Answer: a) The plow

14. What social system emerged in agricultural societies due to resource accumulation?

- a) Egalitarianism
- b) Caste system and slavery
- c) Nomadic systems
- d) Small tribal governance

Answer: b) Caste system and slavery

15. What is an example of an agricultural society in Pakistan?

- a) Urban Lahore
- b) Rural societies
- c) Islamabad suburbs
- d) Pygmy tribes

Answer: b) Rural societies

Topic 17: Industrial Societies

16. What marks the beginning of industrial societies?

- a) The invention of the plow
- b) Mechanized factories and machines
- c) Development of pastoral practices
- d) Horticultural farming

Answer: b) Mechanized factories and machines

17. What significant change occurred during the Industrial Revolution?

- a) Development of bureaucracies and factory systems
- b) Elimination of cities
- c) Increase in hunting and gathering
- d) Focus on small-scale agriculture

Answer: a) Development of bureaucracies and factory systems

18. Which societal characteristic is prominent in industrial societies?

- a) Nomadism
- b) Highly differentiated labor force
- c) Minimal technological development
- d) Equality in resource distribution

Answer: b) Highly differentiated labor force

19. What was a direct result of industrialization?

- a) Reduction in trade centers
- b) Increase in life expectancy and cultural diversity
- c) Decline in transportation methods
- d) Elimination of factory systems

Answer: b) Increase in life expectancy and cultural diversity

Topic 18: Post-Industrial Societies

20. What drives post-industrial societies?

- a) Information and technology
- b) Hunting and gathering

- c) Manual labor
- d) Small-scale agriculture

Answer: a) Information and technology

21. What has become increasingly important in post-industrial societies?

- a) Farming skills
- b) Education and training
- c) Physical strength
- d) Animal domestication

Answer: b) Education and training

22. What is a key concern in post-industrial societies?

- a) Unequal access to education
- b) Lack of technological advancements
- c) Decline in trade
- d) Excessive reliance on agriculture

Answer: a) Unequal access to education

23. Which city is an example of a post-industrial society in Pakistan?

- a) Rural Sindh
- b) Urban Karachi
- c) Faisalabad villages
- d) Tribal areas of Balochistan

Answer: b) Urban Karachi

LCTURE 05(TOPIC18-23)

Topic 18: Typology of Society Based on Solidarity

1. According to Durkheim, what gives groups social solidarity?

- a) Social institutions
- b) Collective consciousness
- c) Individual values
- d) Economic systems

Answer: b) Collective consciousness

2. What type of solidarity arises when individuals play similar roles and share the same values?

- a) Organic solidarity
- b) Mechanical solidarity
- c) Contractual solidarity
- d) Cultural solidarity

Answer: b) Mechanical solidarity

3. Which of the following weakens mechanical solidarity?

- a) Role similarity
- b) Increasing complexity of society
- c) Strong religious beliefs
- d) Shared sacred values

Answer: b) Increasing complexity of society

4. In organic solidarity, social integration is primarily based on:

- a) Shared sacred values
- b) Role differentiation and interdependence
- c) Collective beliefs
- d) Uniform rules and regulations

Answer: b) Role differentiation and interdependence

5. How does society maintain integration in organic solidarity?

- a) Through shared sacred values
- b) By imposing uniform rules on everyone
- c) By regulating relations through contracts and laws
- d) Through collective conscience

Answer: c) By regulating relations through contracts and laws

6. Durkheim's concept of "mechanical solidarity" is comparable to:

- a) Interdependent organs of a living body
- b) Molecules cohering in a solid
- c) Complex systems of institutions
- d) Individual differentiation

Answer: b) Molecules cohering in a solid

Topic 19: Origins of the Concept of Society

1. The term "society" is derived from the Latin word "socius," which means:

- a) Structure
- b) Organization
- c) Companionship
- d) Division

Answer: c) Companionship

2. Who defined society as a "total complex of human relationships"?

- a) Emile Durkheim
- b) Talcott Parsons
- c) G.H. Mead
- d) Auguste Comte

Answer: b) Talcott Parsons

3. According to Emile Durkheim, society is:

- a) A system of organized associations
- b) A collection of isolated individuals
- c) A reality in its own right
- d) A result of supernatural forces

Answer: c) A reality in its own right

4. Which sociologist defined society as a "web of social relationships"?

- a) G.H. Mead
- b) Morris Ginsberg
- c) MacIver and Page
- d) George Simmel

Answer: c) MacIver and Page

5. The processes involved in human association are fundamentally the same as:

- a) Biological associations
- b) Religious associations
- c) Psychological associations
- d) Animal associations

Answer: d) Animal associations

6. What distinguishes human society from animal society?

- a) Food processes
- b) Psychical interaction and complexity
- c) Physical proximity
- d) Reproductive processes

Answer: b) Psychical interaction and complexity

7. What is the physical basis of interrelations among organisms in the early stages of society?

- a) Religious rituals
- b) Division of labor
- c) Conditions of food supply
- d) Reproductive processes

Answer: c) Conditions of food supply

8. George Simmel defines the essence of society as:

- a) Structured institutions
- b) Companionship and sociability
- c) Collective agreements
- d) Functional interdependence

Answer: b) Companionship and sociability

Topic19

1. According to George Simmel, what defines the true essence of society?

- a) The interaction of social institutions
- b) The element of sociability
- c) The division of labor
- d) The pursuit of economic goals

Answer: b) The element of sociability

2. Which of the following best describes society according to Emile Durkheim?

- a) A complex network of economic transactions
- b) A reality in its own right
- c) A structure based on class and economic division
- d) A product of shared religious beliefs

Answer: b) A reality in its own right

3. What is the origin of the term "society"?

- a) Greek word "polis"
- b) Latin word "socius" meaning companionship or friendship
- c) French word "société" meaning community
- d) German word "gesellschaft" meaning society

Answer: b) Latin word "socius" meaning companionship or friendship

4. According to Morris Ginsberg, society is defined as:

- a) A collection of individuals united by a common territory
- b) A collection of individuals united by certain relations or behaviors
- c) A total complex of human relationships
- d) A structured web of organized institutions

Answer: b) A collection of individuals united by certain relations or behaviors

5. How did the advances in nineteenth-century science influence the understanding of the origin of society?

- a) They proved that society is a supernatural phenomenon
- b) They revealed that the origin of society is closely tied to the origin of species
- c) They demonstrated that society developed from the individual's needs alone
- d) They argued that society is a purely economic construct

Answer: b) They revealed that the origin of society is closely tied to the origin of species

