Health issues (5) Topic8

repeat **Topic 8. Equity issues in Education: Health** 10june2023

Next issue that we will discuss is health. Different family backgrounds, different cultures, financial situation all this helps in determining what kind of health facilities your family is able to provide to you. Without proper health care a child will not be able to make it through even the primary years of education.

If you have good health you are able to do a lot. Of course good health comes from lots of factors like: food, nutrition, exercise, relaxation all of these contribute in good health.

Inequality and social conditions give rise to unequal and unjust health outcomes for different social units. We may have health facilities but more detailed facilities like medicine, injections, x-rays are not available. Government health care facilities do not guarantee proper health treatment. Private health care facilities are frightfully expensive. Again you are not able to afford that you will not be able to do well for your children and the children will not be able to do in education.

Poor nutrition includes poor protein intake children performed less in the achievement test. Protein is what human muscles are made of. Students who get more protein perform well in the achievement tests. Iron is an important part of the hemoglobin of the blood, less iron includes less energy and hence not able to get good education.

Example of south africa (3) Topic26 pg22

Examples from South Africa 10june2023

At a primary school in Durban, south Africa, teachers use grandmothers as a resource to develop the reading abilities of the children. Grandmothers have been trained to listen to children read and to encourage them to interact with texts. Twice a week, grandmothers come to the school and work with the groups of children in the playground or under a tree.

This also frees up the teachers to work with the children who may be experiencing difficulties in learning and who may need individual attention from the teacher.

1. Aik madarisa ambiguity pr tha Topic76 pg74

Government Ambiguity

12june2023

It is not only Madaaris that are resisting some of the government reforms; the government itself seems to be split internally on the matter. In her study, Bano argues that the government already has regular contact with most Madaaris, and through visits by district-level officials, the government has an overview of who attends Madaaris, how they are financed and what is taught.

The government position is also seen as ambiguous by the Madrassa leaders, who are critical of the government clamping down on moderate schools, while Madaaris known to have links to militant groups are perceived to operate freely.

The relationship between the Pakistani state and the religious institutions is thus marked by distrust.

2. Dosra tha quality education kaisy relate krti hy free and accessible education sy Topic19 pg17

Topic 19. Free and Accessible Education 10 june 2023

Free and accessible is both a trend and an issue in education. In developed countries it is already a trend while in developing countries it is an issue. Despite encouraging developments there is still an estimated 115 to 130 million children not attending schools. How do we get these children in schools?

Among those who enroll in primary schools large number drop out. This is because of the hidden cause which the families are not able to manage. UNESCO views free and accessible education as a dynamic approach of responding positively to pupil diversity and of seeing individual differences as problems, but as opportunities for enriching learning."

The move towards free and accessible education is not technical movement but a movement with a philosophy- A philosophy to tolerate and motivate them in a diverse classroom. All children have a right to get education that does not discriminate based on any factor.

3. 3rd define krna tha racism sexism ko 9/12 Topic51 pg39

Types of prejudice 10 june 2023

✓ **Racism**- the belief that one's own culture or racial heritage is innately superior to that of others, hence, the lack of respect or appreciation for those who belong to a different race.

✓ • **Sexism**

A system of attitudes, actions and structures that subordinates others on the basis of their sex where the usual victims are women.

- **Classism**

Distancing from and perceiving the poor as 'the other'

- **Religious intolerance**

Prejudice against those who are followers of religious other than one's own.

- **Education for tolerance and respect**

There is a need for schools to educate citizens not to accept hateful propaganda about the different other and instead appreciate other cultures and respect cultural differences.

No 'you' statements.

Use statements that begin with the word "I". Do not use statements that include the word you, because these statements make people feel defensive.

Slow

Remember, it takes time to settle a conflict. Go slow at first because conflict resolves usually encountersome rough roads in the beginning. Keep using your I-way map to reach safer roads.

Detour Ahead

Sometimes tempers are flaring so much that it may be necessary to take a temporary detour from the communication I-way.

Once the tempers have calmed down, you may begin using I statements to solve the problem

Once the tempers have calmed down, you may begin using I statements to solve the problem

Exit ahead

Most conflicts can be resolved through effective communication. However, if you begin to feel threatened or unsafe, you should exit the communication I-way and seek safety.

Construction zone

Construct an I-way statement by following these directions:

Use the word I State how you feel

State specific behavior that you do not like

State your willingness to cooperatively resolve the problem

Merge Ahead

After using properly constructed I-way statements, individuals can begin to share ideas for how to solve the problem. Often, the best solution is reached when two people merge their ideas together.

