

ENG516

FINAL TERM PREPARATION FILE 2025

IMPORTANT SHORT AND LONG QUESTION

NATASHA STUDY ZONE

OBJECTIVE

- ❖ Letters are **basically** used for external communication.
- ❖ **Modern businesses** have a wide variety of channels to choose from - letters, memos, emails, text messages.
- ❖ Letters allow a certain **complexity** and **length** of communication.
- ❖ The length can range from one page of text to more than **three** pages.
- ❖ Letters need to be **proofread**, and have to follow three steps of writing.
- ❖ **Conciseness** is another principle to be kept in mind, as well as fulfilling the requirements of information of the audience.
- ❖ **Emails** are often short, speedy, written hurriedly, without thought.
- ❖ Letters allow a better “**paper trail**” as compared to emails and for a better record of documentation.
- ❖ **Letters** can be written for a variety of purposes, e.g. for inquiries, cover letters, complaints, conveying bad news, confirmation and recommendations.
- ❖ **Complimentary close** is placed two spaces below the letter body and includes, “*Sincerely yours*”, “*Yours truly*”.
- ❖ **Memos** are one of the three most used forms of communication, others being letters and emails
- ❖ The use of **email** is part of the modern corporate culture.
- ❖ **three** most used forms of communication are letters, emails, memos and reports.
- ❖ The content is developed **specifically**
- ❖ Letter of inquiry is written to give information about degree, requirements, **costs**.
- ❖ A **transmittal letter** gives information to clients, vendors and tells upfront what they are receiving, helping to focus readers’ attention on important things
- ❖ A **recommendation letter** is written to recommend an employee, a project or a service.

- ❖ The **bad news letter** also starts with an introduction which is a buffer.
- ❖ **Memos** are one of the three most used forms of communication, others being letters and emails..
- ❖ **email** is part of the modern corporate culture.
- ❖ **Companies** are geared towards using email.
- ❖ **Important** and **routine** means of communication in business is the memorandum, memo in short.
- ❖ It is for **communication** within the company and addresses a wider audience, who might be receiving complimentary copies.
- ❖ **Memos** are flexible and are written for a wide range of purposes.
- ❖ They serve the purposes of **vertically communication**, addressing individuals up in the management and down to subordinates, as well as laterally, to co-workers.
- ❖ Inquiry **Memos** can ask questions about processes and procedures.
- ❖ **Email** has become a predominant means of communication all over the world
- ❖ **emails** is that it saves time.
- ❖ **CIA** (Cash in Advance)
- ❖ **Style** and **tone** are determined by the audience
- ❖ **Emails** can be used for a number of external as well as internal purposes in business and industry.
- ❖ **Inquiry** To ask questions about upcoming procedures, tasks, equipment.
- ❖ **written** as letters, memos, emails while long reports are formal, and have standardized components like contents, abstracts, illustrations and titles
- ❖ **Audience** could be internal (High-Tech or Low-Tech)
- ❖ **Informational**: Give factual information
- ❖ **Analytical**: Analyze causes behind the information
- ❖ **Persuasive**: Give information and draw conclusions

- ❖ **Progress Report** could be daily, weekly, monthly reports, project, status, completion date
 - ❖ **Development** of the main ideas is what makes the report effective.
 - ❖ **CVs** are normally sent together with a covering letter.
 - ❖ school or college graduate, aged **18-25**.
 - ❖ **functional resume** when you are a non-traditional job applicant, returning to work after a gap and are not fresh graduate
 - ❖ Writing **proposals** is an important area in business communication.
 - ❖ Microsoft Word offers **emails** templates from which to choose which suits your purpose and audience
 - ❖ The **discussion** is the largest part of the report and it requires development of the concepts of the summarized topics
 - ❖ Developing the content means that you develop your **ideas** persuasively, observe ethical technical writing norms, organize your content using graphics and communicate persuasively.
 - ❖ important to organize your content, use graphics, and be ethical in order to persuade the reader to your point of view.
- Confirmation email**
- ❖ you can deliver your resume – by **mail version**
 - ❖ 70% of the world population **is COLLECTIVIST**

