STA630 Final Term Objective Past Papers

 **SUBSCRIBE** **AR Lucky Bahi**

اسلام علیکم!

اگر آپ میں سے کوئی (Student) **LMS Handling** کروانا چاہتا ہے یا پھر اپنے LMS کو ٹائم نہیں دے پاتے۔ تو وہ مجھ سے اپنے LMS کے لیے رابطہ کر سکتا ہے۔ اس میں آپ کی تمام (Assignment, Quizzes And GDB's) جمع (Submit) کروائی جائیں گی۔

We are also provide these services:

- LMS handling
- Quizes
- Assignments
- GDB
- Circular Activities
- Project Handling from A to Z.

(SRS, DESIGN DOCUMENT, TEST PHASE, VIVA, FINAL DELIVERBALE, PRE VIVA, FINAL VIVA)

- ✳ Gurantee of 95% maximum to 90% minimun Marks.
- ✳ You will be charged a reasonable Amount

اور اگر آپ میں سے کوئی (Online Classes) لینا چاہتا ہے تو وہ بھی رابطہ کر سکتا ہے

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 1 of 20 (Start time: 02:00:36 AM) Total Marks: 1

Which type of questions should be first in a questionnaire or interview?

Select correct option:

Questions about demographics such as age and gender

Questions about attitudes and behaviors

Most easy question

Difficult questions

Question # 2 of 20 (Start time: 02:00:58 AM) Total Marks: 1

What is the variable called that a researcher manipulates in an experiment?

Select correct option:

Dependent variable

Independent variable

Extraneous variable

None of the given options

Question # 3 of 20 (Start time: 02:01:17 AM) Total Marks: 1

The findings from a study of decision making processes within a UK financial services company can be generalized to:

Select correct option:

Decision making processes in all financial services companies

Decision making processes in the all UK companies

Decision making processes in the researched companies

Companies all over the world

Question # 4 of 20 (Start time: 02:02:56 AM) Total Marks: 1

When accessing the internet, which of these steps is the most essential?

Select correct option:

Recording the full URL

Noting the access dates

Downloading material to be referenced

They are all equally important

Question # 5 of 20 (Start time: 02:03:17 AM) Total Marks: 1

Which of the following means that all the items in a scale or index fit together or measure

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

a single construct?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Scale

Index

Unidimensionality

Weighting

Question # 6 of 20 (Start time: 02:04:39 AM) Total Marks: 1

When you are confident that the experimental manipulation produced the changes you measured in the dependent variable, your study probably has good_____validity.

Select correct option:

Construct

Internal

External

Causal

Question # 7 of 20 (Start time: 02:05:45 AM) Total Marks: 1

What is the reason for consulting handbooks, yearbooks, encyclopedias, or reviews in the initial stages of identifying a research topic?

Select correct option:

They are readily available.

They provide an overview of the issues related to a topic.

They are primary sources.

They avoid reporting statistical data so one can interpret the results more easily.

Question # 8 of 20 (Start time: 02:06:07 AM) Total Marks: 1

When all participants receive all treatment conditions, the study is susceptible to:

Select correct option:

Order effects

Carryover effects

Analysis of covariance

Both A & B

Question # 9 of 20 (Start time: 02:07:23 AM) Total Marks: 1

“The extensive use of chocolate causes pimples”. The given hypothesis is a (an):

Select correct option:

Descriptive hypothesis

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Explanatory hypothesis

Non-Directional hypothesis

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Co-relational hypothesis

Question # 10 of 20 (Start time: 02:07:48 AM) Total Marks: 1
Under which of the following research method is not applicable?
Select correct option:

- Health care
- Business
- Government offices
- Imaginary worlds

Question # 11 of 20 (Start time: 02:08:05 AM) Total Marks: 1
Increasing the size of the sample is likely to:
Select correct option:

- Decrease sampling error but increase non-sampling error
- Increase sampling error but decrease non-sampling error
- Decrease both sampling error and non-sampling error
- Increase both sampling error and non-sampling error

Question # 12 of 20 (Start time: 02:08:24 AM) Total Marks: 1
According to Empiricism, which of the following is the ultimate source of all our concepts and knowledge?
Select correct option:

- Perceptions
- Theory
- Sensory experience
- Logics and arguments

Question # 13 of 20 (Start time: 02:08:39 AM) Total Marks: 1
A literature review requires;
Select correct option:

- planning
- clear writing
- good writing
- All of the given option

Question # 14 of 20 (Start time: 02:08:44 AM) Total Marks: 1
Which of the following is true?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

A study can be internally valid but not externally valid

A study can be externally valid but not internally valid

A study must be both internally and externally valid

The internal and external validity of studies are not related in any way

Question # 15 of 20 (Start time: 02:10:09 AM) Total Marks: 1

Which of the following statements is false?

Select correct option:

Discrete variables allow measurement of an infinite number of fractions of units of measurement.

Discrete variables can only have whole number values.

Continuous numbers can only have whole number values.

Continuous measures do not allow for scores that fall between two number values.

Question # 16 of 20 (Start time: 02:10:29 AM) Total Marks: 1

Which of the following is a discrete variable?

Select correct option:

Age

Nationality

Test score

Income

Question # 17 of 20 (Start time: 02:10:43 AM) Total Marks: 1

How is nominal data presented?

Select correct option:

In order

In discrete categories

Units of equal distance

Data where there is a true zero

Question # 18 of 20 (Start time: 02:10:57 AM) Total Marks: 1

Which of the following is an example of an issue that would be checked in a pilot testing?

Select correct option:

Completion of all questions on a questionnaire

Legible writing

Single responses to all multiple choice questions

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Logical answers between questions (i.e., attributes should be rated high if purchase interest is high)

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 19 of 20 (Start time: 02:11:25 AM) Total Marks: 1

Which of the following is Not included in the Introduction section of a Research proposal?

Select correct option:

Background of the study

Objectives

Sampling technique

Significance

Question # 20 of 20 (Start time: 02:11:43 AM) Total Marks: 1

Bar charts or graphs are used for:

Select correct option:

Categorical variables

Ordered variables

Discrete variables

Continuous variables

Question # 1 of 20 (Start time: 02:48:49 AM) Total Marks: 1

Which one of the following tasks is NOT accomplished by theoretical framework?

Select correct option:

Elaborate the relationship among the variables

Explain the logic underlying the relationship between the variables.

Describe the nature, and direction of the relationships among the variables.

Relates the previous studies.

Question # 2 of 20 (Start time: 02:49:10 AM) Total Marks: 1

Procedures determining what two issues are rarely used in quantitative research?

Select correct option:

Objectivity and subjectivity

Reliability and validity

Accessibility and replicability

Quality and quantity

Question # 3 of 20 (Start time: 02:49:28 AM) Total Marks: 1

What is the variable called, in an experiment, which is manipulated by the researcher?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Stimulus

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Control

Dependent

Independent

Question # 4 of 20 (Start time: 02:50:55 AM) Total Marks: 1

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Experimental

Question # 5 of 20 (Start time: 02:51:09 AM) Total Marks: 1

The application of the scientific method to the study of business problems is called;

Select correct option:

Inductive reasoning

Deductive reasoning

Business research

Grounded theory

Question # 6 of 20 (Start time: 02:51:24 AM) Total Marks: 1

Statistics are used by researchers to:

Select correct option:

Analyze the empirical data collected in a study

Make their findings sound better

Operationally define their variables

Ensure the study comes out the way it was intended

Question # 7 of 20 (Start time: 02:52:39 AM) Total Marks: 1

Why do you need to review the existing literature?

Select correct option:

To give your dissertation a proper academic appearance, with lots of references

Because without it, you could never reach the required word-count

To find out what is already known about your area of interest

To help in your general studying

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 8 of 20 (Start time: 02:52:54 AM) Total Marks: 1

Why is it important to change one variable at a time in single case designs?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Changing one variable allows isolation of the cause of the change

Changing more than one variable at a time confounds those independent variables

Both a and b are true

None of the above

Question # 9 of 20 (Start time: 02:53:45 AM) Total Marks: 1

The scientific method is preferred over other ways of knowing because it is more;

Select correct option:

Reliable

Systematic

Accurate

All of the given options

Question # 10 of 20 (Start time: 02:53:58 AM) Total Marks: 1

Qualitative and Quantitative Research are the classifications of research on the basis of

Select correct option:

Use of the research

Time dimension

Techniques used

Purpose of the research

Question # 11 of 20 (Start time: 02:54:13 AM) Total Marks: 1

The independent variable is;

Select correct option:

The variable manipulated in order to observe its effects

The variable that is measured

The free spirited variable

A confounding variable

Question # 12 of 20 (Start time: 02:54:26 AM) Total Marks: 1

“High productivity is positively associated with Job commitment”. The given hypothesis is a (an):

Select correct option:

Descriptive hypothesis

Explanatory hypothesis

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Non-Directional hypothesis

Co-relational hypothesis

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 13 of 20 (Start time: 02:54:32 AM) Total Marks: 1

A threat to internal validity in the nonequivalent comparison-group design includes:

Select correct option:

Selection-maturation effect

Selection-history effect

Selection-regression effect

All of the above

Question # 14 of 20 (Start time: 02:55:55 AM) Total Marks: 1

In frequency tables total of columns and rows are called:

Select correct option:

Body of table

Cell of table

Area of table

Marginal

Question # 15 of 20 (Start time: 02:56:52 AM) Total Marks: 1

How many variables should be changed at a time when conducting a single-case design?

Select correct option:

4

3

2

1

Question # 16 of 20 (Start time: 02:58:00 AM) Total Marks: 1

Research questions are crucial because they will:

Select correct option:

Guide your decisions about what data to collect and from where.

Help you decide which research area interests you.

Ensure that your findings have external validity.

Prevent you from thinking about research strategies.

Question # 17 of 20 (Start time: 02:58:14 AM) Total Marks: 1

When accessing the internet, which of these steps is the most essential?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Recording the full URL

Noting the access dates

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Downloading material to be referenced

They are all equally important

Question # 18 of 20 (Start time: 02:58:20 AM) Total Marks: 1

Which of the following is included in research proposal?

Select correct option:

Data analysis

Results

Literature review

Conclusions section

Question # 19 of 20 (Start time: 02:58:34 AM) Total Marks: 1

Which of the following control techniques available to the researcher controls for both known and unknown variables?

Select correct option:

Building the extraneous variable into the design

Matching

Random assignment

Analysis of covariance

Question # 20 of 20 (Start time: 02:59:43 AM) Total Marks: 1

What is a placebo?

Select correct option:

A rock band

An experiment done before the main study

An experiment involving lots of participants, who have been carefully chosen to avoid bias

A treatment which appears to be have the same effect as the 'real thing' but that only 'works' psychologically.

Question # 1 of 20 (Start time: 03:28:56 AM) Total Marks: 1

In _____ definition, a concept is explained in terms of other concepts.

Select correct option:

Operational definition

Working definition

Theoretical definition

None of the given options

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 2 of 20 (Start time: 03:29:11 AM) Total Marks: 1

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following is Not included in the Introduction section of a Research proposal?

Select correct option:

Background of the study

Objectives

Sampling technique

Significance

Question # 3 of 20 (Start time: 03:29:18 AM) Total Marks: 1

Which of the following is not example of historical comparative research?

Select correct option:

Social Forms

Turnover

Civil Wars

Economic Forms

Question # 4 of 20 (Start time: 03:30:31 AM) Total Marks: 1

Which type of questions should be first in a questionnaire or interview?

Select correct option:

Questions about demographics such as age and gender

Questions about attitudes and behaviors

Most easy question

Difficult questions

Question # 5 of 20 (Start time: 03:30:53 AM) Total Marks: 1

Which of the following is an example of deception in business research?

Select correct option:

The obtaining of company material without permission.

The researcher wearing a disguise during an observation.

The researcher representing their research as being about a different topic.

The researcher failing to ask permission to interview someone.

Question # 6 of 20 (Start time: 03:31:11 AM) Total Marks: 1

Qualitative and Quantitative Research are the classifications of research on the basis of

Select correct option:

Use of the research

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Techniques used

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Purpose of the research

Question # 7 of 20 (Start time: 03:31:17 AM) Total Marks: 1

Which of the following statements is true?

Select correct option:

All concepts are variables and all variables are concepts

All variables are concepts but all concepts are not variable

All concepts are variable but all variables are not concepts

None of the above

Question # 8 of 20 (Start time: 03:32:31 AM) Total Marks: 1

Which of the following is the least appropriate research problem?

Select correct option:

Does studying Latin improve the standardized vocabulary test scores of seventh grade students?

Does drilling fifth grade students with multiplication facts improve their standardized test scores?

What is the relationship between students' math attitudes and math achievement?

Should students have access to controversial novels in school?

Question # 9 of 20 (Start time: 03:32:46 AM) Total Marks: 1

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Grounded theory

Question # 10 of 20 (Start time: 03:33:00 AM) Total Marks: 1

Which of the following can Not be a part of preliminary data collection?

Select correct option:

Review of literature

Focus group discussion

Making research question

Seek out the informants

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 11 of 20 (Start time: 03:33:16 AM) Total Marks: 1

In quasi-experimental research designs, causal interpretations can be made_____.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Only when rival explanations have been shown to be plausible

Only when rival explanations have been shown to be implausible

Only when the participants have been randomly selected

Only when there is a single participant in the experiment

Question # 12 of 20 (Start time: 03:34:38 AM) Total Marks: 1

Which of the following is a research method that allows a researcher to get information about a large number of subjects relatively inexpensively and easily?

Select correct option:

Naturalistic observation

Case study

Laboratory observation

Survey

Question # 13 of 20 (Start time: 03:34:55 AM) Total Marks: 1

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

Select correct option:

Replication pattern

Specification pattern

Suppressor variable pattern

Negative linear relationship

Question # 14 of 20 (Start time: 03:35:41 AM) Total Marks: 1

Which of the table is based on cross-tabulation and the cases are organized in the table on the basis of two variables at the same time?

Select correct option:

Bivariate Tables

Frequency Distribution Table

SPSS Table

MINITAB Table

Question # 15 of 20 (Start time: 03:36:52 AM) Total Marks: 1

The group that receives the experimental treatment condition is the_____.

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Experimental group

Control group

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Participant group
Independent group

Question # 16 of 20 (Start time: 03:37:38 AM) Total Marks: 1

A threat to internal validity in the nonequivalent comparison-group design includes:
Select correct option:

Selection-maturation effect
Selection-history effect
Selection-regression effect
All of the above

Question # 17 of 20 (Start time: 03:37:47 AM) Total Marks: 1

The term “Extrapolation” is better explained by the statement:
Select correct option:

Facts lead to the rejection of theory
Identification of the gap in knowledge
Theory predicts facts
None of the given options

Question # 18 of 20 (Start time: 03:38:03 AM) Total Marks: 1

Which type of question is most likely to be used when the researcher is just stating to explore what people think about a particular topic?
Select correct option:

Closed-ended
Open-ended
Structured
Semi structured

Question # 19 of 20 (Start time: 03:38:25 AM) Total Marks: 1

What is one way that distortions can be produced in self report data?
Select correct option:

Lying
Social desirability bias
Faulty memory
All of the given options

Question # 20 of 20 (Start time: 03:39:19 AM) Total Marks: 1

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

What technique would be useful in determining why a specific toddler is afraid to go to bed?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Descriptive study

Case study

A placebo

Experiment

Question # 1 of 20 (Start time: 04:55:16 AM) Total Marks: 1

Which of the following would generally require the largest sample size?

Select correct option:

Cluster sampling

Simple random sampling

Systematic sampling

Proportional stratified sampling

Question # 2 of 20 (Start time: 04:56:20 AM) Total Marks: 1

Quantitative social researchers rarely claim to have established causality because:

Select correct option:

They are more concerned with publishing the results of their reliability tests.

They do not believe that this is an appropriate goal to be striving for.

They keep forgetting which of the variables they have manipulated.

They tend to use cross-sectional designs, which produce only correlations.

Question # 3 of 20 (Start time: 04:56:51 AM) Total Marks: 1

Cover letter must include the following information, except:

Select correct option:

How was the respondent selected?

Data collecting tools

Motivation for the respondent

Importance of research topic which is going to be conducted

Question # 4 of 20 (Start time: 04:57:17 AM) Total Marks: 1

Measurement reliability refers to the:

Select correct option:

Accuracy of the scores

Consistency of the scores

Dependency of the scores

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Comprehensiveness of the scores

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 5 of 20 (Start time: 04:57:54 AM) Total Marks: 1

Which of the following describes the nature of qualitative data interpretation?

Select correct option:

Reflection

Integrative

Explanatory

Reflection, integrity, explanation

Question # 6 of 20 (Start time: 04:58:34 AM) Total Marks: 1

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following?

Select correct option:

Dependent variable

Extraneous variable

Independent variable

Confounding variable

Question # 7 of 20 (Start time: 04:59:26 AM) Total Marks: 1

Hypothesis refers to_____:

Select correct option:

The outcome of an experiment

A conclusion drawn from an experiment

A form of bias in which the subject tries to outguess the experimenter

A tentative statement about the relationship

Question # 8 of 20 (Start time: 04:59:41 AM) Total Marks: 1

The scientific method is preferred over other ways of knowing because it is more;

Select correct option:

Reliable

Systematic

Accurate

All of the given options

Question # 10 of 20 (Start time: 04:59:53 AM) Total Marks: 1

One of the preoccupations of quantitative researchers is with generalization, which is a sign of:

Select correct option:

External validity

Internal reliability

External reliability

Internal validity

Question # 11 of 20 (Start time: 05:00:16 AM) Total Marks: 1

Which of the following is NOT a longitudinal study?

Select correct option:

Trend study

Census study

Panel study

Cohort study

Question # 12 of 20 (Start time: 05:00:46 AM) Total Marks: 1

What does Ordinal scale NOT imply?

Select correct option:

Characteristics of nominal scale

Rank the object

Does not provide magnitude of object

Provide rate

Question # 13 of 20 (Start time: 05:01:01 AM) Total Marks: 1

Which one of the following tasks is NOT accomplished by theoretical framework?

Select correct option:

Elaborate the relationship among the variables

Explain the logic underlying the relationship between the variables.

Describe the nature, and direction of the relationships among the variables.

Relates the previous studies.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which measure of dispersion is easiest to calculate? Standard deviation?
Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Mean

Range

Median

Mode

Question # 15 of 20 (Start time: 05:02:36 AM) Total Marks: 1

To say that a theory is falsifiable is to say that;

Select correct option:

It is based on results that are not replicable.

Investigators have replaced it with a simpler or more accurate theory.

We can imagine results that would contradict it.

It is so vague that it fits any and all possible results.

Question # 16 of 20 (Start time: 05:03:00 AM) Total Marks: 1

Which of the following is not something a researcher will have to consider when thinking about their sample size?

Select correct option:

Time and cost.

Non-response.

Length of questionnaire.

Heterogeneity of population.

Question # 17 of 20 (Start time: 05:03:59 AM) Total Marks: 1

In which of the following sampling methods People are available such as volunteer or can be easily recruited?

Select correct option:

Simple random sampling

Cluster sampling

Systematic sampling

Convenience sampling

Question # 18 of 20 (Start time: 05:04:53 AM) Total Marks: 1

_____ is a measure of association tested for its genuineness by controlling the third variable.

Select correct option:

Trivariate tables.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Multiple regressions.

Statistical control.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

None of the above.

Question # 19 of 20 (Start time: 05:06:18 AM) Total Marks: 1

Which of following statement is true?

Select correct option:

Theory and Research are dichotomous

Theory and Research are interrelated

There is no difference between Theory and Research

None of the given statements is true

Question # 20 of 20 (Start time: 05:06:33 AM) Total Marks: 1

Historians organize evidence usually in which of the following form?

Select correct option:

Comparative form

Critical form

Logical form

Narrative form

Question # 1 of 20 (Start time: 01:57:02 PM) Total Marks: 1

Which of the following is not example of historical comparative research?

Select correct option:

Social Forms

Turnover

Civil Wars

Economic Forms

Question # 2 of 20 (Start time: 01:58:24 PM) Total Marks: 1

What is ordinal data?

Select correct option:

Ordinary data

Well behaved data

Ranked data

Numbers

Question # 3 of 20 (Start time: 01:59:57 PM) Total Marks: 1

Which of the following number of variables involved in Descriptive Statistics?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Bivariate
Multivariate
Univariate

All of the given options

Question # 4 of 20 (Start time: 02:00:34 PM) Total Marks: 1

If a nominal scale is used, it is permissible to calculate which of the following statistics?
Select correct option:

Mean
Range
Percentile
Mode

Question # 5 of 20 (Start time: 02:02:04 PM) Total Marks: 1

A literature review requires;
Select correct option:

planning
clear writing
good writing
All of the given option

Question # 6 of 20 (Start time: 02:03:26 PM) Total Marks: 1

How can we determine if a test has good validity?
Select correct option:

It produces the same result when it is given at different times to the same group of people
It produces the same result no matter which version of the test is used
It measures what it is supposed to measure
All of the questions on it can be answered accurately by the subject

Question # 7 of 20 (Start time: 02:04:46 PM) Total Marks: 1

Which of the following steps of the scientific method is exemplified by the researcher reviewing the literature and focusing on a specific problem that has yet to be resolved?
Select correct option:

Identify a topic.
Describe the procedures to collect information.
Analyze the collected information.
State the results of the data analysis.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following terms refers to a statistical method that can be used to statistically equate groups on a pretest or some other variable?

Select correct option:

Experimental control

Differential influence

Matching

Analysis of covariance

Question # 9 of 20 (Start time: 02:07:40 PM) Total Marks: 1

Which of the following would NOT NECESSARILY be an assigned variable?

Select correct option:

Self-concept

Participation in extracurricular activities

Attitude toward school

Father's level of education

Question # 10 of 20 (Start time: 02:08:57 PM) Total Marks: 1

_____meanings attached to a concept create problems of measurements.

Select correct option:

Unambiguous

Vague

Clear

Dictionary

Question # 11 of 20 (Start time: 02:09:59 PM) Total Marks: 1

When doing research involving deception with human subjects, researchers have an obligation to do which of the following?

Select correct option:

Tell subjects the truth about the study's purpose and methods after the study is completed

Prevent mental and physical harm to subjects

Let subjects withdraw from the study at any time if they don't want to keep participating

All of the given options

Question # 12 of 20 (Start time: 02:11:19 PM) Total Marks: 1

How is nominal data presented?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

In order

In discrete categories

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Units of equal distance

Data where there is a true zero

Question # 13 of 20 (Start time: 02:12:44 PM) Total Marks: 1

Preliminary Data Collection may be considered as part of ----- --.

Select correct option:

Descriptive research

Explanatory research

Exploratory research

All of the given options

Question # 14 of 20 (Start time: 02:13:33 PM) Total Marks: 1

What type of process research is?

Select correct option:

A process to discover the truth

A process to invent the machines

A process to make new medicines

A process to create theories

Question # 15 of 20 (Start time: 02:15:01 PM) Total Marks: 1

The findings from a study of decision making processes within a UK financial services company can be generalized to:

Select correct option:

Decision making processes in all financial services companies

Decision making processes in the all UK companies

Decision making processes in the researched companies

Companies all over the world

Question # 16 of 20 (Start time: 02:16:31 PM) Total Marks: 1

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

Select correct option:

Replication pattern

Specification pattern

Suppressor variable pattern

Negative linear relationship

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 17 of 20 (Start time: 02:17:36 PM) Total Marks: 1

Which of the following is a measure in which a researcher adds or combines several

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

distinct indicators of a construct into a single score?

Select correct option:

Scale

Index

Unidimensionality

Weighting

Question # 18 of 20 (Start time: 02:19:04 PM) Total Marks: 1

What is the main purpose of pilot testing?

Select correct option:

To accumulate responses

To identify respondent

To identify potential problems

To evaluate the research

Question # 19 of 20 (Start time: 02:20:30 PM) Total Marks: 1

Why might qualitative researchers regard interviewing an attractive alternative to participant observation?

Select correct option:

It is easier to accommodate into the researchers personal life

It reduces the problem of reactivity

It is a considerably less time-consuming process

It gives a better insight into the day to day functioning of the research site

Question # 20 of 20 (Start time: 02:22:01 PM) Total Marks: 1

Which measure of dispersion is easiest to calculate? Standard deviation?

Select correct option:

Mean

Range

Median

Mode

Question # 20 of 20 (Start time: 12:49:12 AM) Total Marks: 1

The logic of purposive sampling is:

Select correct option:

That a random sample can generalize to a population.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

That a few information-rich participants studied in depth yield many insights about a topic.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

To include all participants, even though they are not all relevant to the problem.

To use participants because the researcher has access to them.

Question # 19 of 20 (Start time: 12:48:45 AM) Total Marks: 1

An indicator of reliability based on the correlations of each item in a measure with every other item is called:

Select correct option:

Test-retest reliability

Cronbach's alpha

Split-half reliability

Inter item ratio

Question # 18 of 20 (Start time: 12:48:22 AM) Total Marks: 1

Why does qualitative interviewing have an advantage over participant observation when it comes to longitudinal research?

Select correct option:

Repeat interviews are easier to organise.

It allows for a better exploration of key issues.

It is a more focused research method.

Participant observers are prone to 'go native' during longitudinal research.

Question # 17 of 20 (Start time: 12:48:01 AM) Total Marks: 1

An operational definition is:

Select correct option:

One that bears no relation to the underlying concept.

An abstract, theoretical definition of a concept.

A definition of a concept in terms of specific, empirical measures.

One that refers to opera singers and their work.

Question # 16 of 20 (Start time: 12:47:41 AM) Total Marks: 1

To say that a theory is falsifiable is to say that;

Select correct option:

It is based on results that are not replicable.

Investigators have replaced it with a simpler or more accurate theory.

We can imagine results that would contradict it.

It is so vague that it fits any and all possible results.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 15 of 20 (Start time: 12:46:33 AM) Total Marks: 1

Which type of research address major societal change?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Experimental Research

Action Research

Social Research

Historical Comparative Research

Question # 14 of 20 (Start time: 12:45:56 AM) Total Marks: 1

Which term technically describes a situation in which an observer's work in a first-grade classroom disrupts the normal routines due to the curiosity of the students?

Select correct option:

Observer effect

Participant effect

Non participant bias

Observer bias

Question # 13 of 20 (Start time: 12:45:15 AM) Total Marks: 1

What is the variable called, in an experiment, which is manipulated by the researcher?

Select correct option:

Stimulus

Control

Dependent

Independent

Question # 12 of 20 (Start time: 12:44:52 AM) Total Marks: 1

If a measure is consistent over multiple occasions, it has:

Select correct option: ●

Inter-rater reliability

Construct validity

Internal validity

Test-retest reliability

Question # 11 of 20 (Start time: 12:44:32 AM) Total Marks: 1

Bias is defined as;

Select correct option:

The distortion of responses based on gender, ethnicity, race, or language

A lack of validity

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

A lack of reliability

A poor interpretation of a student's score

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 10 of 20 (Start time: 12:43:12 AM) Total Marks: 1

In frequency tables total of columns and rows are called:

Select correct option:

Body of table

Cell of table

Area of table

Marginal

Question # 9 of 20 (Start time: 12:42:16 AM) Total Marks: 1

What type of the interview that is in which questions are already prepared?

Select correct option:

Telephonic interview

Personal interview

Unstructured interview

Structured interview

Question # 8 of 20 (Start time: 12:41:51 AM) Total Marks: 1

All of these are characteristics of scientific methods of research except, it is;

Select correct option:

Cumulative

Deterministic

Unethical

Rationalism

Question # 7 of 20 (Start time: 12:41:27 AM) Total Marks: 1

Which of the following is NOT an unethical issue?

Select correct option:

Invoicing irregularities

Avoiding legal liability

Misrepresenting results

Seek approval for research

Question # 6 of 20 (Start time: 12:40:44 AM) Total Marks: 1

Which of the following is not something a researcher will have to consider when thinking about their sample size?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Time and cost.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Non-response.

Length of questionnaire.

Heterogeneity of population.

Question # 5 of 20 (Start time: 12:40:20 AM) Total Marks: 1

A _____ scale only assigns numbers to objects to classify the objects according to the characteristic of interest.

Select correct option:

Ratio

Nominal

Interval

Dichotomous

Question # 4 of 20 (Start time: 12:39:33 AM) Total Marks: 1

The logic of qualitative data analysis is described as:

Select correct option:

Objective

Subjective

Inductive

Deductive

Question # 3 of 20 (Start time: 12:39:05 AM) Total Marks: 1

Which of the following is the best hypothesis statement to address the research question, "What impact will the new advertising campaign have on use of Brand B?"

Select correct option:

The new advertising campaign will impact Brand B usage.

The new advertising campaign will increase Brand B trial.

The new advertising campaign will cause increased Brand B usage at the expense of Brand C.

The new advertising campaign will increase Brand B's market penetration.

Question # 2 of 20 (Start time: 12:38:43 AM) Total Marks: 1

Detailed and unambiguous instructions are particularly important for:

Select correct option:

Computer-assisted telephone surveys

Mail surveys

Computer-assisted personal interviews

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Internet surveys

AR Lucky Term

Question # 1 of 20 (Start time: 12:37:47 AM) Total Marks: 1

Which of the following terms best describes data that were originally collected at an earlier time by a different person for a different purpose?

Select correct option:

Primary data

Secondary data

Experimental data

Field notes

Under which of the following research method is not applicable?

Select correct option:

Health care

Business

Government offices

Imaginary worlds

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Grounded theory

All of the following are true about theories, except;

Select correct option:

They organize and summarize existing knowledge about a topic.

They are tentative until the facts prove them true.

They provide possible explanations for the phenomenon under study.

They lead to testable hypotheses through the process of deduction.

A good qualitative problem statement:

Select correct option:

Defines the independent and dependent variables

Conveys a sense of emerging design

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Specifies a research hypothesis to be tested

Specifies the relationship between variables that the researcher expects to find.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

_____meanings attached to a concept create problems of measurements.

Select correct option:

Unambiguous

Vague

Clear

Dictionary

Which of the following is a measure in which the researcher captures the intensity, direction, level, or potency of a variable construct?

Select correct option:

Scale

Index

Unidimensionality

Weighting

Which of the following is the process of marking segments of data with symbols, descriptive words or category?

Select correct option:

Concurring

Coding

Coloring

Segmenting

Which type of sampling strategy is exemplified by selecting two types of individuals: those who are extremely happy and those who are extremely sad?

Select correct option:

Snowball

Intensity

Homogeneous

Purposive

What is the final step of a scientific investigation?

Select correct option:

Analyze data

Collect data

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Report the findings

Determine whether the hypothesis was supported

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Ms. Tania is thinking about changing her instructional approach to a more mastery-learning orientation. She is interested in knowing more about this topic as well as its effectiveness when working with elementary school students. On which source should she rely for such information?

Select correct option:

Tradition

Research

Intuition

Personal experience

What is the main purpose of pilot testing?

Select correct option:

To accumulate responses

To identify respondent

To identify potential problems

To evaluate the research

The extent to which we can generalize the results of a study to other participants is called:

Select correct option:

Sampling validity

External validity

Construct validity

Internal validity

What type of the interview that is in which questions are already prepared?

Select correct option:

Telephonic interview

Personal interview

Unstructured interview

Structured interview

Historians organize evidence usually in which of the following form?

Select correct option:

Comparative form

Critical form

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Logical form

Narrative form

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following steps of the scientific method is exemplified by the researcher reviewing the literature and focusing on a specific problem that has yet to be resolved?
Select correct option:

Identify a topic.

Describe the procedures to collect information.

Analyze the collected information.

State the results of the data analysis.

Which of the following control techniques available to the researcher controls for both known and unknown variables?

Select correct option:

Building the extraneous variable into the design

Matching

Random assignment

Analysis of covariance

Surveys are more impersonal than face-to-face interviews.

Select correct option:

Mail

Recorded Interview

Focus group

Telephone

Which of the table is based on cross-tabulation and the cases are organized in the table on the basis of two variables at the same time?

Select correct option:

Bivariate Tables

Frequency Distribution Table

SPSS Table

MINITAB Table

A telephone company is interested in obtaining customers' reactions to a new service package. Which of the following primary research methods would be most effective in reaching this audience to obtain their feedback?

Select correct option:

An Internet survey

Telephone interviews

A mail survey

Focus groups

Which of the following is more operational with the help of coding system?

Select correct option:

External Appearance

Count Behaviors

Time Duration

Content analysis

Rationalism is the application of:

Select correct option:

Research solution

Logic and arguments

Reasoning

Previous findings

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Experimental

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

Select correct option:

The type of data collected.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The data-collection technique.

The level of manipulation used to elicit data collection.

AR Lucky Term

All of the given options

Which one of the following tasks is NOT accomplished by theoretical framework?
Select correct option:

Elaborate the relationship among the variables

Explain the logic underlying the relationship between the variables.

Describe the nature, and direction of the relationships among the variables.

Relates the previous studies.

What is required if there is a chance that data could harm the respondents?
Select correct option:

Change of results

A signed form detailing the types of limits

Free consent of respondents

All of the given options

Which of the following is NOT an unethical issue?
Select correct option:

Invoicing irregularities

Avoiding legal liability

Misrepresenting results

Seek approval for research

When a variable is so closely associated with the independent variable that we do not know which one is producing the experimental effect, the variable is:
Select correct option: ●

Manipulated

Confounded

Unspecified

Uncontrolled

Which of the following is not an example of deception?
Select correct option:

A part of the truth is not communicated to the respondent

To observe code of ethics

To leak out information regarding any confidential matter

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

To create bias between respondents before the survey

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Building the extraneous variable into the design

Matching

Random assignment

Analysis of covariance

Question # 6 of 20 (Start time: 06:28:46 AM) Total Marks: 1

The independent variable is;

Select correct option:

The variable manipulated in order to observe its effects

The variable that is measured

The free spirited variable

A confounding variable

Question # 7 of 20 (Start time: 06:28:52 AM) Total Marks: 1

Which of the following links with an abstract model of underlying relations or causal mechanism?

Select correct option:

Historical comparative research

Experimental research

Action research

Social research

Question # 8 of 20 (Start time: 06:29:52 AM) Total Marks: 1

A variable is:

Select correct option:

Any characteristic of interest that can take on more than one value

Defined as the groups manipulated in experimental research

The complete set of scores we use in statistical analysis

Completely specified only in observational research

Question # 9 of 20 (Start time: 06:30:07 AM) Total Marks: 1

Which of the following is likely to reduce the validity of a test?

Select correct option:

Unclear test directions

Ambiguous test items

Untaught items

AR Lucky Term

Question # 10 of 20 (Start time: 06:30:27 AM) Total Marks: 1

The researcher protects the confidentiality in following ways, Except;
Select correct option:

Obtaining signed nondisclosure documents.

Restricting access to data instruments where the respondent is identified.

Disclosure of data subsets.

Restricting access to respondent identification.

Question # 11 of 20 (Start time: 06:30:43 AM) Total Marks: 1

Why do you need to review the existing literature?

Select correct option:

To give your dissertation a proper academic appearance, with lots of references

Because without it, you could never reach the required word-count

To find out what is already known about your area of interest

To help in your general studying

Question # 12 of 20 (Start time: 06:30:56 AM) Total Marks: 1

Which of the following is a concept?

Select correct option:

Leadership.

Total Quality Management.

Human Resource Management.

All of the given options

Question # 13 of 20 (Start time: 06:31:02 AM) Total Marks: 1

Quantitative research has been criticised because:

Select correct option:

The measurement process suggests a spurious and artificial sense of accuracy.

The reliance on instruments and procedures makes it high in ecological validity.

It underestimates the similarities between objects in the natural and social worlds.

It has no validity.

Question # 14 of 20 (Start time: 06:31:24 AM) Total Marks: 1

An indicator of reliability based on the correlations of each item in a measure with every other item is called:

Select correct option:

Which of the following is not a function of clearly identified research questions?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

- They guide your literature search.
- They keep you focused throughout the data collection period.
- They make the scope of your research as wide as possible.**
- They are linked together to help you construct a coherent argument.

Question # 20 of 20 (Start time: 06:34:12 AM) Total Marks: 1

Null hypothesis states:

Select correct option:

- Absence of relationship**
- Existence of relationship
- The direction of relationship
- Casual relationship

Question # 1 of 20 (Start time: 11:52:09 PM) Total Marks: 1

An observation of a dependent variable response prior to any attempt to change this response is known as the_____.

Select correct option:

- Flat line
- Baseline**
- Variance
- Reverse

Question # 2 of 20 (Start time: 11:53:18 PM) Total Marks: 1

Procedures determining what two issues are rarely used in quantitative research?

Select correct option: ●

- Objectivity and subjectivity
- Reliability and validity**
- Accessibility and replicability
- Quality and quantity

Question # 3 of 20 (Start time: 11:53:36 PM) Total Marks: 1

What is an hypothesis?

Select correct option:

- A prediction of a relationship between certain variables.**
- An experiment that tests certain predictions.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 13 of 20 (Start time: 11:56:29 PM) Total Marks: 1

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

What is the reason for consulting handbooks, yearbooks, encyclopedias, or reviews in the initial stages of identifying a research topic?

Select correct option:

They are readily available.

They provide an overview of the issues related to a topic.

They are primary sources.

They avoid reporting statistical data so one can interpret the results more easily.

Question # 14 of 20 (Start time: 11:56:36 PM) Total Marks: 1

Which of the following is least likely to occur as an ethical problem with e-research?

Select correct option:

People are not likely to be able to stop once they have begun participating.

Informed consent cannot be completely monitored.

Debriefing could be avoided.

Privacy could be invaded.

Question # 15 of 20 (Start time: 11:56:54 PM) Total Marks: 1

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

Select correct option:

What role to adopt when interviewing male managers?

How many female employees should be interviewed for a representative sample?

How to overcome the issue of false consciousness?

What data to use when publishing findings?

Question # 16 of 20 (Start time: 11:57:15 PM) Total Marks: 1

Which of the following number of variables involved in Descriptive Statistics?

Select correct option:

Bivariate

Multivariate

Univariate

All of the given options

Question # 17 of 20 (Start time: 11:57:20 PM) Total Marks: 1

Which of the following terms best describes data that were originally collected at an earlier time by a different person for a different purpose?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Primary data

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Secondary data

Field notes

Question # 18 of 20 (Start time: 11:57:36 PM) Total Marks: 1

When we say that science is parsimonious, we mean that:

Select correct option:

Scientific theories are based on laws.

We must be careful because causes can occur after specific effects.

The best scientific theories are those that offer the simplest explanations for a law.

Science accurately describes a wide range of behavior.

Question # 19 of 20 (Start time: 11:57:53 PM) Total Marks: 1

What is opposite of a variable?

Select correct option:

A constant

An extraneous variable

A dependent variable

A data set

Question # 20 of 20 (Start time: 11:58:00 PM) Total Marks: 1

Which of the following means that all the items in a scale or index fit together or measure a single construct?

Select correct option:

Scale

Index

Unidimensionality

Weighting

Question # 1 of 20 (Start time: 12:34:24 AM) Total Marks: 1

What is required if there is a chance that data could harm the respondents?

Select correct option:

Change of results

A signed form detailing the types of limits

Free consent of respondents

All of the given options

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 2 of 20 (Start time: 12:34:49 AM) Total Marks: 1

What is a placebo?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

A rock band

An experiment done before the main study

An experiment involving lots of participants, who have been carefully chosen to avoid bias

A treatment which appears to be have the same effect as the 'real thing' but that only 'works' psychologically.

Question # 3 of 20 (Start time: 12:34:55 AM) Total Marks: 1

Which of the following is the most damaging problem for the researcher with secondary data?

Select correct option:

It may not be accurate

It may be biased

It may not address the aims

It may only provide part of the answer

Question # 4 of 20 (Start time: 12:35:55 AM) Total Marks: 1

Which of the following is the least obtrusive and most accurate method for recording data in an interview?

Select correct option:

Note taking

Videotaping

Audiotaping

Writing notes after the interview

Question # 5 of 20 (Start time: 12:36:11 AM) Total Marks: 1

In which of the following sampling methods People are available such as volunteer or can be easily recruited?

Select correct option:

Simple random sampling

Cluster sampling

Systematic sampling

Convenience sampling

Question # 6 of 20 (Start time: 12:36:35 AM) Total Marks: 1

The findings from a study of decision making processes within a UK financial services

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

company can be generalized to:
Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Decision making processes in all financial services companies

Decision making processes in the all UK companies

Decision making processes in the researched companies

Companies all over the world

Question # 7 of 20 (Start time: 12:36:53 AM) Total Marks: 1

A one tailed hypothesis predicts-----

Select correct option:

The future

The lottery result

The frequency of the effect

The direction of the effect

Question # 8 of 20 (Start time: 12:37:11 AM) Total Marks: 1

When doing research involving deception with human subjects, researchers have an obligation to do which of the following?

Select correct option:

Tell subjects the truth about the study's purpose and methods after the study is completed

Prevent mental and physical harm to subjects

Let subjects withdraw from the study at any time if they don't want to keep participating

All of the given options

Question # 9 of 20 (Start time: 12:37:28 AM) Total Marks: 1

An observation of a dependent variable response prior to any attempt to change this response is known as the_____.

Select correct option:

Flat line

Baseline

Variance

Reverse

Question # 10 of 20 (Start time: 12:37:44 AM) Total Marks: 1

Which one of the following creates problems of measurements of a concept?

Question # 11 of 20 (Start time: 12:37:50 AM) Total Marks: 1

How is nominal data presented?

Select correct option:

In order

In discrete categories

Units of equal distance

Data where there is a true zero

Question # 12 of 20 (Start time: 12:37:55 AM) Total Marks: 1

Which of following statement is true?

Select correct option:

Theory and Research are dichotomous

Theory and Research are interrelated

There is no difference between Theory and Research

None of the given statements is true

Question # 13 of 20 (Start time: 12:38:03 AM) Total Marks: 1

Which of the table is based on cross-tabulation and the cases are organized in the table on the basis of two variables at the same time?

Select correct option:

Bivariate Tables

Frequency Distribution Table

SPSS Table

MINITAB Table

Question # 14 of 20 (Start time: 12:38:19 AM) Total Marks: 1

Which one of the following tasks is NOT accomplished by theoretical framework?

Select correct option:

Elaborate the relationship among the variables

Explain the logic underlying the relationship between the variables.

Describe the nature, and direction of the relationships among the variables.

Relates the previous studies.

Question # 15 of 20 (Start time: 12:38:27 AM) Total Marks: 1

Which of the following can be referred as semantic analysis?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Count Behaviors
Intensity

Question # 16 of 20 (Start time: 12:39:22 AM) Total Marks: 1

The posttest-only design with nonequivalent groups is likely to control for which of the following threats to internal validity:

Select correct option:

History

Differential selection
Additive and interactive effects
Differential attrition

Question # 17 of 20 (Start time: 12:40:32 AM) Total Marks: 1

One of the preoccupations of quantitative researchers is with generalization, which is a sign of:

Select correct option:

External validity

Internal reliability
External reliability
Internal validity

Question # 18 of 20 (Start time: 12:40:51 AM) Total Marks: 1

Which of the following is NOT a reason why it is preferable to tape record a focus group session?

Select correct option:

It is quicker and easier to make brief notes about what is said

It allows for analysis of how certain points are put forward
Without a tape recording it is difficult to keep an accurate record of who said what
It enables the researcher to identify which people are acting as opinion leaders

Question # 19 of 20 (Start time: 12:42:10 AM) Total Marks: 1

The term “Extrapolation” is better explained by the statement:

Select correct option:

Facts lead to the rejection of theory
Identification the gap in knowledge

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Theory predicts facts

None of the given options

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 20 of 20 (Start time: 12:42:28 AM) Total Marks: 1

A good qualitative problem statement:

Select correct option:

Defines the independent and dependent variables

Conveys a sense of emerging design

Specifies a research hypothesis to be tested

Specifies the relationship between variables that the researcher expects to find.

Question # 1 of 20 (Start time: 01:31:17 AM) Total Marks: 1

Which type of sampling strategy is exemplified by selecting two types of individuals: those who are extremely happy and those who are extremely sad?

Select correct option:

Snowball

Intensity

Homogeneous

Purposive

Question # 2 of 20 (Start time: 01:32:35 AM) Total Marks: 1

The purpose of a literature review is to:

Select correct option:

Help you find out what is already known about this area.

Identify any inconsistencies or gaps in the literature.

Demonstrate an awareness of the theoretical context in which the current study can be located.

Find what is already known, identify gaps demonstrate awareness.

Question # 3 of 20 (Start time: 01:32:45 AM) Total Marks: 1

The organization of concepts in sequence from the most concrete and individual to the most general indicates is:

Select correct option:

One that bears no relation to the underlying concept.

An abstract, theoretical definition of a concept.

The degree of abstraction

An operational definition

What technique would be useful in determining why a specific toddler is afraid to go to bed?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Descriptive study

Case study

A placebo

Experiment

Question # 5 of 20 (Start time: 01:33:24 AM) Total Marks: 1

Which type of observer is likely to get a reasonable insight into the participant's views and develop a good rapport with him?

Select correct option:

Non participant

Unstructured participant

Participant

Structured participant

Question # 6 of 20 (Start time: 01:34:49 AM) Total Marks: 1

What does it mean if two variables have a positive correlation?

Select correct option:

As one variable increases, so does the other

As one variable increases, the other decreases

The correlation between the two variables is 0

The correlation between the two variables is greater than 1.0

Question # 7 of 20 (Start time: 01:36:11 AM) Total Marks: 1

The number of people who complete a survey in relation to the number of people contacted to participate is called the:

Select correct option:

Response set

Response rate

Response bias

Respondents

Question # 8 of 20 (Start time: 01:36:25 AM) Total Marks: 1

Which of the following is an example of value-free research?

Select correct option:

Conscious favor

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 18 of 20 (Start time: 01:41:21 AM) Total Marks: 1

Which of the following is not something a researcher will have to consider when thinking about their sample size?

Select correct option:

Time and cost.

Non-response.

Length of questionnaire.

Heterogeneity of population.

Question # 19 of 20 (Start time: 01:41:39 AM) Total Marks: 1

When you are confident that the experimental manipulation produced the changes you measured in the dependent variable, your study probably has good_____validity.

Select correct option:

Construct

Internal

External

Causal

Question # 20 of 20 (Start time: 01:42:13 AM) Total Marks: 1

Which of the following is not a function of clearly identified research questions?

Select correct option:

They guide your literature search.

They keep you focused throughout the data collection period.

They make the scope of your research as wide as possible.

They are linked together to help you construct a coherent argument.

Question # 1 of 20 (Start time: 01:52:32 AM) Total Marks: 1

Which method of sampling is least likely to produce bias?

Select correct option:

Opportunity Sampling

Random Sampling

Stratified Sampling

Quasi-random sampling

Question # 2 of 20 (Start time: 01:53:49 AM) Total Marks: 1

In quasi-experimental research designs, causal interpretations can be made_____.

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Only when rival explanations have been shown to be plausible

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Only when rival explanations have been shown to be implausible

Only when the participants have been randomly selected

Only when there is a single participant in the experiment

Question # 3 of 20 (Start time: 01:54:05 AM) Total Marks: 1

Which of the following provides a solid basis foundation for the theoretical framework?

Select correct option:

Survey

Literature Review

Experiment

Referencing

Question # 4 of 20 (Start time: 01:54:21 AM) Total Marks: 1

Before a researcher specified the relationship among variables, he must have a (an):

Select correct option:

Inventory of variables

nventory of propositions

Arrangement of propositions

Schematic diagram

Question # 5 of 20 (Start time: 01:54:27 AM) Total Marks: 1

Which of the following refers to Ecological validity?

Select correct option:

The participants to who results generalize

The instruments used to measure the independent and dependent variables

The internal validity of a study

The context to which results generalize

Question # 6 of 20 (Start time: 01:55:22 AM) Total Marks: 1

Which of the following statements is false?

Select correct option:

Discrete variables allow measurement of an infinite number of fractions of units of measurement.

Discrete variables can only have whole number values.

Continuous numbers can only have whole number values.

Continuous measures do not allow for scores that fall between two number values.

Focus groups

Question # 19 of 20 (Start time: 02:19:37 AM) Total Marks: 1

The researcher protects the confidentiality in following ways, Except;

Select correct option:

Obtaining signed nondisclosure documents.

Restricting access to data instruments where the respondent is identified.

Disclosure of data subsets.

Restricting access to respondent identification.

Question # 20 of 20 (Start time: 02:19:44 AM) Total Marks: 1

A threat to internal validity in the nonequivalent comparison-group design includes:

Select correct option:

Selection-maturation effect

Selection-history effect

Selection-regression effect

All of the above

Question # 1 of 20 (Start time: 02:29:29 AM) Total Marks: 1

All of the following are true about theories, except;

Select correct option:

They organize and summarize existing knowledge about a topic.

They are tentative until the facts prove them true.

They provide possible explanations for the phenomenon under study.

They lead to testable hypotheses through the process of deduction.

Question # 2 of 20 (Start time: 02:29:46 AM) Total Marks: 1

Which of the following is a concept?

Select correct option:

Leadership.

Total Quality Management.

Human Resource Management.

All of the given options

Question # 3 of 20 (Start time: 02:29:52 AM) Total Marks: 1

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

What type of sample involves some form of random selection so that every member of the sampling frame has an equal, non-zero chance of being included in the sample?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Probability sample

Zero-bias sample

All-inclusive sample

Non-probability sample

Question # 4 of 20 (Start time: 02:30:20 AM) Total Marks: 1

In quasi-experimental research designs, causal interpretations can be made_____.

Select correct option:

Only when rival explanations have been shown to be plausible

Only when rival explanations have been shown to be implausible

Only when the participants have been randomly selected

Only when there is a single participant in the experiment

Question # 5 of 20 (Start time: 02:30:26 AM) Total Marks: 1

What research is?

Select correct option:

A lab experiment

A report

A systematic Enquiry

A procedure

Question # 6 of 20 (Start time: 02:30:54 AM) Total Marks: 1

Graphical presentation of data lays more emphasis on:

Select correct option:

Visual representations.

Graphical techniques.

Summary statistics.

Both A& B

Question # 7 of 20 (Start time: 02:31:55 AM) Total Marks: 1

The most critical areas of an article to read is;

Select correct option:

Results section

Introduction

Abstract

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Limitations

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 8 of 20 (Start time: 02:32:11 AM) Total Marks: 1

The number of people who complete a survey in relation to the number of people contacted to participate is called the:

Select correct option:

Response set

Response rate

Response bias

Respondents

Question # 9 of 20 (Start time: 02:32:26 AM) Total Marks: 1

After you locate a source, you should write down all details of the reference, except;

Select correct option:

Full names of the authors

Titles

Volumes

Price

Question # 10 of 20 (Start time: 02:32:45 AM) Total Marks: 1

Which of the following is the least appropriate research problem?

Select correct option:

Does studying Latin improve the standardized vocabulary test scores of seventh grade students?

Does drilling fifth grade students with multiplication facts improve their standardized test scores?

What is the relationship between students' math attitudes and math achievement?

Should students have access to controversial novels in school?

Question # 11 of 20 (Start time: 02:33:01 AM) Total Marks: 1

Which of the following is least likely to occur as an ethical problem with e-research?

Select correct option:

People are not likely to be able to stop once they have begun participating.

Informed consent cannot be completely monitored.

Debriefing could be avoided.

Privacy could be invaded.

Question # 12 of 20 (Start time: 02:33:21 AM) Total Marks: 1

Which of the following group that does not receive the experimental treatment condition?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Experimental group

Control group

Treatment group

Independent group

Question # 13 of 20 (Start time: 02:34:11 AM) Total Marks: 1

In single-case research, “baseline” refers to_____.

Select correct option:

The beginning point of the treatment condition

The end point of the treatment condition

The rate of response established prior to the experimental intervention

The time during which a treatment condition is administered

Question # 14 of 20 (Start time: 02:35:07 AM) Total Marks: 1

Which of the following is not a feature of theoretical framework?

Select correct option:

Making an inventory of variables

Specify the direction of relationship

Presenting findings

Making an inventory of propositions

Question # 15 of 20 (Start time: 02:35:21 AM) Total Marks: 1

Which of the following is NOT a longitudinal study?

Select correct option:

Trend study

Census study

Panel study

Cohort study

Question # 16 of 20 (Start time: 02:35:35 AM) Total Marks: 1

Which type of question is most likely to be used when the researcher is just starting to explore what people think about a particular topic?

Select correct option:

Closed-ended

Open-ended

Structured

Semi structured

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 17 of 20 (Start time: 02:36:00 AM) Total Marks: 1

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following is NOT a characteristic of a good research topic?

Select correct option:

It is ethical.

It can be investigated through the collection and analysis of data.

It focuses on a philosophical or ethical issue.

It is theoretically or practically significant.

Question # 18 of 20 (Start time: 02:36:16 AM) Total Marks: 1

What is opposite of a variable?

Select correct option:

A constant

An extraneous variable

A dependent variable

A data set

Question # 19 of 20 (Start time: 02:36:30 AM) Total Marks: 1

Which measure of dispersion is easiest to calculate? Standard deviation?

Select correct option:

Mean

Range

Median

Mode

Question # 20 of 20 (Start time: 02:36:36 AM) Total Marks: 1

Quantitative data is?

Select correct option:

Expressed in numerical form

Concerned with how things are expressed

Big data

Small data

Question # 1 of 20 (Start time: 02:42:41 AM) Total Marks: 1

Statistics are used by researchers to:

Select correct option:

Analyze the empirical data collected in a study

Make their findings sound better

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Operationally define their variables

Ensure the study comes out the way it was intended

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 2 of 20 (Start time: 02:42:47 AM) Total Marks: 1

When studying the simultaneous responses to two categorical questions we should set up a:

Select correct option:

Contingency table.

Frequency distribution table.

Cumulative percentage distribution table.

Histogram.

Question # 3 of 20 (Start time: 02:44:07 AM) Total Marks: 1

Which of the following is NOT a type of Non-random sampling?

Select correct option:

Cluster sampling

Convenience sampling

Quota sampling

Purposive sampling

Question # 4 of 20 (Start time: 02:45:23 AM) Total Marks: 1

Why might qualitative researchers regard interviewing an attractive alternative to participant observation?

Select correct option:

It is easier to accommodate into the researchers personal life

It reduces the problem of reactivity

It is a considerably less time-consuming process

It gives a better insight into the day to day functioning of the research site

Question # 5 of 20 (Start time: 02:45:49 AM) Total Marks: 1

An indicator of reliability based on the correlations of each item in a measure with every other item is called:

Select correct option:

Test-retest reliability

Cronbach's alpha

Split-half reliability

Inter item ratio

Question # 6 of 20 (Start time: 02:46:07 AM) Total Marks: 1

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

What is the variable called that a researcher manipulates in an experiment?
Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Dependent variable

Independent variable

Extraneous variable

None of the given options

Question # 7 of 20 (Start time: 02:46:22 AM) Total Marks: 1

Measurement reliability refers to the:

Select correct option:

Accuracy of the scores

Consistency of the scores

Dependency of the scores

Comprehensiveness of the scores

Question # 8 of 20 (Start time: 02:46:54 AM) Total Marks: 1

Which of the following is NOT a legitimate research problem as stated?

Select correct option:

What is the relationship between the number of books children read and their reading scores?

Should competitive games be banned from elementary schools?

What does it mean to be a special needs child "included" in Ms. Amara's fourth grade class?

What are the major legal principles applied to educational cases decided by the Supreme Court?

Question # 9 of 20 (Start time: 02:47:15 AM) Total Marks: 1

Qualitative and Quantitative Research are the classifications of research on the basis of

Select correct option:

Use of the research

Time dimension

Techniques used

Purpose of the research

Question # 10 of 20 (Start time: 02:47:37 AM) Total Marks: 1

A _____ scale only assigns numbers to objects to classify the objects according to the characteristic of interest.

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Ratio

Nominal

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Interval

Dichotomous

Question # 11 of 20 (Start time: 02:47:55 AM) Total Marks: 1

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following?

Select correct option:

Dependent variable

Extraneous variable

Independent variable

Confounding variable

Question # 12 of 20 (Start time: 02:48:12 AM) Total Marks: 1

Which measure of dispersion is easiest to calculate? Standard deviation?

Select correct option:

Mean

Range

Median

Mode

Question # 13 of 20 (Start time: 02:48:19 AM) Total Marks: 1

When all participants receive all treatment conditions, the study is susceptible to:

Select correct option:

Order effects

Carryover effects

Analysis of covariance

Both A & B

Question # 14 of 20 (Start time: 02:48:37 AM) Total Marks: 1

Which of the table is based on cross-tabulation and the cases are organized in the table on the basis of two variables at the same time?

Select correct option:

Bivariate Tables

Frequency Distribution Table

SPSS Table

MINITAB Table

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 15 of 20 (Start time: 02:48:57 AM) Total Marks: 1

Procedures determining what two issues are rarely used in quantitative research?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Objectivity and subjectivity

Reliability and validity

Accessibility and replicability

Quality and quantity

Question # 16 of 20 (Start time: 02:49:14 AM) Total Marks: 1

Quantitative research has been criticised because:

Select correct option:

The measurement process suggests a spurious and artificial sense of accuracy.

The reliance on instruments and procedures makes it high in ecological validity.

It underestimates the similarities between objects in the natural and social worlds.

It has no validity.

Question # 17 of 20 (Start time: 02:49:37 AM) Total Marks: 1

Quantitative data is?

Select correct option:

Expressed in numerical form

Concerned with how things are expressed

Big data

Small data

Question # 18 of 20 (Start time: 02:49:44 AM) Total Marks: 1

The logic of qualitative data analysis is described as:

Select correct option:

Objective

Subjective

Inductive

Deductive

Question # 19 of 20 (Start time: 02:50:01 AM) Total Marks: 1

An operational definition is:

Select correct option:

One that bears no relation to the underlying concept.

An abstract, theoretical definition of a concept.

A definition of a concept in terms of specific, empirical measures.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

One that refers to opera singers and their work.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 20 of 20 (Start time: 02:50:08 AM) Total Marks: 1

Which one of these is not a way of measuring central tendency?

Select correct option:

Mean

Median

Mode

Regression analysis

Question # 1 of 20 (Start time: 03:01:18 AM) Total Marks: 1

An observation of a dependent variable response prior to any attempt to change this response is known as the_____.

Select correct option:

Flat line

Baseline

Variance

Reverse

Question # 2 of 20 (Start time: 03:01:37 AM) Total Marks: 1

All of the following are true about theories, except;

Select correct option:

They organize and summarize existing knowledge about a topic.

They are tentative until the facts prove them true.

They provide possible explanations for the phenomenon under study.

They lead to testable hypotheses through the process of deduction.

Question # 3 of 20 (Start time: 03:01:47 AM) Total Marks: 1

Which of the following is not example of historical comparative research?

Select correct option:

Social Forms

Turnover

Civil Wars

Economic Forms

Question # 4 of 20 (Start time: 03:02:04 AM) Total Marks: 1

Hypothesis refers to_____:

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The outcome of an experiment

A conclusion drawn from an experiment

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

A form of bias in which the subject tries to outguess the experimenter

A tentative statement about the relationship

Question # 5 of 20 (Start time: 03:02:28 AM) Total Marks: 1

Which of the following links with an abstract model of underlying relations or causal mechanism?

Select correct option:

Historical comparative research

Experimental research

Action research

Social research

Question # 6 of 20 (Start time: 03:02:45 AM) Total Marks: 1

Which of the following is not a function of clearly identified research questions?

Select correct option:

They guide your literature search.

They keep you focused throughout the data collection period.

They make the scope of your research as wide as possible.

They are linked together to help you construct a coherent argument.

Question # 7 of 20 (Start time: 03:03:18 AM) Total Marks: 1

Which of the following is an example of an issue that would be checked in a pilot testing?

Select correct option:

Completion of all questions on a questionnaire

Legible writing

Single responses to all multiple choice questions

Logical answers between questions (i.e., attributes should be rated high if purchase interest is high)

Question # 8 of 20 (Start time: 03:03:51 AM) Total Marks: 1

A researcher is interested in nonverbal behavior among young adults. The researcher goes to public gathering places in town and observes smiles, gestures, gaze, and touch. This is an example of;

Select correct option:

Blind observation

Quasi-experimentation

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Naturalistic observation

Field experimentation

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 9 of 20 (Start time: 03:04:02 AM) Total Marks: 1

What is opposite of a variable?

Select correct option:

A constant

An extraneous variable

A dependent variable

A data set

Question # 10 of 20 (Start time: 03:04:09 AM) Total Marks: 1

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

rounded theory

Question # 11 of 20 (Start time: 03:04:15 AM) Total Marks: 1

In quasi-experimental research designs, causal interpretations can be made_____.

Select correct option:

Only when rival explanations have been shown to be plausible

Only when rival explanations have been shown to be implausible

Only when the participants have been randomly selected

Only when there is a single participant in the experiment

Question # 12 of 20 (Start time: 03:04:21 AM) Total Marks: 1

When you are confident that the experimental manipulation produced the changes you measured in the dependent variable, your study probably has good_____validity.

Select correct option:

Construct

Internal

External

Causal

Question # 13 of 20 (Start time: 03:04:27 AM) Total Marks: 1

The posttest-only design with nonequivalent groups is likely to control for which of the

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

following threats to internal validity:

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

History

Differential selection
Additive and interactive effects
Differential attrition

Question # 14 of 20 (Start time: 03:04:43 AM) Total Marks: 1

Which of the following is Not included in the Introduction section of a Research proposal?

Select correct option:

Background of the study
Objectives
Sampling technique
Significance

Question # 15 of 20 (Start time: 03:05:00 AM) Total Marks: 1

What technique would be useful in determining why a specific toddler is afraid to go to bed?

Select correct option:

Descriptive study
Case study
A placebo
Experiment

Question # 16 of 20 (Start time: 03:05:07 AM) Total Marks: 1

_____ is a measure of association tested for its genuineness by controlling the third variable.

Select correct option:

Trivariate tables.
Multiple regressions.
Statistical control.
None of the above.

Question # 17 of 20 (Start time: 03:05:25 AM) Total Marks: 1

Which of the following is a measure of inflation?

Select correct option:

Scale

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Consumer price index

Weighting

AR Lucky Term

Question # 18 of 20 (Start time: 03:06:42 AM) Total Marks: 1

The key objective of data analysis is to:

Select correct option:

Calculate statistics

Understand relationships between variables

Obtain the distribution of responses for each question

Create tables which display the survey results

Question # 19 of 20 (Start time: 03:07:01 AM) Total Marks: 1

The logic of qualitative data analysis is described as:

Select correct option:

Objective

Subjective

Inductive

Deductive

Question # 20 of 20 (Start time: 03:07:18 AM) Total Marks: 1

Why do you need to review the existing literature?

Select correct option:

To give your dissertation a proper academic appearance, with lots of references

Because without it, you could never reach the required word-count

To find out what is already known about your area of interest

To help in your general studying

Question # 1 of 20 (Start time: 03:14:19 AM) Total Marks: 1

Easiest way to describe the numerical data of one variable is with a:

Select correct option:

Cumulative percentage distribution table.

Bar charts.

Pie chart.

Frequency distribution.

Question # 2 of 20 (Start time: 03:15:04 AM) Total Marks: 1

Which of the following should not be a consideration in writing a proposal?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Understanding the problem situation

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The appearance/form of the proposal

Responding to every element exactly as specified by the client

Knowing as much as possible about the proposal recipients

Question # 3 of 20 (Start time: 03:15:23 AM) Total Marks: 1

Which of the following is a measure of inflation?

Select correct option:

Scale

Consumer price index

Weighting

Unidimensionality

Question # 4 of 20 (Start time: 03:15:29 AM) Total Marks: 1

“High productivity is positively associated with Job commitment”. The given hypothesis is a (an):

Select correct option:

Descriptive hypothesis

Explanatory hypothesis

Non-Directional hypothesis

Co-relational hypothesis

Question # 5 of 20 (Start time: 03:15:37 AM) Total Marks: 1

Which of the following provides a solid basis foundation for the theoretical framework?

Select correct option:

Survey

Literature Review

Experiment

Referencing

Question # 6 of 20 (Start time: 03:15:55 AM) Total Marks: 1

Which of the following is not a concept?

Question # 12 of 20 (Start time: 03:17:26 AM) Total Marks: 1

A researcher developed a measure of shyness and is now asking whether this measure does in fact measure a person's true state of shyness. This is a question of:

Select correct option:

Reactivity

Construct validity

Reliability

Content validity

Question # 13 of 20 (Start time: 03:17:50 AM) Total Marks: 1

The logic of purposive sampling is:

Select correct option:

That a random sample can generalize to a population.

That a few information-rich participants studied in depth yield many insights about a topic.

To include all participants, even though they are not all relevant to the problem.

To use participants because the researcher has access to them.

Question # 14 of 20 (Start time: 03:18:09 AM) Total Marks: 1

What is required if there is a chance that data could harm the respondents?

Select correct option:

Change of results

A signed form detailing the types of limits

Free consent of respondents

All of the given options

Question # 15 of 20 (Start time: 03:18:26 AM) Total Marks: 1

Which one of these is not a way of measuring central tendency?

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Decrease sampling error but increase non-sampling error

Increase sampling error but decrease non-sampling error

Decrease both sampling error and non-sampling error

Increase both sampling error and non-sampling error

Question # 11 of 20 (Start time: 03:30:10 AM) Total Marks: 1

Which of the the following is not included in Objects?

Select correct option:

Tables

People

Books

Weight

Question # 12 of 20 (Start time: 03:30:36 AM) Total Marks: 1

What is ordinal data?

Select correct option:

Ordinary data

Well behaved data

Ranked data

Numbers

Question # 13 of 20 (Start time: 03:30:42 AM) Total Marks: 1

In quasi-experimental research designs, causal interpretations can be made_____.

Select correct option:

Only when rival explanations have been shown to be plausible

Only when rival explanations have been shown to be implausible

Only when the participants have been randomly selected

Only when there is a single participant in the experiment

Question # 14 of 20 (Start time: 03:30:51 AM) Total Marks: 1

Which of the following is a discrete variable?

Select correct option:

Age

Nationality

Test score

Income

Under which of the following research method is not applicable?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Health care
Business
Government offices
Imaginary worlds

Question # 16 of 20 (Start time: 03:31:13 AM) Total Marks: 1

Which of the following is Not a part of research design?

Select correct option:

Data collection technique
Tool of data collection
Objectives of the study
Data processing and analysis

Question # 17 of 20 (Start time: 03:31:26 AM) Total Marks: 1

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which type of research?

Select correct option:

Basic
Applied
Evaluation
Experimental

Question # 18 of 20 (Start time: 03:31:33 AM) Total Marks: 1

What type of the interview that is in which questions are already prepared?

Select correct option:

Telephonic interview
Personal interview
Unstructured interview
Structured interview

Question # 19 of 20 (Start time: 03:31:49 AM) Total Marks: 1

The findings from a study of decision making processes within a UK financial services company can be generalized to:

Select correct option:

Decision making processes in all financial services companies

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Decision making processes in the all UK companies

Decision making processes in the researched companies

Which of the following elements of Observation in Non Reactive research?

Select correct option:

External Appearance

Count Behaviors

Time Duration

All of the given options

Question # 15 of 20 (Start time: 03:51:49 AM) Total Marks: 1

Why is it important to change one variable at a time in single case designs?

Select correct option:

Changing one variable allows isolation of the cause of the change

Changing more than one variable at a time confounds those independent variables

Both a and b are true

None of the above

Question # 16 of 20 (Start time: 03:52:34 AM) Total Marks: 1

How have focus groups been used in market research?

Select correct option:

To assess the popularity of various existing products

To allow for research into farmers opinions

To discuss reactions to new advertisements

To help plan new HR strategies

Question # 17 of 20 (Start time: 03:53:30 AM) Total Marks: 1

What is the purpose of a control group?

Select correct option:

Make the experiment easier to analyze

Show the value of the dependent variable when the independent variable is not being manipulated

To be able to better evaluate the effect of the independent variable

To control all variables

What is a cross-sectional research?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

A study of one particular section of society

A comparison of two or more variables over a long period of time

The collection of data from more than one case at one moment in time

One that is conducted when environment is uncertain

Question # 19 of 20 (Start time: 03:55:32 AM) Total Marks: 1

Easiest way to describe the numerical data of one variable is with a:

Select correct option:

Cumulative percentage distribution table.

Bar charts.

Pie chart.

Frequency distribution.

Question # 20 of 20 (Start time: 03:55:38 AM) Total Marks: 1

Which of the following group that does not receive the experimental treatment condition?

Select correct option:

Experimental group

Control group

Treatment group

Independent group

Question # 1 of 20 (Start time: 04:19:41 AM) Total Marks: 1

When we say that science is parsimonious, we mean that:

Select correct option:

Scientific theories are based on laws.

We must be careful because causes can occur after specific effects.

The best scientific theories are those that offer the simplest explanations for a law.

Science accurately describes a wide range of behavior.

Question # 2 of 20 (Start time: 04:20:12 AM) Total Marks: 1

Which of the following is a concept?

Select correct option:

Leadership.

Total Quality Management.

Human Resource Management.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

collection?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

When studies come out as expected, inductive support for the theory is gained.

If an experiment fails, discarding the experiment is an example of affirming the consequent.

When a hypothesis is not supported, virtually nothing has been learned about the theory.

A good theory will be inclusive enough to explain every possible research outcome.

Question # 2 of 20 (Start time: 04:36:20 AM) Total Marks: 1

In _____ definition, a concept is explained in terms of other concepts.

Select correct option:

Operational definition

Working definition

Theoretical definition

None of the given options

Question # 3 of 20 (Start time: 04:36:36 AM) Total Marks: 1

Increasing the size of the sample is likely to:

Select correct option:

Decrease sampling error but increase non-sampling error

Increase sampling error but decrease non-sampling error

Decrease both sampling error and non-sampling error

Increase both sampling error and non-sampling error

Question # 4 of 20 (Start time: 04:36:52 AM) Total Marks: 1

Which of the following is the best hypothesis statement to address the research question, "What impact will the new advertising campaign have on use of Brand B?"

Select correct option:

The new advertising campaign will impact Brand B usage.

The new advertising campaign will increase Brand B trial.

The new advertising campaign will cause increased Brand B usage at the expense of Brand C.

The new advertising campaign will increase Brand B's market penetration.

Question # 5 of 20 (Start time: 04:37:07 AM) Total Marks: 1

A form of the nonequivalent comparison-group design is recommended when:

Select correct option:

It is not possible to control for a basic history effect

Purposive sampling

Question # 1 of 20 (Start time: 05:05:35 AM) Total Marks: 1

_____ is a measure of association tested for its genuineness by controlling the third variable.

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Trivariate tables.

Multiple regressions.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Statistical control.

None of the above.

Question # 2 of 20 (Start time: 05:06:39 AM) Total Marks: 1

Critical decision area in questionnaire construction is_____.

Select correct option:

Question content

Question wording

Response strategy

All of the given options

Question # 3 of 20 (Start time: 05:06:46 AM) Total Marks: 1

Which of the following is NOT a legitimate research problem as stated?

Select correct option:

What is the relationship between the number of books children read and their reading scores?

Should competitive games be banned from elementary schools?

What does it mean to be a special needs child "included" in Ms. Amara's fourth grade class?

What are the major legal principles applied to educational cases decided by the Supreme Court?

Question # 4 of 20 (Start time: 05:07:03 AM) Total Marks: 1

Qualitative and Quantitative Research are the classifications of research on the basis of

Select correct option:

Use of the research

Time dimension

Techniques used

Purpose of the research

Question # 5 of 20 (Start time: 05:07:19 AM) Total Marks: 1

Hypothesis refers to_____:

Select correct option:

The outcome of an experiment

A conclusion drawn from an experiment

A form of bias in which the subject tries to outguess the experimenter

A tentative statement about the relationship

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 6 of 20 (Start time: 05:07:27 AM) Total Marks: 1

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

A _____ scale only assigns numbers to objects to classify the objects according to the characteristic of interest.

Select correct option:

Ratio

Nominal

Interval

Dichotomous

Question # 7 of 20 (Start time: 05:07:45 AM) Total Marks: 1

In single-case research, “baseline” refers to _____.

Select correct option:

The beginning point of the treatment condition

The end point of the treatment condition

The rate of response established prior to the experimental intervention

The time during which a treatment condition is administered

Question # 8 of 20 (Start time: 05:08:06 AM) Total Marks: 1

Which of the following elements are NOT included in Observation in Non Reactive research?

Select correct option:

External Appearance

Accretion

Count Behaviors

Time Duration

Question # 9 of 20 (Start time: 05:08:13 AM) Total Marks: 1

12. Which of the following true about the relationship between theory building and data collection?

Select correct option:

When studies come out as expected, inductive support for the theory is gained.

If an experiment fails, discarding the experiment is an example of affirming the consequent.

When a hypothesis is not supported, virtually nothing has been learned about the theory.

A good theory will be inclusive enough to explain every possible research outcome.

Question # 10 of 20 (Start time: 05:08:19 AM) Total Marks: 1

Which of the following best describes qualitative data coding?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Numerically representing the concepts identified by the participants

Identify data segments that contain general episodes

Adding all of the scores together and describing them statistically

Dividing data in parts that represent single thoughts

Question # 11 of 20 (Start time: 05:08:35 AM) Total Marks: 1

A good qualitative problem statement:

Select correct option:

Defines the independent and dependent variables

Conveys a sense of emerging design

Specifies a research hypothesis to be tested

Specifies the relationship between variables that the researcher expects to find.

Question # 12 of 20 (Start time: 05:08:42 AM) Total Marks: 1

Which of the following is a measure of inflation?

Select correct option:

Scale

Consumer price index

Weighting

Unidimensionality

Question # 13 of 20 (Start time: 05:08:48 AM) Total Marks: 1

An observation of a dependent variable response prior to any attempt to change this response is known as the_____.

Select correct option:

Flat line

Baseline

Variance

Reverse

Question # 14 of 20 (Start time: 05:09:07 AM) Total Marks: 1

The most critical areas of an article to read is;

Select correct option:

Results section

Introduction

Abstract

Limitations

AR Lucky Term

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Conditions favoring the use of a sample over a census include a:

Select correct option:

Long time frame

Small budget

High cost of sampling errors

Low cost of non-sampling errors

Question # 16 of 20 (Start time: 05:09:28 AM) Total Marks: 1

Before a researcher specified the relationship among variables, he must have a (an):

Select correct option:

Inventory of variables

Inventory of propositions

Arrangement of propositions

Schematic diagram

Question # 17 of 20 (Start time: 05:09:34 AM) Total Marks: 1

Which of the following is true?

Select correct option:

A study can be internally valid but not externally valid

A study can be externally valid but not internally valid

A study must be both internally and externally valid

The internal and external validity of studies are not related in any way

Question # 18 of 20 (Start time: 05:10:18 AM) Total Marks: 1

In frequency tables total of columns and rows are called:

Select correct option: ●

Body of table

Cell of table

Area of table

Marginal

Question # 19 of 20 (Start time: 05:10:25 AM) Total Marks: 1

Researchers read percentaged tables to make:

Select correct option:

Differences

Relationships

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Comparison

None of the above

Question # 20 of 20 (Start time: 05:11:10 AM) Total Marks: 1

Which of the following is a measure in which a researcher adds or combines several distinct indicators of a construct into a single score?

Select correct option:

Scale

Index

Unidimensionality

Weighting

Question # 1 of 20 (Start time: 05:20:47 AM) Total Marks: 1

Which of the following is NOT an unethical issue?

Select correct option:

Invoicing irregularities

Avoiding legal liability

Misrepresenting results

Seek approval for research

Question # 2 of 20 (Start time: 05:20:53 AM) Total Marks: 1

Which of the following is a discrete variable?

Select correct option:

Age

Nationality

Test score

Income

Question # 3 of 20 (Start time: 05:21:11 AM) Total Marks: 1

When studying the simultaneous responses to two categorical questions we should set up

a:

Select correct option:

Contingency table.

Frequency distribution table.

Cumulative percentage distribution table.

Histogram.

Question # 4 of 20 (Start time: 05:21:28 AM) Total Marks: 1

According to Empiricism, which of the following is the ultimate source of all our

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

concepts and knowledge?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Perceptions

Theory

Sensory experience

Logics and arguments

Question # 5 of 20 (Start time: 05:21:34 AM) Total Marks: 1

What is the first step in the research process?

Select correct option:

Preliminary data collection

Problem definition

Theoretical framework

Define broad problem area

Question # 6 of 20 (Start time: 05:21:41 AM) Total Marks: 1

A form of the nonequivalent comparison-group design is recommended when:

Select correct option:

It is not possible to control for a basic history effect

It is not possible to randomly assign participants to groups

It is not possible to identify two groups

All of the above

Question # 7 of 20 (Start time: 05:21:59 AM) Total Marks: 1

Which of the following is most beneficial to read in an article?

Select correct option:

Methods

Introduction

Figures

References

Question # 8 of 20 (Start time: 05:22:16 AM) Total Marks: 1

The number of people who complete a survey in relation to the number of people contacted to participate is called the:

Select correct option:

Response set

Response rate

Response bias

AR Lucky Term

Respondents

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 9 of 20 (Start time: 05:22:34 AM) Total Marks: 1

Which is most likely to yield qualitative data?

Select correct option:

Mail survey

Focus group

Telephone interview

None of the given options

Question # 10 of 20 (Start time: 05:23:54 AM) Total Marks: 1

The logic of purposive sampling is:

Select correct option:

That a random sample can generalize to a population.

That a few information-rich participants studied in depth yield many insights about a topic.

To include all participants, even though they are not all relevant to the problem.

To use participants because the researcher has access to them.

Question # 11 of 20 (Start time: 05:24:12 AM) Total Marks: 1

The group that receives the experimental treatment condition is the_____.