End of construction

After reaching a solution that the two individuals agree will work, they can resume normal activities.

Islamic Education is valued in itself 10june2023

For those who choose a madrassa education for themselves or for their children, it provides not only religious knowledge, but a value system that sets it apart from other, non-religious forms of education. Some families choose madrassa education because it is seen as the most appropriate form of schooling, and having a child with a religious degree grants the family prestige.

Nelson's study of local educational demands in Rawalpindi finds that 41% of the respondents had religious education as their top priority (2006).

It was called the Thomas-Kilmann model after them. Under this model, the term 'conflict' is described as the condition in which people's concerns can't be compared with the others. If two or more people or groups care about things that are contradictory to each other, then the outcome is conflict.

8. Education of Madras level 5 Topic64 pg59

Topic 64 What is Madrassa Education? 10june2023

The term 'Madrassa' originates from the Arabic word 'Darasa' which means 'To Study'. Madrassa, in general, is referred to a school that imparts Knowledge.

But in the context of Pakistan or even in the contemporary South Asia the term 'Madrassa' is often used for Islamic educational institutions along with 'Dar-ul-aloom' and 'Jamia'.

Madaaris, plural for Madrassa, are at least a thousand years old. Accounts differ as to where madaris began, with origins being traced back to Baghdad, Syria, Morocco, and other rich cultural hubs in the Middle East.

Today, however, the madrassa typically functions as a privately owned school where a religious teacher instills his pupils with the basic tenets of Islam and the Arabic language.

9. Peace education 3 Topic36 pg27 3/12

What is peace education? 2 Repeated 10june2023

Peace education is the process of acquiring values, knowledge, attitudes, skills, and behaviors to live in harmony with oneself, others, and the natural environment. There are numerous United Nations declarations and resolutions on the importance of peace.

What is peace education? 10june2023

Peace education is the pedagogical efforts to create a world at peace.

By peace, we mean more than the absence of violence (negative peace).

Peace in its most positive aspects embraces ideas of justice, global sustainability and the eradication of structures that promote insecurity: poverty, hunger, malnutrition, and lack of access to resources.

Processes of peace education include the following

12june2023

- Skills of conflict resolution (transformation)
- Attitudes
- Values

These rest on the ethos of having enough for all to sustain life.

🌟 impact of poverty on education pg7

Impact of poverty on learning

12june2023

Children of mothers who receive 5 years of primary education are 40% more likely to live beyond the age of 5. Because when the mothers are educated they know something about the health. Therefore children tend to survive beyond infancy.

Research proves that a farmer with at least 4 or 5 years of education can be more productive than those who did not attend a class. Because these 4 or 5 classes can help him in thinking in getting him involved in wondering how things can be improved. He is willing to take risk, he is willing to try new things.

Poverty affects student learning in many ways. Poverty results from several factors. Of course food is one major factor. Lack of emotional support, stress and distress also do not help you learn much. Health issues also need to be addressed. A healthy body can have a healthy mind. Cognitive stimulation and safety are critical issues in 21st century.

🌟 Four stages of peace education Topic33 pg26

Topic 33. Peace Education II Four stages of peace education 12june2023

Peace studies are trans- rather than inter-disciplinary

As a rule in a good peace researcher, the PhD field is no longer visible. There are often four stages on this road.

In the multi-disciplinary stage a university, or a conference, invites specialists from several disciplines to contribute to peace studies from their angle.

People or discipline who never meet because our universities fragment human knowledge keep us apart fighting for funds and recognition, learn the art of tolerance.

In the inter-disciplinary stage a university or a conference encourages dialogue among approaches, an obvious method being to address the same event or phase in history, or the same problem.

In the **cross disciplinary stage** this dialogue goes further, into mutual learning.

A psychologist may pick up a sociological hypothesis about status disequilibrium (like high on education, low on power) as aggression productive and explore the psychology; a sociologist may explore the social effects of cognitive consonance as peace of mind. Usually such explorations are bilateral.

Topic 34. Transcend Approach

In the **trans-disciplinary stage**, based on the preceding three or not, the problem that determines the choice of intellectual tools and they will usually have to come from the tool chests of several disciplines.

Like for health studies. But in this process other disciplines will also learn and change. **Historians** for instance, will focus more on peace and on how war could have been avoided, economics more on survival and equity etc.