SUBJECTIVE

CURRENTLY PAPER QUESTIONS

Assessment and Learning

1. **Why aims of lesson should be targeted by teacher:** Teachers should target lesson aims to ensure students achieve specific learning objectives, stay focused, and measure progress.
2. **Assessment for learning vs assessment of learning:** Assessment for learning focuses on ongoing evaluation to improve teaching and learning, while assessment of learning measures student achievement at a particular point.
3. **Benefits of assessment:** Assessment benefits include improved student learning, teacher evaluation, and curriculum development.
4. **Advantages of portfolios:** Portfolios showcase student progress, provide authentic assessment, and promote reflection and self-assessment.

Teaching past perfect tense?

Teach past perfect tense using timelines, sentence examples, and exercises that demonstrate its usage.

Importance of clear instructions?

Clear instructions ensure students understand tasks, reduce confusion, and promote effective learning.

Subject-specific assessment rules?

Each subject should have its own assessment rules to ensure fairness, consistency, and validity.

Using current newspapers in higher schools?

Newspapers can facilitate discussions, promote critical thinking, and connect learning to real-life issues.

Surveys in teaching methods?

Surveys gather feedback, identify areas for improvement, and inform teaching strategies.

Problems in cross-cultural communication?

Problems include language barriers, cultural differences, and ethnocentrism.

Ethnocentrism

Ethnocentrism refers to the tendency to view one's own culture as superior to others.

Assessment in distance teaching?

Assessment in distance teaching uses various methods, such as online quizzes, discussions, and assignments.

Specific and diffused culture?

Specific cultures have clear boundaries, while diffused cultures blend with others.

ERPP

ERPP stands for English for Specific Purposes (ESP) and focuses on teaching English for specific professions or purposes.

Confucianism and communication patterns?

Confucianism emphasizes respect, hierarchy, and harmony in communication.

Kirkpatrick's model?

Kirkpatrick's model evaluates training effectiveness through four levels:

- reaction,
- learning,
- behavior
- results.

IMRD model

IMRD stands for Introduction, Method, Results, and Discussion, a common structure for research papers.

Peer and self-assessment

Peer and self-assessment promote critical thinking, reflection, and personal growth.

5 elements of controller

The 5 elements of a controller include

- input,
- processing,
- storage,
- output,
- feedback.

Electronic media in classrooms

Electronic media enhance engagement, facilitate learning, and provide access to resources.

2 levels of spoken language

The two levels of spoken language are fluency and accuracy.

Accuracy in EMP

Accuracy in English for Medical Purposes (EMP) ensures effective communication in medical contexts.

3 principles of designing courses and materials for distance education:

- Principles include clear objectives
- interactive materials,
- ongoing evaluation.

Optional components of letters:

Optional components include

- headings,
- subheadings,
- attachments.

Pitfalls of task-based assessment

Pitfalls include unclear tasks, inadequate feedback, and overemphasis on product over process.

Pre-course test

A pre-course test evaluates students' prior knowledge and skills before starting a course.

Elements of a report

Elements include

- introduction,
- body,
- conclusion,
- recommendations.

Types of reports

Types include

- technical reports,
- business reports,
- academic reports.

Radiotelephony

Radiotelephony refers to voice communication using radio waves.

Mutual feedback

Mutual feedback involves exchanging feedback between teachers, students, and peers to promote growth and improvement.

Self-assessment

Self-assessment involves evaluating one's own performance, progress, and goals.

5 factors causing cognitive workload:

Factors include

- complexity,
- novelty,
- ambiguity,
- uncertainty,
- time pressure.

Advantages of authentic materials

Advantages include

- promoting real-life language use,
- increasing motivation,
- providing cultural insights.