Select correct option:

Experimental group

Control group

Participant group

Independent group

Question # 12 of 20 (Start time: 05:24:28 AM) Total Marks: 1

An indicator of reliability based on the correlations of each item in a measure with every other item is called:

Select correct option:

Test-retest reliability

Cronbach's alpha

Split-half reliability

Inter item ratio

Question # 13 of 20 (Start time: 05:24:43 AM) Total Marks: 1

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following elements are not included for structuring Observation in Non reactive research?
Select correct option:

Frequency
Intensity
Direction
Accretion

Question # 15 of 20 (Start time: 05:25:46 AM) Total Marks: 1
What is opposite of a variable?
Select correct option:

A constant
An extraneous variable
A dependent variable
A data set

Question # 16 of 20 (Start time: 05:25:53 AM) Total Marks: 1
Which of the following is the least obtrusive and most accurate method for recording data in an interview?
Select correct option:

Note taking
Videotaping
Audiotaping
Writing notes after the interview

Question # 17 of 20 (Start time: 05:26:08 AM) Total Marks: 1
“Skepticism” is a norm of science. It is better explained by which of the following statement?
Select correct option:

Combining the previous knowledge
Critical reading of the previous researches

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Providing the proper references of qouted text

Locating research reports in libraries

Question # 18 of 20 (Start time: 05:26:22 AM) Total Marks: 1

A measure has high internal consistency reliability when:

Select correct option:

Multiple observers make the same ratings using the measure.

Participants score at the high end of the scale every time they complete the measure.

Multiple observers obtain the same score every time they use the measure.

Each of the items correlates with other items on the measure.

Question # 19 of 20 (Start time: 05:26:37 AM) Total Marks: 1

Which of the the following is not included in Objects?

Select correct option:

Tables

People

Books

Weight

Question # 20 of 20 (Start time: 05:26:52 AM) Total Marks: 1

All the persons involved in the collection of data and supervision of data collection process are called;

Select correct option:

Fieldworkers

Researchers

Research assistants

None of the given options

Question # 1 of 20 (Start time: 05:58:13 AM) Total Marks: 1

What type of sample involves some form of random selection so that every member of the sampling frame has an equal, non-zero chance of being included in the sample?

Select correct option:

Probability sample

Zero-bias sample

All-inclusive sample

Non-probability sample

Question # 2 of 20 (Start time: 05:58:36 AM) Total Marks: 1

An advantage of computer-assisted telephone interviewing is:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Interviewing time is reduced

Data quality is enhanced

Questionnaires do not have to be coded

There is little opportunity for interviewer bias

Question # 3 of 20 (Start time: 05:58:45 AM) Total Marks: 1

In frequency tables total of columns and rows are called:

Select correct option:

Body of table

Cell of table

Area of table

Marginal

Question # 4 of 20 (Start time: 05:58:51 AM) Total Marks: 1

When doing research involving deception with human subjects, researchers have an obligation to do which of the following?

Select correct option:

Tell subjects the truth about the study's purpose and methods after the study is completed

Prevent mental and physical harm to subjects

Let subjects withdraw from the study at any time if they don't want to keep participating

All of the given options

Question # 5 of 20 (Start time: 05:59:08 AM) Total Marks: 1

Which of the following statements is true?

Select correct option:

All concepts are variables and all variables are concepts

All variables are concepts but all concepts are not variable

All concepts are variable but all variables are not concepts

None of the above

Question # 6 of 20 (Start time: 05:59:17 AM) Total Marks: 1

Statistics is used by researchers to:

Select correct option:

Analyze the empirical data collected in a study

Make their findings sound better

Operationally define their variables

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Ensure the study comes out the way it was intended

Question # 7 of 20 (Start time: 05:59:23 AM) Total Marks: 1

When we say that science is parsimonious, we mean that:

Select correct option:

Scientific theories are based on laws.

We must be careful because causes can occur after specific effects.

The best scientific theories are those that offer the simplest explanations for a law.

Science accurately describes a wide range of behavior.

Question # 8 of 20 (Start time: 05:59:42 AM) Total Marks: 1

Cover letter must include the following information, except:

Select correct option:

How was the respondent selected?

Data collecting tools

Motivation for the respondent

Importance of research topic which is going to be conducted

Question # 9 of 20 (Start time: 05:59:57 AM) Total Marks: 1

Which type of questions should be first in a questionnaire or interview?

Select correct option:

Questions about demographics such as age and gender

Questions about attitudes and behaviors

Most easy question

Difficult questions

Question # 10 of 20 (Start time: 06:00:14 AM) Total Marks: 1

Which of the following is an example of deception in business research?

Select correct option:

The obtaining of company material without permission.

The researcher wearing a disguise during an observation.

The researcher representing their research as being about a different topic.

The researcher failing to ask permission to interview someone.

Question # 11 of 20 (Start time: 06:00:39 AM) Total Marks: 1

The term “Extrapolation” is better explained by the statement:

Select correct option:

Facts lead to the rejection of theory

AR Lucky Term

The researcher protects the confidentiality in following ways, Except;
Select correct option:

Obtaining signed nondisclosure documents.

Restricting access to data instruments where the respondent is identified.

Disclosure of data subsets.

Restricting access to respondent identification.

Question # 13 of 20 (Start time: 06:00:53 AM) Total Marks: 1

Which of the following is the process of marking segments of data with symbols, descriptive words or category?

Select correct option:

Concurring

Coding

Coloring

Segmenting

Question # 14 of 20 (Start time: 06:01:09 AM) Total Marks: 1

What is an hypothesis?

Select correct option:

A prediction of a relationship between certain variables.

An experiment that tests certain predictions.

An independent variable.

A dependent variable.

Question # 15 of 20 (Start time: 06:01:15 AM) Total Marks: 1

Which of the following would allow me to have the MOST control over environmental variables when conducting a research study?

Select correct option:

True experimental design

Quasi-experimental design

Survey

Case study

Accuracy, influences and language used

Question # 17 of 20 (Start time: 06:02:33 AM) Total Marks: 1

What is the main purpose of pilot testing?

Select correct option:

To accumulate responses
To identify respondent
To identify potential problems
To evaluate the research

Question # 18 of 20 (Start time: 06:02:50 AM) Total Marks: 1

Research questions are crucial because they will:

Select correct option:

Guide your decisions about what data to collect and from where.
Help you decide which research area interests you.
Ensure that your findings have external validity.
Prevent you from thinking about research strategies.

Question # 19 of 20 (Start time: 06:03:07 AM) Total Marks: 1

Which of the following is the best hypothesis statement to address the research question, "What impact will the new advertising campaign have on use of Brand B?"

Select correct option:

The new advertising campaign will impact Brand B usage.
The new advertising campaign will increase Brand B trial.
The new advertising campaign will cause increased Brand B usage at the expense of Brand C.
The new advertising campaign will increase Brand B's market penetration.

Question # 20 of 20 (Start time: 06:03:13 AM) Total Marks: 1

The key objective of data analysis is to:

Select correct option:

Calculate statistics
Understand relationships between variables

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

What is the final step of a scientific investigation?

Select correct option:

Analyze data

Collect data

Report the findings

Determine whether the hypothesis was supported

Question # 11 of 20 (Start time: 06:11:16 AM) Total Marks: 1

A researcher is interested in nonverbal behavior among young adults. The researcher goes to public gathering places in town and observes smiles, gestures, gaze, and touch.

This is an example of;

Select correct option:

Blind observation

Quasi-experimentation

Naturalistic observation

Field experimentation

Question # 12 of 20 (Start time: 06:11:26 AM) Total Marks: 1

Which of the following is NOT a longitudinal study?

Select correct option:

Trend study

Census study

Panel study

Cohort study

Question # 13 of 20 (Start time: 06:11:41 AM) Total Marks: 1

Which of the following is NOT a reason why it is preferable to tape record a focus group session?

Select correct option:

It is quicker and easier to make brief notes about what is said

It allows for analysis of how certain points are put forward

Without a tape recording it is difficult to keep an accurate record of who said what

It enables the researcher to identify which people are acting as opinion leaders

After you locate a source, you should write down all details of the reference, except;

Select correct option:

Full names of the authors

Titles

Volumes

Price

Question # 10 of 20 (Start time: 06:21:34 AM) Total Marks: 1

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Grounded theory

Question # 11 of 20 (Start time: 06:21:50 AM) Total Marks: 1

Which type of research address major societal change?

Select correct option:

Experimental Research ●

Action Research

Social Research

Historical Comparative Research

Question # 12 of 20 (Start time: 06:22:07 AM) Total Marks: 1

A census taker often collects data through which of the following?

Select correct option:

Standardized tests

Interviews

Secondary data

Observations

Which of the following is the process of marking segments of data with symbols, descriptive words or category?

Select correct option:

Concurring

Coding

Coloring

Segmenting

Question # 14 of 20 (Start time: 06:23:19 AM) Total Marks: 1

The operational definition is also known as

Select correct option:

Working definition

Nominal definition

Conceptual definition

Dictionary definition

Question # 15 of 20 (Start time: 06:23:40 AM) Total Marks: 1

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

Select correct option:

The type of data collected.

The data-collection technique.

The level of manipulation used to elicit data collection.

All of the given options

Question # 16 of 20 (Start time: 06:23:57 AM) Total Marks: 1

A variable is:

Select correct option:

Any characteristic of interest that can take on more than one value

Defined as the groups manipulated in experimental research

The complete set of scores we use in statistical analysis

Completely specified only in observational research

Question # 17 of 20 (Start time: 06:24:13 AM) Total Marks: 1

Control in experimental research is BEST described as an attempt to:

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Limit threats to external validity

Increase the generalize ability of findings

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Equate the subjects on the treatment variable

Limit threats to internal validity

Question # 18 of 20 (Start time: 06:25:19 AM) Total Marks: 1

Which of the following group that does not receive the experimental treatment condition?
Select correct option:

Experimental group

Control group

Treatment group

Independent group

Question # 19 of 20 (Start time: 06:25:35 AM) Total Marks: 1

Which of the following is an advantage of open questions?
Select correct option:

They allow respondents to answer in their own terms.

They prevent respondents from giving unusual answers.

They allow respondents to put less effort into their answer.

They allow respondents to code their answers in advance.

Question # 20 of 20 (Start time: 06:25:57 AM) Total Marks: 1

Detailed and unambiguous instructions are particularly important for:
Select correct option:

Computer-assisted telephone surveys

Mail surveys

Computer-assisted personal interviews

Internet surveys

Question # 1 of 20 (Start time: 06:35:59 AM) Total Marks: 1

Which of the following is false with regard to the benefits of multiple-choice questions over open-ended questions?

Select correct option:

Multiple-choice questions are easier to design

Multiple-choice questions are less costly for coding and data processing

Multiple-choice questions are quicker to administer

The use of multiple-choice questions results in higher cooperation for self-administered surveys

The term “Extrapolation” is better explained by the statement:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

- Facts lead to the rejection of theory
- Identification of the gap in knowledge
- Theory predicts facts
- None of the given options

Question # 3 of 20 (Start time: 06:36:24 AM) Total Marks: 1

Which of the following is a measure of inflation?

Select correct option:

- Scale
- Consumer price index
- Weighting
- Unidimensionality

Question # 4 of 20 (Start time: 06:36:31 AM) Total Marks: 1

The researcher protects the confidentiality in following ways, Except;

Select correct option:

- Obtaining signed nondisclosure documents.
- Restricting access to data instruments where the respondent is identified.
- Disclosure of data subsets.
- Restricting access to respondent identification.

Question # 5 of 20 (Start time: 06:36:37 AM) Total Marks: 1

Researchers read percentaged tables to make:

Select correct option:

- Differences
- Relationships
- Comparison
- None of the above

Question # 6 of 20 (Start time: 06:36:44 AM) Total Marks: 1

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option:

- Basic
- Applied

Statistics are used by researchers to:

Select correct option:

Analyze the empirical data collected in a study

Make their findings sound better

Operationally define their variables

Ensure the study comes out the way it was intended

Question # 8 of 20 (Start time: 06:36:57 AM) Total Marks: 1

What is a placebo?

Select correct option:

A rock band

An experiment done before the main study

An experiment involving lots of participants, who have been carefully chosen to avoid bias

A treatment which appears to be have the same effect as the 'real thing' but that only 'works' psychologically.

Question # 9 of 20 (Start time: 06:37:03 AM) Total Marks: 1

You wish to make a precise estimate about the characteristics of a population of individuals. You should use:

Select correct option:

Quota sampling

Probability sampling

Accidental sampling

Snowball sampling

Question # 10 of 20 (Start time: 06:37:30 AM) Total Marks: 1

The study of research methods provides you with the knowledge and skills you need

Select correct option:

To solve the problem

To improve the decision-making process

To understand the research of others

What does it mean if two variables have a positive correlation?

Select correct option:

As one variable increases, so does the other

As one variable increases, the other decreases

The correlation between the two variables is 0

The correlation between the two variables is greater than 1.0

Question # 17 of 20 (Start time: 06:39:20 AM) Total Marks: 1

Which of the following is an example of deception in business research?

Select correct option:

The obtaining of company material without permission.

The researcher wearing a disguise during an observation.

The researcher representing their research as being about a different topic.

The researcher failing to ask permission to interview someone.

Question # 18 of 20 (Start time: 06:39:42 AM) Total Marks: 1

Which one of the following is not an assumption of science?

Select correct option:

There are reoccurring patterns in the world.

Events happen because of preceding causes.

We can discover solutions to problems of interest.

Theoretical explanations must agree with common sense.

Question # 19 of 20 (Start time: 06:40:09 AM) Total Marks: 1

Ms. Roshi has been coordinating the Annual Festival at her school for the last several years. She wants to be sure the students and parents enjoy the festival again this year. On which source is she LEAST likely to rely when making decisions about what to do?

Select correct option:

Tradition

Personal experience

Research

Expert opinion

Question # 20 of 20 (Start time: 06:40:31 AM) Total Marks: 1

What is the purpose of a control group?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 10 of 20 (Start time: 06:47:54 AM) Total Marks: 1

Which term technically describes a situation in which an observer's work in a first-grade classroom disrupts the normal routines due to the curiosity of the students?

Select correct option:

Observer effect

Participant effect

Non participant bias

Observer bias

Question # 11 of 20 (Start time: 06:48:08 AM) Total Marks: 1

Which of the following questions might invade the privacy of a research participant?

Select correct option:

How long have you worked for this organisation?

What is your home address?

What do you think about your direct line manager?

What happened during your last performance appraisal?

Question # 12 of 20 (Start time: 06:48:24 AM) Total Marks: 1

Bias is defined as;

Select correct option:

The distortion of responses based on gender, ethnicity, race, or language

A lack of validity

A lack of reliability

A poor interpretation of a student's score

Question # 13 of 20 (Start time: 06:48:32 AM) Total Marks: 1

Which of the following terms refers to a statistical method that can be used to statistically equate groups on a pretest or some other variable?

Select correct option:

Experimental control

Differential influence

Matching

Analysis of covariance

Question # 14 of 20 (Start time: 06:49:15 AM) Total Marks: 1

Graphical presentation of data lays more emphasis on:

Question # 4 of 20 (Start time: 06:57:50 AM) Total Marks: 1

What is the basis of the Scientific Method?

Select correct option:

To test hypotheses in conditions that are conducive to its success.

To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypotheses and if they are disproved, they should be abandoned completely.

Question # 5 of 20 (Start time: 06:58:15 AM) Total Marks: 1

Basic and Applied Research are the classifications of research on the basis of:

Select correct option:

Use of the research

Time dimension

Techniques used

Purpose of the research

Question # 6 of 20 (Start time: 06:58:34 AM) Total Marks: 1

What is the purpose of a control group?

Select correct option:

Make the experiment easier to analyze

Show the value of the dependent variable when the independent variable is not being manipulated

To be able to better evaluate the effect of the independent variable

To control all variables

Question # 7 of 20 (Start time: 06:58:41 AM) Total Marks: 1

Why is it important to change one variable at a time in single case designs?

Select correct option:

Changing one variable allows isolation of the cause of the change

Changing more than one variable at a time confounds those independent variables

Both a and b are true

None of the above

Why does qualitative interviewing have an advantage over participant observation when it comes to longitudinal research?

Select correct option:

Repeat interviews are easier to organise.

It allows for a better exploration of key issues.

It is a more focused research method.

Participant observers are prone to 'go native' during longitudinal research.

Question # 17 of 20 (Start time: 07:14:02 AM) Total Marks: 1

Which of the following is an example of value-free research?

Select correct option:

Conscious favor ympathy

for the loser Unstructured

interviewingNone of the

given options

Question # 18 of 20 (Start time: 07:14:20 AM) Total Marks: 1

Which of the following types of analysis can be done using secondary analysis?

Select correct option:

The analysis of specific subgroups

Longitudinal analysis

Cross-cultural analysis ●

All of the given options

Question # 19 of 20 (Start time: 07:15:30 AM) Total Marks: 1

Ms. Roshi has been coordinating the Annual Festival at her school for the last several years. She wants to be sure the students and parents enjoy the festival again this year. On which source is she LEAST likely to rely when making decisions about what to do?

Select correct option:

Tradition

Personal experience

Research

Expert opinion

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Locating research reports in libraries

Question # 12 of 15 (Start time: 01:52:24 AM) Total Marks: 1

Basic and Applied Research are the classifications of research on the basis of:

Select correct option:

Use of the research

Time dimension

Techniques used

Purpose of the research

Question # 13 of 15 (Start time: 01:53:05 AM) Total Marks: 1

In _____ we collect same type of information from different respondents in different times.

Select correct option:

Cohort study

Time series Research

Panel study

Case studies

Question # 14 of 15 (Start time: 01:53:35 AM) Total Marks: 1

Which of the following is included in research proposal?

Select correct option:

Data analysis

Results

Literature review

Conclusions section

Question # 15 of 15 (Start time: 01:54:17 AM) Total Marks: 1

Which of the following is the least appropriate research problem?

Select correct option:

Does studying Latin improve the standardized vocabulary test scores of seventh grade students?

Does drilling fifth grade students with multiplication facts improve their standardized test scores?

What is the relationship between students' math attitudes and math achievement?

Should students have access to controversial novels in school?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

If an interview is conducted with a respondent who does not meet the qualifications for a study, what kind of bias has occurred?

Select correct option:

Respondent bias

Position bias

Non-response bias

Instrument bias

Question # 2 of 15 (Start time: 07:39:22 PM) Total Marks: 1

According to Empiricism, which of the following is the ultimate source of all our concepts and knowledge?

Select correct option:

Perceptions

Theory

Sensory experience

Logics and arguments

Question # 3 of 15 (Start time: 07:39:53 PM) Total Marks: 1

According to scientific method, which of the following is Not an empirical reality?

Select correct option:

Emotions

God's reward for good deeds

Satisfaction

None of the given options

Question # 4 of 15 (Start time: 07:41:01 PM) Total Marks: 1

Which of the following is least likely to occur as an ethical problem with e-research?

Select correct option:

People are not likely to be able to stop once they have begun participating.

Informed consent cannot be completely monitored.

Debriefing could be avoided.

Privacy could be invaded.

Question # 5 of 15 (Start time: 07:42:29 PM) Total Marks: 1

What is required if there is a chance that data could harm the respondents?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

A signed form detailing the types of limits

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Free consent of respondents
All of the given options

Question # 6 of 15 (Start time: 07:43:51 PM) Total Marks: 1

The application of the scientific method to the study of business problems is called;
Select correct option:

Inductive reasoning
Deductive reasoning
Business research
Grounded theory

Question # 7 of 15 (Start time: 07:44:58 PM) Total Marks: 1

A measure has high internal consistency reliability when:
Select correct option:

Multiple observers make the same ratings using the measure.
Participants score at the high end of the scale every time they complete the measure.
Multiple observers obtain the same score every time they use the measure.
Each of the items correlates with other items on the measure.

Question # 8 of 15 (Start time: 07:46:15 PM) Total Marks: 1

Which of the following is NOT a characteristic of a good research topic?
Select correct option:

It is ethical.
It can be investigated through the collection and analysis of data.
It focuses on a philosophical or ethical issue.
It is theoretically or practically significant.

Question # 9 of 15 (Start time: 07:46:47 PM) Total Marks: 1

A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review?
Select correct option:

Integrative reviews
Theoretical reviews
Self-study reviews
Historical reviews

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Computer-assisted telephone surveys

Mail surveys

Computer-assisted personal interviews

Internet surveys

Question # 11 of 15 (Start time: 07:48:51 PM) Total Marks: 1

Which of the following is NOT a longitudinal study?

Select correct option:

Trend study

Census study

Panel study

Cohort study

Question # 12 of 15 (Start time: 07:50:18 PM) Total Marks: 1

What is a cross-sectional research?

Select correct option:

A study of one particular section of society

A comparison of two or more variables over a long period of time

The collection of data from more than one case at one moment in time

One that is conducted when environment is uncertain

Question # 13 of 15 (Start time: 07:50:45 PM) Total Marks: 1

The small scale trial run of a particular item is called_____.

Select correct option:

Test run

Pilot test

Post hoc test

t-test

Question # 14 of 15 (Start time: 07:51:39 PM) Total Marks: 1

Which one of the following aspect to be evaluated during “Pilot Testing”?

Select correct option:

Reactions of Respondents

Discovering errors in the instrument

Sampling procedure can be checked

All of the given options

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

Select correct option:

The type of data collected.

The data-collection technique.

The level of manipulation used to elicit data collection.

All of the given options

Question # 1 of 15 (Start time: 08:21:00 PM) Total Marks: 1

Hypothesis refers to_____:

Select correct option:

The outcome of an experiment

A conclusion drawn from an experiment

A form of bias in which the subject tries to outguess the experimenter

A tentative statement about the relationship

Question # 2 of 15 (Start time: 08:22:29 PM) Total Marks: 1

A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review?

Select correct option:

Integrative reviews

Theoretical reviews

Self-study reviews

Historical reviews

Question # 3 of 15 (Start time: 08:23:26 PM) Total Marks: 1

The elaboration of the variables in the theoretical framework addresses which type of questions?

Select correct option:

Why we expect certain relationships to exist

How we expect certain relationships to exist

Both of the given questions

None of the given questions

Question # 4 of 15 (Start time: 08:23:54 PM) Total Marks: 1

In which of the following Tests, we give extra training to the interviewer in case of big research funded by an organization?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Test Run

Post Hoc Test

T- Test

Question # 5 of 15 (Start time: 08:25:23 PM) Total Marks: 1

The number of people who complete a survey in relation to the number of people contacted to participate is called the:

Select correct option:

Response set

Response rate

Response bias

Respondents

Question # 6 of 15 (Start time: 08:26:40 PM) Total Marks: 1

Research questions are crucial because they will:

Select correct option:

Guide your decisions about what data to collect and from where.

Help you decide which research area interests you.

Ensure that your findings have external validity.

Prevent you from thinking about research strategies.

Question # 7 of 15 (Start time: 08:27:09 PM) Total Marks: 1

12. Which of the following true about the relationship between theory building and data collection?

Select correct option:

When studies come out as expected, inductive support for the theory is gained.

If an experiment fails, discarding the experiment is an example of affirming the consequent.

When a hypothesis is not supported, virtually nothing has been learned about the theory.

A good theory will be inclusive enough to explain every possible research outcome.

Question # 8 of 15 (Start time: 08:27:49 PM) Total Marks: 1

The term “Extrapolation” is better explained by the statement:

Select correct option:

Facts lead to the rejection of theory

Identification the gap in knowledge

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Theory predicts facts

None of the given options

AR Lucky Term

Question # 9 of 15 (Start time: 08:28:14 PM) Total Marks: 1

The most critical areas of an article to read is;

Select correct option:

Results section

Introduction

Abstract

Limitations

Question # 10 of 15 (Start time: 08:28:44 PM) Total Marks: 1

“Skepticism” is a norm of science. It is better explained by which of the following statement?

Select correct option:

Combining the previous knowledge

Critical reading of the previous researches

Providing the proper references of quoted text

Locating research reports in libraries

Question # 11 of 15 (Start time: 08:29:01 PM) Total Marks: 1

Before a researcher specified the relationship among variables, he must have a (an):

Select correct option:

Inventory of variables

Inventory of propositions

Arrangement of propositions

Schematic diagram

Question # 12 of 15 (Start time: 08:29:48 PM) Total Marks: 1

Which of the following provides a solid basis foundation for the theoretical framework?

Select correct option:

Survey

Literature Review

Experiment

Referencing

Question # 13 of 15 (Start time: 08:30:19 PM) Total Marks: 1

The term “Extrapolation” is better explained by the statement:

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Facts lead to the rejection of theory

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Identification of the gap in knowledge

Theory predicts facts

Question # 14 of 15 (Start time: 08:31:05 PM) Total Marks: 1

Ms. Laiba has decided to use the test at the end of the textbook to measure the achievement levels of the students in her study. Which of the following BEST describes the chapter test?

Select correct option:

Definition

Construct

Variable

Operationalized variable

Question # 15 of 15 (Start time: 08:31:51 PM) Total Marks: 1

What is the variable called that a researcher manipulates in an experiment?

Select correct option:

Dependent variable

Independent variable

Extraneous variable

None of the given options

Question # 1 of 15 (Start time: 09:02:12 PM) Total Marks: 1

What is required if there is a chance that data could harm the respondents?

Select correct option:

Change of results

A signed form detailing the types of limits

Free consents of respondents

All of the given options

Question # 2 of 15 (Start time: 09:02:38 PM) Total Marks: 1

Which of the following is an advantage of open questions?

Select correct option:

They allow respondents to answer in their own terms.

They prevent respondents from giving unusual answers.

They allow respondents to put less effort into their answer.

They allow respondents to code their answers in advance.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Hypothesis refers to _____:

Select correct option:

The outcome of an experiment

A conclusion drawn from an experiment

A form of bias in which the subject tries to outguess the experimenter

A tentative statement about the relationship

Question # 4 of 15 (Start time: 09:04:20 PM) Total Marks: 1

Descriptive and Explanatory Research are the classifications of research on the basis of:

Select correct option:

Use of the research

Time dimension

Techniques used

Purpose of the research

Question # 5 of 15 (Start time: 09:04:50 PM) Total Marks: 1

Which one of the following creates problems of measurements of a concept?

Select correct option:

Unambiguous meanings

Vague meanings

Clear meanings

Dictionary meanings

Question # 6 of 15 (Start time: 09:05:12 PM) Total Marks: 1

A measure has high internal consistency reliability when:

Select correct option:

Multiple observers make the same ratings using the measure

Participants score at the high end of the scale every time they complete the measure.

Multiple observers obtain the same score every time they use the measure.

Each of the items correlates with other items on the measure.

Question # 7 of 15 (Start time: 09:05:41 PM) Total Marks: 1

Which of the following is false with regard to the benefits of multiple-choice questions over open-ended questions?

Select correct option:

Multiple-choice questions are easier to design

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Multiple-choice questions are less costly for coding and data processing

Multiple-choice questions are quicker to administer

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The use of multiple-choice questions results in higher cooperation for self-administered surveys

Question # 8 of 15 (Start time: 09:06:58 PM) Total Marks: 1

What is the basis of the Scientific Method?

Select correct option:

To test hypotheses in conditions that are conducive to its success.

To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypotheses and if they are disproved, they should be abandoned completely.

Question # 9 of 15 (Start time: 09:07:37 PM) Total Marks: 1

Which of the following is the BEST hypothesis?

Select correct option:

Students taking formative quizzes will perform better on chapter exams than students not taking these quizzes.

Taller students will have higher test scores than shorter students.

Students taught in a cooperative group setting should do better than students in a traditional class.

Students using laptops will do well.

Question # 10 of 15 (Start time: 09:08:13 PM) Total Marks: 1

An advantage of computer-assisted telephone interviewing is:

Select correct option:

Interviewing time is reduced ●

Data quality is enhanced

Questionnaires do not have to be coded

There is little opportunity for interviewer bias

Question # 11 of 15 (Start time: 09:08:52 PM) Total Marks: 1

The following journal article would be an example of _____ research; "The benefits of florescent lighting on production in a factory setting."

Select correct option:

Applied

Interview

Basic

Ensure that your findings have external validity.
Prevent you from thinking about research strategies.

Question # 2 of 15 (Start time: 12:03:22 AM) Total Marks: 1

Which of the following is not a function of clearly identified research questions?
Select correct option:

They guide your literature search.
They keep you focused throughout the data collection period.
They make the scope of your research as wide as possible.
They are linked together to help you construct a coherent argument.

Question # 3 of 15 (Start time: 12:04:18 AM) Total Marks: 1

What is opposite of a variable?
Select correct option:

A constant
An extraneous variable
A dependent variable
A data set

Question # 4 of 15 (Start time: 12:04:33 AM) Total Marks: 1

Quantitative social researchers rarely claim to have established causality because:
Select correct option:

They are more concerned with publishing the results of their reliability tests.
They do not believe that this is an appropriate goal to be striving for.
They keep forgetting which of the variables they have manipulated.
They tend to use cross-sectional designs, which produce only correlations.

Question # 5 of 15 (Start time: 12:05:03 AM) Total Marks: 1

Research may differ along a series of dimensions. Which of the following may be applied to this statement?
Select correct option:

The type of data collected.
The data-collection technique.
The level of manipulation used to elicit data collection.

Question # 9 of 15 (Start time: 12:38:07 AM) Total Marks: 1

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Experimental

Question # 10 of 15 (Start time: 12:38:49 AM) Total Marks: 1

In the statement 'an examination of the effects of discretionary behaviour on employee performance' employee performance is the:

Select correct option:

Independent variable

Dependent variable

Extraneous variable

Causal variable

Question # 11 of 15 (Start time: 12:39:32 AM) Total Marks: 1

A concept is a generalized idea about----- .

Select correct option:

A class of objects

Attributes

Occurrences

All of the given options

Question # 12 of 15 (Start time: 12:39:47 AM) Total Marks: 1

All the persons involved in the collection of data and supervision of data collection process are called;

Select correct option:

Fieldworkers

Researchers

Research assistants

None of the given options

Question # 14 of 15 (Start time: 12:42:09 AM) Total Marks: 1

Measurement reliability refers to the:

Select correct option:

Accuracy of the scores

Consistency of the scores

Dependency of the scores

Comprehensiveness of the scores

Question # 15 of 15 (Start time: 12:43:26 AM) Total Marks: 1

Which of the following is an advantage of open questions?

Select correct option:

They allow respondents to answer in their own terms.

They prevent respondents from giving unusual answers.

They allow respondents to put less effort into their answer.

They allow respondents to code their answers in advance.

Question # 1 of 15 (Start time: 12:51:15 AM) Total Marks: 1

Which type of questions should be first in a questionnaire or interview?

Select correct option:

Questions about demographics such as age and gender

Questions about attitudes and behaviors

Most easy question

Difficult questions

Question # 2 of 15 (Start time: 12:51:32 AM) Total Marks: 1

A Literature review that summarizes what is known at a point in time is known as:

Select correct option:

Narrative literature review

Systematic literature review

Integrative review

AR Lucky Term

Question # 3 of 15 (Start time: 12:52:12 AM) Total Marks: 1

Which of the following is the best hypothesis statement to address the research question, "What impact will the new advertising campaign have on use of Brand B?"

Select correct option:

The new advertising campaign will impact Brand B usage.

The new advertising campaign will increase Brand B trial.

The new advertising campaign will cause increased Brand B usage at the expense of Brand C.

The new advertising campaign will increase Brand B's market penetration.

Question # 4 of 15 (Start time: 12:52:57 AM) Total Marks: 1

After a researcher has stated the specific problem to be studied in an experiment, he must then develop a(n):

Select correct option:

Theory

Conclusion

Hypothesis

Summary of the data

Question # 5 of 15 (Start time: 12:53:34 AM) Total Marks: 1

12. Which of the following true about the relationship between theory building and data collection?

Select correct option:

When studies come out as expected, inductive support for the theory is gained.

If an experiment fails, discarding the experiment is an example of affirming the consequent.

When a hypothesis is not supported, virtually nothing has been learned about the theory.

A good theory will be inclusive enough to explain every possible research outcome.

Question # 6 of 15 (Start time: 12:54:04 AM) Total Marks: 1

In _____ we collect same type of information from different respondents in different times.

Select correct option:

Cohort study

Time series Research

Panel study

Case studies

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Discrete variables allow measurement of an infinite number of fractions of units of measurement.

Discrete variables can only have whole number values.

Continuous numbers can only have whole number values.

Continuous measures do not allow for scores that fall between two number values.

Question # 7 of 15 (Start time: 02:32:39 AM) Total Marks: 1

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

Select correct option:

The type of data collected.

The data-collection technique.

The level of manipulation used to elicit data collection.

All of the given options

Question # 8 of 15 (Start time: 02:32:51 AM) Total Marks: 1

Theoretical framework is trying to develop a _____ model of our study.

Select correct option:

Functional

Conceptual

Operational

Practical

Question # 9 of 15 (Start time: 02:33:17 AM) Total Marks: 1

What does Ordinal scale NOT imply?

Select correct option:

Characteristics of nominal scale

Rank the object

Does not provide magnitude of object

Provide rate

Question # 10 of 15 (Start time: 02:33:56 AM) Total Marks: 1

The most critical areas of an article to read is;

Select correct option:

Results section

Introduction

Abstract

After a researcher has stated the specific problem to be studied in an experiment, he must then develop a(n):

Select correct option:

Theory

Conclusion

Hypothesis

Summary of the data

Question # 12 of 15 (Start time: 02:34:24 AM) Total Marks: 1

In which way does a ratio scale measurement differ from an interval measurement?

Select correct option:

It measures larger or smaller scores on some underlying dimension.

It implies the existence of an absolute zero value.

It requires the mutual exclusivity of all cases.

It requires that exhaustiveness is applied to all observations.

Question # 13 of 15 (Start time: 02:34:35 AM) Total Marks: 1

Which of the the following is not included in Objects?

Select correct option:

Tables

People

Books

Weight

Question # 14 of 15 (Start time: 02:36:04 AM) Total Marks: 1

Which of following statement is true?

Select correct option:

Theory and Research are dichotomous

Theory and Research are interrelated

There is no difference between Theory and Research

None of the given statements is true

Which of the following is a discrete variable?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Select correct option:

Age

Nationality

Test score

Income

Question # 4 of 15 (Start time: 09:08:58 PM) Total Marks: 1

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Grounded theory

Question # 5 of 15 (Start time: 09:09:12 PM) Total Marks: 1

Which of the following is not an unethical issue?

Select correct option:

Invoicing irregularities

Avoiding legal liability

Misrepresenting results

None of the given options

Question # 6 of 15 (Start time: 09:10:16 PM) Total Marks: 1

“Skepticism” is a norm of science. It is better explained by which of the following statement?

Select correct option:

Combining the previous knowledge

Critical reading of the previous researches

Providing the proper references of quoted text

Locating research reports in libraries

Question # 7 of 15 (Start time: 09:10:29 PM) Total Marks: 1

What is the final step of a scientific investigation?

Select correct option:

Analyze data

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Collect data

Report the findings

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Determine whether the hypothesis was supported

Question # 8 of 15 (Start time: 09:10:45 PM) Total Marks: 1

The elaboration of the variables in the theoretical framework addresses which type of questions?

Select correct option:

Why we expect certain relationships to exist

How we expect certain relationships to exist

Both of the given questions

None of the given questions

Question # 9 of 15 (Start time: 09:10:57 PM) Total Marks: 1

One of the preoccupations of quantitative researchers is with generalization, which is a sign of:

Select correct option:

External validity

Internal reliability

External reliability

Internal validity

Question # 10 of 15 (Start time: 09:11:43 PM) Total Marks: 1

Which of the following should not be a consideration in writing a proposal?

Select correct option:

Understanding the problem situation

The appearance/form of the proposal

Responding to every element exactly as specified by the client

Knowing as much as possible about the proposal recipients

Question # 11 of 15 (Start time: 09:12:14 PM) Total Marks: 1

When you are confident that the experimental manipulation produced the changes you measured in the dependent variable, your study probably has good_____validity.

Select correct option:

Construct

Internal

External

Causal

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Grounded theory

Question # 3 of 15 (Start time: 09:26:56 PM) Total Marks: 1

A good qualitative problem statement:

Select correct option:

Defines the independent and dependent variables

Conveys a sense of emerging design

Specifies a research hypothesis to be tested

Specifies the relationship between variables that the researcher expects to find.

Question # 4 of 15 (Start time: 09:27:28 PM) Total Marks: 1

What is a cross-sectional research?

Select correct option:

A study of one particular section of society

A comparison of two or more variables over a long period of time

The collection of data from more than one case at one moment in time

One that is conducted when environment is uncertain

Question # 5 of 15 (Start time: 09:27:42 PM) Total Marks: 1

The validity of a measure refers to the:

Select correct option:

Particular type of construct specification

Comprehensiveness with which it measures the construct

Accuracy with which it measures the construct

Consistency of the measurement

Question # 6 of 15 (Start time: 09:28:03 PM) Total Marks: 1

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Does studying Latin improve the standardized vocabulary test scores of seventh grade students?

Does drilling fifth grade students with multiplication facts improve their standardized test scores?

What is the relationship between students' math attitudes and math achievement?

Should students have access to controversial novels in school?

Question # 7 of 15 (Start time: 09:28:25 PM) Total Marks: 1

The _____ is only useful if the concepts, ideas, questions, etc. to be investigated are both testable and falsifiable.

Select correct option:

Independent Variable

Dependent Variable

Experimental Method

Scientific Method

Question # 8 of 15 (Start time: 09:28:37 PM) Total Marks: 1

Which of the following is not a function of clearly identified research questions?

Select correct option:

They guide your literature search.

They keep you focused throughout the data collection period.

They make the scope of your research as wide as possible.

They are linked together to help you construct a coherent argument.

Question # 9 of 15 (Start time: 09:29:02 PM) Total Marks: 1

Which of the following provides insight into the complexity of using interviews?

Select correct option:

Potential influence of gender or cultural differences between interviewer and interviewee

The accuracy of the interviewee's responses

The different semantic meanings of the language being used

Accuracy, influences and language used

Question # 10 of 15 (Start time: 09:30:18 PM) Total Marks: 1

Rationalism is the application of:

Select correct option:

Research solution

Question # 11 of 15 (Start time: 09:30:41 PM) Total Marks: 1

What is a relationship between the literature survey and the theoretical framework?

Select correct option:

Provides a solid foundation for developing the latter

Literature survey helps in the identification of the relevant variables

The theoretical framework explains the theory underlying these relations

All of the given options

Question # 12 of 15 (Start time: 09:31:15 PM) Total Marks: 1

12. Which of the following true about the relationship between theory building and data collection?

Select correct option:

When studies come out as expected, inductive support for the theory is gained.

If an experiment fails, discarding the experiment is an example of affirming the consequent.

When a hypothesis is not supported, virtually nothing has been learned about the theory.

A good theory will be inclusive enough to explain every possible research outcome.

Question # 13 of 15 (Start time: 09:31:25 PM) Total Marks: 1

According to Empiricism, which of the following is the ultimate source of all our concepts and knowledge?

Select correct option:

Perceptions

Theory

Sensory experience

Logics and arguments

Question # 14 of 15 (Start time: 09:31:41 PM) Total Marks: 1

Which of the following is the least obtrusive and most accurate method for recording data in an interview?

Select correct option:

Note taking

Videotaping

Audiotaping

Writing notes after the interview

All of the given options

Question # 1 of 15 (Start time: 02:14:11 AM) Total Marks: 1

A literature review requires;

Select correct option:

planning

clear writing

good writing

All of the given option

Question # 2 of 15 (Start time: 02:14:18 AM) Total Marks: 1

What is an hypothesis?

Select correct option:

A prediction of a relationship between certain variables.

An experiment that tests certain predictions.

An independent variable.

A dependent variable.

Question # 3 of 15 (Start time: 02:14:24 AM) Total Marks: 1

Which of the following can Not be a part of preliminary data collection?

Select correct option:

Review of literature

Focus group discussion

Making research question

Seek out the informants

Question # 4 of 15 (Start time: 02:14:44 AM) Total Marks: 1

Which of the following is an example of deception in business research?

Select correct option:

The obtaining of company material without permission.

The researcher wearing a disguise during an observation.

The researcher representing their research as being about a different topic.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The researcher failing to ask permission to interview someone.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 5 of 15 (Start time: 02:14:51 AM) Total Marks: 1

Which of the following provides insight into the complexity of using interviews?

Select correct option:

Potential influence of gender or cultural differences between interviewer and interviewee

The accuracy of the interviewee's responses

The different semantic meanings of the language being used

Accuracy, influences and language used

Question # 6 of 15 (Start time: 02:14:57 AM) Total Marks: 1

What is a cross-sectional research?

Select correct option:

A study of one particular section of society

A comparison of two or more variables over a long period of time

The collection of data from more than one case at one moment in time

One that is conducted when environment is uncertain

Question # 7 of 15 (Start time: 02:15:03 AM) Total Marks: 1

Which of the following is a concept?

Select correct option:

Leadership.

Total Quality Management.

Human Resource Management.

All of the given options

Question # 8 of 15 (Start time: 02:15:10 AM) Total Marks: 1

Which of the following steps of the scientific method is exemplified by the researcher reviewing the literature and focusing on a specific problem that has yet to be resolved?

Select correct option:

Identify a topic.

Describe the procedures to collect information.

Analyze the collected information.

State the results of the data analysis.

Question # 9 of 15 (Start time: 02:15:25 AM) Total Marks: 1

What is ordinal data?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Ordinary data

Well behaved data

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Ranked data

Numbers

Question # 10 of 15 (Start time: 02:15:31 AM) Total Marks: 1

The key objective of data analysis is to:

Select correct option:

Calculate statistics

Understand relationships between variables

Obtain the distribution of responses for each question

Create tables which display the survey results

Question # 11 of 15 (Start time: 02:15:52 AM) Total Marks: 1

Hypothesis refers to_____:

Select correct option:

The outcome of an experiment

A conclusion drawn from an experiment

A form of bias in which the subject tries to outguess the experimenter

A tentative statement about the relationship

Question # 12 of 15 (Start time: 02:16:07 AM) Total Marks: 1

Descriptive and Explanatory Research are the classifications of research on the basis of:

Select correct option:

Use of the research

Time dimension

Techniques used

Purpose of the research ●

Question # 13 of 15 (Start time: 02:16:22 AM) Total Marks: 1

Time consumed in mall intercept interview is ----- --.

Select correct option:

High

Moderate

Low

Nil

Question # 14 of 15 (Start time: 02:16:45 AM) Total Marks: 1

According to Empiricism, which of the following is the ultimate source of all our

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

concepts and knowledge?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Perceptions

Theory

Sensory experience

Logics and arguments

Question # 15 of 15 (Start time: 02:16:51 AM) Total Marks: 1

Which of the following is least likely to occur as an ethical problem with e-research?

Select correct option:

People are not likely to be able to stop once they have begun participating.

Informed consent cannot be completely monitored.

Debriefing could be avoided.

Privacy could be invaded.

Question # 1 of 15 (Start time: 02:18:36 AM) Total Marks: 1

Which of the following is likely to reduce the validity of a test?

Select correct option:

Unclear test directions

Ambiguous test items

Untaught items

All of the given options

Question # 2 of 15 (Start time: 02:19:21 AM) Total Marks: 1

A measure has high internal consistency reliability when:

Select correct option:

Multiple observers make the same ratings using the measure.

Participants score at the high end of the scale every time they complete the measure.

Multiple observers obtain the same score every time they use the measure.

Each of the items correlates with other items on the measure.

Question # 3 of 15 (Start time: 02:19:40 AM) Total Marks: 1

One of the preoccupations of quantitative researchers is with generalization, which is a sign of:

Select correct option:

External validity

Internal reliability

External reliability

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Internal validity

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 4 of 15 (Start time: 02:19:55 AM) Total Marks: 1

Which of the following statements is true?

Select correct option:

All concepts are variables and all variables are concepts

All variables are concepts but all concepts are not variable

All concepts are variable but all variables are not concepts

None of the above

Question # 5 of 15 (Start time: 02:20:01 AM) Total Marks: 1

Null hypothesis states:

Select correct option:

Absence of relationship

Existence of relationship

The direction of relationship

Casual relationship

Question # 6 of 15 (Start time: 02:20:07 AM) Total Marks: 1

Which of the following is not an unethical issue?

Select correct option:

Invoicing irregularities

Avoiding legal liability

Misrepresenting results

None of the given options

Question # 7 of 15 (Start time: 02:20:13 AM) Total Marks: 1

If an interview is conducted with a respondent who does not meet the qualifications for a study, what kind of bias has occurred?

Select correct option:

Respondent bias

Position bias

Non-response bias

Instrument bias

Question # 8 of 15 (Start time: 02:20:20 AM) Total Marks: 1

The researcher protects the confidentiality in following ways, Except;

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Obtaining signed nondisclosure documents.

Restricting access to data instruments where the respondent is identified.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Disclosure of data subsets.

Restricting access to respondent identification.

Question # 9 of 15 (Start time: 02:20:27 AM) Total Marks: 1

Which of the following statements is false?

Select correct option:

Discrete variables allow measurement of an infinite number of fractions of units of measurement.

Discrete variables can only have whole number values.

Continuous numbers can only have whole number values.

Continuous measures do not allow for scores that fall between two number values.

Question # 10 of 15 (Start time: 02:20:42 AM) Total Marks: 1

How can we determine if a test has good validity?

Select correct option:

It produces the same result when it is given at different times to the same group of people

It produces the same result no matter which version of the test is used

It measures what it is supposed to measure

All of the questions on it can be answered accurately by the subject

Question # 11 of 15 (Start time: 02:20:57 AM) Total Marks: 1

When you are confident that the experimental manipulation produced the changes you measured in the dependent variable, your study probably has good_____validity.

Select correct option:

Construct

Internal

External

Causal

Question # 12 of 15 (Start time: 02:21:13 AM) Total Marks: 1

Critical decision area in questionnaire construction is_____.

Select correct option:

Question content

Question wording

Response strategy

All of the given options

AR Lucky Term

Question # 13 of 15 (Start time: 02:21:39 AM) Total Marks: 1

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

What is the final step of a scientific investigation?

Select correct option:

Analyze data

Collect data

Report the findings

Determine whether the hypothesis was supported

Question # 14 of 15 (Start time: 02:21:45 AM) Total Marks: 1

The application of the scientific method to the study of business problems is called;

Select correct option:

Inductive reasoning

Deductive reasoning

Business research

Grounded theory

Question # 15 of 15 (Start time: 02:22:01 AM) Total Marks: 1

What is a relationship between the literature survey and the theoretical framework?

Select correct option:

Provides a solid foundation for developing the latter

Literature survey helps in the identification of the relevant variables

The theoretical framework explains the theory underlying these relations

All of the given options

Question # 1 of 15 (Start time: 04:11:02 AM) Total Marks: 1

What is the first step in the research process?

Select correct option:

Preliminary data collection

Problem definition

Theoretical framework

Define broad problem area

Question # 2 of 15 (Start time: 04:11:15 AM) Total Marks: 1

What is one way that distortions can be produced in self report data?

Select correct option:

Lying

Social desirability bias

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Faulty memory

All of the given options

Question # 3 of 15 (Start time: 04:12:18 AM) Total Marks: 1

An indicator of reliability based on the correlations of each item in a measure with every other item is called:

Select correct option:

Test-retest reliability

Cronbach's alpha

Split-half reliability

Inter item ratio

Question # 4 of 15 (Start time: 04:12:53 AM) Total Marks: 1

An operational definition is:

Select correct option:

One that bears no relation to the underlying concept.

An abstract, theoretical definition of a concept.

A definition of a concept in terms of specific, empirical measures.

One that refers to opera singers and their work.

Question # 5 of 15 (Start time: 04:13:22 AM) Total Marks: 1

Which type of question is most likely to be used when the researcher is just starting to explore what people think about a particular topic?

Select correct option:

Closed-ended

Open-ended

Structured

Semi structured

Question # 6 of 15 (Start time: 04:13:47 AM) Total Marks: 1

After a researcher has stated the specific problem to be studied in an experiment, he must then develop a(n):

Select correct option:

Theory

Conclusion

Hypothesis

Summary of the data

Question # 7 of 15 (Start time: 04:14:07 AM) Total Marks: 1

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

How is nominal data presented?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

In order

In discrete categories

Units of equal distance

Data where there is a true zero

Question # 8 of 15 (Start time: 04:14:20 AM) Total Marks: 1

The number of people who complete a survey in relation to the number of people contacted to participate is called the:

Select correct option:

Response set

Response rate

Response bias

Respondents

Question # 9 of 15 (Start time: 04:14:33 AM) Total Marks: 1

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Experimental

Question # 10 of 15 (Start time: 04:14:47 AM) Total Marks: 1

When accessing the internet, which of these steps is the most essential?

Select correct option:

Recording the full URL

Noting the access dates

Downloading material to be referenced

They are all equally important

Question # 11 of 15 (Start time: 04:15:50 AM) Total Marks: 1

A one tailed hypothesis predicts-----

Select correct option:

The future

The lottery result

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The frequency of the effect

The direction of the effect

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question # 12 of 15 (Start time: 04:16:21 AM) Total Marks: 1A good

qualitative problem statement:

Select correct option:

Defines the independent and dependent variables
Conveys a sense of emerging design

Specifies a research hypothesis to be tested

Specifies the relationship between variables that the researcher expects to find.

Question # 13 of 15 (Start time: 04:16:47 AM) Total Marks: 1

Which of the following is the least obtrusive and most accurate method for recording data in an interview?

Select correct option:

Note taking Videotaping

Audiotaping

Writing notes after the interview

Question # 14 of 15 (Start time: 04:16:58 AM) Total Marks: 1

“High productivity is positively associated with Job commitment”. The given hypothesis is a (an):

Select correct option:

Descriptive hypothesis Explanatory

hypothesis Non-Directional hypothesis

Co-relational hypothesis

Question # 15 of 15 (Start time: 04:17:13 AM) Total Marks: 1The term

“Extrapolation” is better explained by the statement: Select correct option:

Facts lead to the rejection of theory Identification of

the gap in knowledge Theory predicts facts

None of the given options

Question # 20 of 20 (Start time: 12:49:12 AM) Total Marks: 1

The logic of purposive sampling is:

Select correct option:

That a random sample can generalize to a population.

That a few information-rich participants studied in depth yield many insights about a topic. page no (90)

To include all participants, even though they are not all relevant to the problem.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term
To use participants because the researcher has access to them.

Reference:

In contrast, the logic and power of purposive sampling lies in selecting information-rich cases for study in depth.

http://www.blackwellreference.com/public/tocnode?id=g9781405124331_yr2011_chunk_g978140512433125_ss1-12

Question # 19 of 20 (Start time: 12:48:45 AM) Total Marks: 1

An indicator of reliability based on the correlations of each item in a measure with every other item is called:

Select correct option:

Test-retest reliability

Cronbach's alpha

Split-half reliability

Inter item ratio

reference:

Another internal consistency **indicator of reliability**, called **Cronbach's alpha**, is **based** on the individual items. Here the researcher calculates the **correlation of each item** with **every other item**.

http://books.google.com.pk/books?id=F94kAQAAIAAJ&q=An+indicator+of+reliability+based+on+the+correlations+of+each+item+in+a+measure+with+every+other+item+is+called+Cronbach's+alpha&dq=An+indicator+of+reliability+based+on+the+correlations+of+each+item+in+a+measure+with+every+other+item+is+called+Cronbach's+alpha&hl=en&ei=zj_bTZjpNY7UsgaL7cXaDg&sa=X&oi=book_result&ct=result&resnum=1&ved=0CCkQ6AEwAA

Question # 18 of 20 (Start time: 12:48:22 AM) Total Marks: 1

Why does qualitative interviewing have an advantage over participant observation when it comes to longitudinal research?

Select correct option:

Repeat interviews are easier to organise.

It allows for a better exploration of key issues.

It is a more focused research method.

Participant observers are prone to 'go native' during longitudinal research.

Reference:

Re-visiting research sites for follow up interviews is likely to be easier than arranging a series of subsequent observations.

Question # 17 of 20 (Start time: 12:48:01 AM) Total Marks: 1

An operational definition is:

Select correct option:

One that bears no relation to the underlying concept.

An abstract, theoretical definition of a concept.

A definition of a concept in terms of specific, empirical measures.

One that refers to opera singers and their work.

Reference:

Operational definition is also called a working definition stated in terms of specific testing or measurement criteria. The concepts must have empirical referents (i.e. we must be able to count, measure, or in some other way gather the information through our senses).

Question # 16 of 20 (Start time: 12:47:41 AM) Total Marks: 1

To say that a theory is falsifiable is to say that;

Select correct option:

It is based on results that are not replicable.

Investigators have replaced it with a simpler or more accurate theory.

We can imagine results that would contradict it.

It is so vague that it fits any and all possible results.

Reference:

Falsifiability. A good theory is falsifiable. If there is no conceivable way to construct an experiment or collect some data that could potentially contradict the theory, the theory is worthless. <http://www.analytictech.com/mb870/handouts/theorizing.htm>

Question # 15 of 20 (Start time: 12:46:33 AM) Total Marks: 1

Which type of research address major societal change?

Select correct option:

Experimental Research

Action Research

Social Research

Historical Comparative Research

Reference:

Historical comparative research is a powerful method for addressing big questions: How did **major societal change** take place? What fundamental features are common to most societies? Why did current **social** arrangements take a certain form in some societies but not in others?

Question # 14 of 20 (Start time: 12:45:56 AM) Total Marks: 1

Which term technically describes a situation in which an observer's work in a first-grade classroom disrupts the normal routines due to the curiosity of the students?

Select correct option:

Observer effect

Participant effect

Non participant bias

Observer bias

Reference:

Observer effect may refer to: **Observer effect** (information technology), the impact of observing a process while it is running;

Question # 13 of 20 (Start time: 12:45:15 AM) Total Marks: 1

What is the variable called, in an experiment, which is manipulated by the researcher?

Select correct option:

Stimulus

Control

Dependent

Independent

Reference:

independent variable The variable manipulated by the researcher in an experiment. <http://books.google.com.pk/books?id=dHd7tacWS7oC&pg=PA40&dq=the+variable+called,+in+an+experiment,+which+is+manipulated+by+the+researcher&hl=en&ei=>

Question # 12 of 20 (Start time: 12:44:52 AM) Total Marks: 1

If a measure is consistent over multiple occasions, it has:

Select correct option:

Inter-rater reliability

Construct validity (page=56)

Internal validity

Test-retest reliability

Reference:

(3) Construct Validity

Construct validity is for measures with multiple indicators. It addresses the question: If the measure is valid, do the various indicators operate in consistent manner? It requires a definition with clearly specified conceptual boundaries. In order to evaluate construct validity, we consider both theory and the measuring instrument being used. This is assessed through convergent validity and discriminant validity.

Question # 11 of 20 (Start time: 12:44:32 AM) Total Marks: 1

Bias is defined as;

Select correct option:

The distortion of responses based on gender, ethnicity, race, or language

A lack of validity

A lack of reliability

A poor interpretation of a student's score

Reference:

[http://webcache.googleusercontent.com/search?](http://webcache.googleusercontent.com/search?q=cache:ta5NQo1QNoJ:www.ebbp.org/course_outlines/systematic_review/+Bias+is+defined+as%3B+Select+co)

Question # 9 of 20 (Start time: 12:42:16 AM) Total Marks: 1

What type of the interview that is in which questions are already prepared?

Select correct option:

Telephonic interview

Personal interview

Unstructured interview

Structured interview

Reference:

Structured **interviews** are built around an **already prepared interview** schedule.

<http://www.cemca.org/books/chap10.htm>

Question # 8 of 20 (Start time: 12:41:51 AM) Total Marks: 1

All of these are characteristics of scientific methods of research except, it is;

Select correct option:

Cumulative

Deterministic

Unethical chapter#2

Rationalism

Reference:

characteristics of scientific methods of research

Empirical

Verifiabl

Cumulative

Deterministi

Ethical and Ideological Neutrality

Statistical Generalizatio

Rationalis

Question # 7 of 20 (Start time: 12:41:27 AM) Total Marks: 1

Which of the following is NOT an unethical issue?

Select correct option:

Invoicing irregularities

Avoiding legal liability

Misrepresenting results

Seek approval for research

Question # 6 of 20 (Start time: 12:40:44 AM) Total Marks: 1

Which of the following is not something a researcher will have to consider when thinking about their sample size?

Select correct option:

Time and cost.

Non-response.

Length of questionnaire.

Heterogeneity of population.

Reference:

In general bigger is better when considering sample size however all researchers

need to be aware of the limitations of their resources.

Question # 5 of 20 (Start time: 12:40:20 AM) Total Marks: 1

A _____ scale only assigns numbers to objects to classify the objects according to the characteristic of interest.

Select correct option:

Ratio

Nominal

Interval

Dichotomous

Reference:

Nominal scale

A scale whose numbers serve only as labels or tags for identifying and classifying objects with a strict one-to-one correspondence between the numbers and the objects.

Common examples include student registration numbers at their college or university and numbers assigned to football players or jockeys in a horse race. In marketing research, nominal scales are used for identifying respondents, brands, attributes, banks and other objects. <http://www.salilchaudhary.co.cc/>

Question # 4 of 20 (Start time: 12:39:33 AM) Total Marks: 1

The logic of qualitative data analysis is described as:

Select correct option:

Objective

Subjective

Inductive

Deductive

Question # 3 of 20 (Start time: 12:39:05 AM) Total Marks: 1

Which of the following is the best hypothesis statement to address the research question, "What impact will the new advertising campaign have on use of Brand B?"

Select correct option:

The new advertising campaign will impact Brand B usage.

The new advertising campaign will increase Brand B trial.

The new advertising campaign will cause increased Brand B usage at the expense of Brand C.

The new advertising campaign will increase Brand B's market penetration.

Question # 2 of 20 (Start time: 12:38:43 AM) Total Marks: 1

Detailed and unambiguous instructions are particularly important for:

Select correct option:

Computer-assisted telephone surveys

Mail surveys

Computer-assisted personal interviews

Internet surveys

Question # 1 of 20 (Start time: 12:37:47 AM) Total Marks: 1

Which of the following terms best describes data that were originally collected at an earlier time by a different person for a different purpose?

Select correct option:

Primary data

Secondary data

Experimental data

Field notes

Reference:

[http://books.google.com.pk/books?](http://books.google.com.pk/books?id=b2ujHWrRpVQC&pg=PA212&lpg=PA212&dq=terms+best+describes+data+that+were+originally+collected+at+an+earlier+)

[id=b2ujHWrRpVQC&pg=PA212&lpg=PA212&dq=terms+best+describes+data+that+were+originally+collected+at+an+earlier+](http://books.google.com.pk/books?id=b2ujHWrRpVQC&pg=PA212&lpg=PA212&dq=terms+best+describes+data+that+were+originally+collected+at+an+earlier+)

Why might qualitative researchers regard interviewing an attractive alternative to participant observation?

- a) It is easier to accommodate into the researchers personal life.
- b) It gives a better insight into the day to day functioning of the research site.
- c) It is a considerably less time-consuming process.
- d) It reduces the problem of reactivity.

Reference:

Conducting interviews tends to require less of a sustained absence from work and/or family life than a traditional ethnography. One important point to make though is that due to transcription and analysis it is not necessarily less time consuming.

Question 02

Which of the following is a quality associated with qualitative interviewing as opposed to quantitative interviewing?

- a) Replicability.
- b) Generalizability.
- c) Flexibility.
- d) Sustainability.

Reference:

Flexibility is important in a qualitative interview because it allows for the researcherto explore issue that emerge during the actual interview.

Question 03

What is the difference between the types of answers that qualitative and quantitativeinterviews look to generate?

- a) Qualitative interviews aim to generate one word answers, whereas quantitative interviews aim to generate in-depth responses.
- b) Qualitative interviews aim to generate answers relating to any unspecified topic, whereas quantitative interviews aim to generate answers about one issue.
- c) Qualitative interviews aim to generate detailed answers to certain questions, whereas quantitative interviews aim to generate shorter, more easily codifiable responses.
- d) Qualitative interviews aim to generate predictable responses, whereas quantitative interviews aim to generate less predictable answers.

Reference:

One of the fundamental differences between the two overall types of interview is theamount of detail that they seek within an interview situation.

Question 04

Which of the following researchers is conducting a semi-structured interview?

- a) The researcher who has a schedule of fifty questions that they need answered by the participant.
- b) The researcher who has planned only one question in advance.
- c) The researcher who does not wish to use a tape recorder.
- d) The researcher who has a guide which states some specific topics to be covered.

Reference:

During a semi-structured interview the interviewee will have a great deal of leeway as to how they wish to reply, although the interviewer will have a guide about topicsthat they wish to cover.

Question 05

Which of the following is **not** a specific challenge facing business researchers whowish to conduct qualitative interviews?

- a) Scheduling time with a senior manager.
- b) Managers unwillingness to allow subordinates to leave productive activity.
- c) The scarcity of potential research sites.

- d) Maintaining confidentiality and anonymity at all stages of the research project.

Reference:

There is a obviously a significant number of organisations for business researchersto choose from when planning a research project, however the other challenges identified may need to be overcome for the research to be successful.

Question 06

According to Kvale (1996) a successful interviewer is being sensitive when they:

- a) relate what is said to what has been said.
- b) listen attentively to what is said and how it is said.
- c) give a purpose for the interview and rounding it off.
- d) respond to what is important to interviewee.

Reference:

Being sensitive is important because it will allow the interviewer to assess whichissues are of particular importance to the interviewee.

Question 07

Why should a business researcher record and transcribe interviews?

- a) It allows a more thorough examination of what the interviewee has said.
- b) It allows the researcher to demonstrate their technical proficiency.
- c) The response of participants can be more readily shared with senior management.
- d) It overcomes all possible ethical considerations.

Reference:

Having an accurate record of the interview on a tape recording means not only thatanalysis is easier, but also that the actual interview will not be punctuated by the researcher having to take notes.

Question 08

A practical tip for transcribing interviews is to:

- a) get the respondent to do it.
- b) transcribe only those sections of an interview that are important.

- c) invest in the latest voice recognition software.
- d) all of the above.

There is little point in transcribing information that is unlikely to be relevant to the research, and so transcribing only those parts that are useful can reduce time significantly.

Question 09

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

- a) What role to adopt when interviewing male managers?
- b) How many female employees should be interviewed for a representative sample?
- c) How to overcome the issue of false consciousness?
- d) What data to use when publishing findings?

Reference:

A significant dilemma for feminist researchers (and possibly all qualitative researchers) is when the respondent's interpretation of their experience and that of the researcher, experience a tension. The researcher may be tempted to assume that the respondent is simply unaware of the way in which they are being exploited and can therefore be said to have a false consciousness.

Question 10

Why does qualitative interviewing have an advantage over participant observation when it comes to longitudinal research?

- a) Repeat interviews are easier to organise.
- b) It allows for a better exploration of key issues.
- c) It is a more focused research method.
- d) Participant observers are prone to 'go native' during longitudinal research.

Reference:

Re-visiting research sites for follow up interviews is likely to be easier than arranging a series of subsequent observations.

According to Empiricism, which of the following is the ultimate source of all our concepts and knowledge?

1. Select correct option:

Perceptions

Theory

Sensory experience Logics and arguments

Reference:

Empiricists claim that sense experience is the ultimate source of all our concepts and knowledge

http://books.google.com.pk/books?id=KshOpHq0fI0C&pg=PA24&dq=is+the+ultimate+source+of+all+our+concepts+and+knowledge&hl=en&ei=u0XcTcyzKIPssgbnn8ztDg&sa=X&oi=book_result&ct=result&resnum=3&ved=0CDMQ6AEwAg

To explain, predict, and/or control phenomena are the goal of-----

9. Select correct option:

Tradition

Inductive logic Deductive

logic

The scientific method

A variable is:

10. Select correct option:

Any characteristic of interest that can take on more than one value Defined as the groups manipulated in experimental research

The complete set of scores we use in statistical analysis Completely specified only in observational research

When we say that science is parsimonious, we mean that:

11. Select correct option:

Scientific theories are based on laws.

We must be careful because causes can occur after specific effects.

The best scientific theories are those that offer the simplest explanations for a law. Science accurately describes a wide range of behavior.

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which type of research?

12. Select correct option:

Basic

Applied Evaluation

Experimental

To say that a theory is falsifiable is to say that;

13. Select correct option:

It is based on results that are not replicable.

Investigators have replaced it with a simpler or more accurate theory. We can

imagine results that would contradict it.

It is so vague that it fits any and all possible results.

The following journal article would be an example of _____ research; "The benefits of fluorescent lighting on production in a factory setting."

14. Select correct option:

Applied

Interview Basic

Stupid

Which of the following is not a function of clearly identified research questions?

15. Select correct option:

They guide your literature search.

They keep you focused throughout the data collection period. They

make the scope of your research as wide as possible.

They are linked together to help you construct a coherent argument.

Which of the following statements is false?

16. Select correct option:

Discrete variables allow measurement of an infinite number of fractions of units of measurement. Discrete

variables can only have whole number values.

Continuous numbers can only have whole number values.

Continuous measures do not allow for scores that fall between two number values.

In the statement 'an examination of the effects of discretionary behaviour on employee performance' employee performance is the:

17. Select correct option:

Independent variable

Dependent variable
Extraneous variable
Causal variable

Which of the following is most beneficial to read in an article?

18. Select correct option:

Methods

Introduction
Figures

References

A concept is a generalized idea about----- .

19. Select correct option:

A class of objects

Attributes

Occurrences

All of the given options

Which of the following statements is true?

20. Select correct option:

All concepts are variables and all variables are concepts
All concepts are variables but all variables are not concepts
All concepts are not variables but all variables are concepts
None of the above

Hypothesis refers to_____:

21. Select correct option:

The outcome of an experiment

A conclusion drawn from an experiment

A form of bias in which the subject tries to outguess the experimenter

A tentative statement about the relationship

A one tailed hypothesis predicts-----

22. Select correct option:

The future

The lottery result

The frequency of the effect

The direction of the effect

Which of the following is the best hypothesis statement to address the research question, "What impact will the new advertising campaign have on use of Brand B?"

23. Select correct option:

The new advertising campaign will impact Brand B usage.
The new advertising campaign will increase Brand B trial.

The new advertising campaign will cause increased Brand B usage at the expense of Brand C.

The new advertising campaign will increase Brand B's market penetration.

The scientific method is preferred over other ways of knowing because it is more;

24. Select correct option:

Reliable

Systematic Accurate

All of the given options

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

25. Select correct option:

Basic

Applied Evaluation

Grounded theory

Qualitative and Quantitative Research are the classifications of research on the basis of

26. Select correct option:

Use of the research

Time dimension

Techniques used

Purpose of the research

Under which of the following research method is not applicable?

27. Select correct option:

Health care

Business Government offices

Imaginary worlds

Which one of the following creates problems of measurements of a concept?

28. Select correct option:

Unambiguous meanings

Vague meanings

Clear meanings Dictionary meanings

Which of the following is a concept?

29. Select correct option:

Leadership.

Total Quality Management. Human

Resource Management. All of the given

options

Why, as scientists, do we not want to rely on authority for explanations?

30. Select correct option:

Those in authority are often wrong. Those in authority cannot be challenged.

Those in authority rely too much on objective information. Those in authority often have no common sense.

The _____ is only useful if the concepts, ideas, questions, etc. to be investigated are both testable and falsifiable.

31. Select correct option:

Independent Variable

Dependent Variable

Experimental Method

Scientific Method

An operational definition is:

32. Select correct option:

One that bears no relation to the underlying concept. An abstract, theoretical definition of a concept.

A definition of a concept in terms of specific, empirical measures. One that refers to opera singers and their work.

_____ meanings attached to a concept create problems of measurements.

33. Select correct option:

Unambiguous

Vague Clear

Dictionary

Why do you need to review the existing literature?

34. Select correct option:

To give your dissertation a proper academic appearance, with lots of references. Because without it, you could never reach the required word-count

To find out what is already known about your area of interest. To help in your general studying

Quantitative researcher's preoccupation with generalization is an attempt to:

35. Select correct option:

Develop the law like findings of the natural sciences. Boost their chances of publication.

Enhance the internal validity of their research. Demonstrate the complex techniques of statistical analysis.

Which of the following is not a feature of theoretical framework?

36. Select correct option:

Making an inventory of variables. Specify the direction of relationship. Presenting findings

Making an inventory of propositions

Which of the following is a discrete variable?

37. Select correct option:

Age

Nationality Test score

Income

In _____ we collect same type of information from different respondents in different times.

38. Select correct option:

Cohort study

Time series Research

Panel study Case studies

Which of the following is the least appropriate research problem?

39. Select correct option:

Does studying Latin improve the standardized vocabulary test scores of seventh grade students? Do drilling fifth grade students with multiplication facts improve their standardized test scores? What is the relationship between students' math attitudes and math achievement?

Should students have access to controversial novels in school?

Null hypothesis states:

40. Select correct option:

Absence of relationship

Existence of relationship

The direction of relationship

Casual relationship

Basic and Applied Research are the classifications of research on the basis of:

41. Select correct option:

Use of the research

Time dimension

Techniques used

Purpose of the research

What is a cross-sectional research?

42. Select correct option:

A study of one particular section of society

A comparison of two or more variables over a long period of time
The collection of data from more than one case at one moment in time
One that is conducted when environment is uncertain

What is the variable called that a researcher manipulates in an experiment?

43. Select correct option:

Dependent variable

Independent variable

Extraneous variable

None of the given options

Which of the following is Not a part of research design?

44. Select correct option:

Data collection technique

Tool of data collection

Objectives of the study

Data processing and analysis

Which one of the following tasks is NOT accomplished by theoretical framework?

45. Select correct option:

Elaborate the relationship among the variables

Explain the logic underlying the relationship between the variables. Describe the

nature, and direction of the relationships among the variables. Relates the previous studies.

The elaboration of the variables in the theoretical framework addresses which type of questions?

46. Select correct option:

Why we expect certain relationships to exist
How we expect certain relationships to exist
Both of the given questions

None of the given questions

What is the first step in the research process?

47. Select correct option:

Preliminary data collection
Problem definition
Theoretical framework
Define broad problem area

Which of the following is an example of value-free research?

48. Select correct option:

Conscious favor
Sympathy for the loser
Unstructured interviewing
None of the given options

Ms. Roshi has been coordinating the Annual Festival at her school for the last several years. She wants to be sure the students and parents enjoy the festival again this year. On which source is she LEAST likely to rely when making decisions about what to do?

49. Select correct option:

Tradition
Personal experience
Research
Expert opinion

Which of the following is NOT a legitimate research problem as stated?

50. Select correct option:

What is the relationship between the number of books children read and their reading scores?
Should competitive games be banned from elementary schools?

What does it mean to be a special needs child "included" in Ms. Amara's fourth grade class? What are the major legal principles applied to educational cases decided by the Supreme Court?

What is the basis of the Scientific Method?

51. Select correct option:

To test hypotheses in conditions that are conducive to its success.
To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypotheses and if they are disproved, they should be abandoned completely.

What is the final step of a scientific investigation?

52. Select correct option:

Analyze data
Collect data
Report the

findings

Determine whether the hypothesis was supported

Which of the following is NOT a characteristic of a good research topic?

53. Select correct option:

It is ethical.

It can be investigated through the collection and analysis of data. It focuses on a philosophical or ethical issue.

It is theoretically or practically significant.

A literature review requires;

54. Select correct option:

planning

clear writinggood

writing

All of the given option

A Literature review that summarizes what is known at a point in time is known as:

55. Select correct option:

Narrative literature review

Systematic literature review

Integrative review

Historical review

The following journal article would be an example of _____ research; "The benefits of fluorescent lighting on production in a factory setting."

56. Select correct option:

Applied

InterviewBasic

Stupid

The study of research methods provides you with the knowledge and skills you need

57. Select correct option:

To solve the problem

To improve the decision-making processTo

understand the research of others All of the given

options

Which of the following true about the relationship between theory building and data collection?

58. Select correct option:

When studies come out as expected, inductive support for the theory is gained.

If an experiment fails, discarding the experiment is an example of affirming the consequent. When a hypothesis is not supported, virtually nothing has been learned about the theory.

A good theory will be inclusive enough to explain every possible research outcome.

The operational definition is also known as

59. Select correct option:

Working definition

Nominal definition

Conceptual definition

Dictionary definition

A theory is a coherent set of _____ used as principles of explanations of the apparent relationship of certain observed phenomena.

60. Select correct option:

Disciplines

Propositions

Empirical Realities

None of the given options

Which of the following is included in research proposal?

61. Select correct option:

Data analysis

Results **Literature review**

Conclusions section

Research questions are crucial because they will:

62. Select correct option:

Guide your decisions about what data to collect and from where. Help

you decide which research area interests you.

Ensure that your findings have external validity. Prevent you from thinking about research strategies.

The application of the scientific method to the study of business problems is called;

63. Select correct option:

Inductive reasoning

Deductive reasoning

Business research

Grounded theory

What is a relationship between the literature survey and the theoretical framework?

64. Select correct option:

Provides a solid foundation for developing the latter

Literature survey helps in the identification of the relevant variables

The theoretical framework explains the theory underlying these relations **All of the given options**

According to scientific method, which of the following is Not an empirical reality?

65. Select correct option:

Emotions

God's reward for good deeds

Satisfaction

None of the given options

After a researcher has stated the specific problem to be studied in an experiment, he must then develop a(n):

66. Select correct option:

Theory

Conclusion **Hypothesis**

Summary of the data

“The extensive use of chocolate causes pimples”. The given hypothesis is a (an):

67. Select correct option:
Descriptive hypothesis
Explanatory hypothesis
Non-Directional hypothesis
Co-relational hypothesis

The purpose of a literature review is to:

68. Select correct option:
Help you find out what is already known about this area. Identify any inconsistencies or gaps in the literature.
Demonstrate an awareness of the theoretical context in which the current study can be located. **Find what is already known, identify gaps demonstrate awareness.**

Theoretical framework is trying to develop a _____ model of our study.

69. Select correct option:
Functional
Conceptual
Operational Practical

Descriptive and Explanatory Research are the classifications of research on the basis of:

70. Select correct option:
Use of the research
Time dimension
Techniques used
Purpose of the research

“High productivity is positively associated with Job commitment”. The given hypothesis is a(an):

71. Select correct option:
Descriptive hypothesis
Explanatory hypothesis
Non-Directional hypothesis
Co-relational hypothesis

Which of following statement is true?

72. Select correct option:
Theory and Research are dichotomous **Theory and Research are interrelated**
There is no difference between Theory and Research
None of the given statements is true

What type of process research is?

73. Select correct option:
A process to discover the truth
A process to invent the machines
A process to make new medicines
A process to create theories

The most critical areas of an article to read is;

74. Select correct option:

Results section

Introduction

Abstract Limitations

Which of the following is the BEST hypothesis?

75. Select correct option:

Students taking formative quizzes will perform better on chapter exams than students not taking these quizzes.

Taller students will have higher test scores than shorter students.

Students taught in a cooperative group setting should do better than students in a traditional class. Students using laptops will do well.

Rationalism is the application of:

76. Select correct option:

Research solution

Logic and arguments

Reasoning

Previous findings

Before a researcher specified the relationship among variables, he must have a (an):

77. Select correct option:

Inventory of variables

Inventory of propositions

Arrangement of propositions

Schematic diagram

A good qualitative problem statement:

78. Select correct option:

Defines the independent and dependent variables Conveys a sense of emerging design

Specifies a research hypothesis to be tested

Specifies the relationship between variables that the researcher expects to find.

The term “Extrapolation” is better explained by the statement:

79. Select correct option:

Facts lead to the rejection of theory

Identification of the gap in knowledge Theory predicts facts

None of the given options

Which of the following can Not be a part of preliminary data collection?

80. Select correct option:

Review of literature

Focus group discussion

Making research question

Seek out the informants

A review that only demonstrates familiarity with an area is rarely published but it often is part of

an educational program is which type of review?

81. Select correct option:

- Integrative reviews
- Theoretical reviews
- Self-study reviews**
- Historical reviews

The most difficult sources to locate are;

82. Select correct option:

Dissertations

Policy Reports and Presented Papers

Government Documents

Scholarly Books

Preliminary Data Collection may be considered as part of-----.

83. Select correct option:

- Descriptive research
- Explanatory research
- Exploratory research**
- All of the given options

In _____ definition, a concept is explained in terms of other concepts.

84. Select correct option:

- Operational definition
- Working definition
- Theoretical definition**
- None of the given options

"What impact will the new advertising campaign have on use of Brand B?"

85. Select correct option:

The new advertising campaign will impact Brand B usage. The new advertising campaign will increase Brand B trial.

The new advertising campaign will cause increased Brand B usage at the expense of Brand C. The new advertising campaign will increase Brand B's market penetration.

What is the reason for consulting handbooks, yearbooks, encyclopedias, or reviews in the initial stages of identifying a research topic?

86. Select correct option:

They are readily available.

They provide an overview of the issues related to a topic. They are primary sources.

They avoid reporting statistical data so one can interpret the results more easily.

Which of the following should not be a consideration in writing a proposal?

87. Select correct option:

- Understanding the problem situation
- The appearance/form of the proposal

Responding to every element exactly as specified by the client Knowing as much as possible about the proposal recipients

Refrence:

<http://facstaff.gpc.edu/~ebrown/infobr3.htm>

Which of the following is Not included in the Introduction section of a Research proposal?

88. Select correct option:
Background of the study
Objectives

Sampling technique

Significance

Reference:

“Skepticism” is a norm of science. It is better explained by which of the following statement?

92. Select correct option:

Combining the previous knowledge

Critical reading

of the previous researches

Providing the proper references of quoted text
Locating research reports in libraries

Reference:

http://www.google.com.pk/url?sa=t&source=web&cd=10&ved=0CFoQFjAJ&url=http%3A%2F%2Fhome.business.utah.edu%2Ffactdp%2Facctg%25207000%2FInstrument.doc&ei=O_bTen-NsuDhQeWlom-Dw&usg=AFQjCNH6wnq60dO493Kh7TUQlPDQ3Yoh6Q

Which of the following provides a solid basis foundation for the theoretical framework?

93. Select correct option:

Survey

Literature Review

Experiment Referencing

Reference:

There is a relationship between the literature survey and the theoretical framework whereby the former provides a solid foundation for developing the latter.

