Usage / Restrictive Labels :

A dictionary help us in the usage of word. It means dictionary tell us how we use this word in phrase.

This information is important for
writing.

General Information:

A dictionary
gives us a general information
about word as where it is
used, its spelling etc.

Lecture # 02

PRONUNCIATION

What is Pronunciation?

Pronunciation:

A dictionary will help
us to learn the pronunciation of
any word. It tells us that how
we can speak any word.

Example:

chokus → k sound

church → chey sound

The word "chokus" which begins with
the word "ch" is gives us the
sound of k while the word
"church" which begins with the word
"ch" is gives us the sound of
uadu / punjabi letter.

The another example of pronunciation-

tion is ;

Ration → sh sound

Machine → sh sound

In this example, we can see that In word "Ration" "tion" gives us the sound of "sh" while In the word "Machine" "ch" also gives us the sound of "sh".

There are different ways for speaking a word. Sometime a same word gives us a different sound and sometime different words give us a same sound.

Phonemic Symbol :

These are the special symbols which are used to speech a sound. They are represented by slash brackets //.

Example :

Mother

Decide

Lecture # 3, 4

Reading , Topic , Main Idea

* In this unit, we will discuss the Topic , main idea of the paragraph and the detail which support the main idea.

After studying this lesson, we can improve our reading skills.

Topic Of Paragraph :

It is the subject of whole paragraph. It means

Lesson # 08

Word Formation - Prefixes

Prefix:

A prefix is a letter or group of letters which is added in the beginning of stem/word

Example

* declared (stem)
underdeclared (un is prefix)

* able (stem)
disable (dis is prefix)

Here, we see the some examples, through which we can easily distinguish between a prefix and a suffix.

* stem → happy
prefix → unhappy

* possible → stem
impossible → prefix.

* stem → hard
suffix → harden

etc. etc.

Imp

Lecture # 15

Evaluating Text Interpreting Visual Data

Making Comparison:

Formation:

There are several ways of showing similarities or differences that exist between or amongst things.

Equivalence:

The word which is used to show equality are called equivalence.

e.g.

as as

similar

each

etc.

Non-Equivalence:

The word which is used to show inequality are called non-equivalence.

e.g.

not as as

greater than

unequal

etc.

Lecture # 19

Scanning And Language Functions

When we read a passage and give a complete focus to the information of passage is known as scanning.

Some of the important synonyms and antonyms are given below.

Words	Synonyms
Said	mentioned
own	respective
progress	advances
keeping	retaining
Appropriate	suitable

Words	Antonyms
Bypassed	passed through
Increased	reduced
Not producing	creating
Don't use up	consume

All the exercises of lesson no 18 and 19 are important.

Most Imp

Lecture # 20

Classifying, Cause And Effect Relationship

Cause and Effect :-

Cause means why something happened?
and Effect means what happen? It means what are the reason or result.

Classification :

The word classification means "to separate a object from one another."

Example of cause and effect.

Adiya feel hungry , then she eat a meal.

Here Alia feel hungry , it is a cause and she eat a meal it is a effect or result

There are severel ways to expressing these relations

Most Imp.

Lecture # 22

The Compound-Complex Waiting Sentence Type

Sentence :

A sentence is a basic unit of language which expresses a complete thought. It has at least a subject and a verb to state a complete thought.

Simple Sentence :

A simple sentence contain once independent clause

This new laptop has - already crashed twice.

Compound Sentence :

A compound sentence contains two independent clauses joined by linking words (And, but, or, then etc)

e.g :

This new laptop has already crashed twice but I have no idea why.

Lecture # 21

Presenting Information Graphically

We can represent our information through the help of flow chart.

Flow Chart:

To make a flow chart successfully, a programmer should be aware of the sequence of steps needed to obtain a correct solution of a problem. It should be noted that flow-chart is not a program but only a step which helps us in the preparation of program.

Some of the important synonyms are given below.

Words

route

try

answer

show

Unlimited

Synonyms

beat / avenue

effort / trial

key / solution

appearance

boundless

Complex Sentence :

A complex sentence has one independent clause and one or more dependent clause.

e.g. This new laptop has already, which I bought yesterday, crashed twice.

Participle :

When we add a part of speech so it makes a participle. It is the combination of verb and adjective.
