بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of God , Most
Gracious, Most merciful

EDU305

MCQS

1. Which of the following is an essential characteristic of a learner-centered classroom? a) Teacher lectures for long periods
- b) Students work independently without any guidance
- c) Teacher facilitates and students are active participants
- d) Learning is driven by textbooks

Answer: c) Teacher facilitates and students are active participants

2. Which of the following is a key component of formative assessment? a) It is used to assign grades
- b) It is used to track student progress during the learning process
- c) It focuses on the final outcome
- d) It involves only written tests

Answer: b) It is used to track student progress during the learning process

3. In a constructivist classroom, learning is primarily: a) Passive
- b) Teacher-driven
- c) Student-centered
- d) Focused on memorization

Answer: c) Student-centered

4. Which of the following teaching methods best supports differentiated instruction? a) One-size-fits-all lectures
- b) Tailored assignments based on students' needs
- c) Giving the same homework to all students
- d) Teaching only through textbooks

Answer: b) Tailored assignments based on students' needs

5. The process by which a teacher helps students connect new knowledge to their existing knowledge is

known as: a) Scaffolding

b) Bloom's taxonomy

c) Feedback

d) Inquiry-based learning

Answer: a) Scaffolding

6. Which of the following is the most effective strategy for promoting critical thinking? a) Giving students memorization tasks

b) Asking open-ended questions that encourage discussion

c) Providing correct answers quickly

d) Focusing only on right or wrong answers

Answer: b) Asking open-ended questions that encourage discussion

7. Which of the following is an example of summative assessment? a) A quiz after each lesson

b) A midterm exam

c) A weekly class discussion

d) A teacher's feedback on a draft assignment

Answer: b) A midterm exam

8. According to Bloom's Taxonomy, which level of learning involves applying knowledge in new situations? a)

Knowledge

b) Comprehension

c) Application

d) Synthesis

Answer: c) Application

9. The theory of multiple intelligences was developed by: a) Jean Piaget

b) Howard Gardner

c) Lev Vygotsky

d) B.F. Skinner

Answer: b) Howard Gardner

10. Which of the following teaching strategies is best for promoting collaborative learning? a)

Independent projects

b) Group discussions and peer teaching

c) Teacher lectures

d) Silent reading assignments

Answer: b) Group discussions and peer teaching

11. Which type of learning occurs when a learner acquires knowledge through direct experience?

a) Vicarious learning

b) Experiential learning

c) Passive learning

d) Rote memorization

Answer: b) Experiential learning

12. Which of the following is an example of formative feedback? a) Providing scores on a final exam

b) Giving a grade for a term paper

c) Giving advice on a student's draft of an essay

d) Providing a certificate of completion

Answer: c) Giving advice on a student's draft of an essay

13. Which of the following is an example of intrinsic motivation? a) Getting a reward for completing a task
- b) Completing a task because it is enjoyable or interesting
- c) Avoiding failure
- d) Receiving praise from others

Answer: b) Completing a task because it is enjoyable or interesting

14. The zone of proximal development is a concept introduced by: a) Jean Piaget
- b) Lev Vygotsky
- c) Erik Erikson
- d) Sigmund Freud

Answer: b) Lev Vygotsky

15. Which of the following is a feature of active learning? a) Passive listening to lectures
- b) Memorization of facts
- c) Engaging students in problem-solving activities
- d) Taking notes during class discussions

Answer: c) Engaging students in problem-solving activities

16. What is the primary focus of formative assessment? a) Summing up student achievement at the end of a unit
- b) Assessing students' learning to guide further instruction
- c) Recording grades for report cards
- d) Comparing students to a set standard

Answer: b) Assessing students' learning to guide further instruction

17. Which of the following is an example of differentiated instruction? a) Giving the same test to all students

b) Assigning tasks that match each student's learning style

c) Teaching one topic for the entire class at once

d) Using one textbook for all students

Answer: b) Assigning tasks that match each student's learning style

18. A teaching strategy that includes asking students to explain their thinking process is called: a)

Reciprocal teaching

b) Think-aloud

c) Peer tutoring

d) Direct instruction

Answer: b) Think-aloud

19. Which of the following is a primary goal of cooperative learning? a) To encourage competition between students

b) To foster individual achievement

c) To promote collaboration and team-based learning

d) To focus on theoretical knowledge only

Answer: c) To promote collaboration and team-based learning

20. In the context of classroom management, what does the term “positive reinforcement” refer to?

a) Discouraging unwanted behaviors

b) Providing rewards for desirable behavior

c) Ignoring student behavior

d) Giving consequences for poor performance

Answer: b) Providing rewards for desirable behavior

21. What is the main purpose of a behaviorist approach in teaching? a) To focus on students' emotional development
- b) To reinforce desired behaviors through rewards and punishments
- c) To promote self-regulated learning
- d) To foster student creativity and problem-solving