1. Endeavors to explain, predict, and/or control phenomena are the goal of
 - a) tradition.
 - b) inductive logic.
 - c) deductive logic.
 - d) the scientific method.
2. Ms. Casillas has been coordinating the Halloween Festival at her school for the last several years. She wants to be sure the students and parents enjoy the festival again this year. On which source is she LEAST likely to rely when making decisions about what to do?
 - a) Tradition
 - b) Personal experience
 - c) Research
 - d) Expert opinion
3. Ms. Turner is thinking about changing her instructional approach to a more mastery-learning orientation. She is interested in knowing more about this topic as well as its effectiveness when working with elementary school students. On which source should she rely for such information?
 - a) Traditio

nb)

Research

h

- c) Intuition
 - d) Personal experience
4. The scientific method is preferred over other ways of knowing because it is more
- a) reliable.
 - b) systematic.
 - c) accurate.
 - d) all of these.
5. The application of the scientific method to the study of educational problems is called
- a) inductive reasoning.
 - b) deductive reasoning.
 - c) educational research.
 - d) grounded theor
6. Which of the following statements characterizes educational research?
- a) It furthers our understanding of educational issues, questions, or problems.
 - b) It raises new topics for study.
 - c) It provides information that can improve teaching and learning.
 - d) All of these.
7. Which of the following steps of the scientific method is exemplified by the researcher reviewing the literature and focusing on a specific problem that has yet to be resolved?
- a) Identify a topic.
 - b) Describe the procedures to collect information.
 - c) Analyze the collected information.
 - d) State the results of the data analysis.
8. If a researcher (1) identified a topic and a specific educational problem related to it, (2) carefully described the ways by which data was collected and analyzed, and (3) wrote a report reflecting on this work and its contribution to what is known about the topic, her work can BEST be described as
- a) educational research.
 - b) quantitative research.
 - c) qualitative research.
 - d) evaluation.

9. Which of the following is a limitation of educational research?
- a) Research cannot answer value-based problems.
 - b) Researchers have ethical and legal responsibilities that can constrain their work.
 - c) It is difficult to fully describe the depth of participants' perspectives given the complexity of human behavior.
 - d) **All of these.**
10. What is the reason for consulting handbooks, yearbooks, encyclopedias, or reviews in the initial stages of identifying a research topic?
- a) They are readily available.
 - b) **They provide an overview of the issues related to a topic.**
 - c) They are primary sources.
 - d) They avoid reporting statistical data so one can interpret the results more easily.
11. Which of the following is NOT a characteristic of a good research topic?
- a) It is ethical.
 - b) It can be investigated through the collection and analysis of data.
 - c) **It focuses on a philosophical or ethical issue.**
 - d) It is theoretically or practically significant.
12. Which of the following is NOT a legitimate research problem as stated?
- a) What is the relationship between the number of books children read and their reading scores?
 - b) **Should competitive games be banned from elementary schools?**
 - c) What does it mean to be a special needs child "included" in Ms. Pierre's fourth grade class?
 - d) What are the major legal principles applied to educational cases decided by the U.S. Supreme Court?
13. Which of the following is the least appropriate research problem?
- a) Does studying Latin improve the standardized vocabulary test scores of seventh grade students?
 - b) Does drilling fifth grade students with multiplication facts improve their standardized test scores?
 - c) What is the relationship between students' math attitudes and math achievement?
 - d) **Should students have access to controversial novels in school?**

Question # 1

The following journal article would be an example of _____ research; "The benefits of florescent lighting on production in a factory setting."

Select correct option: **Applied**

InterviewBasic

Stupid

Question # 2

Which of the following is a concept?Select correct option:

Leadership.

Total Quality Management. Human Resource

Management.**All of the given options**

Question # 3

After you locate a source, you should write down all details of the reference, except;Select correct option:

Full names of the authorsTitles

Volumes**Price**

Question # 4

The scientific method is preferred over other ways of knowing because it is more;Select correct option:

Reliable Systematic

Accurate

All of the given optionsQuestion #

5

Quantitative researcher's preoccupation with generalization is an attempt to;Select correct option:

Develop the law like findings of the natural sciences.Boost their chances of publication.

Enhance the internal validity of their research. Demonstrate the complex techniques of statistical analysis.Question # 6

What is the basis of the Scientific Method?Select correct option:

To test hypotheses in conditions that are conducive to its success.To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditionsthat challenge the hypothesis.Question # 8

Which of the following is the best hypothesis statement to address the researchquestion, "What impact will the new advertising campaign have on use of Brand B?"Select correct option:

The new advertising campaign will impact Brand B usage.The new advertising campaign will increase Brand B trial.

The new advertising campaign will cause increased Brand B usage at the expense ofBrand C.

The new advertising campaign will increase Brand B's market penetration.Question # 9

Which one of the following is not an assumption of science?Select correct option:

There are reoccurring patterns in the world. Events happen because of preceding causes.

We can discover solutions to problems of interest. Theoretical explanations must agree with common sense.

Question # 10

A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review?

Select correct option: Integrative reviews Theoretical reviews Self-study reviews Historical reviews

Reference:

Reference & Explanation: Page # 26, Lecture # 08

Self-study reviews increase the reader's confidence. A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program.

In addition to giving others confidence in a reviewer's command of field, it has the side benefit of building the reviewer's self confidence.

Question # 11

A literature review requires; Select

correct option: planning clear writing good writing

All of the given option

Reference:

Reference & Explanation:

Page # 29, Lecture # 9

A literature review requires planning and good, clear writing, which requires a lot of rewriting.

Keep your purposes in mind when you write, and communicate clearly and effectively. Question # 12

The facts that should be collected to measure a variable, depend upon the Select correct option:

Conceptual understanding Dictionary meaning Operational definition

All of the above Question #

13

Which of the following is the BEST hypothesis? Select correct

option:

Students taking formative quizzes will perform better on chapter exams than students not taking

these quizzes.

Taller students will have higher test scores than shorter students.

Students taught in a cooperative group setting should do better than students in a traditional class.

Students using laptops will do well.

Reference:

Explanation:

The second alternative meets the four criteria; all other alternatives do not. Question #

14 What is an hypothesis?

Select correct option:

A prediction of a relationship between certain variables. An experiment

that tests certain predictions.

An independent variable. A dependent

variable.

Reference:

Reference: http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq_04/mcq_04.htm

Question # 15

An operational definition is:

Select correct option:

One that bears no relation to the underlying concept. An abstract,

theoretical definition of a concept.

A definition of a concept in terms of specific, empirical measures. One that refers to

opera singers and their work.

Reference:

Reference & Explanation:

Page # 18, Lecture # 5

Operational definition is also called a working definition stated in terms of specific testing or measurement criteria. The concepts must have empirical referents (i.e. we must be able to count, measure, or in some other way gather the information through our senses). Question # 16

What research is?

Select correct option:

A lab experiment

A report

A systematic Enquiry A procedure

Reference:

Reference & Explanation: http://wps.prenhall.com/chet_leedy_practical_8/0,9599,1569572-,00.html Research is the systematic process of collecting and analyzing information to increase our

understanding of the phenomenon under study. It is the function of the researcher to contribute to the understanding of the phenomenon and to communicate that understanding to others.

This

chapter explains what research is and what it is not. Eight characteristics of research are presented. The process of research as a helical cycle is discussed.

Question # 17

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which type of research?

Select correct option:

Basic Applied **Evaluation**

Experimental

Question # 18

In the statement 'an examination of the effects of discretionary behaviour on employee performance' employee performance is the:

Select correct option: Independent

variable **Dependent variable**

Extraneous variable Causal variable

Reference:

Explanation:

The dependent variable is the variable that we are looking to explain, hence in this case it is employee performance. Discretionary behaviour is the independent variable which is to be manipulated so as to assess its causal relationship with employee behaviour.

Question # 19

The most difficult sources to locate are; Select correct option:

Dissertations

Policy Reports and Presented Papers Government

Documents

Scholarly Books

Reference:

Reference & Explanation:

Page # 28, Lecture # 9

Policy Reports and Presented Papers. The most difficult sources to locate are policy reports and

presented papers. They are listed in some bibliographies of published studies; some are listed in the abstracts or indexes.

Question # 20

A concept is a generalized idea about---- .Select correct option:

A class of objectsAttributes

Occurrences

All of the given options

Reference:

Reference & Explanation:

Page # 16, Lecture # 5

A concept is a generalized idea about a class of objects, attributes, occurrences, or processes that has been given a name. In other words a concept is an idea expressed as a symbol or in words.

Question # 21

What is the reason for consulting handbooks, yearbooks, encyclopedias, or reviews in the initial stages of identifying a research topic?Select correct option:

They are readily available.

They provide an overview of the issues related to a topic.

They are primary sources. They avoid reporting statistical data so one can interpret the results more easily.

Reference:

Explanation:

The sources mentioned in this question are all secondary sources, and secondary sources provide overviews of the topics being investigated.

Question # 22

What is opposite of a variable?Select correct option:

A constant

An extraneous variableA dependent variable A data set

Question # 23

Qualitative and Quantitative Research are the classifications of research on the basis ofSelect correct option:

Use of the research Time dimension

Techniques used Purpose of the research

Reference:

Reference & explanation:

Page # 46, lecture # 15

One difference between the two styles involves timing.

Question # 24

The organization of concepts in sequence from the most concrete and individual to the most general indicates is:

Select correct option:

One that bears no relation to the underlying concept.

An abstract, theoretical definition of a concept. The degree of abstraction **An operational definition**

Reference:

Reference & Explanation:

Page # 16, Lecture # 05

The organization of concepts in sequence from the most concrete and individual to the most general indicates the degree of abstraction. Question # 25

The most critical areas of an article to read is; Select correct option:

Results section Introduction

Abstract Limitations

Question # 26

_____ meanings attached to a concept create problems of measurements.

Select correct option:

Unambiguous **Vague**

Clear Dictionary

Reference:

Reference & Explanation:

Page # 17, Lecture # 05

Vague meanings attached to a concept create problems of measurement.

Question # 27

Rationalism is the application of: Select correct option:

Research solution Logic and arguments **Reasoning**

Previous findings

Reference:

Reference & Explanation:

http://books.google.com/books?id=875TTxildJ0C&pg=PA232&lpg=PA232&dq=%22Rationalism+is+the+application+of+%22&source=bl&ots=W9vyQpV_ie&sig=ionJi1mPwBa-XYwE-

m=2&ved=0CA8Q6AEwAQ#v=onepage&q=%22Rationalism%20is%20the
%20application

%20of%22&f=false Question #
28

Why do you need to review the existing literature? Select correct
option:

To give your dissertation a proper academic appearance, with lots of references Because without it,
you could never reach the required word-count

To find out what is already known about your area of interest To help in
your general studying

Question # 29

The application of the scientific method to the study of business problems is called; Select correct
option:

Inductive reasoning Deductive
reasoning Business research

Grounded theory Question # 30

An operational definition is:

Select correct option:

One that bears no relation to the underlying concept. An abstract,
theoretical definition of a concept.

A definition of a concept in terms of specific, empirical measures. One that refers to
opera singers and their work.

Question # 31

Which one of the following creates problems of measurements of a concept? Select correct
option:

Unambiguous meanings

Vague meanings Clear

meanings Dictionary meanings

Reference & Explanation:

Page # 17, Lecture # 05

Vague meanings attached to a concept create problems of measurement. Question # 32

Which of the following is a discrete variable? Select correct
option:

Age Nationality Test

score Income

Reference:

Explanation:

A discrete variable is one that cannot take on all values within the limits of the variable. For

example, responses to a five-point rating scale can only take on the values 1, 2, 3, 4, and 5. The variable cannot have the value 1.7. A variable such as a person's height can take on any value. Variables that can take on any value and therefore are not discrete are called continuous.

Question # 33

Which of the following is a discrete variable? Select correct option:

height

miles per gallon

number of

children

Reference:

Explanation:

A discrete variable is one that cannot take on all values within the limits of the variable.

For

example, responses to a five-point rating scale can only take on the values 1, 2, 3, 4, and 5. The variable cannot have the value 1.7. A variable such as a person's height can take on any value. Variables that can take on any value and therefore are not discrete are called continuous.

Question # 34 According to Empiricism, which of the following is the ultimate source of all our concepts and knowledge? Select correct

option: Perceptions

Theory

Sensory experience

Logics and

arguments

Reference:

Reference & Explanation:

<http://plato.stanford.edu/entries/rationalism-empiricism/>

The dispute between rationalism and empiricism concerns the extent to which we are dependent upon sense experience in our effort to gain knowledge. Rationalists claim that there are significant ways in which our concepts and knowledge are gained independently of sense experience. Empiricists claim that sense experience is the ultimate source of all our concepts and knowledge.

Question # 35

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option: Basic

Applied Evaluation

Grounded theory

Reference:

Explanation:

The theory of multiple intelligences is fairly well established, and this researcher is trying to understand how to use this theory in the classroom. In addition, there is no assessment of merit or worth to suggest this could be evaluation research, nor is there any sense that the researcher is conducting the research to solve a local, isolated problem. Question # 36

Under which of the following research method is not applicable? Select correct

option:

Health care Business

Government offices Imaginary

worlds Question # 37

Which of the following statements is false? Select correct

option:

Discrete variables allow measurement of an infinite number of fractions of units of measurement.

Discrete variables can only have whole number values. Continuous numbers can

only have whole number values.

Continuous measures do not allow for scores that fall between two number values.

Reference:

Reference & Explanation:

http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq_03/mcq_03.htm Page # 19,

Lecture 06

Any variable that has a limited number of distinct values and which cannot be divided into fractions, is a discontinuous variable. Such a variable is also called as categorical variable or classificatory variable, or discrete variable. Some variables have only two values, reflecting the presence or absence of a property: employed-unemployed or male-female have two values. These variables are referred to as dichotomous. There are others that can take added categories such as the demographic variables of race, religion. All such variables that produce data that fit into categories are said to be discrete/categorical/classificatory, since only certain values are possible.

An automotive variable, for example, where “Chevrolet” is assigned a 5 and “Honda” is assigned a 6, provides no option for a 5.5 (i.e. the values cannot be divided into fractions). Question # 38

To explain, predict, and/or control phenomena are the goal of-----

Select correct option:

Tradition Inductive logic

Deductive logic

The scientific method Question #

39

Which of the following is most beneficial to read in an article? Select correct option:

Methods Introduction Figures

References

Question # 40

Which of the following is not a function of clearly identified research questions? Select correct option:

They guide your literature search.

They keep you focused throughout the data collection period. They make the scope of your research as wide as possible.

They are linked together to help you construct a coherent argument.

Reference:

Reference & Explanation:

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch03/?view=Standard> It is important to formulate some clear research questions from the outset of your project, because completely open-ended research can lead to the collection of too much data and a lack of focus for the analysis. If you decide on some fairly specific research questions before designing your project, it will help to guide your literature search, data collection and analysis, as well as form a coherent argument throughout your dissertation

Question # 1 of 15 (Start time: 01:09:24 AM) Total Marks: 1

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option:

Basic

Applied

Evaluation

Grounded theory

Question # 2 of 15 (Start time: 01:10:00 AM) Total Marks: 1

If a measure is consistent over multiple occasions, it has:

Select correct option:

Inter-rater reliability
Construct validity
Internal validity
Test-retest reliability

Question # 3 of 15 (Start time: 01:11:32 AM) Total Marks: 1
Why do you need to review the existing literature?
Select correct option:

To give your dissertation a proper academic appearance, with lots of references
Because without it, you could never reach the required word-count
To find out what is already known about your area of interest
To help in your general studying

Question # 4 of 15 (Start time: 01:12:12 AM) Total Marks: 1
All of the following are true about theories, except;
Select correct option:

They organize and summarize existing knowledge about a topic.
They are tentative until the facts prove them true.
They provide possible explanations for the phenomenon under study
They lead to testable hypotheses through the process of deduction.

Question # 5 of 15 (Start time: 01:13:02 AM) Total Marks: 1
Quantitative social researchers rarely claim to have established causality because:
Select correct option:

They are more concerned with publishing the results of their reliability tests.
They do not believe that this is an appropriate goal to be striving for.
They keep forgetting which of the variables they have manipulated.
They tend to use cross-sectional designs, which produce only correlations.

Question # 6 of 15 (Start time: 01:14:12 AM) Total Marks: 1
"Skepticism" is a norm of science. It is better explained by which of the following statement?
Select correct option:

Combining the previous knowledge
Critical reading of the previous researches
Providing the proper references of quoted text
Locating research reports in libraries

Question # 7 of 15 (Start time: 01:15:12 AM) Total Marks: 1
Which of the following provides a solid basis foundation for the theoretical framework?
Select correct option:

Survey
Literature Review
Experiment
Referencing

Question # 8 of 15 (Start time: 01:15:54 AM) Total Marks: 1
-----surveys are more impersonal than face-to-face interviews.
Select correct option:

Mail
Recorded Interview
Focus group
Telephone

Question # 9 of 15 (Start time: 01:17:01 AM) Total Marks: 1
Which of the following is not a feature of theoretical framework?
Select correct option:

- Making an inventory of variables
- Specify the direction of relationship
- Presenting findings**
- Making an inventory of propositions

Question # 10 of 15 (Start time: 01:17:40 AM) Total Marks: 1
In _____ definition, a concept is explained in terms of other concepts.
Select correct option:

- Operational definition
- Working definition
- Theoretical definition**
- None of the given options

Question # 11 of 15 (Start time: 01:18:29 AM) Total Marks: 1
To explain, predict, and/or control phenomena are the goal of-----
Select correct option:

- Tradition
- Inductive logic
- Deductive logic
- The scientific method**

Question # 12 of 15 (Start time: 01:19:08 AM) Total Marks: 1
Which of the following is NOT a characteristic of a good research topic?
Select correct option:

- It is ethical.
- It can be investigated through the collection and analysis of data.
- It focuses on a philosophical or ethical issue.**
- It is theoretically or practically significant.

Question # 13 of 15 (Start time: 01:19:47 AM) Total Marks: 1
Which of the following is a concept?
Select correct option:

- Leadership.
- Total Quality Management.
- Human Resource Management.
- All of the given options**

Question # 14 of 15 (Start time: 01:20:14 AM) Total Marks: 1
The most critical areas of an article to read is;
Select correct option:

- Results section**
- Introduction
- Abstract
- Limitations

Question # 15 of 15 (Start time: 01:20:58 AM) Total Marks: 1
Quantitative researcher's preoccupation with generalization is an attempt to:
Select correct option:

Develop the law like findings of the natural sciences.

Boost their chances of publication.
Enhance the internal validity of their research.
Demonstrate the complex techniques of statistical analysis.

Question # 1 of 15 (Start time: 10:01:12 PM) Total Marks: 1
Which of the following can Not be a part of preliminary data collection?Select correct option:
Review of literature
Focus group discussion
Making research question
Seek out the informants

Question # 2 of 15 (Start time: 10:02:02 PM) Total Marks: 1
Which of the following is included in research proposal?
Select correct option:
Data analysis
Results **Literature review**
Conclusions section

Question # 3 of 15 (Start time: 10:02:43 PM) Total Marks: 1
Mr. Haris is interested in studying the shared beliefs and practices of the teachers in a small rural school. He is likely to use which research design?
Select correct option:
Action research
Historical research
Ethnography
Grounded theory

Question # 5 of 15 (Start time: 10:04:41 PM) Total Marks: 1
Which of the following is NOT a legitimate research problem as stated?Select correct option:
What is the relationship between the number of books children read and their reading scores?
Should competitive games be banned from elementary schools?
What does it mean to be a special needs child "included" in Ms. Amara's fourth grade class? What are the major legal principles applied to educational cases decided by the Supreme Court?

Question # 6 of 15 (Start time: 10:05:06 PM) Total Marks: 1
A _____ scale only assigns numbers to objects to classify the objects according to the characteristic of interest.
Select correct option:
Ratio
Nominal
Interval
Dichotomous

Question # 7 of 15 (Start time: 10:06:19 PM) Total Marks: 1
Which of the following is an example of value-free research?
Select correct option:
Conscious favor
Sympathy for the loser

Unstructured interviewing

None of the given options

Question # 8 of 15 (Start time: 10:07:46 PM) Total Marks: 1

The small scale trial run of a particular item is called _____.

Select correct option:

Test run **Pilot**

test Post hoc

testt-test

Question # 9 of 15 (Start time: 10:08:11 PM) Total Marks: 1

Which of the following is an example of an issue that would be checked in a pilot testing? Select correct option:

Completion of all questions on a questionnaire

Legible writing

Single responses to all multiple choice questions

Logical answers between questions (i.e., attributes should be rated high if purchase interest is high)

Question # 10 of 15 (Start time: 10:08:42 PM) Total Marks: 1

In _____ definition, a concept is explained in terms of other concepts. Select

correct option:

Operational definition

Working definition

Theoretical definition

None of the given options

Question # 11 of 15 (Start time: 10:09:09 PM) Total Marks: 1

The facts that should be collected to measure a variable, depend upon the Select

correct option:

Conceptual understanding

Dictionary meaning

Operational definition

All of the above

Question # 12 of 15 (Start time: 10:09:35 PM) Total Marks: 1 Which of the following is NOT a longitudinal study?

Select correct option:

Trend study

Census study

Panel study

Cohort study

Question # 13 of 15 (Start time: 10:10:04 PM) Total Marks: 1 Which of the following is Not a source of Literature review?

Select correct option:

Scholarly journals

Experiment

Dissertations

Bibliographical indexes

Question # 14 of 15 (Start time: 10:10:53 PM) Total Marks: 1 What is a cross-sectional research?

Select correct option:

A study of one particular section of society

A comparison of two or more variables over a long period of time
The collection of data from more than one case at one moment in time
One that is conducted when environment is uncertain

Question # 15 of 15 (Start time: 10:11:16 PM) Total Marks: 1 Which of the following is the least appropriate research problem? Select correct option:

Does studying Latin improve the standardized vocabulary test scores of seventh grade students? Does drilling fifth grade students with multiplication facts improve their standardized test scores? What is the relationship between students' math attitudes and math achievement?

Should students have access to controversial novels in school?

Question # 2 of 20 (Start time: 11:54:31 AM) Total Marks: 1 Which of the following is most beneficial to read in an article? Select correct option:

Methods Introduction

Figures **References**

Question # 3 of 20 (Start time: 11:55:57 AM) Total Marks: 1

Which of the following questions might invade the privacy of a research participant? Select correct option:

How long have you worked for this organisation? **What is your home address?**

What do you think about your direct line manager? What happened during your last performance appraisal?

Question # 4 of 20 (Start time: 11:57:03 AM) Total Marks: 1 Bias is defined as;

Select correct option:

The distortion of responses based on gender, ethnicity, race, or language

lack of validity

A lack of reliability

A poor interpretation of a student's score

Question # 5 of 20 (Start time: 11:58:11 AM) Total Marks: 1

Research may differ along a series of dimensions. Which of the following may be applied to this statement? Select correct option:

The type of data collected. The data-collection technique. The level of manipulation used to elicit data collection.

All of the given options

Question # 6 of 20 (Start time: 11:58:56 AM) Total Marks: 1

If an interview is conducted with a respondent who does not meet the qualifications for a study, what kind of bias has occurred?

Select correct option:

Respondent bias

Position bias

Non-response bias

Instrument bias

Question # 7 of 20 (Start time: 11:59:53 AM) Total Marks: 1

-----surveys are more impersonal than face-to-face interviews. Select correct option:

Mail

Recorded Interview Focus group

Telephone

Question # 8 of 20 (Start time: 12:00:37 PM) Total Marks: 1

A researcher is interested in nonverbal behavior among young adults. The researcher goes to public gathering places in town and observes smiles, gestures, gaze, and touch. This is an example of;

Select correct option:

Blind observation Quasi-

experimentation Naturalistic

observation Field experimentation

Question # 9 of 20 (Start time: 12:01:33 PM) Total Marks: 1

Which of the table is based on cross-tabulation and the cases are organized in the table on the basis of two variables at the same time? Select correct

option:

Bivariate Tables

Frequency Distribution Table

SPSS Table

MINITAB Table Question # 10 of 20 (Start time: 12:02:45 PM) Total Marks: 1 Quantitative data is?

Select correct option:

Expressed in numerical form

Concerned with how things are expressed

Big data

Small data

Question # 11 of 20 (Start time: 12:03:44 PM) Total Marks: 1

12. Which of the following true about the relationship between theory building and data collection?

Select correct option:

When studies come out as expected, inductive support for the theory is gained. If an experiment

fails, discarding the experiment is an example of affirming the consequent.

When a hypothesis is not supported, virtually nothing has been learned about the theory.

A good theory will be inclusive enough to explain every possible research outcome. Question # 12

of 20 (Start time: 12:04:51 PM) Total Marks: 1

Which of the following is NOT a characteristic of a good research topic? Select correct

option:

It is ethical.

It can be investigated through the collection and analysis of data. It focuses on a

philosophical or ethical issue.

It is theoretically or practically significant

Question # 13 of 20 (Start time: 12:05:58 PM) Total Marks: 1 Easiest way to

describe the numerical data of one variable is with a:

Select correct option:

Cumulative percentage distribution table.

Bar charts.

Pie chart.

Frequency distribution.

Question # 14 of 20 (Start time: 12:07:05 PM) Total Marks: 1

Which of the following is an example of an issue that would be checked in a pilot testing?

Select correct option:

Completion of all questions on a questionnaire Legible writing

Single responses to all multiple choice questions

Logical answers between questions (i.e., attributes should be rated high if purchase interest is high)

Question # 15 of 20 (Start time: 12:07:47 PM) Total Marks: 1

Which of the following is a research method that allows a researcher to get information about a large number of subjects relatively inexpensively and easily? Select correct option:

Naturalistic observation

Case study

Laboratory observation **Survey**

Question # 16 of 20 (Start time: 12:08:29 PM) Total Marks: 1 Rationalism is the application of:

Select correct option:

Research solution **Logic and arguments** Reasoning

Previous findings

Question # 17 of 20 (Start time: 12:09:22 PM) Total Marks: 1

In which of the following nonrandom sampling techniques does the researcher ask the research participants to identify other potential research participants? Select correct option:

Snowball

Convenience

Purposive

Quota

Question # 18 of 20 (Start time: 12:10:16 PM) Total Marks: 1

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women? Select correct option:

What role to adopt when interviewing male managers?

How many female employees should be interviewed for a representative sample? **How to overcome the issue of false consciousness?**

What data to use when publishing findings?

Question # 19 of 20 (Start time: 12:11:21 PM) Total Marks: 1

A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review? Select correct option:

Integrative reviews Theoretical reviews **Self-study reviews** Historical reviews

Question # 20 of 20 (Start time: 12:12:38 PM) Total Marks: 1 Which of the following is not an unethical issue?

Select correct option:

Invoicing irregularities Avoiding legal liability Misrepresenting results **None of the given options**

Question # 1 of 20 (Start time: 12:17:26 PM) Total Marks: 1

An indicator of reliability based on the correlations of each item in a measure with every other item is called:

Select correct option:

Test-retest reliability **Cronbach's alpha** Split-half reliability Inter item ratio

Question # 2 of 20 (Start time: 12:18:37 PM) Total Marks: 1 To say that a theory is falsifiable is to say that;

Select correct option:

It is based on results that are not replicable.

Investigators have replaced it with a simpler or more accurate theory. **We can imagine results that would contradict it.**

It is so vague that it fits any and all possible results. Question # 3 of 20 (Start time: 12:19:29 PM) Total Marks: 1

Which measure of dispersion is easiest to calculate? Standard deviation? Select correct option:

Mean **Range** Median Mode

Question # 4 of 20 (Start time: 12:20:17 PM) Total Marks: 1 What is a cross-sectional research?

Select correct option:

A study of one particular section of society

A comparison of two or more variables over a long period of time

The collection of data from more than one case at one moment in time One that is conducted when environment is uncertain

Question # 5 of 20 (Start time: 12:21:02 PM) Total Marks: 1

“High productivity is positively associated with Job commitment”. The given hypothesis is a (an):

Select correct option:

Descriptive hypothesis

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Explanatory hypothesis Non-
Directional hypothesis **Co-relational**
hypothesis

Question # 6 of 20 (Start time: 12:21:55 PM) Total Marks: 1 Historians organize evidence usually in which of the following form?Select correct option:

Comparative formCritical
form Logical form **Narrative**
form

Question # 7 of 20 (Start time: 12:22:44 PM) Total Marks: 1

-----surveys are more impersonal than face-to-face interviews.Select correct option:

Mail

Recorded Interview Focus group**Telephone**

Question # 8 of 20 (Start time: 12:23:09 PM) Total Marks: 1

Basic and Applied Research are the classifications of research on the basis of:Select correct option:

Use of the research Time
dimension Techniques
used Purpose of the
research

Question # 9 of 20 (Start time: 12:23:49 PM) Total Marks: 1

Which type of questions should be first in a questionnaire or interview?Select correct option:

Questions about demographics such as age and gender**Questions about**
attitudes and behaviors

Most easy question

Difficult questions

Question # 10 of 20 (Start time: 12:24:28 PM) Total Marks: 1Which of the following is true?

Select correct option:

A study can be internally valid but not externally valid

A study can be externally valid but not internally valid

A study must be both internally and externally valid

The internal and external validity of studies are not related in any wayQuestion # 11

of 20 (Start time: 12:25:20 PM) Total Marks: 1

Which of the following provides insight into the complexity of using interviews?Select correct option:

Potential influence of gender or cultural differences between interviewer and intervieweeThe
accuracy of the interviewee's responses

The different semantic meanings of the language being used**Accuracy,**
influences and language used

Question # 12 of 20 (Start time: 12:26:15 PM) Total Marks: 1 Which one of these is not a way of measuring central tendency?Select correct option:

Mean

Median Mode **Regression**
analysis

Question # 13 of 20 (Start time: 12:26:50 PM) Total Marks: 1

Which of the following is the best hypothesis statement to address the research question, "What impact will the new advertising campaign have on use of Brand B?" Select correct option:

The new advertising campaign will impact Brand B usage.

The new advertising campaign will increase Brand B trial.

The new advertising campaign will cause increased Brand B usage at the expense of Brand C.

The new advertising campaign will increase Brand B's market penetration. Question # 14 of 20 (Start time: 12:27:48 PM) Total Marks: 1

The _____ is only useful if the concepts, ideas, questions, etc. to be investigated are both testable and falsifiable. Select correct option:

Independent Variable

Dependent Variable

Experimental Method

Scientific Method

Question # 15 of 20 (Start time: 12:28:41 PM) Total Marks: 1 The term "Extrapolation" is better explained by the statement: Select correct option:

Facts lead to the rejection of theory Identification of the gap in knowledge **Theory predicts facts**

None of the given options

Question # 16 of 20 (Start time: 12:29:13 PM) Total Marks: 1 Measurement reliability refers to the:

Select correct option:

Accuracy of the scores **Consistency of the scores** Dependency of the scores Comprehensiveness of the scores

Question # 17 of 20 (Start time: 12:29:59 PM) Total Marks: 1 Cover letter must include the following information, except:

Select correct option:

How was the respondent selected? **Data collecting tools**

Motivation for the respondent Importance of research topic which is going to be conducted

Question # 18 of 20 (Start time: 12:30:39 PM) Total Marks: 1

In which of the following nonrandom sampling techniques does the researcher ask the research participants to identify other potential research participants? Select correct option:

Snowball

Convenience

Purposive

Quota

Question # 19 of 20 (Start time: 12:31:21 PM) Total Marks: 1

Which of the following is an example of deception in business research? Select correct option:

The obtaining of company material without permission. The researcher wearing a disguise during an observation.

The researcher representing their research as being about a different topic. The researcher failing to ask permission to interview someone.

Question # 20 of 20 (Start time: 12:32:15 PM) Total Marks: 1 Researchers read percentaged tables to make:

Select correct option:

Differences Relationships

Comparison

None of the above

Question # 1 of 20 (Start time: 12:43:34 PM) Total Marks: 1

Which of the following steps of the scientific method is exemplified by the researcher reviewing the literature and focusing on a specific problem that has yet to be resolved? Select correct option:

Identify a topic.

Describe the procedures to collect information.

Analyze the collected information.

State the results of the data analysis.

Question # 2 of 20 (Start time: 12:44:23 PM) Total Marks: 1 Null hypothesis states:

Select correct option:

Absence of relationship

Existence of relationship The direction of relationship

Casual relationship

Question # 3 of 20 (Start time: 12:45:53 PM) Total Marks: 1 Cover letter must include the following information, except: Select correct option:

How was the respondent selected? Data

collecting tools

Motivation for the respondent

Importance of research topic which is going to be conducted Question # 4 of 20 (Start time: 12:47:06 PM) Total Marks: 1 Conditions favoring the use of a sample over a census include a: Select correct option:

Long time frame Small

budget

High cost of sampling errors Low

cost of non-sampling errors

Question # 5 of 20 (Start time: 12:48:12 PM) Total Marks: 1

All the persons involved in the collection of data and supervision of data collection process are called;

Select correct option:

Fieldworkers

Researchers

Research assistants

None of the given options

Question # 6 of 20 (Start time: 12:48:54 PM) Total Marks: 1

Which of the following describes the nature of qualitative data interpretation?

Select correct option:

- Reflection
- Integrative
- Explanatory

Reflection, integrity, explanation

Question # 7 of 20 (Start time: 12:49:44 PM) Total Marks: 1

Which of the following group that does not receive the experimental treatment condition? Select correct option:

- Experimental group
- Control group
- Treatment group
- Independent group

Question # 8 of 20 (Start time: 12:50:32 PM) Total Marks: 1 What is an hypothesis?

Select correct option:

- A prediction of a relationship between certain variables. An experiment that tests certain predictions.
- An independent variable.
- A dependent variable.

Question # 9 of 20 (Start time: 12:51:04 PM) Total Marks: 1

A Literature review that summarizes what is known at a point in time is known as: Select correct option:

- Narrative literature review
- Systematic literature review
- Integrative review
- Historical review

Question # 10 of 20 (Start time: 12:51:41 PM) Total Marks: 1

In _____ we collect same type of information from different respondents in different times.

Select correct option:

- Cohort study
- Time series Research
- Panel study
- Case studies

Question # 11 of 20 (Start time: 12:52:21 PM) Total Marks: 1

Which of the following provides a solid basis foundation for the theoretical framework? Select correct option:

- Survey
- Literature Review
- Experiment
- Referencing

Question # 12 of 20 (Start time: 12:52:55 PM) Total Marks: 1 Which one of the following is not an assumption of science?

Select correct option:

- There are reoccurring patterns in the world. Events happen because of preceding causes.
- We can discover solutions to problems of interest.

Theoretical explanations must agree with common sense.

Question # 13 of 20 (Start time: 12:53:45 PM) Total Marks: 1 When does random assignment occur?

Select correct option:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

When subjects have an equal chance to be assigned to any condition and/or group in a study

When a subject can choose its group and study
When a subject cannot choose its group and study
None of the given options

Question # 14 of 20 (Start time: 12:54:40 PM) Total Marks: 1 A measure has high internal consistency reliability when:

Select correct option:

Multiple observers make the same ratings using the measure.
Participants score at the high end of the scale every time they complete the measure.
Multiple observers obtain the same score every time they use the measure.

Each of the items correlates with other items on the measure. Question # 15 of

20 (Start time: 12:55:26 PM) Total Marks: 1 The most difficult sources to locate are;

Select correct option:

Dissertations
Policy Reports and Presented Papers
Government Documents
Scholarly Books

Question # 16 of 20 (Start time: 12:56:06 PM) Total Marks: 1 A variable is:

Select correct option:

Any characteristic of interest that can take on more than one value
Defined as the groups manipulated in experimental research
The complete set of scores we use in statistical analysis
Completely specified only in observational research

Question # 17 of 20 (Start time: 12:56:55 PM) Total Marks: 1 Which of the following can be referred as semantic analysis? Select correct option:

Latent Coding
Accretion
Count Behaviors
Intensity

Question # 18 of 20 (Start time: 12:57:32 PM) Total Marks: 1

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

Select correct option:

The type of data collected. The data-collection technique.

The level of manipulation used to elicit data collection. All of the given options

Question # 19 of 20 (Start time: 12:58:09 PM) Total Marks: 1

_____ meanings attached to a concept create problems of measurements.

Select correct option:

Unambiguous
Vague
Clear
Dictionary

Question # 20 of 20 (Start time: 12:58:51 PM) Total Marks: 1

Ms. Laiba has decided to use the test at the end of the textbook to measure the achievement levels of the students in her study. Which of the following BEST describes the chapter test? Select correct option:

Definition

n

Construct

Variable

Operationalized variable

The researcher protects the confidentiality in following ways, Except; Select correct option:

Obtaining signed nondisclosure documents.

Restricting access to data instruments where the respondent is identified. **Disclosure of data subsets.**

Restricting access to respondent identification.

A _____ scale only assigns numbers to objects to classify the objects according to the characteristic of interest. Select correct

option: Ratio Nominal

Interval

Dichotomous

A study that involves no researcher intervention is called _____.

Select correct option:

An experimental study **An**

observational study

A quasi-experimental study

A non involvement study

When a variable is so closely associated with the independent variable that we do not know which one is producing the experimental effect, the variable is: Select correct option:

Manipulated **Confounded**

Unspecified

Uncontrolled

Which of the following is not example of historical comparative research? Select correct option:

Social Forms

Turnover

Civil Wars

Economic Forms

Graphical presentation of data lays more emphasis on: Select correct option:

Visual representations.

Graphical techniques.

Summary statistics.

Both A & B

Which of the following is more operational with the help of coding system? Select correct option:

External Appearance

Count Behaviors

Time Duration

Content analysis

Question # 1 of 20 (Start time: 01:11:07 PM) Total Marks: 1

Which of the following is the least obtrusive and most accurate method for recording data in an interview?

Select correct option:

Note taking Videotaping

Audiotaping

Writing notes after the interview

Question # 2 of 20 (Start time: 01:11:45 PM) Total Marks: 1

Which of the following would NOT NECESSARILY be an assigned variable? Select correct option:

Self-concept

Participation in extracurricular activities

Attitude toward school

Father's level of education

Question # 4 of 20 (Start time: 01:13:28 PM) Total Marks: 1 The logic of qualitative data analysis is described as:

Select correct option:

Objective Subjective

Inductive Deductive

Question # 5 of 20 (Start time: 01:14:12 PM) Total Marks: 1 Which of the following is included in research proposal?

Select correct option:

Data analysis Results

Literature review

Conclusions section

Question # 6 of 20 (Start time: 01:14:42 PM) Total Marks: 1 Which of the following statements is false?

Select correct option:

Discrete variables allow measurement of an infinite number of fractions of units of measurement.

Discrete variables can only have whole number values. Continuous numbers can only have whole number values.

Continuous measures do not allow for scores that fall between two number values. Question # 7 of 20 (Start time: 01:15:20 PM) Total Marks: 1

In _____ definition, a concept is explained in terms of other concepts.

Select correct option: Operational definition

Working definition Theoretical

definition None of the given options

Question # 8 of 20 (Start time: 01:15:56 PM) Total Marks: 1 Easiest way to describe the numerical data of one variable is with a: Select correct option:

Cumulative percentage distribution table.

Bar charts.

Pie chart.

Frequency distribution.

Question # 9 of 20 (Start time: 01:16:27 PM) Total Marks: 1 Which of the following is not a feature of theoretical framework? Select correct option:

Making an inventory of variables Specify the direction of relationship

Presenting findings

Making an inventory of propositions

Question # 10 of 20 (Start time: 01:17:00 PM) Total Marks: 1

In which of the following sampling methods People are available such as volunteer or can be easily recruited? Select correct option:

Simple random sampling Cluster sampling Systematic sampling

Convenience sampling

Question # 11 of 20 (Start time: 01:17:35 PM) Total Marks: 1 What research is?

Select correct option:

A lab experiment

A report

A systematic Enquiry

A procedure

Question # 12 of 20 (Start time: 01:18:14 PM) Total Marks: 1 Which of the following is NOT a major method of data collection? Select correct option:

Questionnaires

Focus groups

Correlation

method Secondary data

Question # 13 of 20 (Start time: 01:18:54 PM) Total Marks: 1

Which of the following provides insight into the complexity of using interviews? Select correct option:

Potential influence of gender or cultural differences between interviewer and interviewee The accuracy of the interviewee's responses

The different semantic meanings of the language being used

Accuracy,

influences and language used

Question # 14 of 20 (Start time: 01:19:43 PM) Total Marks: 1 Which of the following is a measure of inflation?

Select correct option:

Scale

Consumer price index

Weighting

Unidimensionality

Question # 15 of 20 (Start time: 01:20:18 PM) Total Marks: 1 A good qualitative problem statement:

Select correct option:

Defines the independent and dependent variables

Conveys a

sense of emerging design

Specifies a research hypothesis to be tested

Specifies the relationship between variables that the researcher expects to find. Question # 16 of 20 (

Start time: 01:20:53 PM) Total Marks: 1

Which is most likely to yield qualitative data? Select correct option:

Mail survey **Focus group**

Telephone interview

None of the given options

Question # 17 of 20 (Start time: 01:21:30 PM) Total Marks: 1 Null

hypothesis states:

Select correct option:

Absence of relationship

Existence of relationship The direction of relationship

Casual relationship

Question # 18 of 20 (Start time: 01:21:59 PM) Total Marks: 1

_____ is a measure of association tested for its genuineness by controlling the third variable.

Select correct option:

Trivariate tables.

Multiple regressions.

Statistical control.

None of the above.

Question # 19 of 20 (Start time: 01:22:32 PM) Total Marks: 1 What does it

mean if two variables have a positive correlation? Select correct option:

As one variable increases, so does the other As

one variable increases, the other decreases The

correlation between the two variables is 0

The correlation between the two variables is greater than 1.0 Question # 20 of 20 (

Start time: 01:23:12 PM) Total Marks: 1

Which of the following group that does not receive the experimental treatment condition? Select correct option:

Experimental group

Control group

Treatment group

Independent group

Quiz Start Time: 11:00 PM Time Left

90

sec(s)

Question # 1 of 20 (Start time: 11:00:15 PM) Total Marks: 1 Why do

you need to review the existing literature?

Select correct option:

To give your dissertation a proper academic appearance, with lots of references Because without it, you could never reach the required word-count

To find out what is already known about your area of interest

To help in your general studying

Quiz Start Time: 11:00 PMTime Left

Question # 20 of 20 (Start time: 11:11:23 PM) Total Marks: 1

On which component of his field notes was Mr. M focused when he expressed in his notes his thoughts and ideas about what he observed?

Select correct option:

- sReflection**
- Protocol
- Formal data
- Analysis

The scientific method is preferred over other ways of knowing because it is more;

Select correct option:

Reliable Systematic

Accurate

All of the given options

A variable is:

Select correct option:

Any characteristic of interest that can take on more than one value Defined as the groups manipulated in experimental research

The complete set of scores we use in statistical analysis Completely specified only in observational research

Which of the following is not a proper way to write a literature review? Select correct option:

Organize common findings or arguments together.

List down a series of research reports with a summary of the findings of each not confirmed

Logically link statements or findings, Address the most important ideas first.

The organization of concepts in sequence from the most concrete and individual to the most general indicates is:

Select correct option:

One that bears no relation to the underlying concept. An abstract, theoretical definition of a concept.

The degree of abstraction An operational definition

Which of the following is NOT a purpose of a literature review? Select correct option:

Helps you find out what is already known about this area. Helps you in getting response from the respondents Helps you in developing theoretical framework.

Helps you to learn from others and stimulate new ideas.

The facts that should be collected to measure a variable, depend upon the Select correct option:

Conceptual understanding Dictionary meaning Operational definition

All of the above

What is a relationship between the literature survey and the theoretical framework?

Select correct option:

Literature survey provides a solid foundation for developing the theoretical framework. Literature survey helps in the identification of the relevant variables. Literature survey helps in the identifying the relationship among variables. All of the given options

In _____ definition, a concept is explained in terms of other concepts.
Select correct option:
Operational definition Working definition Theoretical definition None of the given options

Research is?
Select correct option:
A lab experiment A report A systematic Enquiry A survey

Which of the following is NOT a characteristic of a good research topic? Select correct option:
It is ethical.
It can be investigated through the collection and analysis of data. It focuses on a philosophical or ethical issue.
It is theoretically or practically significant.

What is a hypothesis? Select correct option:
A prediction of a relationship between certain variables. An experiment that tests certain predictions.
An independent variable. A dependent variable.
If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?
Select correct option:
Basic Applied
Evaluation
Grounded theory

Which of the following is not a source of Literature review? Select correct option:
Scholarly journals

Experiment Dissertations
Bibliographical indexes

Which of the following questions might invade the privacy of a research participant?

Select correct option:

How long have you worked for this organization? **What is your home address?**

What do you think about your direct line manager? What happened during your last performance appraisal?

The purpose of a literature review is to:

Select correct option:

Help you find out what is already known about this area. Identify any inconsistencies or gaps in the literature.

Demonstrate an awareness of the theoretical context in which the current study can be located.

All of the given options

Qualitative and Quantitative Research are the classifications of research on the basis of

Select correct option:

Use of the research Time dimension

Techniques used Purpose of the research

The extensive use of chocolate causes pimples". The given hypothesis is a(an):

Select correct option:

Descriptive hypothesis Explanatory hypothesis **Non-**

Directional hypothesis

Co-relational hypothesis

Which of the following is an example of deception in business research? Select correct option:

The obtaining of company material without permission. The researcher wearing a disguise during an observation

The researcher representing their research as being about a different topic. The researcher failing to ask permission to interview someone.

When doing research involving deception with human subjects, researchers have an obligation to do which of the following?

Select correct option:

Tell subjects the truth about the study's purpose and methods after the study is completed

Let subjects withdraw from the study at any time if they don't want to keep participating

Both of the given options
None of the given options

After you locate a source, you should write down all details of the reference, except;

Select correct option:

Full names of the authors
Titles

Volumes
Price

The researcher protects the confidentiality in following ways, Except; Select correct option:

Obtaining signed nondisclosure documents.

Restricting access to data instruments where the respondent is identified.
Disclosure of data subsets.

Restricting access to respondent identification.

Apart from that deception is unethical, what is the other important disadvantage of deceiving people?

Select correct option:

It increases the response rate

It can damage the professional reputation of researcher
I can damage the anonymity of respondents

All of the given options

Why do you need to review the existing literature? Select correct option:

To give your dissertation a proper academic appearance, with lots of references

Because without it, you could never reach the required word-count
To find out what is already known about your area of interest

To help in your general studying

All of the following are true about theories, except; Select correct option:

They organize and summarize existing knowledge about a topic.
They are tentative until the facts prove them true.

They provide possible explanations for the phenomenon under study. They lead to testable hypotheses through the process of deduction.

Theoretical framework is trying to develop a _____ model of our study.

Select correct option:

Functional **Conceptual**

Operational Practical

Which one of the following tasks is NOT accomplished by theoretical framework?

Select correct option:

Elaborate the relationship among the variables

Explain the logic underlying the relationship between the variables. Describe the nature, and direction of the relationships among the variables. **Relates the previous studies.**

A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review?

Select correct option:

Integrative reviews Theoretical

reviews **Self-study reviews**

Historical reviews

To explain, predict, and/or control phenomena are the goal of _____.

Select correct option:

Tradition Inductive logic

Deductive logic

scientific method Inductive logic

the statement 'an examination of the effects of discretionary behavior on employee performance' employee performance is the:

Select correct option:

Independent variable **Dependent**

variable Extraneous variable

Causal variable

If a researcher was studying the use of various instructional approaches to

the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Select correct option:

Basic **Applied**

Evaluation

Grounded theory

If a measure is consistent over multiple occasions, it has: Select correct option:

Inter-rater reliability Construct

validity Internal validity

Test-retest reliability

Why do you need to review the existing literature? Select correct option:

To give your dissertation a proper academic appearance, with lots of references

Because without it, you could never reach the required word-count **To find out what**

is already known about your area of interest

To help in your general studying

All of the following are true about theories, except; Select correct option:

They organize and summarize existing knowledge about a topic. **They are tentative until the facts prove them true.**

They provide possible explanations for the phenomenon under study They lead to testable hypotheses through the process of deduction.

Quantitative social researchers rarely claim to have established causality because: Select correct option:

They are more concerned with publishing the results of their reliability tests.

They do not believe that this is an appropriate goal to be striving for. They keep forgetting which of the variables they have manipulated.

They tend to use cross-sectional designs, which produce only correlations.

“Skepticism” • is a norm of science. It is better explained by which of the following statement?

Select correct option:

Combining the previous knowledge **Critical reading of the previous researches**

Providing the proper references of quoted text Locating research reports in libraries

Which of the following provides a solid basis foundation for the theoretical framework?

Select correct option:

Survey

Literature Review Experiment

Referencing

-----surveys are more impersonal than face-to-face interviews. Select correct option:

Mail

Recorded Interview Focus group

Telephone

Which of the following is not a feature of theoretical framework? Select correct option:

Making an inventory of variables Specify the direction of relationship **Presenting findings**

Making an inventory of propositions

In _____ definition, a concept is explained in terms of other concepts.

Select correct option: Operational definition

Working definition **Theoretical**

definition None of the given options

Which of the following is a concept? Select correct option:

Leadership.

Total Quality Management. Human Resource

Management. **All of the given options**

The most critical areas of an article to read is; Select correct option:

Results section Introduction

Abstract Limitations

Quantitative researcher's preoccupation with generalization is an attempt

to:

Select correct option:

Develop the law like findings of the natural sciences. Boost their chances of publication.

Enhance the internal validity of their research. Demonstrate the complex techniques of statistical analysis.

Who, among the following, wrote the book "Research Methods for Business"?

- ▶ Zikmund, W.
- ▶ **Sekaran, U.**
- ▶ Dessler, G.
- ▶ Neuman, W.C.

Research Methods for Business was written by Uma **sekaran**.

Question No: 2 (Marks: 1) - Please choose one

What does an empiricist believe?

- ▶ All the knowledge that we have of life after death can be used in research.
- ▶ **Knowledge in the form of 'facts' should be gained through sensory experience.**
- ▶ Research conducted within the British Empire was biased and unreliable.
- ▶ Research should not always necessarily rely on the scientific methods.

How do we actually know the things we know? People told us some of them, we read about some of them and others we saw, or felt for ourselves. This is at the heart of empiricism - we acquire knowledge through our sensory perceptions. It follows that the empiricist approach to research is to gather information through observation of the 'real' world and let theory emerge as a kind of conclusion. We should not start out with a theory, an empiricist might say, and find facts which seem to suit. Now, although this discussion might seem a bit too philosophical for some and consequently, a bit esoteric, most social research depends on 'empirical' data. What this means is that most research studies include quite a bit of primary data gathering and are not just limited to musing about what others have said.

Question No: 3 (Marks: 1) - Please choose one

Action research usually takes place in a single school because;

- ▶ **It is designed to answer questions about improving practice in a particular setting.**
- ▶ It is difficult to secure permission to study students in multiple schools.
- ▶ Teachers do not have the necessary skills to conduct research across multiple settings.
- ▶ Data collection methods used in action research are designed for single settings.

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Results demonstrate cause-and-effect relationships.
- ▶ **Data are usually qualitative.**

Action research is empirical, though the collected **data** is typically **qualitative** and interpretive.

http://webcache.googleusercontent.com/search?q=cache:MQhthA-nlfoJ:www.cis.gsu.edu/~rbaskerv/CAIS_2_19/CAIS_2_19.html+Data+are+usually+qualitative.

Question No: 5 (Marks: 1) - Please choose one

Which of the following statements is TRUE for qualitative research question?

- ▶ **It asks a question about some process, or phenomenon to be explored.**
- ▶ It is generally an open-ended question.
- ▶ It asks a question which may be open ended.
- ▶ It asks a closed ended question.

Qualitative research question — an interrogative sentence that asks a question about some process, issue, or phenomenon to be explored

<http://www.southalabama.edu/coe/bset/johnson/2glossary.htm>

Question No: 6 (Marks: 1) - Please choose one

Which of the following is NOT an example of quantitative variable?

- ▶ Age
- ▶ Grade point average
- ▶ Gender
- ▶ **Motivation**

examples of quantitative variables: age, height, weight, grade point

http://media.wiley.com/product_data/excerpt/95/04701810/0470181095-1.pdf

Question No: 7 (Marks: 1) - Please choose one

In research, something that does not “vary” is known as:

- ▶ Variable
- ▶ Method
- ▶ **Constant**
- ▶ Control group

A constant, as its name suggests, is something that does not vary or change (or that may not be susceptible to variation or change).

<http://wikiofscience.wikidot.com/methods:constant>

Question No: 8 (Marks: 1) - Please choose one

The cause variable or the one that identifies forces or conditions that act on something else is known as:

- ▶ Moderating variable
- ▶ **Independent variable**
- ▶ Categorical variable
- ▶ Dependent variable

The cause variable, or the one that identifies forces or conditions that act on something else, is the independent variable <http://free-books-online.org/mathematics/business-mathematics-statistics/research->

methods-business-mathematics-statistics/variables-and-types-of-variables/

Question No: 9 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

- ▶ A quantitative study.
- ▶ **A tentative prediction of the results of the research.**
- ▶ A qualitative research design.
- ▶ The operational definition of the study.

A hypothesis has also been **defined** as a **prediction of the results of the research**

[http://books.google.com.pk/books?](http://books.google.com.pk/books?id=chVqAAAAMAAJ&q=A+tentative+prediction+of+the+results+of+the+research.+++++best+defines+hypothesis&dq=A+tentative+prediction+of+the+results+of+the+research.+++++best+defines+hypothesis&hl=en&ei=JubbTZeJGcnUsqbDrMXeDg&sa=X&oi=book_result&ct=result&resnum=6&ved=0CEUQ6AEwBQ)

Question No: 10 (Marks: 1) - Please choose one

Which of the following is the characteristic/s of Hypotheses in qualitative research studies?

- ▶ Hypotheses are very specific and stated prior to beginning the study.
- ▶ Hypotheses are never used.
- ▶ **Hypotheses are often generated as the data are collected, interpreted, and analyzed.**
- ▶ Hypotheses are always stated after the research study has been completed.

[http://books.google.com.pk/books?](http://books.google.com.pk/books?id=aHBVNhecIPcC&pg=PA1&dq=Hypotheses+are+often+generated+as+the+data+are+collected,+interpreted,+and+analyzed.&hl=en&ei=8-bbTbyJDs7CtAaR8YTWDg&sa=X&oi=book_result&ct=result&resnum=3&ved=0CDYQ6AEwAg)

[id=aHBVNhecIPcC&pg=PA1&dq=Hypotheses+are+often+generated+as+the+data+are+collected,+interpreted,+and+analyzed.&hl=en&ei=8-bbTbyJDs7CtAaR8YTWDg&sa=X&oi=book_result&ct=result&resnum=3&ved=0CDYQ6AEwAg](http://books.google.com.pk/books?id=aHBVNhecIPcC&pg=PA1&dq=Hypotheses+are+often+generated+as+the+data+are+collected,+interpreted,+and+analyzed.&hl=en&ei=8-bbTbyJDs7CtAaR8YTWDg&sa=X&oi=book_result&ct=result&resnum=3&ved=0CDYQ6AEwAg)

Question No: 11 (Marks: 1) - Please choose one

Hypothesis test may also be called as:

- ▶ Informal test
- ▶ Moderating test
- ▶ **Significance test**
- ▶ t-test

[http://books.google.com.pk/books?](http://books.google.com.pk/books?id=RwLiEqDU5fcC&pg=PA373&dq=Hypothesis+test+may+also+be+called+as&hl=en&ei=XufbTafZNSbVsgaRh4ncDg&sa=X&oi=book_result&ct=result&resnum=7&ved=0CEsQ6AEwBg)

Question No: 12 (Marks: 1) - Please choose one

Which of the following refers to "A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review"?

- ▶ Integrative review
- ▶ Theoretical review
- ▶ **Self-study review**
- ▶ Historical review

Handouts Page No.26

1. Self-study reviews increase the reader's confidence. A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program. In addition to giving others confidence in a reviewer's command of field, it has the side benefit of building the reviewer's self confidence

Question No: 13 (Marks: 1) - Please choose one

Which one of the following tasks is NOT accomplished by theoretical framework?

- ▶ Elaborate the relationship among the variables
- ▶ Explain the logic underlying the relationship between the variables.
- ▶ Describe the nature, and direction of the relationships among the variables.
- ▶ **Relates the previous studies.**

Elaborates the relationship among the variables. Explains the logic underlying these relationships. Describes the nature, and direction of the relationships. <http://free-books-online.org/mathematics/business-mathematics-statistics/research-methods-business-mathematics-statistics/theoretical-framework/>

Question No: 14 (Marks: 1) - Please choose one

Which of the following strategies is useful when defining a particular research question?

- ▶ **To clearly articulate the research question, to provide operational, definitions and ensuring its testability.**
- ▶ To clearly articulate the research question, outlining the conditions in which the phenomena of interest are to be investigated.
- ▶ To provide operational definitions of the ideas or concepts involved in the research.
- ▶ Ensuring that their research question is empirically testable.

To clearly articulate the research question, outlining the conditions in which the phenomena of interest are to be investigated. To provide operational definitions of the ideas or concepts involved in the research and ensuring that their research question is empirically testable.

Question No: 15 (Marks: 1) - Please choose one

What should the business researcher be aware of when signing a confidentiality agreement?

- ▶ Any clause which limits the length of a questionnaire.
- ▶ **Any clause which allows the company to comment on findings that will be published.**
- ▶ Any clause which increases the level of access for the researcher.
- ▶ Any clause which guarantees the anonymity of research participants.

Confidentiality agreements are becoming a common part of the process of negotiating access. Researchers who are asked to sign these, before commencing their data collection, need to be wary of clauses which may cause difficulties if issues are uncovered which the company may want to play down.

Question No: 16 (Marks: 1) - Please choose one

In a study of concept learning in first-graders, all of the following should happen, except;

- ▶ **To help make the experience enjoyable, children should be given substantial incentives to participate.**
- ▶ The children should be asked if they want to participate.
- ▶ Teachers of the children in their classes should give informed consent.
- ▶ Parents must give consent.

Question No: 17 (Marks: 1) - Please choose one

Which of the following is least likely to occur as an ethical problem with electronic research?

- ▶ Privacy could be invaded.
- ▶ **People are not likely to be able to stop once they have begun participating.**
- ▶ Debriefing could be avoided.
- ▶ Informed consent cannot be completely monitored.

Question No: 18 (Marks: 1) - Please choose one

Quantitative research has been criticised because:

- ▶ The reliance on instruments and procedures makes it high in ecological validity.
- ▶ **The measurement process suggests a spurious and artificial sense of accuracy.**
- ▶ It underestimates the similarities between objects in the natural and social worlds.
- ▶ It has no validity.

Some critics of quantitative research see it as pretending that a photograph is a good representation of life, rather than being a 'frozen' instant of it. As a consequence, quantitative research is accused of assuming that social life is static, clearly not the case. Furthermore, the ontological basis of this kind of research obliges the social-science researcher to regard people in the same way that physical-science researchers regard nature and again, clearly there is a 'world' of difference. However, the measurement process, largely because of the need for all those tests of validity and reliability, does tend to leave quantitative researchers with a deep sense of accuracy of their research results. In the view of some critics this confidence is misplaced, because, among other things, it is unlikely that respondents will share a precise interpretation of the terms used, with the researcher. Most of the criticism comes from proponents of qualitative research.

Question No: 19 (Marks: 1) - Please choose one

Which of the following is a characteristic of a standardized test?

- ▶ The administration of the test is controlled carefully to ensure that all examinees experience the same conditions.

- ▶ The test is developed by experts to ensure it is technically sound.
- ▶ The scores are interpreted in standard ways.
- ▶ **All of the given options**

Question No: 20 (Marks: 1) - Please choose one

Mr. Latif is measuring students' attitudes on a controversial topic. Which of the following would you recommend he use to control for the potential problem of students feeling the need to respond with socially acceptable responses?

- ▶ Ensure construct validity
- ▶ **Allow anonymous responses**
- ▶ Ensure reliability
- ▶ Ensure confidentiality

Question No: 21 (Marks: 1) - Please choose one

Which of the following scales can measure the Temperature?

- ▶ Nominal scale
- ▶ Ordinal scale
- ▶ Interval scale
- ▶ **All of the given options**

Question No: 22 (Marks: 1) - Please choose one

Following are the properties of nominal scale, except;

- ▶ Least powerful
- ▶ Suggest no order
- ▶ Provide categorical information
- ▶ **Provide magnitude of object**

Nominal Scale

A nominal scale is the one in which the numbers or letters assigned to objects serve as labels for identification or classification. This measurement scale is the simplest type. With nominal data, we are collecting information on a variable that naturally or by design can be grouped into two or more categories that are mutually exclusive, and collectively exhaustive. Nominal scales are the least powerful of the four scales. They suggest no order or distance relationship and have no arithmetic origin. Nevertheless, if no other scale can be used, one can almost always one set of properties into a set of equivalent classes.

Question No: 23 (Marks: 1) - Please choose one

Which of the following is NOT the implication of Ordinal scale?

- ▶ Characteristics of nominal scale
- ▶ **Rank the object**
- ▶ Does not provide magnitude of object
- ▶ Provide rate

2. Ordinal Scale

An **ordinal scale** defines ordered relationship among the objects measured. It indicates relative size difference between objects. An **ordinal scale** shows whether an **object** has more or less of the attribute but **not** as to how much less or more. It shows relative position of the objects under measurement but **not** what the **magnitude** of difference is. World ranking of cricket teams, finishing order of horse race, positions of the students in the class and social class are examples of **ordinal** scales. In marketing research opinions, measurement of preferences, relative attitudes, evaluation of quality of different brands of the same product etc. are through **ordinal** scales. In **ordinal scale** difference of numbers indicate difference in **rank** and nothing else. The statistics commonly used in analyzing data gathered by **ordinal scale** is percentile, median, **rank** order correlation etc.

Question No: 24 (Marks: 1) - Please choose one

Which of the following statements is correct about **validity** and reliability?

- ▶ When internal validity is high, external validity is low
- ▶ When internal validity is high, there is no change in external validity
- ▶ When internal validity is high, external validity is also high
- ▶ **All of the given options**

Question No: 25 (Marks: 1) - Please choose one

When you are confident that the experimental manipulation produced the changes you measured in the dependent variable, your study probably has good _____ validity.

- ▶ Internal
- ▶ External
- ▶ **Causal**
- ▶ Construct

Question No: 26 (Marks: 1) - Please choose one

Mr. Ali has conducted an extensive review of the literature and has deductively reasoned a hypothesis about his problem on the basis of this review. Which type of a research plan is Mr. Ali likely proposing?

- ▶ **Qualitative**
- ▶ Ethical
- ▶ Both quantitative and qualitative
- ▶ Quantitative

Question No: 27 (Marks: 1) - Please choose one

Which of the following is a legitimate purpose of a research plan?

- ▶ It forces you to think through every aspect of a study.
- ▶ It provides detailed procedures to guide the conduct of the study.
- ▶ It provides clear roadmap of the study.
- ▶ **Writing a plan facilitates the evaluation of it.**

Question No: 28 (Marks: 1) - Please choose one

In the statement 'Smoke badly destroys health of people' what is the unit of analysis?

- ▶ Transportation
- ▶ Individuals
- ▶ Pollutants
- ▶ **Drugs**

Question No: 29 (Marks: 1) - Please choose one

While studying supervisor-subordinate relationship in an organization, what is the unit of analysis?

- ▶ Individual
- ▶ Dyad
- ▶ Employer-employee
- ▶ **Organization**

Question No: 30 (Marks: 1) - Please choose one

Which of the following types of survey research is often used for program evaluation or accreditation purposes?

- ▶ Developmental surveys
- ▶ Followup studies
- ▶ Public opinion polls
- ▶ **No survey research is appropriate**

Question No: 31 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening question.
- ▶ **Respondents may be unwilling to reveal information as they believe they are likely to be identified.**

Question No: 32 (Marks: 1) - Please choose one

What should the researcher do if they have achieved a low response rate?

- ▶ Copy responses and paste them again.
- ▶ Abandon the research project entirely.
- ▶ **Recognize and accept the possible limitations of a low response rate.**
- ▶ Fill in some more questionnaires themselves.

Question No: 33 (Marks: 1) - Please choose one

Which of the following statements is correct about questionnaire?

- ▶ A questionnaire should run to at least twenty pages.
- ▶ The questions should have no spaces between them so that the whole questionnaire looks small.
- ▶ Only questionnaires that are A3 size achieve high response rates.

- ▶ **Clear presentation is more important than overall size.**

Question No: 34 (Marks: 1) - Please choose one

Critical decision area in questionnaire construction is which of the following?

- ▶ Question content
- ▶ Question wording
- ▶ Response strategy
- ▶ **All of the given options**

Question No: 35 (Marks: 1) - Please choose one

The most critical area of an article to read is;

- ▶ Introduction
- ▶ **Abstract**
- ▶ Results section
- ▶ Limitations

Question No: 36 (Marks: 1) - Please choose one

Which of the following is/are advantage(s) of the self-completed questionnaire?

- ▶ Inability to confirm who completed the questionnaire
- ▶ Its unsuitability for some kinds of respondents
- ▶ Inability to ask many questions that are not directly relevant to the respondent
- ▶ **Easy to justify the answer**

Question No: 37 (Marks: 1) - Please choose one

Time consumed in mall intercept interview is representing which of the following type?

- ▶ High
- ▶ **Moderate**
- ▶ Low
- ▶ Nill

Question No: 38 (Marks: 1) - Please choose one

Which of the following similarity is found in Qualitative research and Survey research?

- ▶ Examine topics primarily from the participants' perspectives.
- ▶ They are guided by predetermined variables to study.
- ▶ **They are descriptive research methods.**
- ▶ Have large sample sizes.

Question No: 39 (Marks: 1) - Please choose one

Which of the following represent a good qualitative problem statement?

- ▶ Defines the independent and dependent variables.
- ▶ **conveys a sense of emerging design.**
- ▶ Specifies a research hypothesis to be tested.
- ▶ Specifies the relationship between variables that the researcher expects to find.

Question No: 40 (Marks: 1) - Please choose one
Which of the following makes research questions very crucial?

- ▶ **Guide your decisions about what data to collect and from where.**
- ▶ Help you decide which research area interests you.
- ▶ Ensure that your findings have external validity.
- ▶ Prevent you from thinking about research strategies.

Question No: 41 (Marks: 10)
How would you explain "Research Proposal" and its different sections?

1. When a extraneous variable systematically varies with the independent variable and influences the dependent variable, it is called:
 - a. Another dependent variable
 - b. A confounding variable**
 - c. A moderating variable
 - d. An unreliable variable
2. Which of the following statements is true?
 - a. A statistical relationship is sufficient evidence to infer causality
 - b. Temporal order of the cause and effect is not important in inferring causality**
 - c. A statistical relation of X and Y is insufficient evidence for inferring causality**
 - d. Temporal order of cause and effect variables and statistical relation are all that are needed to infer causality
3. A school district examines a program that uses mentors to help very poor readers improve their reading performance. The children in the program are at the 4th percentile at pretest. At posttest they are around the 20th percentile. While it is possible that the program made the difference, another reason for the change in scores could be:
 - a. History
 - b. Regression artifact**
 - c. Multiple-treatment interference
 - d. Differential selection
4. A group of researchers do a study where children from particular classrooms are assigned to treatment or control conditions. After the study, the researcher finds out that the students in the control group are higher achievers than those in the experimental group. He found no treatment effect. The failure to find an effect may be due to:
 - a. A treatment effect
 - b. A testing effect
 - c. A differential selection effect**
 - d. A maturation effect
5. A researcher examines a program looking at the effects of mentoring on poor

readers' reading achievement. He looks at two different schools. One serves as the control and the other the experimental group. Both schools had reading achievement that was around the 50th percentile. During the time that the mentoring program is in place in the experimental group, a statewide reading initiative is started in randomly selected schools. The experimental, but not the control school is involved in the initiative. At the end of the year, the experimental group does better than the control. From the information presented above, a likely threat to the internal validity of the study is:

- a. Selection by mortality interaction
- b. Mortality

c. Selection-history effect

- d. Selection-maturation effect

6. Which type of validity refers to the degree to which you can infer that the relationship between two variables is causal?

a. Internal validity

- b. Population validity
- c. Ecological validity
- d. Statistical conclusion validity

7. Which type of validity refers to the ability to infer that the independent and dependent variables are related and that the measured strength of the relationship is accurate?

- a. Internal validity
- b. Population validity
- c. Ecological validity

d. Statistical conclusion validity

8. An extraneous variable that systematically varies with the independent variable and also influences the dependent variable is known as a_____.

- a. Confounding variable
- b. Third variable
- c. Second variable

d. Both a and b are correct

9. The use of multiple observers to allow cross-checking of observations to make sure that the investigators agree with what took place is known as_____.

- a. Interpretive validity
- b. Researcher bias
- c. Multiple operationalism

d. Investigator triangulation

10. _____ is the lowest inference descriptor of all because it uses the participant's own words.

- a. Participant feedback

b. A verbatim

- c. Data triangulation
- d. Investigator triangulation

11. _____ refers to physical or mental changes that may occur within individuals over time, such as aging, learning, boredom, hunger, and fatigue.

- a. Instrumentation

b. History

c. **Maturation**

d. Testing

12. What type of validity refers to the extent to which the results of a study can be generalized across time?

a. Ecological validity

b. External validity

c. Internal validity

d. **Temporal validity**

13. Which of the following best describes interpretive validity?

a. Factual accuracy of an account as reported by the researcher

b. **Accurately portraying the meanings given by the participants to what is being studied**

c. Degree to which a theoretical explanation fits the data

d. Ability to generalize the study results across settings

14. Which of the following terms is a strategy where the researcher actively engages in critical self-reflection about his or her potential biases and predispositions.

a. Experimenter effect

b. Reactivity

c. Investigator triangulation

d. **Reflexivity**

15. Which of the following is not considered one of the criteria for inferring causality?

a. Evidence that the independent and dependent variables are related

b. Evidence that the relationship between the variables being investigated is not due to a confounding extraneous variable

c. Evidence that changes in variable A occur before changes in variable B

d. **The temporal ordering of the variables being investigated does not matter because a**

relationship is all that is really needed

16. The use of multiple data sources to help understand a phenomenon is one strategy that is used to promote qualitative research validity. Which of the following terms describes this strategy?

a. Data matching

b. Pattern matching

c. **Data triangulation**

d. Data feedback

17. What may happen when different comparison groups experience a different history event?

a. History effect

b. **Selection-history effect**

c. Selection effect

d. Group effect

18. What is another term that refers to a confounding extraneous variable?

- a. Last variable
 - b. First variable
 - c. **Third variable**
 - d. Fourth variable
19. Which of the following refers to any systematic change that occurs over time in the way in which the dependent variable is assessed?
- a. **Instrumentation**
 - b. Maturation
 - c. Testing
 - d. Selection
20. Which of the following terms describes the ability to generalize from the sample of individuals on which a study was conducted to the larger target population of individuals and across different subpopulations within the larger target population?
- a. External validity
 - b. **Population validity**
 - c. Ecological validity
 - d. Temporal validity
21. Which of the following is not a strategy used to promote qualitative research validity?
- a. Peer review
 - b. Theory triangulation
 - c. Extended fieldwork
 - d. **Random assignment**
22. The use of several measures of a construct is called:
- a. **Multiple operationalism**
 - b. Multiple construct measurement
 - c. Operationalism
 - d. Methods triangulation
23. A physical or mental change that occurs in participants over time that affects their performance on the dependent variable is called_____.
- a. Instrumentation
 - b. **Maturation**
 - c. Regression
 - d. None of above
24. Attrition generally occurs in research where_____.
- a. You do demographic research
 - b. The study fails
 - c. **Some participants do not complete the study**
 - d. The study is very brief
25. Differential attrition occurs when the people dropping out from one group are different from the others in their group or from the people in the comparison group.
- a. **True**
 - b. False
26. Internal validity refers to which of the following?

- a. **The ability to infer that a casual relationship exists between 2 variables**
 - b. The extent to which study results can be generalized to and across populations of persons, settings, and times
 - c. The use of effective measurement instruments in the study
 - d. The ability to generalize the study results to individuals not included in the study
27. Which strategy used to promote qualitative research validity uses multiple research methods to study a phenomenon?
- a. Data triangulation
 - b. **Methods triangulation**
 - c. Theory triangulation
 - d. Member checking
28. Which type of validity refers to the factual accuracy of an account as reported by the researcher?
- a. Ecological validity
 - b. Temporal validity
 - c. **Descriptive validity**
 - d. None of the above
29. Which of the following is not one of the key threats to internal validity?
- a. Maturation
 - b. Instrumentation
 - c. **Temporal change**
 - d. History
30. This type of validity refers to the ability to generalize the results of a study across settings.
- a. Temporal validity
 - b. Internal validity
 - c. **Ecological validity**
 - d. External validity
31. Which is not a direct threat to the internal validity of a research design?
- a. History
 - b. **Testing**
 - c. Sampling error
 - d. Differential selection
32. Alteration in performance due to being aware that one is participating in a study is known as _____.
- a. Operationalism
 - b. **Reactivity**
 - c. Temporal validity
 - d. Mortality
33. The idea that the more times a research finding is shown with different sets of people, the more confidence we can place in the finding and in generalizing beyond the original participants is known as _____.
- a. Naturalistic generalization
 - b. Methods generalization

- c. Data triangulation
- d. **Replication logic**

The scientific method is preferred over other ways of knowing because it is more;
Reliable
Systematic
Accurate

All of the given options

An operational definition is:
One that bears no relation to the underlying concept.
An abstract, theoretical definition of a concept.

A definition of a concept in terms of specific, empirical measures.

One that refers to opera singers and their work.

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which type of research?

Basic

Applied

Evaluation

Experimental

What is the basis of the Scientific Method?

To test hypotheses in conditions those are conducive to its success.

To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypotheses and if they are disproved, they should be abandoned completely.

Which of the following is a concept?

Leadership.

Total Quality Management.

Human Resource Management.

All of the given options

Meanings attached to a concept create problems of measurements.

Unambiguous

Vague

Clear

Dictionary

To explain, predict, and/or control phenomena are the goal of-----

Tradition

Inductive logic
Deductive logic

The scientific

Why, as scientists, do we not want to rely on authority for explanations?

Those in authority are often wrong.

Those in authority cannot be challenged.

Those in authority rely too much on objective information.

Those in authority often have no common sense.

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which type of research?

Basic

Applied

Evaluation

Grounded theory

A concept is a generalized idea about --- -- .

A class of objects

Attributes

Occurrences

All of the given

Under which of the following research method is not applicable?

Health care

Business

Government offices

Imaginary worlds

1- Hypothesis refers to

A. The outcome of an experiment

B. A conclusion drawn from an experiment

C. A form of bias in which the subject tries to outguess the experimenter

D. A tentative statement about the relationship

2- Statistics is used by researchers to

- A. **Analyze the empirical data collected in a study**
- B. Make their findings sound better
- C. Operationally define their variables
- D. Ensure the study comes out the way it was intended

3- A literature review requires

- A. Planning
- B. Good & clear writing
- C. Lot of rewriting
- D. **All of the above**

4- A literature review is based on the assumption that

- A. Copy from the work of others
- B. **Knowledge accumulates and learns from the work of others**
- C. Knowledge disaccumulates
- D. None of the above option

5- A theoretical framework

- A. Elaborates the r/s among the variables
- B. Explains the logic underlying these r/s
- C. Describes the nature and direction of the r/s
- D. **All of the above**

6- Which of the following statement is not true?

- A. A research proposal is a document that presents a plan for a project
- B. A research proposal shows that the researcher is capable of successfully

conducting the proposed research project

- C. **A research proposal is an unorganized and unplanned project**
- D. A research proposal is just like a research report and written before the research project
- 7- Preliminary data collection is a part of the
- A. Descriptive research
 - B. **Exploratory research**
 - C. Applied research
 - D. Explanatory research
- 8- Conducting surveys is the most common method of generating
- A. **Primary data**
 - B. Secondary data
 - C. Qualitative data
 - D. None of the above
- 9- After identifying the important variables and establishing the logical reasoning in theoretical framework, the next step in the research process is
- A. To conduct surveys
 - B. **To generate the hypothesis**
 - C. To focus group discussions
 - D. To use experiments in an investigation
- 10- The appropriate analytical technique is determined by
- A. The research design
 - B. Nature of the data collected
 - C. Nature of the hypothesis

D. Both A & B

E. Personal interviews conducted in shopping malls are known as:

1. Mall interviews
2. **Mall intercept interviews**
3. Brief interviews
4. None of the given options

B. WATS lines provided by long distance telephone service at fixed rates. In this regard, WATS is the abbreviation of:

1. West Africa Theological Seminary
2. Washtenaw Area Transportation Study
3. **Wide Area Telecommunications Service**
4. World Air Transport Statistics

C. A list of questions which is handed over to the respondent, who reads the questions and records the answers himself is known as the:

1. Interview schedule
2. **Questionnaire**
3. Interview guide
4. All of the given options

D. One of the most critical stages in the survey research process is:

1. Research design
2. **Questionnaire design**
3. Interview design
4. Survey design

E. Question that consists of two or more questions joined together is called a:

1. **Double barreled question**
2. General question
3. Accurate question
4. Confusing question

F. The number of questionnaires returned or completed divided by the total number of eligible people who were contacted or asked to participate in the survey is called the:

1. **Response rate**

2. Participation rate
3. Inflation rate
4. None of the given options

G. To obtain the freest opinion of the respondent, when we ask general question before a specific question then this procedure is called as the:

1. Research technique
2. Qualitative technique
3. **Funnel technique**
4. Quantitative technique

H. A small scale trial run of a particular component is known as:

1. Pilot testing
2. Pre-testing
3. Lab experiments
4. **Both A & B**

I. Field testing of the questionnaire shows that:

1. **Respondents are willing to co-operate**
2. Respondents are not willing to co-operate
3. Respondents do not like any participation
4. All of the given options

J. Service evaluation of hotels and restaurants can be done by the:

1. **Self-administered questionnaires**
 2. Office assistant
 3. Manager
 4. None of the given options
- A.