6. According to the lecture, the origin of society is closely related to:

- a) The biological processes of nutrition and reproduction
- b) Political systems and laws
- c) Technological advancements
- d) Religious doctrines

Answer: a) The biological processes of nutrition and reproduction

7. What distinguishes human society from animal society, as per the lecture?

- a) The development of agriculture
- b) The possession of articulate speech and the power of abstract thought
- c) The formation of family units
- d) The existence of written laws

Answer: b) The possession of articulate speech and the power of abstract thought

8. The concept that society grows spontaneously out of the life-process is associated with which of the following?

- a) Social contract theory
- b) Biological and psychological interdependence
- c) Religious teachings
- d) Economic need

Answer: b) Biological and psychological interdependence

9. According to Talcott Parsons, society is:

- a) A collection of individual relationships
- b) A total complex of human relationships shaped by means-end relationships
- c) An organized system of rules and punishments
- d) A political entity governed by law

Answer: b) A total complex of human relationships shaped by means-end relationships

10. Which of the following is the key difference between human and animal society according to the lecture?

- a) The role of food supply
- b) The level of interdependence
- c) The possession of articulate speech and abstract thought
- d) The nature of reproduction processes

Answer: c) The possession of articulate speech and abstract thought

TOPIC 20:

1. According to Maclver, what is one of the key characteristics of society?

- a) Conflict
- b) Likeness
- c) Isolation
- d) Authority

Answer: b) Likeness

2. How does Maclver differentiate the characteristics of society in traditional and modern societies?

- a) Likeness in traditional societies is based on nationality
- b) Likeness in traditional societies is based on kinship, while in modern societies it is based on the principle of one world
- c) Likeness in both traditional and modern societies is solely based on blood relations
- d) Likeness in modern societies is based on family structure

Answer: b) Likeness in traditional societies is based on kinship, while in modern societies it is based on the principle of one world

3. According to the lecture, why is difference an important characteristic of society?

- a) It ensures that society remains static
- b) It promotes diversity and reciprocal relationships
- c) It minimizes interaction among individuals
- d) It leads to societal conflict and destruction

Answer: b) It promotes diversity and reciprocal relationships

4. What is meant by the interdependence characteristic of society?

- a) Each individual can fulfill all their needs independently
- b) One institution in society can fulfill all the needs of society
- c) Individuals and institutions depend on each other to fulfill society's needs
- d) Societies can exist in isolation

Answer: c) Individuals and institutions depend on each other to fulfill society's needs

5. How does Durkheim describe the relationship between society and individuals?

- a) Society is merely a collection of individuals
- b) Society is more than the sum of its individual parts
- c) Society only exists as a result of economic transactions
- d) Society is entirely created by individuals through social interaction

Answer: b) Society is more than the sum of its individual parts

6. What does the term "system of social interaction" refer to?

- a) The exchange of goods and services
- b) The sequence of actions between individuals or groups who modify their actions based on their interactions
- c) The formal rules and regulations governing a society
- d) The economic interdependence between individuals

Answer: b) The sequence of actions between individuals or groups who modify their actions based on their interactions

7. Which of the following is true about culture as a characteristic of society?

- a) Culture is only relevant in traditional societies
- b) Culture includes values, beliefs, and practices that distinguish one society from another
- c) Culture is not passed down to future generations
- d) Culture is unrelated to the way of life in a society

Answer: b) Culture includes values, beliefs, and practices that distinguish one society from another

8. According to the lecture, what are the five basic social institutions found in all human societies?

- a) Family, government, economy, education, and religion
- b) Economy, culture, religion, politics, and technology
- c) Government, military, family, media, and education
- d) Religion, health, family, business, and politics

Answer: a) Family, government, economy, education, and religion

9. What role do cooperation and conflict play in society, according to Maclver?

- a) Cooperation and conflict are both unnecessary for society
- b) Cooperation is the primary characteristic of society, while conflict weakens it
- c) Society is formed through the coexistence of cooperation and conflict
- d) Conflict is detrimental to society and should be avoided at all costs

Answer: c) Society is formed through the coexistence of cooperation and conflict

10. Which of the following best describes the dynamism of society?

- a) Society remains unchanged over time
- b) Society evolves from traditional to modern forms, with changes in customs and values
- c) Society is static and unaffected by outside influences
- d) Social change occurs only when conflicts arise

Answer: b) Society evolves from traditional to modern forms, with changes in customs and values

TOPIC 21+ 22

Conflict Perspective on Society and Culture

1. According to the conflict perspective, society is made up of:

- a) Individuals who share common interests
- b) Groups that compete for social and economic resources

- c) People who work together for the common good
- d) Communities that cooperate to maintain peace

Answer: b) Groups that compete for social and economic resources

2. In conflict theory, social order is maintained through:

- a) Mutual consent and agreement
- b) Domination and power of the elite
- c) Cooperation among all members
- d) Equal distribution of resources

Answer: b) Domination and power of the elite

3. Which of the following is NOT a characteristic of inequality in society according to the conflict perspective?

- a) Groups with resources defend their advantages
- b) Social order is maintained by consensus
- c) Power struggles and inequality persist due to domination
- d) The economic advantaged groups control public information

Answer: b) Social order is maintained by consensus

Types of Pakistani Society

4. Which of the following is NOT one of the major ethnic divisions in Pakistan?

- a) Punjab
- b) Sindh
- c) Balochistan
- d) Tamil Nadu

Answer: d) Tamil Nadu

5. Pakistani society is characterized by differences in:

- a) Language only
- b) Dress codes only
- c) Food only
- d) Culture, religion, language, and traditions

Answer: d) Culture, religion, language, and traditions

6. Which of the following is NOT a common feature of Punjabi culture?

- a) Bhangra dance
- b) Spicy food with rich flavors
- c) Pagri and kurta as traditional clothing
- d) Exclusive use of rice in meals

Answer: d) Exclusive use of rice in meals

7. The main languages spoken in Punjab are:

- a) Urdu and Sindhi
- b) Punjabi and Saraiki
- c) Pashto and Balochi
- d) English and Urdu

