EDU654 MIDTERM MCQS BY MOIN AKHTAT

1. The lecture will be communicated more effectively if teachers
a) Read the prepare notes
b) Prepare good notes in advance and use them as their guides
c) Engage students in immediate discussions
Answer: b

2. ---------- are a very powerful support for thinking.
a) Images
b) Concrete things
c) Entity
d) Material
Answer: a

3. Teacher usually avoid hypothesis testing in classroom because it is ----------
a) Time consuming
b) Difficult
c) Impossible
d) Not important
Answer: a

4. The psychological state of asking questions in classroom is said to be ----------
a) Problem solving
b) Taking experience
c) Giving feedback
d) Testing ability
Answer: a

5. Metacognition is not important for:
a) Assessment of learning
b) Problem solving
c) Teaching
d) Rote learning
Answer: d

6. ---------- Technology is mostly used by non- consumers.
a) Modern
b) Disruptive
c) Lower level
d) High level
Answer: b

7. The shortest distance between two points is known as
a) Distance
b) Displacement
c) Velocity
d) Speed
Answer: b

8. For science subjects, ---------- method is followed to teach.
a) Demonstration
b) Lecturing
c) Cooperative
d) Socratic
Answer: a

9. Discovery-based learning is characterized by----------
a) An emphasis on investigation of real-life situations
b) A highly structured learning environment
c) An emphasis on lifelong learning
d) A comparative task structure
Answer: a

10. Thinking is driven by----------
a) Answer
b) Question
c) Assessments
d) Test
Answer: b

11. ---------- is the report of an item of news in a newspaper, magazine or broadcast.
a) Story
b) Drama
c) Narrative
d) None of the above
Answer: a

12. A teacher is teaching the concept of "melting and dissolving" in the classroom. She is asking questions from the students during lecture, which of the following is the reason of asking questions in classroom
a) To engage and challenge pupil
b) To promote memorization of exercise in classroom
c) To check on prior knowledge
d) To promote reasoning and problem solving
Answer: a

13. Computer system consist of:
a) Hardware and software
b) Input and output devices
c) Processors and backing storage
d) Monitor, mouse, keyboard and processor
Answer: a

14. Visual system has a ---------- power.
a) Modeling
b) Unusual
c) Imperfect
d) Irregular
Answer: a

15. Successful educational practices evolve from the application of---------- methods.
a) Analog
b) Scientific
c) Virtual
d) Technical
Answer: b

16. In jigsaw technique, students are directly engaged with the ----------
a) Administrator
b) Material
c) Tech
d) Teacher
Answer: b

17. The thinking about the process of thinking is called ----------
a) Metacognition
b) Application
c) Analysis
d) Evaluation
Answer: a

18. Which part of thinking is concerned with lateral thinking?
a) Stimuli
b) Perception
c) Coding
d) Encoding
Answer: b

19. There are ---------- level of learning outcomes.
a) Two
b) Three
c) Four
d) Five
Answer: d

20. Which concept of the following was developed by Polya in his book?
a) How to use technology
b) Plan to solve the problem
c) How to give motivation to students
d) Plan for assessing the students
Answer: b

21. Rudyard Kipling was born in ----------
a) Bombay
b) England
c) America
d) Delhi
Answer: a

22. According to James E. Zull, learning means changing the ----------
a) Behavior
b) Grades
c) Situation
d) Brain
Answer: d

23. Teachers thinks about the method to teach is called as:
a) Coaching
b) Training
c) Tutoring
d) Pedagogy
Answer: d

24. The rate of rate of displacement is
a) Acceleration
b) Speed
c) Momentum
d) Velocity
Answer: a

25. ---------- is an important part of any learning process.
a) Reflection
b) Rote learning
c) Understanding
d) Memorization
Answer: a

26. The purpose of teaching is to facilitate:
a) Acting
b) Practicing
c) Learning
d) Teaching
Answer: c

27. Which type of questions force us to deal with complexity?
a) Short questions
b) Open ended questions
c) Deep questions
d) Dead questions
Answer: c

28. There are ----------categories of new technology
a) Two
b) Three
c) Four
d) Five
Answer: a

29. Which of the following concept was given by James E Zull?
a) Problem solving
b) Artificial intelligence
c) Understanding the brain function
d) Pedagogical content knowledge
Answer: c

30. Which option from the following is the art of teaching?
a) Content
b) Pedagogy
c) Technology
d) Assessment
Answer: b

31. What is the most important thing for the student's learning?
a) Drill
b) Rote memorization
c) Motivation
d) Understanding
Answer: d

32. There are ---------- stages of Poly's method.
a) Two
b) Three
c) Four
d) Five
Answer: c

33. Why will you ask questions from students during the course of the lecture?
a) Are the students carefully listening to your lecture?
b) To learn which one of the students is the brightest one
c) To learn whether students are understanding (the lecture) or not.
d) To assist the students
Answer: c

