EDU 654 Final Term

Lecture 19-45

Q: What is imagery?

Imagery is a powerful force for perception and understanding. It may be of some geometrical shape, or of a graph or diagram, or may be some set of symbols.

Q: Define visual system?

⇒ Visual system has a modeling power.

⇒ Visual system is a powerful tool for long term memory.

Q: What is thinking?

⇒ Whatever you are thinking you must ask questions about that to yourself.

⇒ Thinking is storing things in different sections of mind.

Q: Four ules of Harvard calculus?

1) Graphically
2) Symbolically
3) Numerically
4) Verbally

Q: Define Meaningful Learning?

Meaningful learning should be coupled with meaningful assessment.

Scanned with CamScanner

Q: Important factors for Success in future?

⇒ Innovation → (create something new)
⇒ Communication
⇒ Collaboration
⇒ Problem Solving

Q: What is Knowledge creation?

It is the ability to search your own database in a creative and new way.

Q: Important things in JigSaw's Learning?

⇒ Think aloud / conversation
⇒ Imagination
⇒ Visual imagination is powerful tool to understand the concepts.
⇒ Try to make a story which connects all the images and concepts in one link.

Q: Define JigSaw Method? Important

The JigSaw Method is a cooperative learning technique in which Students work in small groups. It is used for the acquistion of presentation of new material, review, or informed table.

Q: Benefits of JigSaw Technique?

↙ imp

Scanned with CamScanner

Q: Define Creative Tension?

A situation where disagreement or discord ultimately gives rise to better ideas or outcomes.

Q: Hypothesis Testing?

Hypothesis Tests are procedures for making rational decisions about the reality of facts.

Q: What is Science?

Science does not purvey absolute truth. Science is a mechanism. It is a system of testing your thoughts against the universe and seeing whether they match.

Q: Pedagogical Strategies should be developed that allow?

=> Individual learning pace
=> Instant feedback
=> Excitement, wonder and enjoyment of students in classroom.

Q: Commendments for teachers?

for long

Scanned with CamScanner

Posing Problems with a Context

Q: Which points teacher focused in classroom?

⇒ Creativity
⇒ Critical thinking
⇒ Communication
⇒ Collaboration.

Q: Define 4C Model?

⇒ Context: Resent a real life story, Problem or scenario in a context.
⇒ challenge: Incrementally, make the Problem a challenge.
⇒ choice: Let the students explore the choices that they have.
⇒ Consequences: Allow students, to think critically about the consequences of adopting each choice.

imp for long.

Q: What is Human Computer interface (HCI)?

You can't make choices of your teacher's availability as you interact with the computer and the interface that you interact with.

⇒ **Advantages of HCI**

⇒ very flexible with use of switches
⇒ Good for "expert" users.
⇒ Uses the fewest system resources.

Scanned with CamScanner

Disadvantages of HCI

=> Require the user to learn "complex" command or language.

=> "Hidden" features i.e you don't know the commands you won't knows the features are there

=> Not very good for novice users.

Qn: Which three areas HCI Merges?

=> Psychology
=> Computer Science
=> Virtual Design.

Qn: Basic HCI Heuristics?

=> Rate of responsiveness
=> Error recognition and communication
=> Interface feedback.

Qn: Write the names of innovative companies?

1) Apple 2) Google

Qn: What is innovation?

The process of making changes to something established by introducing something new. It applies to --- radical or incremental changes to products, processes or services.

Scanned with CamScanner

Q: Profile wanted by APPle and google? (6)

when companies hire which are characteristics are used

⇒ Innovation
⇒ Collaboration
⇒ Communication Skills.

Q: Use of Technology in different Models?

Virtual University Model

Khan Academy Model.

Q: Defining Games?

A form of competitive activity or sport played according to rules.

Q: Benefits of using Game-based Learning? (GBL)

1) Gets student attention
2) Students get a positive experience about learning.
3) Rememorize concepts or facts.
4) Reinforce and consolidate knowledge in a friendly environment.
5) Understand the consequences of our choices.

Q: what is narrative?

When relationships b/w the concepts moves in a same direction.

Scanned with CamScanner

Q: Types of narratives?

⇒ Logical narrative
⇒ Temporal narrative
⇒ Spatial narrative

Q: Define Story?

When there is a human motive in the connections of narrative, it becomes story.

Q: Define Drama?

A play for theatre, radio or television. Drama is an art form that explores human conflict and tension.

Q: Storytelling as a Pedagogical Tool?

Storytelling is delivering information in an organic form. The storyteller, and the performer share a similar purpose: to inform, engage, and entertain their audience.

Q: What are the major stages in Schooling that needs improvement?

⇒ Books must be interactive.
⇒ Students should be excited need to be enabled by teacher to discover.
⇒ Information access Point must be other sources as well as Schools.
⇒ Interactivity must be Present in teaching.
⇒ Transformation of knowledge can be possible in areas when school buildings are far away through online or mobile Schooling.
⇒ Smart devices can be applied to learning.