3 MARKS QUESTIONS

Variety of channels in businesses

- ❖ Letters

- ❖ Memos
- ❖ Emails
- ❖ Text messages

Rationale behind choosing one channel

- ❖ Topic
- ❖ Format
- ❖ Audience
- ❖ Security
- ❖ Destination

Purposes to write a letter

- ❖ Inquiries
- ❖ Cover letters
- ❖ Complaints
- ❖ Conveying bad news
- ❖ Confirmation
- ❖ Recommendations

Mostly used forms of communication

1. Memos
2. Emails
3. Letters

The choice of channel (given above) depends on:

- ❖ The purpose of the communication
- ❖ The audience
- ❖ The security
- ❖ Accessibility

Criteria for memos

- ❖ Subject line
- ❖ Discussion
- ❖ Audience Recognition
- ❖ Style and Tone
- ❖ Format

Reasons for Writing Memos

- ❖ Can access those are working in the field

- ❖ Not all companies have access to email
- ❖ Some unions demand hard copies
- ❖ Some information cannot be sent electronically, e.g. cancelled checks

Reports can differ according to:

- ❖ Purposes
- ❖ Length
- ❖ Formality
- ❖ Audience
- ❖ Channels

Channels in which reports can be written

1. Memos
2. Emails
3. Letters

Components of Resumes

- ❖ Identification
- ❖ Career Objectives
- ❖ Summary of Qualifications
- ❖ Employment
- ❖ Education
- ❖ Professional Skills
- ❖ Professional Affiliations
- ❖ Military Experience
- ❖ Optional Components
- ❖ Portfolios
- ❖ References
- ❖ Personal Data

Components of long reports

- ❖ Front matter
- ❖ Text
- ❖ Back matter

Components of Title page

- ❖ Title of the report
- ❖ Name of the company
- ❖ Writer/s submitting the report

- ❖ Date of submission

Areas in Business Communication

- ❖ Administration
- ❖ Customer service
- ❖ Distribution
- ❖ Marketing
- ❖ Finance

Three schools of thought exerted an influence on management science

- ❖ Scientific Theory
- ❖ Classical Management
- ❖ Behavioral movements
- ❖ Business skill for management

Manager communicate for carrying out the following functions:

- ❖ Leadership
- ❖ Team building
- ❖ Delegation

Five areas where the future manger will have to communicate

- ❖ Planning
- ❖ Organizing
- ❖ Leading
- ❖ Controlling
- ❖ Staffing

Marketing concepts

- ❖ Advertising
- ❖ Brand
- ❖ Brand identity
- ❖ Launch
- ❖ Consumer
- ❖ Public relations
- ❖ Campaign

Discourse of the Pilot

- ❖ Identifies his address
- ❖ Identifies himself
- ❖ Flight level

Discourse of the Controller

1. Identifies aircraft
2. Identifies himself
3. Acknowledges receipt of info
4. Passes instructions to proceed
5. Call sign

Factors that contribute to cognitive workload on Pilots

- ❖ Length of the interaction
- ❖ Code switching
- ❖ Prosodic features
- ❖ Politeness markers
- ❖ Hierarchical relationship

Linguistic Content of Tasks and Activities

Spoken accuracy at five levels:

- ❖ Pronunciation
- ❖ Vocabulary
- ❖ Grammar
- ❖ Discourse

Corrective feedback should be:

- ❖ Timely
- ❖ Effective
- ❖ Regular
- ❖ Sufficient
- ❖ Meaningful
- ❖ Improve learning

Principles of designing courses

1. Setting objectives
2. Needs Analysis
3. Material Development

Levels of Kirkpatrick's Model of evaluation

1. Learner
2. Learning

- 3. Transfer
- 4. Results
- 5. Return on investment

Q. Three schools of thought which have exerted an influence on management science?

- i. Scientific Theory
- ii. Classical Management
- iii. Behavioral movements

Q. 3 principles of designing courses and writing materials for use in distance learning

- i. Setting objectives
- ii. Needs Analysis
- iii. Material Development

Q. enlist 3 areas of legal laws

- i. Language of contracts
- ii. Language of employment
- iii. Language of banking, business law, and company, etc.

