MCQs

The relationship of learning experience is termed as horizontal when it is from: one subject area to another subject in the same grade

A tendency to react even though the reaction does not actually take place is attitude

Curriculum Development (EDU 402) verified files 2020

Objectives stated in the generalized pattern of behavior is linked with the area of life

Learning experience is: the interaction between student and conditions in environment to which one (subject) can react

Many learning experiences can be used to particular objective

Logical thinking involves: the arrangements of assumptions premises & conclusions

If the objectives are clear and provide guidance for future lesson plan it means they have both behavior and content aspect

Learning experience must enable students to gain satisfaction while learning desired behavior, as per objectives.

Thinking can be inductive, deductive and logical

LE should be appropriate the student's present attainments and predisposition

Information in itself is of no value as an end

Two dimensional charts is useful to select learning experiences

Experiences provide a broad analysis of social situations to develop desired attitudes

Opportunity to practice, satisfying, desired reactions and range of possibility, multiplicity of learning experiences and multiplicity of outcomes are print selections of: learning experiences

Hypotheses are alternative solution to problem.

Discrete lessons create problems and vertical organization is impossible to attain.

There are four types of organization in curriculum development

Achieving integration is difficult if organizing structure is in specific pieces

Sequence goes one step ahead of continuity

Acquiring of information & learning to solve problem will lessen chances of rote memorization

Structural elements exist at three / 3 levels of organization

Many learning experiences can be used to attain a: particular objective

Experiences that meet the criteria for effective learning can be used for the achievement of desired objectives

Vertical organization demands courses to be organized over a period of years in larger units and a larger framework

logical organization is viewed by the experts in education

Thinking can be inductive, deductive and logical

Continuity, sequence and integration are the norms for organization

The curriculum does not need to provide a: Certain limited and prescribed set of learning experiences to ensure attainment of desired objectives

If the objectives are clear and provide guidance for future lesson plan it means they have both behavior and content aspect

Curriculum Development (EDU 402) verified files 2020

Experience provide a broad analysis of social situations to develop desired attitudes

Learning experience must enable students to gain **satisfaction** while learning desired behaviour, as per objectives

While defining LEs to develop interest it should be ensured: **Learning experiences are satisfying for the target group of student**

Teaching efficiency and degree to which changes are brought about among learners is affected by the organization of: **learning experiences**

Learning experience enables the students to get an increasing unified view. The organization of LE affects the teaching **efficiency**

Core curriculum poses less difficulty in achieving integration with regard to the interposition of boundaries between subjects.

Logical organization is viewed by expert in education.

There are **two** type of organization in curriculum development.

The role of scientific_ in gathering information and knowledge to decide educational objectives is very important Select correct option

method

analysis

investigation

notion

Teaching of religious values or ethics are the characteristics of ---- philosophy.

Select the correct option

Perennialism

Essentialism

Realism

Existentialism