Q: Points in conventional teaching ?

1) Accreditation
2) Assessment
3) Rules and Regulations.

Q: List of linear graph and their applications?

⇒ Cartesian Plane
⇒ one to One correspondence
⇒ Four quadrants
⇒ Cartesian product
⇒ Ordered Pairs
⇒ Scale of Graphs
⇒ construction of tables satisfying linear equations.
⇒ conversion units ⇒ Graphical Solution of equations

Q: What is Assistive Technology?

Any device or tool that enables the students to participate in the learning activities.

Q: Step in an e-learning class?

Step 1: ⇒ Triggering event
⇒ Sense of Puzzlement
⇒ Dissonance

Step 2: Exploring the issue or problem by gathering and exchanging relevant information.

Step 3: integrating and making sense of information by connecting ideas in a meaningful way.

Step 4: Resolving the issues by applying and testing the ideas either directly or indirectly.

Q: Individual experience?

⇒ Reading ⇒ writing ⇒ Doing

Q: Phase in an e-learning experience?

1) Triggering event / Dissonance
2) Problem exploration and information gathering
3) integrating and making sense of this information
4) resolving the issues by applying the ideas either directly or indirectly.

Scanned with CamScanner

Q:- Basic rules in class:-

⇒ Welcome the participants.
⇒ Encourage them to discover
⇒ The role of teacher must be a facilitator

Q:- Access to traditional classrooms:?

The street smart children who are working in workshops, selling goods at shopes etc. don not have access to formal education system and hence are deprived of schooling. There are inbuilt limitations of a traditional classroom.

Q:Write variable that impact a traditional classroom?

⇒ Pedagogical strategies in the classroom.
⇒ Social interaction for students and the teacher
⇒ Collaborative learning coupled with enriched social presence.

Q:- importance of Social Presence in an online classroom:-

The instructor's Role
Instructor's issues
Feedback & Time

Scanned with CamScanner

Q: Steps to create cognitive Presence

⇒ Create a triggering event
⇒ Explore the Problem
⇒ Integrate new ideas and meanings
⇒ Come to a resolution.

Q: Define Creativity and innovation?

Creativity and innovation are the heart of a Powerful shift occuring in our lives as Society is moving from an industrial economy to a knowledge economy.

Creativity and innovation are life long skills and Practices that Promote not only individuals but also our economy.

Q: How can we teach creativity & innovation?

1) Design Projects to bring our creativity
2) Create a cultural that Promotes creativity and innovation.
3) Scaffold for creativity and innovation.

Scanned with CamScanner

Q: What is Cognitive Presence in classroom and what are four stages?

Cognitive Presence is the heart of an educational experience that is creating and sustaining a community of inquiry where students are engaged in a collaborative and reflective process.

1) Practical inquiry which includes understanding an issue or Problem.
2) Searching for relevant information.
3) Connecting and integrating that information.
4) Actually confirming the understanding.

Q. Write Strategies for teaching students with Physical disabilities?

Children with Physical disabilities, once taught in separate classes and even separate schools, now learn beside their Peers in regular classroom.

Q: What is Game based Learning?

The learning method of using games while teaching a subject. Games that are used for this Purpose have been designed with the idea of achieving learning outcomes.

Scanned with CamScanner

Q: What Points teacher keeps in mind while Posing a Problem to Students?

⇒ The learner should appreciate the Problem and could identify the input and output.
⇒ Move from Simple to complex.
⇒ Take into account the Prior knowledge of students.
⇒ Divide and conquer is a Powerful tool to solve a complex Problem.

Q: Three companies that were famous when technology first came?

i) Commodore (canadian company)
2) Apple (Steve Jobs company)
3) RadioShack (Tendi cooporation)

Q: What was Faiz ahmad Faiz pedagogy?

In 1938, there was no concept of technology in education. Faiz addresses the Poor and those who do not have many facilities in their lives in his Poetry. In the interview of Faiz Ahmad Faiz, the revolutionary idea addressed is that teacher were the common resource at that time and it did not matter that the teacher belonged to a Particular institution. A teacher was the teacher of all students.

Scanned with CamScanner

Q:- What is narrative.

When relationship b/w concepts moves in same direction is know as narrative.

Q:- Why Asha close ended questions?

close ended questions are often asked to collect facts about respondents. They usually take less time to answer.

Q:- What is Pedagogy?

The method and practice of teaching.

Q:- Difference b/w old and Modern classroom?

old classroom	Modern classroom.
1) Single room School	- Many classes in School.
2) Single instructor	- Sing instructor for School
3) Limitted Content	- Same content for whole class
4) Immediat feedback	No imediate feedback
5) Limited technology	- Advance technology
6) No Admission Test	- Admission test is mendatory.