Q. What are 3 types of rubric?

- i. Non-weighted rubric
- ii. Weighted rubric
- iii. Holistic rubric

Q. Three moves of CARS

- ❖ Move 1. Establishing a territory
- ❖ Move 2. Establishing a niche
- ❖ Move 3. Occupying the niche

Q. name of the measure of assessment test for the reading comprehension of learners

- ❖ Degrees of Reading Power (DRP)
- ❖ ERDA
- ❖ GORT4
- ❖ ITBS
- ❖ TPRI

Q. Three finance and accounting vocabulary which learner familiar

- i. Balance sheet
- ii. Assets
- iii. Liability

Q. Three varieties of elements in company culture.

- ❖ Work environment
- ❖ Company mission
- ❖ Values, ethics

Q. Five factors of cost analysis part of language report

- i. Profit and Loss
- ii. Survey results
- iii. Lab report results
- iv. Warranties
- v. Maintenance

Q. Three components of functional resume?

- ❖ Identification
- ❖ Career Objectives
- ❖ Summary of Qualifications

Q. three manager function

- 1. Leadership
- 2. Team building
- 3. Delegation

Q. Three components of long report

- ❖ Front matter
- ❖ Text
- ❖ Back matter

Q. Components of reverse resume?

- ❖ Identification
- ❖ Career Objectives
- ❖ Summary of Qualifications

- ❖ Employment
- ❖ Education
- Professional Skills

Q. Factors of cost analysis of long report?

- ❖ Profit and Loss
- ❖ Survey results
- ❖ Lab report results
- ❖ Warranties
- ❖ Maintenance

5 MARKS QUESTIONS

Q. length and scope in report

Reports vary as short reports, comprising of 1-5 pages, scope on single topic, limited time frame, with fewer audience or long reports which can be of more than 5 pages, can have momentous impact, address a larger audience and cost more.

Q.why cost factor is important in email

Cost is another important factor. There are no expenses of paper and other writing postage items. Unlimited attachments can be sent and shipping costs can be avoided. The use of email has additional value of documentation, establishing an 'Email trail', through the threads or string of emails which can be retrieved easily. Information can be archived in files for future reference.

Q. Informational report

They focus on facts. This helps the reader to understand the context, the situation and the topic. The costs, the time, and availability of resources should be conveyed. The data can be conveyed through bullets, by asking questions and giving answers and presenting facts and figures in paragraphs.

Q. Scan-able resumes how it can be delivered?

Most companies use computers to screen resumes. They use a technique called electronic applicant tracking, which scans the resume for key words. The company's computers scan the resume as raster or 'bitmap' image. Then it uses an artificial intelligence scanner to read the text, looking for key words, so that it can be forwarded to the concerned department. This is its most important feature, which tells about job titles, skills, responsibilities, corporate buzzwords, acronyms, abbreviations related to hardware.

Q. Functional resumes

You write a functional resume when you are a non-traditional job applicant, returning to work after a gap and are not fresh graduate. . You have not received education for a job and have changed jobs frequently or you plan to join a new profession. A non-traditional job applicant has to emphasize his skills as related to the job he/she is seeking and quantify his/her accomplishments. Education and experience should be given in reverse chronological order. Both provide the same content, it is only in how the organization of the content varies.

Q. what do you mean by formality of the report

The tone in short reports is informal when written about routine messages, written as letters, memos, emails while long reports are formal, and have standardized components like contents, abstracts, illustrations and titles

Q. correction feedback

In correction, more specific information on learner's performance is given through explanation, of provision of alternatives or eliciting from learners. It tells of what the learners did right and what was wrong. Different teaching methodologies e.g. audiolingualism, humanistic methodologies, and skills approach, etc. offer different approaches to assessment.

Q. What is meant by wash back and how is it achieved?

When the course is designed with the test in mind, its effect is called wash back. It may also be called backwash, test impact, and measurement-driven instruction, alignment with course objectives and test feedback. Beneficial wash back is achieved by basing achievement tests on objectives. Test makers should ensure that the test is known and understood by students and teachers. Assistance should be provided to teachers.

Q. glossary of proposal

A glossary provides clarity for the less specialized audience. Alphabetized glossaries serve the purpose of defining jargon, high-tech terms, abbreviations and acronyms. The purpose is not to burden the text or to slow down the reader by using unfamiliar terms and technical jargon. The provision of glossary helps the reader to look up definitions of such items and those who are familiar with them can continue to read without interference.