Answer: b) To reinforce desired behaviors through rewards and punishments

22. Which of the following best describes the role of the teacher in a constructivist classroom?
- a) To provide information for students to memorize
- b) To create an environment where students construct their own understanding
- c) To focus on delivering structured lessons
- d) To control the pace and direction of learning

Answer: b) To create an environment where students construct their own understanding

23. Which type of assessment measures what students have learned after instruction has been completed? a) Diagnostic assessment
- b) Formative assessment
- c) Summative assessment
- d) Dynamic assessment

Answer: c) Summative assessment

24. Which of the following is an example of metacognitive strategy? a) Repeating information for better retention
- b) Using strategies to monitor and control one's learning process
- c) Writing notes during a lecture
- d) Listening attentively to a teacher

Answer: b) Using strategies to monitor and control one's learning process

Midterm preparation file

21. What is the main purpose of a behaviorist approach in teaching? a) To focus on students' emotional development
- b) To reinforce desired behaviors through rewards and punishments
- c) To promote self-regulated learning
- d) To foster student creativity and problem-solving

Answer: b) To reinforce desired behaviors through rewards and punishments

22. Which of the following best describes the role of the teacher in a constructivist classroom? a) To provide information for students to memorize
- b) To create an environment where students construct their own understanding
- c) To focus on delivering structured lessons
- d) To control the pace and direction of learning

Answer: b) To create an environment where students construct their own understanding

23. Which type of assessment measures what students have learned after instruction has been completed? a) Diagnostic assessment
- b) Formative assessment
- c) Summative assessment
- d) Dynamic assessment

Answer: c) Summative assessment

24. Which of the following is an example of metacognitive strategy? a) Repeating information for better retention
- b) Using strategies to monitor and control one's learning process
- c) Writing notes during a lecture
- d) Listening attentively to a teacher

Answer: b) Using strategies to monitor and control one's learning process

Midterm preparation file

29. The principle that suggests learning should be aligned with students' prior knowledge is known as: a)

Constructivism

b) Scaffolding

c) Vygotsky's Zone of Proximal Development

d) Mastery learning

Answer: a) Constructivism

30. Which of the following best describes the concept of "scaffolding" in teaching? a) Giving students a predetermined answer

b) Providing temporary support that is gradually removed as students gain competence

c) Assigning tasks that are too easy for students

d) Creating an atmosphere of competition between students

Answer: b) Providing temporary support that is gradually removed as students gain competence

31. Which of the following is an example of a formative assessment strategy? a) Final exam

Midterm preparation file

33. The term "differentiated instruction" refers to: a) Teaching the same content to all students

b) Tailoring teaching strategies to meet the diverse needs of students

c) Focusing solely on the most gifted students

d) Using one textbook for all learners

Answer: b) Tailoring teaching strategies to meet the diverse needs of students

34. Which of the following is a key feature of cooperative learning? a)

Students work individually to complete tasks

b) Students are placed in groups to collaborate and learn from each other

c) Teacher assigns tasks to students based on ability

d) Teacher delivers a lecture while students listen

Answer: b) Students are placed in groups to collaborate and learn from each other

