

ENG518

Quiz from Assessments (Mid-Term)

ABSTRACT

This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.

Research Methodology

ENG518_Research Methodology
Quiz from Assessments (Mid-Term)

1. Research improves learning, teaching and decision making in human life. (True)
2. Systematic inquiry means to follow a proper scientific method. (True)
3. Refinement and action of knowledge are the functions of research (True)
4. _____ is irrelevant to research. (Imagination)
5. Conclusion is the direct _____ of the hypothesis. (Verification)
6. Anything related to language and society, learning, teaching, management, decision making and researchers can be a topic of concern in ELT research. (True)
7. Anything related to language, practical issues, problems related to second or foreign language, language policy are not involved in the paradigm of ELT research (False)
8. _____ study the use of many different sets of materials to teach distinctively. (Researchers)
9. Research _____ can be identified through having an experience or the use of secondary sources. (Questions)
10. A true research must provide clear understanding of _____. (Meaning)
11. There are _____ levels of research. (two)
12. Types of Research based on data collection procedures contains: (Quantitative, Qualitative)
13. In educational research, the issues of influencing _____ theories and practices are emphasized. (Educational)
14. Objectivity in _____ is one of the characteristics of an investigator. (Thinking)
15. _____ ways may solve your issues, by following a systematic process. (Scientific)
16. A problem is selected through _____ thinking towards a target issue; a careful ordered thinking is required. (Reflective)
17. To identify a problem, a researcher needs to know _____. (Exact nature and dimensions of the problem)
18. Before selecting specific research problem, it is crucial to follow a criterion. (True)
19. A researcher must not take any precautionary measures in defining research. (False)
20. A _____ is the description of an issue currently existing which needs to be addressed. It provides the context for the research study and generates the questions which the research aims to answer. (Problem statement)
21. After the development of research problem, a tentative solution of a problem is devised which is known as: (Hypothesis)
22. The scientific research method is based on certain basic _____. (Postulates)
23. Hypotheses vary in form and _____. (Function)
24. A question may or may not qualify as a _____. (hypothesis)
25. Temporary solution is one of the functions of a _____ in research. (Hypothesis)
26. In agreement with the observed facts, a good hypothesis should contain clear roles for variables. (True)
27. A _____ is anything that has a quantity or quality that varies. (Variable)

ENG518_Research Methodology
Quiz from Assessments (Mid-Term)

28. A / an _____ variable is a hypothetical variable used to explain causal links between other variables. (Intervening)

29. It is in researcher's control; at least one _____ variable and dependent variable in a hypothesis do interact. (Independent)

30. One can use delimiter (a character that marks the beginning or end of a unit of data) for advanced search (True)

31. _____ research is new research, carried out to answer specific issues or questions. It can involve questionnaires, surveys or interviews with individuals or small groups. (Primary)

32. Keywords are also helpful as a _____ source. (Preliminary)

33. _____ sources are the references and summaries; at this point primary research is accessed through the eyes of someone other the actual researchers. (Secondary)

34. Secondary sources for research question include table of contents and _____. (Literature Review)

35. Databases organize topics by a set of _____ and have a focus of studies. (Keywords)

36. JSTOR and Google Scholar can be used as _____ sources. (Primary)

37. To locate primary research, one should follow _____. (Tactics)

38. Primary research and position papers are different in title, terms, techniques and recognition to the active researchers. (True)

39. A _____ paper is a written report outlining someone's attitude or intentions regarding a particular matter. (Position)

40. Research articles can be obtained from a university _____. (Library)

41. AAAL or TESOL are among the few research journals for research in: (ELT)

42. ELT research journals include TESOL, AAL, IATEFL and _____ journals. (ESP)

43. ESP stands for: (English for specific purposes)

44. The entire mass of observation (the universe). All the members of the group /objects are generalized as _____. (Population)

45. Basically, there are _____ sampling paradigms, depending upon the nature and purpose of the study. (Two)

46. Qualitative sampling _____ the in information. (Maximize)

47. Goal of sampling is to generalize the_____. (Findings)

48. Sampling procedure consists of making choices while answering your research questions. (True)

49. Sampling is fundamental to all _____ methods. (Statistical)

50. This Sampling technique does not use randomization to make sure that every element of the population gets an equal chance to be part of the selected sample. (False)

51. Sampling method refers to the rules and procedures by which some elements of the population are included in the sample. Some common sampling methods are simple random sampling, stratified sampling, and cluster sampling. (True)

52. _____ errors can be avoided through solid sampling design, large sample, and multiple contacts. (Sampling)

ENG518_Research Methodology
Quiz from Assessments (Mid-Term)

53. Sampling size depends upon total no. of subjects/ participants _____ and precision of the research. (Present)

54. Internal _____ refers to how well an experiment is done, especially whether it avoids confounding (more than one possible independent variables acting at the same time). (Validity)

55. External validity refers to how well data and theories from one setting apply to another. This question is usually asked about laboratory research: Does it apply in the everyday "real" world outside the lab? (True)

56. Research _____ is the blueprint of your study. (Design)

57. Basic Research is completely _____, that focuses on basic principles and testing theories. It tends to understand the basic law. (Theoretical)

58. Basic Research deals with generalization and formulation of theory about human _____. (Behavior)

59. _____ is the research that is designed to solve specific practical problems or answer certain questions. (Applied Research)

60. Research designs are based on your research _____. (Questions)

61. Studies mainly based on what questions are primarily _____. (Exploratory)

62. The relationship among previous _____ topic interest and L2 reading (Carrel & Wise, 1998). (Knowledge)

63. Research questions can be quantitative or qualitative. (True)

64. Extraneous factors may contaminate your data affecting internal as a well as external _____ as internal and external are not mutually exclusive. (Validity)

65. _____ studies are more vulnerable and may be affected by such factors. (Longitudinal)

66. _____ group may influence the results because the treatment. (Control)

67. The pretest effect is the click of comprehension effect. (True)

68. The value of data collection procedure is how well it provides answers to the research _____. (Questions)

69. The interview for research can be structured, semi- structured or unstructured. (True)

70. Using participants as _____ of their own behavior is one of the procedure of data gathering. (Observers)

71. CELT stands for: (Comprehensive English Language Test)

B.Ed. (1.5 Years) BS English Files

Compilation