34. In which country of the world the most recommended book in high school is conceptual physics?
a) China
b) Russia
c) Scotland
d) United state
Answer: d

35. The average velocity and the instantaneous velocity of an object will be the same if
a) The object's speed is constant
b) The object's acceleration is zero
c) The object's velocity is always positive
d) They are never the same
Answer: a

36. Kinesthetic learning learn best
a) By doing
b) By hearing
c) By using text and watching videos
d) In calm, quite surroundings
Answer: a

37. Following is an example of a set except:
a) All toys of Ali
b) All toys of Nariman
c) All friends of Ali and Nariman
d) Multiplication of Ali and Nariman's toys with their friends
Answer: d

38. The time consumed in ---------- learning is worthwhile.
a) Lecture
b) Book
c) Inquiry
d) Discovery
Answer: d

39. Following are the generation of technology except
a) Tube board
b) Transistor
c) Integrated circuit
d) Computer
Answer: a

40. Without reflection, learning is only
a) Activity
b) Drill
c) Motion
d) Movement
Answer: a

41. If a teacher is teaching geometry to the students and she is not asking questions, what could be the reason behind it?
a) It requires a lot of skills on the part of the teacher
b) It encourage students participation
c) Provides the teacher with feedback
d) Participation engages students' interest
Answer: a

42. Metacognition is not important for:
a) Assessment of learning
b) Problem solving
c) Teaching
d) Rote learning
Answer: d

43. ..... is the report of an item of news in a newspaper, magazine or broadcast.
a) Story
b) Drama
c) Narrative
d) None of the above
Answer: a

44. An explanation for why something occurs or how it occurs is called.....
a) Theory
b) Concept
c) System
d) Scheme
Answer: a

45. We can stimulate our thinking with .....
a) Questions
b) Answers
c) Books
d) Journals
Answer: a

46. Hardware of a computer can be defined as:
a) The machine and programs making up computer
b) The parts of a computer system that you can touch
c) The operating system of a computer
d) The program needed to run the computer
Answer: b

47. Knowledge cannot be transferred; it can only be constructed and discovered through learner's experience is the perception of ……. theory.
a) Constructivist
b) Behaviorist
c) Cognitivist
d) Contextualist
Answer: a

48. Following is an example of a set except.
a) All toys of Ali
b) All toys of Nariman
c) All friends of Ali and NAriman
d) Multiplication of Ali and Nariman's toys with their friends
Answer: d

49. Jigsaw encourages ….. and active leaning.
a) Cooperation
b) Isolation
c) Self learning
d) Separate reading
Answer: a

50. When information is presented to the students through visualization it is stored in:
a) Long term memory
b) Short term memory
c) Conscious memory
d) Sensory memory
Answer: d

51. Which theory assumes that a learner is essentially passive, responding to environmental stimuli?
a) Behaviorism
b) Cognitivism
c) Constructivism
d) Information processing
Answer: a

52. One will have more chances of being successful as a teacher, if
a) He belongs to the family of teachers
b) He is trained in teaching
c) He has ethical values and good character
d) He can organize his teaching material systematically and conveys the same effectively
Answer: d

53. Visual system has a ….. Power
a) Modeling
b) Unusual
c) Imperfect
d) Irregular
Answer: a

54. The time consumed in …….. Learning is worthwhile.
a) Lecture
b) Book
c) Inquiry
d) Discovery
Answer: d

55. What should be the aim of a teacher when he or she enters a classroom?
a) Read
b) Discuss
c) Role play
d) Bring change
Answer: d

56. Teachers usually avoid hypothesis testing in classroom because it is …….
a) Time consuming
b) Difficult
c) Impossible
d) Not impossible
Answer: a

57. Which type of the following people could not afford the higher technology?
a) Consumer
b) Non consumer
c) Vendor
d) None of the above
Answer: b

58. An outstanding lecture must comprises of the following except:
a) Interesting
b) Engaging
c) Informative
d) Boring
Answer: d

59. Discovery based learning has a direct link with the theory of …..
a) Constructivism
b) Cognitivism
c) Behaviorism
d) Connectivism
Answer: a

60. Thinking is driven by …..
a) Answer
b) Question
c) Assessment
d) Test
Answer: b

61. The teacher must keep in mind when posing a problem all points except:
a) The learner should appreciate the problem and could identify the input and output.
b) Move from complex to simple
c) Move from simple to complex
d) Take into account the prior knowledge of students
Answer: b