1. Which one of the following sets is the measure of central tendency?

- a. Mean, standard deviation, mode
- b. Mean, median, standard deviation
- c. **Arithmetic mean, median, mode**
- d. Standard deviation, internal validity, mode

2. In lab experiment the effect of _____ Variables is controlled to evaluate the causal relationship.

- a. Extraneous
- b. Moderate
- c. Intervening

d. All of the above

3. Internal validity refers to_____.

- a. Researcher's degree of confidence.
- b. Generalizability
- c. Operationalization
- d. All of the above

4. Which of the following is the weakest experimental design?

- a. One group pretest-posttest design
- b. Quasi- experimental design
- c. Two group posttest only design
- d. Ex post facto design

5. How many times the students appear in the research class is the example of _____.

- a. Intensity
- b. Space
- c. Frequency
- d. Direction

6. Disadvantage of content analysis is_____.

- a. Researcher can increase the sample size
- b. Provides access on the subjects to which researcher does have physical access.
- c. Sometime documents provide incomplete account to the researcher
- d. Spontaneous feelings can be recorded when they occurred

7. Which of the following statement is incorrect with respect to “An experimental design is a set of procedures specifying:”

- a. How the test units (subjects) are to be divided into homogenous sub samples.
- b. What independent variables or treatments are to be measured?
- c. What dependent variables are to be measured?
- d. How the extraneous variables are to be controlled?

8. Time consumed in mall intercept interview is_____.

- a. High
- b. Moderate
- c. Low
- d. Nil

9. “Teacher should create a friendly environment in the classroom” this is the type of_____.

- a. Leading question
- b. Loaded question
- c. Double Barreled
- d. Burdensome question

10. Departmental stores selected to test a new merchandising display system is the example of _____.

- a. Quota sampling
- b. Convenience sampling
- c. **Judgmental sampling**
- d. Purposive sampling

1. Discrete variable is also called.....

- A. Categorical variable
- B. Discontinuous variable
- C. **Both A & B**
- D. None of the above

2. “Officers in my organization have higher than average level of commitment” Such a hypothesis is an example of.....

- A. **Descriptive Hypothesis**
- B. Directional Hypothesis
- C. Relational Hypothesis
- D. All of the above

3. ‘Science’ refers to.....

- A. A system for producing knowledge
- B. The knowledge produced by a system
- C. **Both A & B**
- D. None of the above

4. Which one of the following is not a characteristic of scientific method?

- A. Deterministic
- B. Rationalism
- C. Empirical
- D. **Abstraction**

2. The theoretical framework discusses the interrelationships among the.....

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- A. **Variables**
- B. Hypothesis
- C. Concept
- D. Theory

1. research is based on naturalism.

- A. **Field research**
- B. Descriptive research
- C. Basic research
- D. Applied research

2. Personal interviews conducted in shopping malls are known as.....

- A. Mall interviews
- B. **Mall intercept interviews**
- C. Brief interviews
- D. None of the given options

3. is used to obtain the freest opinion of the respondent, by asking general question before a specific question.

- A. Research technique
- B. Qualitative technique
- C. **Funnel technique**
- D. Quantitative technique

4. In, the interviewer and members jointly control the pace and direction of the interview.

- A. **Field interview**
- B. Telephonic interview
- C. Both A and B
- D. None of the given options

5. Randomization of test units is a part of

- A. Pretest
- B. Posttest
- C. Matching
- D. **Experiment**

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 1 (Marks: 1) - Please choose one

The part of the action research spiral that differentiates this research methodology from other kinds of research is;

- ▶ Looking at multiple sources of data.

▶ **Taking action based on results.**

- ▶ Thinking about or analyzing data in more than one way.
- ▶ The kinds of data that are collected.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381555.cw/index.html

Question No: 2 (Marks: 1) - Please choose one

Individuals who engage in action research are most concerned with:

- ▶ Supporting the way things are being done.
- ▶ Publishing results
- ▶ Proving a hypothesis
- ▶ **Improvement**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 3 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

- ▶ The level of manipulation used to elicit data collection.
- ▶ The data-collection technique.
- ▶ The type of data collected.

▶ **Type, technique and manipulation of data collection.**

Question No: 4 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

- ▶ A quantitative study.
- ▶ **A tentative prediction of the results of the research.**
- ▶ A qualitative research design.
- ▶ The operational definition of the study.

Question No: 5 (Marks: 1) - Please choose one

What is the first step in the research process?

- ▶ Problem definition
- ▶ **Define broad problem area**
- ▶ Theoretical framework
- ▶ Preliminary data collection

(page 33)

The research process consists of a number of steps. The first step in any research is selecting the topic, which could start from the broad area of interest

Question No: 6 (Marks: 1) - Please choose one

When there is a need of generating new ideas for hypotheses or to interpret the results of some research, which one is the best research design?

- ▶ Experiment
- ▶ Surveys
- ▶ **Focus group discussion**
- ▶ Communication analysis

(PAGE 38)

Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of deception in business research?

- ▶ The obtaining of company material without permission.
- ▶ The researcher wearing a disguise during an observation.
- ▶ **The researcher representing their research as being about a different topic**

The researcher failing to ask permission to interview someone.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch05/>

Question No: 8 (Marks: 1) - Please choose one

Which of the following is least likely to occur as an ethical problem with electronic research?

- ▶ Privacy could be invaded.
- ▶ **People are not likely to be able to stop once they have begun participating.**
- ▶ Debriefing could be avoided.
- ▶ Informed consent cannot be completely monitored.

Chapter 1

Question No: 9 (Marks: 1) - Please choose one

All of the following are unethical issues, EXCEPT;

- ▶ Invoicing irregularities
- ▶ Avoiding legal liability
- ▶ Misrepresenting results
- ▶ **Seeking permission for entry**

page41

Unethical activities

- Violating nondisclosure agreements.
- Breaking respondent confidentiality.
- Misrepresenting results.
- Deceiving people.

SUBSCRIBE

AR Lucky Bahi

- Invoicing irregularities.
- Avoiding legal liability.

Question No: 10 (Marks: 1) - Please choose one

Which of the following is the difference between measures and indicators?

▶ Measures are unambiguous quantities, whereas indicators are devised from common sense understandings.

▶ Indicators have a more direct relationship to the underlying concept than measures.

▶ Measures are intuitively devised and then applied as if they were direct indicators of a concept.

▶ Indicators are unambiguous quantities, whereas measures are subjective and value-laden.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/>

Question No: 11 (Marks: 1) - Please choose one

The extent to which a test provides scores that are meaningful, appropriate, or useful is referred to as;

▶ Reliability

▶ Accuracy

▶ Internal validity

▶ Validity

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9866/2525945.cw/content/index.html

Question No: 12 (Marks: 1) - Please choose one

Which of the following functions is performed by the Ordinal scale?

▶ Categorize

▶ Distance

▶ Order

▶ Unique origin

Question No: 13 (Marks: 1) - Please choose one

What is the difference between interval/ratio and ordinal variables?

▶ Ordinal data can be rank ordered, but interval/ratio data cannot.

▶ The distance between categories is equal across the range of interval/ratio data.

▶ Interval/ratio variables contain only two categories.

▶ Ordinal variables have a fixed zero point, whereas interval/ratio variables do not.

Question No: 20 (Marks: 1) - Please choose one

Teachers are advised to predict the results of student attitudinal questionnaires, because;

- ▶ It will help them decide if students answered truthfully.
- ▶ **It gives them a point of comparison against which to judge actual responses.**
- ▶ It will allow them to apply statistical procedures in analyzing results.
- ▶ It helps them familiarize themselves with the questionnaires.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 21 (Marks: 1) - Please choose one

In conducting an action research study of "student's organizational skills during class in a particular school", which of the following would NOT likely to provide useful data?

- ▶ Interviews with teachers
- ▶ Classroom observations
- ▶ **Parent surveys**
- ▶ Teacher's journal entries

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 22 (Marks: 1) - Please choose one

Why it is helpful to keep a research diary or log book while you are conducting your project?

- ▶ To give you something to do in the early stages of your research when nothing is happening.
- ▶ Because funding councils generally demand to see written evidence that you were working every day during the period of the research.

▶ **To keep a record of what you did and what happened throughout the research process.**

- ▶ It can be added to your dissertation to ensure that you reach the required word limit.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch03/>

Question No: 23 (Marks: 1) - Please choose one

Which of the following is likely to happen if clear instructions are not given as to how the respondent should answer the question?

- ▶ Respondents may delete inappropriate answers rather than select appropriate ones.
- ▶ Respondents may choose only one answer when they need to choose as many as apply.
- ▶ Respondents may complete questions that are not relevant to them.

▶ **All of the given options**

Question No: 42 (Marks: 1) - Please choose one

Which of the following is linked with an abstract model of underlying relations or causal mechanism?

▶ **Historical comparative research**

▶ Social research

▶ Action research

▶ Experimental research

(HANDOUT PAGE 147)

Question No: 43 (Marks: 1) - Please choose one

In which section is the researcher allowed greater flexibility to express opinions, discuss implications for educational practice, and suggest additional research?

▶ Review of the literature

▶ Significance of the study

▶ Results

▶ **Discussion**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1492/382157.cw/index.html

Question No: 44 (Marks: 1) - Please choose one

Which of the following can be referred as Haphazard Sampling?

► Convenience Sampling

- Purposive Sampling
- Snowball Sampling
- Quota Sampling

http://www.starmass.com/en/research_sampling_method.htm

Haphazard sampling is sometimes referred to as convenience or accidental sampling.

Question No: 45 (Marks: 1) - Please choose one

An important issue in index construction is to----- items.

- Reconstruct
- Codify
- Measure

► Weight

<http://www.google.com/#sclient=psy&hl=en&site=&source=hp&q=+An+important+issue+in+index+construction+is+to+-----+items.&aq=f&aqi=&aql=&oq=&pbx=1&fp=a4d2fea6da4ca5a4>

Four important issues when developing an index:

1. Defining the concept to be measured

1. Selecting the items to be included in the index

1. Combining the items to form an index

1. Weighting the separate items

Question No: 46 (Marks: 1) - Please choose one

Which of the following elements of Observation is/are included in Non Reactive research?

- External Appearance
- Count Behaviors
- Time Duration

► All of the given options

<http://free-books-online.org/mathematics/business-mathematics-statistics/research-methods-business-mathematics-statistics/non-reactive-research-2/>

Question No: 47 (Marks: 1) - Please choose one

Secondary /existing data may include which of the following?

AR Lucky Term

sem0000000000000000

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Official documents
- ▶ Personal documents

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc6.htm>

Question No: 48 (Marks: 1) - Please choose one

Which of the following major problem exist with non respondents in survey research?

- ▶ They tend to be alike in many ways.
- ▶ Data cannot be analyzed for only part of a sample.
- ▶ They cannot be found to determine if they are similar to respondents.
- ▶ **They may have different opinions than respondents.**

http://wps.prenhall.com/chetairasian_edresearch_7/5/1490/381580.cw/index.html

(ch#10 question 5)

Question No: 49 (Marks: 1) - Please choose one

Which of the following advantage differentiates personal interview from mail, internet and telephonic survey?

- ▶ Cheaper
- ▶ Expensive
- ▶ Easier

▶ Inexpensive

(PAGE 69)

As the cost of personal interviews continues to increase, telephone interviews are becoming relatively inexpensive.

Question No: 50 (Marks: 1) - Please choose one

Which one of the following methods offers the lowest degree of geographic flexibility?

- ▶ Mail survey
- ▶ Telephone interview

▶ Door-to-door personal interview

- ▶ Internet survey

Chapter 7

Question No: 51 (Marks: 1) - Please choose one

Which of the following survey research methods is the most expensive?

- ▶ Telephone interview
- ▶ Mail survey

▶ Door-to-door personal interview

- ▶ Mall intercept personal interview

Chapter 7

Question No: 52 (Marks: 1) - Please choose one

When a respondent tells the interviewer that he reads "Best Selling English News Paper" on a daily basis so that he can impress the interviewer, this is an example of:

- ▶ Administrative bias
- ▶ **Interviewer bias**
- ▶ Submission bias
- ▶ Response bias

Question No: 53 (Marks: 1) - Please choose one

All of the following are stages in the selection of a sample EXCEPT:

- ▶ Determine sample size
- ▶ **Analyze data**
- ▶ Conduct fieldwork
- ▶ Select a sampling frame

Question No: 54 (Marks: 1) - Please choose one

A stratified sample in which the number of sampling units drawn from each stratum is in proportion to the population size of that stratum is called a:

- ▶ Balanced stratified sample
- ▶ **Proportional stratified sample**
- ▶ Cluster sampling
- ▶ Convenience sample

If the number of sampling units drawn from each stratum is in proportion to the relative population size of the stratum, the sample is proportionate stratified sampling.

Question No: 55 (Marks: 1) - Please choose one

Assigning males the value of zero and females the value of one in a database to record the gender of the respondents is an example of:

- ▶ **Coding**
- ▶ Editing
- ▶ Verification
- ▶ Test tabulation

<http://www.audience dialogue.net/gloss-data.html>

(HANDOUT PAGE 99)

Question No: 56 (Marks: 1) - Please choose one

Arranging data into a table is called:

- ▶ Analysis
- ▶ Frequency
- ▶ Interpretation
- ▶ **Tabulation**

<http://www.tutorvista.com/math/tabulation-of-data-tutoring>

Question No: 57 (Marks: 1) - Please choose one

A researcher interested in a data matrix that displays the frequency of some combination of possible responses to multiple variables should construct a:

► **Contingency table**

- Regression equation
- Marginal table
- None of the given options

(HANDOUT PAGE 105)

Question No: 58 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- Judgment sample
- **Snowball**
- Convenience sample
- Cluster sample

Page#91

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Data are systematically analyzed.

Data are collected systematically.

Results are generalizable.

Results are used to improve practice.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 5 (Marks: 1) - Please choose one

If a researcher is studying the effect of using laptops in his classroom to ascertain their merit and worth, he is likely conducting which of the following types of research?

Evaluation

Experimental

Applied

Basic

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9865/2525631.cw/index.html

Question No: 6 (Marks: 1) - Please choose one

What is the problem with using strict definitions of important concepts?

They take the focus away from accurate measurement.

They prevent the researcher from assessing alternative ways of viewing a concept.

They prevent a consistent approach being achieved with business research.

They prevent research from being truly objective.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch16/>

Question No: 7 (Marks: 1) - Please choose one

A variable that is presumed to cause a change in another variable is known as:

Discontinuous variable

Dependent variable

Independent variable

Intervening variable

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc2.htm>

Question No: 8 (Marks: 1) - Please choose one

Which of the following is the difference between measures and indicators?

Measures are unambiguous quantities, whereas indicators are devised from common sense understandings.

Indicators have a more direct relationship to the underlying concept than measures.

Measures are intuitively devised and then applied as if they were direct indicators

SUBSCRIBE

AR Lucky Bahi

of a concept.

Indicators are unambiguous quantities, whereas measures are subjective and value laden.

Spring 2010

STA630- Research Methods (Session - 3)

Time: 90 min

Marks: 69

Question No: 1 (Marks: 1) - Please choose one

The part of the action research spiral that differentiates this research methodology from other kinds of research is;

► Looking at multiple sources of data.

SUBSCRIBE

AR Lucky Bahi

► **Taking action based on results.**

- Thinking about or analyzing data in more than one way.
- The kinds of data that are collected.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381555.cw/index.html

Question No: 2 (Marks: 1) - Please choose one

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which of the following type of research?

- Basic
- Evaluation

► **Applied**

- Grounded theory

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9865/2525631.cw/index.html

Question No: 3 (Marks: 1) - Please choose one

Which type of review compares how different theories address an issue?

- Context review
- Integrated review
- Methodological review

► **Theoretical review**

(PAGE 27)

THEORETICAL REVIEWS COMPARE HOW DIFFERENT THEORIES ADDRESS AN ISSUE.

Question No: 4 (Marks: 1) - Please choose one

Which of the following functions is performed by theoretical framework?

- Elaborates the relationship among the variables.
- Explains the logic underlying these relationships.
- Describes the nature, and direction of the relationships.

► **All of the given options.**

(PAGE 30)

Question No: 5 (Marks: 1) - Please choose one

Panel and cohort designs differ in that:

- Cohort studies involve quantitative research, whereas panel studies are qualitative.
- A panel study does not need rules to handle new entrants to households.
- Only a cohort study will suffer from sample attrition.

► **A panel study can distinguish between age effects and cohort effects, but a cohort design cannot.**

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch02/?view=za>

Question No: 6 (Marks: 1) - Please choose one

Which of the following would LEAST likely be a data source for an action research study of "teachers' questioning techniques in social studies classes"?

- Classroom observation
- Student questionnaires
- Videotaping of classes

► **Students' standardized test scores**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 7 (Marks: 1) - Please choose one

Which of the following represents excellent advice for conducting an interview?

- ▶ Listen more and talk less
- ▶ Don't interrupt
- ▶ Don't be judgmental about the interviewee's beliefs or views

▶ All of the given options

[PPT]

Qualitative Research Methods

Question No: 8 (Marks: 1) - Please choose one

Why should a business researcher record and transcribe interviews?

- ▶ It overcomes all possible ethical considerations.
- ▶ The response of participants can be more readily shared with senior management.
- ▶ It allows a more thorough examination of what the interviewee has said.
- ▶ It allows the researcher to demonstrate his/her technical proficiency.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch18/>

Question No: 9 (Marks: 1) - Please choose one

The Pearson product moment correlation is used to demonstrate the relationship between;

▶ Two continuous variables

- ▶ Two rank-ordered variables
- ▶ Variables that are expected to be curvilinearly related
- ▶ Dichotomous variables

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381655.cw/index.html

Question No: 10 (Marks: 1) - Please choose one

The statistic used to determine the relationship between two variables is:

- ▶ Analysis of covariance
- ▶ Chi square
- ▶ Standard deviation

▶ Pearson "r"

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381743.cw/index.html

Question No: 11 (Marks: 1) - Please choose one

Researchers organize data into all of the following, EXCEPT:

- ▶ Field
- ▶ Table
- ▶ Record
- ▶ File

(page 99)

Researchers organize data into fields, records, and files.

Question No: 12 (Marks: 1) - Please choose one

Which of the following is NOT a necessary step in conducting experimental research?

- ▶ Manipulation of an independent variable

AR Lucky Bahi

- ▶ Selection of measuring instruments
 - ▶ Creating a hypothesis stating a causal relationship between variables
 - ▶ **Dividing the sample into subgroups to control for extraneous variables**
- http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381867.cw/index.html

Question No: 13 (Marks: 1) - Please choose one

Testing most likely, negatively affect internal validity when:

- ▶ The information tested is attitudinal in nature
- ▶ **The time between pre- and posttest is short**
- ▶ The instrument is unreliable
- ▶ The participants are very low scorers

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381818.cw/index.html

Question No: 14 (Marks: 1) - Please choose one

Which of the following questions can be answered using content analysis?

- ▶ How do managers behave in the face of employment insecurity?
- ▶ **How do the media report corporate re-branding exercises?**
- ▶ What effect does organizational size have on marketing strategy?
- ▶ What are the most popular leisure activities amongst the over-50s?

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch12/>

Question No: 15 (Marks: 1) - Please choose one

Which one is not the part of non reactive research?

- ▶ Physical traces
- ▶ Archives
- ▶ Observations

▶ **Interviews**

(HANDOUT PAGE 124)

Question No: 16 (Marks: 1) - Please choose one

On which component of his field notes did Mr. Majid focused when he expressed in his notes his thoughts and ideas about what he observed?

- ▶ Description
- ▶ **Reflection**
- ▶ Protocol
- ▶ Formal data

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381345.cw/index.html

Question No: 17 (Marks: 1) - Please choose one

Which of the following is linked with an abstract model of underlying relations or causal mechanism?

- ▶ **Historical comparative research**
- ▶ Social research
- ▶ Action research
- ▶ Experimental research

(HANDOUT PAGE 147)

Question No: 18 (Marks: 1) - Please choose one

Historians organize evidence usually in:

- ▶ Comparative form
- ▶ **Narrative form**
- ▶ Logical form
- ▶ Critical form

(PAGE 150)

HISTORIANS ORGANIZE EVIDENCE AS THEY WRITE WORKS OF HISTORY. THEY OFTEN WRITE *NARRATIVE HISTORY*.

Question No: 19 (Marks: 1) - Please choose one

What is the difference between a focus group and a group interview?

▶ **A focus group is used to analyse group interaction, whereas a group interview is used as a straight forward data collection tool.**

- ▶ A focus group is used only for political research, whereas group interviews are more widely used in the social sciences.
- ▶ A focus group is used at the planning stage of a research project, whereas a group interview is part of the actual data collection.
- ▶ A focus group is used to discuss a wide range of issues, whereas a group interview looks at one specific topic.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch19/>

Question No: 20 (Marks: 1) - Please choose one

In which component of the method section would you find a discussion of validity and reliability?

- ▶ Participants
- ▶ **Instruments**
- ▶ Design
- ▶ Procedures

Question No: 21 (Marks: 1) - Please choose one

Which of the following sampling is least reliable but normally the cheapest and easiest to conduct?

- ▶ Purposive Sampling
- ▶ Snowball Sampling
- ▶ **Convenience Sampling**
- ▶ Quota Sampling

<http://www.authorstream.com/Presentation/umersaif-486982-sample-by-umer-saif/>

SLIDE 11

Question No: 22 (Marks: 1) - Please choose one

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

- ▶ **Convenience Sampling**
- ▶ Quota Sampling
- ▶ Snowball Sampling
- ▶ Purposive Sampling

http://books.google.com.pk/books?id=a_YI3TJQuAC&pg=PA276&lpg=PA276&dq=Which+of+the+following+sampling+is+most+often+used+during+the+exploratory+phase+of+a+research+project+and+is+perhaps+the+best+way+of+

[getting+some+basic+information+quickly+and+efficiently%3F&source=bl&ots=3F-qoMC6Wm&sig=fwCBgAJziEabgf_qfcBL-EQxYzI&hl=en&ei=K-YgTYTKM4Og8QPvx7WuBQ&sa=X&oi=book_result&ct=result&resnum=2&ved=0CBsQ6AEwAQ#v=onepage&q&f=false](#)

Question No: 23 (Marks: 1) - Please choose one

Which of the following is a form of Non-random sampling?

- ▶ Snowball sampling
- ▶ Convenience sampling
- ▶ Quota sampling

▶ All of the given option

<http://www.southalabama.edu/coe/bset/johnson/lectures/lec7.htm>

Nonrandom Sampling Techniques

The other major type of sampling used in quantitative research is nonrandom sampling (i.e., when you do not use one of the random sampling techniques). There are four main types of nonrandom sampling:

- The first type of nonrandom sampling is called convenience sampling
- The second type of nonrandom sampling is called quota sampling
- The third type of nonrandom sampling is called purposive sampling
- The fourth type of nonrandom sampling is called snowball sampling

Question No: 24 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling

▶ Purposive sampling

It is similar to purposive sampling. Here is a list of the different types:

- Maximum variation sampling (purposively selecting a wide range of cases)
 - Homogeneous sample selection (selecting a small and homogeneous case or set of cases for intensive study)
- Extreme-case sampling (identifying the extremes or poles of some characteristic and then selecting cases representing these extremes for examination)
 - Typical-case sampling (selecting what are believed to be average cases)
- Critical-case sampling (selecting what are believed to be particularly important cases)
 - Negative-case sampling (selecting cases that disconfirm the researcher's expectations and generalizations)
- Opportunistic sampling (selecting cases when the opportunity arises)
 - Mixed purposeful sampling (mixing of more than one of the above sampling strategies).

Chapter 9: Sampling in Quantitative, Qualitative, and Mixed Research

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- ▶ Analysis
 - ▶ **Synthesis**
 - ▶ Results
 - ▶ Findings
- (PAGE 148)

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism.

Question No: 26 (Marks: 1) - Please choose one

The easiest way to describe the numerical data of one variable is;

- ▶ **Frequency distribution**
 - ▶ Normal distribution
 - ▶ Poisson distribution
 - ▶ Probability distribution
- (PAGE 104)

THE EASIEST WAY TO DESCRIBE THE NUMERICAL DATA OF ONE VARIABLE IS WITH A FREQUENCY DISTRIBUTION.

Question No: 27 (Marks: 1) - Please choose one

All of the following are ways to show a table in percentages, EXCEPT;

- ▶ **By margins**
 - ▶ By row
 - ▶ By column
 - ▶ For the total
- (PAGE 107)

THERE ARE THREE WAYS TO PERCENTAGE A TABLE: BY ROW, BY COLUMN, AND FOR THE TOTAL.

Question No: 28 (Marks: 1) - Please choose one

Which of the following is True for survey research?

- ▶ Survey research is a subset of experimental research.
- ▶ **Survey research is often used in experimental research.**
- ▶ Survey research is never used in experimental research.
- ▶ Survey research is always used in experimental research.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

Question No: 29 (Marks: 1) - Please choose one

When an interviewer unintentionally and mistakenly checks the wrong response on a checklist during an interview, this is an example of:

- ▶ Social desirability bias
- ▶ **Interviewer error**
- ▶ Interviewer cheating
- ▶ Sponsorship bias

http://books.google.com.pk/books?id=BJil19CAGQwC&pg=PA393&dq=Interviewer+cheating&hl=en&ei=c3YhTazRloGaOvDHZJ0J&sa=X&oi=book_result&ct=result&resnum=4&ved=0CDIQ6AEwAw#v=onepage&q=Interviewer%20cheating&f=false

Question No: 30 (Marks: 1) - Please choose one

When an interviewer asks a respondent: "Why do you shop at Liberty's department store?" this is an example of a:

- ▶ Unstructured question
- ▶ **Structured question**
- ▶ Disguised question
- ▶ Social desirability question

Question No: 31 (Marks: 1) - Please choose one

All of the following are stages in the selection of a sample EXCEPT:

- ▶ Determine sample size
- ▶ **Analyze data**
- ▶ Conduct fieldwork
- ▶ Select a sampling frame

[PPT]

GENERAL ISSUES IN SAMPLING DESIGN AND SAMPLING PROCEDURES

Question No: 32 (Marks: 1) - Please choose one

Codes are rules for _____ data.

- ▶ Classifying
- ▶ Interpreting
- ▶ Recording
- ▶ **All of the given options**

(PAGE 99)

ALTHOUGH CODES ARE GENERALLY CONSIDERED TO BE NUMERICAL SYMBOLS, THEY ARE MORE BROADLY DEFINED AS THE RULES FOR INTERPRETING, CLASSIFYING, AND RECORDING DATA.

Question No: 33 (Marks: 1) - Please choose one

When a competitor introduces a 25% price cut in order to blunt the effect of a test marketing study, this is an example of a:

- ▶ **Maturation effect**
- ▶ Testing effect
- ▶ History effect
- ▶ Cohort effect

Question No: 34 (Marks: 1) - Please choose one

All of the following elements of Observation is/are included in Non Reactive research EXCEPT:

- ▶ Count Behaviors
- ▶ Time Duration
- ▶ External Appearance
- ▶ **Other Records**

(PAGE 133)

SUBSCRIBE

AR Lucky Bahi

Question No: 35 (Marks: 1) - Please choose one

Which of the following element is not included for behavioral observation?

- ▶ Space
- ▶ Direction
- ▶ Frequency
- ▶ **Accretion**

(PAGE 126)

Question No: 36 (Marks: 1) - Please choose one

The study of documents used by writers is a method of _____.

- ▶ In-depth analysis
- ▶ Time series analysis
- ▶ Regression analysis
- ▶ **None of the given options**

(page 129)

Question No: 37 (Marks: 1) - Please choose one

When a manufacturer studies his most successful retailer in depth in order to determine some better ideas for displaying bicycles in its retail stores, this is an example of:

- ▶ An experiment
- ▶ A test market
- ▶ **A case study**
- ▶ Causal research

it is an **in-depth analysis** of a unit which could be an individual person, a couple, a group, or an organization. It is more like a clinical analysis in retrospect; starting from the effect and tracing the reasons back in time. The researcher takes the history of the situation and makes use of any other relevant information about the case to identify the factors leading to the present situation.

Question No: 38 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

- ▶ **Discussion guide**
- ▶ Concept test
- ▶ Case study
- ▶ All of the given options

Question No: 39 (Marks: 1) - Please choose one

Which of the following is a disadvantage of focus groups?

- ▶ Requires objective, sensitive, and effective moderators
- ▶ May not be useful for discussing sensitive topics
- ▶ High cost
- ▶ **All of the given options**

[PPT]

[BRM 8e](#)

Question No: 40 (Marks: 1) - Please choose one

Which section of a report gives a summary of the contents, including the purpose, description of the participants, the results, and any conclusions being offered?

▶ **Methodology**

▶ Introduction

▶ Abstract

▶ Letter of transmittal

(PAGE 159)

Question No: 41 (Marks: 1) - Please choose one

Which of the following characteristic of the scientific method is defined as the confirmation or refutation of the observation through the scientific method by using sensory experience?

▶ Empirical

▶ **Verifiable**

▶ Observable

▶ Cumulative

(PAGE 3)

Scientific method is concerned with the realities that are observable through “sensory experiences.” It generates knowledge which is verifiable by experience or observation

Question No: 42 (Marks: 1) - Please choose one

Basic research can also be called as

▶ Practical research

▶ **Fundamental Research**

▶ Action research

▶ Assessment research

basic research (also called academic research or pure research or fundamental research). Page#8

Question No: 43 (Marks: 1) - Please choose one

Which of the following statement is true about the peer review?

▶ Name of the article's author is not mentioned to avoid biases

▶ It should be accepted

▶ **It should be published in a well known journal**

▶ Name of the author should be mentioned for the further correspondence

Question No: 44 (Marks: 1) - Please choose one

After making the inventory of the relevant variables the next step is to:

▶ Provide logic for the relationship

▶ Make inventory of the propositions

▶ **Identify the relationships between the variables**

▶ Deduce hypothesis

Question No: 45 (Marks: 1) - Please choose one

Theoretical framework helps to:

▶ Deduce the hypothesis

▶ Reject the hypothesis

▶ **Test the hypothesis**

▶ Accept the hypothesis

From the theoretical framework, then, testable hypotheses can be developed to examine whether theory formulated is valid or not

Question No: 46 (Marks: 1) - Please choose one

AR Lucky Term

Research Methods STA630

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following is NOT a method of narrowing a topic?

- ▶ Literature review
- ▶ Specifying the context
- ▶ Talk to the experts
- ▶ **Pilot testing**

(page 33)

Question No: 47 (Marks: 1) - Please choose one

The working definition of the variables is called:

- ▶ Theoretical definition
- ▶ Dictionary definition
- ▶ **Operational definition**
- ▶ Fundamental definition

Operational definition is also called a working definition

Question No: 48 (Marks: 1) - Please choose one

Which of the following characteristic is reflected by an interval scale?

- ▶ The distance between each participant's individual scores.
- ▶ Arithmetic operations can be performed after data collection
- ▶ Classify the data into exclusive categories
- ▶ **All of the given options**

Solved By

Asma Saeed, Fariha Maqbool

Mehwish, Anam Aslam, Ahmed, Ramiz and Kamran Haider

FINAL TERM EXAMINATION

Spring 2009

STA630- Research Methods (Session - 2)

Marks: 80

Question No: 1 (Marks: 1) - Please choose one

Which of the following is the basis of the Scientific Method? To test hypothesis in conditions that is conducive to its success. To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypothesis and if they are disproved, they should be abandoned completely.

<http://www.answers.com/topic/scientific-method>

<http://mansci.journal.informs.org/cgi/content/abstract/12/8/C-135>

Question No: 2 (Marks: 1) - Please choose one

An inductive logic is one that:

AR Lucky Term

sem0000000000000000

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Involves testing as explicitly defined hypothesis.
Does not allow for findings to feed back into the body of knowledge.
Uses quantitative methods whenever possible.

Allows theory to emerge out of the data.

Rationale: The usual application of inductive theory, however, is to allow theory to emerge from our findings. We find an interesting question, we gather data on it and we 'theorise' from our findings. It may be that these 'theories' are, in reality, simply 'interesting insights' rather than 'grand theories' but they can be valuable for all that.

Question No: 3 (Marks: 1) - Please choose one

Which of the following is not a concept?

Leadership.

Total Quality Management.

Human Resource Management.

Intelligence Quotient (IQ).

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Rationale: Concepts are the building blocks of theory, each of which represents a label given to a common element of the social world. IQ is a measure of the concept of intelligence, it is not a concept in itself.

Question No: 4 (Marks: 1) - Please choose one

Which of the following is the definition of an independent variable?

A variable that is manipulated or controlled by the experimenter.

A response variable.

The behavioural measure made by the experimenter.

A dependent variable that is controlled by the experimenter.

<http://www.umpi.maine.edu/~stump/psysci.html>

Question No: 5 (Marks: 1) - Please choose one

The cause variable or the one that identifies forces or conditions that act on something else is known as:

Moderating variable

Independent variable

Categorical variable

Dependent variable

Page 19

The cause variable, or the one that identifies forces or conditions that act on something else, is the *independent variable*.

Question No: 6 (Marks: 1) - Please choose one

A measure is reliable if it provides consistent_____.

Hypothesis

Results

Procedure

Sensitivity

http://www.oppapers.com/search_results.php?action=search&query=A+measure+is+reliable+if+it+provides+consistent

Question No: 7 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

The measure apparently reflects the content of the concept in question. **A criterion is employed on which cases are known to differ.**

A future criterion is employed on which cases are known to differ.

A measure is gauged by comparing it to measures of the same concept developed through other methods.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Question No: 8 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

The type of data collected. The data-collection technique.

The level of manipulation used to elicit data collection.

All of the given options.

Question No: 9 (Marks: 1) - Please choose one

Cross cultural studies are an example of:

Comparative design.

Longitudinal design.

Experimental design.

Case study design.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch02/>

The comparative design typically studies two contrasting cases, so that a better understanding of social phenomena can be formed. Clearly, cross-cultural studies are a good example, therefore, of comparative design in action.

Question No: 10 (Marks: 1) - Please choose one

When constructing a questionnaire, there are few principles to which you should adhere. Which of the following is NOT one of those principles?

Avoid using "leading" or "loaded" questions

Avoid double-barreled questions

Avoid ambiguity and confusion

Avoid arranging questions in a sequence

Page 77_78

Question No: 11 (Marks: 1) - Please choose one

AR Lucky Term

semester 3 objectives 2020

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following statements is true about closed ended questions and open ended questions?

A closed ended question means that the chances of unreliable post-coding is small, whereas an open ended question means that there is a possibility of data processing error.

A closed ended question allows for the researchers terminology to be used, whereas an open ended question allows the respondent to use terms they are familiar with. A closed ended question allows for easy processing, whereas coding an open ended question can be very time consuming.

A closed ended question has many advantages over open ended question.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/Q#2>

Question No: 12 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer. Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are to be identified.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/>

Q#1

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual.

Question No: 13 (Marks: 1) - Please choose one

Which of the following represents excellent advice for conducting an interview? Listen more and talk less

Don't interrupt

Don't be judgmental about the interviewee's beliefs or views

All of the given options

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381345.cw/index.html Q#17

Question No: 14 (Marks: 1) - Please choose one

Smaller sample sizes can be used in correlation research when; The researcher expects no relationship between the variables. There are only two variables to correlate.

The instruments used to measure the variables have low validity and reliability.

The instruments used to measure the variables have high validity and reliability.

Which of the following could NOT be a cause of variation in high school achievement?

- Reading ability
- Parental involvement
- Teacher expectations
- College attendance**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381743.cw/index.html Q#11

Question No: 17 (Marks: 1) - Please choose one

The statistic used to determine the relationship between two variables is: Analysis of covariance
Chi square
Standard deviation

Pearson "r"

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381743.cw/index.html Q#17

Ref: The correlation between two variables reflects the degree to which the variables are related. The most common measure of correlation is the Pearson Product Moment Correlation (called Pearson's correlation for short).

Question No: 18 (Marks: 1) - Please choose one

A researcher studies three groups of students who vary in level of self-confidence. She finds that students with higher self-confidence are more popular among their peers. The most plausible conclusion is that:

- We do not know what causes self-confidence or popularity.
- Self-confidence causes popularity.
- Popularity causes self-confidence.

Self-confidence and popularity are related.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381743.cw/index.html

Q#7

Question No: 19 (Marks: 1) - Please choose one

Which of the following is true about validity?

A study can be internally valid but not externally valid. A

study can be externally valid but not internally valid. A

study must be both internally and externally valid.

The internal and external validity of studies are not related in any way.

<http://www.docstoc.com/docs/14330216/Bias-in-Clinical-Research>

Slide#3

Question No: 20 (Marks: 1) - Please choose one

Testing most likely, negatively affect internal validity when: The information tested is attitudinal in nature

The time between pre- and posttest is short

The instrument is unreliable

The participants are very low scorers

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381818.cw/index.html Q#10

Question No: 21 (Marks: 1) - Please choose one

Ecological validity refers to:

The participants to whom results generalize

The instruments used to measure the independent and dependent variables The internal validity of a study

The context to which results generalize

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9869/2526465.cw/index.html

How the Procedure for data processing and analysis can be evaluated in Pilot Testing ?

Make dummy tables

Work output of each member

Length of Questionnaire

Format Tools

Ref. Page No.82:

5. Procedure for data processing and analysis can be evaluated:

• **Make dummy tables.** See how can we tabulate the data and use the appropriate statistics for purposes of interpretations.

Question No: 25 (Marks: 1) - Please choose one

Which of the following is the complete group of specific population elements relevant to the research project?

Element

Target Population

Sampling Frame

Sampling Unit

Ref: Page No.88: Out of the conceptual variations what exactly the researcher wants to focus on. This may also be called a target population. **Target population is the complete group of specific population elements relevant to the research project.** Target population may also be called *survey population* i.e. that aggregation of elements from which the survey sample is actually selected.

Question No: 26 (Marks: 1) - Please choose one

Which of the following is the summary description of a given variable in a population?Statistic

Observation Unit

Parameter

Sampling Unit

Ref. Page No. 89: A **parameter** is the summary description of a given variable in a population. The mean income of all families in a city and the age distribution of the city's population are parameters.

Question No: 27 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

Parameter

Sampling Unit

Observation Unit

Statistic

Ref. Page No.89: A **sampling unit** is that element or set of elements considered for selection in some stage of sampling. Sampling may be done in single stage or in multiple stages.

Question No: 28 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

Purposive Sampling

Snowball Sampling

Convenience Sampling

Quota Sampling

Ref. Page No.90: Convenience sampling (also called *haphazard or accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in the middle of the day do not represent everyone (homemakers, people in the rural areas).

Question No: 29 (Marks: 1) - Please choose one

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

Convenience Sampling

Quota Sampling

Snowball Sampling

Purposive Sampling

Ref .Page No.90: Convenience sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently. Often such sample is taken to test ideas or even to gain ideas about a subject of interest.

Question No: 30 (Marks: 1) - Please choose one

Which of the following sampling method is the best way to select a group of people for a study if you are interested in making statements about the larger population?

Convenience sampling

Quota sampling

Purposive sampling

Random sampling

Question No: 1 (Marks: 1) - Please choose one

Research method is applicable in all of the following fields, Except.

- ▶ Health care
- ▶ Business
- ▶ Government offices
- ▶ Religion

Page #1

Educators, administrators, government officials, business leaders, human service providers, health care professionals, regularly use social research findings in their jobs.

Question No: 2 (Marks: 1) - Please choose one

Which of the following statements is false about variables?

▶ Discrete variables allow measurement of an infinite number of fractions of units of measurement.

▶ Discrete variables can only have whole number values.

▶ Continuous numbers can only have whole number values.

▶ Continuous measures do not allow for scores that fall between two number values.

REF:

http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq_03/mcq_03.htm

Question No: 3 (Marks: 1) - Please choose one

A variable that is presumed to cause a change in another variable is known as:

- ▶ Discontinuous variable
- ▶ Dependent variable
- ▶ Independent variable
- ▶ Intervening variable

Page 19

Question No: 4 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

- ▶ A quantitative study.
- ▶ A tentative prediction of the results of the research.

AR Lucky Term

sempross 33/06/2019 15:30:00

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ A qualitative research design.
- ▶ The operational definition of the study.

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9865/2525651.cw/content/index.html

Q#24

Question No: 5 (Marks: 1) - Please choose one

Which of the following is the BEST hypothesis?

- ▶ Students taking formative quizzes will perform better on exams at the end of the chapter than students not taking these quizzes.
- ▶ Taller students will have higher test scores than shorter students.
- ▶ Students taught in a cooperative group setting should do better than students in a traditional class.
- ▶ Students using laptops will do well.

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9865/2525651.cw/content/index.html

Q#25

Question No: 6 (Marks: 1) - Please choose one

Which of the following is the characteristic/s of Hypotheses in qualitative research studies?

- ▶ Hypotheses are very specific and stated prior to beginning the study.
- ▶ Hypotheses are never used.
- ▶ Hypotheses are often generated as the data are collected, interpreted, and analyzed.
- ▶ Hypotheses are always stated after the research study has been completed.

REF:

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc3.htm>

Q#24

Question No: 7 (Marks: 1) - Please choose one

A formal statement of the research question or “purpose of research study” generally:

- ▶ Is made prior to the literature review
- ▶ Is made after the literature review
- ▶ Will help guide the research process
- ▶ Is made before or after literature review

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc3.htm>

Q#18

Question No: 8 (Marks: 1) - Please choose one

Which of the following refers to "A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review"?

- ▶ Integrative review

- ▶ Theoretical review
- ▶ Self-study review
- ▶ Historical review

Page 26

1. Self-study reviews *increase the reader's confidence.* A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program. In addition to giving others confidence in a reviewer's command of field, it has the side benefit of building the reviewer's self confidence.

Question No: 9 (Marks: 1) - Please choose one

Quantitative research has been criticised because:

- ▶ The reliance on instruments and procedures makes it high in ecological validity.
- ▶ The measurement process suggests a spurious and artificial sense of accuracy.
- ▶ It underestimates the similarities between objects in the natural and social worlds.
- ▶ It has no validity.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/>

Q#8

Question No: 10 (Marks: 1) - Please choose one

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

- ▶ Are easily calculated.
- ▶ Require only one administration of a test.
- ▶ Are more accurate than all other types of estimates.
- ▶ Are usually higher.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381232.cw/index.html

Q#5

Question No: 11 (Marks: 1) - Please choose one

Which of the following functions is performed by the Nominal scale?

- ▶ Categorize
- ▶ Distance
- ▶ Order
- ▶ Unique origin

Page 53

Question No: 12 (Marks: 1) - Please choose one

Categorical measures are forms of measurement classified as;

- ▶ Measures that reflect quantitative differences.
- ▶ Measures that reflect qualitative differences.
- ▶ Measures that do not require mutual exclusivity or exhaustiveness when devising a measuring system.
- ▶ Rationale measures.

http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq_03/mcq_03.htm

Q#2

Question No: 13 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

- ▶ The measure apparently reflects the content of the concept in question.
- ▶ A criterion is employed on which cases are known to differ.
- ▶ A future criterion is employed on which cases are known to differ.
- ▶ A measure is gauged by comparing it to measures of the same concept developed through other methods.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Q#4

Question No: 14 (Marks: 1) - Please choose one

If a measure is consistent over multiple occasions, it has:

- ▶ Inter-rater reliability
- ▶ Construct validity
- ▶ Internal validity
- ▶ Test-retest reliability

Page#57

Test-Retest Reliability

Used to assess the consistency of a measure from one time to another.

Test-Retest Reliability

■ Procedure

Measure the same individuals at two points in time and then calculate the correlation coefficient between the first and second test scores

To test the reliability of an intelligence test, the test is given to a group of people on one day and again a week later

Question No: 15 (Marks: 1) - Please choose one

The validity of a measure refers to which of the following?

- ▶ Consistency of the measurement
- ▶ Particular type of construct specification
- ▶ Comprehensiveness with which it measures the construct
- ▶ Accuracy with which it measures the construct

http://books.google.com/books?id=osJ83m1x1cUC&pg=PA138&dq=validity+of+a+measure+refers&hl=en&ei=KH40Td3bFdDO4gbpzMzGDg&sa=X&oi=book_result&ct=result&resnum=5&ved=0CDcO6AEwBA#v=onepage&q=validity%20of%20a%20measure%20refers&f=false

Question No: 16 (Marks: 1) - Please choose one

In which of the following types of interview, questions are already prepared?

- ▶ Telephonic interview
- ▶ Personal interview
- ▶ Unstructured interview
- ▶ Structured interview

Page 83

SUBSCRIBE

AR Lucky Bahi

Information is obtained in a structured conversation in which the interviewer asks prearranged questions and records answers, and the respondent answers.

Question No: 17 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening question.
- ▶ Respondents may be unwilling to reveal information as they believe they are likely to be identified.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/>

Q#1

Question No: 18 (Marks: 1) - Please choose one

Which of the following statements might assist response rates?

- ▶ Please photocopy the questionnaire five times and pass on to your work colleagues.
- ▶ Please make sure that the questionnaire is completed with a fountain pen.
- ▶ Please read the attached journal article on the ontological foundations of positivism prior to completing the questionnaire.
- ▶ Please put the completed questionnaire in the enclosed stamped addressed envelope and place in the mail out tray.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch09/>

Q#3

Question No: 19 (Marks: 1) - Please choose one

After you locate a source, you should write down all details of the reference, except;

- ▶ Volumes
- ▶ Full names of the authors
- ▶ Titles
- ▶ Price

Page 29

After you locate a source, you should write down all details of the reference (full names of the authors, titles, volumes, issue, pages)

Question No: 20 (Marks: 1) - Please choose one

The small scale trial run of a particular item is called_____.

- ▶ Test Run
- ▶ Pilot test
- ▶ Post hoc test
- ▶ T test

Page#80

Pilot testing also called pre-testing means small scale trial run of a particular component; here we are referring to pilot testing of the questionnaire.

Question No: 21 (Marks: 1) - Please choose one

Which of the following provides insight into the complexity of using interviews?

► Potential influence of gender or cultural differences between interviewer and interviewee

► The accuracy of the interviewee's responses

► The different semantic meanings of the language being used

► **Accuracy, influences and language used**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381400.cw/index.html

Question No: 22 (Marks: 1) - Please choose one

Ms. K sampled the brightest students in the fifth grade at her school. She observed them in their classes at school and as they interacted with teachers and students when on campus. Her observation can be characterized as which of the following?

► Historical research

► Typical case sampling

► Totally structured

► **Naturalistic**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html

Q#6

Question No: 23 (Marks: 1) - Please choose one

Which of the following could indicate a statistically significant correlation?

► 0.12

► 0.34

► -0.45

► **Either .34 or -.45**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381653.cw/index.html

Q#8

Question No: 24 (Marks: 1) - Please choose one

Which of the following involves getting an initial sense of the data by considering fieldnotes, transcripts, or observer comments?

► Data management

► **Reading and memoing**

► Describing the content and participants

► Classifying and interpreting

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381473.cw/index.html

Q#6

Question No: 25 (Marks: 1) - Please choose one

Which of the following is NOT a strategy that can guide data interpretation?

► Pay attention to your topic or research focus as it will help guide your selection of important parts of your data.

► Examine categories with large amounts of data as they are likely identifying important concepts.

► Examine existing studies related to your topic to identify potential interpretative frameworks.

► **Pay attention to your preconceived notions of the meaning of the data as it reflects a "grounded" perspective.**

Q#3

Question No: 26 (Marks: 1) - Please choose one

A researcher believes that the effects of a treatment will be different for males and females. Which one is the best method to test this possible interaction?

- ▶ Single-subject design
- ▶ Factorial design
- ▶ Time-series design
- ▶ Quasi-experimental design

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Q#17

Question No: 27 (Marks: 1) - Please choose one

The best single-subject design to use, when it would be unethical to discontinue treatment indefinitely, would likely be:

- ▶ A-B-A-B
- ▶ A-B
- ▶ A-B-A
- ▶ Quasi-experimental

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Q#19

Question No: 28 (Marks: 1) - Please choose one

Which term technically describes a situation in which an observer's work in a first-grade classroom disrupts the normal routines due to the curiosity of the students?

- ▶ Observer effect
- ▶ Participant effect
- ▶ Nonparticipant bias
- ▶ Observer bias

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html

Q#19

Question No: 29 (Marks: 1) - Please choose one

If the researcher promises anonymity to research participants, what can he **not** use?

- ▶ Questionnaires.
- ▶ Participant observation
- ▶ Self-report research
- ▶ Cross-sectional research

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

Q#18

Question No: 30 (Marks: 1) - Please choose one

Which component of a research report contains information about the topic studied, literature review, hypotheses, participants, instruments, procedures, results, and discussion?

- ▶ Preliminary pages
- ▶ Main body
- ▶ Method

► Discussion

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9872/2527359.cw/index.html

Q#3

Question No: 31 (Marks: 1) - Please choose one

Which of the following represents the correct order for five main sections of adissertation?

- Conclusion, Introduction, Methods, Literature Review, Results.
- Methods, Results, Conclusion, Literature Review, Introduction.
- Literature Review, Results, Methods, Introduction, Conclusion.
- Introduction, Literature Review, Methods, Results, Conclusion.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch03/>

Q#10

Question No: 32 (Marks: 1) - Please choose one

A focus group session is ideally for;

- 1 hour
- 1 and half hour
- 2 hours
- More than 2 hours

Page#155

For duration, a focus group session typically lasts up to an hour and a half.

Question No: 33 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

- Replication pattern
- Specification pattern
- Suppressor variable pattern
- Negative linear relationship

Page#110

The **replication pattern** is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable. It means that the control variable has no effect.

Question No: 34 (Marks: 1) - Please choose one

Which of the following is not a way to manipulate an independent variable?

- Random technique
- Amount technique
- Type technique
- Presence technique

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm>

Q#8

Question No: 35 (Marks: 1) - Please choose one

Which of the following could be used for randomly assigning participants to groups in an experimental study?

- ▶ Split-half
- ▶ Even versus Odd numbers
- ▶ Use a list of random numbers or a computer randomization program
- ▶ Let the researcher decide which group will be the best

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm>

Q#15

Question No: 36 (Marks: 1) - Please choose one

Which of the following designs does an excellent job of controlling for rival hypotheses that threaten the internal validity of an experiment?

- ▶ Posttest-only design with nonequivalent groups
- ▶ Posttest-only control-group design
- ▶ Pretest-posttest control-group design
- ▶ Posttest-only design without nonequivalent groups

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm>

Q#18

Question No: 37 (Marks: 1) - Please choose one

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following?

- ▶ Dependent variable
- ▶ Extraneous variable
- ▶ Independent variable
- ▶ Confounding variable

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm>

Q#23

Handouts page#112

Question No: 38 (Marks: 1) - Please choose one

What is the particular advantage of secondary analysis to business students?

- ▶ It is less challenging intellectually
- ▶ It guarantees positive results
- ▶ It is less expensive and less time consuming than primary analysis
- ▶ It enables students to gain experience of the workplace

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#2

Question No: 39 (Marks: 1) - Please choose one

Why do many data sets used for secondary analysis, contain high quality data?

- ▶ Because the data is presented attractively
- ▶ Because rigorous sampling procedures are commonly used
- ▶ Because the data sets focus on specific regions and issues
- ▶ Because the data is kept confidential

SUBSCRIBE

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#3

Question No: 40 (Marks: 1) - Please choose one

Which of the following types of analysis can be done using secondary analysis?

- ▶ The analysis of specific subgroups
- ▶ Longitudinal analysis
- ▶ Cross-cultural analysis
- ▶ All of the given options

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#4

Question No: 41 (Marks: 1) - Please choose one

When an interviewer unintentionally and mistakenly checks the wrong response on a checklist during an interview, this is an example of:

- ▶ Social desirability bias
- ▶ Interviewer error
- ▶ Interviewer cheating
- ▶ Sponsorship bias

http://books.google.com.pk/books?id=BJil19CAGQwC&pg=PA393&dq=Interviewer+cheating&hl=en&ei=c3YhTazRIoGaOvDHZJ0J&sa=X&oi=book_result&ct=result&resnu m=4&ved=0CDIQ6AEwAw#v=onepage&q=Interviewer%20cheating&f=false

Question No: 42 (Marks: 1) - Please choose one

When an interviewer asks the respondent to state which of six salary categories represents his gross income the previous year, this is an example of a:

- ▶ Social desirability question
- ▶ Disguised question
- ▶ Structured question
- ▶ Unstructured question

Question No: 43 (Marks: 1) - Please choose one

"Can you tell me more about what you mean by that?" is an example of:

- ▶ A mall intercept
- ▶ A probe
- ▶ A self-administered questionnaire
- ▶ All of the given options

Page 84

Question No: 44 (Marks: 1) - Please choose one

Interviews with respondents that take place in shopping malls are called:

- ▶ Interviewer influence
- ▶ Mixed-mode surveys
- ▶ Protesting
- ▶ **Mall intercept interviews**

Page 66

Personal interviews conducted in shopping malls are referred to as mall intercept interviews.

Question No: 45 (Marks: 1) - Please choose one

A questionnaire that collects information that is valid is said to be:

- ▶ Reliable
- ▶ Relevant
- ▶ Balanced
- ▶ **Accurate**

Question No: 46 (Marks: 1) - Please choose one

All of the following are guidelines that help prevent the most common mistakes in designing questions **EXCEPT**:

- ▶ Avoid complexity
- ▶ **Avoid personal questions**
- ▶ Avoid leading questions
- ▶ Avoid double-barreled questions

Page #78

Question No: 47 (Marks: 1) - Please choose one

When a respondent in a personal interview is asked questions about shopping at a specific department store in the shopping mall, and then is asked general questions about shopping at that mall, what type of mistake has been made in questionnaire design?

- ▶ **Double-barreled effect**
- ▶ Filter effect
- ▶ Loaded effect
- ▶ Order bias

Page 78

Question No: 48 (Marks: 1) - Please choose one

Which of the following is a non probability sampling technique in which an experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member?

- ▶ Subjective sample
- ▶ Stratified sample
- ▶ **Judgment sample**
- ▶ Cluster sample

Judgment Sampling

- Also called purposive sampling
- An experienced individual selects the

sample based on his or her judgment
about some appropriate characteristics
required of the sample member

<http://cvlearn.com/Documents/Sample%20Designs%20and%20Sampling%20Procedures.pdf>

Question No: 49 (Marks: 1) - Please choose one

In which type of sampling is a sub sample drawn using simple random sampling within each stratum?

- ▶ Cluster sampling
- ▶ Stratified sampling
- ▶ Systematic sampling
- ▶ Convenience sampling

Page#94

Hence in stratified random sampling a sub sample is drawn utilizing simple random sampling within each stratum. (Randomization is not done for quota sampling).

Question No: 50 (Marks: 1) - Please choose one

When a field interviewer records an impossible answer (e.g. birth date: 1850), this means that the data need to be:

- ▶ Coded
- ▶ Deleted
- ▶ Edited
- ▶ None of the given options

Page#97

Editing

Occasionally, a fieldworker makes a mistake and records an improbable answer (e.g., birth year: 1843) or interviews an ineligible respondent (e.g., someone too young to qualify).

Question No: 51 (Marks: 1) - Please choose one

All of the following are software packages that can be used for data analysis **EXCEPT**:

- ▶ SPSS
- ▶ SAS
- ▶ Excel
- ▶ Word

<http://www.stattutorials.com/>

Question No: 52 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- ▶ Judgment sample
- ▶ Snowball

- ▶ Convenience sample
- ▶ Cluster sample

Page#91

And also here is link

[http://wiki.answers.com/Q/You are in charge of promoting a new flavor of toothpaste yet to be produced in a toothpaste manufacturing unit Which sampling techniques will you use to get the required data from a population](http://wiki.answers.com/Q/You_are_in_charge_of_promoting_a_new_flavor_of_toothpaste_yet_to_be_produced_in_a_toothpaste_manufacturing_unit_Which_sampling_techniques_will_you_use_to_get_the_required_data_from_a_population)

Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

- ▶ Cluster sample
- ▶ Convenience sample
- ▶ Multistage area sample
- ▶ Systematic sample

Page#90

Question No: 54 (Marks: 1) - Please choose one

In a typical line graph, the _____ variable is shown on the vertical y-axis and the _____ variable is shown on the horizontal x-axis.

- ▶ Dependent; independent
- ▶ Ratio; nominal
- ▶ Independent; dependent
- ▶ Primary; secondary

http://books.google.com.pk/books?id=ifLei-KbC_cC&pg=PA77&lpg=PA77&dq=In+a+typical+line+graph+independent+variable+is+shown+on+the+vertical+y-axis&source=bl&ots=nCL5LJbF3b&sig=2HUGkg9kdwDpKbOXXK6uNi-Miymk&hl=en&ei=WBEiTcLZM4_zsgbbna3WAg&sa=X&oi=book_result&ct=result&resnum=7&ved=0CEIQ6AEwBg#v=onepage&q=Line%20graphs&f=false

Question No: 55 (Marks: 1) - Please choose one

Which of the following means that there is an alternative explanation beyond the experimental variables for any observed differences in the dependent variables?

- ▶ Confound
- ▶ Interaction
- ▶ Randomization

- ▶ Repeated measures

Page #112

Question No: 56 (Marks: 1) - Please choose one

Which experimental design has the following symbols: O1 X O2?

- ▶ Solomon four-group design
- ▶ Static group design
- ▶ One-group pretest-posttest design
- ▶ None of the given options

Page#118

Question No: 57 (Marks: 1) - Please choose one

Which of the following is critical when conducting experimental research because it allows researchers to return subjects to normal?

- ▶ Manipulation check
- ▶ Cohort analysis
- ▶ Debriefing
- ▶ Deception

Question No: 58 (Marks: 1) - Please choose one

All of the following elements of Observation is/are included in Non Reactive research EXCEPT:

- ▶ Count Behaviors
- ▶ Time Duration
- ▶ External Appearance
- ▶ Other Records

Page#124

Question No: 59 (Marks: 1) - Please choose one

Which of the following is an advantage of focus group interviews?

- ▶ Provide multiple perspectives
- ▶ Low degree of scrutiny
- ▶ Inexpensive
- ▶ Easy to use for sensitive topics

Page#156

The primary advantage of focus groups is its ability to quickly and inexpensively grasp the core issues of the topic.

<http://www.webcredible.co.uk/user-friendly-resources/web-usability/focus-groups.shtml>

Question No: 60 (Marks: 1) - Please choose one

Which of the following is the ideal size of a focus group?

- ▶ 1-2 participants
- ▶ 3-5 participants

SUBSCRIBE

AR Lucky Bahi

- ▶ 6-12 participants
- ▶ 12-20 participants

Page#152

A focus group discussion is a group discussion of 6-12 persons guided by a facilitator, during which group members talk freely and spontaneously about a certain topic.

Question No: 61 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focusgroup moderator is called a:

- ▶ **Discussion guide**
- ▶ Concept test
- ▶ Case study
- ▶ All of the given options

<http://www.answers.com/topic/focus-group>

A focus group is a marketing research tool in which a small group of people (typically eight to ten individuals) engages in a roundtable discussion of selected topics of interest in an informal setting. The focus group discussion is typically directed by a moderator who guides the discussion in order to obtain the group's opinions about or reactions to specific products or marketing-oriented issues, known as test concepts.

Question No: 62 (Marks: 1) - Please choose one

In a prepared report, which of the following comes first?

- ▶ **Title fly page**
- ▶ Executive summary
- ▶ Table of contents
- ▶ Title page

Page#159

Question No: 63 (Marks: 1) - Please choose one

In a prepared report, what should follow the discussion section?

- ▶ Tables
- ▶ Title page
- ▶ **References**
- ▶ Abstract

Page#160

Question No: 64 (Marks: 1) - Please choose one

Constructing a detailed moderator's outline for use during the focus group interviews involves extensive discussions among the _____, _____, and _____.

- ▶ Researcher; moderator; and respondents
- ▶ **Researcher; client; moderator**
- ▶ Researcher; client; respondent
- ▶ Client; respondent; moderator

Question No: 1 (Marks: 1) - Please choose one

An inductive logic is one that:

- ▶ Involves testing as explicitly defined hypothesis.
- ▶ Does not allow for findings to feed back into the body of knowledge.
- ▶ Uses quantitative methods whenever possible.
- ▶ **Allows theory to emerge out of the data.**

Question No: 2 (Marks: 1) - Please choose one

Which of the following research questions is BEST answered using action research?

- ▶ **How can I improve the interaction of students of different ethnicity in my class?**
- ▶ What factors influence student interaction in multiethnic classes?
- ▶ Is there a difference between male and female acceptance of others in multiethnic classes?
- ▶ How do students from Asian countries adjust to classroom practices in U.S. schools?

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 3 (Marks: 1) - Please choose one

Which of the following is characteristic of action research?

- ▶ Variables are tightly controlled.
- ▶ Results are generalizable.
- ▶ Results demonstrate cause-and-effect relationships.
- ▶ **Data are usually qualitative.**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 4 (Marks: 1) ☐ <http://vustudents.ning.com> - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

- ▶ The level of manipulation used to elicit data collection.
- ▶ The data-collection technique.
- ▶ The type of data collected.
- ▶ **Type, technique and manipulation of data collection.**

Question No: 5 (Marks: 1) - Please choose one

Which of the following is NOT a drawback to free response items?

- ▶ Results from free response items take longer to analyze.
- ▶ Many participants tend not to answer free response items.
- ▶ Free response items allow participants to add information that was not directly requested.

▶ **Many participants tend to be less truthful in free response items.**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

Question No: 6 (Marks: 1) - Please choose one

After you locate a source, you should write down all details of the reference, except;

- ▶ Volumes
- ▶ Full names of the authors
- ▶ Titles
- ▶ **Price**

pg29

What to Record

After you locate a source, you should write down all details of the reference (full names of the authors, titles, volumes, issue, pages)

Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

- ▶ How many workers are employed at this plant?
- ▶ What is your attitude towards the management at this plant?
- ▶ **Do you always cast your vote in trade union elections?**
- ▶ Are you aware of the main features of the European Union Directive for informing and consulting employees?

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/>

Question No: 8 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening question.
- ▶ **Respondents may be unwilling to reveal information as they believe they are likely to be identified.**

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/>

Question No: 9 (Marks: 1) - Please choose one

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

- ▶ What role to adopt while interviewing male managers?
- ▶ How many female employees should be interviewed for a representative sample?

- ▶ How to overcome the issue of false consciousness?
- ▶ What data to use while publishing findings?

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch18/>

Q#9

Question No: 10 (Marks: 1) - Please choose one

Which of the following is NOT characteristic of qualitative data?

- ▶ Rich descriptions
- ▶ Concise
- ▶ Voluminous
- ▶ Unorganized

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9871/2527149.cw/content/index.html

Question No: 11 (Marks: 1) - Please choose one

Why is describing the context equally, as important aspect of qualitative data analysis as describing the participants?

- ▶ Descriptions of context are more objective than descriptions of participants.
- ▶ Descriptions of context are based on facts, not perceptions.

▶ Participants' behavior cannot be separated from the context in which it occurs.

- ▶ Participants are the context.

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9871/2527206.cw/index.html

Q#4

Question No: 12 (Marks: 1) - Please choose one

Which one is not the part of non reactive research?

- ▶ Physical traces
- ▶ Archives
- ▶ Observations
- ▶ Interviews

Page#124

Question No: 13 (Marks: 1) - Please choose one

The information gained by someone other than researcher conducting the study is called

- ▶ Primary data
- ▶ Reliable data
- ▶ Valid data
- ▶ Secondary data

page#131

Secondary data refer to information gathered by someone other than the researcher conducting the present study.

Question No: 14 (Marks: 1) - Please choose one

Which of the following is **not** an example of historical comparative research?

- ▶ Social Forms

SUBSCRIBE

AR Lucky Bahi

- ▶ Economic Forms
- ▶ Civil Wars
- ▶ Turnover

Page#143

Question No: 15 (Marks: 1) - Please choose one

Which of the following would you recommend to a graduate student to ensure the quality of his research report?

- ▶ Write a detailed explanation of the methods used to investigate the problem.
- ▶ Explicitly state underlying assumptions related to the topic.
- ▶ Acknowledge the limitations of generalizability while assisting the reader in understanding the transferability of the findings.

- ▶ Detailed method, assumptions and limitation.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381491.cw/index.html

Q#2

Question No: 16 (Marks: 1) - Please choose one

In which of the following Tests, we usually go for personal interviewing to test the questionnaire?

- ▶ Test Run
- ▶ Pilot Test
- ▶ Post Hoc Test
- ▶ T- Test

Page#80

Question No: 17 (Marks: 1) - Please choose one

In which of the following Tests, we should come to know, does a questionnaire look like an integrated unit?

- ▶ Test Run
- ▶ Pilot Test
- ▶ Post Hoc Test
- ▶ T- Test

Question No: 18 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

- ▶ Parameter
- ▶ Sampling Unit
- ▶ Observation Unit
- ▶ Statistic

page#89

A sampling unit is that element or set of elements considered for selection in some stage of sampling.

Question No: 19 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

- ▶ Purposive Sampling
- ▶ Snowball Sampling
- ▶ Convenience Sampling
- ▶ Quota Sampling

Page#90

Question No: 20 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling
- ▶ Purposive sampling

Sampling in qualitative research is similar to which type of sampling in quantitative research?

It is similar to purposive sampling.

http://www.google.com.pk/#hl=en&biw=800&bih=411&q=Sampling+in+qualitative+research+is+similar+to+which+type+of+sampling+in+quantitative+research%3F++++++%E2%96%BA+Simple+random+sampling++++++%E2%96%BA+Sy+stematic+sampling++++++%E2%96%BA+Quota+sampling++++++%E2%96%BA+Purposive+sampling&aq=f&aql=&oq=&gs_rfai=&fp=c4ef4ebbe35c98d0

See CH#9 in the above link

Question No: 21 (Marks: 1) - Please choose one

Which of the following is NOT a type of Non-random sampling?

- ▶ Cluster sampling
- ▶ Convenience sampling
- ▶ Quota sampling
- ▶ Purposive sampling

Page#90_92

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

- ▶ Time-series data
- ▶ Primary data
- ▶ Secondary data

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

► Analyzed data

SUBSCRIBE

AR Lucky Bahi

(PAGE 151)

Question No: 23 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

► **Replication pattern**

- Specification pattern
- Suppressor variable pattern
- Negative linear relationship

(page 110)

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need **Not** to;

- Master the literature
- Take numerous detailed notes
- Create a bibliography list

► **Learn your findings**

(page 147)

As the researcher masters the literature and takes numerous detailed notes, he or she completes many specific tasks: creating a bibliography list (on cards or on computer) with complete citations, taking notes that are neither too skimpy nor too extensive, leaving margins on note cards for adding themes later on, taking all note in the same format, and developing a file on themes or working hypothesis.

A researcher adjusts initial concepts, questions, or focus on the basis of what he or she discovers in the evidence. New issues and questions arise as he or she reads and considers a range of research reports at different levels of analysis (e.g., general context and detailed narratives on specific topic), and multiple studies on a topic, crossing topic boundaries.

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- Analysis
- **Synthesis**
- Results
- Findings

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism

Question No: 26 (Marks: 1) - Please choose one

Which of the following control techniques available to the researcher, controls both known and unknown variables?

- Building the extraneous variable into the design
- Matching
- **Random assignment**
- Analysis of covariance

- Purposive Sampling

http://books.google.com.pk/books?id=a_YI3TJQuAC&pg=PA276&lpg=PA276&dq=Which+of+the+following+sampling+is+most+often+used+during+the+exploratory+phase+of+a+research+project+and+is+perhaps+the+best+way+of+getting+some+basic+information+quickly+and+efficiently%3F&source=bl&ots=3F-qoMC6Wm&sig=fwCBgAJziEabgf_qfcBL-EQxYzI&hl=en&ei=K-YgTYTKM4Og8QPvx7WuBQ&sa=X&oi=book_result&ct=result&resnum=2&ved=0CBsQ6AEwAQ#v=onepage&q&f=false

Question No: 23 (Marks: 1) - Please choose one

Which of the following is a form of Non-random sampling?

- Snowball sampling
- Convenience sampling
- Quota sampling

► All of the given option

<http://www.southalabama.edu/coe/bset/johnson/lectures/lec7.htm>

Nonrandom Sampling Techniques

The other major type of sampling used in quantitative research is nonrandom sampling (i.e., when you do not use one of the random sampling techniques). There are four main types of nonrandom sampling:

- The first type of nonrandom sampling is called convenience sampling
- The second type of nonrandom sampling is called quota sampling
 - The third type of nonrandom sampling is called purposive sampling
- The fourth type of nonrandom sampling is called snowball sampling

Question No: 24 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- Simple random sampling
- Systematic sampling
- Quota sampling

► Purposive sampling

It is similar to purposive sampling. Here is a list of the different types:

- Maximum variation sampling (purposively selecting a wide range of cases)
 - Homogeneous sample selection (selecting a small and homogeneous case or set of cases for intensive study)
- Extreme-case sampling (identifying the extremes or poles of some characteristic and then selecting cases representing these extremes for examination)

AR Lucky Term

Statistics Subject Matter

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- **Typical-case sampling (selecting what are believed to be average cases)**

- **Critical-case sampling (selecting what are believed to be particularly important cases)**
 - **Negative-case sampling (selecting cases that disconfirm the researcher's expectations and generalizations)**
- **Opportunistic sampling (selecting cases when the opportunity arises)**
 - **Mixed purposeful sampling (mixing of more than one of the above sampling strategies).**

Chapter 9: Sampling in Quantitative, Qualitative, and Mixed Research

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- ▶ Analysis
- ▶ **Synthesis**
- ▶ Results
- ▶ Findings

(PAGE 148)

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism.

Question No: 26 (Marks: 1) - Please choose one

The easiest way to describe the numerical data of one variable is;

- ▶ **Frequency distribution**
- ▶ Normal distribution
- ▶ Poisson distribution
- ▶ Probability distribution

(PAGE 104)

THE EASIEST WAY TO DESCRIBE THE NUMERICAL DATA OF ONE VARIABLE IS WITH A FREQUENCY DISTRIBUTION.

Question No: 27 (Marks: 1) - Please choose one

All of the following are ways to show a table in percentages, EXCEPT;

- ▶ **By margins**
- ▶ By row
- ▶ By column
- ▶ For the total

(PAGE 107)

THERE ARE THREE WAYS TO PERCENTAGE A TABLE: BY ROW, BY COLUMN, AND FOR THE TOTAL.

Question No: 28 (Marks: 1) - Please choose one

Which of the following is True for survey research?

- ▶ Survey research is a subset of experimental research.
- ▶ **Survey research is often used in experimental research.**
- ▶ Survey research is never used in experimental research.

Question No: 29 (Marks: 1) - Please choose one

When an interviewer unintentionally and mistakenly checks the wrong response on a checklist during an interview, this is an example of:

- ▶ Social desirability bias
- ▶ **Interviewer error**
- ▶ Interviewer cheating
- ▶ Sponsorship bias

http://books.google.com.pk/books?id=BJil19CAGQwC&pg=PA393&dq=Interviewer+cheating&hl=en&ei=c3YhTazRloGaOvDHZJ0J&sa=X&oi=book_result&ct=result&resnum=4&ved=0CDIQ6AEwAw#v=onepage&q=Interviewer%20cheating&f=false

Question No: 30 (Marks: 1) - Please choose one

When an interviewer asks a respondent: "Why do you shop at Liberty's department store?" this is an example of a:

- ▶ Unstructured question
- ▶ **Structured question**
- ▶ Disguised question
- ▶ Social desirability question

Question No: 31 (Marks: 1) - Please choose one

All of the following are stages in the selection of a sample EXCEPT:

- ▶ Determine sample size
- ▶ **Analyze data**
- ▶ Conduct fieldwork
- ▶ Select a sampling frame

[PPT]

GENERAL ISSUES IN SAMPLING DESIGN AND SAMPLING PROCEDURES

Question No: 32 (Marks: 1) - Please choose one

Codes are rules for _____ data.

- ▶ Classifying
- ▶ Interpreting
- ▶ Recording
- ▶ **All of the given options**

(PAGE 99)

ALTHOUGH CODES ARE GENERALLY CONSIDERED TO BE NUMERICAL SYMBOLS, THEY ARE MORE BROADLY DEFINED AS THE RULES FOR INTERPRETING, CLASSIFYING, AND RECORDING DATA.

Question No: 33 (Marks: 1) - Please choose one

When a competitor introduces a 25% price cut in order to blunt the effect of a test marketing study, this is an example of a:

- ▶ **Maturation effect**
- ▶ Testing effect

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ History effect
- ▶ Cohort effect

Question No: 34 (Marks: 1) - Please choose one

All of the following elements of Observation is/are included in Non Reactive research **EXCEPT**:

- ▶ Count Behaviors
- ▶ Time Duration
- ▶ External Appearance

▶ **Other Records**

(PAGE 133)

Question No: 35 (Marks: 1) - Please choose one

Which of the following element is not included for behavioral observation?

- ▶ Space
- ▶ Direction
- ▶ Frequency

▶ **Accretion**

(PAGE 126)

Question No: 36 (Marks: 1) - Please choose one

The study of documents used by writers is a method of_____.

- ▶ In-depth analysis
- ▶ Time series analysis
- ▶ Regression analysis
- ▶ **None of the given options**

(page 129)

Question No: 37 (Marks: 1) - Please choose one

When a manufacturer studies his most successful retailer in depth in order to determine some better ideas for displaying bicycles in its retail stores, this is an example of:

- ▶ An experiment
- ▶ A test market

▶ **A case study**

- ▶ Causal research

it is an in-depth analysis of a unit which could be an individual person, a couple, a group, or an organization. It is more like a clinical analysis in retrospect; starting from the effect and tracing the reasons back in time. The researcher takes the history of the situation and makes use of any other relevant information about the case to identify the factors leading to the present situation.

Question No: 38 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

▶ **Discussion guide**

- ▶ Concept test
- ▶ Case study

AR Lucky Term

Question No: 40 (Marks: 1) - Please choose one

Which section of a report gives a summary of the contents, including the purpose, description of the participants, the results, and any conclusions being offered?

- ▶ **Methodology**
- ▶ Introduction
- ▶ Abstract
- ▶ Letter of transmittal

(PAGE 159)

Question No: 41 (Marks: 1) - Please choose one

Which of the following characteristic of the scientific method is defined as the confirmation or refutation of the observation through the scientific method by using sensory experience?

- ▶ **Empirical**
- ▶ Verifiable
- ▶ Observable
- ▶ Cumulative

(PAGE 3)

Scientific method is concerned with the realities that are observable through “sensory experiences.” It generates knowledge which is verifiable by experience or observation

Question No: 42 (Marks: 1) - Please choose one

Basic research can also be called as

- ▶ Practical research
- ▶ **Fundamental Research**
- ▶ Action research
- ▶ Assessment research

basic research (also called academic research or pure research or fundamental research). Page#8

Question No: 43 (Marks: 1) - Please choose one

Which of the following statement is true about the peer review?

- ▶ Name of the article's author is not mentioned to avoid biases
- ▶ It should be accepted
- ▶ **It should be published in a well known journal**
- ▶ Name of the author should be mentioned for the further correspondence

Question No: 44 (Marks: 1) - Please choose one

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

After making the inventory of the relevant variables the next step is to:

- ▶ Provide logic for the relationship
- ▶ Make inventory of the propositions
- ▶ **Identify the relationships between the variables**
- ▶ Deduce hypothesis

Question No: 45 (Marks: 1) - Please choose one

Theoretical framework helps to:

- ▶ Deduce the hypothesis
- ▶ Reject the hypothesis
- ▶ **Test the hypothesis**
- ▶ Accept the hypothesis

From the theoretical framework, then, testable hypotheses can be developed to examine whether theory formulated is valid or not

Question No: 46 (Marks: 1) - Please choose one

Which of the following is NOT a method of narrowing a topic?

- ▶ Literature review
- ▶ Specifying the context
- ▶ Talk to the experts
- ▶ **Pilot testing**

(page 33)

Question No: 47 (Marks: 1) - Please choose one

The working definition of the variables is called:

- ▶ Theoretical definition
- ▶ Dictionary definition
- ▶ **Operational definition**
- ▶ Fundamental definition

Operational definition is also called a working definition

Question No: 48 (Marks: 1) - Please choose one

Which of the following characteristic is reflected by an interval scale?

- ▶ The distance between each participant's individual scores.
- ▶ Arithmetic operations can be performed after data collection
- ▶ Classify the data into exclusive categories
- ▶ **All of the given options**

AR Lucky Term

sem0000000000000000

AR Lucky Term

sem00003346000033000

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 1 (Marks: 1) - Please choose one

Which of the following is the basis of the Scientific Method? To test hypothesis in conditions that is conducive to its success. To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypothesis and if they are disproved, they should be abandoned completely.

<http://www.answers.com/topic/scientific-method>

<http://mansci.journal.informs.org/cgi/content/abstract/12/8/C-135>

Question No: 2 (Marks: 1) - Please choose one

An inductive logic is one that:

Involves testing as explicitly defined hypothesis.

Does not allow for findings to feed back into the body of knowledge.

Uses quantitative methods whenever possible.

Allows theory to emerge out of the data.

Rationale: The usual application of inductive theory, however, is to allow theory to emerge from our findings. We find an interesting question, we gather data on it and we 'theorise' from our findings. It may be that these 'theories' are, in reality, simply 'interesting insights' rather than 'grand theories' but they can be valuable for all that.

Question No: 3 (Marks: 1) - Please choose one

Which of the following is not a concept?

Leadership.

Total Quality Management.

Human Resource Management.

Intelligence Quotient (IQ).

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Rationale: Concepts are the building blocks of theory, each of which represents a label given to a common element of the social world. IQ is a measure of the concept of intelligence, it is not a concept in itself.

Question No: 4 (Marks: 1) - Please choose one

Which of the following is the definition of an independent variable?

A variable that is manipulated or controlled by the experimenter.

A response variable.

The behavioural measure made by the experimenter.

A dependent variable that is controlled by the experimenter.

<http://www.umpi.maine.edu/~stump/psysci.html>

The cause variable or the one that identifies forces or conditions that act on something else is known as:

Moderating variable

Independent variable

Categorical variable

Dependent variable

Page 19

The cause variable, or the one that identifies forces or conditions that act on something else, is the *independent variable*.

