MTH104 - Sets and Logic (Quiz 4)

Question # 1 of 10 (Start time: 10:15:30 PM, 03 July 2024)

The ordinal number of {1,2,3,4} is _____.

Select the correct option

○	3
○	4
○	1
○	2

MTH104 - Sets and Logic (Quiz 4)

Question # 2 of 10 (Start time: 10:17:06 PM, 03 July 2024)

Suppose A and B are well-ordered sets, and suppose A is similar to an initial segment of B. Then A is said to be _____ than B.

Select the correct option

- longer
- shorter

MTH104 - Sets and Logic (Quiz 4)

Question # 3 of 10 (Start time: 10:17:58 PM, 03 July 2024)

Suppose X and Y are partially ordered sets. A one-to-one(injective) function $f: X \to Y$ is called a similar mapping from X into Y if f preserves the order relation, that is if the following conditions holds for any pair a, b ∈ X: $a \leq b$ in X if and only if $f(a) \leq f(b)$ in Y.

Select the correct option

- Given statement is true.
- Given statement is false.

MTH104 - Sets and Logic (Quiz 4)

Question # 4 of 10 (Start time: 10:18:59 PM, 03 July 2024)

The ordinal number of the set P of counting numbers is denoted by ω.

Select the correct option

- ○ true
- false

MTH104 - Sets and Logic (Quiz 4)

Question # 5 of 10 (Start time: 10:19:41 PM, 03 July 2024)

Any well-ordered set A is not linearly ordered.

Select the correct option

- ○ Given statement is false. ✓
- Given statement is true.

MTH104 - Sets and Logic (Quiz 4)

Question # 6 of 10 (Start time: 10:20:36 PM, 03 July 2024)

Let λ and μ be ordinal numbers and let A and B be two well-ordered sets such that $\lambda = ord(A)$ and $\mu = ord(B)$. Then

$\lambda < \mu$

if A is similar to an initial segment of B.

Select the correct option

- false
- true

Search the web and Windows

MTH104 - Sets and Logic (Quiz 4)

Question # 7 of 10 (Start time: 10:21:38 PM, 03 July 2024)

Let A be an ordered set. Then A is said to be well-ordered if every subset of A contains a first element.

Select the correct option

- ○ Given statement is false. ✓
- ○ Given statement is true.

MTH104 - Sets and Logic (Quiz 4)

Question # 8 of 10 (Start time: 10:22:24 PM, 03 July 2024)

Let A be a well-ordered set. Then If B is similar to A, then B is well-ordered.

Select the correct option

- ○ Given statement is true.
- ○ Given statement is false.

MTH104 - Sets and Logic (Quiz 4)

Question # 9 of 10 (Start time: 10:23:10 PM, 03 July 2024)

If a lower bound of A precedes every other lower bound of A, then it is called the infimum of A

Select the correct option

- Given statement is false.
- Given statement is true.

MTH104 - Sets and Logic (Quiz 4)

Question # 10 of 10 (Start time: 10:24:06 PM, 03 July 2024)

Let S be a partially ordered set, and let A be a subset of S. If A has an upper bound ,we say A is bounded above

Select the correct option

- ○ Given statement is false.
- ○ Given statement is true.
