

Q1) Which of the following is NOT a learning type?

Formal

Non-Formal

Informal

Unformal

Q2) The UNESCO convention held on 1960 was against?

Equity

Equality

Discrimination in education

Climate change

Q3) Bali is situated in:

Indonesia

Malaysia

Iran

Bangladesh

Q4) By using technology, teachers can present lessons and ways that suited which one of the following styles of their students?

Affective

Psychometric

Reflective

Cognitive

Q 5) Educators must view technology not as the enemy but as the key tool to:

Motivate a lazy teachers

Demotivate an engaged student

Degrade a teacher

Motivate an engaged student

Q 6) Which one of the following best refers to classroom assessment technique?

Aids

Scoring

Picture

Worksheets

Q 7) What is the first teacher responsibility in technology enabled classroom before putting to their students?

Totally depend on students skills only

Elaborate and then provide authority

Give full authority to students to use

learn, understand and experience the technology

Q 8) What is the main purpose of PowerPoint?

Increase time period

Feel better

Help to learn

Improves grades

Q 9) Which of the following category describes both forms of environment education

Formal and informal

Regular and irregular

Knowledge and information

Teacher and student

Q 10) Which of the following in NOT the primary barrier to the effective implementation of child centered mainable development curricula school?

Lack of knowledge

Understanding

Reflection

Pre service training

Q 11) What is the role of a teacher when students are allowed to work on their own?

Learner

Facilitator

Critical thinker

Reflective Practitioner:

Q 12) Which of the following has the goal to improve learners' and nations' abilities to deal effectively with population issue ?

Relevance

Population

Participation

Education

Q 13) In which country rainwater harvesting projects in school was carried out?

Myanmar

Thailand

China

India

Q 14) As per the census 1999-2000 what was the annual investment by the private sector?

3.5

3.0

2.0

2.5

Q 15) In which areas of Pakistan the private provision of education has also become a significant phenomenon?

Village

Towns

City

Urban

Q16) What is the third type of privatization?

Private entity

Private regulation

Private individual

Private body

Q 17) How many forms are there for privatization?

2

5

4

3

Q18) Which of these is appropriate in raising the quality of educational services?

Issues

Problems

Reforms

Solutions

Q19) What is the percentage of expenditure of private education institutions on non-teaching staff according to NEMIS report for the year.

Similarities

Needs

Q35) The largest chunk of private school sector's expenditure went to according to the Census 1999-2000.

Non-teaching staff

Repair and maintenance

Teaching staff

Building rent

Q36) The second purpose of population education is to identify the areas that need:

Practice

Theory

Progress

Developmen

SHORT AND LONG QUESTION

Explain the persuasion and prescription in relation to population education

Population education faces these general problems and is also potentially confronted with a more direct conflict between theory and practice: the degree to which the educational system can or should directly support the population policies of the nation.

No education system, anywhere in world is free from some degree of persuasion and prescription, despite the theoretical commitment to truth telling

Briefly discuss the historical traces of population studies.

Population education is not an attempt to develop a new discipline. Although demography and folk demography form the core of knowledge needed for population education, they do not cover the whole range of issues involved. Facts, theories and concepts from a broad spectrum of academic disciplines and professional fields are needed to help individuals and societies fully understand population interactions and thus the effect of population factors on the quality of their individual and collective lives. The sum of this knowledge is referred to as population studies.

How can privatization programs implemented?

These countries, which span the continents, have different education systems, as well as different labor markets. The multitude of these programs suggests that education privatization is a practicable possibility. There are many experiences across different countries at different stages in the process of privatization. Policy makers must decide which of these reforms is appropriate, and which would have the greatest impact in raising the quality of educational services, allocating resources fairly, and meeting the needs of society.

Why environmental education must be locally relevant? Explain with example.

Environment education must be locally relevant and culturally appropriate, and should include do reference to equity issues. Action based research that is done on the ground not in a classroom not in a lab. Action based research takes young people into the real world makes them experience the reality. They can actually do the right kind of findings. Environmental education must be locally relevant we have to address our issues first if we don't address our issues first, we will not be able to go out and address the global issues.

What is the role of ideological theories and culture in population education?

Family, kin, peers and community play a dominant role in acquisition of a folk demography the knowledge, attitude, values norms, systems of belief that people come to hold about population related matters, such as family and marital relationships, social customs, and status and role of women and children and the choice of residence. Identification of cultural differences and sensitivities is an important part of program planning and development for its raises issues about the relevance of the curricula, the adaptation of content and method to meet specific needs and the administration of decentralized programs.

Define Formal learning with the relevant example.**Formal Learning:**

Learning typically provided by an education or training institution, structured (in terms of objectives, learning time or learning support) and leading to certification. Formal learning is intentional from the learners' perspective. For example , Attending a university and taking classes to earn a degree is an example of formal learning.

How taking photo and video during the tours is beneficial for children?

Taking photos and videos during the tours helps with review and communication with other groups. Children can be creative photographers and film maker. Today with the mobile phones and every child has one okay. You can take photographs; you can come back talk about it you could. See it as a group and have a good healthy discussion.

Why is privatizing happening

There are many factors driving privatization in education. These factors differ in intensity between countries and across the three sectors of primary, secondary and tertiary education. It is worth noting that some advocates of privatization are motivated by an ideological commitment to individual rights over government intervention. These advocates believe that a family's right to choose its own education is paramount.

What is the link of population studies with other studies?

Population studies, also known as demography, intersects with various fields such as sociology, economics, public health, and urban planning. It provides insights into social dynamics, economic trends, health disparities, and urban development