Question No: 6 (Marks: 1) - Please choose one

A measure is reliable if it provides consistent_____.

Hypothesis

Results

Procedure

Sensitivity

http://www.opppapers.com/search_results.php?action=search&query=A+measure+is+reliable+if+it+provides+consistent

Question No: 7 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

The measure apparently reflects the content of the concept in question. **A criterion is employed on which cases are known to differ.**

A future criterion is employed on which cases are known to differ.

A measure is gauged by comparing it to measures of the same concept developed through other methods.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Question No: 8 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

The type of data collected. The data-collection technique.

The level of manipulation used to elicit data collection.

All of the given options.

Question No: 9 (Marks: 1) - Please choose one

Cross cultural studies are an example of:

Comparative design.

Longitudinal design.

Experimental design.

Case study design.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch02/>

AR Lucky Term

Semester 3/4/5/6/7/8/9/10

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The comparative design typically studies two contrasting cases, so that a better understanding of social phenomena can be formed. Clearly, cross-cultural studies are a good example, therefore, of comparative design in action.

Question No: 10 (Marks: 1) - Please choose one

When constructing a questionnaire, there are few principles to which you should adhere. Which of the following is NOT one of those principles?

Avoid using "leading" or "loaded" questions

Avoid double-barreled questions

Avoid ambiguity and confusion

Avoid arranging questions in a sequence

Page 77_78

Question No: 11 (Marks: 1) - Please choose one

Which of the following statements is true about closed ended questions and open ended questions?

A closed ended question means that the chances of unreliable post-coding is small, whereas an open ended question means that there is a possibility of data processing error.

A closed ended question allows for the researchers terminology to be used, whereas an open ended question allows the respondent to use terms they are familiar with.

A closed ended question allows for easy processing, whereas coding an open ended question can be very time consuming.

A closed ended question has many advantages over open ended question.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/Q#2>

Question No: 12 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer. Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/>

Q#1

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual.

How the Procedure for data processing and analysis can be evaluated in Pilot Testing ?

Make dummy tables

Work output of each member

Length of Questionnaire

Format Tools

Ref. Page No.82:

5. Procedure for data processing and analysis can be evaluated:

• **Make dummy tables.** See how can we tabulate the data and use the appropriate statistics for purposes of interpretations.

Question No: 25 (Marks: 1) - Please choose one

Which of the following is the complete group of specific population elements relevant to the research project?

Element

Target Population

Sampling Frame

Sampling Unit

Ref: Page No.88: Out of the conceptual variations what exactly the researcher wants to focus on. This may also be called a target population. **Target population is the complete group of specific population elements relevant to the research project.** Target population may also be called *survey population* i.e. that aggregation of elements from which the survey sample is actually selected.

Question No: 26 (Marks: 1) - Please choose one

Which of the following is the summary description of a given variable in a population?Statistic

Observation Unit

Parameter

Sampling Unit

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Ref. Page No. 89: A **parameter** is the summary description of a given variable in a population. The mean income of all families in a city and the age distribution of the city's population are parameters.

Question No: 27 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

Parameter

Sampling Unit

Observation Unit

Statistic

Ref. Page No. 89: A **sampling unit** is that element or set of elements considered for selection in some stage of sampling. Sampling may be done in single stage or in multiple stages.

Question No: 28 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

Purposive Sampling

Snowball Sampling

Convenience Sampling

Quota Sampling

Ref. Page No. 90: **Convenience sampling** (also called *haphazard or accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in the middle of the day do not represent everyone (homemakers, people in the rural areas).

Question No: 29 (Marks: 1) - Please choose one

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

Convenience Sampling

Quota Sampling

Snowball Sampling

Purposive Sampling

Ref. Page No. 90: **Convenience sampling** is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently. Often such sample is taken to test ideas or even to gain ideas about a subject of interest.

Q#25

Question No: 6 (Marks: 1) - Please choose one

Which of the following is the characteristic/s of Hypotheses in qualitative research studies?

- ▶ Hypotheses are very specific and stated prior to beginning the study.
- ▶ Hypotheses are never used.
- ▶ **Hypotheses are often generated as the data are collected, interpreted, and analyzed.**
- ▶ Hypotheses are always stated after the research study has been completed.

REF:

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc3.htm>

Q#24

Question No: 7 (Marks: 1) - Please choose one

A formal statement of the research question or “purpose of research study” generally:

- ▶ Is made prior to the literature review
- ▶ **Is made after the literature review**
- ▶ Will help guide the research process
- ▶ Is made before or after literature review

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc3.htm>

Q#18

Question No: 8 (Marks: 1) - Please choose one

Which of the following refers to "A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review"?

- ▶ Integrative review
- ▶ Theoretical review
- ▶ **Self-study review**
- ▶ Historical review

Page 26

1. Self-study reviews increase the reader's confidence. A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program. In addition to giving others confidence in a reviewer's command of field, it has the side benefit of building the reviewer's self confidence.

Question No: 9 (Marks: 1) - Please choose one

Quantitative research has been criticised because:

- ▶ The reliance on instruments and procedures makes it high in ecological validity.
- ▶ **The measurement process suggests a spurious and artificial sense of accuracy.**
- ▶ It underestimates the similarities between objects in the natural and social worlds.
- ▶ It has no validity.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/>

Q#8

Question No: 10 (Marks: 1) - Please choose one

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

- ▶ Are easily calculated.
- ▶ **Require only one administration of a test.**
- ▶ Are more accurate than all other types of estimates.
- ▶ Are usually higher.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381232.cw/index.html

Q#5

Question No: 11 (Marks: 1) - Please choose one

Which of the following functions is performed by the Nominal scale?

- ▶ Categorize
- ▶ Distance
- ▶ Order
- ▶ Unique origin

Page 53

Question No: 12 (Marks: 1) - Please choose one

Categorical measures are forms of measurement classified as;

- ▶ Measures that reflect quantitative differences.
- ▶ Measures that reflect qualitative differences.
- ▶ Measures that do not require mutual exclusivity or exhaustiveness when devising a measuring system.
- ▶ Rationale measures.

http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq_03/mcq_03.htm

Q#2

Question No: 13 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

- ▶ The measure apparently reflects the content of the concept in question.
- ▶ A criterion is employed on which cases are known to differ.
- ▶ A future criterion is employed on which cases are known to differ.
- ▶ A measure is gauged by comparing it to measures of the same concept developed through other methods.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Q#4

Question No: 14 (Marks: 1) - Please choose one

If a measure is consistent over multiple occasions, it has:

- ▶ Inter-rater reliability
- ▶ Construct validity
- ▶ Internal validity
- ▶ Test-retest reliability

Page#57

Test-Retest Reliability

Used to assess the consistency of a measure from one time to another.

Test-Retest Reliability

■ Procedure

Measure the same individuals at two points in time and then calculate the correlation coefficient between the first and second test scores

To test the reliability of an intelligence test, the test is given to a group of people on one day and again a week later

Question No: 15 (Marks: 1) - Please choose one

The validity of a measure refers to which of the following?

- ▶ Consistency of the measurement

AR Lucky Term

sem003 - STA630 - STA630

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Particular type of construct specification
- ▶ Comprehensiveness with which it measures the construct
- ▶ **Accuracy with which it measures the construct**

Question No: 16 (Marks: 1) - Please choose one

In which of the following types of interview, questions are already prepared?

- ▶ Telephonic interview
- ▶ Personal interview
- ▶ Unstructured interview
- ▶ **Structured interview**

Page 83

Information is obtained in a structured conversation in which the interviewer asks prearranged questions and records answers, and the respondent answers.

Question No: 17 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening question.
- ▶ **Respondents may be unwilling to reveal information as they believe they are likely to be identified.**

Q#6

Question No: 25 (Marks: 1) - Please choose one

Which of the following is NOT a strategy that can guide data interpretation?

- ▶ Pay attention to your topic or research focus as it will help guide your selection of important parts of your data.
- ▶ Examine categories with large amounts of data as they are likely identifying important concepts.
- ▶ Examine existing studies related to your topic to identify potential interpretative frameworks.
- ▶ Pay attention to your preconceived notions of the meaning of the data as it reflects a "grounded" perspective.

Q#3

Question No: 26 (Marks: 1) - Please choose one

A researcher believes that the effects of a treatment will be different for males and females. Which one is the best method to test this possible interaction?

- ▶ Single-subject design
- ▶ Factorial design
- ▶ Time-series design
- ▶ Quasi-experimental design

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Q#17

Question No: 27 (Marks: 1) - Please choose one

The best single-subject design to use, when it would be unethical to discontinue treatment indefinitely, would likely be:

- ▶ A-B-A-B
- ▶ A-B
- ▶ A-B-A
- ▶ Quasi-experimental

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Q#19

Question No: 28 (Marks: 1) - Please choose one

Which term technically describes a situation in which an observer's work in a first-grade classroom disrupts the normal routines due to the curiosity of the students?

- ▶ Observer effect
- ▶ Participant effect
- ▶ Nonparticipant bias
- ▶ Observer bias

If the researcher promises anonymity to research participants, what can he **not** use?

- ▶ Questionnaires.
- ▶ Participant observation
- ▶ Self-report research
- ▶ Cross-sectional research

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

Q#18

Question No: 30 (Marks: 1) - Please choose one

Which component of a research report contains information about the topic studied, literature review, hypotheses, participants, instruments, procedures, results, and discussion?

- ▶ Preliminary pages
- ▶ Main body
- ▶ Method
- ▶ Discussion

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9872/2527359.cw/index.html

Q#3

Question No: 31 (Marks: 1) - Please choose one

Which of the following represents the correct order for five main sections of a dissertation?

- ▶ Conclusion, Introduction, Methods, Literature Review, Results.
- ▶ Methods, Results, Conclusion, Literature Review, Introduction.
- ▶ Literature Review, Results, Methods, Introduction, Conclusion.
- ▶ Introduction, Literature Review, Methods, Results, Conclusion.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch03/>

Q#10

Question No: 32 (Marks: 1) - Please choose one

A focus group session is ideally for;

- ▶ 1 hour
- ▶ 1 and half hour
- ▶ 2 hours
- ▶ More than 2 hours

Page#155

For duration, a focus group session typically lasts up to an hour and a half.

Question No: 33 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

- ▶ Replication pattern
- ▶ Specification pattern
- ▶ Suppressor variable pattern
- ▶ Negative linear relationship

Page#110

AR Lucky Term

sem000033460000334000

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The **replication pattern** is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable. It means that the control variable has no effect.

Question No: 34 (Marks: 1) - Please choose one

Which of the following is not a way to manipulate an independent variable?

- ▶ **Random technique**
- ▶ Amount technique
- ▶ Type technique
- ▶ Presence technique

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm>

Q#8

Question No: 35 (Marks: 1) - Please choose one

Which of the following could be used for randomly assigning participants to groups in an experimental study?

- ▶ Split-half
- ▶ Even versus Odd numbers
- ▶ **Use a list of random numbers or a computer randomization program**
- ▶ Let the researcher decide which group will be the best

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm>

Q#15

Question No: 36 (Marks: 1) - Please choose one

Which of the following designs does an excellent job of controlling for rival hypotheses that threaten the internal validity of an experiment?

- ▶ Posttest-only design with nonequivalent groups
- ▶ Posttest-only control-group design
- ▶ **Pretest-posttest control-group design**
- ▶ Posttest-only design without nonequivalent groups

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm>

Q#18

Question No: 37 (Marks: 1) - Please choose one

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following?

- ▶ Dependent variable
- ▶ Extraneous variable
- ▶ **Independent variable**
- ▶ Confounding variable

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm>

What is the particular advantage of secondary analysis to business students?

AR Lucky Term

sem0000000000000000

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ It is less challenging intellectually
- ▶ It guarantees positive results
- ▶ It is less expensive and less time consuming than primary analysis
- ▶ It enables students to gain experience of the workplace

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#2

Question No: 39 (Marks: 1) - Please choose one

Why do many data sets used for secondary analysis, contain high quality data?

- ▶ Because the data is presented attractively
- ▶ Because rigorous sampling procedures are commonly used
- ▶ Because the data sets focus on specific regions and issues
- ▶ Because the data is kept confidential

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#3

Question No: 40 (Marks: 1) - Please choose one

Which of the following types of analysis can be done using secondary analysis?

- ▶ The analysis of specific subgroups
- ▶ Longitudinal analysis
- ▶ Cross-cultural analysis
- ▶ All of the given options

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#4

Question No: 41 (Marks: 1) - Please choose one

When an interviewer unintentionally and mistakenly checks the wrong response on a checklist during an interview, this is an example of:

- ▶ Social desirability bias
- ▶ Interviewer error
- ▶ Interviewer cheating
- ▶ Sponsorship bias

http://books.google.com.pk/books?id=BJil19CAGQwC&pg=PA393&dq=Interviewer+cheating&hl=en&ei=c3YhTazRIoGaOvDHZJ0J&sa=X&oi=book_result&ct=result&resnu m=4&ved=0CDIQ6AEwAw#v=onepage&q=Interviewer%20cheating&f=false

Question No: 42 (Marks: 1) - Please choose one

When an interviewer asks the respondent to state which of six salary categories represents his gross income the previous year, this is an example of a:

- ▶ Social desirability question
- ▶ Disguised question

- ▶ Structured question
- ▶ Unstructured question

Question No: 43 (Marks: 1) - Please choose one

"Can you tell me more about what you mean by that?" is an example of:

- ▶ A mall intercept
- ▶ A probe
- ▶ A self-administered questionnaire
- ▶ All of the given options

Page 84

Question No: 44 (Marks: 1) - Please choose one

Interviews with respondents that take place in shopping malls are called:

- ▶ Interviewer influence
- ▶ Mixed-mode surveys
- ▶ Protesting
- ▶ Mall intercept interviews

Page 66

Personal interviews conducted in shopping malls are referred to as mall intercept interviews.

Question No: 45 (Marks: 1) - Please choose one

A questionnaire that collects information that is valid is said to be:

- ▶ Reliable
- ▶ Relevant
- ▶ Balanced
- ▶ Accurate

Question No: 46 (Marks: 1) - Please choose one

All of the following are guidelines that help prevent the most common mistakes in designing questions **EXCEPT**:

- ▶ Avoid complexity
- ▶ Avoid personal questions
- ▶ Avoid leading questions
- ▶ Avoid double-barreled questions

Page #78

Question No: 47 (Marks: 1) - Please choose one

When a respondent in a personal interview is asked questions about shopping at a specific department store in the shopping mall, and then is asked general questions about shopping at that mall, what type of mistake has been made in questionnaire design?

▶ **Double-barreled effect**

- ▶ Filter effect
- ▶ Loaded effect

- ▶ Order bias

Page 78

Question No: 48 (Marks: 1) - Please choose one

Which of the following is a non probability sampling technique in which an experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member?

- ▶ Subjective sample
- ▶ Stratified sample
- ▶ Judgment sample
- ▶ Cluster sample

Judgment Sampling

- Also called purposive sampling
- An experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member

<http://cvlearn.com/Documents/Sample%20Designs%20and%20Sampling%20Procedures.pdf>

Question No: 49 (Marks: 1) - Please choose one

In which type of sampling is a sub sample drawn using simple random sampling within each stratum?

- ▶ Cluster sampling
- ▶ Stratified sampling
- ▶ Systematic sampling
- ▶ Convenience sampling

Page#94

Hence in stratified random sampling a sub sample is drawn utilizing simple random sampling within each stratum. (Randomization is not done for quota sampling).

Question No: 50 (Marks: 1) - Please choose one

When a field interviewer records an impossible answer (e.g. birth date: 1850), this means that the data need to be:

- ▶ Coded
- ▶ Deleted
- ▶ Edited
- ▶ None of the given options

Page#97

Editing

Occasionally, a fieldworker makes a mistake and records an improbable answer (e.g., birth year: 1843) or interviews an ineligible respondent (e.g., someone too young to qualify).

Question No: 51 (Marks: 1) - Please choose one

AR Lucky Term

semester 3 objective's 2019

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

All of the following are software packages that can be used for data analysis **EXCEPT**:

- ▶ SPSS
- ▶ SAS
- ▶ Excel
- ▶ Word

<http://www.stattutorials.com/>

Question No: 52 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- ▶ Judgment sample
- ▶ Snowball
- ▶ Convenience sample
- ▶ Cluster sample

Page#91

And also here is link

[http://wiki.answers.com/Q/You are in charge of promoting a new flavor of toothpaste yet to be produced in a toothpaste manufacturing unit Which sampling techniques will you use to get the required data from a population](http://wiki.answers.com/Q/You_are_in_charge_of_promoting_a_new_flavor_of_toothpaste_yet_to_be_produced_in_a_toothpaste_manufacturing_unit_Which_sampling_techniques_will_you_use_to_get_the_required_data_from_a_population)

Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

- ▶ Cluster sample
- ▶ Convenience sample
- ▶ Multistage area sample
- ▶ Systematic sample

Page#90

Question No: 54 (Marks: 1) - Please choose one

In a typical line graph, the _____ variable is shown on the vertical y-axis and the _____ variable is shown on the horizontal x-axis.

- ▶ Dependent; independent
- ▶ Ratio; nominal
- ▶ Independent; dependent
- ▶ Primary; secondary

Question No: 55 (Marks: 1) - Please choose one

Which of the following means that there is an alternative explanation beyond the experimental variables for any observed differences in the dependent variables?

- ▶ **Confound**
- ▶ Interaction
- ▶ Randomization
- ▶ Repeated measures

Page #112

Question No: 56 (Marks: 1) - Please choose one

Which experimental design has the following symbols: O1 X O2?

- ▶ **Solomon four-group design**
- ▶ Static group design
- ▶ One-group pretest-posttest design
- ▶ None of the given options

Page#118

Question No: 57 (Marks: 1) - Please choose one

Which of the following is critical when conducting experimental research because it allows researchers to return subjects to normal?

- ▶ Manipulation check
- ▶ Cohort analysis
- ▶ Debriefing
- ▶ Deception

Question No: 58 (Marks: 1) - Please choose one

All of the following elements of Observation is/are included in Non Reactive research EXCEPT:

- ▶ Count Behaviors
- ▶ Time Duration
- ▶ External Appearance
- ▶ **Other Records**

Page#124

Question No: 59 (Marks: 1) - Please choose one

Which of the following is an advantage of focus group interviews?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Provide multiple perspectives
- ▶ Low degree of scrutiny
- ▶ **Inexpensive**
- ▶ Easy to use for sensitive topics

Page#156

The primary advantage of focus groups is its ability to quickly and inexpensively grasp the core issues of the topic.

<http://www.webcredible.co.uk/user-friendly-resources/web-usability/focus-groups.shtml>

Question No: 60 (Marks: 1) - Please choose one

Which of the following is the ideal size of a focus group?

- ▶ 1-2 participants
- ▶ 3-5 participants
- ▶ **6-12 participants**
- ▶ 12-20 participants

Page#152

A **focus group** discussion is a group discussion of **6-12 persons** guided by a facilitator, during which group members talk freely and spontaneously about a certain topic.

Question No: 61 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

▶ **Discussion guide**

- ▶ Concept test
- ▶ Case study
- ▶ All of the given options

<http://www.answers.com/topic/focus-group>

A focus group is a marketing research tool in which a small group of people (typically eight to ten individuals) engages in a roundtable discussion of selected topics of interest in an informal setting. The focus group discussion is typically directed by a moderator who guides the discussion in order to obtain the group's opinions about or reactions to specific products or marketing-oriented issues, known as test concepts.

Question No: 62 (Marks: 1) - Please choose one

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening question.
- ▶ **Respondents may be unwilling to reveal information as they believe they are likely to be identified.**

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/>

Question No: 9 (Marks: 1) - Please choose one

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

- ▶ What role to adopt while interviewing male managers?
- ▶ How many female employees should be interviewed for a representative sample?
- ▶ **How to overcome the issue of false consciousness?**
- ▶ What data to use while publishing findings?

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch18/>

Q#9

Question No: 10 (Marks: 1) - Please choose one

Which of the following is NOT characteristic of qualitative data?

- ▶ **Rich descriptions**
- ▶ Concise
- ▶ Voluminous
- ▶ Unorganized

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9871/2527149.cw/content/index.html

Question No: 11 (Marks: 1) - Please choose one

Why is describing the context equally, as important aspect of qualitative data analysis as describing the participants?

- ▶ Descriptions of context are more objective than descriptions of participants.
- ▶ Descriptions of context are based on facts, not perceptions.
- ▶ **Participants' behavior cannot be separated from the context in which it occurs.**
- ▶ Participants are the context.

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9871/2527206.cw/index.html

Q#4

Question No: 12 (Marks: 1) - Please choose one

Which one is not the part of non reactive research?

- ▶ Physical traces
- ▶ Archives
- ▶ Observations
- ▶ **Interviews**

Page#124

Question No: 13 (Marks: 1) - Please choose one

The information gained by someone other than researcher conducting the study is called

- ▶ Primary data
- ▶ Reliable data
- ▶ Valid data
- ▶ Secondary data

page#131

Secondary data refer to information gathered by someone other than the researcher conducting the present study.

Question No: 14 (Marks: 1) - Please choose one

Which of the following is **not** an example of historical comparative research?

- ▶ Social Forms
- ▶ Economic Forms
- ▶ Civil Wars
- ▶ Turnover

Page#143

Question No: 15 (Marks: 1) - Please choose one

Which of the following would you recommend to a graduate student to ensure the quality of his research report?

- ▶ Write a detailed explanation of the methods used to investigate the problem.
- ▶ Explicitly state underlying assumptions related to the topic.
- ▶ Acknowledge the limitations of generalizability while assisting the reader in understanding the transferability of the findings.
- ▶ Detailed method, assumptions and limitation.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381491.cw/index.html

Q#2

Question No: 16 (Marks: 1) - Please choose one

In which of the following Tests, we usually go for personal interviewing to test the questionnaire?

- ▶ Test Run
- ▶ Pilot Test
- ▶ Post Hoc Test
- ▶ T- Test

Page#80

Question No: 17 (Marks: 1) - Please choose one

In which of the following Tests, we should come to know, does a questionnaire look like an integrated unit?

- ▶ Test Run
- ▶ Pilot Test
- ▶ Post Hoc Test
- ▶ T- Test

Question No: 18 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

- ▶ Parameter
- ▶ **Sampling Unit**
- ▶ Observation Unit
- ▶ Statistic

page#89

A sampling unit is that element or set of elements considered for selection in some stage of sampling.

Question No: 19 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

- ▶ Purposive Sampling
- ▶ Snowball Sampling
- ▶ **Convenience Sampling**
- ▶ Quota Sampling

Page#90

Question No: 20 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling
- ▶ **Purposive sampling**

Sampling in qualitative research is similar to which type of sampling in quantitative research?

It is similar to purposive sampling.

http://www.google.com.pk/#hl=en&biw=800&bih=411&q=Sampling+in+qualitative+research+is+similar+to+which+type+of+sampling+in+quantitative+research%3F++++++%E2%96%BA+Simple+random+sampling++++++%E2%96%BA+Systematic+sampling++++++%E2%96%BA+Quota+sampling++++++%E2%96%BA+Purposive+sampling&aq=f&aqi=&aql=&oq=&gs_rfai=&fp=c4ef4ebbe35c98d0

See CH#9 in the above link

Question No: 21 (Marks: 1) - Please choose one

Which of the following is **NOT** a type of Non-random sampling?

- ▶ Cluster sampling
- ▶ Convenience sampling
- ▶ Quota sampling
- ▶ **Purposive sampling**

Page#90_92

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

- ▶ Time-series data
- ▶ Primary data
- ▶ **Secondary data**
- ▶ Analyzed data

(PAGE 151)

Question No: 23 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

▶ **Replication pattern**

- ▶ Specification pattern
- ▶ Suppressor variable pattern
- ▶ Negative linear relationship

(page 110)

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need **Not** to;

- ▶ Master the literature
- ▶ Take numerous detailed notes
- ▶ Create a bibliography list
- ▶ **Learn your findings**

(page 147)

As the researcher masters the literature and takes numerous detailed notes, he or she completes many specific tasks: creating a bibliography list (on cards or on computer) with complete citations, taking notes that are neither too skimpy nor too extensive, leaving margins on note cards for adding themes later on, taking all note in the same format, and developing a file on themes or working hypothesis.

A researcher adjusts initial concepts, questions, or focus on the basis of what he or she discovers in the evidence. New issues and questions arise as he or she reads and considers a range of research reports at different levels of analysis (e.g., general context and detailed narratives on specific topic), and multiple studies on a topic, crossing topic boundaries.

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- ▶ Analysis

AR Lucky Term

Semester 3, 2020-2021

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ **Synthesis**
- ▶ Results
- ▶ Findings

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism

Question No: 26 (Marks: 1) - Please choose one

Which of the following control techniques available to the researcher, controls both known and unknown variables?

- ▶ Building the extraneous variable into the design
- ▶ Matching
- ▶ **Random assignment**
- ▶ Analysis of covariance

<http://www.southalabama.edu/coe/bset/johnson/lectures/lec9.htm>

Question No: 27 (Marks: 1) <http://vustudents.ning.com> - Please choose one

Which of the following is more operational with the help of coding system?

- ▶ External Appearance
- ▶ Count Behaviors
- ▶ **Content analysis**
- ▶ Time Duration

<http://free-books-online.org/mathematics/business-mathematics-statistics/research-methods-business-mathematics-statistics/non-reactive-research-2/>

Question No: 28 (Marks: 1) - Please choose one

What is the particular advantage of secondary analysis to business students?

- ▶ It is less challenging intellectually
- ▶ It guarantees positive results
- ▶ **It is less expensive and less time consuming than primary analysis**
- ▶ It enables students to gain experience of the workplace

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Question No: 29 (Marks: 1) - Please choose one

Which of the following similarity is found in Qualitative research and Survey research?

- ▶ Examine topics primarily from the participants' perspectives.
- ▶ They are guided by predetermined variables to study.
- ▶ **They are descriptive research methods.**
- ▶ Have large sample sizes.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

Question No: 30 (Marks: 1) - Please choose one

A single element or group of elements that is eligible for selection via the sampling process is called a:

- ▶ Sampling panel
- ▶ **Sampling unit**
- ▶ Sampling error
- ▶ Sampling quota

Sample unit (subject) – single element selected in the sample; could be a group (could be a two stage process)

Question No: 11 (Marks: 1) - Please choose one

What is the difference between interval/ratio and ordinal variables?

AR Lucky Term

Semester 3 Statistics 3003

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Ordinal data can be rank ordered, but interval/ratio data cannot.

The distance between categories is equal across the range of interval/ratio data.

Interval/ratio variables contain only two categories.

Ordinal variables have a fixed zero point, whereas interval/ratio variables do not.

Question No: 12 (Marks: 1) - Please choose one

A study design in which the researcher might create _____ to establish cause-and-effect relationship is called Experimental Design.

An artificial setting, control some variables and manipulates the independent variable

A natural setting, control some variables and manipulates the dependent variables

An artificial setting, control some variables and manipulates the dependent variable

All of the given options

(page 112)

Question No: 13 (Marks: 1) - Please choose one

Which of the following would LEAST likely be a data source for an action research study

of "teachers' questioning techniques in social studies classes"?

Student questionnaires

Videotaping of classes

Students' standardized test scores

Classroom observation

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 14 (Marks: 1) - Please choose one

Teachers are advised to predict the results of student attitudinal questionnaires, because;

It will help them decide if students answered truthfully.

It gives them a point of comparison against which to judge actual responses.

It will allow them to apply statistical procedures in analyzing results.

It helps them familiarize themselves with the questionnaires.

Question No: 33 (Marks: 1) - Please choose one

Determining the sample interval (represented by K), randomly selecting a number between 1 to K, and including each K element in your sample are the steps for which form of sampling?

Simple Random Sampling

Stratified Random Sampling

Systematic Sampling

Cluster sampling

http://www.google.com.pk/#sclient=psy&hl=en&site=&source=hp&q=Determining+the+sample+interval+%28represented+by+K%29%2C+randomly+selecting+a+number+between+1+to+K%2C+and+including+each+K+element+in+your+sample+are+the+steps+for+which+form+of+sampling%3F+Simple+Random+Sampling+Stratified+Random+Sampling+Systematic+Sampling+Cluster+sampling&aq=f&aqi=&aql=&oq=&gs_rfai=&pbx=1&fp=165a74728c73b339

Systematic sampling

- Simple or stratified in nature
- Systematic in the “picking-up” of element. E.g. every 5th. visitor, every 10th. House, every 15th. minute
- Steps:

- * Number the population (1,...,N)
- * Decide on the sample size, n
- * Decide on the interval size, $k = N/n$
- * Select an integer between 1 and k
- * Take case for every kth. unit

Question No: 34 (Marks: 1) - Please choose one

A focus group session is ideally for;

1 hour

1 and half hour

2 hours

More than 2 hours

Page No.155 : For duration, a focus group session typically lasts up to an hour and a half. Generally the first session with a particular type of group is longer than the following ones because all of the information is new.

Question No: 35 (Marks: 1) - Please choose one

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following?

Dependent variable

Extraneous variable

Independent variable

Confounding variable

Question No: 36 (Marks: 1) - Please choose one

Which of the following is the process of identifying and classifying each item and giving labels to each category?

Accretion

Count Behaviors

Intensity

Coding

The process of identifying and classifying each item and giving labels to each category. Later on each category may be assigned a numerical value for its entry into the computer. In content analysis one can look at the manifest coding and latent coding.

Question No: 37 (Marks: 1) - Please choose one

When do largest percentages form a pattern across cells?

If there is no relationship

If there is non linear relationship

If there is curvilinear relationship

If there is linear relationship

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 43 (Marks: 1) - Please choose one

Which of the following is the primary purpose of survey research?

Find cause-and-effect relationships

Determine and describe the way things are

Question No: 44 (Marks: 1) - Please choose one

Which of the following major problem exist with non respondents in surveyresearch?

They tend to be alike in many ways.

Data cannot be analyzed for only part of a sample.

They cannot be found to determine if they are similar to respondents.

They may have different opinions than respondents.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

Question No: 45 (Marks: 1) - Please choose one

Which of the following advantage differentiates personal interview from mail,internet and telephonic survey?

Cheaper

Expensive

Easier

Inexpensive

Question No: 46 (Marks: 1) - Please choose one

Which of the following is the most common method of generating primary data?

- ▶ **Surveys**
- ▶ Literature Review
- ▶ Communication analysis
- ▶ Research Journals

(page 37)

Surveys: The most common method of generating primary data is through surveys.

Question No: 47 (Marks: 1) - Please choose one

Which of the following refers to the extent that all information collected in a questionnaire addresses a research question that will help the decision maker address the current business problem?

- ▶ Accuracy
- ▶ Counter balanced
- ▶ **Relevance**
- ▶ Frequency

Question No: 48 (Marks: 1) - Please choose one

When a company decides to send an Internet survey to all of its 157-member sales force to determine their morale, this is an example of a:

- ▶ **Census**
- ▶ Cluster sample
- ▶ Multistage area sample
- ▶ Sample

A sample survey is asked of a limited group of people, while a census is conducted in an attempted to get an answer from all people in a geographical area or population.

Read more

Census surveys forms the basis for the provision of appropriate services with respect to the local community's needs. These basic surveys provide estimates of the population by age, sex, education levels, household income and contraceptive prevalence rate, as well as morbidity and mortality rates.

Question No: 49 (Marks: 1) - Please choose one

When researcher instructs field interviewers to interview 30 workers in manufacturing industries, 30 in service industries, 30 in non-profit organizations, 30 in healthcare industries, and 30 in the government sector, this represents what type of sampling procedure?

- ▶ Systematic sample
- ▶ Stratified sample
- ▶ Judgment sample
- ▶ **Quota sample**

Question No: 50 (Marks: 1) - Please choose one

Which of the following probability sampling technique is low cost and frequently used?

AR Lucky Term

Seminar 13/10/2019

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ **Simple random**
- ▶ **Snowball**

ge
95)

The unit costs of cluster sampling are much lower than those of other probability sampling designs.

Question No: 51 (Marks: 1) - Please choose one

The sampling procedure of obtaining those people or units that are most conveniently available is called:

- Stratified sample
- Convenience sample
- Judgment sample
- Cluster sample

Convenience sampling (also called haphazard or accidental sampling) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends

Question No: 52 (Marks: 1) - Please choose one

When a respondent's answers to ten Likert-scale items are added up to form a total subset score for these questions, this is an example of:

- Data indexing
- Contingency analysis
- Data transformation
- None of the given options

Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

- Cluster sample
- Convenience sample
- Multistage area sample
- Systematic sample

(PAGE 90)

Question No: 54 (Marks: 1) - Please choose one

Which experimental design involves manipulating a single independent variable to observe its effect on a single dependent variable?

- ▶ **Primary experimental design**
- ▶ **Basic experimental design**
- ▶ **Factorial experimental design**
 - ▶ **Counterbalanced experimental**

design Question No: 55(Marks: 1) -

Please choose one

Arranging data into a table is called:

- ▶ **Tabulation**
- ▶ Frequency
- ▶ Analysis
- ▶ All of the given options

Question No: 56 (Marks: 1) - Please choose one

Which of the following is critical when conducting experimental research because it allows researchers to return subjects to normal?

- ▶ Manipulation check
- ▶ Cohort analysis
- ▶ Debriefing
- ▶ Deception

Question No: 57 (Marks: 1) - Please choose one

Research projects involving experimental manipulations that are implemented in a natural environment are called:

- ▶ Laboratory experiments
- ▶ **Field experiments**
- ▶ Primary experiments
- ▶ Secondary experiments

Studies conducted to establish cause-and-effect relationship using the same natural environment are called field experiments

Question No: 58 (Marks: 1) - Please choose one

Which of the following element is not included for behavioral observation?

- ▶ Space
- ▶ Direction
- ▶ Frequency
- ▶ **Accretion**

(Page 126)

Question No: 59 (Marks: 1) - Please choose one

The study of documents used by writers is a method of _____.

- ▶ In-depth analysis
- ▶ Time series analysis
- ▶ Regression analysis
- ▶ **None of the given options**

(PAGE 129)

Question No: 60 (Marks: 1) - Please choose one

_____actions or feelings can be recorded when they occurred rather than at a time specified by the researcher.

AR Lucky Term

Semester 3, 2020-2021

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ The Confessions
- ▶ The spontaneous
- ▶ Non-reactivity
- ▶ All of the given options

(page 129)

Question No: 61 (Marks: 1) - Please choose one

Historical-Comparative research focuses on:

- ▶ Its broad historical processes
- ▶ Comparing forms
- ▶ Tracing the development of social forms
- ▶ All of the given options

Historical-Comparative research focuses on:

- Tracing the development of social forms (patterns) overtime as well as its broad its broad historical processes, and
- Comparing those forms and its developmental processes across cultures (countries/nations).

Question No: 62 (Marks: 1) - Please choose one

Historians organize evidence usually in:

- ▶ Comparative form
- ▶ Narrative form
- ▶ Logical form
- ▶ All of the given options

(PAGE 150)

HISTORIANS ORGANIZE EVIDENCE AS THEY WRITE WORKS OF HISTORY.
THEY OFTEN WRITE *NARRATIVE HISTORY*.

Question No: 63 (Marks: 1) - Please choose one

The person who leads a focus group discussion is called a_____.

- ▶ Anchor
- ▶ Facilitator
- ▶ Moderator
- ▶ Recorder

http://books.google.com/books?id=j7aawGLbtEoC&pg=PA180&dq=person+who+leads+a+focus+group+discussion+is+called+a&hl=en&ei=X9w1TZfiLo-G4gbk2ZBb&sa=X&oi=book_result&ct=result&resnum=2&ved=0CCgO6AEwAQ#v=onepage&q=person%20who%20leads%20a%20focus%20group%20discussion%20is%20called%20a&f=false

Question No: 64 (Marks: 1) - Please choose one

Which is NOT a main function of focus groups?

- ▶ Generating insight into previously misunderstood topics
- ▶ In-depth information gathering from one participant
- ▶ Understanding how group members arrive at their conclusions
- ▶ Encouraging group interaction

AR Lucky Term

Semester 3/4/5/6/7/8/9/10/11/12

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

FINAL TERM EXAMINATION Spring 2009 STA630- Research Methods

Time: 90 min

Marks: 82

Question No: 1 (Marks: 1) - Please choose one

Under which of the following, research method is not applicable?

- ▶ Business
- ▶ Government offices
- ▶ **Imaginary worlds**
- ▶ Health care

Lesson 1

Whether we are aware of it or not, we are surrounded by research. Educators, administrators, government officials, business leaders, human service providers, health care professionals, regularly use social research findings in their jobs.

Question No: 2 (Marks: 1) - Please choose one

Rationalism is the application of which of the following?

Research solution

Logic and arguments

Reasoning

Previous findings

Question No: 3 (Marks: 1) - Please choose one

A teacher conducts an action research study of the problem-solving methods used by students in his ninth-grade Algebra I classes. Which of the following can he assume on the basis of his study?

Results apply only to students in his ninth-grade Algebra I classes.

Results apply only to students in Algebra I classes at his school.

Results apply only to Algebra I students in ninth grade.

Results apply to all math students.

Question No: 4 (Marks: 1) - Please choose one

The part of the action research spiral that differentiates this research methodology from other kinds of research is;

Looking at multiple sources of data.

Taking action based on results.

Thinking about or analyzing data in more than one way.

The kinds of data that are collected.

Question No: 5 (Marks: 1) - Please choose one

Which of the following can best be described as a categorical variable?

Age

Annual income

Grade point average

Religion

Any variable that has a limited number of distinct values and which cannot be divided into fractions, is a discontinuous variable. Such a variable is also called as categorical variable or

AR Lucky Term

classificatory variable, or discrete variable.

Question No: 6 (Marks: 1) - Please choose one

AR Lucky Term

sem0000000000000000

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following is not a role of hypothesis?

Guides the direction of the study

Identifies relevant and irrelevant facts

Provides framework for organizing the conclusions

Determine feasibility of conducting the study

(Page 24)

Question No: 7 (Marks: 1) - Please choose one

Deductive research is useful in which of the following cases?

The researcher uses an existing theory to develop a hypothesis.

The researcher subjects a hypothesis to empirical scrutiny.

The researcher has to transform concepts within a hypothesis into researchable entities.

Use of existing theory, empirical scrutiny, transformation of concept.

The survey researcher follows a deductive approach. He or she begins with a theoretical or applied research problem and ends with empirical measurement and data analysis.

<http://www.scribd.com/doc/34923440/Chapter-01>

Question No: 8 (Marks: 1) - Please choose one

When embarking upon a research project, which of the following issues should be considered?

That the data from the study will be treated anonymously and confidentially.

Coherent research question, pilot work and confidentiality.

Pilot work should be carried out to assess the practical issues and feasibility of the research.

That the research should be based upon a coherent research question.

http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq_02/mcq_02.htm

Question No: 9 (Marks: 1) - Please choose one

Which of the following is likely to reduce the validity of a test?

Unclear test directions

Ambiguous test items

Unclear, ambiguous and untaught items

Untaught items

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381228.cw/index.html

Question No: 10 (Marks: 1) - Please choose one

Which of the following refers to Test reliability?

The types of item-writing errors that exist in the test.

Consistency in the test results.

Generalizability of the research results.

The extent to which the test measures what it is supposed to measure.

Test-Retest Reliability

•Test-retest reliability refers to the consistency of participant's responses over time (usually a few weeks, why?)

•Assumes the characteristic being measured is stable over time—not expected to change between test and retest

Question No: 11 (Marks: 1) - Please choose one

Which of the following functions is performed by the Ratio scale?

Categorize

Distance

Order

Unique origin

Question No: 12 (Marks: 1) - Please choose one

Which of the following is measured by the Interval scale?

Order of the object

Magnitude of the object

Categorize the object

All of the given options

On interval measurement scales, one unit on the scale represents the same magnitude on the trait or characteristic being measured across the whole range of the scale.

Question No: 13 (Marks: 1) - Please choose one

Which one of the following is not a type of scales used in measurement of concepts?

Normal Scale

Ordinal Scale

Interval scale

Ratio Scale

Types of Measurement Scales: Nominal, Ordinal Scale, Interval scale, Ratio Scale.

Question No: 14 (Marks: 1) - Please choose one

Procedures determining which of the following two issues are rarely used in quantitative research?

Reliability and validity

Accessibility and replicability

Quality and quantity

Objectivity and subjectivity

Ref: The cost and time involved in the procedures for testing reliability and validity prevent many researchers from applying them to their research.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cas/ch06/>

Question No: 15 (Marks: 1) - Please choose one

Which of the following is a legitimate purpose of a research plan?

It forces you to think through every aspect of a study.

It provides detailed procedures to guide the conduct of the study.

It provides clear roadmap of the study.

Writing a plan facilitates the evaluation of it.

Question No: 16 (Marks: 1) - Please choose one

Which of the following statements might assist response rates?

AR Lucky Term

Stamata's Supermarket

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Please photocopy the questionnaire five times and pass on to your work

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

colleagues.

Please make sure that the questionnaire is completed with a fountain pen.

Please read the attached journal article on the ontological foundations of positivism prior to completing the questionnaire.

Please put the completed questionnaire in the enclosed stamped addressed envelope and place in the mail out tray.

Question No: 17 (Marks: 1) - Please choose one

What should the researcher do if they have achieved a low response rate?

- ▶ Copy responses and paste them again.
- ▶ Abandon the research project entirely.
- ▶ **Recognize and accept the possible limitations of a low response rate.**
- ▶ Fill in some more questionnaires themselves.

Question No: 18 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

- ▶ How many workers are employed at this plant?
- ▶ What is your attitude towards the management at this plant?
- ▶ **Do you always cast your vote in trade union elections?**
- ▶ Are you aware of the main features of the European Union Directive for informing and consulting employees?

Ref: These types of questions are closely related to question about attitudes and beliefs.

Question No: 19 (Marks: 1) - Please choose one

Questions that include negatives should be avoided because:

- ▶ The respondent may miss out the negative word.
- ▶ The respondent may be unsure how to answer if the question includes a double negative.
- ▶ The respondent may be led by the question.
- ▶ **All of the given options.**

Ref: When using a Likert scale it can be difficult to avoid asking a question with a negative, however the researcher should attempt to avoid them if possible.

Question No: 20 (Marks: 1) - Please choose one

Which of the following is likely to happen if clear instructions are not given as to how the respondent should answer the question?

- ▶ Respondents may delete inappropriate answers rather than select appropriate ones.
- ▶ Respondents may choose only one answer when they need to choose as many as apply.
- ▶ Respondents may complete questions that are not relevant to them.
- ▶ **All of the given options.**

Ref: Clear instructions are vital as they allow for the respondent to move quickly and efficiently through the questionnaire which may in turn aid response rate.

Question No: 21 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening

question.

► **Respondents may be unwilling to reveal information as they believe they are likely to be identified.**

Question No: 22 (Marks: 1) - Please choose one

Why should a business researcher record and transcribe interviews?

- It overcomes all possible ethical considerations.
- The response of participants can be more readily shared with senior management.
- **It allows a more thorough examination of what the interviewee has said.**
- It allows the researcher to demonstrate his/her technical proficiency.

Ref: Having an accurate record of the interview on a tape recording means not only that analysis is easier, but also that the actual interview will not be punctuated by the researcher having to take notes.

Question No: 23 (Marks: 1) - Please choose one

Why does qualitative interviewing has an advantage over participant observation when it comes to longitudinal research?

- **Repeat interviews are easier to organise.**
- It allows for a better exploration of key issues.
- It is a more focused research method.
- Participant observers are prone to 'go native' during longitudinal research.

Ref: Re-visiting research sites for follow up interviews is likely to be easier than arranging a series of subsequent observations.

Question No: 24 (Marks: 1) - Please choose one

Mr. Jamil is studying the use of individualized instruction with elementary school students. He is particularly interested in understanding what problems are encountered—and how those problems are resolved—when teachers switch to this approach. Which sampling strategy is he likely to use to select his sample?

- Intensity
- Convenience
- **Purposive**
- Quota

Question No: 25 (Marks: 1) - Please choose one

The logic of purposive sampling is:

- To use participants because the researcher has access to them.
- That a random sample can generalize to a population.
- **That a few information-rich participants studied in depth yield many insights about a topic.**

- To include all participants, even though they are not all relevant to the problem.

Question No: 26 (Marks: 1) - Please choose one

Which type of sampling strategy is exemplified by selecting specific principals because faculty and colleagues the researcher has spoken to believe them to be highly effective?

- Intensity
- Homogeneous
- **Snowball**
- Quota

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Ref: Snowball sampling is a special non probability method used when the desired sample characteristic is rare. It may be extremely difficult or cost prohibitive to locate respondents in these situations. Snowball sampling relies on referrals from initial subjects to generate additional subjects.

Question No: 27 (Marks: 1) - Please choose one

Which of the following is NOT characteristic of qualitative data?

- ▶ Rich descriptions
- ▶ **Concise**
- ▶ Voluminous
- ▶ Unorganized

Ref: Qualitative data is anything but concise and succinct. ,

Question No: 28 (Marks: 1) - Please choose one

Which of the following is a drawback of a computerized analysis of data?

- ▶ The likelihood of re-examination of the data is diminished.
- ▶ The computer expedites the analysis of data but cannot code it.
- ▶ Analysis of qualitative data is best appreciated if a researcher has some experience doing so without a computer.

▶ **Re-examination, lack of coding, analysis of qualitative data.**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381473.cw/index.html

Question No: 29 (Marks: 1) - Please choose one

Which of the following is NOT a strategy that can guide data interpretation?

- ▶ Pay attention to your topic or research focus as it will help guide your selection of important parts of your data.
- ▶ Examine categories with large amounts of data as they are likely identifying important concepts.
- ▶ Examine existing studies related to your topic to identify potential interpretative frameworks.

▶ **Pay attention to your preconceived notions of the meaning of the data as it reflects a "grounded" perspective.**

Ref: Interpretation of qualitative data analyses is done by the researcher but should reflect participants' views.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381487.cw/index.html

Question No: 30 (Marks: 1) - Please choose one

A measure that indicates the average performance of a group on some variable is known as;

- ▶ **Mean**
- ▶ Analysis of covariance
- ▶ Chi square
- ▶ Standard deviation

Question No: 31 (Marks: 1) - Please choose one

Which advice would you offer a novice researcher conducting his first observation?

- ▶ **Observe only one behavior at a time**
- ▶ Allow variables to emerge from the context

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Record behaviors only after leaving the site
- ▶ Develop a preconceived notion of what is going to help structure the observation

Ref: Observing a single variable will help her maintain focus and develop understanding.

Question No: 32 (Marks: 1) - Please choose one

Which of the following is linked with an abstract model of underlying relations or causal mechanism?

▶ Historical comparative research

- ▶ Social research
- ▶ Action research
- ▶ Experimental research

Question No: 33 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling
- ▶ Purposive sampling

Question No: 34 (Marks: 1) - Please choose one

Which of the following would generally require the largest sample size?

- ▶ Cluster sampling
- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Proportional stratified sampling

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc7.htm>

Question No: 35 (Marks: 1) - Please choose one

Determining the sample interval (represented by K), randomly selecting a number between 1 to K, and including each K element in your sample are the steps for which form of sampling?

- ▶ Simple Random Sampling
- ▶ Stratified Random Sampling
- ▶ Systematic Sampling
- ▶ Cluster sampling

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc7.htm>

Question No: 36 (Marks: 1) - Please choose one

Which of the following means that all the items in a scale or index fit together or measure a single construct?

- ▶ Scale
- ▶ Index
- ▶ Uni dimensionality
- ▶ Weighing

Uni dimensionality: All the items in a scale or index fit together, or measure a single construct.

Question No: 37 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

► Replication pattern

- Specification pattern
- Suppressor variable pattern
- Negative linear relationship

Page#110

The **replication pattern** is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable. It means that the control variable has no effect.

Question No: 38 (Marks: 1) - Please choose one

The design in which one group of research participants is administered a treatment and is then compared, on the dependent variable, with another ***** of research participants who did not receive the experimental treatment is known as:

- One-group posttest-only design
- One-group pretest-posttest design
- **Posttest-only design with non-equivalent groups**
- Time series design

<http://www.southalabama.edu/coe/bset/johnson/mca/mc9.htm>

Question No: 39 (Marks: 1) - Please choose one

Which one of the following refers to making inferences pertinent to the meaning and implications of the research investigation?

► Interpretation

- Conclusions
- Analysis
- Reporting

Ref: Interpretation refers to making inferences pertinent to the meaning and implications of the research investigation and drawing conclusions. In order for interpretation, the data have to be meaningfully analyzed. For purposes of analysis the researchers use statistics.

Question No: 40 (Marks: 1) - Please choose one

Which of the following elements of Observation is/are included in Non Reactive research?

- External Appearance
- Count Behaviors
- Time Duration
- **All of the given options**

Lesson 36

Observations:

- External Appearance
- Count Behaviors
- Time Duration.

Question No: 41 (Marks: 1) - Please choose one

Which of the following is/are the Varieties of Non-Reactive Observations?

- Physical Traces
- Archives

Question No: 46 (Marks: 1) - Please choose one

When a marketing manager tells the marketing department to schedule a test market in Lahore because he feels that this city is "typical" of the composition of the target market for a new product nationally, this is an example of what type of sample?

- ▶ Judgment sample
- ▶ **Convenience sample**
- ▶ Stratified sample
- ▶ Cluster sample

(page 90)

Question No: 47 (Marks: 1) - Please choose one

Ali is an interviewer and incorrectly entered respondents' choices on ten surveys. This type of error is called:

- ▶ Non respondent error
- ▶ **Random error**
- ▶ Respondent error
- ▶ Editing error

Ref: Random error is caused by any factors that randomly affect measurement of the variable across the sample.

Question No: 48 (Marks: 1) - Please choose one

When a field interviewer records an impossible answer (e.g. birth date: 1850), this means that the data need to be:

- ▶ Coded
- ▶ Deleted
- ▶ **Edited**
- ▶ None of the given options

Question No: 49 (Marks: 1) - Please choose one

All of the following are software packages that can be used for data analysis EXCEPT:

- ▶ SPSS
- ▶ SAS
- ▶ Excel
- ▶ **Word**

Question No: 50 (Marks: 1) - Please choose one

A stratified sample in which the number of sampling units drawn from each stratum is in proportion to the population size of that stratum is called :

- ▶ **Proportional stratified sample**
- ▶ Balanced stratified sample
- ▶ Even stratified sample
- ▶ Primary stratified sample

Ref: Proportional stratified sample: A stratified sample in which the number of sampling units drawn from each stratum is in proportion to the population size of that stratum.

Question No: 51 (Marks: 1) - Please choose one

Which experimental design has the following symbols: O1 X O2?

► Solomon four-group design

- Static group design
- One-group pretest-posttest design
- None of the given options

Solomon's Four Group Design: To gain more confidence in internal validity in experimental designs, it is advisable to set up two experimental groups and two control groups. One experimental group and one control group can be given the both pretest and the posttest. The other two groups will be given only the posttest. Here the effects of treatment can be calculated in several different ways as shown in figure 1:

Figure 1: Solomon's four group design

Group Pretest Treatment Posttest

1. Experimental O1 X O2
2. Control O3 - O4
3. Experimental - X O5
4. Control - - O6

Question No: 52 (Marks: 1) - Please choose one

What is an example of a true experimental design?

► Pretest posttest control group design

- Non equivalent control group design
- One-shot case study design
- One- group pretest posttest design

(page 118)

Question No: 53 (Marks: 1) - Please choose one

The researcher examining descriptive statistics for any particular variable is using which type of statistics?

- Multivariate
- Interval
- Univariate

► None of the given options

The proposition having one variable in it may be called as univariate proposition, those with two variables as bivariate proposition, and then of course multivariate containing three or more variables.

Question No: 54 (Marks: 1) - Please choose one

When salespeople are tested one year after a sales training program and perform better on the exam, not because of the training program, but because they have gained one year's experience in sales, this is an example of a:

- Selection effect

► Maturation effect

- History effect
- Cohort effect

Ref: Examples of the maturation effect include growing older, stronger, wiser, and more experienced.

Maturation. The results of an experiment are contaminated by changes within the participants with the passage of time.

Question No: 55 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Mr. Ali is concerned about potential problems with the reliability of his observers. Which strategy would you suggest, he should follow?

- ▶ Train his observers carefully
- ▶ Monitor his observers in the field
- ▶ Specify the observational variables

▶ **All of the given options**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html

Question No: 56 (Marks: 1) - Please choose one

Which type of observer is likely to get a reasonable insight into the participant's views and develop a good rapport with him?

- ▶ Non participant
- ▶ **Participant**
- ▶ Structured participant
- ▶ All of the given options

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html

Question No: 57 (Marks: 1) - Please choose one

Which of the following is just an understanding the culture of people from their own perspective?

- ▶ **Ethnography**
- ▶ Non-Participant Observation
- ▶ Observer effect
- ▶ None of the given options

Ref: Ethnography comes from cultural anthropology. Ethno means people or a folk distinct by their culture and graphy refers to describing something. Thus ethnography means describing a culture and understanding another way of life from the native point of view. It is just an understanding the culture of people from their own perspective.

http://books.google.com.pk/books?id=-gesfqkn5nkC&pg=PA16&lpg=PA16&dq=the+culture+of+people+from+their+own+perspective+is+Ethnography&source=bl&ots=L_YuSNawj1&sig=0LHi5OKtRltbAXdW735tMeNtxpc&hl=en&ei=F1VMTbGGEomShAf1IPC1Dg&sa=X&oi=book_result&ct=result&resnum=3&ved=0CCUO6AEwAg#v=onepage&q=concept%20of%20culture%20helps%20the%20ethnographer%20search%20fo&f=false

Question No: 58 (Marks: 1) - Please choose one

How many independent variables are there in a comparative study investigating the effect of gender on empathy?

- ▶ It depends on how many levels of empathy are studied
- ▶ **One**
- ▶ There are no independent variables
- ▶ None of the given options

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381743.cw/index.html

Question No: 59 (Marks: 1) - Please choose one

When a manufacturer studies his most successful retailer in depth in order to determine some better ideas for displaying bicycles in its retail stores, this is an example of:

- ▶ An experiment
- ▶ A test market
- ▶ **A case study**
- ▶ Causal research

CASE STUDY: Case study is a comprehensive description and analysis of a single situation or a number of specific situations i.e. cases. It is an intensive description and analysis of a case. Researchers often use qualitative approach to explore the case in as rich a detail as possible. The examples could be a case study of a highly successful organization, a project (Orangi Pilot Project, Karachi), a group, a couple, a teacher, and a patient. In a way it is more like a clinical approach to study the case in detail.

Question No: 60 (Marks: 1) - Please choose one

Which of the following is a good characteristic for a focus group moderator to possess?

- ▶ Good listener
- ▶ Ability to make people feel comfortable so that they will talk in the group
- ▶ Ability to control discussion without being overbearing

▶ **All of the given options**

http://books.google.com/books?id=B2smECX7Sn4C&pg=PA254&lpg=PA254&dq=following+is+a+good+characteristic+for+a+focus+group+moderator+to+possess?&source=bl&ots=Dpn9JKqXxh&sig=Fs541laZKpAgiuJUZN-vvkEBuu4&hl=en&ei=vFZMTaqOEI-HrAf65ZzaBg&sa=X&oi=book_result&ct=result&resnum=2&ved=0CBkO6AEwAQ#v=onepage&q&f=false

Question No: 61 (Marks: 1) - Please choose one

In a prepared report, what should follow the Methodology Section?

- ▶ **Results**
- ▶ References
- ▶ Title page
- ▶ Tables

(page 162)

Question No: 62 (Marks: 1) - Please choose one

_____ are the most important qualitative research procedure.

▶ **Focus groups**

- ▶ Depth interviews
- ▶ Case study
- ▶ All of the given options

The three most common qualitative methods, explained in detail in their respective modules, are participant observation, in-depth interviews, and focus groups.

<http://www.fhi.org/nr/rdonlyres/etl7vogszehu5s4stpzb3tyqlpp7rojv4waq37elphvei3tqmc4ty6dunbccfzxtai2rvbaubzmz4f/overview1.pdf>

Question No: 64 (Marks: 1) - Please choose one

Which of the following represents this reference, “Cornett, M., Wiley, B. J., & Sankar, S. (1998). The pleasures of nurturing, London: McMunster Publishing”?

► Book by more than one author

► **Edited book**

► Book by a single author

► Journal Article

Chapter in an edited book: This is an article written by single or multiple authors and is printed in the edited book. Riley, T., & Brecht, M. L. (1998). The success in mentoring process. In R. Williams (Ed.) Mentoring and career success. pp. 129-150. New York: WilsonPress.

Question No: 1 (Marks: 1) - Please choose one

An inductive logic is one that:

- ▶ Involves testing as explicitly defined hypothesis.
- ▶ Does not allow for findings to feed back into the body of knowledge.
- ▶ Uses quantitative methods whenever possible.
- ▶ Allows theory to emerge out of the data.

Rationale: The usual application of inductive theory, however, is to allow theory to emerge from our findings. We find an interesting question, we gather data on it and we 'theorise' from our findings. It may be that these 'theories' are, in reality, simply 'interesting insights' rather than 'grand theories' but they can be valuable for all that.

Question No: 2 (Marks: 1) - Please choose one

Which of the following research questions is BEST answered using action research?

- ▶ How can I improve the interaction of students of different ethnicity in my class?
- ▶ What factors influence student interaction in multiethnic classes?
- ▶ Is there a difference between male and female acceptance of others in multiethnic classes?
- ▶ How do students from Asian countries adjust to classroom practices in U.S. schools?

Question No: 3 (Marks: 1) - Please choose one

Which of the following is characteristic of action research?

- ▶ Variables are tightly controlled.
- ▶ Results are generalizable.
- ▶ Results demonstrate cause-and-effect relationships.
- ▶ Data are usually qualitative.

Question No: 4 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following maybe applied to this statement?

- ▶ The level of manipulation used to elicit data collection.
- ▶ The data-collection technique.
- ▶ The type of data collected.
- ▶ Type, technique and manipulation of data collection.

Question No: 5 (Marks: 1) - Please choose one

Which of the following is NOT a drawback to free response items?

- ▶ Results from free response items take longer to analyze.
 - ▶ Many participants tend not to answer free response items.
 - ▶ Free response items allow participants to add information that was not directly requested.
 - ▶ Many participants tend to be less truthful in free response items.
- Question No: 6 (Marks: 1) - Please choose one

After you locate a source, you should write down all details of the reference,except;

- ▶ Volumes
- ▶ Full names of the authors

- ▶ Titles
- ▶ Price

What to Record

After you locate a source, you should write down all details of the reference (fullnames of the authors, titles, volumes, issue, pages)

<http://free-books-online.org/mathematics/business-mathematics-statistics/research-methods-business-mathematics-statistics/conducting-a-systematic-literature-review-2/>

Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

- ▶ How many workers are employed at this plant?
- ▶ What is your attitude towards the management at this plant?
- ▶ Do you always cast your vote in trade union elections?
- ▶ Are you aware of the main features of the European Union Directive for informing and consulting employees?

Rationale: These types of questions are closely related to question about attitudes and beliefs.

Question No: 8 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening question.
- ▶ Respondents may be unwilling to reveal information as they believe they are likely to be identified.

Rationale: An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each

individual.

Question No: 9 (Marks: 1) - Please choose one

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

- ▶ What role to adopt while interviewing male managers?
- ▶ How many female employees should be interviewed for a representative sample?
- ▶ How to overcome the issue of false consciousness?
- ▶ What data to use while publishing findings?

A significant dilemma for feminist researchers (and possibly all qualitative researchers) is when the respondent's interpretation of their experience and that of the researcher, experience a tension. The researcher may be tempted to assume that the respondent is simply unaware of the way in which they are being exploited and can therefore be said to have a false consciousness.

Question No: 10 (Marks: 1) - Please choose one

Which of the following is NOT characteristic of qualitative data?

- ▶ Rich descriptions
- ▶ Concise
- ▶ Voluminous
- ▶ Unorganized

Qualitative data is anything but concise and succinct.

Question No: 11 (Marks: 1) - Please choose one

Why is describing the context equally, as important aspect of qualitative data analysis as is describing the participants?

- ▶ Descriptions of context are more objective than descriptions of participants.
- ▶ Descriptions of context are based on facts, not perceptions.

► Participants' behavior cannot be separated from the context in which it occurs.

- ▶ Participants are the context.

This question reflects the importance of all aspects of the second stage of qualitative data analysis.

Question No: 12 (Marks: 1) - Please choose one

Which one is not the part of non reactive research?

- ▶ Physical traces
- ▶ Archives
- ▶ Observations
- ▶ Interviews

Reactive: people being studied are aware of being studied (Experiments Surveys)

Noncreative: Subjects are unaware they are being studied (Unobtrusive measures, Often use naturalistic settings) (zh, vuzs, 2010)

Question No: 13 (Marks: 1) - Please choose one

The information gained by someone other than researcher conducting the study is called _____.

- ▶ Primary data
- ▶ Reliable data
- ▶ Valid data
- ▶ Secondary data

Secondary data refer to information gathered by someone other than the researcher conducting the present study. Secondary data are usually historical, already assembled, and do not require access to respondents or subjects. (handouts)

Question No: 14 (Marks: 1) - Please choose one

Which of the following is **not** an example of historical comparative research?

- ▶ Social Forms

- ▶ Economic Forms
- ▶ Civil Wars
- ▶ Turnover

Question No: 15 (Marks: 1) - Please choose one

Which of the following would you recommend to a graduate student to ensure the quality of his research report?

- ▶ Write a detailed explanation of the methods used to investigate the problem.
- ▶ Explicitly state underlying assumptions related to the topic.
- ▶ Acknowledge the limitations of generalizability while assisting the reader in understanding the transferability of the findings.
- ▶ Detailed method, assumptions and limitation.

Rational: it should be all of the above if we don't have such option then I have to select most important one which is A to me (zh, vuzs, 2010)

http://wps.prenhall.com/chet_airasian_edresearch_8/0,11083,2527149-content,00.utf8.html

Question No: 16 (Marks: 1) - Please choose one

In which of the following Tests, we usually go for personal interviewing to test the questionnaire?

- ▶ Test Run
- ▶ Pilot Test
- ▶ Post Hoc Test
- ▶ T- Test

In which of the following Tests, we should come to know, does a questionnaire look like an integrated unit?

- ▶ Test Run
- ▶ Pilot Test
- ▶ Post Hoc Test
- ▶ T- Test

not sure

Question No: 18 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

- ▶ Parameter
- ▶ Sampling Unit
- ▶ Observation Unit
- ▶ Statistic

Sampling Unit

A sampling unit is that element or set of elements considered for selection in some stage of sampling.

Question No: 19 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

- ▶ Purposive Sampling
- ▶ Snowball Sampling
- ▶ Convenience Sampling
- ▶ Quota Sampling

Convenience sampling (also called haphazard or accidental sampling) refers to sampling by obtaining units or people who are most conveniently available.

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling
- ▶ Purposive sampling

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc7.htm>

Question No: 21 (Marks: 1) - Please choose one

Which of the following **is NOT** a type of Non-random sampling?

- ▶ Cluster sampling
- ▶ Convenience sampling
- ▶ Quota sampling
- ▶ Purposive sampling

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

- ▶ Time-series data
- ▶ Primary data
- ▶ Secondary data
- ▶ Analyzed data

Question No: 23 (Marks: 1) - Please choose one

Which of the following refers to the partial replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

- ▶ Replication pattern

- ▶ Specification pattern
- ▶ Suppressor variable pattern
- ▶ Negative linear relationship

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable. It means that the control variable has no effect.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need **Not** to;

- ▶ Master the literature
- ▶ Take numerous detailed notes
- ▶ Create a bibliography list
- ▶ Learn your findings

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- ▶ Analysis
- ▶ Synthesis
- ▶ Results
- ▶ Findings

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism. A researcher often looks for new evidence to verify specific links that appear only after an explanatory model is developed. He or she evaluates how well the model approximates the evidence and adjusts it accordingly.

Question No: 26 (Marks: 1) - Please choose one

Which of the following control techniques available to the researcher, controls both known and unknown variables?

- ▶ Building the extraneous variable into the design
- ▶ Matching
- ▶ Random assignment
- ▶ Analysis of covariance

Random Assignment

Random assignment is the most important technique that can be used to control confounding variables because it has the ability to control for both known and unknown confounding extraneous variables. Because of this characteristic, you should randomly assign whenever and wherever possible.

Random assignment makes the groups similar on all variables at the start of the experiment.

If random assignment is successful, the groups will be mirror images of each other.

Question No: 27 (Marks: 1) - Please choose one

Which of the following is more operational with the help of coding system?

- ▶ External Appearance
- ▶ Count Behaviors
- ▶ Content analysis
- ▶ Time Duration

Constructs in content analysis are operationalizing with a *coding system*, a set of instructions or rules on how to systematically observe and record content from text. Look at the construct of “leadership role;” for measuring this construct written rules should be provided telling how to classify people

Question No: 28 (Marks: 1) - Please choose one

What is the particular advantage of secondary analysis to business students?

- ▶ It is less challenging intellectually
- ▶ It guarantees positive results

- ▶ It is less expensive and less time consuming than primary analysis
- ▶ It enables students to gain experience of the workplace

Rationale: For students conducting a small research project either as an undergraduate or postgraduate, secondary analysis of existing data should be considered as a cost and time effective way of proceeding.

Question No: 29 (Marks: 1) - Please choose one

Which of the following similarity is found in Qualitative research and Survey research?

- ▶ Examine topics primarily from the participants' perspectives.
- ▶ They are guided by predetermined variables to study.
- ▶ They are descriptive research methods.
- ▶ Have large sample sizes.

Question No: 30 (Marks: 1) - Please choose one

A single element or group of elements that is eligible for selection via the sampling process is called a:

- ▶ Sampling panel
- ▶ Sampling unit
- ▶ Sampling error
- ▶ Sampling quota

A sampling unit is that element or set of elements considered for selection in some stage of sampling. Sampling may be done in single stage or in multiple stages.

Question No: 31 (Marks: 1) - Please choose one

Codes are rules for _____ data.

- ▶ Classifying
- ▶ Interpreting

► Recording

► All of the given options

Although codes are generally considered to be numerical symbols, they are more broadly defined as the rules for interpreting, classifying, and recording data.

Question No: 32 (Marks: 1) - Please choose one

Which of the following contain the captions for the rows of a table?

► Boxheads

► Footnotes

► Source notes

► None of the given options

A statistical table has at least four major parts and some other minor parts.

(1) The Title

(2) The Box Head (column captions)

(3) The Stub (row captions)

(4) The Body

(5) Prefatory Notes

(6) Foots Notes

(7) Source Notes

The general sketch of table indicating its necessary parts is shown below

Question No: 33 (Marks: 1) - Please choose one

The experimental design that uses one-group, a treatment, and a posttest is called ____.

► One-shot case study design

► Pretest posttest control group design

► Solomon four-group design

SUBSCRIBE

AR Lucky Bahi

- One-group pretest posttest design

SUBSCRIBE

AR Lucky Bahi

One Group Pretest-posttest Design: This design has one group, a pretest, a treatment, and a posttest. It lacks a control group and random assignment. Continuing with the previous example, the researcher gives a group of students an attitude questionnaire to complete, shows a horror film, then has them

Question No: 34 (Marks: 1) - Please choose one

When a researcher tries to say that the results of a test market in Karachi will hold in a national rollout of the new product, this researcher is concerned with:

- ▶ Internal validity
- ▶ The repeated measures effect
- ▶ Constant error
- ▶ External validity

Question No: 35 (Marks: 1) - Please choose one

Obtaining secondary data is typically _____ and _____ expensive than obtaining primary data.

- ▶ Faster; more
- ▶ Slower; more
- ▶ Faster; less
- ▶ Slower; less

External validity involves the extent to which the results of a study can be generalized (applied) beyond the sample. In other words, can you apply what you found in your study to other people (population validity) or settings (ecological validity). A study of fifth graders in a rural school that found one method of teaching spelling was superior to another may not be applicable with third graders (population) in an urban school (ecological).

the extent to which the results of a study can be generalized from the specific sample that was studied to a larger group of subjects

the extent to which the results of an experiment can be generalized from the set of environmental conditions created by the researcher to other environmental conditions (settings and conditions)

Question No: 36 (Marks: 1) - Please choose one

Which of the following is a disadvantage of secondary data?

- ▶ User has no control over their reliability and validity
- ▶ Inability to convert the data
- ▶ Typically require additional access to research respondents
- ▶ All of the given options

Question No: 37 (Marks: 1) - Please choose one

The study of documents used by writers is a method of_____.

- ▶ In-depth analysis
- ▶ Time series analysis
- ▶ Regression analysis
- ▶ None of the given options

In a way content analysis is also the study of documents through which the writers try to communicate, though some of the documents (like population census) may simply contain figures.

Question No: 38 (Marks: 1) - Please choose one

Historical-Comparative research focuses on:

- ▶ Its broad historical processes
- ▶ Comparing forms
- ▶ Tracing the development of social forms
- ▶ All of the given options

SUBSCRIBE

AR Lucky Bahi

Historical-Comparative research focuses on:

SUBSCRIBE

AR Lucky Bahi

- Tracing the development of social forms (patterns) overtime as well as its broadits broad

historical processes, and

- Comparing those forms and its developmental processes across cultures (countries/nations).

Question No: 39 (Marks: 1) - Please choose one

When a manufacturer studies his most successful retailer in depth in order to determine some better ideas for displaying bicycles in its retail stores, this is anexample of:

- ▶ An experiment
- ▶ A test market
- ▶ A case study
- ▶ Causal research

Researchers often use

qualitative approach to explore the case in as rich a detail as possible. The examples could be a case study of a highly successful organization, a project (Orangi Pilot Project, Karachi), a group, a couple, a teacher, and a patient. In away it is more like a clinical approach to study the case in detail.

Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of deception in business research?

- ▶ The obtaining of company material without permission.
- ▶ The researcher wearing a disguise during an observation.
- ▶ **The researcher representing their research as being about a different topic**

The researcher failing to ask permission to interview someone.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch05/>

Question No: 8 (Marks: 1) - Please choose one

Which of the following is least likely to occur as an ethical problem with electronic research?

- ▶ Privacy could be invaded.
- ▶ **People are not likely to be able to stop once they have begun participating.**
- ▶ Debriefing could be avoided.
- ▶ Informed consent cannot be completely monitored.

Chapter 1

Question No: 9 (Marks: 1) - Please choose one

All of the following are unethical issues, EXCEPT;

- ▶ Invoicing irregularities
- ▶ Avoiding legal liability
- ▶ Misrepresenting results

▶ **Seeking permission for entry**

Unethical activities

- **Violating nondisclosure agreements.**
- **Breaking respondent confidentiality.**

Which of the following is a double-barrelled question?

How satisfied you are with the performance appraisal system?

How satisfied you are with investment levels in new and existing software packages?

How satisfied you are with the organisation's marketing strategy?

How satisfied you are with the levels of customer satisfaction?

REF:

Page 78

Double-barrelled questions are ones that ask about two things. This question should in fact be split into two, one about existing software and one about new software.

Question No: 14 (Marks: 1) - Please choose one

The small scale trial run of a particular item is called _____.

Test Run

Pilot test

Post hoc test

T test

REF:

Page 80

Pilot testing also called pre-testing means small scale trial run of a particular component;

Question No: 15 (Marks: 1) - Please choose one

Which of the following terms describes an interview protocol in which the topics and questions to be addressed are identified, but the order in which the questions can be asked is not stipulated?

Unstructured

Partially structured

Semistructured

Structured

Question No: 23 (Marks: 1) - Please choose one

Which of the following is a form of Non-random sampling?

- ▶ Snowball sampling
- ▶ Convenience sampling
- ▶ Quota sampling

▶ All of the given option

<http://www.southalabama.edu/coe/bset/johnson/lectures/lec7.htm>

Nonrandom Sampling Techniques

The other major type of sampling used in quantitative research is nonrandom sampling (i.e., when you do not use one of the random sampling techniques). There are four main types of nonrandom sampling:

- The first type of nonrandom sampling is called convenience sampling
- The second type of nonrandom sampling is called quota sampling
- The third type of nonrandom sampling is called purposive sampling
- The fourth type of nonrandom sampling is called snowball sampling

Question No: 24 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling

▶ Purposive sampling

It is similar to purposive sampling. Here is a list of the different types:

- Maximum variation sampling (purposively selecting a wide range of cases)
 - Homogeneous sample selection (selecting a small and homogeneous case or set of cases for intensive study)
- Extreme-case sampling (identifying the extremes or poles of some characteristic and then selecting cases representing these extremes for examination)
 - Typical-case sampling (selecting what are believed to be average cases)
- Critical-case sampling (selecting what are believed to be particularly important cases)
 - Negative-case sampling (selecting cases that disconfirm the researcher's expectations and generalizations)
- Opportunistic sampling (selecting cases when the opportunity arises)
 - Mixed purposeful sampling (mixing of more than one of the above)

Question No: 40 (Marks: 1) - Please choose one

Which section of a report gives a summary of the contents, including the purpose, description of the participants, the results, and any conclusions being offered?

▶ **Methodology**

▶ Introduction

▶ Abstract

▶ Letter of transmittal

(PAGE 159)

Question No: 41 (Marks: 1) - Please choose one

Which of the following characteristic of the scientific method is defined as the confirmation or refutation of the observation through the scientific method by using sensory experience?

▶ Empirical

▶ **Verifiable**

▶ Observable

▶ Cumulative

(PAGE 3)

Scientific method is concerned with the realities that are observable through “sensory experiences.” It generates knowledge which is verifiable by experience or observation

Question No: 42 (Marks: 1) - Please choose one

Basic research can also be called as

▶ Practical research

▶ **Fundamental Research**

▶ Action research

▶ Assessment research

basic research (also called academic research or pure research or fundamental research). Page#8

Question No: 43 (Marks: 1) - Please choose one

Which of the following statement is true about the peer review?

▶ Name of the article's author is not mentioned to avoid biases

▶ It should be accepted

▶ **It should be published in a well known journal**

▶ Name of the author should be mentioned for the further correspondence

Question No: 44 (Marks: 1) - Please choose one

After making the inventory of the relevant variables the next step is to:

▶ Provide logic for the relationship

▶ Make inventory of the propositions

▶ **Identify the relationships between the variables**

▶ Deduce hypothesis

Question No: 45 (Marks: 1) - Please choose one

Theoretical framework helps to:

▶ Deduce the hypothesis

▶ Reject the hypothesis

▶ **Test the hypothesis**

▶ Accept the hypothesis

From the theoretical framework, then, testable hypotheses can be developed to examine whether theory formulated is valid or not

Question No: 46 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following is NOT a method of narrowing a topic?

- ▶ Literature review
- ▶ Specifying the context
- ▶ Talk to the experts
- ▶ **Pilot testing**

(page 33)

Question No: 47 (Marks: 1) - Please choose one

The working definition of the variables is called:

- ▶ Theoretical definition
- ▶ Dictionary definition
- ▶ **Operational definition**
- ▶ Fundamental definition

Operational definition is also called a working definition

Question No: 48 (Marks: 1) - Please choose one

Which of the following characteristic is reflected by an interval scale?

- ▶ The distance between each participant's individual scores.
- ▶ Arithmetic operations can be performed after data collection
- ▶ Classify the data into exclusive categories
- ▶ **All of the given options**

Question No: 1 (Marks: 1) - Please choose one

Which of the following is the basis of the Scientific Method? To test hypothesis in conditions that is conducive to its success. To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypothesis and if they are disproved, they should be abandoned completely.

<http://www.answers.com/topic/scientific-method>

<http://mansci.journal.informs.org/cgi/content/abstract/12/8/C-135>

Question No: 2 (Marks: 1) - Please choose one

An inductive logic is one that:

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

sem003 - sta630 - sta630

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Involves testing as explicitly defined hypothesis.

Does not allow for findings to feed back into the body of knowledge.

Uses quantitative methods whenever possible.

Allows theory to emerge out of the data.

Rationale: The usual application of inductive theory, however, is to allow theory to emerge from our findings. We find an interesting question, we gather data on it and we 'theorise' from our findings. It may be that these 'theories' are, in reality, simply 'interesting insights' rather than 'grand theories' but they can be valuable for all that.

Question No: 3 (Marks: 1) - Please choose one

Which of the following is not a concept?

Leadership.

Total Quality Management.

Human Resource Management.

Intelligence Quotient (IQ).

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Rationale: Concepts are the building blocks of theory, each of which represents a label given to a common element of the social world. IQ is a measure of the concept of intelligence, it is not a concept in itself.

Question No: 4 (Marks: 1) - Please choose one

Which of the following is the definition of an independent variable?

A variable that is manipulated or controlled by the experimenter.

A response variable.

The behavioural measure made by the experimenter.

A dependent variable that is controlled by the experimenter.

<http://www.umpi.maine.edu/~stump/psysci.html>

Question No: 5 (Marks: 1) - Please choose one

The cause variable or the one that identifies forces or conditions that act on something else is known as:

Moderating variable

Independent variable

Categorical variable

Dependent variable

Page 19

The cause variable, or the one that identifies forces or conditions that act on something else, is the *independent variable*.

Question No: 6 (Marks: 1) - Please choose one

A measure is reliable if it provides consistent_____.

Hypothesis

Results

SUBSCRIBE

AR Lucky Bahi

Procedure

Sensitivity

http://www.opppapers.com/search_results.php?action=search&query=A+measure+is+reliable+if+it+provides+consistent

Question No: 7 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

The measure apparently reflects the content of the concept in question. **A**
Criterion is employed on which cases are known to differ.

A future criterion is employed on which cases are known to differ.

A measure is gauged by comparing it to measures of the same concept developed through other methods.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Question No: 8 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

The type of data collected. The
data-collection technique.

The level of manipulation used to elicit data collection.

All of the given options.

Question No: 9 (Marks: 1) - Please choose one

Cross cultural studies are an example of:

Comparative design.

Longitudinal design.

Experimental design.