Q. Distance Learning

Distance Learning (DE) is not a new concept. It has been used in the 19th C. through the postal services, and in the 20th C. through radio and television. However, technological advances have given it a greater impetus in the 21stC. Computer mediated learning, two way interactive videos and other modern technologies have made distance education an important choice as compared to traditional education.

Q. what is universalism and particularism

The Universalist says that rules and regulations are there to be followed. The particularist would argue that it depends on the situation and people involved. The following example is somewhat simplistic, but

might help to clarify the concept. If a cashier is caught stealing from the till, in a Universalist culture, he or she would probably lose their job. In a particularist culture, the fact that the person was stealing to pay for a child's education might be seen as an excuse for the behavior.

Q. What you mean by investigation report

Investigation report looks at the causes behind an incident. It is not just document about why something happened but why it happened, e.g. someone lost a credit card at a party, and you have to write a report about how and why this happened. The components are an introduction, giving background and an overview, the purpose: Date, objective rationale, location, personnel, and authorization. In a discussion which is the body of the report, the data, findings and the agenda is given. In conclusion, what learnt, discovered, accomplished is written and in recommendations, suggestions are given.

Q. Aims of external proposal

External proposals are aimed for an external audience. They are written to sell a service or a product outside your company. If your company has developed new software, it will need a proposal to market the new item as well as the services which go towards its installation. It will cover such issues as marketing, purchases, contractors and trainers.

Q. Challenges in multicultural communication how can be addressed

Challenges in multicultural communication have to be addressed to communicate with a diverse audience. Internet affects the global economy, and while the use of emails and Facebook facilitates business with better and faster communication, they also pose challenges. For example, a multilingual report, addresses an audience of various cultures who have disparate notions/norms about communication.

Q. Long term orientation in its cultural context

This dimension highlights differences between cultures that see short-term benefits as important (consider, for example, the way some company strategies focus on short-term profits), and those that feel that time spent developing longer-lasting relationships brings greater benefit.

Q. problem of intercultural communication

Intercultural communication takes place when the conversation between two speakers is carried out in a language which is not the L1 of either. Many conversations that bilinguals have, take place in the L1 of one speaker, but not the other.

Q. feedback in distance learning

Giving feedback in a DE program is crucial for its success as students have fewer opportunities to ask for clarification. For maximizing the potential of the program, and raise awareness about strengths, and areas for improvement and to identify action for improved performance, learners need to be aware of their strengths and weaknesses. One of the key reasons for the teacher being involved at all is to provide the kind of specific and targeted response that it is difficult for self- study materials to offer. In some programs occasional meetings or talking on the telephone between teacher and learner are planned, but mostly in DE the feedback is in the form of written feedback on assignments, comments or suggestions about how the learner can improve his/her work. The written comments should be personalized and on a regular basis.

Q. issues to access internet materials

The issue of access to Internet material is another concern, referred to as the 'digital divide'. The speed and quality of access, and the right to uncensored material as well as the right to participate in the production of material on the Internet, is a serious concern. There are issues of disparities of access, which depend on political and economic factors.

Q. multiple choice test

Multiple choice - items consist of a statement (question stem), plus a selection of alternative statements/choices (distracters), with one correct option. The research literature suggests including a minimum of 3 answer choices. MCQs are effective items, they are flexible, easy to implement and to grade. Teachers can access test bank questions through their departments, previous courses, or online resources. Reliability of MCQs depends on grading procedure of question format.

Q. Language for telephony?

Aviation English is the de facto language of civil aviation which is called Radiotelephony; it is a specialized communication between pilots and air traffic controllers, and other personnel associated with the aviation industry, like flight attendants, crew, mechanics and engineers.

Q. Describe the term long term?

Long term orientation: This dimension highlights differences between cultures that see short-term benefits as important (consider, for example, the way some company strategies focus on short-term profits), and those that feel that time spent developing longer-lasting relationships brings greater benefit.

Q. Recommendation report?

Recommendation Reports: After providing and analyzing information, you can recommend action based on findings. The recommendations allow you to tell your audience about why they should purchase, or consider something. Long reports cover information, analysis and recommendations separately; usually these three goals will overlap in the long, formal report.

