MCQS

1. Which of the following is the primary purpose of educational psychology?

A) To teach students how to study

B) To understand how students learn

C) To develop new teaching methods

D) To evaluate student performance

Answer: B) To understand how students learn

2. The term "cognitive development" refers to:

A) The physical growth of a child

B) The increase in intellectual abilities

C) The social skills children develop

D) The emotional maturity of children

Answer: B) The increase in intellectual abilities

3. According to Piaget, which stage of development is characterized by abstract thinking?

A) Concrete operational stage

B) Formal operational stage

C) Sensorimotor stage

D) Preoperational stage

Answer: B) Formal operational stage

4. Vygotsky's concept of the zone of proximal development emphasizes:

A) Independent learning

B) The role of the teacher as a guide

C) The importance of peer learning

D) The difference between what a learner can do alone and with help

Answer: D) The difference between what a learner can do alone and with help

MCQS

ZB

5. Which of the following is a key feature of the behaviorist learning theory?

A) Active problem-solving

B) Reinforcement and punishment

C) Social interaction

D) Cognitive structuring

Answer: B) Reinforcement and punishment

6. According to Maslow's hierarchy of needs, which of the following needs must be met first?

A) Esteem needs

B) Safety needs

C) Self-actualization

D) Physiological needs

Answer: D) Physiological needs

7. Which of the following is an example of intrinsic motivation?

A) Studying to get a good grade

B) Learning because it is interesting

C) Completing homework to avoid punishment

D) Participating in class for a reward

Answer: B) Learning because it is interesting

8. The concept of "scaffolding" refers to:

A) Creating independent study opportunities

B) Adjusting support as learners gain competence

C) The permanent support provided by a teacher

D) Offering standardized tests to measure learning

Answer: B) Adjusting support as learners gain competence

9. Which of the following best describes a "fixed mindset"?

A) Belief that intelligence can be developed with effort

B) Belief that intelligence is innate and unchangeable

C) Belief that learning is about social interaction

D) Belief that everyone can succeed equally

Answer: B) Belief that intelligence is innate and unchangeable

10. Which strategy is most effective for promoting student motivation?

A) Giving rewards for every achievement

B) Fostering autonomy and choice

C) Using repetitive drills

D) Emphasizing competition

Answer: B) Fostering autonomy and choice

11. What is the primary function of formative assessment?

A) To assign final grades

B) To measure long-term learning outcomes

C) To provide feedback for improvement

D) To test students' overall knowledge

Answer: C) To provide feedback for improvement

12. In the context of learning, what does the term "metacognition" mean?

A) The ability to remember learned information

B) The process of thinking about one's own thinking

C) The emotional aspects of learning

D) The passive reception of knowledge

Answer: B) The process of thinking about one's own thinking

13. According to Erikson, the primary challenge in adolescence is:

A) Trust vs. mistrust

B) Identity vs. role confusion

C) Autonomy vs. shame

D) Integrity vs. despair

Answer: B) Identity vs. role confusion

14. Which of the following is an example of cooperative learning?

A) A student working alone on a project

B) A group of students solving a problem together

C) A teacher delivering a lecture

D) A student listening to a podcast

Answer: B) A group of students solving a problem together

15. Which of the following is an example of extrinsic motivation?

A) Learning because it is enjoyable

B) Solving a problem for the sense of accomplishment

C) Reading to earn a reward

D) Engaging in a hobby for relaxation

Answer: C) Reading to earn a reward

16. A teacher who gives constant positive reinforcement for correct behavior is using which of the following techniques?

A) Classical conditioning

B) Operant conditioning

C) Observational learning

D) Cognitive restructuring

Answer: B) Operant conditioning

17. The principle of "individual differences" in educational psychology suggests that:

A) All students should be taught in the same way

B) Students have different learning styles and abilities

C) Teachers should focus on group learning only

D) Intelligence is fixed and cannot change

Answer: B) Students have different learning styles and abilities

18. A teacher uses real-life examples to help students relate to the material. Which of the following theories does this approach align with?