4. Convention Millennium Development Goals (MDGs) 12 june 2023

Eight millennium development goals were set by the United Nations for the signatory countries. Following are the details of those **8 MDGs**

I. Eradicate extreme poverty and hunger

We need to feed our population through a balanced diet.

II. Achieve universal primary education

Universal means across the globe. Primary education up to grade 5 should be provided to all free and mandatory.

III. Promote gender equality and empower women

Equal access to primary and post primary education for girls. Gender equality especially in Pakistan is a difficult task. But according to MDGs girls have to achieve that as well.

IV. Reduce child mortality

Mortality is the death rate. There could be many reasons like malnutrition, diseases, poor health care, poverty, not enough food. We need to get sure that we can eradicate that.

V. Improve maternal health

Good healthy mother would breed good healthy child.

VI. Combat HIV aids, malaria and other diseases

In our case it could also include dengue.

VII. Ensure environmental stability

We have polluted water, polluted air. Our entire population should receive clean and safe water.

VIII. Develop a global partnership for development

More aid, more debt relief, more access to essential drugs etc. in other words living in cooperation.

The male enrollment is unfortunately dropped over the course of time. However, in the female side there is 8-9 % increase in the enrollment. If we want to keep the balance every child of school age should be in school. The table shows that girls at all years still have lesser enrollment rate than boys enrollment in primary sector.

Your suggestions about the successful story of Indonesia and Cuban pg77

Indonesia

According to the Asian Development Bank's project on Madrasa Education Development in Indonesia 2014, the madrasa education system in Indonesia is under the responsibility of the Ministry of Religious Affairs, while the general education system is decentralized.

Madaaris were formally integrated into the national education system, and now follow the national curriculum and education standards set by the government.

Madaaris mostly serve disadvantaged communities and attract more female students so targeting them through education programs helps promote economic growth and improve civic knowledge.

Madaaris have improved education management information system and district education statistics of schools and Madaaris.

With decentralization, local governments also need to pay significantly more attention to Madaaris in remote areas.

Lately, Madaaris in Indonesia have increased enrollment rates, reduced dropout rates and improved academic performance of students in the national exams, providing the foundation for better employment and advanced education opportunities and identifying candidates for overseas training programs.

Recent madrasa reforms improved salaries and provided resources for teachers and principals to

Further reforms include: teaching methodologies, implementation of new curriculums, after-school remedial programs and scholarships for disadvantaged students, capacity building of madrasa administrative leadership etc.

Cuba- Success Story

Cuban model for education can also be comprehensively applied to our madrasa education system in order to provide worldly as well as religion-oriented education, ultimately providing young minds with healthy future prospects.

After the completion of high school, in madaaris or otherwise, the children are given a choice of a degree or a line of career. The children may opt for either a Philosophical Degree or Vocational Training, before embarking on their future career paths.

The State then picks professionals and skilled persons from this lot and integrates them into the economic, social, industrial or political sector. This way the gaps in unemployment and inequality in the education system gets bridged.

Foreign students have been studying religious education subjects in Pakistan for a long time. Students of more than 64 countries including the US, UK, Africa, India, China, and Russia are getting education from the Pakistani seminaries.

After 9/11, the issue of foreign students came into the limelight. Under pressure, the government of Pakistan started an operation to send them back.

With strict enforcement, numbers of international students are nominal at the moment, and no fresh students are allowed to study in Madaaris.

19june2023

The role of madaaris in politics has been important ever since the inception of religious political parties in Pakistan. Religio-political parties have been present in Pakistan since pre-partition days of the sub-continent.

After partition, Deobandis in Pakistan formed the Jami'at Ulama-e-Islam (JUI) whereas the Bareilvi school of thought followed a similar line by establishing its political party, Jami'at Ulema-e-Pakistan (JUP).

The Ahl-e-Hadith sect and the Shia also developed religious political parties in the same manner. All the religious political parties have extended their network in Madaaris of their respective sect.

According to a PIPS survey (2008), a majority of madaaris have political affiliations. According to that survey, about 62% of the Madaaris had political linkages – 59% were affiliated with religio-political

How religion helps in equity issues in education in Pakistan? Topic15 pg14

Topic 15. Equity Issues in Education: Religion

19june2023

Pakistan is significant on the geo-political state. Pakistan is second largest Muslim populated country and fastest youth population increase. This is important to understand the role that religion plays in social, economic, and political life of its citizens.

We only spend a little of the GDP in education. In last decade or so, Pakistan has seen violent extremism in Pakistan. The minorities are not secure in Pakistan. With this trend of thinking going on in the country it is getting more difficult to keep the minorities secure so that they can contribute in the development of the country. Starting from the independence of Pakistan, there were missionary schools, like convents, were available and providing good education to Pakistan. But now they have become scarce.