Q. PPP

A typical approach here is PPP, where language is presented, practiced using a variety of different activities, and finally produced through some sort of communicative activity. A variation on this is the deep-end approach, where learners are asked to perform a task that makes demands on their competence in using language, and then their performance is diagnosed, leading to a focus on the specific language items.

Q. information report

They focus on facts. This helps the reader to understand the context, the situation and the topic. The costs, the time, and availability of resources should be conveyed. The data can be conveyed through bullets, by asking questions and giving answers and presenting facts and figures in paragraphs.

Q. developing business English in distance learning

Distance Learning (DE) is not a new concept. It has been used in the 19th C. through the postal services, and in the 20th C. through radio and television. However, technological advances have given it a greater impetus in the 21stC. Computer mediated learning, two way interactive videos and other modern technologies have made distance education an important choice as compared to traditional education.

Q. why email unsuitable for formal communication

Their casual tone makes them unsuitable for formal communication, like contracts, where a certain degree of formality is required. Emails are almost always deleted as soon as read, as inbox fills quickly, so emails which are considered not important are deleted. Letters allow a better “paper trail” as compared to emails and for a better record of documentation.

Q. function and importance globalization

Globalization has impacted all areas of human life. There is more cultural interaction between culturally diverse groups. A hundred years ago a person would live and die in his/her own culture without confronting another person with a different worldview and belief system. Now, due to globalization, easier and faster means of travel and ITC development, communication all over the world can happen with the push of a button. This has led to the internationalization of education and business, more professional migration, and faster means of travel for education, entertainment and tourism.

Q. difference B/W masculine and feminine cultures

In masculine cultures, achievement is often measured in terms of power and wealth, and emphasis placed on work goals and assertiveness. Feminine cultures see personal goals, human contact, and relationship building as more valuable.

Q. style and tune of an email are determined by the audience

Style and tone are determined by the audience. The use of simple words and short sentences makes for better reception by the audience. Specific detail and concise information should be provided as with other modes of business communication, keeping the tone informal and friendly tone. Formats for emails vary. Microsoft Word offers many templates from which to choose which suits your purpose and audience.

Q. Silence view in different culture

Culture can be analyzed by using a number of dimensions. Five areas are usually seen in differentiating culture. The first one looks into how silence is viewed in different cultures. In some cultures, silence is favored, e.g. in Finns and Asians. In others, it is viewed as a breakdown in conversation leading interlocutors to get uncomfortable in some and to endeavor to fill up the silence. In some societies, silence is important. It is a way to guard your individuality and ward against the fear of someone changing your opinion. This refers to a frequent conversational goal in Western societies for each person to check out his sense of reality (or point of view) against that of other people in the conversation.

Q. Analytical report

Analytical Reports: In analytical reports, you analyze through factual information. Then you expand on it to interpret, to analyze and to draw conclusions. After a more in-depth analysis for other options, pros and cons, you then draw conclusion.

Q. Different ways used in different cultures for welcome greetings

In the introduction you welcome your audience, tell your aim and provide a road map, capture their attention/interest, address them politely, and set the table. Tell your name and your companions' names, welcome them and thank them for inviting you. Next tell them the road map or the thesis statement. Word picture or a variety of openings can be used to capture their attention and interest, telling anecdote, giving names, dates, times, places, etc. Asking questions is a useful technique to involve the audience. Most presenters would agree that the opening part of a presentation is particularly important because it sets the tone for what is to come. The importance of a clear opening cannot be overstated. The audience will not understand stilted jargon and complex construction, so communication that is easy to understand should be used, assuming that your audience is laymen.

Q. illumination evaluations

Illuminative evaluation is designed to help us understand the teaching and learning processes within the course - typically this will look at issues like classroom interaction, or learning strategies used by the participants. Richards (2001) says that illuminative evaluation is employed to find out how different aspects of a program are implemented and this type of evaluation is one way to attain a deeper understanding of the process of teaching and learning that occurs in the program. Examples of illuminative evaluation that Richards provided are finding out the strategies for error correction teachers employ or the strategies students use to deal with different text types. Illuminative evaluation for classroom teachers can be an instrument designed to assess a specific language point or problem to have a better understanding about students' difficulty in acquiring it, so that appropriate actions can be made.