35. Which of the following best defines "self-regulated learning"? a) Learning without any teacher involvement

b) Learning that is solely dependent on memorization

c) The process where students monitor and control their own learning

d) Learning that only focuses on group activities

Answer: c) The process where students monitor and control their own learning

36. Which of the following is an example of extrinsic motivation? a) A student reading a book for enjoyment

b) A student completing a task to earn a reward

c) A student enjoying solving a challenging problem

d) A student participating in a class discussion for personal growth

Answer: b) A student completing a task to earn a reward

Midterm preparation file

37. Which of the following teaching methods aligns with a student-centered classroom? a) Teacher-centered lecture

b) Teacher delivers a structured lesson with minimal student interaction

c) Students collaborate and discuss topics in small groups

d) Students passively listen to the teacher

Answer: c) Students collaborate and discuss topics in small groups

38. Which of the following describes an active learning strategy? a) The teacher delivers the lesson and the students take notes

b) The teacher provides students with answers to memorize

c) The students engage in activities that promote problem-solving and application

d) Students work on individual assignments without interaction

Answer: c) The students engage in activities that promote problem-solving and application

39. Which of the following best describes the role of a teacher in a flipped classroom? a) The teacher lectures in class, and students complete assignments at home

b) The teacher prepares resources and provides lectures for students to review at home

c) The teacher gives assignments but does not provide any direct instruction

d) The teacher acts as a passive observer while students work independently

Answer: b) The teacher prepares resources and provides lectures for students to review at home

40. Which assessment type is used to determine a student's strengths and weaknesses before instruction begins? a) Summative assessment

b) Formative assessment

c) Diagnostic assessment

d) Norm-referenced assessment

Answer: c) Diagnostic assessment

MCQS

Midterm preparation file

41. What is the primary focus of Vygotsky's theory of social constructivism? a) Learning is a result of personal reflection and independent discovery
b) Learning occurs best in social contexts with interactions and collaboration
c) Learning is based solely on memorization of information
d) Developmental stages are fixed and universal across all learners

Answer: b) Learning occurs best in social contexts with interactions and collaboration

42. Which of the following is a benefit of using peer assessment in the classroom? a) It reduces the teacher's workload by eliminating grading responsibilities
b) It allows students to take on the role of the teacher and control the learning process
c) It promotes critical thinking as students evaluate each other's work
d) It discourages students from taking responsibility for their own learning

Answer: c) It promotes critical thinking as students evaluate each other's work

43. Which type of assessment provides feedback that helps students improve during the learning process? a) Summative assessment
b) Formative assessment
c) Diagnostic assessment
d) Standardized assessment

Answer: b) Formative assessment

44. The use of collaborative learning strategies most effectively supports which of the following? a) Individual learning styles
b) Social and emotional development
c) Collaborative problem-solving and teamwork
d) Teacher-centered control of the learning process

Answer: c) Collaborative problem-solving and teamwork

45. In the context of assessment, what does the term "validity" refer to? a) The consistency of results when the assessment is repeated

b) The degree to which an assessment measures what it is intended to measure

c) The fairness of the assessment process

d) The ease of administering the assessment

Answer: b) The degree to which an assessment measures what it is intended to measure

46. Which teaching strategy focuses on promoting students' inquiry and curiosity through guiding questions? a) Direct instruction

b) Inquiry-based learning

c) Cooperative learning

d) Behaviorist approach

Answer: b) Inquiry-based learning

Passing criteria of this course

Letter Grade	Grade Points	Equivalent Percentage
A+	4.00	90-100
A	4.00	85-89
A-	3.66 - 3.99	80-84
B+	3.33 - 3.65	75-79
B	3.00 - 3.32	71-74
B-	2.66 - 2.99	68-70
C	2.00 - 2.65	61-67
D	1.00 - 1.99	50-60
F	0.00	00-49

Passing Criteria for a Course:

The passing criteria is defined in such a way that it ensures the student shall be consistent in his studies throughout the semester.

Therefore, for passing a course/subject, student shall fulfill the following:

- Secure minimum **20%** score in Formative Assessments/Mid terms
- Secure minimum **20%** score in Final Term Examinations.
- Secure at least **40%** marks in aggregate while fulfilling the above requirements

Course Selection and Credit Hours

Q: How do I select courses when the course selection is open?

A: Follow these steps:

- 1. Check the credit hours allowed by your university (e.g., 21, 18, or 15 credit hours).**
- 2. Each subject typically has 3 credit hours.**
- 3. Divide the total allowed credit hours by 3 to determine how many subjects you can select.**

Examples:

21 credit hours = 7 subjects

15 credit hours = 5 subjects

Remember, the university may allow different credit hours for each student, so check your specific allowance.

By following these steps, you can make informed decisions during course selection and manage your credit hours effectively.
