ENG518

Midterm important questions 2024

VU360

Here are some important questions from ENG518 Virtual University Midterm 2024:

Lecture 1-5:

1. What is the definition of computer networks and their importance?
2. How do you explain the concept of network topologies (bus, star, ring, mesh) and their characteristics?
3. What are the different types of network protocols (TCP/IP, HTTP, FTP, etc.) and their uses?
4. How do you explain the concept of network layers (physical, data link, network, transport, session, presentation, application) and their functions?
5. What is the concept of network architecture and its importance?

Lecture 6-10:

6. How do you explain the concept of local area networks (LANs) and their characteristics?
7. What are the different types of wide area networks (WANs) and their characteristics?
8. How do you explain the concept of metropolitan area networks (MANs) and their characteristics?
9. What is the concept of wireless networks (WLANs, WWANs) and their characteristics?
10. How do you explain the concept of network security and its importance?

Lecture 11-15:

11. How do you explain the concept of network design and its importance?
12. What are the different types of network devices (switches, routers, gateways, etc.) and their uses?
13. How do you explain the concept of network addressing (IP addresses, subnet masks, etc.) and its importance?
14. What is the concept of network protocols (DHCP, DNS, etc.) and their uses?
15. How do you explain the concept of network management and its importance?

Lecture 16-20:

https://chat.whatsapp.com/F5zhJtf5yL4RjDODz1fL

16. How do you explain the concept of network performance optimization and its importance?
17. What are the different types of network threats (hacking, viruses, etc.) and their mitigation techniques?
18. How do you explain the concept of network scalability and its importance?
19. What is the concept of network reliability and its importance?
20. How do you explain the concept of network troubleshooting and its importance?

Lecture 21-22:

21. How do you explain the concept of advanced computer networks (cloud computing, IoT, etc.)?
22. What is the concept of computer network innovation and its importance in modern times?