Answer: b) Punjabi and Saraiki

8. The most prominent festival celebrated in Punjab related to harvest is:

- a) Diwali
- b) Eid ul-Fitr
- c) Baisakhi
- d) Christmas

Answer: c) Baisakhi

9. Which of the following is a historical landmark in Punjab, Pakistan?

- a) Taj Mahal

- b) Badshahi Mosque
- c) Qutub Minar
- d) Red Fort

Answer: b) Badshahi Mosque

10. The famous musical instrument associated with Punjabi music is:

- a) Guitar
- b) Tabla
- c) Violin
- d) Piano

Answer: b) Tabla

TOPIC 23

Sindh | Society and Culture

1. Which river forms the western boundary of Sindh?

- a) River Ravi
- b) River Indus
- c) River Jhelum
- d) River Chenab

Answer: b) River Indus

2. What is the capital city of Sindh?

- a) Lahore
- b) Karachi
- c) Quetta
- d) Peshawar

Answer: b) Karachi

3. Which of the following is a traditional dance form of Sindh?

- a) Kathak
- b) Ho Jamalo
- c) Bhangra
- d) Garba

Answer: b) Ho Jamalo

4. What is the most famous Sindhi music form, often sung during spiritual gatherings?

- a) Ghazal
- b) Sufi Music
- c) Qawwali
- d) Classical Music

Answer: b) Sufi Music

5. Which food is typically associated with Sindhi cuisine?

- a) Biryani
- b) Sindhi Biryani
- c) Nihari
- d) Chicken Karahi

Answer: b) Sindhi Biryani

6. What is a key cultural item worn by both Sindhi men and women?

- a) Dupatta
- b) Sindhi Topi and Ajrak
- c) Turban
- d) Salwar

Answer: b) Sindhi Topi and Ajrak

7. Which festival celebrates the unity of Sindhi people, where everyone wears Sindhi Topi and Ajrak?

- a) Eid ul-Fitr
- b) Diwali
- c) Ekta Day
- d) Independence Day

Answer: c) Ekta Day

8. Who is a famous Sindhi poet known for his Sufi poetry?

- a) Allama Iqbal
- b) Shah Abdul Latif Bhittai
- c) Faiz Ahmed Faiz
- d) Mirza Ghalib

Answer: b) Shah Abdul Latif Bhittai

Balochistan | Society and Culture

9. Which of the following is a traditional dance of Balochistan?

- a) Malakhiro
- b) Chap
- c) Ho Jamalo
- d) Kathak

Answer: b) Chap

10. Which city is the capital of Balochistan?

- a) Karachi
- b) Islamabad
- c) Quetta
- d) Lahore

Answer: c) Quetta

11. Which is a famous food from Balochistan?

- a) Sajji
- b) Peshawari Chapli Kebab
- c) Biryani
- d) Mutton Karahi

Answer: a) Sajji

12. What is the primary feature of Baloch culture?

- a) Urban lifestyle
- b) Tribal society and traditional values
- c) Nomadic lifestyle
- d) High-tech industry

Answer: b) Tribal society and traditional values

13. Which of the following is a well-known Balochi handicraft?

- a) Ajrak
- b) Balochi leather work
- c) Sindhi shawl
- d) Pashmina

Answer: b) Balochi leather work

Khyber Pakhtunkhwa (KPK) | Society and Culture

14. What is the main language spoken in Khyber Pakhtunkhwa (KPK)?

- a) Pashto
- b) Punjabi
- c) Urdu

- d) English

Answer: a) Pashto

15. Which of the following is a famous lake in Khyber Pakhtunkhwa?

- a) Lake Saif-ul-Malook
- b) Banjosa Lake
- c) Ratti Gali Lake
- d) Haro River

Answer: a) Lake Saif-ul-Malook

16. Which community is the main ethnic group in Khyber Pakhtunkhwa?

- a) Punjabis
- b) Pashtuns
- c) Sindhis
- d) Muhajirs

Answer: b) Pashtuns

17. What is the major characteristic of the Pashtun society in Khyber Pakhtunkhwa?

- a) Focus on urbanization
- b) Strong tribal values and respect for women
- c) Agricultural lifestyle
- d) Industrial development

Answer: b) Strong tribal values and respect for women

18. Which famous sport is played in Khyber Pakhtunkhwa?

- a) Cricket
- b) Football
- c) Polo
- d) Malakhiro

Answer: c) Polo

Lecture 06 (Topic 24-26)

Topic 24: Why Peace Education? Teaching Children the Skills to Resolve Conflicts

1. What is the primary goal of peace education?

- a) To teach students about global conflicts
- b) To develop attitudes, skills, and behavior for peaceful coexistence
- c) To promote violence prevention programs
- d) To teach children how to defend themselves

Answer: b) To develop attitudes, skills, and behavior for peaceful coexistence

2. Who dedicated the International Day of Peace and emphasized the importance of peace education?

- a) Koichiro Matsuura
- b) Ban Ki Moon
- c) Nelson Mandela
- d) Kofi Annan

Answer: b) Ban Ki Moon

Topic 25: Communication and Negotiation

1. What is negotiation?

- a) A one-sided argument
- b) A discussion to reach an alternative that satisfies all parties
- c) A form of public speaking
- d) A process to force others into an agreement

Answer: b) A discussion to reach an alternative that satisfies all parties

2. How does effective communication impact negotiations?

- a) It leads to misunderstandings
- b) It makes the other party feel intimidated
- c) It directly influences the success of the negotiation
- d) It is irrelevant to the negotiation outcome

Answer: c) It directly influences the success of the negotiation

3. What is one of the main components of effective communication in negotiation?

- a) Ignoring the other party's input
- b) Using derogatory language to assert dominance
- c) Clear and precise verbal communication
- d) Speaking as fast as possible to overwhelm the other party

Answer: c) Clear and precise verbal communication

Topic 26: Skills – Empathy, Cooperation, Anger Management, and Problem Solving

1. What is an important aspect of teaching peace to young children?

- a) Punishing bad behavior
- b) Giving children the vocabulary to express their feelings
- c) Telling children to say "sorry" when they don't feel it
- d) Avoiding discussions about conflicts

Answer: b) Giving children the vocabulary to express their feelings

2. What is the concept of "peace table" in conflict resolution?

- a) A place where children can hide from their conflicts
- b) A place where children discuss conflicts with a mediator
- c) A table used only for meals
- d) A tool for punishing children

Answer: b) A place where children discuss conflicts with a mediator

Lecture 07 (Topic 27-29)

Here are some multiple-choice questions (MCQs) based on the topics you've shared:

Topic: World's Population and Settlements

1. What is the Lincoln Index used for?

- A) Estimating population density
- B) Estimating the population of a species in a specific area
- C) Measuring the fertility rate of a population
- D) Studying the effect of climate on population growth

