BT505

QUESTIONS:

1. Sensitivity of affinity biosensor?
2. What is surface plasmon resonance biosensor?
3. What is function of redox enzyme?
4. Give major drawback of redox mediator?
5. What is evanescent wave fluorescence biosensor?
6. Define types of biosensors and describe them in detail?
7. What is surface inance biosensor?
8. Advantages of evanescent wave fluorescent biosensor?
9. What is pH sensor?

www.facebook.com/vuways

10. What is piezoelectric biosensor?

11. Advantages of piezoelectric biosensor? Why copper is used to hold the anode in place? What is acoustic sound? What is surface plasmon resonance? What is piezoelectric effect? Use of label biosensing? DNA based piezoelectric method? How electric polarization is caused?