A) Behaviorism

B) Constructivism

C) Information processing theory

D) Social learning theory

Answer: B) Constructivism

19. A teacher encourages students to assess their own learning and reflect on their strengths and weaknesses. This is an example of:

A) Peer assessment

B) Self-assessment

C) Formative assessment

D) Summative assessment

Answer: B) Self-assessment

20. Which of the following describes the "law of effect" in behaviorism?

A) Behavior is reinforced by immediate consequences

B) Learning is based on the repetition of tasks

C) Behavior changes based on internal cognitive processes

D) Reinforcement is only effective when given intermittently

Answer: A) Behavior is reinforced by

21. Which of the following best defines a learning disability?

A) A cognitive disorder that prevents the ability to think logically

B) A delay in the physical development of a student

C) A condition that impairs the ability to learn specific skills

D) A student's inability to work in a group

Answer: C) A condition that impairs the ability to learn specific skills

22. Which of the following is a feature of collaborative learning?

A) Working individually on tasks

B) Competition between peers

C) Sharing knowledge and working together to solve problems

D) Teacher-centered instruction

Answer: C) Sharing knowledge and working together to solve problems

23. In the context of education, "differentiated instruction" refers to:

A) Using the same teaching methods for all students

B) Adapting teaching strategies to meet diverse student needs

C) Focusing only on high-achieving students

D) Giving the same test to all students

Answer: B) Adapting teaching strategies to meet diverse student needs

24. Which of the following is most associated with the theory of multiple intelligences?

A) B.F. Skinner

B) Howard Gardner

C) Albert Bandura

D) Jean Piaget

Answer: B) Howard Gardner

Midterm preparation file

25. The "primary reinforcer" in operant conditioning is:

A) A reward that is inherently satisfying

B) A token given for good behavior

C) An activity that a student enjoys

D) A tangible object

Answer: A) A reward that is inherently satisfying

26. A student is able to solve problems logically but cannot think abstractly. According to Piaget, the student is in which stage of development?

A) Sensorimotor

B) Preoperational

C) Concrete operational

D) Formal operational

Answer: C) Concrete operational

27. Which of the following is an example of a nonverbal cue that can affect learning?

A) A student's written assignment

B) A teacher's facial expression

C) A student's oral response

D) A textbook's content

Answer: B) A teacher's facial expression

28. A teacher uses praise to increase a student's participation. This is an example of:

A) Positive reinforcement

B) Negative reinforcement

C) Punishment

D) Shaping

Answer: A) Positive reinforcement

Midterm preparation file

29. Which of the following is the best example of an effective formative assessment strategy?

A) A midterm exam

B) A quiz given every two weeks to track progress

C) A final research paper

D) A standardized test

Answer: B) A quiz given every two weeks to track progress

30. In the context of learning, the "working memory" is:

A) The permanent storage of information

B) The temporary storage where active thinking occurs

C) The brain's ability to recall past experiences

D) The part of memory that stores visual information

Answer: B) The temporary storage where active th

31. A teacher asks students to summarize a lesson at the end of each class. This strategy is an example of:

A) Formative assessment

B) Summative assessment

C) Peer review

D) Self-reflection

Answer: A) Formative assessment

32. Which of the following best describes a constructivist approach to teaching?

A) Students passively receive information

B) Students build new knowledge based on prior experience

C) Teachers direct all learning activities

D) Learning is based on memorization and repetition

Answer: B) Students build new knowledge based on prior experienceinking occurs

Midterm preparation file

33. According to the social learning theory, learning occurs through:
A) Direct reinforcement
B) Observation and imitation of others
C) Structured study sessions
D) Active problem-solving
Answer: B) Observation and imitation of others

34. What is the main focus of the cognitive theory of learning?
A) The role of environmental stimuli in learning
B) The mental processes involved in learning
C) The social context of learning
D) The emotional responses of students
Answer: B) The mental processes involved in learning

35. Which of the following strategies is most likely to help students develop critical thinking skills?
A) Repetitive drills and practice
B) Encouraging independent research and inquiry
C) Providing direct answers to questions
D) Giving students multiple-choice tests
Answer: B) Encouraging independent research and inquiry