- Answer: B) Estimating the population of a species in a specific area

2. In which year did the global human population reach one billion?

- A) 1700

- B) 1804

- C) 1900

- D) 2000

- Answer: B) 1804

3. What is the study of the size, density, and distribution of human populations in a specific region called?

- A) Sociology

- B) Demography

- C) Geography

- D) Population Geography

- Answer: B) Demography

4. Which area has the largest concentrations of human population?

- A) Africa

- B) South America

- C) Eurasia

- D) North America

- Answer: C) Eurasia

5. Which hemisphere is more densely populated due to more land area?

- A) Southern Hemisphere

- B) Northern Hemisphere

- C) Equatorial Hemisphere

- D) None of the above

- Answer: B) Northern Hemisphere

Topic: Density of the Population

6. What is population density measured by?

- A) The number of schools in an area
- B) The number of people per square kilometer
- C) The number of businesses in a region
- D) The number of agricultural workers per square kilometer
- Answer: B) The number of people per square kilometer

7. Which of the following is true about population density in South Asia (as of 2013)?

- A) It was 100 people per sq. km
- B) It was 350.18 people per sq. km
- C) It was over 500 people per sq. km
- D) It was below 200 people per sq. km
- Answer: B) It was 350.18 people per sq. km

8. What does agricultural density measure?

- A) The number of farmers in a country
- B) The number of people in a country's rural areas
- C) The available cultivable land divided by the total number of farmers
- D) The amount of productive land per capita
- Answer: C) The available cultivable land divided by the total number of farmers

9. Which type of population density focuses on the amount of arable land in a region?

- A) Arithmetic Density
- B) Economic Density
- C) Physiological Density

- D) Agricultural Density
- Answer: C) Physiological Density

10. Which region in Pakistan has the highest population density?

- A) Khyber Pakhtunkhwa
- B) Sindh
- C) Balochistan
- D) Punjab
- Answer: D) Punjab

Topic: Human Population

11. Which country is the most densely populated in the world?

- A) China
- B) India
- C) Bangladesh
- D) Monaco
- Answer: D) Monaco

12. What is a key factor that influences population distribution across regions?

- A) Landmass size
- B) Climate and natural resources
- C) Political governance
- D) Historical events
- Answer: B) Climate and natural resources

13. Why is Japan's population density so high despite limited arable land?

- A) Due to efficient land use and urbanization
- B) Because of a large amount of agricultural land

- C) Due to extensive farming
- D) Because of immigration policies
- Answer: A) Due to efficient land use and urbanization

14. What is the population density in Pakistan as of the latest measurements?

- A) 100 people per square km
- B) 233 people per square km
- C) 350 people per square km
- D) 500 people per square km
- Answer: B) 233 people per square km

Lesson 8(Topic30-33)

Topic: World's Population

1. When did the world population reach 7 billion according to the United Nations Population Fund?

- A) October 31, 2005
- B) October 31, 2011
- C) December 25, 2010
- D) January 1, 2000
- Answer: B) October 31, 2011

2. Which century saw the most increase in the world population?

- A) 18th century
- B) 19th century
- C) 20th century
- D) 21st century
- Answer: C) 20th century

3. In which year did the world population reach 2 billion?

- A) 1820
- B) 1930
- C) 1950
- D) 1960
- Answer: B) 1930

4. Which continent has the most populous countries in the world?

- A) Africa
- B) Europe
- C) Asia
- D) North America
- Answer: C) Asia

Topic: Population Growth Rate

5. What is the main difference between linear and exponential growth rate?

- A) Linear growth has profit, while exponential growth does not.
- B) Exponential growth includes profit, while linear growth does not.
- C) Linear growth is faster than exponential growth.
- D) There is no difference between them.
- Answer: B) Exponential growth includes profit, while linear growth does not.

6. What is the term for the time required for a population to double?

- A) Population Growth Rate
- B) Doubling Time
- C) Exponential Growth
- D) Fertility Rate
- Answer: B) Doubling Time

7. In what year did the global growth rate peak at 2.2%?

- A) 1950
- B) 1963
- C) 1980
- D) 1999
- Answer: B) 1963

Topic: Demographic Characteristics of Population

8. What is the Crude Birth Rate (CBR)?

- A) The total number of deaths per 1,000 people.
- B) The number of births per 1,000 people.
- C) The average number of children born to a woman.
- D) The percentage of people under the age of 15.
- Answer: B) The number of births per 1,000 people.

9. What is the Total Fertility Rate (TFR)?

- A) The total number of deaths per 1,000 people.
- B) The average number of children a woman would have over her lifetime.
- C) The number of people aged 15–49 in a population.
- D) The average number of marriages per woman.
- Answer: B) The average number of children a woman would have over her lifetime.

10. Which of the following is the infant mortality rate (IMR)?

- A) The number of births per 1,000 people.
- B) The number of deaths of infants under one year per 1,000 live births.
- C) The total fertility rate of a population.

- D) The number of deaths of adults per 1,000 people.
- Answer: B) The number of deaths of infants under one year per 1,000 live births.

11. According to the United Nations, what is the infant mortality rate (IMR) of the world?

- A) 49.4 per 1,000 live births
- B) 42.09 per 1,000 live births
- C) 25.6 per 1,000 live births
- D) 10.0 per 1,000 live births
- Answer: A) 49.4 per 1,000 live births

12. Which factor is typically higher in less developed countries compared to developed countries?

- A) Crude Death Rates
- B) Total Fertility Rate
- C) Infant Mortality Rate
- D) Life Expectancy
- Answer: C) Infant Mortality Rate

Topic: Population Structure

13. What does population structure refer to?

- A) The physical geography of a region
- B) The demographic composition of a population, including age and gender distribution
- C) The economic activities of a population
- D) The urbanization level of a population
- Answer: B) The demographic composition of a population, including age and gender distribution

14. Which of the following characteristics is commonly used to describe population structure?

- A) Marital status
- B) Religion

- C) Political affiliation
- D) Languages spoken
- Answer: A) Marital status

Lesson (9-10) Topic (34-37)

Topic: Migration

1. What is the primary purpose of migration?

- A) To travel for leisure
- B) To take up permanent or semi-permanent residence
- C) To participate in seasonal festivals
- D) To travel for business purposes
- Answer: B) To take up permanent or semi-permanent residence

2. Which type of migration occurs when people move across political boundaries?

- A) Internal migration
- B) External migration
- C) Urban migration
- D) Rural migration
- Answer: B) External migration

3. Which of the following is an example of forced migration?

- A) Moving for a better job opportunity
- B) Relocating due to political disturbance or violence
- C) Traveling for education
- D) Seasonal migration for agricultural work

- Answer: B) Relocating due to political disturbance or violence

4. What does voluntary migration refer to?

- A) Migration caused by natural disasters
- B) Migration due to political instability
- C) Migration based on personal decision for better opportunities
- D) Migration caused by government policies
- Answer: C) Migration based on personal decision for better opportunities