In 2006 when the curricula were revised, the government focused on revising the old curricula of the country to build reforms. The reforms have leaned on the 22nd article of the constitution which codifies the rights of religious minorities.

Despite the efforts of the government it has been 6 years the revision have been incorporated. Who is evaluating what new textbooks offer. The existing textbooks have been reprinted since 2006. Content needs to be looked at. What kinds of content and texts/ pictures are given in the textbooks?

There are some groups that see others with tolerance and some groups who see religious minorities with bigotry. So there are two extremes in our society.

Topic 30. Peace Education

Why study Peace education?

19june2023

Why the peace education is important. Safety and security of an individual is important. When these two things are threatened then conflict arises.

Peace studies, is a process. It has to be born, reborn, again and again. It means you have to refine the curriculum every now and then. Therefore we need to revisit the curriculum for peace studies on a regular basis.

Conflict could be in the system, society, or even in the families. Starting from smaller units we will look into the macro level.

Peace studies explore handling of conflict by peaceful means. Conflict can be resolved through argumentation but how do we resolve a conflict peacefully is what we study in peace studies. Only then the peace can prevail.

Q3: Health issues topic8 pg8

Topic 7. Equity issues in Education: Income 19june2023

Income is the money that comes into the household, whether it is through agriculture, industry, or job, but whatever the money that comes into house is the income.

The research has shown that better the income of a house, the chances are more that the child will get better education, better life. Compared to less income the chances are that the child will get less opportunities. The family size is also way too large in low income families.

How are we going to address these issues? Health comes in and along with health family planning is also important. The life of their children will be better if they had lesser children.

Additional private cost includes things like examination fee, private fee because sometimes schools do not deliver what they are supposed to do. The stationary items, notebooks, transportation cost. When the family is unable to provide food three times a day, they are more likely to not to provide these additional private costs.

If we want to control poverty by preventing the children of poor to grow up into poor we have to ensure that through education, services, and training. As it is said that if you are born poor that does not matter, but if you live poor then it is your fault.

Lacking teachers, teaching materials and basic facilities, the introduction of the regular government curriculum may be beyond the means of these smaller Madaaris.

Topic 69 **The debate (challenges)** 19june2023

Madrassa Challenges

1. Registration of madaaris is a major problem which is debated across the board. The exact figure of madaaris is not clearly identified. Only those madaaris which are registered with one of the

five previously mentioned wafaqs or boards can be numbered. It is believed that a large number of madaaris are operating without any formal affiliation and registration.

2. Madrassa curriculum is under heated debate inside the madaaris and beyond. According to one school of thought, madrassa curriculum does not address the modern requirement of the present era. Many observers believe that some subjects being taught in madaaris foster provocation, leading students to extremism and militancy.
3. Since 1999, the issue of madaaris reforms has been negotiated between the government and the administrations of wafaqs or boards. It is not clear what development has been made so far. What are the demands of the madaaris and which of them have been accepted by the government? What is the stance of the government in this regard?

Topic 21. Elements of Free and Accessible Education 19june2023

There are four key elements of free and accessible education

Free and accessible education is process.

1. It is about learning how to live with difference and learning how to learn from difference.
2. Free and accessible education is concerned with the identification and removal of barriers. It involves collecting collating and evaluating information from a wide variety of sources in order to plan for educational improvements in policy and practice.
3. Free and accessible education is about the presence, participation, and achievement of all students.
 - Presence means where children are educated, and how reliably and punctually they attend.

- Participation relates to the quality of their experiences whilst they are there.
 - Achievement is the outcome of the learning.
4. Free and accessible education involves a particular emphasis on those groups of learners who may be at risk of marginalization, exclusion or underachievement. The groups that are more at risk should be given special attention. This is where keen steps are to be taken.

Attitudes Aims 19june2023

In situations where others express ethnic stereotypes, students will respond by countering the stereotype in some way, such as correcting misinformation, or providing examples of individuals who do not fit the stereotype.

Student has to identify the stereotype. Unless the student identifies stereotypical behaviours he will not be able to cater that behavior. Then you can correct the behavior. Student also to control has to misinformation. If someone is giving misinformation then you have to correct it.

Students will be able to list the contributions of the different ethnic groups in their community or country to the society as a whole.

Students will be able to give at least one reason why ethnic stereotypes can be harmful.
