Question # 21 of 30 (Start time: 07:09:38 PM, 21 June 2021)

1. High molecular substances, which are present in living organisms, are also named as _____

Select the correct option

- Giant molecules
- Biopolymers
- Monomers
- Both b & c

What is the relationship among DNA, a gene, and a chromosome?

Select the correct option

- A gene contains hundreds of chromosomes, which are composed of protein.
- A gene is composed of DNA, but there is no relationship to a chromosome.
- A chromosome contains hundreds of genes, which are composed of protein.
- A chromosome contains hundreds of genes, which are composed of DNA.