5. Which type of migration involves the movement of people within the same country but across geographical boundaries?

- A) External migration
- B) Internal migration
- C) Forced migration
- D) Urban migration
- Answer: B) Internal migration

VU NEXUS

Topic: Human Settlements

6. Which of the following is considered a hamlet?

- A) A large city with many factories
- B) A small settlement with a few houses, maybe centered around a farm
- C) A village with several hundred people and basic services
- D) A town with thousands of people and shopping centers
- Answer: B) A small settlement with a few houses, maybe centered around a farm

7. What defines a village as a settlement?

- A) It has thousands of people and shopping centers
- B) It is a small settlement with a few shops and a place of worship

- C) It is a large city with complex infrastructure
- D) It is a settlement with no shops or schools
- Answer: B) It is a small settlement with a few shops and a place of worship

8. Which type of settlement is typically a medium-sized town with factories and shopping centers?

- A) Hamlet
- B) Village
- C) Town
- D) City
- Answer: C) Town

Topic: Types of Settlements

9. What characterizes a dispersed settlement?

- A) A few houses clustered around a central area
- B) Isolated dwellings scattered in cultivated fields
- C) A large city with a grid street plan
- D) Buildings forming a long line along a transport route
- Answer: B) Isolated dwellings scattered in cultivated fields

10. Which type of settlement involves houses clustered around a central area like a church or market square?

- A) Dispersed settlement
- B) Nucleated settlement
- C) Linear settlement
- D) Grid plan settlement
- Answer: B) Nucleated settlement

11. In which type of settlement do buildings typically follow a long line along a transport route or physical feature like a river?

- A) Dispersed settlement
- B) Nucleated settlement
- C) Linear settlement
- D) Formal settlement
- Answer: C) Linear settlement

12. What does a grid street plan consist of?

- A) Streets arranged randomly
- B) Streets running parallel to each other
- C) Streets running at right angles to each other, forming a grid
- D) Streets arranged in a circular pattern
- Answer: C) Streets running at right angles to each other, forming a grid

Topic: Settlements and Planning

13. What is an unplanned settlement?

- A) A settlement built according to strict planning and building regulations
- B) A settlement without any housing
- C) A settlement where housing does not comply with current planning and building regulations
- D) A settlement with only formal housing and infrastructure
- Answer: C) A settlement where housing does not comply with current planning and building regulations

14. Which type of settlement is characterized by the presence of amenities like electricity and sanitation?

- A) Unplanned settlement
- B) Dispersed settlement
- C) Formal settlement

- D) Linear settlement
- Answer: C) Formal settlement

Lesson 11 (Topic 38-40)

Here are some multiple-choice questions (MCQs) based on the topics of urbanization, city functions, and migration:

Topic: Urbanization

1. What is the primary characteristic of urbanization?

- A) A shift from urban to rural areas
- B) The slow increase in the percentage of people living in urban areas
- C) A decrease in the population of rural areas
- D) The shift of people from one country to another
- Answer: B) The slow increase in the percentage of people living in urban areas

2. What is the key difference in urbanization between developed and developing countries?

- A) Developed countries focus on industrial production, while developing countries focus on services
- B) Developed countries focus on services, while developing countries focus on industrial production
- C) Developed countries have no urbanization, while developing countries have a lot of urbanization
- D) Both focus equally on agriculture
- Answer: B) Developed countries focus on services, while developing countries focus on industrial production

3. What determines the development of different areas within a city?

- A) The age of the city's inhabitants

- B) The geographical location of the city
- C) The major function of the city (e.g., commerce, industry, services)
- D) The political leadership in the city
- Answer: C) The major function of the city (e.g., commerce, industry, services)

4. What is the main difference between land use and land cover?

- A) Land use refers to physical land types like forests, while land cover refers to how people use the land
- B) Land use refers to how people use the land, while land cover refers to physical land types like forests
- C) Both terms refer to physical land types
- D) Land use and land cover mean the same thing
- Answer: B) Land use refers to how people use the land, while land cover refers to physical land types like forests

Topic: City Functions

5. Which of the following is NOT typically a function of a city?

- A) Selling goods and services
- B) Providing jobs
- C) Entertainment centers
- D) Agricultural production
- Answer: D) Agricultural production

6. What does the Central Business District (CBD) of a city typically represent?

- A) The most industrialized area of the city
- B) The most accessible and centrally located area, often the origin of the city
- C) The area with the least population density
- D) A region filled with residential housing

- Answer: B) The most accessible and centrally located area, often the origin of the city

7. Which area in a city is often characterized by residential housing and parks?

- A) Central Business District (CBD)
- B) City suburbs
- C) Inner city
- D) Industrial zones

- Answer: B) City suburbs

Topic: City Suburbs

8. Which characteristic best describes the housing in the city suburbs?

- A) Small houses with no gardens
- B) Expensive residential housing with larger homes and gardens
- C) A mixture of old industrial housing and residential areas
- D) High-rise buildings
- Answer: B) Expensive residential housing with larger homes and gardens

9. Which of the following is true about terraced housing just outside the inner city?

- A) Expensive housing with large gardens
- B) Small houses with no gardens, typically for workers
- C) Located in the Central Business District
- D) It is an area for entertainment and cultural centers
- Answer: B) Small houses with no gardens, typically for workers

10. What defines the inner city area of a metropolis?

- A) It is a highly industrialized area with factories
- B) It is a mixture of old industrial housing and industry, just outside the CBD
- C) It is primarily residential with parks and lakes

- D) It is located far from the center of the city and has low population density
- Answer: B) It is a mixture of old industrial housing and industry, just outside the CBD

Topic: Migration Factors

11. Which of the following is NOT a major factor behind migration within countries and between countries?

- A) Education opportunities
- B) Better economic conditions
- C) Natural disasters
- D) Agricultural opportunities
- Answer: D) Agricultural opportunities

12. In developed countries, what is the percentage of people living in urban areas compared to rural areas?

- A) 50% urban, 50% rural
- B) 90% urban, 10% rural
- C) 70% urban, 30% rural
- D) 60% urban, 40% rural
- Answer: B) 90% urban, 10% rural

13. Which factor is commonly cited as a reason for high urban migration in developing countries?

- A) High population density in rural areas
- B) Educational institutions being only in rural areas
- C) High wages in rural areas

- D) Low economic opportunities in rural areas
- Answer: D) Low economic opportunities in rural areas

These MCQs cover key concepts about urbanization, city functions, and migration factors, helping to reinforce understanding of the topics.