Case study design.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch02/>

The comparative design typically studies two contrasting cases, so that a better understanding of social phenomena can be formed. Clearly, cross-cultural studies are a good example, therefore, of comparative design in action.

Question No: 10 (Marks: 1) - Please choose one

When constructing a questionnaire, there are few principles to which you should adhere. Which of the following is NOT one of those principles?

Avoid using "leading" or "loaded" questions

Avoid double-barreled questions

Avoid ambiguity and confusion

Avoid arranging questions in a sequence

Page 77_78

Question No: 11 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following statements is true about closed ended questions and open ended questions?

A closed ended question means that the chances of unreliable post-coding is small, whereas an open ended question means that there is a possibility of data processing error.

A closed ended question allows for the researchers terminology to be used, whereas an open ended question allows the respondent to use terms they are familiar with.

A closed ended question allows for easy processing, whereas coding an open ended question can be very time consuming.

A closed ended question has many advantages over open ended question.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/Q#2>

Question No: 12 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer. Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/>

Q#1

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual.

Question No: 13 (Marks: 1) - Please choose one

Which of the following represents excellent advice for conducting an interview? Listen more and talk less

Don't interrupt

Don't be judgmental about the interviewee's beliefs or views

All of the given options

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381345.cw/index.html Q#17

Question No: 14 (Marks: 1) - Please choose one

Smaller sample sizes can be used in correlation research when; The researcher expects no relationship between the variables. There are only two variables to correlate.

The instruments used to measure the variables have low validity and reliability.

The instruments used to measure the variables have high validity and reliability.

5. Procedure for data processing and analysis can be evaluated:

• **Make dummy tables.** See how can we tabulate the data and use the appropriate statistics for purposes of interpretations.

Question No: 25 (Marks: 1) - Please choose one

Which of the following is the complete group of specific population elements relevant to the research project?

Element

Target Population

Sampling Frame

Sampling Unit

Ref: Page No.88: Out of the conceptual variations what exactly the researcher wants to focus on. This may also be called a target population. **Target population is the complete group of specific population elements relevant to the research project.** Target population may also be called *survey population* i.e. that aggregation of elements from which the survey sample is actually selected.

Question No: 26 (Marks: 1) - Please choose one

Which of the following is the summary description of a given variable in a population?Statistic

Observation Unit

Parameter

Sampling Unit

Ref. Page No. 89: A **parameter** is the summary description of a given variable in a population. The mean income of all families in a city and the age distribution of the city's population are parameters.

Question No: 27 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

Parameter

Sampling Unit

Observation Unit

Statistic

Ref. Page No.89: A **sampling unit** is that element or set of elements considered for selection in some stage of sampling. Sampling may be done in single stage or in multiple stages.

Question No: 28 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Purposive Sampling

Snowball Sampling

Convenience Sampling

Quota Sampling

Ref. Page No.90: Convenience sampling (also called *haphazard or accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in the middle of the day do not represent everyone (homemakers, people in the rural areas).

Question No: 29 (Marks: 1) - Please choose one

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

Convenience Sampling

Quota Sampling

Snowball Sampling

Purposive Sampling

Ref. Page No.90: Convenience sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently. Often such sample is taken to test ideas or even to gain ideas about a subject of interest.

Question No: 19 (Marks: 1) - Please choose one

After you locate a source, you should write down all details of the reference, except;

- ▶ Volumes
- ▶ Full names of the authors
- ▶ Titles
- ▶ Price

Page 29

After you locate a source, you should write down all details of the reference (full names of the authors, titles, volumes, issue, pages)

Question No: 20 (Marks: 1) - Please choose one

The small scale trial run of a particular item is called_____.

- ▶ Test Run
- ▶ Pilot test
- ▶ Post hoc test
- ▶ T test

Page#80

Pilot testing also called pre-testing means small scale trial run of a particular component; here we are referring to pilot testing of the questionnaire.

Which of the following provides insight into the complexity of using interviews?

- ▶ Potential influence of gender or cultural differences between interviewer and interviewee
- ▶ The accuracy of the interviewee's responses
- ▶ The different semantic meanings of the language being used
- ▶ **Accuracy, influences and language used**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381400.cw/index.html

Question No: 22 (Marks: 1) - Please choose one

Ms. K sampled the brightest students in the fifth grade at her school. She observed them in their classes at school and as they interacted with teachers and students when on campus. Her observation can be characterized as which of the following?

- ▶ Historical research
- ▶ Typical case sampling
- ▶ Totally structured
- ▶ **Naturalistic**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html

Q#6

Question No: 23 (Marks: 1) - Please choose one

Which of the following could indicate a statistically significant correlation?

- ▶ 0.12
- ▶ 0.34
- ▶ -0.45

▶ **Either .34 or -.45**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381653.cw/index.html

Q#8

Question No: 24 (Marks: 1) - Please choose one

Which of the following involves getting an initial sense of the data by considering fieldnotes, transcripts, or observer comments?

- ▶ Data management
- ▶ **Reading and memoing**
- ▶ Describing the content and participants
- ▶ Classifying and interpreting

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381473.cw/index.html

Q#6

Question No: 25 (Marks: 1) - Please choose one

Which of the following is NOT a strategy that can guide data interpretation?

- ▶ Pay attention to your topic or research focus as it will help guide your selection of important parts of your data.
- ▶ Examine categories with large amounts of data as they are likely identifying important concepts.
- ▶ Examine existing studies related to your topic to identify potential interpretative frameworks.
- ▶ **Pay attention to your preconceived notions of the meaning of the data as it reflects a "grounded" perspective.**

Q#3

Question No: 26 (Marks: 1) - Please choose one

A researcher believes that the effects of a treatment will be different for males and females. Which one is the best method to test this possible interaction?

- ▶ Single-subject design
- ▶ Factorial design
- ▶ Time-series design
- ▶ Quasi-experimental design

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Q#17

Question No: 27 (Marks: 1) - Please choose one

The best single-subject design to use, when it would be unethical to discontinue treatment indefinitely, would likely be:

- ▶ A-B-A-B
- ▶ A-B
- ▶ A-B-A
- ▶ Quasi-experimental

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Q#19

Question No: 28 (Marks: 1) - Please choose one

Which term technically describes a situation in which an observer's work in a first-grade classroom disrupts the normal routines due to the curiosity of the students?

- ▶ Observer effect
- ▶ Participant effect
- ▶ Nonparticipant bias
- ▶ Observer bias

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html

Q#19

Question No: 29 (Marks: 1) - Please choose one

If the researcher promises anonymity to research participants, what can he **not** use?

- ▶ Questionnaires.
- ▶ Participant observation
- ▶ Self-report research
- ▶ Cross-sectional research

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

Q#18

Question No: 30 (Marks: 1) - Please choose one

Q#10

Question No: 32 (Marks: 1) - Please choose one

A focus group session is ideally for;

- 1 hour
- 1 and half hour
- 2 hours
- More than 2 hours

Page#155

For duration, a focus group session typically lasts up to an hour and a half.

Question No: 33 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

- Replication pattern
- Specification pattern
- Suppressor variable pattern
- Negative linear relationship

Page#110

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable. It means that the control variable has no effect.

Question No: 34 (Marks: 1) - Please choose one

Which of the following is not a way to manipulate an independent variable?

- Random technique
- Amount technique
- Type technique
- Presence technique

Question No: 40 (Marks: 1) - Please choose one

Which of the following types of analysis can be done using secondary analysis?

- ▶ The analysis of specific subgroups
- ▶ Longitudinal analysis
- ▶ Cross-cultural analysis
- ▶ All of the given options

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#4

Question No: 41 (Marks: 1) - Please choose one

When an interviewer unintentionally and mistakenly checks the wrong response on a checklist during an interview, this is an example of:

- ▶ Social desirability bias
- ▶ Interviewer error
- ▶ Interviewer cheating
- ▶ Sponsorship bias

http://books.google.com.pk/books?id=BJil19CAGQwC&pg=PA393&dq=Interviewer+cheating&hl=en&ei=c3YhTazRIoGaOvDHZJ0J&sa=X&oi=book_result&ct=result&resnum=4&ved=0CDIQ6AEwAw#v=onepage&q=Interviewer%20cheating&f=false

Question No: 42 (Marks: 1) - Please choose one

When an interviewer asks the respondent to state which of six salary categories represents his gross income the previous year, this is an example of a:

- ▶ Social desirability question
- ▶ Disguised question
- ▶ Structured question
- ▶ Unstructured question

Question No: 43 (Marks: 1) - Please choose one

"Can you tell me more about what you mean by that?" is an example of:

- ▶ A mall intercept
- ▶ A probe
- ▶ A self-administered questionnaire
- ▶ All of the given options

Page 84

Question No: 44 (Marks: 1) - Please choose one

Interviews with respondents that take place in shopping malls are called:

SUBSCRIBE

AR Lucky Bahi

- ▶ Interviewer influence
- ▶ Mixed-mode surveys
- ▶ Protesting
- ▶ Mall intercept interviews

Page 66

Personal interviews conducted in shopping malls are referred to as mall intercept interviews.

Question No: 45 (Marks: 1) - Please choose one

A questionnaire that collects information that is valid is said to be:

- ▶ Reliable
- ▶ Relevant
- ▶ Balanced
- ▶ Accurate

Question No: 46 (Marks: 1) - Please choose one

All of the following are guidelines that help prevent the most common mistakes in designing questions **EXCEPT**:

- ▶ Avoid complexity
- ▶ Avoid personal questions
- ▶ Avoid leading questions
- ▶ Avoid double-barreled questions

Page #78

Question No: 47 (Marks: 1) - Please choose one

When a respondent in a personal interview is asked questions about shopping at a specific department store in the shopping mall, and then is asked general questions about shopping at that mall, what type of mistake has been made in questionnaire design?

▶ **Double-barreled effect**

- ▶ Filter effect
- ▶ Loaded effect
- ▶ Order bias

Page 78

Question No: 48 (Marks: 1) - Please choose one

Which of the following is a non probability sampling technique in which an experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member?

- ▶ Subjective sample
- ▶ Stratified sample
- ▶ Judgment sample
- ▶ Cluster sample

Judgment Sampling

• Also called purposive sampling

sample based on his or her judgment
about some appropriate characteristics
required of the sample member

<http://cvlearn.com/Documents/Sample%20Designs%20and%20Sampling%20Procedures.pdf>

Question No: 49 (Marks: 1) - Please choose one

In which type of sampling is a sub sample drawn using simple random sampling within each stratum?

- ▶ Cluster sampling
- ▶ Stratified sampling
- ▶ Systematic sampling
- ▶ Convenience sampling

Page#94

Hence in stratified random sampling a sub sample is drawn utilizing simple random sampling within each stratum. (Randomization is not done for quota sampling).

Question No: 50 (Marks: 1) - Please choose one

When a field interviewer records an impossible answer (e.g. birth date: 1850), this means that the data need to be:

- ▶ Coded
- ▶ Deleted
- ▶ Edited
- ▶ None of the given options

Page#97

Editing

Occasionally, a fieldworker makes a mistake and records an improbable answer (e.g., birth year: 1843) or interviews an ineligible respondent (e.g., someone too young to qualify).

Question No: 51 (Marks: 1) - Please choose one

All of the following are software packages that can be used for data analysis EXCEPT:

- ▶ SPSS
- ▶ SAS
- ▶ Excel
- ▶ Word

<http://www.stattutorials.com/>

Question No: 52 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- ▶ Judgment sample
- ▶ Snowball

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

sempro33467m1033000

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Convenience sample
- ▶ Cluster sample

Page#91

And also here is link

[http://wiki.answers.com/Q/You are in charge of promoting a new flavor of toothpaste yet to be produced in a toothpaste manufacturing unit Which sampling techniques will you use to get the required data from a population](http://wiki.answers.com/Q/You_are_in_charge_of_promoting_a_new_flavor_of_toothpaste_yet_to_be_produced_in_a_toothpaste_manufacturing_unit_Which_sampling_techniques_will_you_use_to_get_the_required_data_from_a_population)

Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

- ▶ Cluster sample
- ▶ Convenience sample
- ▶ Multistage area sample
- ▶ Systematic sample

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

- ▶ Purposive Sampling
- ▶ Snowball Sampling
- ▶ **Convenience Sampling**
- ▶ Quota Sampling

Page#90

Question No: 20 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling
- ▶ **Purposive sampling**

Sampling in qualitative research is similar to which type of sampling in quantitative research?

It is similar to purposive sampling.

http://www.google.com.pk/#hl=en&biw=800&bih=411&q=Sampling+in+qualitative+research+is+similar+to+which+type+of+sampling+in+quantitative+research%3F++++++%E2%96%BA+Simple+random+sampling++++++%E2%96%BA+Systematic+sampling++++++%E2%96%BA+Quota+sampling++++++%E2%96%BA+Purposive+sampling&aq=f&aqi=&aql=&oq=&gs_rfai=&fp=c4ef4ebbe35c98d0

See CH#9 in the above link

Question No: 21 (Marks: 1) - Please choose one

Which of the following is **NOT** a type of Non-random sampling?

- ▶ Cluster sampling
- ▶ Convenience sampling
- ▶ Quota sampling
- ▶ **Purposive sampling**

Page#90_92

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

- ▶ Time-series data
- ▶ Primary data
- ▶ **Secondary data**
- ▶ Analyzed data

(PAGE 151)

Question No: 23 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

► **Replication pattern**

- Specification pattern
- Suppressor variable pattern
- Negative linear relationship

(page 110)

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need **Not** to;

- Master the literature
- Take numerous detailed notes
- Create a bibliography list
- **Learn your findings**

(page 147)

As the researcher masters the literature and takes numerous detailed notes, he or she completes many specific tasks: creating a bibliography list (on cards or on computer) with complete citations, taking notes that are neither too skimpy nor too extensive, leaving margins on note cards for adding themes later on, taking all note in the same format, and developing a file on themes or working hypothesis.

A researcher adjusts initial concepts, questions, or focus on the basis of what he or she discovers in the evidence. New issues and questions arise as he or she reads and considers a range of research reports at different levels of analysis (e.g., general context and detailed narratives on specific topic), and multiple studies on a topic, crossing topic boundaries.

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- Analysis
- **Synthesis**
- Results
- Findings

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism

Question No: 26 (Marks: 1) - Please choose one

Which of the following control techniques available to the researcher, controls both known and unknown variables?

- Building the extraneous variable into the design
- Matching
- **Random assignment**

Question No: 39 (Marks: 1) - Please choose one

A researcher believes that the effects of a treatment will be different for males and females. Which one is the best method to test this possible interaction?

- ▶ Single-subject design
- ▶ **Factorial design**
- ▶ Time-series design
- ▶ Quasi-experimental design

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Question No: 40 (Marks: 1) - Please choose one

The influence of the researcher's background, personal experiences, preferences, or attitude on an interview or observation is technically defined as:

- ▶ Participant bias
- ▶ **Observer bias**
- ▶ Observer effect
- ▶ Nonparticipant effect

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html

Question No: 41 (Marks: 1) - Please choose one

On which component of his field notes did Mr. Majid focused when he expressed in his notes his thoughts and ideas about what he observed?

- ▶ Description
- ▶ **Reflection**
- ▶ Protocol
- ▶ Formal data

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381345.cw/index.html

Question No: 42 (Marks: 1) - Please choose one

Which of the following is linked with an abstract model of underlying relations or causal mechanism?

- ▶ **Historical comparative research**
- ▶ Social research
- ▶ Action research
- ▶ Experimental research

(HANDOUT PAGE 147)

Question No: 43 (Marks: 1) - Please choose one

In which section is the researcher allowed greater flexibility to express opinions, discuss implications for educational practice, and suggest additional research?

- ▶ Review of the literature
- ▶ Significance of the study
- ▶ Results

▶ **Discussion**

Which of the following is linked with an abstract model of underlying relations or causal mechanism?

► **Historical comparative research**

- Social research
- Action research
- Experimental research

(HANDOUT PAGE 147)

Question No: 18 (Marks: 1) - Please choose one

Historians organize evidence usually in:

- Comparative form

► **Narrative form**

- Logical form
- Critical form

(PAGE 150)

HISTORIANS ORGANIZE EVIDENCE AS THEY WRITE WORKS OF HISTORY. THEY OFTEN WRITE *NARRATIVE HISTORY*.

Question No: 19 (Marks: 1) - Please choose one

What is the difference between a focus group and a group interview?

► **A focus group is used to analyse group interaction, whereas a group interview is used as a straightforward data collection tool.**

- A focus group is used only for political research, whereas group interviews are more widely used in the social sciences.
- A focus group is used at the planning stage of a research project, whereas a group interview is part of the actual data collection.
- A focus group is used to discuss a wide range of issues, whereas a group interview looks at one specific topic.

AR Lucky Bahi

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

► **Convenience Sampling**

- Quota Sampling
- Snowball Sampling
- Purposive Sampling

http://books.google.com.pk/books?id=ayI3TJQuAC&pg=PA276&lpg=PA276&dq=Which+of+the+following+sampling+is+most+often+used+during+the+exploratory+phase+of+a+research+project+and+is+perhaps+the+best+way+of+getting+some+basic+information+quickly+and+efficiently%3F&source=bl&ots=3F-qoMC6Wm&sig=fwCBgAJziEabgf_qfcBL-EQxYzI&hl=en&ei=K-YgTYTKM4Og8QPvx7WuBQ&sa=X&oi=book_result&ct=result&resnum=2&ved=0CBsQ6AEwAQ#v=onepage&q&f=false

Question No: 23 (Marks: 1) - Please choose one

Which of the following is a form of Non-random sampling?

- Snowball sampling
- Convenience sampling
- Quota sampling

► **All of the given option**

<http://www.southalabama.edu/coe/bset/johnson/lectures/lec7.htm>

Nonrandom Sampling Techniques

The other major type of sampling used in quantitative research is nonrandom sampling (i.e., when you do not use one of the random sampling techniques). There are four main types of nonrandom sampling:

- The first type of nonrandom sampling is called convenience sampling
- The second type of nonrandom sampling is called quota sampling
 - The third type of nonrandom sampling is called purposive sampling
- The fourth type of nonrandom sampling is called snowball sampling

Question No: 24 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling

▶ Purposive sampling

It is similar to purposive sampling. Here is a list of the different types:

- Maximum variation sampling (purposely selecting a wide range of cases)
 - Homogeneous sample selection (selecting a small and homogeneous case or set of cases for intensive study)
- Extreme-case sampling (identifying the extremes or poles of some characteristic and then selecting cases representing these extremes for examination)
 - Typical-case sampling (selecting what are believed to be average cases)

SUBSCRIBE

AR Lucky Bahi

- **Critical-case sampling (selecting what are believed to be particularly important cases)**
 - **Negative-case sampling (selecting cases that disconfirm the researcher's expectations and generalizations)**
- **Opportunistic sampling (selecting cases when the opportunity arises)**
 - **Mixed purposeful sampling (mixing of more than one of the above sampling strategies).**

Chapter 9: Sampling in Quantitative, Qualitative, and Mixed Research

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- ▶ Analysis
- ▶ **Synthesis**
- ▶ Results
- ▶ Findings

(PAGE 148)

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism.

Question No: 26 (Marks: 1) - Please choose one

The easiest way to describe the numerical data of one variable is;

- ▶ **Frequency distribution**
- ▶ Normal distribution
- ▶ Poisson distribution
- ▶ Probability distribution

(PAGE 104)

THE EASIEST WAY TO DESCRIBE THE NUMERICAL DATA OF ONE VARIABLE IS WITH A FREQUENCY DISTRIBUTION.

Question No: 27 (Marks: 1) - Please choose one

All of the following are ways to show a table in percentages, EXCEPT;

- ▶ **By margins**
- ▶ By row
- ▶ By column
- ▶ For the total

(PAGE 107)

THERE ARE THREE WAYS TO PERCENTAGE A TABLE: BY ROW, BY COLUMN, AND FOR THE TOTAL.

AR Lucky Bahi

After making the inventory of the relevant variables the next step is to:

- ▶ Provide logic for the relationship
- ▶ Make inventory of the propositions
- ▶ **Identify the relationships between the variables**
- ▶ Deduce hypothesis

Question No: 45 (Marks: 1) - Please choose one

Theoretical framework helps to:

- ▶ Deduce the hypothesis
- ▶ Reject the hypothesis
- ▶ **Test the hypothesis**
- ▶ Accept the hypothesis

From the theoretical framework, then, testable hypotheses can be developed to examine whether theory formulated is valid or not

Question No: 46 (Marks: 1) - Please choose one

Which of the following is NOT a method of narrowing a topic?

- ▶ Literature review
- ▶ Specifying the context
- ▶ Talk to the experts
- ▶ **Pilot testing**

(page 33)

Question No: 47 (Marks: 1) - Please choose one

The working definition of the variables is called:

- ▶ Theoretical definition
- ▶ Dictionary definition
- ▶ **Operational definition**
- ▶ Fundamental definition

Operational definition is also called a working definition

Question No: 48 (Marks: 1) - Please choose one

Which of the following characteristic is reflected by an interval scale?

- ▶ The distance between each participant's individual scores.
- ▶ Arithmetic operations can be performed after data collection
- ▶ Classify the data into exclusive categories
- ▶ **All of the given options**

Question No: 1 (Marks: 1) - Please choose one

Which of the following is the basis of the Scientific Method? To test hypothesis in conditions that is conducive to its success.

AR Lucky Term

sem0000000000000000

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypothesis and if they are disproved, they should be abandoned completely.

<http://www.answers.com/topic/scientific-method>

<http://mansci.journal.informs.org/cgi/content/abstract/12/8/C-135>

Question No: 2 (Marks: 1) - Please choose one

An inductive logic is one that:

Involves testing as explicitly defined hypothesis.

Does not allow for findings to feed back into the body of knowledge.

Uses quantitative methods whenever possible.

Allows theory to emerge out of the data.

Rationale: The usual application of inductive theory, however, is to allow theory to emerge from our findings. We find an interesting question, we gather data on it and we 'theorise' from our findings. It may be that these 'theories' are, in reality, simply 'interesting insights' rather than 'grand theories' but they can be valuable for all that.

Question No: 3 (Marks: 1) - Please choose one

Which of the following is not a concept?

Leadership.

Total Quality Management.

Human Resource Management.

Intelligence Quotient (IQ).

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Rationale: Concepts are the building blocks of theory, each of which represents a label given to a common element of the social world. IQ is a measure of the concept of intelligence, it is not a concept in itself.

Question No: 4 (Marks: 1) - Please choose one

Which of the following is the definition of an independent variable?

A variable that is manipulated or controlled by the experimenter.

A response variable.

The behavioural measure made by the experimenter.

A dependent variable that is controlled by the experimenter.

Question No: 40 (Marks: 1) - Please choose one

All of the following are the characteristics of scientific methods of research, EXCEPT;

Cumulative

Deterministic

Unethical

Rationalism

Page 3 to 5

Question No: 1 (Marks: 1) - Please choose one

Research method is applicable in all of the following fields, Except.

- ▶ Health care
- ▶ Business
- ▶ Government offices
- ▶ **Religion**

Page #1

Educators, administrators, government officials, business leaders, human service providers, health care professionals, regularly use social research findings in their jobs.

Question No: 2 (Marks: 1) - Please choose one

Which of the following statements is false about variables?

▶ Discrete variables allow measurement of an infinite number of fractions of units of measurement.

▶ **Discrete variables can only have whole number values.**

▶ Continuous numbers can only have whole number values.

▶ Continuous measures do not allow for scores that fall between two number values.

Question No: 3 (Marks: 1) - Please choose one

A variable that is presumed to cause a change in another variable is known as:

- ▶ Discontinuous variable
- ▶ Dependent variable
- ▶ Independent variable
- ▶ Intervening variable

Page 19

Question No: 4 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

- ▶ A quantitative study.
- ▶ A tentative prediction of the results of the research.
- ▶ A qualitative research design.
- ▶ The operational definition of the study.

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9865/2525651.cw/content/index.html

Q#24

Question No: 5 (Marks: 1) - Please choose one

Which of the following is the BEST hypothesis?

- ▶ Students taking formative quizzes will perform better on exams at the end of the chapter than students not taking these quizzes.
- ▶ Taller students will have higher test scores than shorter students.
- ▶ Students taught in a cooperative group setting should do better than students in a traditional class.
- ▶ Students using laptops will do well.

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9865/2525651.cw/content/index.html

Q#25

Question No: 6 (Marks: 1) - Please choose one

Which of the following is the characteristic/s of Hypotheses in qualitative research studies?

- ▶ Hypotheses are very specific and stated prior to beginning the study.
- ▶ Hypotheses are never used.
- ▶ Hypotheses are often generated as the data are collected, interpreted, and analyzed.
- ▶ Hypotheses are always stated after the research study has been completed.

Q#24

Question No: 7 (Marks: 1) - Please choose one

A formal statement of the research question or “purpose of research study” generally:

- ▶ Is made prior to the literature review
- ▶ **Is made after the literature review**
- ▶ Will help guide the research process
- ▶ Is made before or after literature review

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc3.htm>

Q#18

Question No: 8 (Marks: 1) - Please choose one

Which of the following refers to "A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review"?

- ▶ Integrative review
- ▶ Theoretical review
- ▶ **Self-study review**
- ▶ Historical review

Page 26

1. Self-study reviews increase the reader's confidence. A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program. In addition to giving others confidence in a reviewer's command of field, it has the side benefit of building the reviewer's self confidence.

Question No: 9 (Marks: 1) - Please choose one

Quantitative research has been criticised because:

- ▶ The reliance on instruments and procedures makes it high in ecological validity.
- ▶ **The measurement process suggests a spurious and artificial sense of accuracy.**
- ▶ It underestimates the similarities between objects in the natural and social worlds.
- ▶ It has no validity.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/>

Q#8

Question No: 10 (Marks: 1) - Please choose one

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

- ▶ Are easily calculated.
- ▶ **Require only one administration of a test.**
- ▶ Are more accurate than all other types of estimates.
- ▶ Are usually higher.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381232.cw/index.html

Q#5

Question No: 11 (Marks: 1) - Please choose one

Which of the following functions is performed by the Nominal scale?

- ▶ Categorize
- ▶ Distance
- ▶ Order
- ▶ Unique origin

Page 53

Question No: 12 (Marks: 1) - Please choose one

Categorical measures are forms of measurement classified as;

- ▶ Measures that reflect quantitative differences.
- ▶ Measures that reflect qualitative differences.
- ▶ Measures that do not require mutual exclusivity or exhaustiveness when devising a measuring system.
- ▶ Rationale measures.

http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq_03/mcq_03.htm

Q#2

Question No: 13 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

- ▶ The measure apparently reflects the content of the concept in question.
- ▶ A criterion is employed on which cases are known to differ.
- ▶ A future criterion is employed on which cases are known to differ.
- ▶ A measure is gauged by comparing it to measures of the same concept developed through other methods.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Q#4

Question No: 14 (Marks: 1) - Please choose one

If a measure is consistent over multiple occasions, it has:

- ▶ Inter-rater reliability
- ▶ Construct validity
- ▶ Internal validity
- ▶ Test-retest reliability

Page#57

Test-Retest Reliability

Used to assess the consistency of a measure from one time to another.

Test-Retest Reliability

■ Procedure

Measure the same individuals at two points in time and then calculate the correlation coefficient between the first and second test scores

To test the reliability of an intelligence test, the test is given to a group of people on one day and again a week later

Question No: 15 (Marks: 1) - Please choose one

Which of the following is NOT a strategy that can guide data interpretation?

- ▶ Pay attention to your topic or research focus as it will help guide your selection of important parts of your data.
- ▶ Examine categories with large amounts of data as they are likely identifying important concepts.
- ▶ Examine existing studies related to your topic to identify potential interpretative frameworks.
- ▶ Pay attention to your preconceived notions of the meaning of the data as it reflects a "grounded" perspective.

Q#3

Question No: 26 (Marks: 1) - Please choose one

A researcher believes that the effects of a treatment will be different for males and females. Which one is the best method to test this possible interaction?

- ▶ Single-subject design
- ▶ Factorial design
- ▶ Time-series design
- ▶ Quasi-experimental design

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Q#17

Question No: 27 (Marks: 1) - Please choose one

The best single-subject design to use, when it would be unethical to discontinue treatment indefinitely, would likely be:

- ▶ A-B-A-B
- ▶ A-B
- ▶ A-B-A
- ▶ Quasi-experimental

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Q#19

Question No: 28 (Marks: 1) - Please choose one

Which term technically describes a situation in which an observer's work in a first-grade classroom disrupts the normal routines due to the curiosity of the students?

- ▶ Observer effect
- ▶ Participant effect
- ▶ Nonparticipant bias
- ▶ Observer bias

Page 78

Question No: 48 (Marks: 1) - Please choose one

Which of the following is a non probability sampling technique in which an experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member?

- ▶ Subjective sample
- ▶ Stratified sample
- ▶ Judgment sample
- ▶ Cluster sample

Judgment Sampling

- Also called purposive sampling
- An experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member

[http://cvlearn.com/Documents/Sample%20Designs%20and%20Sampling%20Procedures. pdf](http://cvlearn.com/Documents/Sample%20Designs%20and%20Sampling%20Procedures.pdf)

Question No: 49 (Marks: 1) - Please choose one

In which type of sampling is a sub sample drawn using simple random sampling within each stratum?

- ▶ Cluster sampling
- ▶ Stratified sampling
- ▶ Systematic sampling
- ▶ Convenience sampling

Page#94

Hence in stratified random sampling a sub sample is drawn utilizing simple random sampling within each stratum. (Randomization is not done for quota sampling).

Question No: 50 (Marks: 1) - Please choose one

When a field interviewer records an impossible answer (e.g. birth date: 1850), this means that the data need to be:

- ▶ Coded
- ▶ Deleted
- ▶ Edited
- ▶ None of the given options

Page#97

Editing

Occasionally, a fieldworker makes a mistake and records an improbable answer (e.g., birth year: 1843) or interviews an ineligible respondent (e.g., someone too young to qualify).

Question No: 51 (Marks: 1) - Please choose one

All of the following are software packages that can be used for data analysis **EXCEPT**:

- ▶ SPSS
- ▶ SAS
- ▶ Excel
- ▶ **Word**

<http://www.stattutorials.com/>

Question No: 52 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- ▶ Judgment sample
- ▶ **Snowball**
- ▶ Convenience sample
- ▶ Cluster sample

Page#91

And also here is link

[http://wiki.answers.com/Q/You are in charge of promoting a new flavor of toothpaste te yet to be produced in a toothpaste manufacturing unit Which sampling techniques will you use to get the required data from a population](http://wiki.answers.com/Q/You_are_in_charge_of_promoting_a_new_flavor_of_toothpaste_te_yet_to_be_produced_in_a_toothpaste_manufacturing_unit_Which_sampling_techniques_will_you_use_to_get_the_required_data_from_a_population)

Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

- ▶ Cluster sample
- ▶ **Convenience sample**
- ▶ Multistage area sample
- ▶ Systematic sample

Page#90

Question No: 54 (Marks: 1) - Please choose one

Page#156

The primary advantage of focus groups is its ability to quickly and inexpensively grasp the core issues of the topic.

<http://www.webcredible.co.uk/user-friendly-resources/web-usability/focus-groups.shtml>

Question No: 60 (Marks: 1) - Please choose one

Which of the following is the ideal size of a focus group?

- ▶ 1-2 participants
- ▶ 3-5 participants
- ▶ **6-12 participants**
- ▶ 12-20 participants

Page#152

A focus group discussion is a group discussion of 6-12 persons guided by a facilitator, during which group members talk freely and spontaneously about a certain topic.

Question No: 61 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

▶ **Discussion guide**

- ▶ Concept test
- ▶ Case study
- ▶ All of the given options

<http://www.answers.com/topic/focus-group>

A focus group is a marketing research tool in which a small group of people (typically eight to ten individuals) engages in a roundtable discussion of selected topics of interest in an informal setting. The focus group discussion is typically directed by a moderator who guides the discussion in order to obtain the group's opinions about or reactions to specific products or marketing-oriented issues, known as test concepts.

Question No: 1 (Marks: 1) - Please choose one

An inductive logic is one that:

- ▶ Involves testing as explicitly defined hypothesis.
- ▶ Does not allow for findings to feed back into the body of knowledge.
- ▶ Uses quantitative methods whenever possible.
- ▶ **Allows theory to emerge out of the data.**

Question No: 2 (Marks: 1) - Please choose one

Which of the following research questions is BEST answered using action research?

- ▶ **How can I improve the interaction of students of different ethnicity in my class?**
- ▶ What factors influence student interaction in multiethnic classes?
- ▶ Is there a difference between male and female acceptance of others in multiethnic classes?
- ▶ How do students from Asian countries adjust to classroom practices in U.S. schools?

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 3 (Marks: 1) - Please choose one

Which of the following is characteristic of action research?

- ▶ Variables are tightly controlled.
- ▶ Results are generalizable.

► T- Test

Question No: 18 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

- ▶ Parameter
- ▶ **Sampling Unit**
- ▶ Observation Unit
- ▶ Statistic

page#89

A sampling unit is that element or set of elements considered for selection in some stage of sampling.

Question No: 19 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

- ▶ Purposive Sampling
- ▶ Snowball Sampling
- ▶ **Convenience Sampling**
- ▶ Quota Sampling

Page#90

Question No: 20 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling
- ▶ **Purposive sampling**

Sampling in qualitative research is similar to which type of sampling in quantitative research?

It is similar to purposive sampling.

http://www.google.com.pk/#hl=en&biw=800&bih=411&q=Sampling+in+qualitative+research+is+similar+to+which+type+of+sampling+in+quantitative+research%3F++++++%E2%96%BA+Simple+random+sampling++++++%E2%96%BA+Systematic+sampling++++++%E2%96%BA+Quota+sampling++++++%E2%96%BA+Purposive+sampling&aq=f&aql=&oq=&gs_rfai=&fp=c4ef4ebbe35c98d0

See CH#9 in the above link

Question No: 21 (Marks: 1) - Please choose one

Which of the following is NOT a type of Non-random sampling?

- ▶ Cluster sampling
- ▶ Convenience sampling
- ▶ Quota sampling
- ▶ **Purposive sampling**

Page#90_92

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

- ▶ Time-series data
- ▶ Primary data
- ▶ **Secondary data**
- ▶ Analyzed data

(PAGE 151)

Question No: 23 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

▶ **Replication pattern**

- ▶ Specification pattern
- ▶ Suppressor variable pattern
- ▶ Negative linear relationship

(page 110)

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need **Not** to;

- ▶ Master the literature
- ▶ Take numerous detailed notes
- ▶ Create a bibliography list

▶ **Learn your findings**(page 147)

As the researcher masters the literature and takes numerous detailed notes, he or she completes many specific tasks: creating a bibliography list (on cards or on computer) with complete citations, taking notes that are neither too skimpy nor too extensive, leaving margins on note cards for adding themes later on, taking all note in the same format, and developing a file on themes or working hypothesis. A researcher adjusts initial concepts, questions, or focus on the basis of what he or she discovers in the evidence. New issues and questions arise as he or she reads and considers range of research reports at different levels of analysis (e.g., general context and detailed narratives on specific topic), and multiple studies on a topic, crossing topic boundaries.

The operational definition of the study.

Question No: 4 (Marks: 1) - Please choose one

When the research starts from the effects and tracing the reasons back in time, what does it called?

Case study

Experiment

Observation studies

Historical comparative research

Ref. Page No.38:It is more like a clinical analysis in retrospect; starting from the effect and tracing the reasons back in time. The researcher takes the history of the situation and makes use of anyother relevant information about the case to identify the factors leading to the present situation

Question No: 5 (Marks: 1) - Please choose one

The extent to which a test provides scores that are meaningful, appropriate, or useful is referred to as;

Reliability

Accuracy Internal

validity **Validity**

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9866/2525945.cw/content/index.html

Question No: 6 (Marks: 1) - Please choose one

Mr. Hasan s son has applied to a high school in Florida, but the application was denied solely on his low score on the Iowa Test of Basic Skills (ITBS). His son wants to attend this school and contendshis current grades and other standardized test scores speak well

to both his past work and future academic capability. Which of thefollowing characteristics of the ITBS is being questioned by this student?

Construct validity

Content validity

Predictive validity

Concurrent validity

(page 56)

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;
Are easily calculated.

Require only one administration of a test.

Are more accurate than all other types of estimates. Are usually higher.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381232_cw/index.html

Question No: 8 (Marks: 1) - Please choose one

Which of the following functions is performed by the Ordinal scale? Categorize Distance

Order Unique origin (page 53)

Question No: 9 (Marks: 1) - Please choose one Which of the following is measured by the Interval scale? Order of the object Magnitude of the object

Categorize the object **All of the given options**

Question No: 10 (Marks: 1) - Please choose one

Following are the properties of nominal scale, except; Least powerful

Suggest no order
Provide categorical information

Provide magnitude of object (page 53)

<http://groups.google.com/group/vu-learning-pk>

Question No: 11 (Marks: 1) - Please choose one

What is the difference between interval/ratio and ordinal variables? Ordinal data can be rank ordered, but interval/ratio data cannot.

Question No: 33 (Marks: 1) - Please choose one

Determining the sample interval (represented by K), randomly selecting a number between 1 to K, and including each K element in your sample are the steps for which form of sampling?

Simple Random Sampling

Stratified Random Sampling

Systematic Sampling Cluster sampling

http://www.google.com.pk/#sclient=psy&hl=en&site=&source=hp&q=Determining+the+sample+interval+%28represented+by+K%29%2C+randomly+selecting+a+number+between+1+to+K%2C+and+including+each+K+element+in+your+sample+are+the+steps+for+which+form+of+sampling%3F+Simple+Random+Sampling+Stratified+Random+Sampling+Systematic+Sampling+Cluster+sampling&aq=f&aql=&oq=&gs_rfai=&pbx=1&fp=165a74728c73b339

Systematic sampling

- Simple or stratified in nature
- Systematic in the “picking-up” of element. E.g. every 5th. visitor, every 10th. House, every 15th. minute
- Steps:

- * Number the population (1,...,N)
- * Decide on the sample size, n
- * Decide on the interval size, $k = N/n$
- * Select an integer between 1 and k
- * Take case for every kth. unit

AR Lucky Bahi

Ref: Page No.88: Out of the conceptual variations what exactly the researcher wants to focus on. This may also be called a target population. **Target population is the complete group of specific population elements relevant to the research project.** Target population may also be called *survey population* i.e. that aggregation of elements from which the survey sample is actually selected.

Question No: 34 (Marks: 1) - Please choose one

Which of the following can be referred as Expert opinion sample?

Purposive Sampling

Snowball

Sampling

Convenience

Sampling

Quota

Sampling

Sampling

Purposive Sampling

Depending upon the type of topic, the researcher lays down the criteria for the subjects to be included in the sample. Whoever meets that criteria could be selected in the sample. The researcher might select such cases or might provide the criteria to somebody else and leave it to his/her judgment for the actual selection of the subjects. That is why such a sample is also called as judgmental or expert opinion sample.

Question No: 35 (Marks: 1) - Please choose one

Which of the following sampling method is the best way to select a group of people for a study if you are interested in making statements about the larger population?

Convenience

Question No: 16 (Marks: 1) - Please choose one

Which of the following statements might assist response rates?

Please photocopy the questionnaire five times and pass on to your work

SUBSCRIBE

AR Lucky Bahi

colleagues.

Please make sure that the questionnaire is completed with a fountain pen.

Please read the attached journal article on the ontological foundations of positivism prior to completing the questionnaire.

Please put the completed questionnaire in the enclosed stamped addressed envelope and place in the mail out tray.

Question No: 17 (Marks: 1) - Please choose one

What should the researcher do if they have achieved a low response rate?

- ▶ Copy responses and paste them again.
- ▶ Abandon the research project entirely.
- ▶ **Recognize and accept the possible limitations of a low response rate.**
- ▶ Fill in some more questionnaires themselves.

Question No: 18 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

- ▶ How many workers are employed at this plant?
- ▶ What is your attitude towards the management at this plant?
- ▶ **Do you always cast your vote in trade union elections?**
- ▶ Are you aware of the main features of the European Union Directive for informing and consulting employees?

Ref: These types of questions are closely related to question about attitudes and beliefs.

Question No: 19 (Marks: 1) - Please choose one

Questions that include negatives should be avoided because:

- ▶ The respondent may miss out the negative word.
- ▶ The respondent may be unsure how to answer if the question includes a double negative.
- ▶ The respondent may be led by the question.
- ▶ **All of the given options.**

Ref: When using a Likert scale it can be difficult to avoid asking a question with a negative, however the researcher should attempt to avoid them if possible.

Question No: 20 (Marks: 1) - Please choose one

Which of the following is likely to happen if clear instructions are not given as to how the respondent should answer the question?

- ▶ Respondents may delete inappropriate answers rather than select appropriate ones.
- ▶ Respondents may choose only one answer when they need to choose as many as apply.
- ▶ Respondents may complete questions that are not relevant to them.
- ▶ **All of the given options.**

Ref: Clear instructions are vital as they allow for the respondent to move quickly and efficiently through the questionnaire which may in turn aid response rate.

Question No: 21 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.

question.

► **Respondents may be unwilling to reveal information as they believe they are likely to be identified.**

Question No: 22 (Marks: 1) - Please choose one

Why should a business researcher record and transcribe interviews?

- It overcomes all possible ethical considerations.
- The response of participants can be more readily shared with senior management.
- **It allows a more thorough examination of what the interviewee has said.**
- It allows the researcher to demonstrate his/her technical proficiency.

Ref: Having an accurate record of the interview on a tape recording means not only that analysis is easier, but also that the actual interview will not be punctuated by the researcher having to take notes.

Question No: 23 (Marks: 1) - Please choose one

Why does qualitative interviewing have an advantage over participant observation when it comes to longitudinal research?

- **Repeat interviews are easier to organise.**
- It allows for a better exploration of key issues.
- It is a more focused research method.
- Participant observers are prone to 'go native' during longitudinal research.

Ref: Re-visiting research sites for follow up interviews is likely to be easier than arranging a series of subsequent observations.

Question No: 24 (Marks: 1) - Please choose one

Mr. Jamil is studying the use of individualized instruction with elementary school students. He is particularly interested in understanding what problems are encountered—and how those problems are resolved—when teachers switch to this approach. Which sampling strategy is he likely to use to select his sample?

- Intensity
- Convenience
- **Purposive**
- Quota

Question No: 25 (Marks: 1) - Please choose one

The logic of purposive sampling is:

- To use participants because the researcher has access to them.
- That a random sample can generalize to a population.
- **That a few information-rich participants studied in depth yield many insights about a topic.**

- To include all participants, even though they are not all relevant to the problem.

Question No: 26 (Marks: 1) - Please choose one

Which type of sampling strategy is exemplified by selecting specific principals because faculty and colleagues the researcher has spoken to believe them to be highly effective?

- Intensity
- **Homogeneous**

► Solomon four-group design

- Static group design
- One-group pretest-posttest design
- None of the given options

Solomon's Four Group Design: To gain more confidence in internal validity in experimental designs, it is advisable to set up two experimental groups and two control groups. One experimental group and one control group can be given the both pretest and the posttest. The other two groups will be given only the posttest. Here the effects of treatment can be calculated in several different ways as shown in figure 1:

Figure 1: Solomon's four group design

Group	Pretest	Treatment	Posttest
1. Experimental	O1	X	O2
2. Control	O3	-	O4
3. Experimental	-	X	O5
4. Control	-	-	O6

1. Experimental O1 X O2
2. Control O3 - O4
3. Experimental - X O5
4. Control - - O6

Question No: 52 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

▶ Purposive Sampling

▶ Snowball Sampling

▶ Convenience Sampling

Convenience Sampling

Convenience sampling (also called *haphazard* or *accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in the middle of the day do not represent everyone (homemakers, people in the rural areas). Likewise, TV interviewers select people who look “normal” to them and avoid people who are unattractive, poor, very old, or inarticulate.

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 29 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening question.
- ▶ Respondents may be unwilling to reveal information as they believe they are likely to be identified.

Q#1

Question No: 30 (Marks: 1) - Please choose one

When a respondent in a personal interview is asked questions about shopping at a specific department store in the shopping mall, and then is asked general questions about shopping at that mall, what type of mistake has been made in questionnaire design?

▶ Double-barreled effect

- ▶ Filter effect
- ▶ Loaded effect
- ▶ Order bias

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 1 (Marks: 1) - Please choose one

Which of the following is the basis of the Scientific Method?

To test hypothesis in conditions that is conducive to its success.

To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypothesis and if they are disproved, they should be abandoned completely.

REFERENCE:

<http://dictionary.reference.com/browse/scientific+method>

Question No: 2 (Marks: 1) - Please choose one

An inductive logic is one that:

Involves testing as explicitly defined hypothesis.

Does not allow for findings to feed back into the body of knowledge.

Uses quantitative methods whenever possible.

Allows theory to emerge out of the data.

Question No: 3 (Marks: 1) - Please choose one

Which of the following is not a concept?

Leadership.

Total Quality Management.

Human Resource Management.

Intelligence Quotient (IQ).

REFERENCE:

Concepts are the building blocks of theory, each of which represents a label given to a common element of the social world. IQ is a **measure** of the concept of intelligence, it is not a concept in itself.

Question No: 4 (Marks: 1) - Please choose one

Which of the following is the definition of an independent variable?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

A variable that is manipulated or controlled by the experimenter.

A response variable.

The behavioural measure made by the experimenter.

A dependent variable that is controlled by the experimenter.

REFERENCE:

<http://psychology.about.com/od/researchmethods/f/variable.htm>

Question No: 5 (Marks: 1) - Please choose one

The cause variable or the one that identifies forces or conditions that act on something else is known as:

Moderating variable

Independent variable

Categorical variable

Dependent variable

REFERENCE:

<http://free-books-online.org/mathematics/business-mathematics-statistics/research-methods-business-mathematics-statistics/variables-and-types-of-variables/>.

Question No: 6 (Marks: 1) - Please choose one

A measure is reliable if it provides consistent _____.

Hypothesis

Results

Procedure

Sensitivity

REFERENCE:

http://books.google.com.pk/books?id=7cYOAAAAQAAJ&pg=PA231&lpg=PA231&dq=A+measure+is+reliable+if+it+provides+consistent&source=bl&ots=zHHStw6zRj&sig=w39kjLqx_FM6I_TP18m7IsoZIho&hl=en&ei=In0pTeOvGcag8QPJuYnSAg&sa=X&oi=book_result&ct=result&resnum=4&ved=0CDAQ6AEwAw#v=onepage&q=A%20measure%20is%20reliable%20if%20it%20provides%20consistent&f=false

Question No: 7 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

The measure apparently reflects the content of the concept in question.

A criterion is employed on which cases are known to differ.

A future criterion is employed on which cases are known to differ.

A measure is gauged by comparing it to measures of the same concept developed through other methods.

REFERENCE:

An example of concurrent validity is the use of the criterion of absenteeism to measure job satisfaction

.

Question No: 10 (Marks: 1) - Please choose one

When constructing a questionnaire, there are few principles to which you should adhere.

Which of the following is NOT one of those principles?

Avoid using "leading" or "loaded" questions

Avoid double-barreled questions

Avoid ambiguity and confusion

Avoid arranging questions in a sequence

REFERENCE:

1. **Questionnaire Relevancy**
2. **Questionnaire Accuracy**
3. **Avoid Ambiguity, Confusion, and Vagueness**
4. **Avoid Double-Barreled Questions**
5. **Avoid Leading Questions**
6. **Avoid Loaded Questions**
7. **Avoid Burdensome Questions that may Tax the Respondent's Memory**
8. **Arrange Questions in a Proper Sequence**
9. **Use Filter Question, if Needed**
10. **Layout of the questionnaire**

Question No: 11 (Marks: 1) - Please choose one

Which of the following statements is true about closed ended questions and open ended questions?

A closed ended question means that the chances of unreliable post-coding is small, whereas an open ended question means that there is a possibility of data processing error.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

A closed ended question allows for the researchers terminology to be used, whereas an open ended question allows the respondent to use terms they are familiar with.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

A closed ended question allows for easy processing, whereas coding an open ended question can be very time consuming.

A closed ended question has many advantages over open ended question.

REFERENCE:

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/>

Question No: 12 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer.

Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

REFERENCE:

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual

Question No: 13 (Marks: 1) - Please choose one

Which of the following represents excellent advice for conducting an interview?

Listen more and talk less

Don't interrupt

Don't be judgmental about the interviewee's beliefs or views

All of the given options

REFERENCE

E

Question No: 18 (Marks: 1) - Please choose one

A researcher studies three groups of students who vary in level of self-confidence. She finds that students with higher self-confidence are more popular among their peers. The most plausible conclusion is that:

We do not know what causes self-confidence or popularity.

Self-confidence causes popularity.

Popularity causes self-confidence.

Self-confidence and popularity are related.

Question No: 19 (Marks: 1) - Please choose one

Which of the following is true about validity?

A study can be internally valid but not externally valid.

A study can be externally valid but not internally valid.

A study must be both internally and externally valid.

The internal and external validity of studies are not related in any way.

REFERENCE

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820.cw/index.html

Question No: 20 (Marks: 1) - Please choose one

Testing most likely, negatively affect internal validity when:

The information tested is attitudinal in nature

The time between pre- and posttest is short

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The instrument is unreliable

The participants are very low scorers

REFERENCE:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Testing becomes a more viable threat to internal validity as the time between pretest and posttest is shortened.

Question No: 28 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

Purposive Sampling

Snowball Sampling

Convenience Sampling PG 90

Quota Sampling

REFERENCE:

Convenience Sampling

Convenience sampling (also called *haphazard or accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in the middle of the day do not represent everyone (homemakers, people in the rural areas). Likewise, TV interviewers select people who look “normal” to them and avoid people who are unattractive, poor, very old, or inarticulate.

Question No: 29 (Marks: 1) - Please choose one

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

Convenience Sampling

Quota Sampling

Snowball Sampling

Purposive Sampling

REFERENCE:

Convenience samples are least reliable but normally the cheapest and easiest to conduct. Convenience sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently. Often such sample is taken to test ideas or even to gain ideas about a subject of interest..

Question No: 30 (Marks: 1) - Please choose one

Which of the following sampling method is the best way to select a group of people for a study if you are interested in making statements about the larger population?

Convenience sampling

Quota sampling

Purposive sampling

Random sampling

Marks: 69

Question No: 1 (Marks: 1) - Please choose one

The part of the action research spiral that differentiates this research methodology from

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

other kinds of research is;

- ▶ Looking at multiple sources of data.
- ▶ **Taking action based on results.**
 - ▶ Thinking about or analyzing data in more than one way.
 - ▶ The kinds of data that are collected.

REFERENCE:

<http://wps.prenhall.com/wps/grader>

Question No: 2 (Marks: 1)

- Please choose one

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which of the following type of research?

- ▶ Basic
- ▶ Evaluation
- ▶ **Applied**
 - ▶ Grounded theory

REFERENCE

The theory of multiple intelligences is fairly well established, and this researcher is trying to understand how to use this theory in the classroom. In addition, there is no assessment of merit or worth to suggest this could be evaluation research, nor is there any sense that the researcher is conducting the research to solve a local, isolated problem.

Question No: 3 (Marks: 1) - Please choose one

Which type of review compares how different theories address an issue?

- ▶ Context review
 - ▶ Integrated review
 - ▶ Methodological review
- ▶ **Theoretical review**

REFERENCE

Theoretical reviews

Compare how different theories address an issue.

Question No: 4 (Marks: 1) - Please choose one

Which of the following functions is performed by theoretical framework?

- ▶ Elaborates the relationship among the variables.
 - ▶ Explains the logic underlying these relationships.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Describes the nature, and direction of the relationships.

[e/index.html](#)

Question No: 17 (Marks: 1)

- Please choose one

Which of the following is linked with an abstract model of underlying relations or causal mechanism?

▶ **Historical comparative research** PG 148

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Social research
- ▶ Action research
- ▶ Experimental research

REFERENCE:

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism. A researcher often looks for new evidence to verify specific links that appear only after an explanatory model is developed. He or she evaluates how well the model approximates the evidence and adjusts it accordingly.

Historical-comparative researchers also identify critical indicators and supporting evidence for themes or explanations. A *critical indicator* is unambiguous evidence, which is usually sufficient for inferring a specific theoretical relationship. Researchers seek these indicators for key parts of an explanatory model. Indicators critically confirm a theoretical inference and occur when many details suggest a clear interpretation

Question No: 18 (Marks: 1) - Please choose one

Historians organize evidence usually in:

- ▶ Comparative form
- ▶ **Narrative form** PG 150
- ▶ Logical form
- ▶ Critical form

REFERENCE:

A third problem is in the organization of the evidence. Historians organize evidence as they write works of history. They often write narrative history.

Question No: 19 (Marks: 1) - Please choose one

What is the difference between a focus group and a group interview? A focus group is used to analyse group interaction, whereas a group interview is used as a straight forward data collection tool

- ▶ A focus group is used only for political research, whereas group interviews are more widely used in the social sciences.
- ▶ A focus group is used at the planning stage of a research project, whereas a group interview is part of the actual data collection.
- ▶ A focus group is used to discuss a wide range of issues, whereas a group interview looks at one specific topic.

REFERENCE:

This is an important distinction because focus groups can be said to allow the researcher to think about not just what people said but also how they said it in relation to others in the group.

Question No: 6 (Marks: 1) - Please choose one

After you locate a source, you should write down all details of the reference, except;

- ▶ Volumes
- ▶ Full names of the authors
- ▶ Titles
- ▶ Price

PG 29

REFERENCE:

What to Record

After you locate a source, you should write down all details of the reference (full names of the authors, titles, volumes, issue, pages)

Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

- ▶ How many workers are employed at this plant?
- ▶ What is your attitude towards the management at this plant?
- ▶ Do you always cast your vote in trade union elections?
- ▶ Are you aware of the main features of the European Union Directive for informing and consulting employees?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

REFERENCE:

Answer (c) is asking for the respondent to reveal a behavioural norm. These types of questions are closely related to question about attitudes and beliefs.

Question No: 8 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening

question.

▶ Respondents may be unwilling to reveal information as they believe they are likely to be identified.

REFERENCE:

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual

Question No: 9 (Marks: 1) - Please choose one

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

- ▶ What role to adopt while interviewing male managers?
- ▶ How many female employees should be interviewed for a representative sample?
- ▶ How to overcome the issue of false consciousness?
- ▶ What data to use while publishing findings?

REFERENCE:

A significant dilemma for feminist researchers (and possibly all qualitative researchers) is when the respondent's interpretation of their experience and that of the researcher, experience a tension. The researcher may be tempted to assume that the respondent is simply unaware of the way in which they are being exploited and can therefore be said to have a false consciousness.

Question No: 10 (Marks: 1) - Please choose one

Which of the following is NOT characteristic of qualitative data?

- ▶ Rich descriptions
- ▶ Concise
- ▶ Voluminous
- ▶ Unorganized

REFERENCE:

Qualitative data is anything but concise and succinct.

<http://wps.prenhall.com/wps/grader>

Question No: 11 (Marks: 1) - Please choose one

Why is describing the context equally, as important aspect of qualitative data analysis as is describing the participants?

- ▶ Descriptions of context are more objective than descriptions of participants.
- ▶ Descriptions of context are based on facts, not perceptions.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

▶ Participants' behavior cannot be separated from the context in which it occurs.

▶ Participants are the context.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Purposive Sampling
- ▶ Snowball Sampling
- ▶ **Convenience Sampling** PG 90
- ▶ Quota Sampling

REFERENCE:

Convenience Sampling

Convenience sampling (also called *haphazard or accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in the middle of the day do not represent everyone (homemakers, people in the rural areas). Likewise, TV interviewers select people who look “normal” to them and avoid people who are unattractive, poor, very old, or inarticulate.

Question No: 20 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling
- ▶ **Purposive sampling**

Question No: 21 (Marks: 1) - Please choose one

Which of the following is **NOT** a type of Non-random sampling?

- ▶ **Cluster sampling**
- ▶ Convenience sampling
- ▶ Quota sampling
- ▶ Purposive sampling

REFERENCE:

PG90, AND 91

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

- ▶ Time-series data

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Primary data
- ▶ **Secondary data** PG 148
- ▶ Analyzed data

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

REFERENCE:

Historical-comparative researchers draw on four types historical evidence or data:

1. Primary sources;
2. Secondary sources;
3. Running records; and
4. Recollections.

Traditional historians rely heavily on primary sources. H-C researchers often use secondary sources or the different data types in combination.

Question No: 23 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

- ▶ **Replication pattern** PG 110
- ▶ Specification pattern
- ▶ Suppressor variable pattern
- ▶ Negative linear relationship

REFERENCE:

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable. It means that the control variable has no effect.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need **Not** to;

- ▶ Master the literature
- ▶ Take numerous detailed notes
- ▶ Create a bibliography list
- ▶ **Learn your findings**

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

- ▶ Analysis
- ▶ **Synthesis**
- ▶ Results
- ▶ Findings

REFERENCE:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism. A researcher often looks for new evidence to verify specific links that appear only after an explanatory model is developed. He or she evaluates how well the

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

model approximates the evidence and adjusts it accordingly

Question No: 26 (Marks: 1) - Please choose one

Which of the following control techniques available to the researcher, controls both known and unknown variables?

- ▶ Building the extraneous variable into the design
- ▶ Matching
 - ▶ Random assignment
- ▶ Analysis of covariance

REFERENCE:

Random assignment is the best of the experimental control techniques; by randomly forming groups, the groups will be probabilistically equated on all known and unknown variables at the start of the experiment. As you can see, this is very powerful

Question No: 27 (Marks: 1) - Please choose one

Which of the following is more operational with the help of coding system?

- ▶ External Appearance
- ▶ Count Behaviors
 - ▶ Content analysis PG 126
- ▶ Time Duration

REFERENCE:

Constructs in content analysis are operationalizing with a *coding system*, a set of instructions or rules on how to systematically observe and record content from text

Question No: 28 (Marks: 1) - Please choose one

What is the particular advantage of secondary analysis to business students?

- ▶ It is less challenging intellectually
- ▶ It guarantees positive results
- ▶ It is less expensive and less time consuming than primary analysis PG 132
- ▶ It enables students to gain experience of the workplace

REFERENCE:

Secondary analysis is increasingly used by researchers. It is relatively inexpensive; it permits comparisons across groups, nations, or time; it facilitates replication; and permits asking about issues not thought by the original researchers.

Question No: 29 (Marks: 1) - Please choose one

Which of the following similarity is found in Qualitative research and Survey research?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Examine topics primarily from the participants' perspectives.
- ▶ They are guided by predetermined variables to study.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ They are descriptive research methods.
- ▶ Have large sample sizes.

REFERENCE:

Question No: 30 (Marks: 1) - Please choose one

A single element or group of elements that is eligible for selection via the sampling process is called a:

- ▶ Sampling panel
- ▶ Sampling unit
- ▶ Sampling error
- ▶ Sampling quota

REFERENCE:

Sampling Units

During the actual sampling process, the elements of the population must be selected according to a certain procedure. The **sampling unit** is a single element or group of elements subject to selection in the sample. For example, if an airline wishes to sample passengers, it may take every 25th name on a complete list of passengers.

Question No: 31 (Marks: 1) - Please choose one

Codes are rules for _____ data.

- ▶ Classifying
- ▶ Interpreting
- ▶ Recording
- ▶ All of the given options PG

REFERENCE:

Although codes are generally considered to be numerical symbols, they are more broadly defined as the rules for interpreting, classifying, and recording data

Question No: 32 (Marks: 1) - Please choose one

Which of the following contain the captions for the rows of a table?

- ▶ Boxheads
- ▶ Footnotes
- ▶ Source notes
- ▶ None of the given

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

options REFERENCE:

(2) **The Box Head (column captions):**

The vertical heading and subheading of the column are called columns captions.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The spaces where these column headings are written is called box head. Only the first letter of the box head is in capital letters and the remaining words must be written in small letters.

(3) **The Stub (row captions):**

The horizontal headings and sub heading of the row are called row captions and the space where these rows headings are written is called stub.

Question No: 33 (Marks: 1) - Please choose one

The experimental design that uses one-group, a treatment, and a posttest is called _____.

► **One-shot case study design**

- Pretest posttest control group design
- Solomon four-group design
- One-group pretest posttest design

REFERENCE:

One-shot Case Study Design: Also called the one-group posttest-only design, the one-shot case study design has only one group, a treatment, and a posttest

Question No: 34 (Marks: 1) - Please choose one

When a researcher tries to say that the results of a test market in Karachi will hold in a national rollout of the new product, this researcher is concerned with:

- Internal validity ●
- The repeated measures effect
- Constant error
- **External**

validity

REFERENCE:

External validity refers to the extent that the results from a study can be generalized to other people at other times in various conditions. See Study DIAD.

Question No: 35 (Marks: 1) - Please choose one

Obtaining secondary data is typically _____ and _____ expensive than obtaining primary data.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Faster; more
- ▶ Slower; more
- ▶ Faster; less

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Slower; less

Question No: 36 (Marks: 1) - Please choose one

Which of the following is a disadvantage of secondary data?

- ▶ User has no control over their reliability and validity
- ▶ Inability to convert the data
- ▶ Typically require additional access to research respondents
- ▶ All of the given options

Question No: 37 (Marks: 1) - Please choose one

The study of documents used by writers is a method of_____.

- ▶ In-depth analysis
- ▶ Time series analysis
- ▶ Regression analysis
- ▶ **None of the given options** PG 129

REFERENCE:

Existing statistics/documents

Prior to the discussion of secondary data, let us look at the advantages and disadvantages of the use of content analysis that was covered in the last lecture. In a way **content analysis** is also the study of documents through which the writers try to communicate, though some of the documents (like population census) may simply contain figures.

Question No: 38 (Marks: 1) - Please choose one

Historical-Comparative research focuses on:

- ▶ Its broad historical processes
- ▶ Comparing forms
- ▶ Tracing the development of social forms
- ▶ **All of the given options** PG 142

REFERENCE:

Historical-Comparative research focuses on:

- Tracing the development of social forms (patterns) overtime as well as its broad its broad historical processes, and
- Comparing those forms and its developmental processes across cultures (countries/nations).

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 39 (Marks: 1) - Please choose one

When a manufacturer studies his most successful retailer in depth in order to determine

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

some better ideas for displaying bicycles in its retail stores, this is an example of:

- ▶ An experiment
- ▶ A test market
- ▶
- ▶ Causal research

A case study PG 38

REFERENCE:

Case study: It is an in-depth analysis of a unit which could be an individual person, a couple, a group, or an organization. It is more like a clinical analysis in retrospect; starting from the effect and tracing the reasons back in time. The researcher takes the history of the situation and makes use of any other relevant information about the case to identify the factors leading to the present situation.

Question No: 40 (Marks: 1) - Please choose one

An interview conducted by a trained moderator among a small group of respondents in an unstructured and natural manner is a_____.

- ▶ Depth interview
- ▶ Focus group
- ▶ Case study
- ▶ None of the given options

REFERENCE:

http://books.google.com.pk/books?id=TKb8iORscegC&pg=PA145&lpg=PA145&dq=An+interview+conducted+by+a+trained+moderator+among+a+small+group+of+respondents+in+an+unstructured+and+natural+manner+is&source=bl&ots=xSwVIXSg6V&sig=yaT3vG1tw_sUCC-_jE0YFD1P7IE&hl=en&ei=gXkpTZmrJpGu8OOVopC2Ag&sa=X&oi=book_result&ct=result&resnum=1&ved=0CBOO6AEwAA#v=onepage&q=An%20interview%20conducted%20by%20a%20trained%20moderator%20among%20a%20small%20group%20of%20respondents%20in%20an%20unstructured%20and%20natural%20manner%20is&f=false

is an interview conducted by a trained moderator in a non-structured and natural manner with a small group of respondents

Imply the existence of, or a change in, one variable causes or leads to a change in the other variable. This brings in the notions of independent and the dependent variables

Question No: 4 (Marks: 1) - Please choose one

Which two of the following are legitimate frameworks for setting out a literature review:

1. Constructing intertextual coherence, 2. Deconstruction of textual coherence, 3. Problematising the situation, 4. Resolving discovered problems?

- ☐ ▶ ☐☐☐☐☐☐ 1 and 2
- ☐ ▶ ☐☐☐☐☐☐ 2 and 3
- ☐ ▶ ☐☐☐☐☐☐ **1 and 3**
- ☐ ▶ ☐☐☐☐☐☐ 2 and 4

REFERENCE:

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch04/>

Question No: 5 (Marks: 1) - Please choose one

Which of the following is the appropriate way in which to view the reliability of observational data?

- ▶ Test-retest ☐☐☐☐☐☐☐
- ▶ Parallel forms ☐☐☐☐☐☐☐
- ▶ **Internal consistency** ☐☐
- ▶ Interobserver ☐ reliability

REFERENCE:

Internal consistency is a method of establishing the reliability of a questionnaire with a single administration by examining how strongly its questions are related to one another.

Question No: 6 (Marks: 1) - Please choose one

Which of the following is the evidence that the instrument, techniques, or process used to measure concept does indeed measure the intended concepts?

- ▶ Reliability ☐☐☐☐☐☐☐
- ▶ Replicable
- ▶ Scaling ☐☐☐
- ▶ **Validity** ☐☐☐☐☐

Question No: 7 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

If a study is 'reliable', this means that:

☐ ► ☐☐☐☐☐☐☐ It was conducted by a reputable researcher who can be trusted.

☐ ► ☐☐☐☐☐☐☐ The measurements devised for concepts are stable on different occasions

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ The findings can be generalized to other social settings.
- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ The methods are stated clearly enough for the research to be replicated.

REFERENCE:

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch02/>

Question No: 8 (Marks: 1) - Please choose one

Which of the following is **not** a form of measurement validity?

- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ Concurrent validity
- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ Face validity
- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ **Conductive validity**
- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ Convergent validity

REFERENCE:

PAGE#55 AND 56

Question No: 9 (Marks: 1) - Please choose one

One of the preoccupations of quantitative researchers is with generalization, which is a sign of:

- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ **External validity**
- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ Internal reliability
- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ External reliability
- ☐ ► ☐ ☐ ☐ ☐ ☐ ☐ Internal validity

REFERENCE:

The issue here is with the application of the research findings to people who were not part of the research focus. If we select our sample of respondents randomly from the population as a whole, we can be quite sure that the findings can be applied to the whole population. But if we interviewed people casually, we could not generalize our findings beyond the actual people interviewed. This is the essence of external validation of research: how universally can the research findings be applied? It must be said that even with random sampling, we have no right to apply our findings to other populations, no matter how strong the temptation

Question No: 10 (Marks: 1) - Please choose one

The validity of a measure refers to which of the following?

- ☐ Consistency of the ☐ measurement
- ☐ Particular type of construct ☐ specification
- ☐ Comprehensiveness with which it measures the ☐ construct
- ☐ **Accuracy with which it measures the ☐ construct**

REFERENCE:

Validity is a property of a measurement that refers to its accuracy, or the degree to which observations reflect the true value of a phenomenon. It is possible to have a measure that is very reliable, but not at all valid.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Validity

The accuracy of a measure or the extent to which a score truthfully represents a concept

<http://wps.prenhall.com/wps/grader>

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 15 (Marks: 1) - Please choose one

The most critical area of an article to read is;

Introduction ☐ ☐ ☐ ☐ ☐

Abstract ☐ ☐ ☐ ☐ ☐

Results section PG 29

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Limitations ☐☐☐☐

REFERENCE:

The most critical areas of an article to read are the methods and results sections. Few studies are perfect. Researchers do not always describe the methods they used as fully as they should. Some times the results presented in tables or charts do not match what the researcher says. Some points may be over emphasized and others ignored. Check the conclusions, theses may not be consistent with the results. ☐☐

Question No: 16 (Marks: 1) - Please choose one

The cover letter to a questionnaire study should contain all of the following, EXCEPT;

A list of participants

A self-addressed, stamped envelope

Purpose of the study

Reasons to respond

REFERENCE:

<http://wps.prenhall.com/wps/grader> ☐☐☐☐

Question No: 17 (Marks: 1) - Please choose one

Questions that include negatives should be avoided because:

☐ ► ☐☐☐☐☐☐☐ The respondent may miss out the negative word.

☐ ► ☐☐☐☐☐☐☐ The respondent may be unsure how to answer if the question has a double negative.

☐ ► ☐☐☐☐☐☐☐ The respondent may be led by the question.

All of the

given options

ns

REFERENCE:

E:

When using a Likert scale it can be difficult to avoid asking a question with a negative, however the researcher should attempt to avoid them if possible.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/>

Question No: 18 (Marks: 1) - Please choose one

Which of the following is an advantage of open ended questions?

☐ ► ☐☐☐☐☐☐☐ **They allow respondents to answer in their own terms.**

☐ ► ☐☐☐☐☐☐☐ They prevent respondents from giving unusual answers.

☐ ► ☐☐☐☐☐☐☐ They allow respondents to put less effort into their answer.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

☐ ► ☐☐☐☐☐☐ They allow respondents to code their answers in advance.

REFERENCE:

An open question means that the respondent is not forced to use terminology that is decided by the researcher in advance.

Question No: 19 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

research to investigate behaviour?

- ☐ ☐ Respondents tend to answer by giving the most socially desirable answer.
- ☐ ☐ Respondents may inadvertently omit key terms in the question.
- ☐ ☐ Respondents may not give an honest reply to what they see as a threatening question.
- ☐ ☒ Respondents may be unwilling to reveal information as they are likely to be identified.

REFERENCE:

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual.

Question No: 20 (Marks: 1) - Please choose one

The most important characteristic of the sample in survey research is that it is:

☒ Representative of the target population

☐ Convenient to access.

☐ Easily observed in naturalistic settings.

☐ Large enough to compare differences between subgroups.

REFERENCE:

<http://wps.prenhall.com/wps/grader>

Question No: 21 (Marks: 1) - Please choose one

Which of the following concerns is MOST likely to become a problem if Mr. Baber uses purposive sampling techniques?

☒ Generalizability from the sample to the population.

☐ Statistically equal groups.

☐ Subjects participating in the study.

☐ Selection of participants who are thought to be informative, articulate, and experienced with the research topic and setting.

Question No: 22 (Marks: 1) - Please choose one

The logic of purposive sampling is:

☐ To use participants because the researcher has access to them.

☐ That a random sample can generalize to a population.

☒ That a few information-rich participants studied in depth yield many insights about a topic.

☐ To include all participants, even though they are not all relevant to the problem.

Target Population

Out of the conceptual variations what exactly the researcher wants to focus on. This may also be called a target population. Target population is the complete group of specific population elements relevant to the research project. Target population may also be called *survey population* i.e. that aggregation of elements from which the survey sample is actually selected

Question No: 34 (Marks: 1) - Please choose one

Which of the following can be referred as Expert opinion sample?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Purposive ☐ **Sampling** PG 9

Snowball ☐ Sampling

Convenience ☐ Sampling Quota ☐

Sampling **REFERENCE:**

Purposive Sampling

Depending upon the type of topic, the researcher lays down the criteria for the subjects to be included in the sample. Whoever meets that criteria could be selected in the sample. The researcher might select such cases or might provide the criteria to somebody else and leave it to his/her judgment for the actual selection of the subjects. That is why such a sample is also called as **judgmental or expert opinion sample**

Question No: 35 (Marks: 1) - Please choose one

Which of the following sampling method is the best way to select a group of people for a study if you are interested in making statements about the larger population?

Convenience ☐ sampling

Quota ☐ sampling

Purposive ☐ sampling

☐ **Random** ☐ sampling

Question No: 36 (Marks: 1) - Please choose one

Which one of the following is often measured at the interval or ratio level?

Scale ☐

Index ☐ ☐ ☐ ☐ ☐ ☐

PG 53

Unidimensionality ●

☐ ☐ ☐ ☐ ☐ ☐

Weighing ☐ ☐ ☐

REFERENCE:

☐ An index is a measure in which a researcher adds or combines several distinct indicators of a construct into a single score. The composite scores is often a simple sum of the multiple indicators. Indexes are often measured at the interval or ratio level. ☐ ☐ ☐ ☐

Question No: 37 (Marks: 1) - Please choose one

Which of the following number of variables involved in Descriptive Statistics?

Bivariate ☐ ☐ ☐ ☐ ☐ ☐

Multivariate ☐ ☐ ☐ ☐ ☐ ☐ ☐

Univariate ☐ ☐ ☐ ☐ ☐ ☐ ☐

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

All of the given options

PG

105REFERENCE:

Descriptive statistics describe numerical data. They can be categorized by the number of

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

variables involved: univariate, bivariate, or multivariate (for one, two, and three or more variables). Univariate statistics describe one variable.

Question No: 38 (Marks: 1) - Please choose one

Which of the following occurs when one partial replicate the initial bivariate relationship but other partials do not?

Replication ☐ pattern

☐ ☒ **Specification pattern** PG 111

Negative linear relationship

Suppressor variable pattern

REFERENCE:

The specification pattern is the next easiest pattern. It occurs when one partial replicate the initial bivariate relationship but other partials do not.

Question No: 39 (Marks: 1) - Please choose one

There are a number of ways in which confounding extraneous variables can be controlled. Which of the following control techniques is considered to be the best?

Treatment ☐ group

Matching ☐ ☐ ☐ ☐ ☐ ☐ ☐

Counter ☐ balancing

Random ☒ assignment

Question No: 40 (Marks: 1) - Please choose one

Which of the following designs does an excellent job of controlling for rival hypotheses that threaten the internal validity of an experiment?

Posttest-only ☐ design with nonequivalent groups

Posttest-only ☐ control-group design

Pretest-posttest control-group ☒ design

Posttest-only ☐ design without nonequivalent groups

Question No: 45 (Marks: 1) - Please choose one

Which of the following advantage differentiates personal interview from mail, internet and telephonic survey?

Cheaper ☐☐☐☐☐☐

Expensive ☐☐☐☐☐☐☐☐

Easier ☐☐☐☐☐☐☐☐

Inexpensive ☐☐

Question No: 46 (Marks: 1) - Please choose one

Which of the following is the most common method of generating primary data?

- ▶ **Surveys** PG 37
- ▶ Literature Review
- ▶ Communication analysis
- ▶ Research Journals

REFERENCE:

Surveys: The most common method of generating primary data is through surveys.

Survey is a research technique in which information is gathered from a sample of people using a questionnaire

Question No: 47 (Marks: 1) - Please choose one

Which of the following refers to the extent that all information collected in a questionnaire addresses a research question that will help the decision maker address the current business problem?

- ▶ Accuracy
- ▶ Counter balanced
- ▶ Relevance
- ▶ Frequency

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 48 (Marks: 1) - Please choose one

When a company decides to send an Internet survey to all of its 157-member sales force

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

to determine their morale, this is an example of a:

► **Census**

- Cluster sample
- Multistage area sample
- Sample

REFERENCE:

Census is the procedure of systematically acquiring and recording information about the members of a given population. It is a regularly occurring and official count of a particular population. ..

Question No: 49 (Marks: 1) - Please choose one

When researcher instructs field interviewers to interview 30 workers in manufacturing industries, 30 in service industries, 30 in non-profit organizations, 30 in healthcare industries, and 30 in the government sector, this represents what type of sampling procedure?

- Systematic sample
- Stratified sample
- Judgment sample
- **Quota**

sample

REFERENCE:

A sampling procedure that ensures that certain characteristics of a population sample will be represented to the exact extent that the researcher desires. In this case the researcher first identifies relevant categories of people (e.g. male and female; or under age 30, ages 30 to 60, over 60, etc) then decides how many to get in each category. Thus the number of people in various categories of sample is fixed

Question No: 50 ● (Marks: 1) - Please choose one

Which probability sampling technique is low cost and frequently used?

- Simple random
- Snowball
- Quota
- **Cluster**

REFERNC

E:

Cluster sampling

Sometimes it is too expensive to spread a sample across the population as a whole. Travel

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

costs can become expensive if interviewers have to survey people from one end of the country to the other. To reduce costs, statisticians may choose a cluster sampling technique.

OR

A low-cost, frequently used method, the area cluster sample may use geographic sample units (eg, city blocks).

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 51 (Marks: 1) - Please choose one

The sampling procedure of obtaining those people or units that are most conveniently available is called:

- ▶ Stratified sample
- ▶ **Convenience sample**
- ▶ Judgment sample
- ▶ Cluster sample

REFERENCE:

Convenience sample

A group of individuals being studied because they are conveniently accessible in some way. Convenience samples may or may not be representative of a population that would normally be receiving an intervention.

Question No: 52 (Marks: 1) - Please choose one

When a respondent's answers to ten Likert-scale items are added up to form a total subset score for these questions, this is an example of:

- ▶ Data indexing
- ▶ Contingency analysis
- ▶ **Data transformation** PG 101
- ▶ None of the given options

REFERENCE:

Data transformation is the process of changing data from their original form to a format that is more suitable to perform a data analysis that will achieve the research objectives. Collapsing or combining categories of a variable is a common data transformation that reduces the number of categories. For example five categories of Likert scale response categories to a question may be combined like: the “strongly agree” and the “agree” response categories are combined. The “strongly disagree” and the “disagree” response categories are combined into a single category. The result is the collapsing of the five-category scale down to three.

Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

- ▶ Cluster sample
- ▶ **Convenience sample**
- ▶ Multistage area sample
- ▶ Systematic sample

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

that would normally be receiving an intervention

Question No: 54 (Marks: 1) - Please choose one

Which experimental design involves manipulating a single independent variable to observe its effect on a single dependent variable?

- ▶ Primary experimental design
- ▶ **Basic experimental design**
- ▶ Factorial experimental design
- ▶ Counterbalanced experimental design

REFERENCE:

In basic experimental designs a single independent variable is manipulated to observe its effect on a single dependent variable.

Question No: 55 (Marks: 1) - Please choose one

Arranging data into a table is called:

- ▶ **Tabulation**
- ▶ Frequency
- ▶ Analysis
- ▶ All of the given options

REFERENCE:

- ☐ tabulate - table: arrange or enter in tabular form
- ☐ tabulate - shape or cut with a flat surface

Question No: 56 (Marks: 1) - Please choose one

Which of the following is critical when conducting experimental research because it allows researchers to return subjects to normal?