62. The rate of rate of displacement is.
a) Acceleration
b) Speed
c) Momentum
d) Velocity
Answer: a

63. Non-intuitive problems need ……
a) Reflection
b) Guidance
c) Visualization
d) Storytelling
Answer: a

64. Teacher is a … word.
a) Latin
b) Germanic
c) Spanish
d) Italian
Answer: b

65. The concept of sets was included first time in 1967 in ….. Syllabus.
a) Fsc
b) Bsc
c) Ba
d) Matric
Answer: d

66. …….. symbolizes teachers and teaching.
a) Apple
b) Banana
c) Mango
d) Grapes
Answer: a

67. Meaningful learning comes from contradiction>resolution> and ……..?
a) Understanding
b) Evaluating
c) Interpreting
d) Observing
Answer: a

68. Which option from the following is related to the subject matter?
a) Technology
b) Content knowledge
c) Pedagogy
d) Design
Answer: b

69. Addition of two sets is find out by applying the
a) Union
b) Intersection
c) Taking subset
d) Making proper set
Answer: a

70. If we present the information to students through visualization, where the information will be stored?
a) Sensory register
b) Long term memory
c) Working memory
d) Short term memory
Answer: a

71. The degree of success a teacher has in using technology for instruction is mostly dependent on:
a) Teacher method
b) Student growth
c) The teacher's ability
d) Teacher's experience
Answer: c

72. Set is defined as:
a) Any well-defined collection or list of districts objects
b) Consists of some elements of another set
c) Two or more type of elements is present in it
d) None of the above
Answer: a

73. Jigsaw method is a --------- learning technique.
a) Direct
b) Cooperative
c) Discovery
d) Inquiry
Answer: b

74. The problem-based learning model has all of the following features except
a) Authentic investigation
b) Collaboration
c) Highly structured learning environment
d) Production of artifacts
Answer: c

75. An explanation of why something occur or how it occurs is called:
a) Theory
b) Concept
c) System
d) Scheme
Answer: a

76. Discovery-based learning differs from the presentation method because it has a focus on-------
a) presenting ideas
b) Demonstrating skills
c) Presenting concepts
d) Facilitating investigations
Answer: d

77. Asking the right question is the fundamental to the process of -------
a) Testing
b) assessing
c) Teaching
d) Learning
Answer: d

78. -------- Technology is mostly used by non-consumers.
a) Modern
b) Disruptive
c) Lower level
d) Higher level
Answer: b

79. In---------- classroom the carefully crafted question are generated by both teachers and students.
a) Direct
b) Indirect
c) Lecture based
d) Curious
Answer: d

80. Discovery based learning has a direct link with the theory of ----------
a) Constructivism
b) Cognitivism
c) Behaviorism
d) Connectivism
Answer: a

81. Which of the following concept was given by Marvin winsky in his book the emotion machine?
a) Problem solving
b) CS analyzing
c) Computer programming
d) Artificial intelligence
Answer: d

82. Discovery based learning is --------
a) Student centered
b) Teacher centered
c) Group focused
d) School centered
Answer: a

83. A better understanding of brain function will promote a ----------approach to learning.
a) Flexible
b) Inflexible
c) Rigid
d) Resistant
Answer: a

84. Which of the following is computer hardware?
a) Mouse pad
b) MS office
c) Computer desk
d) Processor
Answer: d

85. Teachers are closely associated with the ------- process.
a) Study
b) Learning
c) Evaluating
d) Observing
Answer: b

86. Which of the following expectations students have from group learning
a) To get appreciation from the group
b) To distribute the work equally
c) To ignore individual viewpoint
d) To attract isolated student towards the group
Answer: b

87. What type of students ability is assessed by the following question: what is CPU
a) Cramming
b) Analyzing
c) Synthesizing
d) Evaluating
Answer: b

88. ---------- is a situation where disagreement or discord ultimately gives rise to better ideas or outcomes.
a) Creative tension
b) Asking question
c) Hypothesis testing
d) None of the above
Answer: a

89. When preparing for problem-based instruction the teacher would be least concerned with
a) Communicating goals clearly
b) Preparing answers to the problem situation
c) Designing interesting and appropriate problem solutions
d) Planning logistics
Answer: b

90. The statements of learning achievements are called as
a) Learning assessment
b) Learning objectives
c) Learning methodology
d) Learning outcome
Answer: d

91. The aim of teacher is
a) To help student get through in examination
b) To make student disciplined
c) To develop the ability of the students
d) To develop social behavior among the student
Answer: c

92. ---------- is an educational philosophy which holds that learners ultimately construct their own knowledge
a) Constructivism
b) Cognitivist
c) Behaviorism
d) Connectives
Answer: a

93. Meaningful learning comes from Contradiction>Resolution and ----------
a) Understanding
b) Evaluation
c) Interpreting
d) Observing
Answer: a