36. According to Kolb's experiential learning theory, learning is most effective when:
A) Students follow strict guidelines
B) They engage in concrete experiences and reflect on them
C) They focus solely on theoretical knowledge
D) Teachers provide all the answers
Answer: B) They engage in concrete experiences and reflect on them

Midterm preparation file

37. In which of the following situations would a student be most likely to experience "learned helplessness"?

A) Receiving praise for efforts

B) Repeated failure despite trying hard

C) Working in a group where everyone contributes

D) Learning in a supportive environment

Answer: B) Repeated failure despite trying hard

38. Which of the following best describes a “growth mindset”?

A) Belief that intelligence is static and unchangeable

B) Belief that intelligence can be developed through effort

C) Belief that success is determined by external factors

D) Belief that mistakes are always detrimental to learning

Answer: B) Belief that intelligence can be developed through effort

39. The primary focus of Bloom’s Taxonomy is to:

A) Classify learning objectives according to complexity

B) Assess students' personality traits

C) Develop standardized testing techniques

D) Measure students' emotional development

Answer: A) Classify learning objectives according to complexity

40. Which of the following learning strategies involves using mental imagery to remember information?

A) Rehearsal

B) Elaboration

C) Visualization

D) Chunking

Answer: C) Visualization

MCQS

Midterm preparation file

41. A teacher uses an online quiz to evaluate the progress of students throughout the semester. This is an example of:
A) Formative assessment
B) Summative assessment
C) Peer assessment
D) Criterion-referenced assessment
Answer: A) Formative assessment

42. Which of the following best defines “executive function” in cognitive development?
A) The ability to memorize large amounts of information
B) The ability to plan, make decisions, and control impulses
C) The ability to perform physical tasks efficiently
D) The ability to learn from social interactions
Answer: B) The ability to plan, make decisions, and control impulses

43. A teacher who encourages students to ask questions and engage in problem-solving activities is fostering:
A) Passive learning
B) Deep learning
C) Surface learning
D) Repetitive learning
Answer: B) Deep learning

44. Which of the following is an example of a negative reinforcement?
A) Giving a reward for good behavior
B) Removing a disliked task after a student performs well
C) Adding extra homework as punishment
D) Ignoring a student's disruptive behavior
Answer: B) Removing a disliked task after a student performs well

45. Which of the following is a characteristic of an inclusive classroom environment?

A) Students with disabilities are segregated into separate classes

B) All students, regardless of ability, are taught together

C) Only high-achieving students are allowed to participate in class discussions

D) Teachers focus exclusively on academic learning

Answer: B) All students, regardless of ability, are taught together

46. Which of the following is an example of "positive punishment" in operant conditioning?

A) Giving a student extra assignments for poor behavior

B) Taking away a student's privileges for good behavior

C) Giving praise for completing homework

D) Removing a student from class to calm down

Answer: A) Giving a student extra assignments for poor behavior

Passing criteria of this course

Letter Grade	Grade Points	Equivalent Percentage
A+	4.00	90-100
A	4.00	85-89
A-	3.66 - 3.99	80-84
B+	3.33 - 3.65	75-79
B	3.00 - 3.32	71-74
B-	2.66 - 2.99	68-70
C	2.00 - 2.65	61-67
D	1.00 - 1.99	50-60
F	0.00	00-49

Passing Criteria for a Course:

The passing criteria is defined in such a way that it ensures the student shall be consistent in his studies throughout the semester.
Therefore, for passing a course/subject, student shall fulfill the following:
a) Secure minimum 20% score in Formative Assessments/Mid terms
b) Secure minimum 20% score in Final Term Examinations.
c) Secure at least 40% marks in aggregate while fulfilling the above requirements

Course Selection and Credit Hours

Q: How do I select courses when the course selection is open?
A: Follow these steps:
1. Check the credit hours allowed by your university (e.g., 21, 18, or 15 credit hours).
2. Each subject typically has 3 credit hours.
3. Divide the total allowed credit hours by 3 to determine how many subjects you can select.
Examples:
21 credit hours = 7 su18 credit hours = 6 subjects
15 credit hours = 5 subjects
Remember, the university may allow different credit hours for each student, so check your specific allowance.
By following these steps, you can make informed decisions during course selection and manage your credit hours effectively.