- ▶ Manipulation check
- ▶ Cohort analysis
- ▶ **Debriefing**
- ▶ Deception

REFERENCE:

Debriefings originated in the **military**. This type of debriefing is used to receive information from a pilot or soldier after a mission, and to instruct the individual as to what information can be released to the public and what information is restricted. Another purpose of the military debriefing is to assess the individual and return him or her to regular duties as soon as possible

Question No: 57 (Marks: 1) - Please choose one

Research projects involving experimental manipulations that are implemented in a natural environment are called:

AR Lucky Term

Which is **NOT** a main function of focus groups?

- ▶ **Generating insight into previously misunderstood topics**
- ▶ In-depth information gathering from one participant
- ▶ Understanding how group members arrive at their conclusions
- ▶ Encouraging group interaction

PAPER#5

FINAL TERM EXAMINATION

Fall 2009

STA630- Research Methods

Question No: 1 (Marks: 1) - Please choose one

The part of the action research spiral that differentiates this research methodology from other kinds of research is;

- ▶ Looking at multiple sources of data.
- ▶ **Taking action based on results.**
- ▶ Thinking about or analyzing data in more than one way.
- ▶ The kinds of data that are collected.

REFERENCE

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 2 (Marks: 1) - Please choose one

Individuals who engage in action research are most concerned with:

- ▶ Supporting the way things are being done.
- ▶ Publishing results
- ▶ Proving a hypothesis
- ▶ **Improve**

REFERENCE

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 3 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

- ▶ The level of manipulation used to elicit data collection.
- ▶ The data-collection technique.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ The type of data collected.
 - ▶ Type, technique and manipulation of data collection.

AR Lucky Term

Question No: 4 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

- ▶ A quantitative study.
- ▶ **A tentative prediction of the results of the research**
- ▶ A qualitative research design.
- ▶ The operational definition of the study.

Question No: 5 (Marks: 1) - Please choose one

What is the first step in the research process?

- ▶ Problem definition
- ▶ **Define broad problem area**
- ▶ Theoretical framework
- ▶ Preliminary data collection

REFERENCE:

PAGE#36

Question No: 6 (Marks: 1) - Please choose one

When there is a need of generating new ideas for hypotheses or to interpret the results of some research, which one is the best research design?

- ▶ Experiment
- ▶ Surveys
- ▶ **Focus group discussion** PG 38
- ▶ Communication analysis

REFERENCE

Focus group discussions: It is a discussion of an issue by 6-12 persons with a moderator for 1-2 hours. The issue can be a public concern, a product, a television program, a political candidate, or a policy. Focus groups are useful in exploratory research or to generate new ideas for hypotheses, and the interpenetration of results. It produces qualitative information which may compliment the quantitative data.

Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of deception in business research?

- ▶ The obtaining of company material without permission.
- ▶ The researcher wearing a disguise during an observation.
- ▶ **The researcher representing their research as being about a different topic.**
- ▶ The researcher failing to ask permission to interview someone.

REFERENCE:

By informing participants that the research is about something different than it actually is, the researcher is purposefully deceiving the participant. To some degree this is prevalent in all research so that researchers can maximise the natural response to the questions

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

asked.

Question No: 8 (Marks: 1) - Please choose one

Which of the following is least likely to occur as an ethical problem with electronic

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

research?

- ▶ Privacy could be invaded.
- ▶ People are not likely to be able to stop once they have begun participating.
- ▶ Debriefing could be avoided.
- ▶ Informed consent cannot be completely monitored.

Question No: 9 (Marks: 1) - Please choose one

All of the following are unethical issues, EXCEPT;

- ▶ Invoicing irregularities
- ▶ Avoiding legal liability
- ▶ Misrepresenting results
- ▶

Seeking permission for entry

PG 41

REFERENCE:

However, unethical activities are pervasive and include violating nondisclosure agreements, breaking respondent confidentiality, misrepresenting results, deceiving people, invoicing irregularities, avoiding legal liability, and more.

Question No: 10 (Marks: 1) - Please choose one

Which of the following is the difference between measures and indicators?

- ▶ Measures are unambiguous quantities, whereas indicators are devised from common sense understandings.
- ▶ Indicators have a more direct relationship to the underlying concept than measures.
- ▶ Measures are intuitively devised and then applied as if they were direct indicators of a concept.
- ▶ Indicators are unambiguous quantities, whereas measures are subjective and value-laden.

REFERENCE: ●

Measures include things like demographics (of age, income and so on), which can be counted. In fact, usually we think of measures as raw numbers. Often though, what we want to research does not lend itself immediately to straightforward calculation on numbers of things and how they vary but on slightly vaguer concepts. Like job satisfaction, for example. In this case we need a number of attitude statements, which, taken together, can be argued to represent the concept. These separate statements are indicators and often represent our 'common sense' understanding of a concept. Later, these can be coded to turn them into numbers for statistical analysis.

Question No: 11 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The extent to which a test provides scores that are meaningful, appropriate, or useful is referred to as;

- ▶ Reliability
- ▶ Accuracy

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Internal validity
- ▶ Validity

y

REFERENCE

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 12 (Marks: 1) - Please choose one

Which of the following functions is performed by the Ordinal scale?

- ▶ Categorize
- ▶ Distance
- ▶ Order
- ▶ Unique origin

REFERENCE:

<http://www.rasch.org/measess/met-26.pdf>

Question No: 13 (Marks: 1) - Please choose one

What is the difference between interval/ratio and ordinal variables?

- ▶ Ordinal data can be rank ordered, but interval/ratio data cannot.
 - ▶ The distance between categories is equal across the range of interval/ratio data.
- ▶ Interval/ratio variables contain only two categories.
- ▶ Ordinal variables have a fixed zero point, whereas interval/ratio variables do not.

REFERENCE:

Interval/ratio variables are those whose categories are equidistant, such as age in years. Ordinal variables can be ranked ordered, but the distance between categories are not equal across the range.

Question No: 14 (Marks: 1) - Please choose one

Which of the following statement refers to cross-sectional design?

- ▶ A comparison of two or more variables over a long period of time
- ▶ The collection of data from more than one case at one moment in time
- ▶ One that is devised when the researcher is in a bad mood
- ▶ A study of one particular section of society, e.g. the middle classes

REFERENCE:

Cross-sectional research differs from a longitudinal research in that cross-sectional

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

studies are designed to look at a variable at a particular point in time. While longitudinal studies involve taking multiple measures over an extended period of time, cross-sectional research is focused on finding relationships between variables at a specific point in time.

Cross-Sectional Studies are carried out **once** and represent a snapshot of one point in time. Data are collected just once, perhaps over a period of days or weeks or months, in order to answer the research

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 15 (Marks: 1) - Please choose one

Which of the following is TRUE for research plan?

- ▶ It should be detailed.
- ▶ It should be given to others for review and comments.
- ▶ It sets out the rationale for a research study.
- ▶ **All of the given options**

Question No: 16 (Marks: 1) - Please choose one

Which of the following typically does NOT apply to observers in survey research studies?

- ▶ They observe predetermined activities.
- ▶ **They are participant observers.**
- ▶ They obtain information by watching rather than asking. .
- ▶ They must be careful not to influence the activities they observe.

REFERENCE:

<http://wps.prenhall.com/wps/grader>

Question No: 17 (Marks: 1) - Please choose one

Which of the following is **not** an advantage of the self-completion questionnaire over the structured interview?

- ▶ It is cheaper to administer.
- ▶ It is quicker to administer.
- ▶ **It is easier to prompt the interviewee.**
- ▶ It is easier to remove interviewer effects. .

REFERENCE:

Because the self-completion questionnaire is completed without the researcher present it is not possible for them to assist respondents who are struggling to understand a specific question.

Question No: 18 (Marks: 1) - Please choose one

Mr. X has coded his observations to hide the identity of each of the three participants in his study. He is ensuring;

- ▶ protection from harm
- ▶ **confidentiality**
- ▶ informed consent
- ▶ anonymity .

Question No: 20 (Marks: 1) - Please choose one

Teachers are advised to predict the results of student attitudinal questionnaires, because;

- ▶ It will help them decide if students answered truthfully.
- ▶ **It gives them a point of comparison against which to judge actual responses.**
- ▶ It will allow them to apply statistical procedures in analyzing results.
- ▶ It helps them familiarize themselves with the questionnaires.

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 21 (Marks: 1) - Please choose one

In conducting an action research study of "student's organizational skills during class in a particular school", which of the following would NOT likely to provide useful data?

- ▶ Interviews with teachers
- ▶ Classroom observations
- ▶ **Parent surveys**
- ▶ Teacher's journal entries

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 22 (Marks: 1) - Please choose one

Why it is helpful to keep a research diary or log book while you are conducting your project?

- ▶ To give you something to do in the early stages of your research when nothing is happening.
- ▶ Because funding councils generally demand to see written evidence that you were working every day during the period of the research.
- ▶ **To keep a record of what you did and what happened throughout the research process.**
- ▶ It can be added to your dissertation to ensure that you reach the required word limit.

REFERENCE:

It can be very helpful to keep a written log book or diary of the whole period during which you conducted your project. This is because the research process is typically long,

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

busy and full of unexpected turns of events. Keeping a record of what happened and when will help you to monitor how well the research is progressing and whether you are managing to answer your research questions. It will also be an extremely useful resource

Question No: 26 (Marks: 1) - Please choose one

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

- ▶ What role to adopt while interviewing male managers?
- ▶ How many female employees should be interviewed for a representative sample?
- ▶ **How to overcome the issue of false consciousness?**

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- What data to use while publishing findings?

REFERENCE:

A significant dilemma for feminist researchers (and possibly all qualitative researchers) is

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

when the respondent's interpretation of their experience and that of the researcher, experience a tension. The researcher may be tempted to assume that the respondent is simply unaware of the way in which they are being exploited and can therefore be said to have a false consciousness

Question No: 27 (Marks: 1) - Please choose one

Which of the following sampling strategies was used when the three students with the highest GPAs were selected?

- ▶ Extreme case
- ▶ Snowball
- ▶ Maximum variation
- ▶ Normal case

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html

Question No: 28 (Marks: 1) - Please choose one

Which type of sampling strategy is exemplified by selecting two types of individuals: those who are extremely happy and those who are extremely sad?

- ▶ Snowball
- ▶ Intensity
- ▶ Homogeneous
- ▶ Purposive

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 29 (Marks: 1) - Please choose one

The logic of purposive sampling is:

- ▶ To use participants because the researcher has access to them.
- ▶ That a random sample can generalize to a population.
- ▶ That a few information-rich participants studied in depth yield many insights about a topic.
- ▶ To include all participants, even though they are not all relevant to the problem.

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 30 (Marks: 1) - Please choose one

Using a sample of 30 participants, a researcher finds a correlation of 0.30 between two variables. The relationship is not statistically significant. If the researcher were to triple

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

her sample size, which of the following is most likely?

- ▶ The correlation would be statistically significant.
- ▶ The correlation would be larger.
- ▶ The correlation would be smaller.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Nothing is likely to change.

REFERENCE:

Question No: 42 (Marks: 1) - Please choose one

Which of the following is linked with an abstract model of underlying relations or causal mechanism?

- ▶ **Historical comparative research** PG 148
- ▶ Social research
- ▶ Action research
- ▶ Experimental research

REFERENCE:

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism. A researcher often looks for new evidence to verify specific links that appear only after an explanatory model is developed. He or she evaluates how well the model approximates the evidence and adjusts it accordingly.

Historical-comparative researchers also identify critical indicators and supporting evidence for themes or explanations. A *critical indicator* is unambiguous evidence, which is usually sufficient for inferring a specific theoretical relationship. Researchers seek these indicators for key parts of an explanatory model. Indicators critically confirm a

AR Lucky Term

Question No: 46 (Marks: 1) - Please choose one

Which of the following elements of Observation is/are included in Non Reactive research?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ External Appearance
- ▶ Count Behaviors
- ▶ Time Duration
- ▶ All of the given options PG 124

REFERENCE:

Observations:

- **External Appearance:** How people appear may indicate social factors. For example, a researcher watches students to see whether they are more likely to wear their college's colors and symbols after the college team won or lost.
- **Count Behaviors:** Counting how many people do something can be informative. For example a researcher may count the number of men and women who come to a full stop and those who come to a rolling stop at a traffic stop sign. This suggests gender difference in driving behavior.
- **Time Duration:** How long people take to do things may indicate their intention. For example a researcher may measure how long men and women pause in front of a particular painting. Time taken may indicate their interest in the painting.

Question No: 47 (Marks: 1) - Please choose one

Secondary /existing data may include which of the following?

- ▶ Official documents
- ▶ Personal documents ●
- ▶ Archived research data
- ▶ All of the given options

REFERENCE:

The most commonly used secondary data are documents, physical data, and archived research data.

1. **Documents.** There are two main kinds of documents.
 - Personal documents (i.e., things written or recorded for private purposes). Letters, diaries, family pictures.
 - Official documents (i.e., things written or recorded for public or private organizations). Newspapers, annual reports, yearbooks, minutes.

Question No: 52 (Marks: 1) - Please choose one

When a respondent tells the interviewer that he reads "Best Selling English News Paper" on a daily basis so that he can impress the interviewer, this is an example of:

- ▶ Administrative bias
- ▶ **Interviewer bias**
- ▶ Submission bias
- ▶ Response bias

Question No: 53 (Marks: 1) - Please choose one

All of the following are stages in the selection of a sample **EXCEPT**:

- ▶ Determine sample size
- ▶ **Analyze data**
- ▶ Conduct fieldwork
- ▶ Select a sampling frame

REFERENCE:

Stages in the Selection of a Sample

Step 1: Define the target population

Step 2: Select The Sampling Frame

Step 3: Probability OR Non-probability?

Step 4: Plan Selection of sampling units

Step 5: Determine Sample Size

Step 6: Select Sampling units

Step 7: Conduct Fieldwork

Question No: 54 (Marks: 1) - Please choose one

A stratified sample in which the number of sampling units drawn from each stratum is in proportion to the population size of that stratum is called a:

- ▶ Balanced stratified sample
- ▶ **Proportional stratified sample PG NO 94**
- ▶ Cluster sampling

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

► Convenience sample

REFERENCE:

Proportionate versus Disproportionate

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

If the number of sampling units drawn from each stratum is in proportion to the relative population size of the stratum, the sample is proportionate stratified sampling.

Question No: 55 (Marks: 1) - Please choose one

Assigning males the value of zero and females the value of one in a database to record the gender of the respondents is an example of:

- ▶ Coding
- ▶ Editing
- ▶ Verification
- ▶ Test tabulation

REFERENCE:

The process of converting information obtained on a subject or unit into coded values (typically numeric) for the purpose of data storage, management, and analysis. FOR EXAMPLE, the sex of the respondent may be coded "1" for a female and "2" for a male.

Question No: 56 (Marks: 1) - Please choose one

Arranging data into a table is called:

- ▶ Analysis
- ▶ Frequency
- ▶ Interpretation
- ▶ Tabulation

REFERENCE:

- ☐ tabulate - table: arrange or enter in tabular form
- ☐ tabulate - shape or cut with a flat surface

Question No: 57 (Marks: 1) - Please choose one

A researcher interested in a data matrix that displays the frequency of some combination of possible responses to multiple variables should construct a:

- ▶ Contingency table
- ▶ Regression equation
- ▶ Marginal table
- ▶ None of the given options

REFERENCE:

A contingency table is formed by cross-tabulating the two or more variables. It is

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

contingent because the cases in each category of a variable get distributed into each category of a second variable. The table distributes cases into categories of multiple variables at the same time and shows how the cases, by the category of one variable, are “contingent upon” the categories of the other variables

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 58 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- ▶ Judgment sample
- ▶ **Snowball**
- ▶ Convenience sample
- ▶ Cluster sample

REFERENCE:

<http://www.statpac.com/surveys/sampling.htm>

Question No: 59 (Marks: 1) - Please choose one

When different interviewers are used in a pretest from those used in the posttest and this produces different results in the study, this is an example of a:

- ▶ History effect
- ▶ Mortality effect
- ▶ **Instrumentation effect**
- ▶ Cohort effect

REFERENCE:

4. **Instrumentation Effects:** Instrumentation effects are yet another source of threat to internal validity. These might arise because of a change in the measuring instrument between pretest and posttest, and not because of the instrument's differential impact at the end. For example, in a weightloss experiment, the springs on the scale weaken during the experiment, giving lower readings in the posttest. A change in the wording of questions (may be done to avoid testing effects), change in interviewers, or change in other procedures to measure the dependent variable can cause instrumentation effect. Performance of the subjects measured by the units of output in the pretest, but when measuring the out put in posttest the researcher measures it by "the number of units rejected, and the amount of resources expended to produce the units.

Question No: 60 (Marks: 1) - Please choose one

Which of the following is a threat to the internal validity of experiment using a repeated measures design?

- ▶ **Instrumentation effect**
- ▶ Cohort effect
- ▶ Attrition effect

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- All of the given options

REFERENCE:

Factors Affecting Internal Validity

Fall 2009

STA630- Research Methods

(Session - 1)

Question No: 1 (Marks: 1) - Please choose one

Research method is applicable in all of the following fields, Except.

- ▶ Health care
- ▶ Business
- ▶ Government offices

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

► Religion

Question No: 2 (Marks: 1) - Please choose one

Which of the following statements is false about variables?

- Discrete variables allow measurement of an infinite number of fractions of units

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

of measurement.

- ▶ Discrete variables can only have whole number values.
- ▶ Continuous numbers can only have whole number values.
- ▶ Continuous measures do not allow for scores that fall between two number values.

REFERENCE:

Variables that can take on any value and therefore are not discrete are called continuous. Variables which can only have whole number values are called Discrete variables

<http://www.google.com.pk/#sclient=psy&hl=en&q=which++variables+can+only+have+whole+number+values&aq=f&aql=&oq=which++variables+can+only+have+whole+number+values&fp=34afac594b3b4b06>

Question No: 3 (Marks: 1) - Please choose one

A variable that is presumed to cause a change in another variable is known as:

- ▶ Discontinuous variable
- ▶ Dependent variable
- ▶ Independent variable
- ▶ Intervening variable

REFERENCE:

http://www.google.com.pk/search?hl=en&defl=en&q=define:independent+variable&sa=X&ei=XTE5TcD5MZKr8AOp6Yy_CA&ved=0CBQQkAE

A variable presumed to influence or precede another variable (dependent variable). The variable is systematically manipulated by the researcher to determine changes in the dependent variable. Also known as the experimental variable or moderating variable.

or

An independent variable is presumed to cause of the dependent variable-the presumed effect.

Question No: 4 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

- ▶ A quantitative study.
- ▶ A tentative prediction of the results of the research.
- ▶ A qualitative research design.
- ▶ The operational definition of the study.

Question No: 6 (Marks: 1) - Please choose one

Which of the following is the characteristic/s of Hypotheses in qualitative research studies?

- ▶ Hypotheses are very specific and stated prior to beginning the study.
- ▶ Hypotheses are never used.
- ▶ **Hypotheses are often generated as the data are collected, interpreted, and analyzed.**
- ▶ Hypotheses are always stated after the research study has been completed.

REFERENCE:

Question No: 7 (Marks: 1) - Please choose one

A formal statement of the research question or “purpose of research study” generally:

- ▶ Is made prior to the literature review
- ▶ **Is made after the literature review**
- ▶ Will help guide the research process
- ▶ Is made before or after literature review

REFERENCE:

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc3.htm>

Question No: 8 (Marks: 1) - Please choose one

Which of the following refers to "A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review"?

- ▶ Integrative review
- ▶ Theoretical review
- ▶ **Self-study review**
- ▶ Historical review

REFERENCE:

Types of Reviews

When beginning a review, researcher may decide on a topic or field of knowledge to examine, how much depth to go into, and the kind of review to conduct. There are six types of review:

1. Self-study reviews increase the reader's confidence. A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

In addition to giving others confidence in a reviewer's command of field, it has the side benefit of

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

building the reviewer's self confidence

Question No: 9 (Marks: 1) - Please choose one

Quantitative research has been criticised because:

- ▶ The reliance on instruments and procedures makes it high in ecological validity.
- ▶ The measurement process suggests a spurious and artificial sense of accuracy.
- ▶ It underestimates the similarities between objects in the natural and social worlds.
- ▶ It has no validity.

REFERENCE:

Some critics of quantitative research see it as pretending that a photograph is a good representation of life, rather than being a 'frozen' instant of it. As a consequence, quantitative research is accused of assuming that social life is static, clearly not the case. Furthermore, the ontological basis of this kind of research obliges the social-science researcher to regard people in the same way that physical-science researchers regard nature and again, clearly there is a 'world' of difference. However, the measurement process, largely because of the need for all those tests of validity and reliability, does tend to leave quantitative researchers with a deep sense of accuracy of their research results. In the view of some critics this confidence is misplaced, because, among other things, it is unlikely that respondents will share a precise interpretation of the terms used, with the researcher. Most of the criticism comes from proponents of qualitative research

Question No: 10 (Marks: 1) - Please choose one

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

- ▶ Are easily calculated.
- ▶ Require only one administration of a test.
- ▶ Are more accurate than all other types of estimates.
- ▶ Are usually higher.

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 11 (Marks: 1) - Please choose one

Which of the following functions is performed by the Nominal scale?

- ▶ Categorize
- ▶ Distance
- ▶ Order
- ▶ Unique origin

Question No: 12 (Marks: 1) - Please choose one

Categorical measures are forms of measurement classified as;

- Measures that reflect quantitative differences.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ **Measures that reflect qualitative differences.**
- ▶ Measures that do not require mutual exclusivity or exhaustiveness when devising a measuring system.
- ▶ Rationale measures.

Question No: 13 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

- ▶ The measure apparently reflects the content of the concept in question.
- ▶ **A criterion is employed on which cases are known to differ**
- ▶ A future criterion is employed on which cases are known to differ.
- ▶ A measure is gauged by comparing it to measures of the same concept developed through other methods.

REFERENCE:

An example of concurrent validity is the use of the criterion of absenteeism to measure job satisfaction.

Question No: 14 (Marks: 1) - Please choose one

If a measure is consistent over multiple occasions, it has:

- ▶ Inter-rater reliability
- ▶ Construct validity
- ▶ Internal validity
- ▶ **Test-retest**

reliability

REFERENCE:

Test-retest reliability is the degree to which an assessment yields similar results from one testing occasion to another in the absence of intervening growth or instruction

Question No: 15 (Marks: 1) - Please choose one

The validity of a measure refers to which of the following?

- ▶ Consistency of the measurement
- ▶ Particular type of construct specification
- ▶ Comprehensiveness with which it measures the construct
- ▶ **Accuracy with which it measures the**

construct

REFERENCE:

Validity is a property of a measurement that refers to its accuracy, or the degree to which observations reflect the true value of a phenomenon. It is possible to have a measure that is very reliable, but not at all valid.

Validity

The accuracy of a measure or the extent to which a score truthfully represents a concept

Question No: 16 (Marks: 1) - Please choose one

In which of the following types of interview, questions are already prepared?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ Telephonic interview
- ▶ Personal interview
- ▶ Unstructured interview

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

► Structured

interview REFERENCE:

Structured interview

Fixed format interview in which all questions are prepared beforehand and are put in the same order to each interviewee. Although this style lacks the free flow of a friendly conversation (as in an unstructured Interview) it provides the precision and reliability required in certain situations. Also called directive interview

Question No: 17 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using survey research to investigate behaviour?

- Respondents tend to answer by giving the most socially desirable answer.
- Respondents may inadvertently omit key terms in the question.
- Respondents may not give an honest reply to what they see as a threatening question.
- Respondents may be unwilling to reveal information as they believe they are

likely to be identified.

REFERENCE:

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual.

Question No: 18 (Marks: 1) - Please choose one

Which of the following statements might assist response rates?

- Please photocopy the questionnaire five times and pass on to your work colleagues.
- Please make sure that the questionnaire is completed with a fountain pen.
- Please read the attached journal article on the ontological foundations of positivism prior to completing the questionnaire.
- Please put the completed questionnaire in the enclosed stamped addressed envelope and place in the mail out tray.

REFERENCE:

Enclosing a stamped addressed envelope is very important if the researcher wishes to achieve an acceptable response rate.

Question No: 19 (Marks: 1) - Please choose one

After you locate a source, you should write down all details of the reference, except;

- Volumes
 - Full names of the authors
 - Titles
- Price PG 29

AR Lucky Term

Question No: 25 (Marks: 1) - Please choose one

Which of the following is NOT a strategy that can guide data interpretation?

- ▶ Pay attention to your topic or research focus as it will help guide your selection of important parts of your data.
- ▶ Examine categories with large amounts of data as they are likely identifying important concepts.
- ▶ Examine existing studies related to your topic to identify potential interpretative frameworks.
- ▶ **Pay attention to your preconceived notions of the meaning of the data as it reflects a "grounded" perspective.**

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 26 (Marks: 1) - Please choose one

A researcher believes that the effects of a treatment will be different for males and females. Which one is the best method to test this possible interaction?

- ▶ Single-subject design
- ▶ **Factorial design**
- ▶ Time-series design
- ▶ Quasi-experimental design

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 27 (Marks: 1) - Please choose one

The best single-subject design to use, when it would be unethical to discontinue treatment indefinitely, would likely be:

- ▶ **A-B-A-B**
- ▶ A-B
- ▶ A-B-A
- ▶ Quasi-experimental

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1487/380850.cw/site_search_frame/index.html

Question No: 38 (Marks: 1) - Please choose one

What is the particular advantage of secondary analysis to business students?

- ▶ It is less challenging intellectually
- ▶ It guarantees positive results
- ▶ **It is less expensive and less time consuming than primary analysis**
- ▶ It enables students to gain experience of the workplace

REFERENCE:

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

For students conducting a small research project either as an undergraduate or postgraduate, secondary analysis of existing data should be considered as a cost and time effective way of proceeding.

Why do many data sets used for secondary analysis, contain high quality data?

- ▶ Because the data is presented attractively
- ▶ **Because rigorous sampling procedures are commonly used**
- ▶ Because the data sets focus on specific regions and issues
- ▶ Because the data is kept confidential

REFERENCE:

Many secondary analysis data sets use very rigorous sampling methods so that they can be considered as being as close to representative as possible.

Question No: 40 (Marks: 1) - Please choose one

Which of the following types of analysis can be done using secondary analysis?

- ▶ The analysis of specific subgroups
- ▶ Longitudinal analysis
- ▶ Cross-cultural analysis
- ▶ **All of the given**

options **REFERENCE:**

The size of the data sets used in secondary analysis means that there are a number of options available as to the type of research that can be undertaken.

Question No: 41 (Marks: 1) - Please choose one

When an interviewer unintentionally and mistakenly checks the wrong response on a checklist during an interview, this is an example of:

- ▶ Social desirability bias
- ▶ **Interviewer error**
- ▶ Interviewer cheating
- ▶ Sponsorship bias

REFERENCE:

A type of non-sampling error caused by mistakes made by the interviewer. These may include influencing the respondent in some way, asking questions in the wrong order, or using slightly different phrasing (or tone of voice) than other interviewers.

Question No: 42 (Marks: 1) - Please choose one

When an interviewer asks the respondent to state which of six salary categories represents his gross income the previous year, this is an example of a:

- ▶ Social desirability question
- ▶ Disguised question
- ▶ **Structured question**
- ▶ Unstructured question

"Can you tell me more about what you mean by that?" is an example of:

- ▶ A mall intercept
- ▶ **A probe**
- ▶ A self-administered questionnaire
- ▶ All of the given options

REFERENCE:

Probing

Probing means the verbal prompts made by field worker when the respondent must be motivated to communicate his or her answer or to **enlarge on, clarify or explain an answer**. Probing may be needed for two types of situations. First, it is necessary when the respondent must be motivated to enlarge on, clarify, or explain his or her answer. The interviewer must encourage the respondent to clarify or expand on answers by providing a stimulus that will not suggest the interviewer's own ideas. The ability to probe with neutral stimuli is the mark of an experienced interviewer. Second, probing may be necessary in situations in which the respondent begins to ramble or lose track of the question. In such cases the respondent must be led to focus on specific content of the interview and to avoid irrelevant and unnecessary information. Probing is also needed when the interviewer recognizes an irrelevant or inaccurate answer

Question No: 44 (Marks: 1) - Please choose one

Interviews with respondents that take place in shopping malls are called:

- ▶ Interviewer influence
- ▶ Mixed-mode surveys
- ▶ Protesting
- ▶ **Mall intercept interviews** PG 66

REFERENCE:

Personal interviews conducted in shopping malls are referred to as mall intercept interviews.

Interviewers generally stop and attempt to question shoppers at a central point within the mall or at the entrance. These are low cost.

- ▶ Double-barreled effect
- ▶ Filter effect
- ▶ Loaded effect

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- Order bias

REFERENCE:

Avoid Double-Barreled Questions

Make each question about one and only one. A double barreled question consists of two or more

questions joined together. It makes the respondent's answer ambiguous. For example, if asked, "Does this company have pension and health insurance benefits?" a respondent at the company with health insurance benefits only might answer either yes or no. The response has an ambiguous meaning and the researcher cannot be certain of the respondent's intentions. When multiple questions are asked in one question, the results may be exceedingly difficult to interpret.

Question No: 48 (Marks: 1) - Please choose one

Which of the following is a non probability sampling technique in which an experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member?

- Subjective sample
- Stratified sample
- Judgment sample
- Cluster sample

REFERENCE:

Judgment sample

A type of non-probability sample that is made up of respondents who are selected on the basis of someone's judgment that their attitudes or behavior will be representative of the target population.

Question No: 49 (Marks: 1) - Please choose one

In which type of sampling is a sub sample drawn using simple random sampling within each stratum?

- Cluster sampling
- Stratified sampling
- Systematic sampling
- Convenience sampling

REFERENCE:

stratified sampling - the population is divided into subpopulations (strata) and random samples are taken of each stratum

Question No: 50 (Marks: 1) - Please choose one

When a field interviewer records an impossible answer (e.g. birth date: 1850), this means that the data need to be:

- ▶ None of the given options

REFERENCE:

Editing

Occasionally, a fieldworker makes a mistake and records an improbable answer (e.g., birth year: 1843) or interviews an ineligible respondent (e.g., someone too young to qualify). Seemingly contradictory answers, such as “no” to automobile ownership but “yes” to an expenditure on automobile insurance, may appear on a questionnaire. There are many problems like these that must be dealt with before the data can be coded. Editing procedures are conducted to make the data ready for coding and transfer to data storage.

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- ▶ Judgment sample
- ▶ Snowball
- ▶ Convenience sample
- ▶ Cluster sample

REFERENCE:

Snowball Sampling

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Snowball sampling (also called *network, chain referral, or reputational sampling*) is a method for identifying and sampling (or selecting) cases in the network. It is based on an analogy to a snowball, which begins small but becomes larger as it is rolled on wet snow and picks up additional snow. It begins with one or a few people or cases and spreads out on the basis of links to these initial cases.

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Snowball sampling is a special nonprobability method used when the desired sample characteristic is rare. It may be extremely difficult or cost prohibitive to locate respondents in these situations. Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

- ▶ Cluster sample
- ▶ **Convenience sample**
- ▶ Multistage area sample
- ▶ Systematic sample

REFERENCE:

Convenience sample

A group of individuals being studied because they are conveniently accessible in some way. Convenience samples may or may not be representative of a population that would normally be receiving an intervention

Question No: 54 (Marks: 1) - Please choose one

In a typical line graph, the _____ variable is shown on the vertical y-axis and the _____ variable is shown on the horizontal x-axis.

and symbols after the college team won or lost.

• **Count Behaviors:** Counting how many people do something can be informative. For example

a researcher may count the number of men and women who come to a full stop and those who

come to a rolling stop at a traffic stop sign. This suggests gender difference in driving behavior.

• **Time Duration:** How long people take to do things may indicate their intention. For example

a researcher may measure how long men and women pause in front of a particular painting.

Time taken may indicate their interest in the painting.

Question No: 59 (Marks: 1) - Please choose one

Which of the following is an advantage of focus group interviews?

- ▶ Provide multiple perspectives
- ▶ Low degree of scrutiny
- ▶ Inexpensive
- ▶ Easy to use for sensitive topics

REFERENCE:

Focus Groups

□ A focus group is a structure interview of multiple individuals. Originally developed by sociologists, focus group interviews are popular in marketing research. Program evaluators use focus groups to gain insight into education, health and other social programs from multiple perspectives, such as those of service providers and program clients. Focus groups can provide richly detailed information because of their interactive nature. For example, comments from one respondent may generate interesting responses and ideas from others. This gives focus groups an advantage over interviews and surveys. However, the data can be difficult to summarize and present in a concise manner.

Question No: 60 (Marks: 1) - Please choose one

Which of the following is the ideal size of a focus group?

- ▶ 1-2 participants

REFERENCE:

Blumer (1954) argues that fixing the definition of a concept through a series of indicators entails the application of a straitjacket on the social world. Instead, he suggests that we should use concepts as guides to enquiry.

Question No: 7 (Marks: 1) - Please choose one

A variable that is presumed to cause a change in another variable is known as:

Discontinuous variable

Dependent variable

Independent variable

Intervening variable

REFERENCE:

http://www.google.com.pk/search?hl=en&defl=en&q=define:independent+variable&sa=X&ei=XTE5TcD5MZKr8AOp6Yy_CA&ved=0CBQQkAE

A variable presumed to influence or precede another variable (dependent variable). The variable is systematically manipulated by the researcher to determine changes in the dependent variable. Also known as the experimental variable or moderating variable.

or

An independent variable is presumed to cause of the dependent variable-the presumed effect

Question No: 8 (Marks: 1) - Please choose one

Which of the following is the difference between measures and indicators?

Measures are unambiguous quantities, whereas indicators are devised from common sense understandings.

Indicators have a more direct relationship to the underlying concept than measures.

Measures are intuitively devised and then applied as if they were direct indicators of a concept.

Indicators are unambiguous quantities, whereas measures are subjective and value laden.

REFERENCE:

Measures include things like demographics (of age, income and so on), which can be counted. In fact, usually we think of measures as raw numbers. Often though, what we want to research does not lend itself immediately to straightforward calculation on numbers of things and how they vary but on slightly vaguer concepts. Like job satisfaction, for example. In this case we need a number of attitude statements, which, taken together, can be argued to represent the concept. These separate statements are

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

Question No: 10 (Marks: 1) - Please choose one

Measurement reliability refers to which of the following?

Accuracy of the scores

Dependency of the scores

Consistency of the scores

Comprehensiveness of the scores.

REFERENCE:

Reliability

Reliability refers to a condition where a measurement process yields consistent scores (given an unchanged measured phenomenon) over repeat measurements. Perhaps the most straightforward way to assess reliability is to ensure that they meet the following three criteria of reliability. Measures that are high in reliability should exhibit all three.

OR

Definition: Reliability is the consistency of your measurement, or the degree to which an instrument measures the same way each time it is used under the same condition with the same subjects

Question No: 2 (Marks: 1) - Please choose one

Rationalism is the application of which of the following?

Research solution

Logic and arguments

Reasoning

Previous findings

Question No: 3 (Marks: 1) - Please choose one

A teacher conducts an action research study of the problem-solving methods used by students in his ninth-grade Algebra I classes. Which of the following can he assume on the basis of his study?

Results apply only to students in his ninth-grade Algebra I classes.

Results apply only to students in Algebra I classes at his school.

Results apply only to Algebra I students in ninth grade.

Results apply to all math students.

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

It forces you to think through every aspect of a study.

It provides detailed procedures to guide the conduct of the study.

It provides clear roadmap of the study.

Writing a plan facilitates the evaluation of it.

Question No: 16 (Marks: 1) - Please choose one

Which of the following statements might assist response rates?

Please photocopy the questionnaire five times and pass on to your work colleagues.

Please make sure that the questionnaire is completed with a fountain pen.

Please read the attached journal article on the ontological foundations of positivism prior to completing the questionnaire.

Please put the completed questionnaire in the enclosed stamped addressed envelope and place in the mail out tray.

REFERENCE:

Enclosing a stamped addressed envelope is very important if the researcher wishes to achieve an acceptable response rate.

Question No: 17 (Marks: 1) - Please choose one

What should the researcher do if they have achieved a low response rate?

▶ Copy responses and paste them again.

▶ Abandon the research project entirely.

▶ **Recognize and accept the possible limitations of a low response rate.**

▶ Fill in some more questionnaires themselves.

REFERENCE:

http://books.google.com.pk/books?id=vpqjq4I9KGM&pg=PA246&lpg=PA246&dq=Recognize+and+accept+the+possible+limitations+of+a+low+response+rate.&source=bl&ots=_cDkILhpyV&sig=9ltY6EBb0X0rYfvW7-JCAxe32bU&hl=en&ei=1v5PTZ-vFclrAfm5qzbBg&sa=X&oi=book_result&ct=result&resnum=1&ved=0CBQQ6AEwAA#v=onepage&q=The%20key%20point%20is%20to%20recognize%20and%20acknowledge%20the%20implications%20of%20the%20possible%20limitations%20of%20a%20low%20response%20rate.%20&f=false

Question No: 18 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

▶ How many workers are employed at this plant?

▶ What is your attitude towards the management at this plant?

▶ **Do you always cast your vote in trade union elections?**

▶ Are you aware of the main features of the European Union Directive for informing and consulting employees?

REFERENCE:

Answer (c) is asking for the respondent to reveal a behavioural norm. These types of questions are closely related to question about attitudes and beliefs.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 19 (Marks: 1) - Please choose one

Questions that include negatives should be avoided because:

- The respondent may miss out the negative word.

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ The respondent may be unsure how to answer if the question includes a double negative.
- ▶ The respondent may be led by the question.
- ▶ **All of the given options.**

REFERENCE:

When using a Likert scale it can be difficult to avoid asking a question with a negative, however the researcher should attempt to avoid them if possible.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/>

Question No: 20 (Marks: 1) - Please choose one

Which of the following is likely to happen if clear instructions are not given as to how the respondent should answer the question?

- ▶ Respondents may delete inappropriate answers rather than select appropriate ones.
- ▶ Respondents may choose only one answer when they need to choose as many as apply.
- ▶ Respondents may complete questions that are not relevant to them.
- ▶ **All of the given options.**

REFERENCE:

Clear instructions are vital as they allow for the respondent to move quickly and efficiently through the questionnaire which may in turn aid response rate.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch09/>

Question No: 21 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

- ▶ Respondents tend to answer by giving the most socially desirable answer.
- ▶ Respondents may inadvertently omit key terms in the question.
- ▶ Respondents may not give an honest reply to what they see as a threatening question.
- ▶ **Respondents may be unwilling to reveal information as they believe they are likely to be identified.**

REFERENCE:

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual

Question No: 22 (Marks: 1) - Please choose one

Why should a business researcher record and transcribe interviews?

- ▶ It overcomes all possible ethical considerations.
- ▶ The response of participants can be more readily shared with senior management.
- ▶ **It allows a more thorough examination of what the interviewee has said.**
- ▶ It allows the researcher to demonstrate his/her technical proficiency.

REFERENCE:

Having an accurate record of the interview on a tape recording means not only that

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

analysis is easier, but also that the actual interview will not be punctuated by the researcher having to take notes.

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Question No: 23 (Marks: 1) - Please choose one

Why does qualitative interviewing has an advantage over participant observation when it comes to longitudinal research?

- ▶ **Repeat interviews are easier to organise.**
- ▶ It allows for a better exploration of key issues.
- ▶ It is a more focused research method.
- ▶ Participant observers are prone to 'go native' during longitudinal research.

REFERENCE:

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch18/?view=Standard>
Re-visiting research sites for follow up interviews is likely to be easier than arranging a series of subsequent observations.

Question No: 24 (Marks: 1) - Please choose one

Mr. Jamil is studying the use of individualized instruction with elementary school students. He is particularly interested in understanding what problems are encountered—and how those problems are resolved—when teachers switch to this approach. Which sampling strategy is he likely to use to select his sample?

- ▶ Intensity
- ▶ Convenience
- ▶ **Purposive**
- ▶ uota

Question No: 25 (Marks: 1) - Please choose one

The logic of purposive sampling is:

- ▶ To use participants because the researcher has access to them.
- ▶ That a random sample can generalize to a population.
- ▶ **That a few information-rich participants studied in depth yield many insights about a topic.**
- ▶ To include all participants, even though they are not all relevant to the problem.

REFERENCE:

Question No: 28 (Marks: 1) - Please choose one

Which of the following is a drawback of a computerized analysis of data?

- ▶ The likelihood of re-examination of the data is diminished.
- ▶ The computer expedites the analysis of data but cannot code it.
- ▶ Analysis of qualitative data is best appreciated if a researcher has some experience doing so without a computer.

▶ **Re-examination, lack of coding, analysis of qualitative data.**

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381473.cw/index.html

Question No: 29 (Marks: 1) - Please choose one

Which of the following is NOT a strategy that can guide data interpretation?

- ▶ Pay attention to your topic or research focus as it will help guide your selection of important parts of your data.
- ▶ Examine categories with large amounts of data as they are likely identifying important concepts.
- ▶ Examine existing studies related to your topic to identify potential interpretative frameworks.

▶ **Pay attention to your preconceived notions of the meaning of the data as it reflects a "grounded" perspective.**

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381487.cw/index.html

Question No: 30 (Marks: 1) - Please choose one

A measure that indicates the average performance of a group on some variable is known as;

- ▶ **Mean**
- ▶ Analysis of covariance
- ▶ Chi square
- ▶ Standard deviation

Question No: 31 (Marks: 1) - Please choose one

Which advice would you offer a novice researcher conducting his first observation?

▶ **Observe only one behavior at a time**

- ▶ Allow variables to emerge from the context
- ▶ Record behaviors only after leaving the site
- ▶ Develop a preconceived notion of what is going to help structure the observation

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html Question No: 32 (Marks: 1) - Please choose one

Which of the following is linked with an abstract model of underlying relations or

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

causal mechanism?

▶ **Historical comparative research** PG 148

- ▶ Social research
- ▶ Action research
- ▶ Experimental research

REFERENCE:

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism. A researcher often looks for new evidence to verify specific links that appear only after an explanatory model is developed. He or she evaluates how well the model approximates the evidence and adjusts it accordingly.

Historical-comparative researchers also identify critical indicators and supporting evidence for themes or explanations. A *critical indicator* is unambiguous evidence, which is usually sufficient for inferring a specific theoretical relationship. Researchers seek these indicators for key parts of an explanatory model. Indicators critically confirm a theoretical inference and occur when many details suggest a clear interpretation

Question No: 33 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Quota sampling
- ▶ **Purposive sampling**

Question No: 34 (Marks: 1) - Please choose one

Which of the following would generally require the largest sample size?

- ▶ **Cluster sampling**
- ▶ Simple random sampling
- ▶ Systematic sampling
- ▶ Proportional stratified sampling

Which of the following elements of Observation is/are included in Non Reactive research?

- ▶ External Appearance
- ▶ Count Behaviors
- ▶ Time Duration
- ▶ All of the given options

REFERENCE:

Observations:

• **External Appearance:** How people appear may indicate social factors. For example, a researcher watches students to see whether they are more likely to wear their college's colors

and symbols after the college team won or lost.

• **Count Behaviors:** Counting how many people do something can be informative. For example

a researcher may count the number of men and women who come to a full stop and those who

come to a rolling stop at a traffic stop sign. This suggests gender difference in driving behavior.

• **Time Duration:** How long people take to do things may indicate their intention. For example

a researcher may measure how long men and women pause in front of a particular painting.

Time taken may indicate their interest in the painting.

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Statistics Tutorials & Data Files

These tutorials briefly explain **the use and interpretation of standard statistical analysis techniques** using popular data analysis software including SAS Statistics software, SPSS, WINKS Statistics analysis software and Microsoft Excel (data analysis tool).

Question No: 50 (Marks: 1) - Please choose one

A stratified sample in which the number of sampling units drawn from each stratum is in proportion to the population size of that stratum is called :

- ▶ **Proportional stratified sample PG 94**
- ▶ Balanced stratified sample
- ▶ Even stratified sample
- ▶ Primary stratified sample

REFERENCE:

Proportionate versus Disproportionate

If the number of sampling units drawn from each stratum is in proportion to the relative population size of the stratum, the sample is proportionate stratified sampling **Question**

No: 51 (Marks: 1) - Please choose one

Which experimental design has the following symbols: O1 X O2?

- ▶ **Solomon four-group design**
- ▶ Static group design
- ▶ One-group pretest-posttest design
- ▶ None of the given options

REFERENCE:

Solomon's four group design

Group Pretest Treatment Posttest

1. Experimental O1 X O2
2. Control O3 - O4
3. Experimental - X O5 ●
4. Control - - O6

(O2

Question No: 52 (Marks: 1) - Please choose one

What is an example of a true experimental design?

- ▶ **Pretest posttest control group design**
- ▶ Non equivalent control group design
- ▶ One-shot case study design
- ▶ One- group pretest posttest design

Question No: 53 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The researcher examining descriptive statistics for any particular variable is using which type of statistics?

► Multivariate

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

► Interval

► **Univariate**

► None of the given options

Question No: 54 (Marks: 1) - Please choose one

When salespeople are tested one year after a sales training program and perform better on the exam, not because of the training program, but because they have gained one year's experience in sales, this is an example of a:

► Selection effect

► **Maturation effect**

► History effect

► Cohort effect

Question No: 55 (Marks: 1) - Please choose one

Mr. Ali is concerned about potential problems with the reliability of his observers. Which strategy would you suggest, he should follow?

► Train his observers carefully

► Monitor his observers in the field

► Specify the observational variables

► **All of the given options**

REFERENCE:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381347.cw/index.html

Question No: 56 (Marks: 1) - Please choose one

Which type of observer is likely to get a reasonable insight into the participant's views and develop a good rapport with him?

► Non participant

► **Participant**

► Structured participant

► All of the given options

REFERENCE:

<http://wps.prenhall.com/wps/reader>

Question No: 57 (Marks: 1) - Please choose one

Which of the following is just an understanding the culture of people from their own perspective?

► **Ethnography**

► Non-Participant Observation

► Observer effect

► None of the given options

REFERENCE:

<http://free-books-online.org/mathematics/business-mathematics-statistics/research-methods-business-mathematics-statistics/observation-studiesfield-research-2/>

Question No: 58 (Marks: 1) - Please choose one

How many independent variables are there in a comparative study investigating the

effect of gender on empathy?

- ▶ It depends on how many levels of empathy are studied
- ▶ **One**

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

- ▶ There are no independent variables
- ▶ None of the given options

Question No: 59 (Marks: 1) - Please choose one

When a manufacturer studies his most successful retailer in depth in order to determine some better ideas for displaying bicycles in its retail stores, this is an example of:

- ▶ An experiment
- ▶ A test market

- ▶ Causal research

▶ **A case study**

REFERENCE:

PAGE#38

Case study: It is an in-depth analysis of a unit which could be an individual person, a couple, a group, or an organization. It is more like a clinical analysis in retrospect; starting from the effect and tracing the reasons back in time. The researcher takes the history of the situation and makes use of any other relevant information about the case to identify the factors leading to the present situation.

Question No: 60 (Marks: 1) - Please choose one

Which of the following is a good characteristic for a focus group moderator to possess?

- ▶ Good listener
- ▶ Ability to make people feel comfortable so that they will talk in the group
- ▶ Ability to control discussion without being overbearing
- ▶ **All of the given options**

Question No: 61 (Marks: 1) - Please choose one

In a prepared report, what should follow the Methodology Section?

- ▶ **Results**
- ▶ References
- ▶ Title page
- ▶ Tables

REFERENCE:

The main body constitutes the bulk of the report. It includes: Introduction, Methodology, Results, Conclusions, and Recommendations of the study

Question No: 62 (Marks: 1) - Please choose one

_____ are the most important qualitative research procedure.

- ▶ **Focus groups**
- ▶ Depth interviews
- ▶ Case study
- ▶ All of the given options

Which of the following statements is TRUE for operational definition?

It is one that bears no relation to the underlying concept.

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

It is an abstract, theoretical definition of a concept

A definition of a concept in terms of specific and empirical measures PG 18

It is one that refers to opera singers and their work.

REFERENCE:

Devising measures of concepts is shown as step 4 in the process of quantitative research (fig. 6.1, p141). Bryman points out that this step is often referred to as operationalization, in other words the series of separate steps we will take to make our research work for us. This is very important when we think about tests of validity of the research. The operational definition is, therefore, the very opposite of abstract, attempting to phrase the concept so precisely as to make it capable of being tested in the research context.

Question No: 3 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

A quantitative study.

A tentative prediction of the results of the research.

A qualitative research design.

The operational definition of the study.

Question No: 6 (Marks: 1) - Please choose one

Mr. Hasan's son has applied to a high school in Florida, but the application was denied solely on his low score on the Iowa Test of Basic Skills (ITBS). His son wants to attend this school and contends his current grades and other standardized test scores speak well to both his past work and future academic capability. Which of the following characteristics of the ITBS is being questioned by this student?

Construct validity

Content validity

Predictive validity

Concurrent validity

REFERENCE:

In a study of predictive validity, the test scores are collected first; then at some later time the criterion measure is collected.

Predictive validity differs only in that the time between taking the test and gathering supervisor ratings is longer, i.e., several months or years. In the example above, predictive validity would be the best choice for validating an employment test, because employment tests are designed to *predict* performance.

http://en.wikipedia.org/wiki/Predictive_validity

Predictive validity is a measurement of how well a test predicts future performance. It is a form of criterion validity, in which the validity of a test is established by measuring it against known criteria. In order for a test to have predictive validity, there must be a statistically significant correlation between test scores and the criterion being used to measure validity.

Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;
Are easily calculated.

Require only one administration of a test.

Are more accurate than all other types of estimates.
Are usually higher.

Question No: 8 (Marks: 1) - Please choose one

Which of the following functions is performed by the Ordinal scale?

Categorize

Distance

Order

Unique origin

REFERENCE:

<http://www.rasch.org/measess/met-26.pdf>

Question No: 9 (Marks: 1) - Please choose one

Which of the following is measured by the Interval scale?

Order of the object

Magnitude of the object

Categorize the object

All of the given options

REFERENCE:

Handouts pg 53

Question No: 10 (Marks: 1) - Please choose one

Following are the properties of nominal scale, except;

Least powerful

Suggest no order

Provide categorical information

Provide magnitude of object

Nominal Scale

A nominal scale is the one in which the numbers or letters assigned to objects serve as labels for

identification or classification. This measurement scale is the simplest type. With nominal data, we are collecting information on a variable that naturally or by design can be grouped into two or more **categories** that are mutually exclusive, and collectively exhaustive.

Nominal scales are the least powerful of the four scales. They suggest no order or distance relationship and have no arithmetic origin. Nevertheless, if no other scale can be used, one can almost always one set of properties into a set of equivalent classes.

Question No: 11 (Marks: 1) - Please choose one

What is the difference between interval/ratio and ordinal variables?

Ordinal data can be rank ordered, but interval/ratio data cannot.

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

The distance between categories is equal across the range of interval/ratio data.

Interval/ratio variables contain only two categories.

Ordinal variables have a fixed zero point, whereas interval/ratio variables do not.

REFERENCE:

The data that we gather varies from person to person. People are of different ages, have different income levels and prefer to do some things more than other people. We call these things variables just because their values vary from person to person. Analysis of quantitative data starts by trying to understand what kinds of variables we are dealing with. A person's age is an example of an interval/ratio variable, because ages are measured in years. We can do a lot of statistical analysis on this kind of variable because the interval (one year) is the same for everybody in our data-set. Some variables are called 'dichotomous', meaning all possible answers are of one of two types (male/female, for example). We call those variables 'nominal', which we can, literally, only "name", like many types of job occupation, for example. Finally, we refer to some variables as 'ordinal', which means we can only place the values in an order of first, second, third and so on, without considering the gap between the first and second, or whether it was the same as between second and third. Apart from dichotomous variables, all others can be rank-ordered.

Question No: 12 (Marks: 1) - Please choose one

A study design in which the researcher might create _____ to establish cause-and-effect relationship is called Experimental Design.

An artificial setting, control some variables and manipulates the independent variable

A natural setting, control some variables and manipulates the dependent variables

An artificial setting, control some variables and manipulates the dependent variable

All of the given options

Question No: 13 (Marks: 1) - Please choose one

Which of the following would LEAST likely be a data source for an action research study

of "teachers' questioning techniques in social studies classes"?

Student questionnaires

Videotaping of classes

Students' standardized test scores

Classroom observation

- b. Use natural language
 - c. Understand your research participants
 - d. Pilot your test questionnaire
2. Pilot study is_____.
- a. A small scale study (Lecture no 24 Page no 81 Handouts)**
 - b. A study involving pilots
 - c. A study to test the tool of data collection
 - d. A large scale study
3. An expectant pause is a part of:
- a. Recording the responses
 - b. Verbal communication
 - c. Probing tactics (Lesson no 25 Page no 85 Handouts)**
 - d. In house training
4. The difference between parameter and statistics is called
- a. Random Error
 - b. Sampling Error (Lesson no 26 Page no 90 Handouts)**
 - c. Bias
 - d. Error
5. Coding categories should be:
- a. Mutually inclusive and dependent
 - b. Mutually exclusive and independent (Lesson no 29 Page no 101 Handouts)**
 - c. Mutually exclusive and dependent
 - d. Mutually inclusive and independent
6. "How much time is needed to locate the respondents?" is a part of _____aspect which needs to be evaluated during pilot testing
- a. Reactions to Respondents (Lecture no 24 Page no 81 and 82 Handouts)**
 - b. Discovering errors in the instrument
 - c. Sampling procedure can be checked
 - d. Staffing and activities of research team can be checked

- a. **Probing tactics ((Lesson no 25 Page no 85 Handouts)**
 - b. Recording the responses
 - c. Verbal communication
 - d. In house training
8. Which one of the following aspect needs to be evaluated during “Pilot Testing”?
- a. Reactions of Respondents
 - b. Discovering errors in the instrument
 - c. Sampling procedure can be checked
 - d. **All of the given options (Lesson no 24 Page no 81 and 82 Handouts)**
9. How often do you watch TV drama?
Occasionally
Frequently
Regularly
I do not watch TV drama
- This question when asked from respondents
- a. It is a leading question
 - b. It is a loading question
 - c. Proper sequence is missing
 - d. **This is an ambiguous question (Lecture no 23 Page no 79 Handouts)**
10. The summary description of a given variable in a population is called as:
- a. Statistic
 - b. Sampling unit
 - c. Observation unit
 - d. **Parameter (Lesson no 26 Page no 90 Handouts)**
11. _____ is a set of rules stating that certain numbers are assigned to variable attributes.

 - c. Double barreled question (Lesson no 23 Page no 79 Handouts)**
 - d. Ambiguous question
41. Which of the following cannot be done through pilot testing?
- a. Structuring open ended questions (Page 81)**
 - b. Determining population
 - c. Measuring the reliability of questions
 - d. Determining the acceptability of questions
42. Pilot testing can be beneficial in:
- a. Structuring open ended questions
 - b. Determining population
 - c. Collecting sample
 - d. Analysis of data (Page 82)**
43. “What is the level of satisfaction in your organization?” Which of the following represents the problem associated with this question? **(Page 79)**
- a. This question may lead respondent to a particular answer
 - b. It is an open ended question
 - c. This question contains multiple hidden questions
 - d. It is vague as respondent may interpret it in his own way**
44. Which of the following is an advantage of open questions?
- a. They allow respondents to answer in their own terms. (Page 85)**
 - b. They prevent respondents from giving unusual answers.
 - c. They allow respondents to put less effort into their answer.
 - d. They allow respondents to code their answers in advance
45. Which of the following will give a more “accurate” representation of the population from which a sample has been taken?

A sampling unit is that element or set of elements considered for selection in some stage of sampling.

PAGE 89

- ▶ Observation Unit
- ▶ Statistic

Question No: 19 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

- ▶ Purposive Sampling
- ▶ Snowball Sampling
- ▶ Convenience Sampling

Convenience Sampling

Convenience sampling (also called *haphazard* or *accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in the middle of the day do not represent everyone (homemakers, people in the rural areas). Likewise, TV interviewers select people who look “normal” to them and avoid people who are unattractive, poor, very old, or inarticulate.

Which of the following is **NOT** a type of Non-random sampling?

► Cluster sampling

PAGE # 90, 91, AND 93

- Convenience sampling
- Quota sampling
- **Purposive sampling**

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

- Time-series data
- Primary data
- **Secondary data**

Historical-comparative researchers often use secondary sources or different data types in combination

PAGE # 151

- Analyzed data

Question No: 23 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

► Replication pattern

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control

Specifically a theoretical framework:

Elaborates the relationship among the variables Explains the logic underlying these relationships Describes the nature, and direction of the relationships

Page # 30

Question No: 5 (Marks: 1) - Please choose one

Panel and cohort designs differ in that:

- ▶ Cohort studies involve quantitative research, whereas panel studies are qualitative.
- ▶ A panel study does not need rules to handle new entrants to households.
- ▶ Only a cohort study will suffer from sample attrition.
- ▶ A panel study can distinguish between age effects and cohort effects, but a cohort design cannot.

Handouts page # 10

ii. The panel study is a powerful type of longitudinal research. In panel study, the researcher observes exactly the same people, group, or organization across time periods. It is a difficult to carry out such study. Tracking people over time is often difficult because some people die or cannot be located. Nevertheless, the results of a well-designed panel study are very valuable.

iii. A cohort analysis is similar to the panel study, but rather than observing the exact same people, a category of people who share a similar life experience in a specified time period is studied. The focus is on the cohort, or category, not on specific individuals. Commonly used cohorts include all people born in the same year (called birth cohorts), all people hired at the same time, all people retire on one or two year time frame, and all people who graduate in a given year. Unlike panel studies, researchers do not have to locate the exact same people for cohort studies. The only need to identify those who experienced a common life event.

of the passage of time – another uncontrollable variable. Such contamination is called Maturation effect.

- ▶ Testing effect
- ▶ History effect
- ▶ Cohort effect

Question No: 34 (Marks: 1) - Please choose one

All of the following elements of Observation is/are included in NonReactive research EXCEPT:

- ▶ Count Behaviors
- ▶ Time Duration
- ▶ **External Appearance**
- ▶ Other Records

PAGE # 124

Observations:

- **External Appearance:** How people appear may indicate social factors. For example, researcher watches students to see whether they are more likely to wear their college's colors and symbols after the college team won or lost.
- **Count Behaviors:** Counting how many people do something can be informative. For example researcher may count the number of men and women who come to a full stop and those who come to a rolling stop at a traffic stop sign. This suggests gender difference in driving behavior.
- **Time Duration:** How long people take to do things may indicate their intention. For example a researcher may measure how long men and women pause in front of a particular painting. Time taken may indicate their interest in the painting.

Question No: 35 (Marks: 1) - Please choose one

Which of the following element is not included for behavioral observation?

- ▶ Space
- ▶ **Direction**
- ▶ Frequency
- ▶ Accretion

Question No: 43 (Marks: 1) - Please choose one

Which of the following statement is true about the peer review?

- ▶ Name of the article's author is not mentioned to avoid biases
- ▶ It should be accepted
- ▶ It should be published in a well known journal
- ▶ Name of the author should be mentioned for the further correspondence

Question No: 44 (Marks: 1) - Please choose one

After making the inventory of the relevant variables the next step is to:

- ▶ Provide logic for the relationship
- ▶ Make inventory of the propositions
- ▶ Identify the relationships between the variables

In the discussions the relevant variables are identified, and relationships are postulated. Once the variables are identified, the same focus group discussions help in the formulation of questions, along with the response categories, for the measurement of variables. PAGE # 156

- ▶ Deduce hypothesis

Question No: 45 (Marks: 1) - Please choose one

Theoretical framework helps to:

- ▶ Deduce the hypothesis
- ▶ Reject the hypothesis
- ▶ Test the hypothesis

From the theoretical framework, then, testable hypotheses can be developed to examine whether theory formulated is valid or not. The hypothesized relationships can thereafter be tested through appropriate statistical analysis.

Question No: 9 (Marks: 1) - Please choose one

Which of the following is measured by the Interval scale?

Order of the object Magnitude

of the object Categorize the

object All of the given options

On interval measurement scales, one unit on the scale represents the same magnitude on the trait or characteristic being measured across the whole range of the scale.

OR HANDOUTS PAGE # 53

Question No: 10 (Marks: 1) - Please choose one

Following are the properties of nominal scale, except;

Least powerful

Suggest no order

Provide categorical information Provide

magnitude of object

Nominal Scale

A nominal scale is the one in which the numbers or letters assigned to objects serve as labels for identification or classification. This measurement scale is the simplest type. With nominal data, we are collecting information on a variable that naturally or by design can be grouped into two or more categories that are mutually exclusive, and collectively exhaustive.

Nominal scales are the least powerful of the four scales. They suggest no order or distance relationship and have no arithmetic origin.

Question No: 19 (Marks: 1) - Please choose one

When multiple questions are asked in one question, it leads to ambiguous answers provided by the respondents.

True

http://en.wikipedia.org/wiki/Multiple_choiceOR

Page # 78

Avoid Double-Barreled Questions

Make each question about one and only one. A double barreled question consists of two or more questions joined together. It makes the respondent's answer ambiguous. For example, if asked, "Does this company have pension and health insurance benefits?" a respondent at the company with health insurance benefits only might answer either yes or no. The response has an ambiguous meaning and the researcher cannot be certain of the respondent's intentions. When multiple questions are asked in one question, the results may be exceedingly difficult to interpret.

False

Question No: 20 (Marks: 1) - Please choose one

An advantage of communication analysis is that it provides access to the inaccessible subjects.

True

False

Question No: 21 (Marks: 1)

Pretest is the phase when the _____ variable is measured prior to the introduction of treatment.

Question No: 22 (Marks: 1)

If the percentages are calculated column wise in a table, then we will make comparison between the variables in a **frequency**.

Question No: 23 (Marks: 1)

In order to make two identical groups for experiment, the procedures to be undertaken are randomization and **matching**.

Question No: 24 (Marks: 1)

The main advantage of **mail** questionnaire is that a wide geographical area can be covered in the survey.

Question No: 25 (Marks: 1)

A type of bias in questions occurs when they are phrased in an emotionally charged manner, they are described as _____ **Loaded** _____ questions.

[Page No.78](#)

Question No: 26 (Marks: 5)

Make one hypothesis for each of the following types of hypotheses. (1mark each)

- i. If-then hypothesis
- ii. Directional hypothesis
- iii. Non directional hypothesis
- iv. Null hypothesis
- v. Alternative hypothesis

Answer:

i-

If-then hypothesis:

If there is increase in cost there is decrease in profit

.ii. Directional hypothesis:

Increase in absenteeism causes a decrease in productivity level of employees.

iii. Non directional hypothesis:

Productivity level of employees is associated with rate of absenteeism.

iv. Null hypothesis:

There is no association between level of productivity and absenteeism.

v. Alternative hypothesis :

There is a relationship between level of job commitment of officers and their level of efficiency.

Question No: 27 (Marks: 5)

Which is the most powerful scale among Nominal, Ordinal, Interval and Ratio scale, and why?

Answer:

The highest level of measurement is a ratio scale. This has the properties of an interval scale together with a fixed origin or zero

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

point. Examples of variables which are ratio scaled include weights, lengths and times. Ratio scales permit the researcher to compare both differences in scores and the relative magnitude of scores. For instance the difference between 5 and 10 minutes is the same as that between 10 and 15 minutes, and 10 minutes is twice as long as 5 minutes. Suffice it to say that virtually all statistical operations can be performed on ratio scales.

Question No: 28 (Marks: 5)

A manager finds that off-the-job classroom training has a great impact on the productivity of the employees in her department. However, she also observes that employees over 60 years of age do not seem to derive much benefit and do not improve with such training.

i. Identify the independent, dependent and moderating variables in the given scenario. (3)

Answer:

Independent Variable: Off-the-job classroom training

Dependent Variable: Employees performance
Moderating Variable: Employees age over 60 years

ii. How the moderating variable you identified in part (i) is affecting the independent-dependent variable relationship in the scenario? (2)

Answer:
The moderating variable is one that has a strong contingent effect on the independent variable and dependent variable relationship. That is the presence of a third variable modifies the original relationship between the independent and the dependent variable. In the scenario above employees age over 60 years is acting as moderating variable because it is the variable which affects the relationship of employees performance (dependent variable) and off-the-job classroom training (independent variable). which was positive in above case but age over 60 years reduces the positivity.

Question No: 29 (Marks: 5)

The accounts executive has established a new accounting system that utilizes maximum computer technology. Before making further changes, he would like to get a feel for how the accounting clerks react to the new system by acting as if he has no doubts about their acceptability of the new system. He may then casually talk to the first five accounting personnel that walk into his office, trying to gauge their reactions.

- i. Describe the type of sampling the director should use in the given scenario, probability or non probability? (1)

Answer:

Director should use probability sampling as probability sampling is the technique in which some known elements of population participated in order to provide useful descriptions.

- ii. What type of sampling technique is being used and why? Explain. (2)

Answer:

Director should use probability sampling as probability sampling is the technique in which some known elements of population participated in order to provide useful descriptions.

- iii. Give two characteristics of the type of sampling technique that you selected in part (ii).

Answer:

Two characteristics of probability sampling:

- 1-** Random sampling lets a researcher statistically calculate the relationship between the sample and the population – that is the size of *sampling error*
- 2-** All possible samples have a known and specified probability of being drawn.

Question No: 30 (Marks: 5)

You are doing research on “how to increase the efficiency level of labor”. For the research purpose you have conducted an interview with the supervisor.

Give two structured and two unstructured questions that you may ask related to your research. (2.5+2.5)

Question No: 31 (Marks: 10)

What is meant by validity and reliability? Describe the situations in which validity and reliability problems occur.

Question No: 8 (Marks: 1) - Please choose one

Which of the following is the difference between measures and indicators?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Measures are unambiguous quantities, whereas indicators are devised from common sense understandings.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/MCQ # 03>

OR

Measures include things like demographics (of age, income and so on), which can be counted. In fact, usually we think of measures as raw numbers. Often though, what we want to research does not lend itself immediately to straightforward calculation on numbers of things and how they vary but on slightly vaguer concepts. Like job satisfaction, for example. In this case we need a number of attitude statements, which, taken together, can be argued to represent the concept. These separate statements are indicators and often represent our 'common sense' understanding of a concept. Later, these can be coded to turn them into numbers for statistical analysis.

Indicators have a more direct relationship to the underlying concept than measures. Measures are intuitively devised and then applied as if they were direct indicators of a concept. Indicators are unambiguous quantities, whereas measures are subjective and value laden.

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- ▶ Judgment sample
- ▶ Snowball

Snowball sampling is a special nonprobability method used when the desired sample characteristic is rare. It may be extremely difficult or cost prohibitive to locate respondents in these situations. Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

<http://www.statpac.com/surveys/sampling.htm>

- ▶ Convenience sample
- ▶ Cluster sample **Correct**

Question No: 59 (Marks: 1) - Please choose one

When different interviewers are used in a pretest from those used in the posttest and this produces different results in the study, this is an example of a:

- ▶ History effect
- ▶ Mortality effect
- ▶ Instrumentation effect

Instrumentation Effects: Instrumentation effects are yet another source of threat to internal validity. These might arise because of a change in the measuring instrument between pretest and posttest, and not because of the instrument's differential impact at the end. For example, in a weightloss experiment, the springs on the scale weaken during the experiment, giving lower readings in the posttest.

A change in the wording of questions (may be done to avoid testing effects), change in interviewers, or change in other procedures to measure the dependent variable can cause instrumentation effect. Performance of the subjects measured by the units of output in the pretest, but when measuring the output in posttest the researcher measures it by "the number of units rejected, and the amount of resources expended to produce the units."

Page # 121

- ▶ Cohort effect

Question No: 60 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following is a threat to the internal validity of an experiment using a repeated measures design?

- ▶ Instrumentation effect

Factors Affecting Internal Validity

1. History Effect:
2. Maturation Effect:
3. Testing Effects:
4. Instrumentation Effects: (Page # 121)
5. Selection Bias Effect:
6. Statistical Regression:
7. Mortality:
8. Mechanical Loss:
9. Experimenter Expectancy:
 - ▶ Cohort effect
 - ▶ Attrition effect
 - ▶ All of the given options

Question No: 61 (Marks: 1) - Please choose one

Most threats to _____ are taken care of by the experimenter's design, while most threats to _____ need to be taken care of by the designer of the experiment.

- ▶ Internal validity, external validity

<http://www.coe.iup.edu/grbieger/Classes/LTCY698/Module6/Validity.ppt#263,6>

- ▶ External validity, internal validity
- ▶ Randomization, reliability
- ▶ Reliability, randomization

Which of the following is a disadvantage of focus groups?

- ▶ Requires objective, sensitive, and effective moderators
- ▶ May not be useful for discussing sensitive topics
- ▶ High cost
- ▶ All of the given options

Disadvantages of Focus Groups

Require objective, sensitive, and effective moderators. May have unique sampling problems

May not be useful for discussing sensitive topics in face-to-face situations

Cost a considerable amount of money, particularly when they are not conducted by someone employed by the company desiring the focus group.

Higher cost

Question No: 65 (Marks: 3)

What do we write in executive summary of a research report?

Executive Summary of Research Report:

It is a very important part of the report. And it is observed that mostly managers read summary report normally and rest members read whole report.

Executive summary is written in four elements:

Page #78

Question No: 47 (Marks: 1) - Please choose one

When a respondent in a personal interview is asked questions about shopping at a specific department store in the shopping mall, and then is asked general questions about shopping at that mall, what type of mistake has been made in questionnaire design?

▶ Double-barreled effect

- ▶ Filter effect
- ▶ Loaded effect
- ▶ Order bias

Page 78

Question No: 48 (Marks: 1) - Please choose one

Which of the following is a non probability sampling technique in which an experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member?

- ▶ Subjective sample
- ▶ Stratified sample
- ▶ Judgment sample
- ▶ Cluster sample

Judgment Sampling

- Also called purposive sampling
- An experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member

<http://cvlearn.com/Documents/Sample%20Designs%20and%20Sampling%20Procedures.pdf>

Question No: 49 (Marks: 1) - Please choose one

In which type of sampling is a sub sample drawn using simple random sampling within each stratum?

- ▶ Cluster sampling
- ▶ Stratified sampling
- ▶ Systematic sampling
- ▶ Convenience sampling

Page#94

Hence in stratified random sampling a sub sample is drawn utilizing simple random sampling within each stratum. (Randomization is not done for quota sampling).

Question No: 50 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

When a field interviewer records an impossible answer (e.g. birth date: 1850), this means that the data need to be:

- ▶ Coded
- ▶ Deleted
- ▶ Edited
- ▶ None of the given options

Page#97

Editing

Occasionally, a fieldworker makes a mistake and records an improbable answer (e.g., birth year: 1843) or interviews an ineligible respondent (e.g., someone too young to qualify).

Question No: 51 (Marks: 1) - Please choose one

All

of the following are software packages that can be used for data analysis **EXCEPT**:

- ▶ SPSS
- ▶ SAS
- ▶ Excel
- ▶ Word

<http://www.stattutorials.com/>

Question No: 52 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- ▶ Judgment sample
- ▶ Snowball
- ▶ Convenience sample
- ▶ Cluster sample

Page#91

And also here is link

[http://wiki.answers.com/Q/You are in charge of promoting a new flavor of toothpaste yet to be produced in a toothpaste manufacturing unit Which sampling techniques will you use to get the required data from a population](http://wiki.answers.com/Q/You_are_in_charge_of_promoting_a_new_flavor_of_toothpaste_yet_to_be_produced_in_a_toothpaste_manufacturing_unit_Which_sampling_techniques_will_you_use_to_get_the_required_data_from_a_population)

Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

► Discussion guide

- Concept test
- Case study
- All of the given options

<http://www.answers.com/topic/focus-group>

A focus group is a marketing research tool in which a small group of people (typically eight to ten individuals) engages in a roundtable discussion of selected topics of interest in an informal setting. The focus group discussion is typically directed by a moderator who guides the discussion in order to obtain the group's opinions about or reactions to specific products or marketing-oriented issues, known as test concepts.

Quota Sampling

Page#90

Question No: 20 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

Simple random sampling

Systematic sampling

Quota sampling

Purposive sampling

Sampling in qualitative research is similar to which type of sampling in quantitative research?

It is similar to purposive sampling.

http://www.google.com.pk/#hl=en&biw=800&bih=411&q=Sampling+in+qualitative+research+is+similar+to+which+type+of+sampling+in+quantitative+research%3F++++++%E2%96%BA+Simple+random+sampling++++++%E2%96%BA+Systematic+sampling++++++%E2%96%BA+Quota+sampling++++++%E2%96%BA+Purposive+sampling&aq=f&aqi=&aql=&oq=&gs_rfai=&fp=c4ef4ebbe35c98d0

See CH#9 in the above link

Question No: 21 (Marks: 1) - Please choose one

Which of the following is NOT a type of Non-random sampling?

Cluster sampling

Convenience sampling

Quota sampling

Purposive sampling

Page#90_92

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

Time-series data

Primary data

Secondary data

Analyzed data

(PAGE 151)

Question No: 23 (Marks: 1) - Please choose one

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

Replication pattern

Specification pattern

SUBSCRIBE

AR Lucky Bahi

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Suppressor variable pattern
Negative linear relationship

(page 110)

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable.

Question No: 24 (Marks: 1) - Please choose one

_____ As a researcher you need **Not** to;

Master the literature
Take numerous detailed notes
Create a bibliography list

Learn your findings

(page 147)

As the researcher masters the literature and takes numerous detailed notes, he or she completes many specific tasks: creating a bibliography list (on cards or on computer) with complete citations, taking notes that are neither too skimpy nor too extensive, leaving margins on note cards for adding themes later on, taking all note in the same format, and developing a file on themes or working hypothesis.

A researcher adjusts initial concepts, questions, or focus on the basis of what he or she discovers in the evidence. New issues and questions arise as he or she reads and considers a range of research reports at different levels of analysis (e.g., general context and detailed narratives on specific topic), and multiple studies on a topic, crossing topic boundaries.

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

Analysis

Synthesis

Results

Findings

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism

Question No: 26 (Marks: 1) - Please choose one

Which of the following control techniques available to the researcher, controls both known and unknown variables?

Building the extraneous variable into the design
Matching

Random assignment

Question No: 33 (Marks: 1) - Please choose one

Determining the sample interval (represented by K), randomly selecting a number between 1 to K, and including each K element in your sample are the steps for which form of sampling?

Simple Random Sampling Stratified

Random Sampling **Systematic**

Sampling Cluster sampling

http://www.google.com.pk/#sclient=psy&hl=en&site=&source=hp&q=Determining+the+sample+interval+%28represented+by+K%29%2C+randomly+selecting+a+number+between+1+to+K%2C+and+including+each+K+element+in+your+sample+are+the+steps+for+which+form+of+sampling%3F+Simple+Random+Sampling+Stratified+Random+Sampling+Systematic+Sampling+Cluster+sampling&aq=f&aqi=&aql=&oq=&gs_rfai=&pbx=1&fp=165a747_28c73b339

Systematic sampling

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Simple or stratified in nature

Systematic in the “picking-up” of element. E.g. every 5th. visitor, every 10th. House, every 15th. minute

Steps:

Number the population (1,...,N)

Decide on the sample size, n

Decide on the interval size, $k = N/n$

Select an integer between 1 and k

Take case for every kth. unit

Question No: 34 (Marks: 1) - Please choose one

A focus group session is ideally for; 1 hour

and half hour

hours

More than 2 hours

Page No.155 : For duration, a focus group session typically lasts up to an hour and a half. Generally the first session with a particular type of group is longer than the following ones because all of the information is new.

Question No: 35 (Marks: 1) - Please choose one

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following?

Dependent variable

Extraneous variable

Independent variable

Confounding variable

Question No: 36 (Marks: 1) - Please choose one

Which of the following is the process of identifying and classifying each item and giving labels to each category?

Accretion

Count Behaviors

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Intensity

Coding

The process of identifying and classifying each item and giving labels to each category. Later on each category may be assigned a numerical value for its entry into the computer. In content analysis one can look at the manifest coding and latent coding.

Question No: 37 (Marks: 1) - Please choose one When do largest percentages form a pattern across cells? If there is no relationship
If there is non linear relationship

If there is curvilinear relationship

If there is linear relationship

Page No. 107 : If there is curvilinear relationship, the largest percentages form a pattern across cells. For example, the largest cells might be the upper right, the bottom middle, and the upper left.

Question No: 38 (Marks: 1) - Please choose one

Which of the following elements is/are not included for structuring Observation in Non reactive research?

Frequency

Intensity

Direction

n

Accretion

on (page 126)

Question No: 39 (Marks: 1) - Please choose one

A census taker often collects data through which of the following? Standardized tests

Interviews

Secondary data

Observations

<http://www.scribd.com/doc/22683412/Lecture-Notes-Research-Chaper-1-9>

Question No: 40 (Marks: 1) - Please choose one

What is the particular advantage of secondary analysis to business students?

It is less challenging intellectually

It guarantees positive results

It is less expensive and less time consuming than primary analysis

It enables students to gain experience of the workplace

Human Resource Management

Identify the 'True' and 'False' statements. (05)

Review of literature shows the incredibility of the body of knowledge and identifies the points at which the researcher made the research area ambiguous and unclear. **(False)**

The literature survey provides a solid foundation for developing the theoretical framework. **(True)**

The hypothesis should not only be specific to a place and situation but also these should be narrowed down with respect to its operation. **(True)**

A cohort analysis is similar to cross-sectional research. **(False)**

Research Method (STA 630)

Success Objectives

A literature review does not consider the prior studies, their agreements or disagreements in the field. **(False)**

Fill in the blanks with appropriate words.

Research hypothesis is formulated by the researcher which suggests the nature of relationship i.e. the direction of relationship.

Correlational hypothesis merely states that the variables occur together and does not imply that one **causes** the other.

Longitudinal type of research examines feature of any unit at more than one time.

Historical review traces the development of an idea or shows how a particular issue or theory has evolved over time.