Lesson 12 (Topic 41-45)

Topic: Issues and Problems of Urbanization

1. What is de-urbanization?

- A) Movement of people from rural to urban areas
- B) Movement of people from urban to open spaces to avoid overcrowding
- C) The expansion of city areas
- D) The increase in the urban population
- Answer: B) Movement of people from urban to open spaces to avoid overcrowding

2. Which of the following is a major cause of air pollution in urban areas?

- A) Excessive rainfall
- B) Traffic flow and industrial activities
- C) Natural forests
- D) High altitude wind currents
- Answer: B) Traffic flow and industrial activities

3. Which gases are commonly released into the atmosphere from urban traffic and industries, contributing to pollution?

- A) Oxygen and nitrogen
- B) Carbon dioxide, sulfur dioxide, carbon monoxide, and nitrogen oxide

- C) Hydrogen and methane
- D) Chlorine and ozone
- Answer: B) Carbon dioxide, sulfur dioxide, carbon monoxide, and nitrogen oxide

4. What does the term "Urban Heat Island" refer to?

- A) A zone in the city where temperatures are lower than surrounding areas
- B) A specific area of the city with high humidity
- C) A phenomenon where cities experience higher temperatures due to human activities
- D) A water body that cools down the urban environment
- Answer: C) A phenomenon where cities experience higher temperatures due to human activities

5. What is the "Urban Dust Dome"?

- A) A protective cover over the city
- B) A dome-shaped formation of stagnant and polluted air above a city
- C) A park designed to improve air quality
- D) A tower that releases purified air
- Answer: B) A dome-shaped formation of stagnant and polluted air above a city

6. What is "temperature inversion"?

- A) The normal decrease in temperature with altitude
- B) A rise in temperature with altitude, trapping pollutants in lower layers of the atmosphere
- C) The cooling of the atmosphere in urban areas
- D) A change in weather patterns that leads to cooler cities
- Answer: B) A rise in temperature with altitude, trapping pollutants in lower layers of the atmosphere

7. Which of the following is a primary cause of industrial water pollution in urban areas?

- A) Natural runoff from agricultural areas
- B) Discharge of harmful chemicals and compounds by industries

- C) High rainfall causing floods
- D) Pollution from vehicles
- Answer: B) Discharge of harmful chemicals and compounds by industries

8. What percentage of wastewater is treated before being discharged in Pakistan?

- A) 50%
- B) 10%
- C) 1%
- D) 80%
- Answer: C) 1%

9. What are some of the diseases associated with water pollution in urban areas?

- A) Diabetes and hypertension
- B) Malaria, dengue, and yellow fever
- C) Asthma and tuberculosis
- D) Heart disease and stroke
- Answer: B) Malaria, dengue, and yellow fever

10. What is "Ocean Dumping"?

- A) Disposing waste materials into oceans, including industrial waste, sewage, and radioactive materials
- B) The natural process of waste removal from the ocean
- C) A system of waste management in urban areas
- D) A method of cleaning the ocean from pollutants
- Answer: A) Disposing waste materials into oceans, including industrial waste, sewage, and radioactive materials

11. What is the main issue with industrial solid and liquid waste in urban areas?

- A) They are easily disposed of

- B) They are non-toxic and do not affect the environment
- C) They pollute water sources and land
- D) They improve soil quality
- Answer: C) They pollute water sources and land

12. Which factor contributes significantly to the increase in traffic flow in urban areas?

- A) The availability of large parks
- B) Migration from neighboring cities or countries
- C) The reduction in population density
- D) The improvement in transportation systems
- Answer: B) Migration from neighboring cities or countries

Lesson 13 (Topic 46-51)

Topic: Environmental Hazards and Disasters

1. What is an environmental hazard?

- A) A natural disaster caused by a storm
- B) A state of events that can threaten the environment and human health
- C) A form of environmental protection
- D) A hazard caused by human negligence only
- Answer: B) A state of events that can threaten the environment and human health

2. What happens when a hazard becomes "active"?

- A) It creates a regular weather event
- B) It can lead to an emergency situation
- C) It becomes a disaster that affects only the environment
- D) It results in the stabilization of the ecosystem
- Answer: B) It can lead to an emergency situation

3. Which of the following is NOT a natural hazard?

- A) Earthquakes
- B) Floods
- C) Air pollution from industries
- D) Hurricanes
- Answer: C) Air pollution from industries

4. What is the primary cause of a disaster?

- A) Random weather events
- B) Improper management of risk, combining hazards and vulnerability
- C) The absence of government intervention
- D) Earth's natural oscillations
- Answer: B) Improper management of risk, combining hazards and vulnerability

5. What type of hazard involves weather-related phenomena like hurricanes, floods, and droughts?

- A) Biological hazards
- B) Geological hazards
- C) Hydro-meteorological hazards
- D) Technological hazards
- Answer: C) Hydro-meteorological hazards

6. Which of the following is a biological hazard?

- A) Earthquake
- B) Flooding
- C) HIV/AIDS
- D) Avalanche
- Answer: C) HIV/AIDS

7. Which country has been ranked among the most affected by extreme weather events, according to the Global Climate Risk Index (1993-2012)?

- A) United States
- B) Pakistan
- C) Japan
- D) Canada
- Answer: B) Pakistan

8. What is the primary cause of floods?

- A) Strong winds and heatwaves
- B) Overflow of water from rivers or lakes
- C) Deforestation in urban areas
- D) Overfishing in water bodies
- Answer: B) Overflow of water from rivers or lakes

9. What happened in Sindh province in 2003?

- A) Earthquake
- B) Urban flooding due to heavy rainfall
- C) Wildfire
- D) Landslides
- Answer: B) Urban flooding due to heavy rainfall

10. Which area in Pakistan has seen the highest increase in temperature over the last 40 years?

- A) Punjab
- B) Sindh
- C) Gilgit-Baltistan and Chitral
- D) Khyber Pakhtunkhwa
- Answer: C) Gilgit-Baltistan and Chitral

11. What is the main issue in desert areas like Thar, Cholistan, and Thali?

- A) Excessive flooding
- B) Lack of clean water
- C) Forest fires
- D) Earthquakes
- Answer: B) Lack of clean water

12. What is an avalanche?

- A) A sudden flood in mountainous areas
- B) A rapid flow of snow down a sloping surface
- C) A volcanic eruption
- D) A tornado in high-altitude areas
- Answer: B) A rapid flow of snow down a sloping surface

13. Which natural hazard results in the largest number of deaths each year globally?

- A) Floods
- B) Earthquakes
- C) Avalanches
- D) Tsunamis
- Answer: C) Avalanches (Based on the number of fatalities mentioned in the passage)

These questions assess understanding of the different types of environmental hazards, their causes, and effects, as well as the challenges posed by disasters and how they impact human and environmental well-being.