Q. language policy

Language policy is determined by ICAO and how much it is actually used has to be researched. The use of non-prescribed language, to clarify meaning, to carry out cooperative tasks, has to be seen in relation to safety remains an open question. Obstacles to Successful English-Language Policies: One-language policies can have repercussions that decrease efficiency. Proper rollout mitigates the risks, but even well-considered plans can encounter pitfalls. The most common are that change always comes as a shock, employees resist and performance suffers. Steps that companies can take to manage English-only policies include involving all employees, using managers as referees and enforcers, and to take responsibility for ensuring compliance.

Q. Effective resume

Effectiveness of CV depends on how well it conveys the content and information. The style depends on who is going to read it. The page layout and the format should be appropriate. The writer should choose an appropriate font sizes and style. Usually Times New Roman, Calibri, and Aerial are used in technical writing. One should avoid cursive styles. The font size should be between 10-12, with headings in 14-16 size. Avoid using full sentences as three problems are associated with them. First, sentences beginning with the first person pronoun, 'I...' which seems egocentric and become repetitious after sometimes. Furthermore, with full sentences, there are a variety of risks of grammatical errors which might occur. Lastly, sentences take a lot of space, making your C.V. longer than necessary.

Q. Different ways used in different cultures for welcome greetings

In the introduction you welcome your audience, tell your aim and provide a road map, capture their attention/interest, address them politely, and set the table. Tell your name and your companions' names, welcome them and thank them for inviting you. Next tell them the road map or the thesis statement. Word picture or a variety of openings can be used to capture their attention and interest, telling anecdote, giving names, dates, times, places, etc. Asking questions is a useful technique to involve the audience. Most presenters would agree that the opening part of a presentation is particularly important because it sets the tone for what is to come. The importance of a clear opening cannot be overstated. The audience will not understand stilted jargon and complex construction, so communication that is easy to understand should be used, assuming that your audience is laymen.

Q. disadvantages of authentic material

Authentic texts often contain difficult language, unneeded vocabulary items and complex language structures, which causes a burden for the teacher in lower-level classes. Some argue that authentic materials may be too culturally biased and too many structures are mixed, causing lower levels to have a hard time decoding the texts. The solution might be for teachers to decide when and how to introduce authentic materials taking into account especially the students' level of English.

Q. Task Based Test

The task-based approach in language teaching aims at providing opportunities for learners to experiment with and to explore both spoken and written language through learning activities which are designed to engage learners in the authentic, practical and functional use of language for meaningful purposes. Task-based assessments are therefore designed to reflect real-life situations. They focus on performance and language. Performance is assessed using criteria which are worked out beforehand. It is critical that the task designer knows the actual use of language in the target situation from the test taker perspective. Who are the people he/she has to deal with? This takes care of the intercultural aspect. The tasks need to reflect real life situations. For example, if people need to be given presentations, students can be asked to give one. The learner can be assessed according to the needs of the target situation.

Q. Importance of telephone

There is an ease of use, as no technical expertise is required. It is much more cost effective than any other means of communication. This is particularly true in in-company situations where the teacher is often the first line of support for finding the right word, or for clarifying the concepts. Teachers and learners may use the telephone to discuss assignments, plans, or learning themes which are causing problems. Teachers and learners may use the telephone to discuss customers' needs, assignments, plans, and learning themes which are causing problems, as well as for feedback. Using the telephone in this way provides an excellent way to create the interaction which is so necessary for effective language learning. The communication here happens synchronously as interaction is in real time. Furthermore, it gives learning opportunities through an authentic use of language where teachers and learners can access company intranet, and the authentic materials can be availed. DE through telephone is widely practiced, although mobile communication is also catching up. Its SMS feature can be used for continuing education and distance education. In mobile technology, the use of text messaging - SMS is growing every month. Its rapid growth is generating substantial commercial applications and research interest now-a-days. The mobiles SMS service along with a live telecast can be used to create 'almost' an ideal classroom situation.