Lesson 14+15 (Topic 52-56)

Topic: Introducing Earth

1. What percentage of Earth's surface is covered by water?

- A) 50%
- B) 71%
- C) 80%
- D) 60%
- Answer: B) 71%

2. Which of the following is true about Earth?

- A) Earth has no atmosphere.
- B) Earth is the third planet from the Sun.
- C) Earth has no natural satellite.
- D) Earth is the smallest planet in the solar system.
- Answer: B) Earth is the third planet from the Sun.

3. What is the primary source of energy for Earth?

- A) Earth's internal heat
- B) Sunlight (Heat and Light)
- C) Earth's magnetic field
- D) Geothermal energy
- Answer: B) Sunlight (Heat and Light)

4. How old is the Earth believed to be?

- A) 3 billion years
- B) 4.6 billion years
- C) 5 billion years
- D) 6 billion years
- Answer: B) 4.6 billion years

5. Which gas makes up the majority of Earth's atmosphere?

- A) Carbon dioxide
- B) Oxygen
- C) Nitrogen
- D) Hydrogen
- Answer: C) Nitrogen

Topic: The Shape of the Earth

6. Who first calculated the Earth's circumference using trigonometry?

- A) Newton
- B) Eratosthenes
- C) McLaren
- D) Poincare
- Answer: B) Eratosthenes

7. Which of the following scientists believed that Earth has a spherical shape?

- A) Newton
- B) McLaren
- C) Eratosthenes
- D) Poincare
- Answer: C) Eratosthenes

8. What shape does the Earth most closely resemble?

- A) Perfect Sphere
- B) Flat Surface
- C) Oval or Elliptical
- D) Pear-shaped

- Answer: C) Oval or Elliptical

9. What evidence supports the idea that Earth is spherical?

- A) The sun rises at the same time over the entire Earth.
 - B) The shadow of the Earth on the Moon during a lunar eclipse is round.
 - C) Ships always disappear in a straight line over the horizon.
 - D) There is no clear evidence for a spherical Earth.
- Answer: B) The shadow of the Earth on the Moon during a lunar eclipse is round.

10. Which of the following is the correct equatorial diameter of the Earth?

- A) 12,742 km
 - B) 12,756 km
 - C) 12,700 km
 - D) 12,714 km
- Answer: B) 12,756 km

Topic: The Size of the Earth

11. What is the mean radius of Earth?

- A) 3,956 miles
 - B) 3,959 miles
 - C) 6,371 kilometers
 - D) 7,926 miles
- Answer: B) 3,959 miles

12. What is the difference in Earth's equatorial and polar diameters?

- A) 10 km
- B) 50 km
- C) 40 miles (64 km)
- D) 100 km

- Answer: C) 40 miles (64 km)

13. How does Earth's rotation affect its shape?

- A) It flattens the Earth at the equator.
- B) It causes the Earth to bulge at the equator.
- C) It makes the Earth perfectly spherical.
- D) It has no effect on Earth's shape.
- Answer: B) It causes the Earth to bulge at the equator.

Topic: Introducing the Universe

14. What is the size of the observable Universe according to estimates from 2010?

- A) 100 million light years
- B) 20 billion light years
- C) 46 billion light years
- D) 100 billion light years
- Answer: C) 46 billion light years

15. What is a light year?

- A) The time it takes for light to travel across a galaxy.
- B) The distance light travels in one year (9.446 trillion km).
- C) The speed at which light travels.
- D) The measurement of time taken by light to reach Earth.
- Answer: B) The distance light travels in one year (9.446 trillion km).

16. How many stars are estimated to exist in the observable Universe?

- A) 30 billion
- B) 300 billion
- C) 3 trillion

- D) 100 billion
- Answer: B) 300 billion

Topic: The Sun and Its Planets

17. How many planets are in the solar system?

- A) 6
- B) 8
- C) 9
- D) 10
- Answer: B) 8

18. Which of the following planets is NOT a terrestrial planet?

- A) Mars
- B) Earth
- C) Venus
- D) Jupiter
- Answer: D) Jupiter

19. What are gas giants primarily composed of?

- A) Iron and nickel
- B) Hydrogen and helium
- C) Water and ammonia
- D) Silicates and metals
- Answer: B) Hydrogen and helium

20. Which planet is known for being an ice giant in the outer solar system?

- A) Mars
- B) Neptune

- C) Venus
- D) Earth
- Answer: B) Neptune

These MCQs cover fundamental aspects of Earth, the solar system, and the universe, assessing understanding of size, shape, and structure.

Lesson 16+17 (Topic 57-62)

1. Earth's Rotation

Q1: How long does it take for the Earth to complete one full rotation around its axis?

- A) 12 hours
- B) 24 hours
- C) 48 hours
- D) 365 days

Answer: B) 24 hours

Q2: The Earth rotates in which direction on its axis?

- A) Clockwise
- B) Anti-clockwise
- C) North to South
- D) South to North

Answer: B) Anti-clockwise

Q3: Which of the following is not an effect of Earth's rotation?

- A) Day and night

- B) Variation in gravity
- C) Seasons
- D) Coriolis effect

Answer: C) Seasons

2. Earth's Revolution

Q4: The Earth's revolution around the Sun takes approximately how long?

- A) 365 days
- B) 365.24 days
- C) 366 days
- D) 360 days

Answer: B) 365.24 days

Q5: At which position is the Earth closest to the Sun?

- A) Aphelion
- B) Perihelion
- C) Equinox
- D) Solstice

Answer: B) Perihelion

3. Latitudes and Longitudes

Q6: The equator divides the Earth into which two hemispheres?

- A) Eastern and Western

- B) Northern and Southern
- C) Tropical and Arctic
- D) Northern and Antarctic

Answer: B) Northern and Southern

Q7: What is the latitude of the Tropic of Cancer?

- A) 0°
- B) 23.5° North
- C) 23.5° South
- D) 66.5° North

Answer: B) 23.5° North

Q8: The Prime Meridian divides the Earth into which two hemispheres?

- A) Eastern and Western
- B) Northern and Southern
- C) Tropic and Arctic
- D) Antarctic and Arctic

Answer: A) Eastern and Western

4. Maps and Cartography

Q9: The first accurate world map was prepared by which geographer?

- A) Aristotle
- B) Eratosthenes
- C) Ptolemy

- D) Cassini

Answer: C) Ptolemy

Q10: What is the main purpose of the scale in a map?

- A) To show the direction of north
- B) To show the distance between locations
- C) To represent the terrain elevation
- D) To indicate the political boundaries

Answer: B) To show the distance between locations

Q11: Which of the following is not a type of map symbol?

- A) Point symbol
- B) Line symbol
- C) Area symbol
- D) Surface symbol

Answer: D) Surface symbol

5. Types of Maps

Q12: Which of the following maps is designed to show human-made features?

- A) Physical map
- B) Cultural map
- C) Geological map
- D) Climatic map

Answer: B) Cultural map

Q13: What type of map shows the elevation of land above sea level?

- A) Political map
- B) Topographical map
- C) Economic map
- D) Historical map

Answer: B) Topographical map

Q14: A map that covers a small area with detailed information is called a:

- A) Small-scale map
- B) Large-scale map
- C) Global map
- D) Political map

Answer: B) Large-scale map

6. Map Projections

Q15: Why is a globe not suitable for use in small-scale maps?

- A) It cannot show the Earth's surface accurately
- B) It's not convenient to carry
- C) It cannot represent small areas with high detail
- D) It is only suitable for large countries

Answer: C) It cannot represent small areas with high detail

Lesson 18+19 (Topic 63-66)

1. Which type of map projection is used for areas closer to the middle latitudes or temperate regions?

- a) Cylindrical Projection
- b) Conical Projection
- c) Azimuthal Projection
- d) Polyconic Projection

Answer: b) Conical Projection

2. What is the feature that defines a conical projection?

- a) The projection is based on a cylinder wrapped around the globe.
- b) The projection is based on a cone touching the globe along a standard parallel.
- c) The projection uses a flat plane for the entire globe.
- d) The projection only represents polar areas.

Answer: b) The projection is based on a cone touching the globe along a standard parallel.

3. Which of the following projections is used primarily for mapping areas close to the equator?

- a) Cylindrical Projection
- b) Conical Projection
- c) Planar Projection
- d) Mercator Projection

Answer: a) Cylindrical Projection

4. What is the purpose of conventional signs on maps?

- a) To make maps aesthetically pleasing.
- b) To represent different features using symbols in a compact space.
- c) To display the time zones across different regions.

d) To show political boundaries.

Answer: b) To represent different features using symbols in a compact space.

5. Which tool is most commonly used in modern survey mapping?

- a) Chain and Tape Survey
- b) Plane Table Survey
- c) Theodolite
- d) Compass

Answer: c) Theodolite

6. What type of map is typically used to show general surface features in detail, including both natural and cultural landscapes?

- a) Cadastral Map
- b) Topographical Map
- c) Atlas Map
- d) Wall Map

Answer: b) Topographical Map

7. What type of map is used to show the boundaries between different political states or units?

- a) Social Map
- b) Political Map
- c) Economic Map
- d) Distributional Map

Answer: b) Political Map

8. Which type of map represents the distribution of important agricultural, mineral, and industrial products?

- a) Social Map
- b) Economic Map
- c) Choropleth Map
- d) Communication Map

Answer: b) Economic Map

9. What is the purpose of a Choropleth Map?

- a) To show the physical features of an area.
- b) To represent population density and other data using shading.
- c) To display transportation routes.
- d) To show historical events.

Answer: b) To represent population density and other data using shading.

10. What is typically depicted on a historical map?

- a) Political boundaries
- b) Past events
- c) Agricultural distribution
- d) Population density

Answer: b) Past events

Lesson 20+21+22(Topic 67-72)

1. What does the term "elevation" refer to in geography?

- a) The variation in the land's surface features
- b) The height of the land surface above a fixed plane
- c) The temperature of the region
- d) The distance between two locations

Answer: b) The height of the land surface above a fixed plane

2. What is the method used to represent the relief of the land using imaginary lines joining places of the same height?

- a) Spot Heights
- b) Contouring
- c) Trigonometrical Surveying
- d) Bench Marks

Answer: b) Contouring

3. What is the primary use of Spot Heights on maps?

- a) To indicate the actual height of places above sea level
- b) To represent general relief features
- c) To show the slope of the terrain
- d) To mark the political boundaries

Answer: a) To indicate the actual height of places above sea level

4. What are Bench Marks used for in geographical surveys?

- a) To represent the lowest point of a region

- b) To show elevation levels at different locations
- c) To mark the boundaries between different states
- d) To indicate the highest point on a map

Answer: b) To show elevation levels at different locations

5. What does a Trigonometrical Station indicate on a map?

- a) A point used for triangulation in surveys
- b) A lowland area
- c) A spot where a river intersects a mountain
- d) The location of a significant archaeological site

Answer: a) A point used for triangulation in surveys

6. What is the primary purpose of River Fieldwork in geographical studies?

- a) To investigate the causes and impacts of river hazards like flooding
- b) To study the distribution of river vegetation
- c) To survey the political boundaries along riverbanks
- d) To study the river's interaction with urban environments

Answer: a) To investigate the causes and impacts of river hazards like flooding

7. What is studied under Coastal Fieldwork in geography?

- a) River processes
- b) Sediment analysis and landforms formed by coastal processes

- c) Rural settlement patterns
- d) Mountainous landforms

Answer: b) Sediment analysis and landforms formed by coastal processes

8. Which branch of surveying is primarily concerned with mapping the boundaries of properties for legal purposes?

- a) Topographic Surveying
- b) Engineering Surveying
- c) Cadastral Surveying
- d) Geodetic Surveying

Answer: c) Cadastral Surveying

9. What does GIS (Geographic Information System) primarily do?

- a) Captures and analyzes weather patterns
- b) Captures, stores, manipulates, and presents spatial data
- c) Helps in calculating population growth
- d) Records historical events on maps

Answer: b) Captures, stores, manipulates, and presents spatial data

10. Which of the following is an example of GIS applications?

- a) Weather forecasting
- b) Road networking and mapping
- c) Analyzing stock market data
- d) Studying the atmosphere's composition

Answer: b) Road networking and mapping

11. What is the purpose of "Statistical Interpolation" in geographical studies?

- a) To predict missing values based on existing data
- b) To represent data visually using graphs
- c) To calculate the total area of a given map
- d) To convert map projections into a flat plane

Answer: a) To predict missing values based on existing data

12. Which method is used to present geographical survey data spatially?

- a) Line graphs
- b) Maps and charts
- c) Photographs
- d) Tables

Answer: b) Maps and charts

VU NEXUS