Discontinuous variable is also known as **discrete/ categorical/ classificatory** variable.

Validity problems occur when the researcher's theoretical definition does not match that of the government agency or organization that collected the information.

Reliability problems occur when official definition or the method of collecting information changes over time.

Secondary data refers to information gathered by someone other than the researcher conducting the present study.

Experiments are best for topics where the researcher controls a situation and manipulates **an independent variable**.

A **social** indicator is any measure of wellbeing used in policy.

Two power bases of scientific knowledge are Empiricism and **Rationalism**

Action research is a type of **Applied research**

Three types of longitudinal research are time series, **panel**, and cohort

The research proposal is just like a research report, but it is written **before** the research project begins.

AR Lucky Bahi

The other major type of sampling used in quantitative research is nonrandom sampling (i.e., when you do not use one of the random sampling techniques). There are four main types of nonrandom sampling:

The first type of nonrandom sampling is called convenience sampling

The second type of nonrandom sampling is called quota sampling

The third type of nonrandom sampling is called purposive sampling

The fourth type of nonrandom sampling is called snowball sampling

Question No: 24 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

Simple random sampling

Systematic sampling

Quota sampling

Purposive sampling

It is similar to purposive sampling. Here is a list of the different types:

Maximum variation sampling (purposively selecting a wide range of cases)

Homogeneous sample selection (selecting a small and homogeneous case or set of cases for intensive study)

Extreme-case sampling (identifying the extremes or poles of some characteristic and then selecting cases representing these extremes for examination)

Typical-case sampling (selecting what are believed to be average cases)

Critical-case sampling (selecting what are believed to be particularly important cases)

Negative-case sampling (selecting cases that disconfirm the researcher's expectations and generalizations)

Opportunistic sampling (selecting cases when the opportunity arises)

Mixed purposeful sampling (mixing of more than one of the above sampling strategies).

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

An inductive logic is one that:

Involves testing as explicitly defined hypothesis.

Does not allow for findings to feed back into the body of knowledge.

Uses quantitative methods whenever possible.

Allows theory to emerge out of the data.

Rationale: The usual application of inductive theory, however, is to allow theory to emerge from our findings. We find an interesting question, we gather data on it and we 'theorise' from our findings. It may be that these 'theories' are, in reality, simply 'interesting insights' rather than 'grand theories' but they can be valuable for all that.

Question No: 3 (Marks: 1) - Please choose one

Which of the following is not a concept?

Leadership.

Total Quality Management.

Human Resource Management.

Intelligence Quotient (IQ).

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Rationale: Concepts are the building blocks of theory, each of which represents a label given to a common element of the social world. IQ is a measure of the concept of intelligence, it is not a concept in itself.

Question No: 4 (Marks: 1) - Please choose one

Which of the following is the definition of an independent variable?

A variable that is manipulated or controlled by the experimenter.

A response variable.

The behavioural measure made by the experimenter.

A dependent variable that is controlled by the experimenter.

<http://www.umpi.maine.edu/~stump/psysci.html>

Question No: 5 (Marks: 1) - Please choose one

The cause variable or the one that identifies forces or conditions that act on something else is known as:

Moderating variable

Independent variable

Categorical variable

Dependent variable

Page 19

The cause variable, or the one that identifies forces or conditions that act on something else, is the *independent variable*.

http://www.opppapers.com/search_results.php?action=search&query=A+measure+is+reliable+if+it+provides+consistent

Question No: 7 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

The measure apparently reflects the content of the concept in question. **A criterion is employed on which cases are known to differ.**

A future criterion is employed on which cases are known to differ.

A measure is gauged by comparing it to measures of the same concept developed through other methods.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Question No: 8 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

The type of data collected. The data-collection technique.

The level of manipulation used to elicit data collection.

All of the given options.

Question No: 9 (Marks: 1) - Please choose one

Cross cultural studies are an example of:

Comparative design.

Longitudinal design.

Experimental design.

Case study design.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch02/>

The comparative design typically studies two contrasting cases, so that a better understanding of social phenomena can be formed. Clearly, cross-cultural studies are a good example, therefore, of comparative design in action.

Question No: 10 (Marks: 1) - Please choose one

When constructing a questionnaire, there are few principles to which you should adhere. Which of the following is NOT one of those principles?

Avoid using "leading" or "loaded" questions

Avoid double-barreled questions

Avoid ambiguity and confusion

Avoid arranging questions in a sequence

Question No: 11 (Marks: 1) - Please choose one

Which of the following statements is true about closed ended questions and open ended questions?

A closed ended question means that the chances of unreliable post-coding is small, whereas an open ended question means that there is a possibility of data processing error.

A closed ended question allows for the researchers terminology to be used, whereas an open ended question allows the respondent to use terms they are familiar with. A closed ended question allows for easy processing, whereas coding an open ended question can be very time consuming.

A closed ended question has many advantages over open ended question.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/Q#2>

Question No: 12 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer.

Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/>

Q#1

An advantage of social survey research is that the researcher can ensure that the anonymity of the respondent is maintained by administering the same questions to each individual.

Question No: 13 (Marks: 1) - Please choose one

Which of the following represents excellent advice for conducting an interview? Listen more and talk less

Don't interrupt

Don't be judgmental about the interviewee's beliefs or views

All of the given options

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381345.cw/index.html Q#17

Question No: 14 (Marks: 1) - Please choose one

Smaller sample sizes can be used in correlation research when; The researcher expects no relationship between the variables. There are only two variables to correlate.

The instruments used to measure the variables have low validity and reliability.

The instruments used to measure the variables have high validity and reliability.

Question No: 15 (Marks: 1) - Please choose one

Which of the following steps begins the analysis of qualitative data?

- Reading and memoing
- Describing the content and participants
- Classifying and interpreting
- Data management**

REF:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381427.cw/index.html Q#10

Question No: 16 (Marks: 1) - Please choose one

Which of the following could NOT be a cause of variation in high school achievement?

- Reading ability
- Parental involvement
- Teacher expectations
- College attendance**

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381743.cw/index.html Q#11

Question No: 17 (Marks: 1) - Please choose one

The statistic used to determine the relationship between two variables is: Analysis of covariance

- Chi square
- Standard deviation

Pearson "r"

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381743.cw/index.html Q#17

Ref: The correlation between two variables reflects the degree to which the variables are related. The most common measure of correlation is the Pearson Product Moment Correlation (called Pearson's correlation for short).

Question No: 18 (Marks: 1) - Please choose one

A researcher studies three groups of students who vary in level of self-confidence. She finds that students with higher self-confidence are more popular among their peers. The most plausible conclusion is that:

- We do not know what causes self-confidence or popularity.
- Self-confidence causes popularity.
- Popularity causes self-confidence.

Self-confidence and popularity are related.

Question No: 19 (Marks: 1) - Please choose one

Which of the following is true about validity?

A study can be internally valid but not externally valid. A

study can be externally valid but not internally valid. A

study must be both internally and externally valid.

The internal and external validity of studies are not related in any way.

<http://www.docstoc.com/docs/14330216/Bias-in-Clinical-Research>

Slide#3

Question No: 20 (Marks: 1) - Please choose one

Testing most likely, negatively affect internal validity when:

The information tested is attitudinal in nature

The time between pre- and posttest is short

The instrument is unreliable

The participants are very low scorers

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381818.cw/index.html Q#10

Question No: 21 (Marks: 1) - Please choose one

Ecological validity refers to:

The participants to whom results generalize

The instruments used to measure the independent and dependent variables

The internal validity of a study

The context to which results generalize

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9869/2526465.cw/index.html

Q#1

Question No: 22 (Marks: 1) - Please choose one

Which one is not the part of non reactive research?

Physical traces

Archives

Observations

Interviews

Page 124

Question No: 23 (Marks: 1) - Please choose one

Which advice would you offer a novice researcher conducting his first observation?

Observe only one behavior at a time

Allow variables to emerge from the context

Record behaviors only after leaving the site

Develop a preconceived notion of what is going to help structure the observation

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9871/2526978.cw/index.html Q#8

Rationale: Observing a single variable will help her maintain focus and develop understanding.

How the Procedure for data processing and analysis can be evaluated in Pilot Testing ?

Make dummy tables

Work output of each member

Length of Questionnaire

Format Tools

Ref. Page No.82:

5. Procedure for data processing and analysis can be evaluated:

Make dummy tables. See how can we tabulate the data and use the appropriate statistics for purposes of interpretations.

Question No: 25 (Marks: 1) - Please choose one

Which of the following is the complete group of specific population elements relevant to the research project?

Element

Target Population

Sampling Frame

Sampling Unit

Ref: Page No.88: Out of the conceptual variations what exactly the researcher wants to focus on. This may also be called a target population. **Target population is the complete group of specific population elements relevant to the research project.** Target population may also be called *survey population* i.e. that aggregation of elements from which the survey sample is actually selected.

Question No: 26 (Marks: 1) - Please choose one

Which of the following is the summary description of a given variable in a population?Statistic

Observation Unit

Parameter

Sampling Unit

Ref. Page No. 89: A **parameter** is the summary description of a given variable in a population. The mean income of all families in a city and the age distribution of the city's population are parameters.

Question No: 27 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

Parameter

Sampling Unit

Observation Unit

Statistic

Ref. Page No.89: A **sampling unit** is that element or set of elements considered for selection in some stage of sampling. Sampling may be done in single stage or in multiple stages.

Question No: 28 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV

SUBSCRIBE

AR Lucky Bahi

reporter?

Purposive Sampling

Snowball Sampling

Convenience Sampling

Quota Sampling

Ref. Page No.90: Convenience sampling (also called *haphazard or accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in the middle of the day do not represent everyone (homemakers, people in the rural areas).

Question No: 29 (Marks: 1) - Please choose one

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

Convenience Sampling

Quota Sampling

Snowball Sampling

Purposive Sampling

Ref .Page No.90: Convenience sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently. Often such sample is taken to test ideas or even to gain ideas about a subject of interest.

Question No: 30 (Marks: 1) - Please choose one

Which of the following sampling method is the best way to select a group of people for a study if you are interested in making statements about the larger population?

Convenience sampling

Quota sampling

Purposive sampling

Random sampling

A formal statement of the research question or “purpose of research study” generally:

Is made prior to the literature review

Is made after the literature review

Will help guide the research process

Is made before or after literature review

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc3.htm>

Q#18

Question No: 8 (Marks: 1) - Please choose one

Which of the following refers to "A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review"?

Integrative review

Theoretical review

Self-study review

Historical review

Page 26

Self-study reviews increase the reader's confidence. A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program. In addition to giving others confidence in a reviewer's command of field, it has the side benefit of building the reviewer's self confidence.

Question No: 9 (Marks: 1) - Please choose one

Quantitative research has been criticised because:

The reliance on instruments and procedures makes it high in ecological validity.

The measurement process suggests a spurious and artificial sense of accuracy.

It underestimates the similarities between objects in the natural and social worlds.

It has no validity.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/>

Q#8

Question No: 10 (Marks: 1) - Please choose one

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

Are easily calculated.

Require only one administration of a test.

Are more accurate than all other types of estimates.

Are usually higher.

http://wps.prenhall.com/chetairasian_edresearch_7/5/1489/381232.cw/index.html

Which of the following functions is performed by the Nominal scale?

Categorize

Distance

SUBSCRIBE

AR Lucky Bahi

Order

Unique origin

Page 53

Question No: 12 (Marks: 1) - Please choose one

Categorical measures are forms of measurement classified as;

Measures that reflect quantitative differences.

Measures that reflect qualitative differences.

Measures that do not require mutual exclusivity or exhaustiveness when devising a measuring system.

Rationale measures.

http://www.uk.sagepub.com/breakwell/downloads/mcq/mcq_03/mcq_03.htm

Q#2

Question No: 13 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

The measure apparently reflects the content of the concept in question.

A criterion is employed on which cases are known to differ.

A future criterion is employed on which cases are known to differ.

A measure is gauged by comparing it to measures of the same concept developed through other methods.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Q#4

Question No: 14 (Marks: 1) - Please choose one

If a measure is consistent over multiple occasions, it has:

Inter-rater reliability

Construct validity

Internal validity

Test-retest reliability

Page#57

Test-Retest Reliability

Used to assess the consistency of a measure from one time to another.

Test-Retest Reliability

Procedure

Measure the same individuals at two points in time and then calculate the correlation coefficient between the first and second test scores

To test the reliability of an intelligence test, the test is given to a group of people on one day and again a week later

Question No: 15 (Marks: 1) - Please choose one

The validity of a measure refers to which of the following?

Consistency of the measurement not sure

Particular type of construct specification

Comprehensiveness with which it measures the construct

SUBSCRIBE

AR Lucky Bahi

Accuracy with which it measures the construct

SUBSCRIBE

AR Lucky Bahi

Page 57

In other words, the reliability of a measure is an indication of the stability and consistency with which the instrument measures the concept and helps to assess the ‘goodness’ of measure.

Question No: 16 (Marks: 1) - Please choose one

In which of the following types of interview, questions are already prepared?

- Telephonic interview
- Personal interview
- Unstructured interview
- Structured interview**

Page 83

Information is obtained in a structured conversation in which the interviewer asks prearranged questions and records answers, and the respondent answers.

Question No: 17 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using survey research to investigate behaviour?

- Respondents tend to answer by giving the most socially desirable answer.
- Respondents may inadvertently omit key terms in the question.
- Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

What is the particular advantage of secondary analysis to business students?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

It is less challenging intellectually
It guarantees positive results

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

It is less expensive and less time consuming than primary analysis

It enables students to gain experience of the workplace

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#2

Question No: 39 (Marks: 1) - Please choose one

Why do many data sets used for secondary analysis, contain high quality data?

Because the data is presented attractively

Because rigorous sampling procedures are commonly used

Because the data sets focus on specific regions and issues

Because the data is kept confidential

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#3

Question No: 40 (Marks: 1) - Please choose one

Which of the following types of analysis can be done using secondary analysis?

The analysis of specific subgroups

Longitudinal analysis

Cross-cultural analysis

All of the given options

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch13/>

Q#4

Question No: 41 (Marks: 1) - Please choose one

When an interviewer unintentionally and mistakenly checks the wrong response on a checklist during an interview, this is an example of:

Social desirability bias

Interviewer error

Interviewer cheating

Sponsorship bias

http://books.google.com.pk/books?id=BJil19CAGQwC&pg=PA393&dq=Interviewer+cheating&hl=en&ei=c3YhTazRIoGaOvDHZJ0J&sa=X&oi=book_result&ct=result&resnu m=4&ved=0CDIQ6AEwAw#v=onepage&q=Interviewer%20cheating&f=false

Question No: 42 (Marks: 1) - Please choose one

When an interviewer asks the respondent to state which of six salary categories represents his gross income the previous year, this is an example of a:

Social desirability question

Disguised question

Structured question

Unstructured question

Question No: 43 (Marks: 1) - Please choose one

"Can you tell me more about what you mean by that?" is an example of:

A mall intercept

A probe

A self-administered questionnaire

All of the given options

Page 84

Question No: 44 (Marks: 1) - Please choose one

Interviews with respondents that take place in shopping malls are called:

Interviewer influence

Mixed-mode surveys

Protesting

Mall intercept interviews

Page 66

Personal interviews conducted in shopping malls are referred to as mall intercept interviews.

Question No: 45 (Marks: 1) - Please choose one

A questionnaire that collects information that is valid is said to be:

Reliable

Relevant

Balanced

Accurate

Question No: 46 (Marks: 1) - Please choose one

All of the following are guidelines that help prevent the most common mistakes in designing questions **EXCEPT**:

Avoid complexity

Avoid personal questions

Avoid leading questions

Avoid double-barreled questions

Page #78

Question No: 47 (Marks: 1) - Please choose one

When a respondent in a personal interview is asked questions about shopping at a specific department store in the shopping mall, and then is asked general questions about shopping at that mall, what type of mistake has been made in questionnaire design?

Double-barreled effect

Filter effect

Loaded effect

Order bias

AR Lucky Bahi

Page 78

Question No: 48 (Marks: 1) - Please choose one

Which of the following is a non probability sampling technique in which an experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member?

Subjective sample

Stratified sample

Judgment sample

Cluster sample

Judgment Sampling

Also called purposive sampling

An experienced individual selects the sample based on his or her judgment about some appropriate characteristics required of the sample member

[http://cvlearn.com/Documents/Sample%20Designs%20and%20Sampling%20Procedures. pdf](http://cvlearn.com/Documents/Sample%20Designs%20and%20Sampling%20Procedures.pdf)

Question No: 49 (Marks: 1) - Please choose one

In which type of sampling is a sub sample drawn using simple random sampling within each stratum?

Cluster sampling

Stratified sampling

Systematic sampling

Convenience sampling

Page#94

Hence in stratified random sampling a sub sample is drawn utilizing simple random sampling within each stratum. (Randomization is not done for quota sampling).

Question No: 50 (Marks: 1) - Please choose one

When a field interviewer records an impossible answer (e.g. birth date: 1850), this means that the data need to be:

Coded

Deleted

Edited

None of the given options

Page#97

Editing

Occasionally, a fieldworker makes a mistake and records an improbable answer (e.g., birth year: 1843) or interviews an ineligible respondent (e.g., someone too young to qualify).

Question No: 51 (Marks: 1) - Please choose one

All of the following are software packages that can be used for data analysis EXCEPT:

SPSS

SUBSCRIBE

AR Lucky Bahi

SAS

Excel

Word

<http://www.stattutorials.com/>

Question No: 52 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

Judgment sample

Snowball

Convenience sample

Cluster sample

Page#91

And also here is link

[http://wiki.answers.com/Q/You are in charge of promoting a new flavor of toothpaste yet to be produced in a toothpaste manufacturing unit Which sampling techniques will you use to get the required data from a population](http://wiki.answers.com/Q/You_are_in_charge_of_promoting_a_new_flavor_of_toothpaste_yet_to_be_produced_in_a_toothpaste_manufacturing_unit_Which_sampling_techniques_will_you_use_to_get_the_required_data_from_a_population)

Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

Cluster sample

Convenience sample

Multistage area sample

Systematic sample

Page#90

Question No: 54 (Marks: 1) - Please choose one

In a typical line graph, the _____ variable is shown on the vertical y-axis and the _____ variable is shown on the horizontal x-axis.

Dependent; independent

Ratio; nominal

Independent; dependent

Primary; secondary

Which experimental design has the following symbols: O1 X O2?

Solomon four-group design

Static group design

One-group pretest-posttest design

None of the given options

Page#118

Question No: 57 (Marks: 1) - Please choose one

Which of the following is critical when conducting experimental research because it allows researchers to return subjects to normal?

Manipulation check

Cohort analysis

Debriefing

Deception

Question No: 58 (Marks: 1) - Please choose one

All of the following elements of Observation is/are included in Non Reactive research

EXCEPT:

Count Behaviors

Time Duration

External Appearance

Other Records

Page#124

Question No: 59 (Marks: 1) - Please choose one

Which of the following is an advantage of focus group interviews?

Provide multiple perspectives

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Low degree of scrutiny

Inexpensive

Easy to use for sensitive topics

Page#156

The primary advantage of focus groups is its ability to quickly and inexpensively grasp the core issues of the topic.

<http://www.webcredible.co.uk/user-friendly-resources/web-usability/focus-groups.shtml>

Question No: 60 (Marks: 1) - Please choose one

Which of the following is the ideal size of a focus group?

- 1-2 participants
- 3-5 participants
- 6-12 participants
- 12-20 participants

Page#152

A focus group discussion is a group discussion of 6-12 persons guided by a facilitator, during which group members talk freely and spontaneously about a certain topic.

Question No: 61 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

- Discussion guide
- Concept test
- Case study
- All of the given options

<http://www.answers.com/topic/focus-group>

A focus group is a marketing research tool in which a small group of people (typically eight to ten individuals) engages in a roundtable discussion of selected topics of interest in an informal setting. The focus group discussion is typically directed by a moderator who guides the discussion in order to obtain the group's opinions about or reactions to specific products or marketing-oriented issues, known as test concepts.

Question No: 62 (Marks: 1) - Please choose one

In a prepared report, which of the following comes first?

- Title fly page
- Executive summary
- Table of contents
- Title page

Page#159

Question No: 63 (Marks: 1) - Please choose one

In a prepared report, what should follow the discussion section?

- Tables
- Title page
- References
- Abstract

Page#160

Question No: 64 (Marks: 1) - Please choose one

Constructing a detailed moderator's outline for use during the focus group interviews involves extensive discussions among the_____,_____, and_____.

Researcher; moderator; and respondents
Researcher; client; moderator
Researcher; client; respondent
Client; respondent; moderator

Question No: 1 (Marks: 1) - Please choose one

An inductive logic is one that:

Involves testing as explicitly defined hypothesis.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Does not allow for findings to feed back into the body of knowledge.

Uses quantitative methods whenever possible.

Allows theory to emerge out of the data.

Question No: 2 (Marks: 1) - Please choose one

Which of the following research questions is BEST answered using action research?

How can I improve the interaction of students of different ethnicity in myclass?

What factors influence student interaction in multiethnic classes?

Is there a difference between male and female acceptance of others in multiethnic classes?

How do students from Asian countries adjust to classroom practices in U.S. schools?

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 3 (Marks: 1) - Please choose one

Which of the following is characteristic of action research?

Variables are tightly controlled.

Results are generalizable.

Results demonstrate cause-and-effect relationships.

Data are usually qualitative.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 4 (Marks: 1) <http://vustudents.ning.com> - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

The level of manipulation used to elicit data collection.

The data-collection technique.

The type of data collected.

Type, technique and manipulation of data collection.

Question No: 5 (Marks: 1) - Please choose one

Which of the following is NOT a drawback to free response items?

Results from free response items take longer to analyze.

Many participants tend not to answer free response items.

Free response items allow participants to add information that was not directly requested.

Many participants tend to be less truthful in free response items.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

Question No: 6 (Marks: 1) - Please choose one

After you locate a source, you should write down all details of the reference, except;

Volumes

Full names of the authors

What to Record

After you locate a source, you should write down all details of the reference (full names of the authors, titles, volumes, issue, pages)

Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

How many workers are employed at this plant?

What is your attitude towards the management at this plant?

Do you always cast your vote in trade union elections?

Are you aware of the main features of the European Union Directive for informing and consulting employees?

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/>

Question No: 8 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer.

Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/>

Question No: 9 (Marks: 1) - Please choose one

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

What role to adopt while interviewing male managers?

How many female employees should be interviewed for a representative sample?

How to overcome the issue of false consciousness?

What data to use while publishing findings?

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch18/>

Q#9

Question No: 10 (Marks: 1) - Please choose one

Which of the following is NOT characteristic of qualitative data?

Rich descriptions

Concise

Voluminous

Unorganized

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9871/2527149.cw/content/index.html

Question No: 11 (Marks: 1) - Please choose one

Why is describing the context equally, as important aspect of qualitative data analysis as describing the participants?

Descriptions of context are more objective than descriptions of participants.

Descriptions of context are based on facts, not perceptions.

Participants' behavior cannot be separated from the context in which it occurs.

Participants are the context.

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9871/2527206.cw/index.html

In which of the following Tests, we usually go for personal interviewing to test the questionnaire?

Test Run

Pilot Test

Post Hoc Test

T- Test

Page#80

Question No: 17 (Marks: 1) - Please choose one

In which of the following Tests, we should come to know, does a questionnaire look like an integrated unit?

Test Run

Pilot Test

Post Hoc Test

T- Test

Question No: 18 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

Parameter

Sampling Unit

Observation Unit

Statistic

page#89

A sampling unit is that element or set of elements considered for selection in some stage of sampling.

Question No: 19 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

Purposive Sampling

Snowball Sampling

Convenience Sampling

Quota Sampling

Page#90

Question No: 20 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

- Simple random sampling
- Systematic sampling
- Quota sampling
- Purposive sampling**

Sampling in qualitative research is similar to which type of sampling in quantitative research?

It is similar to purposive sampling.

http://www.google.com.pk/#hl=en&biw=800&bih=411&q=Sampling+in+qualitative+research+is+similar+to+which+type+of+sampling+in+quantitative+research%3F+++++%E2%96%BA+Simple+random+sampling+++++%E2%96%BA+Systematic+sampling+++++%E2%96%BA+Quota+sampling+++++%E2%96%BA+Purposive+sampling&aq=f&aql=&oq=&gs_rfai=&fp=c4ef4ebbe35c98d0

See CH#9 in the above link

Question No: 21 (Marks: 1) - Please choose one

Which of the following is **NOT** a type of Non-random sampling?

- Cluster sampling
- Convenience sampling
- Quota sampling
- Purposive sampling**

Page#90_92

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

- Time-series data
- Primary data
- Secondary data**
- Analyzed data

(PAGE 151)

Question No: 23 (Marks: 1) - Please choose one

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

Replication pattern

- Specification pattern
- Suppressor variable pattern
- Negative linear relationship

(page 110)

The replication pattern is the easiest to understand. It is when the partials replicate

or reproduce the same relationship that existed in the bivariate table before considering the control variable.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need **Not** to;

- Master the literature
- Take numerous detailed notes
- Create a bibliography list

Learn your findings

(page 147)

As the researcher masters the literature and takes numerous detailed notes, he or she completes many specific tasks: creating a bibliography list (on cards or on computer) with complete citations, taking notes that are neither too skimpy nor too extensive, leaving margins on note cards for adding themes later on, taking all note in the same format, and developing a file on themes or working hypothesis.

A researcher adjusts initial concepts, questions, or focus on the basis of what he or she discovers in the evidence. New issues and questions arise as he or she reads and considers a range of research reports at different levels of analysis (e.g., general context and detailed narratives on specific topic), and multiple studies on a topic, crossing topic boundaries.

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

Analysis

Synthesis

Results

Findings

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism

Question No: 26 (Marks: 1) - Please choose one

Which of the following control techniques available to the researcher, controls both known and unknown variables?

Building the extraneous variable into the design

Matching

Random assignment

Analysis of covariance

<http://www.southalabama.edu/coe/bset/johnson/lectures/lec9.htm>

AR Lucky Bahi

The selection of units in non-probability sampling is quite arbitrary,

Question No: 3 (Marks: 1) - Please choose one

Which of the following is NOT included in the stages of interviewing?

Asking questions

Recording the responses

Probing

Coding the

data

(Page

no.83

and 84)

Question No: 4 (Marks: 1) - Please choose one

Critical decision areas in questionnaire construction are_____

Question content

Question wording

Response strategy

All of the given options (most appealing)

Question No: 5 (Marks: 1) - Please choose one

_____is based on the concept of random sampling.

Non- probability sampling

Probability sampling

Random sampling

Multiple sampling

The simple random is the best known probability sample,

Question No: 6 (Marks: 1) - Please choose one

A sampling design in which the elements in the population do NOT have a knownor

predetermined chance of being selected as sample subject is:

Convenience sampling

Stratified sampling

Non-Probability sampling

Probability sampling

Page No.90

http://www.slidefinder.net/s/sampling_sample_design_in602_week/5349303

Question No: 7 (Marks: 1) - Please choose one
_____is the population for which results are required.

Finite population

Infinite population

Target population

None of the given options

Question No: 8 (Marks: 1) - Please choose one
Which of the following technique yields a simple random sample? Choosing

volunteers from an introductory psychology class to participate

Listing the individuals by ethnic group and choosing a proportion from within each ethnic group at random

Numbering all the elements of a sampling frame and then using a randomnumber table to pick cases from the table

Randomly selecting schools, and then sampling everyone within the school

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc7.htm>

Question No: 9 (Marks: 1) - Please choose one
Which of the following designs permits a comparison of pretest scores to determine the initial equivalence of groups on the pretest before the treatment variable is introduced into the research setting.

One-group pretest-posttest design

Pretest-posttest control group design

Posttest-only design with nonequivalent groups

Both b and c

<http://www.southalabama.edu/coe/bset/johnson/mcq/mc9.htm>

Question No: 10 (Marks: 1) - Please choose one

Where do you provide a step-by-step account of what the researcher and participants did during the research study?

Introduction

Abstract

Procedure

Design

<http://www.southalabama.edu/coe/bset/johnson/lectures/lec18.htm>

Question No: 2 (Marks: 1) - Please choose one

Which of the following statements is TRUE for operational definition? It is one that bears no relation to the underlying concept.

It is an abstract, theoretical definition of a concept

A definition of a concept in terms of specific and empirical measures.

It is one that refers to opera singers and their work.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/>

Question No: 3 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis? A quantitative study.

A tentative prediction of the results of the research.

A qualitative research design.

The operational definition of the study.

Question No: 4 (Marks: 1) - Please choose one

When the research starts from the effects and tracing the reasons back in time, what does it called?

Case study

Experiment

Observation studies

Historical comparative research

Ref. Page No.38: It is more like a clinical analysis in retrospect; starting from the effect and tracing the reasons back in time. The researcher takes the history of the situation and makes use of any other relevant information about the case to identify the factors leading to the present situation

Question No: 5 (Marks: 1) - Please choose one

The extent to which a test provides scores that are meaningful, appropriate, or useful is referred to as;

Reliability

Accuracy Internal

validity **Validity**

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9866/2525945.cw/content/index.html

Question No: 6 (Marks: 1) - Please choose one

Mr. Hasan's son has applied to a high school in Florida, but the application was denied solely on his low score on the Iowa Test of Basic Skills (ITBS). His son wants to attend this school and contend his current grades and other standardized test scores speak well

to both his past work and future academic capability. Which of the following characteristics of the ITBS is being questioned by this student?

Construct validity

Content validity

Predictive validity

Concurrent validity

(page 56)

Question No: 7 (Marks: 1) - Please choose one

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

Are easily calculated.

Require only one administration of a test.

Are more accurate than all other types of estimates. Are usually higher.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381232_cw/index.html

Question No: 8 (Marks: 1) - Please choose one

Which of the following functions is performed by the Ordinal scale? Categorize Distance

Order Unique

origin (page 53)

Question No: 9 (Marks: 1) - Please choose one Which of the following is measured by the Interval scale? Order of the object

Magnitude of the object

Categorize the object **All of**

the given options

Question No: 10 (Marks: 1) - Please choose one

Following are the properties of nominal scale, except;

Least powerful
Suggest no order
Provide categorical information
Provide magnitude of object
(page 53)

Question No: 11 (Marks: 1) - Please choose one

What is the difference between interval/ratio and ordinal variables? Ordinal data can be rank ordered, but interval/ratio data cannot.

The distance between categories is equal across the range of interval/ratio data.

Interval/ratio variables contain only two categories.

Ordinal variables have a fixed zero point, whereas interval/ratio variables do not.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cgs/ch14/>

Question No: 12 (Marks: 1) - Please choose one

A study design in which the researcher might create _____ to establish cause-and-effect relationship is called Experimental Design. An

artificial setting, control some variables and manipulates the independent variable

A natural setting, control some variables and manipulates the dependent variables

An artificial setting, control some variables and manipulates the dependent variable

All of the given options

(page 112)

Question No: 13 (Marks: 1) - Please choose one

Which of the following would LEAST likely be a data source for an action research study

of "teachers' questioning techniques in social studies classes"? Student questionnaires

Videotaping of classes

Students' standardized test scores

Classroom observation

Question No: 14 (Marks: 1) - Please choose one

Teachers are advised to predict the results of student attitudinal questionnaires, because;

It will help them decide if students answered truthfully.

It gives them a point of comparison against which to judge actual responses.

It will allow them to apply statistical procedures in analyzing results. It helps them familiarize themselves with the questionnaires.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508_cw/index.html

Question No: 15 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

How many workers are employed at this plant?

What is your attitude towards the management at this plant?

Do you always cast your vote in trade union elections?

Are you aware of the main features of the European Union Directive for informing and consulting employees?

http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch_10/

Question No: 16 (Marks: 1) - Please choose one Questions that include negatives should be avoided because: The respondent may miss out the negative word.

The respondent may be unsure how to answer if the question includes a double negative.

The respondent may be led by the question.

All of the given options.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/>

Question No: 17 (Marks: 1) - Please choose one

Random assignment to treatment groups is characteristic of which kind of research?

Causal-comparative

Correlational

Experimental

Descriptive http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381743.cw/index.html

Question No: 18 (Marks: 1) - Please choose one

Which of the following is likely to happen if clear instructions are not given as to how the respondent should answer the question?

Respondents may delete inappropriate answers rather than select appropriate ones.

Respondents may choose only one answer when they need to choose as many as apply.

Respondents may complete questions that are not relevant to them. **All of the given options.** <http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch09/>

Question No: 19 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer.

Respondents may inadvertently omit key terms in the question. Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch11/>

Question No: 20 (Marks: 1) - Please choose one

What is the main purpose of pilot testing? To accumulate responses

To identify respondent

To identify potential problems

To evaluate the research

purpose of pilot testing is to identify potential problems with the methods, logistics, and the questionnaire.

Question No: 27 (Marks: 1) - Please choose one

In an experimental study, "the effects of inclusion on academic self-concept of children with special needs", the researcher must control which of the following?

The selection of subjects but not their assignment to a treatmentgroup.

The selection and assignment of subjects.

The assignment of subjects to a treatment group but not their selection.
Neither the selection nor assignment of subjects.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820_cw/index.html

Question No: 28 (Marks: 1) - Please choose one

Ecological validity refers to:

The participants to whom results generalize

The instruments used to measure the independent and dependent variables

The internal validity of a study

The context to which results generalize.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820_cw/index.html

Question No: 29 (Marks: 1) - Please choose one

Many beginner researchers believe that research involves testing, treating, and testing again. This is an example of:

Comparison group research

Quasi-experimental research

True experimental research

Pre-experimental research

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820_cw/index.html

Question No: 30 (Marks: 1) - Please choose one
Single-subject research is LEAST concerned with: Clinical significance

Internal validity

Validity of measuring instruments

External validity

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381820_cw/index.html

Question No: 31 (Marks: 1) - Please choose one

On which component of his field notes did Mr. Majid focused when he expressed in his notes his thoughts and ideas about what he observed?

Description

Reflection

Protocol

Formal data

Question No: 32 (Marks: 1) - Please choose one

In which section is the researcher allowed greater flexibility to express opinions, discuss implications for educational practice, and suggest additional research?

Review of the literature

Significance of the study

Results

Discussion http://wps.prenhall.com/chet_airasian_edresearch_7/5/1492/382157.cw/index.html

Question No: 33 (Marks: 1) - Please choose one

Determining the sample interval (represented by K), randomly selecting a number between 1 to K, and including each K element in your sample are the steps for which form of sampling?

Simple Random Sampling

Stratified Random Sampling

Systematic Sampling Cluster sampling

http://www.google.com.pk/#sclient=psy&hl=en&site=&source=hp&q=Determining+the+sample+interval+%28represented+by+K%29%2C+randomly+selecting+a+number+between+1+to+K%2C+and+including+each+K+element+in+your+sample+are+the+steps+for+which+form+of+sampling%3F+Simple+Random+Sampling+Stratified+Random+Sampling+Systematic+Sampling+Cluster+sampling&aq=f&aqi=&aql=&oq=&gs_rfai=&pbx=1&fp=165a74728c73b339

Systematic sampling

Simple or stratified in nature

SUBSCRIBE

AR Lucky Bahi

Systematic in the “picking-up” of element. E.g. every 5th. visitor, every 10th. House, every 15th. minute

Steps:

Number the population (1,...,N)

Decide on the sample size, n

Decide on the interval size, $k = N/n$

Select an integer between 1 and k

Take case for every kth. unit

Question No: 34 (Marks: 1) - Please choose one

A focus group session is ideally for;1 hour

and half hour

hours

More than 2 hours

Page No.155 : For duration, a focus group session typically lasts up to an hour and a half. Generally the first session with a particular type of group is longer than the following ones because all of the information is new.

Question No: 35 (Marks: 1) - Please choose one

In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following?

Dependent variable

Extraneous variable

Independent variable

Confounding variable

Question No: 36 (Marks: 1) - Please choose one

Which of the following is the process of identifying and classifying each item and giving labels to each category?

Accretion

Count Behaviors

SUBSCRIBE

AR Lucky Bahi

Intensity

Coding

The process of identifying and classifying each item and giving labels to each category. Later on each category may be assigned a numerical value for its entry into the computer. In content analysis one can look at the manifest coding and latent coding.

Question No: 37 (Marks: 1) - Please choose one When do largest percentages form a pattern across cells? If there is no relationship

If there is non linear relationship

If there is curvilinear relationship

If there is linear relationship

Page No. 107 : If there is curvilinear relationship, the largest percentages form a pattern across cells. For example, the largest cells might be the upper right, the bottom middle, and the upper left.

Question No: 38 (Marks: 1) - Please choose one

Which of the following elements is/are not included for structuring Observation in Non reactive research?

Frequency

Intensity

Direction

Accretion

Aleena is intended to select a sample of firms to undertake a survey about the use of photocopiers. As she has limited resources so, she decides to conduct survey by dividing firms in four geographical areas, selected from the local administrative areas. A list of all sampling area formed her sampling frame here. Which sampling technique is applicable here?

Random sampling
Systematic sampling
Quota sampling
Cluster sampling (p95)

Punjab Government is concerned to know how the junior Doctor's strike can be avoided to smoothly provide health facilities to patients at public hospitals. Government knows that low pay package is the main reason behind the strike but at the same time it is observed by officials that all the doctors are not involved in strike. In this situation which of the following problem statement would be appropriate for Punjab Government to address the issue?

How to analyze the factor that can be a reason of doctor's strike?
How the factors affecting doctors strike affecting policies of Punjab Government?
How to avoid doctor's strike by improving their remuneration affecting the duties?
Why Punjab government is not giving importance to junior doctor's strike?

"Higher the extrinsic motivation, lower the job satisfaction." Which type of relationship the movement of variables determines?

Direct relationship
Positive relationship
Negative relationship (sure)
Cannot be determined with the given information

Which of the following is NOT the area of concern while conducting review of literature?

Data collection
Objective testing
Research designs and methodologies
Scholastic appreciations (sure)

Which of the following best explains exploratory research?

Increasing numbers of poor in Pakistani society
Computation of demographic profile of poor women
Emergence of new underclass in Pakistan
Problems associated with people living below poverty line (not sure)

Which of the following is a measure in which the researcher captures the intensity, direction, level, or potency of a variable construct?

Scale (p 53)

Index

Unidimensionality

Weighing

The best way to control extraneous variables in research studies is;

Randomization

Valid and reliable instrumentation

Avoiding all threats to external validity (not sure)

Using intact groups

Mr. Raheel is concerned about potential problems with the reliability of his observers.

Which strategy would you suggest, he should follow?

Specify the observational variables

Train his observers carefully

Monitor his observers in the field

Specification, training and monitoring

Which type of research addresses the major societal change?

Experimental Research

Historical Comparative Research (p 142)

Social Research

Action Research

Which of the following major problems exist with non respondents in survey research?

They tend to be alike in many ways.

Data cannot be analyzed for only part of a sample.

They cannot be found to determine if they are similar to respondents.

They may have different opinions than respondents. (not sure)

Error occurred while using interview technique due to difficulty in motivating the right person to participate is called:

Response error

Non response error (not sure)

Interviewer error

Respondent error

The part of the action research spiral that differentiates this research methodology from other kinds of research is;

Looking at multiple sources of data.

Taking action based on results.

Thinking about or analyzing data in more than one way.

The kinds of data that are collected.

Individuals who engage in action research are most concerned with:

Supporting the way things are being done.

Publishing results

Proving a hypothesis

Improvement

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

The level of manipulation used to elicit data collection.

The data-collection technique.

The type of data collected.

Type, technique and manipulation of data collection.

Which of the following statements best defines hypothesis?

A quantitative study.

A tentative prediction of the results of the research.

A qualitative research design.

The operational definition of the study.

What is the first step in the research process?

Problem definition

Define broad problem area

Theoretical framework

Preliminary data collection

When there is a need of generating new ideas for hypotheses or to interpret the results of some research, which one is the best research design?

Experiment

Surveys

Focus group discussion

Communication analysis

Which of the following is an example of deception in business research?

The obtaining of company material without permission.

The researcher wearing a disguise during an observation.

The researcher representing their research as being about a different topic.

Correct

The researcher failing to ask permission to interview someone.

Which of the following is least likely to occur as an ethical problem with electronic research?

Privacy could be invaded.

People are not likely to be able to stop once they have begun participating.

Debriefing could be avoided.

Informed consent cannot be completely monitored.

All of the following are unethical issues, EXCEPT;

Invoicing irregularities

Avoiding legal liability

Misrepresenting results

Seeking permission for entry

Which of the following is the difference between measures and indicators?

Measures are unambiguous quantities, whereas indicators are devised from common sense understandings.

Indicators have a more direct relationship to the underlying concept than measures.

Measures are intuitively devised and then applied as if they were direct indicators of a concept.

Indicators are unambiguous quantities, whereas measures are subjective and value-laden.

The extent to which a test provides scores that are meaningful, appropriate, or useful is referred to as;

Reliability

Accuracy

Internal validity

Validity

Which of the following functions is performed by the Ordinal scale?

Categorize

Distance

Order

Unique origin

What is the difference between interval/ratio and ordinal variables?

Ordinal data can be rank ordered, but interval/ratio data cannot.

The distance between categories is equal across the range of interval/ratio data.

Interval/ratio variables contain only two categories.

Ordinal variables have a fixed zero point, whereas interval/ratio variables do not.

Which of the following statement refers to cross-sectional design?

A comparison of two or more variables over a long period of time

The collection of data from more than one case at one moment in time

One that is devised when the researcher is in a bad mood

A study of one particular section of society, e.g. the middle classes

Which of the following is TRUE for research plan?

It should be detailed.

It should be given to others for review and comments.

It sets out the rationale for a research study.

All of the given options

Which of the following typically does NOT apply to observers in survey research studies?

They observe predetermined activities.

They are participant observers.

They obtain information by watching rather than asking. .

They must be careful not to influence the activities they observe.

Which of the following is not an advantage of the self-completion questionnaire over the structured interview?

It is cheaper to administer.

It is quicker to administer.

It is easier to prompt the interviewee.

It is easier to remove interviewer effects. .

Mr. X has coded his observations to hide the identity of each of the three participants in his study. He is ensuring;

protection from harm

confidentiality

informed consent

anonymity .

The cover letter to a questionnaire study should contain all of the following, EXCEPT;

A list of participants

A self-addressed, stamped envelope

Purpose of the study

Reasons to respond .

Teachers are advised to predict the results of student attitudinal questionnaires, because;

It will help them decide if students answered truthfully.

It gives them a point of comparison against which to judge actual responses.

It will allow them to apply statistical procedures in analyzing results.

It helps them familiarize themselves with the questionnaires.

In conducting an action research study of "student's organizational skills during class in a particular school", which of the following would NOT likely provide useful data?

Interviews with teachers

Classroom observations

Parent surveys

Teacher's journal entries

Why it is helpful to keep a research diary or log book while you are conducting your project?

To give you something to do in the early stages of your research when nothing is happening.

Because funding councils generally demand to see written evidence that you were working every day during the period of the research.

To keep a record of what you did and what happened throughout the research process.

It can be added to your dissertation to ensure that you reach the required word limit.

Which of the following is likely to happen if clear instructions are not given as to how the respondent should answer the question?

Respondents may delete inappropriate answers rather than select appropriate ones.

Respondents may choose only one answer when they need to choose as many as apply.

Respondents may complete questions that are not relevant to them.

All of the given options.

Which of the following is NOT a suitable topic for research using a diary?

The amount of time managers spend on particular activities.

The frequency with which managers undertake particular tasks.

The locations in which a trade union representative has discussions with individual members.

The volume of female managers in the retail industry.

Which of the following represents excellent advice for conducting an interview?

Listen more and talk less

Don't interrupt

Don't be judgmental about the interviewee's beliefs or views

All of the given options

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

What role to adopt while interviewing male managers?

How many female employees should be interviewed for a representative sample?

How to overcome the issue of false consciousness?

What data to use while publishing findings?

Which type of sampling strategy is exemplified by selecting two types of individuals: those who are extremely happy and those who are extremely sad?

Snowball

Intensity

Homogeneous

Purposive

The logic of purposive sampling is:

To use participants because the researcher has access to them.

That a random sample can generalize to a population.

That a few information-rich participants studied in depth yield many insights about a topic.

To include all participants, even though they are not all relevant to the problem.

Using a sample of 30 participants, a researcher finds a correlation of 0.30 between two variables. The relationship is not statistically significant. If the researcher were to triple her sample size, which of the following is most likely?

The correlation would be statistically significant.

The correlation would be larger.

The correlation would be smaller.

Nothing is likely to change.

Which of the following steps begins the analysis of qualitative data?

Reading and memoing

Describing the content and participants

Classifying and interpreting

Data management

Which of the following represents the most general conceptualization in qualitative data analysis?

Word

Topic

Category

Pattern

Which of the following BEST differentiates data analysis from interpretation?

Interpretation requires more conceptual and integrative thinking than data analysis.

Interpretation involves computerized analysis of data.

Data analysis is explanatory and interpretation is conceptual.

Data analysis involves conceptualization but interpretation does not.

The statistic used to determine the relationship between two variables is:

Analysis of covariance

Chi square

Standard deviation

Pearson "r"

Which of the following is NOT a control procedure used in causal-comparative research?

Matching.

Subgroups.

Chi square.

Analysis of covariance.

Which of the following best describes qualitative data coding?

Adding all of the scores together and describing them statistically.

Identify data segments that contain general episodes.

Numerically representing the concepts identified by the participants.

Dividing data in parts that represent single thoughts.

The bivariate tables derived from trivariate table are called;

Sub table

Bivariates

Partials

Correlational tables

Quasi-experimental research is used because:

Random selection is not possible

Neither random selection nor random assignment is possible

Random assignment is not possible

There are no comparison groups available

A researcher believes that the effects of a treatment will be different for males and females. Which one is the best method to test this possible interaction?

Single-subject design

Factorial design

Time-series design

Quasi-experimental design

The influence of the researcher's background, personal experiences, preferences, or attitude on an interview or observation is technically defined as:

Participant bias

Observer bias

Observer effect

Nonparticipant effect

Which of the following terms describes an interview protocol in which the topics and questions to be addressed are identified, but the order in which the questions can be asked is not stipulated?

- Unstructured
- Partially structured
- Semistructured**
- Structured

The most important characteristic of the sample in survey research is that it is:

- Representative of the target population**
- Convenient to access
- Easily observed in naturalistic settings
- Large enough to compare differences between subgroups

Which of the following is NOT something a researcher will have to consider while thinking about their sample size?

- Time and cost.
- Non-response.
- Length of questionnaire.**
- Heterogeneity of population.

A correlation coefficient of -0.45 is generally considered to be;

- No correlation
- Low
- Moderate**
- High

What is a researcher doing when he removes the variance explained by one variable in order to understand the correlation between two other variables?

- Statistical significance
- Attenuation
- Controlling for the variable**
- Multiple regression research

Which of the following best describes qualitative data analysis?

- It begins after all the data has been collected.
- It is an ongoing, cyclic process integrated into all phases of research.**
- It is an awkward, haphazard process.
- It builds from abstraction to specific, concrete examples

Which of the following describes the nature of qualitative data interpretation?

- Reflection
- Integrative
- Explanatory
- All of the given options**

In frequency tables total of columns and rows are called:

Body of table

Cell of table

Area of table

Marginals

A researcher studies three groups of students who vary in level of self-confidence. She finds that students with higher self-confidence are more popular among their peers. The most plausible conclusion is that:

We do not know what causes self-confidence or popularity.

Self-confidence causes popularity.

Popularity causes self-confidence.

Self-confidence and popularity are related.

Educational policymakers often conclude that an intervention didn't work. Often, however, the intervention was not implemented as intended. The validity of the policymaker's conclusion is threatened by;

Lack of specificity of variables

Selection-treatment interaction

Treatment diffusion

Faulty data analysis procedures

Many beginner researchers believe that research involves testing, treating, and testing again. This is an example of:

Comparison group research

Quasi-experimental research

True experimental research

Pre-experimental research

Which of the following questions can be answered using content analysis?

How do managers behave in the face of employment insecurity?

How do the media report corporate re-branding exercises?

What effect does organizational size have on marketing strategy?

What are the most popular leisure activities amongst the over-50s?

Case study is empirical because:

It investigates a contemporary phenomenon within its real life context.

It is retrospective study in which the researcher follows the research process from effect to its cause.

It is a study back in time.

The design in which one group of research participants is administered a treatment and is then compared, on the dependent variable, with another group of research participants who did not receive the experimental treatment is known as:

One-group posttest-only design

One-group pretest-posttest design

Posttest-only design with non-equivalent groups

Time series design

Which of the following is referred to as the influence of a single independent variable?

Interaction effect

Reactive effect

Main effect

Proactive effect

Which of the following types of analysis can be done using secondary analysis?

The analysis of specific subgroups

Longitudinal analysis

Cross-cultural analysis

All of the given options

Which of the following is/are advantage(s) of the self-completed questionnaire?

Inability to confirm who completed the questionnaire

Its unsuitability for some kinds of respondents

Inability to ask many questions that are not directly relevant to the respondent

Easy to justify the answer.

Which of the following is the basis of the Scientific Method?

To test hypothesis in conditions that is conducive to its success.

To formulate a research problem and disprove the hypothesis

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis

To test hypothesis and if they are disproved, they should be abandoned completely.

An inductive logic is one that:

Involves testing as explicitly defined hypothesis.

Does not allow for findings to feed back into the body of knowledge.

Uses quantitative methods whenever possible.

Allows theory to emerge out of the data.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Avoid using "leading" or "loaded" questions

Avoid double-barreled questions

Avoid ambiguity and confusion

Avoid arranging questions in a sequence

Which of the following statements is true about closed ended questions and open ended questions?

A closed ended question means that the chances of unreliable post-coding is small, whereas an open ended question means that there is a possibility of data processing error.

A closed ended question allows for the researchers terminology to be used, whereas an open ended question allows the respondent to use terms they are familiar with.

A closed ended question allows for easy processing, whereas coding an open ended question can be very time consuming.

A closed ended question has many advantages over open ended question.

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer.

Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

Smaller sample sizes can be used in correlation research when;

The researcher expects no relationship between the variables.

There are only two variables to correlate.

The instruments used to measure the variables have low validity and reliability.

The instruments used to measure the variables have high validity and reliability.

Which of the following could NOT be a cause of variation in high school achievement?

Reading ability

Parental involvement

Teacher expectations

College attendance

Which of the following is true about validity?

A study can be internally valid but not externally valid.

A study can be externally valid but not internally valid.

A study must be both internally and externally valid.

The internal and external validity of studies are not related in any way.

Testing most likely, negatively affect internal validity when:

The information tested is attitudinal in nature

The time between pre- and posttest is short

The instrument is unreliable

Which one is NOT an advantage of personal interviewing?

Interviewer influence

Probing complex questions

Visual aids

High completion rate

All of the following are the characteristics of scientific methods of research, EXCEPT;

Cumulative

Deterministic

Unethical

Rationalism

Which of the following is the characteristic/s of Hypotheses in qualitative research studies?

Hypotheses are very specific and stated prior to beginning the study.

Hypotheses are never used.

Hypotheses are often generated as the data are collected, interpreted, and analyzed.

Hypotheses are always stated after the research study has been completed.

“Downsizing in an organization in future is associated with the level of job security of the present employee in an organization” is an example of which of the following?

Correlational hypothesis

Descriptive hypothesis

Explanatory hypothesis

Non Descriptive hypothesis

Constructing intertextual coherence, 2. Deconstruction of textual coherence, 3.
Problematising the situation, 4. Resolving discovered problems?

and 2

and 3

1 and 3

2 and 4

Which of the following is the appropriate way in which to view the reliability of observational data?

Test-retest

Parallel forms

Internal consistency

Interobserver reliability

Which of the following is the evidence that the instrument, techniques, or process used to measure concept does indeed measure the intended concepts?

Reliability

Replicability

Scaling

Validity

If a study is 'reliable', this means that:

It was conducted by a reputable researcher who can be trusted.

The measurements devised for concepts are stable on different occasions.

The findings can be generalized to other social settings.

The methods are stated clearly enough for the research to be replicated.

Which of the following is not a form of measurement validity?

Concurrent validity

Face validity

Conductive validity

Convergent validity

One of the preoccupations of quantitative researchers is with generalization, which is a sign of:

External validity

Internal reliability

External reliability

Internal validity

The validity of a measure refers to which of the following?

Consistency of the measurement

Accuracy with which it measures the construct

A study design in which the researcher might create _____ to establish cause-and-effect relationship is called Experimental Design.

An artificial setting, control some variables and manipulates the independent variable

A natural setting, control some variables and manipulates the dependent variables

An artificial setting, control some variables and manipulates the dependent variable

All of the given options

Which of the following is NOT a necessary component of survey research?

Triangulation of data

Literature review

Data analysis

Validity

Which of the following is NOT a longitudinal study?

Panel study

Cohort study

Census study

Trend study

The most critical area of an article to read is;

Introduction

Abstract

Results section

Limitations

Questions that include negatives should be avoided because:

The respondent may miss out the negative word.

The respondent may be unsure how to answer if the question includes a double negative.

The respondent may be led by the question.

All of the given options

Which of the following is an advantage of open ended questions?

They allow respondents to answer in their own terms.

They prevent respondents from giving unusual answers.

They allow respondents to put less effort into their answer.

They allow respondents to code their answers in advance.

Which one of the following is NOT a type of scales used in measurement of concepts?

Normal Scale

Ordinal Scale

Interval scale

Ratio Scale

Which of the following is NOT an assumption of action research?

Action researchers have basic research skills to collect and analyze data.

All professionals need and want feedback on their performance.

Results enable the researchers to evaluate the performance of others.

Teachers are capable of assuming responsibility for their own professional growth.

Which of the following statements is TRUE for operational definition?

It is one that bears no relation to the underlying concept.

It is an abstract, theoretical definition of a concept

A definition of a concept in terms of specific and empirical measures.

It is one that refers to opera singers and their work.

When the research starts from the effects and tracing the reasons back in time, what does it called?

Case study

Experiment

Observation studies

Historical comparative research

Mr. Hasan's son has applied to a high school in Florida, but the application was denied solely on his low score on the Iowa Test of Basic Skills (ITBS). His son wants to attend this school and contends his current grades and other standardized test scores speak well to both his past work and future academic capability. Which of the following characteristics of the ITBS is being questioned by this student?

Construct validity

Content validity

Predictive validity

Concurrent validity

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

Are easily calculated

Require only one administration of a test.

Are more accurate than all other types of estimates

Are usually higher

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which of the following type of research?

Basic

Evaluation

Applied

Grounded theory

Which type of review compares how different theories address an issue?

Context review

Integrated review

Methodological review

Theoretical review

Which of the following functions is performed by theoretical framework?

Elaborates the relationship among the variables.

Explains the logic underlying these relationships.

Describes the nature, and direction of the relationships.

All of the given options.

Panel and cohort designs differ in that:

Cohort studies involve quantitative research, whereas panel studies are qualitative.

panel study does not need rules to handle new entrants to households.

Only a cohort study will suffer from sample attrition.

A panel study can distinguish between age effects and cohort effects, but a cohort design cannot.

Why should a business researcher record and transcribe interviews?

It overcomes all possible ethical considerations.

The response of participants can be more readily shared with senior management.

It allows a more thorough examination of what the interviewee has said.

Which of the following statements is false about variables?

Discrete variables allow measurement of an infinite number of fractions of units of measurement.

Discrete variables can only have whole number values.

Continuous numbers can only have whole number values.

Continuous measures do not allow for scores that fall between two number values.

Which of the following is the BEST hypothesis?

Students taking formative quizzes will perform better on exams at the end of the chapter than students not taking these quizzes.

Taller students will have higher test scores than shorter students.

Students taught in a cooperative group setting should do better than students in a traditional class.

Students using laptops will do well.

A formal statement of the research question or “purpose of research study” generally:

Is made prior to the literature review

Is made after the literature review

Will help guide the research process

Is made before or after literature review

Which of the following refers to “A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program in which type of review?”

Integrative review

Theoretical review

Self-study review

Historical review

Quantitative research has been criticised because:

The reliance on instruments and procedures makes it high in ecological validity.

The measurement process suggests a spurious and artificial sense of accuracy.

It underestimates the similarities between objects in the natural and social worlds.

It has no validity.

Which of the following functions is performed by the Nominal scale?

SUBSCRIBE

AR Lucky Bahi

Categorize

Distance

Order

Unique origin

Categorical measures are forms of measurement classified as

Measures that reflect quantitative differences.

Measures that reflect qualitative differences.

Measures that do not require mutual exclusivity or exhaustiveness when devising a measuring system.

Rationale measures.

If a measure is consistent over multiple occasions, it has:

Inter-rater reliability

Construct validity

Internal validity

Test-retest reliability

In which of the following types of interview, questions are already prepared?

Telephonic interview

Personal interview

Unstructured interview

Structured interview

Which of the following provides insight into the complexity of using interviews?

Potential influence of gender or cultural differences between interviewer and interviewee

The accuracy of the interviewee's responses

The different semantic meanings of the language being used

Accuracy, influences and language used

Ms. K sampled the brightest students in the fifth grade at her school. She observed them in their classes at school and as they interacted with teachers and students when on campus. Her observation can be characterized as which of the following?

Historical research

Typical case sampling

Totally structured

Naturalistic

Because the data is kept confidential

When an interviewer asks the respondent to state which of six salary categories represents his gross income the previous year, this is an example of a:

- Social desirability question
- Disguised question
- Structured question**
- Unstructured question

"Can you tell me more about what you mean by that?" is an example of:

- A mall intercept
- A probe**
- A self-administered questionnaire
- All of the given options

Interviews with respondents that take place in shopping malls are called:

- Interviewer influence
- Mixed-mode surveys
- Protesting
- Mall intercept interviews**

A questionnaire that collects information that is valid is said to be:

- Reliable
- Relevant
- Balanced
- Accurate**

All of the following are guidelines that help prevent the most common mistakes in designing questions EXCEPT:

- Avoid complexity
- Avoid personal questions**
- Avoid leading questions
- Avoid double-barreled questions

When a respondent in a personal interview is asked questions about shopping at a specific department store in the shopping mall, and then is asked general questions about shopping at that mall, what type of mistake has been made in questionnaire design?

- Double-barreled effect**
- Filter effect
- Loaded effect
- Order bias

A teacher conducts an action research study of the problem-solving methods used by students in his ninth-grade Algebra I classes. Which of the following can he assume on the basis of his study?

Results apply only to students in his ninth-grade Algebra I classes.

Results apply only to students in Algebra I classes at his school.

Results apply only to Algebra I students in ninth grade.

Results apply to all math students.

Which of the following can best be described as a categorical variable?

Age

Annual income

Grade point average

Religion

Which of the following is not a role of hypothesis?

Guides the direction of the study

Identifies relevant and irrelevant facts

Provides framework for organizing the conclusions

Determine feasibility of conducting the study

Deductive research is useful in which of the following cases?

The researcher uses an existing theory to develop a hypothesis.

The researcher subjects a hypothesis to empirical scrutiny.

The researcher has to transform concepts within a hypothesis into researchable entities.

Use of existing theory, empirical scrutiny, transformation of concept

When embarking upon a research project, which of the following issues should be considered?

That the data from the study will be treated anonymously and confidentially

Coherent research question, pilot work and confidentiality

Pilot work should be carried out to assess the practical issues and feasibility of the research

That the research should be based upon a coherent research question

Which of the following is likely to reduce the validity of a test?

Unclear test directions

Ambiguous test items

Unclear, ambiguous and untaught items

Untaught items

Which of the following refers to Test reliability?

Procedures determining which of the following two issues are rarely used in quantitative research?

Reliability and validity

Accessibility and replicability

Quality and quantity

Objectivity and subjectivity

Which of the following is a legitimate purpose of a research plan?

It forces you to think through every aspect of a study.

It provides detailed procedures to guide the conduct of the study.

It provides clear roadmap of the study.

Writing a plan facilitates the evaluation of it.

Which of the following statements might assist response rates?

Please photocopy the questionnaire five times and pass on to your work colleagues.

Please make sure that the questionnaire is completed with a fountain pen.

Please read the attached journal article on the ontological foundations of positivism prior to completing the questionnaire.

Please put the completed questionnaire in the enclosed stamped addressed envelope and place in the mail out tray.

What should the researcher do if they have achieved a low response rate?

Copy responses and paste them again.

Abandon the research project entirely.

Recognize and accept the possible limitations of a low response rate.

Fill in some more questionnaires themselves.

Why does qualitative interviewing have an advantage over participant observation when it comes to longitudinal research?

Repeat interviews are easier to organise.

It allows for a better exploration of key issues.

It is a more focused research method.

Participant observers are prone to 'go native' during longitudinal research.

Which of the following is NOT characteristic of qualitative data?

Rich descriptions

Concise

Voluminous

Unorganized

SUBSCRIBE

AR Lucky Bahi

Why is describing the context equally, as important aspect of qualitative dataanalysis as is describing the participants?

Descriptions of context are more objective than descriptions of participants.

Descriptions of context are based on facts, not perceptions.

Participants' behavior cannot be separated from the context in which it occurs.

Participants are the context.

Question No: 12 (Marks: 1) - Please choose one

Which one is not the part of non reactive research?

Physical traces

Archives

Observations

Interviews

Page#124

Question No: 13 (Marks: 1) - Please choose one

The information gained by someone other than researcher conducting the study is called

_____.

Primary data

Reliable data

Valid data

Secondary data

page#131

Secondary data refer to information gathered by someone other than the researcher conducting the present study.

Question No: 14 (Marks: 1) - Please choose one

Which of the following is **not** an example of historical comparative research?

Social Forms

Economic Forms

Civil Wars

Turnover

Page#143

Which of the following would you recommend to a graduate student to ensure the quality of his research report?

Write a detailed explanation of the methods used to investigate the problem.

Explicitly state underlying assumptions related to the topic.

Acknowledge the limitations of generalizability while assisting the reader in understanding the transferability of the findings.

Detailed method, assumptions and limitation.

Question No: 16 (Marks: 1) - Please choose one

In which of the following Tests, we usually go for personal interviewing to test the questionnaire?

Test Run

Pilot Test

Post Hoc Test

T- Test

Question No: 17 (Marks: 1) - Please choose one

In which of the following Tests, we should come to know, does a questionnaire look like an integrated unit?

Pilot Test

Post Hoc Test

T- Test

Question No: 18 (Marks: 1) - Please choose one

Which of the following is that element or set of elements considered for selection in some stage of sampling?

Parameter

Sampling Unit

Observation Unit

Statistic

page#89

A sampling unit is that element or set of elements considered for selection in some stage of sampling.

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

Purposive Sampling

Snowball Sampling

Convenience Sampling

Quota Sampling

Page#90

Question No: 20 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

Simple random sampling

Systematic sampling

Quota sampling

Purposive sampling

Sampling in qualitative research is similar to which type of sampling in quantitative research?

It is similar to purposive sampling.

Question No: 21 (Marks: 1) - Please choose one

Which of the following **is NOT** a type of Non-random sampling?

Cluster sampling

Convenience sampling

Quota sampling

Purposive sampling

Page#90_92

Question No: 22 (Marks: 1) - Please choose one

Historical-Comparative researchers sometimes use;

Time-series data

Primary data

Secondary data

Analyzed data

(PAGE 151)

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

Replication pattern

Specification pattern

Suppressor variable pattern

Negative linear relationship

(page 110)

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need **Not** to;

Master the literature

Take numerous detailed notes

Create a bibliography list

Learn your findings

(page 147)

As the researcher masters the literature and takes numerous detailed notes, he or she completes many specific tasks: creating a bibliography list (on cards or on computer) with complete citations, taking notes that are neither too skimpy nor too extensive, leaving margins on note cards for adding themes later on, taking all note in the same format, and developing a file on themes or working hypothesis.

A researcher adjusts initial concepts, questions, or focus on the basis of what he or she discovers in the evidence. New issues and questions arise as he or she reads and considers a range of research reports at different levels of analysis (e.g., general context and detailed narratives on specific topic), and multiple studies on a topic, crossing topic boundaries.

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

Analysis

Synthesis

Results

Findings

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism

Question No: 26 (Marks: 1) - Please choose one

Which of the following control techniques available to the researcher, controls both known and unknown variables?

Building the extraneous variable into the design

Matching

Random assignment

Analysis of covariance

Question No: 27 (Marks: 1) <http://vustudents.ning.com> - Please choose one

Which of the following is more operational with the help of coding system?

External Appearance

Count Behaviors

Content analysis

Time Duration

Question No: 28 (Marks: 1) - Please choose one

What is the particular advantage of secondary analysis to business students?

It is less challenging intellectually

It guarantees positive results

It is less expensive and less time consuming than primary analysis

It enables students to gain experience of the workplace

Question No: 29 (Marks: 1) - Please choose one

Which of the following similarity is found in Qualitative research and Surveyresearch?

Examine topics primarily from the participants' perspectives.

They are guided by predetermined variables to study.

They are descriptive research methods.

Have large sample sizes.

Question No: 30 (Marks: 1) - Please choose one

A single element or group of elements that is eligible for selection via the samplingprocess is called a:

Sampling panel

Sampling unit

Sampling error

Sampling quota

**Sample unit (subject) – single element selected in the sample;
could be a group(could be a two stage process)**

LECTURE 10 - SAMPLING FUNDAMENTALS

Source notes

None of the given options

Question No: 33 (Marks: 1) - Please choose one

The experimental design that uses one-group, a treatment, and a posttest is called _____.

One-shot case study design

Pretest posttest control group design

Solomon four-group design

One-group pretest posttest design

Page#117

One-shot Case Study Design: Also called the one-group posttest-only design, the one-shot case study design has only one group, a treatment, and a posttest.

Question No: 34 (Marks: 1) - Please choose one

When a researcher tries to say that the results of a test market in Karachi will hold in a national rollout of the new product, this researcher is concerned with:

Internal validity

The repeated measures effect

Constant error

External validity

Question No: 35 (Marks: 1) - Please choose one

Obtaining secondary data is typically _____ and _____ expensive than obtaining primary data.

Faster; more

Slower; more

Faster; less

Slower; less

Secondary data is readily available at cheap rates and is usually quite inexpensive.

Which of the following is a disadvantage of secondary data?
User has no control over their reliability and validity
Inability to convert the data
Typically require additional access to research respondents

All of the given options

Question No: 37 (Marks: 1) - Please choose one

The study of documents used by writers is a method of_____.

In-depth analysis
Time series analysis
Regression analysis

None of the given options

Question No: 38 (Marks: 1) - Please choose one

Historical-Comparative research focuses on:

Its broad historical processes
Comparing forms
Tracing the development of social forms

All of the given options

Historical-Comparative research focuses on:

**Tracing the development of social forms (patterns) overtime as well as its broad its broadhistorical processes, and
Comparing those forms and its developmental processes across cultures(countries/nations).**

Question No: 39 (Marks: 1) - Please choose one

When a manufacturer studies his most successful retailer in depth in order to determine some better ideas for displaying bicycles in its retail stores, this is anexample of:

An experiment
A test market

A case study

Causal research

An interview conducted by a trained moderator among a small group of respondents in an unstructured and natural manner is a _____.

Depth interview

Focus group

Case study

None of the given options

Question No: 41 (Marks: 1) - Please choose one

Which of the following represents this reference: Riley, T., & Brecht, M. L. (1998). *The success in mentoring process*. In R. Williams (Ed.) *Mentoring and career success*. pp. 129-150. New York: Wilson Press.

Edited book

Book by a single author

Book by more than one author

Chapter in an edited book

(page 165)

Question No: 42 (Marks: 1) - Please choose one

Following are the characteristics of the research **EXCEPT**:

Systematic

Data based

Subjective approach

Scientific inquiry

Therefore, research may be considered as an organized, systematic, data based, critical, objective, scientific inquiry or investigation into a specific problem, undertaken with the purpose of finding answers or solutions to it. (Page#2)

Question No: 43 (Marks: 1) - Please choose one

A variable that is likely to develop with the passage of time between the independent and dependent variable is called:

Moderating Variable

Intervening Variable

Confounding Variable

Predictor Variable

(PAGE 20)

Question No: 44 (Marks: 1) - Please choose one

Which type of research is involved in preliminary data collection stage?

Descriptive

Exploratory

Explanatory

Cannot be determined at this stage of research

(page 36)

Question No: 45 (Marks: 1) - Please choose one

Which one of the following is **NOT** a type of scales used in measurement of concepts?

Normal Scale

Ordinal Scale

Interval scale

Ratio Scale

Question No: 46 (Marks: 1) - Please choose one

A measure is reliable if it provides consistent_____.

Hypothesis

Results

Procedure

Sensitivity

Question No: 47 (Marks: 1) - Please choose one

Which of the following typically does NOT apply to observers in survey research studies?

They observe predetermined activities.

They are participant observers.

They obtain information by watching rather than asking.

They must be careful not to influence the activities they observe.

Question No: 48 (Marks: 1) - Please choose one

Which of the following is NOT a longitudinal study?

Panel study

Trend study

Cohort study

Census study

Question No: 1 (Marks: 1) - Please choose one

The part of the action research spiral that differentiates this research methodology from other kinds of research is;

Looking at multiple sources of data.

Taking action based on results.

Thinking about or analysing data in more than one way.

The kinds of data that are collected.

Question No: 2 (Marks: 1) - Please choose one

Individuals who engage in action research are most concerned with:

Supporting the way things are being done.

Publishing results

Proving a hypothesis

Improvement

Question No: 3 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

The level of manipulation used to elicit data collection.

The data-collection technique.

The type of data collected.

Type, technique and manipulation of data collection.

Question No: 4 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

A quantitative study.

A tentative prediction of the results of the research.

A qualitative research design.

The operational definition of the study.

Question No: 5 (Marks: 1) - Please choose one

What is the first step in the research process?

Problem definition

Define broad problem area

Theoretical framework

Preliminary data collection

(page 33) :The research process consists of a number of steps. The first step in any research is selecting the topic, which could start from the broad area of interest

Question No: 6 (Marks: 1) - Please choose one

When there is a need of generating new ideas for hypotheses or to interpret the results of some research, which one is the best research design?

Experiment

Surveys

Focus group discussion

Communication analysis

(PAGE 38)

Question No: 7 (Marks: 1) - Please choose one

Which of the following is an example of deception in business research?

The obtaining of company material without permission.

The researcher wearing a disguise during an observation.

The researcher representing their research as being about a different topic

The researcher failing to ask permission to interview someone.

Question No: 8 (Marks: 1) - Please choose one

Which of the following is least likely to occur as an ethical problem with electronic research?
Privacy could be invaded.

People are not likely to be able to stop once they have begun participating.

Debriefing could be avoided.

Informed consent cannot be completely monitored.

Chapter 1

Question No: 9 (Marks: 1) - Please choose one All of the following are unethical issues, EXCEPT;

Invoicing irregularities

Avoiding legal liability

Misrepresenting results

Seeking permission for entry

age41

Unethical activities

Violating nondisclosure agreements.

Breaking respondent confidentiality.

Misrepresenting results.

Deceiving people.

Invoicing irregularities.

Avoiding legal liability.

Question No: 10 (Marks: 1) - Please choose one

Which of the following is the difference between measures and indicators?

Measures are unambiguous quantities, whereas indicators are devised from common sense understandings.

Indicators have a more direct relationship to the underlying concept than measures.

Measures are intuitively devised and then applied as if they were direct indicators of a concept.

Indicators are unambiguous quantities, whereas measures are subjective and value-laden.

Question No: 11 (Marks: 1) - Please choose one

The extent to which a test provides scores that are meaningful, appropriate, or useful is referred to as;

Reliability

Accuracy

Internal validity

Validity

Which of the following functions is performed by the Ordinal scale?

Categorize

Distance

Order

Unique origin

Question No: 13 (Marks: 1) - Please choose one

What is the difference between interval/ratio and ordinal variables?

Ordinal data can be rank ordered, but interval/ratio data cannot.

The distance between categories is equal across the range of interval/ratio data.

Interval/ratio variables contain only two categories.

Ordinal variables have a fixed zero point, whereas interval/ratio variables do not.

Question No: 14 (Marks: 1) - Please choose one

Which of the following statement refers to cross-sectional design?

A comparison of two or more variables over a long period of time

The collection of data from more than one case at one moment in time

One that is devised when the researcher is in a bad mood

A study of one particular section of society, e.g. the middle classes

Question No: 15 (Marks: 1) - Please choose one

Which of the following is TRUE for research plan?

It should be detailed.

It should be given to others for review and comments.

It sets out the rationale for a research study.

All of the given options

Question No: 16 (Marks: 1) - Please choose one

Which of the following typically does NOT apply to observers in survey research studies?

They observe predetermined activities.

They are participant observers.

They obtain information by watching rather than asking.

They must be careful not to influence the activities they observe.

Which of the following is not an advantage of the self-completion questionnaire over the structured interview?

It is cheaper to administer.

It is quicker to administer.

It is easier to prompt the interviewee.

It is easier to remove interviewer effects. .

Question No: 18 (Marks: 1) - Please choose one

Mr. X has coded his observations to hide the identity of each of the three participants in his study. He is ensuring;
protection from harm

confidentiality

informed consent

anonymity

Question No: 19 (Marks: 1) - Please choose one

The cover letter to a questionnaire study should contain all of the following, EXCEPT;

A list of participants

A self-addressed, stamped envelope

Purpose of the study

Reasons to respond

Question No: 20 (Marks: 1) - Please choose one

Teachers are advised to predict the results of student attitudinal questionnaires, because;
It will help them decide if students answered truthfully.

It gives them a point of comparison against which to judge actual responses.

It will allow them to apply statistical procedures in analyzing results.

It helps them familiarize themselves with the questionnaires.

Question No: 21 (Marks: 1) - Please choose one

In conducting an action research study of "student's organizational skills during class in a particular school", which of the following would NOT likely to provide useful data?

Interviews with teachers

Classroom observations

Parent surveys

Teacher's journal entries

Why it is helpful to keep a research diary or log book while you are conducting your project?
To give you something to do in the early stages of your research when nothing is happening.
Because funding councils generally demand to see written evidence that you were working every day during the period of the research.

To keep a record of what you did and what happened throughout the research process.

It can be added to your dissertation to ensure that you reach the required word limit.

Question No: 23 (Marks: 1) - Please choose one

Which of the following is likely to happen if clear instructions are not given as to how the respondent should answer the question?

Respondents may delete inappropriate answers rather than select appropriate ones.

Respondents may choose only one answer when they need to choose as many as apply.

Respondents may complete questions that are not relevant to them.

All of the given options

Question No: 24 (Marks: 1) - Please choose one

Which of the following is NOT a suitable topic for research using a diary?

The amount of time managers spend on particular activities.

The frequency with which managers undertake particular tasks.

The locations in which a trade union representative has discussions with individual members.

The volume of female managers in the retail industry.

Question No: 25 (Marks: 1) - Please choose one

Which of the following represents excellent advice for conducting an interview?

Listen more and talk less

Don't interrupt

Don't be judgmental about the interviewee's beliefs or views

All of the given options

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

What role to adopt while interviewing male managers?

How many female employees should be interviewed for a representative sample?

How to overcome the issue of false consciousness?

What data to use while publishing findings?

Question No: 27 (Marks: 1) - Please choose one

Which of the following sampling strategies was used when the three students with the highest GPAs were selected?

Extreme case

Snowball

Maximum variation

Normal case

Question No: 28 (Marks: 1) - Please choose one

Which type of sampling strategy is exemplified by selecting two types of individuals: those who are extremely happy and those who are extremely sad?

Snowball

Intensity

Homogeneous

Purposive

Question No: 29 (Marks: 1) - Please choose one

The logic of purposive sampling is:

To use participants because the researcher has access to them.

That a random sample can generalize to a population

That a few information-rich participants studied in depth yield many insights about a topic.

To include all participants, even though they are not all relevant to the problem.

Using a sample of 30 participants, a researcher finds a correlation of 0.30 between two variables. The relationship is not statistically significant. If the researcher were to triple her sample size, which of the following is most likely?

The correlation would be statistically significant.

The correlation would be larger.

The correlation would be smaller.

Nothing is likely to change.

Question No: 31 (Marks: 1) - Please choose one

Which of the following steps begins the analysis of qualitative data?

Reading and memoing

Describing the content and participants

Classifying and interpreting

Data management

Question No: 32 (Marks: 1) - Please choose one

Which of the following represents the most general conceptualization in qualitative data analysis?

Word

Topic

Category

Pattern

Question No: 33 (Marks: 1) - Please choose one

Which of the following BEST differentiates data analysis from interpretation?

Interpretation requires more conceptual and integrative thinking than data analysis.

Interpretation involves computerized analysis of data.

Data analysis is explanatory and interpretation is conceptual.

Data analysis involves conceptualization but interpretation does not.

The statistic used to determine the relationship between two variables is:

Analysis of covariance

Chi square

Standard deviation

Pearson "r"

Question No: 35 (Marks: 1) - Please choose one

Which of the following is NOT a control procedure used in causal-comparativeresearch?

Matching.

Subgroups.

Chi square.

Analysis of covariance.

Question No: 36 (Marks: 1) - Please choose one

Which of the following best describes qualitative data coding?

Adding all of the scores together and describing them statistically.

Identify data segments that contain general episodes.

Numerically representing the concepts identified by the participants.

Dividing data in parts that represent single thoughts.

Question No: 37 (Marks: 1) - Please choose one

The bivariate tables derived from trivariate table are called;

Sub table

Bivariates

Partials

Correlational tables

(HANDOUT PAGE 110)

Question No: 38 (Marks: 1) - Please choose one

Quasi-experimental research is used because:

Random selection is not possible

Neither random selection nor random assignment is possible

Random assignment is not possible

There are no comparison groups available

Which of the following has greatly facilitated the researcher to conduct tabulation and statistical analysis?

SPSS

MINITAB

SYSTAT

All of the given options

Page No.104: The proliferation of computer technology in business and universities has greatly facilitated tabulation and statistical analysis. Commercial packages eliminate the need to write a new program every time you want to tabulate and analyze data with a computer. SAS, Statistical Package for the Social Sciences (SPSS), SYSTAT, Epi. Info. And MINITAB is commonly used statistical packages.

Question No: 34 (Marks: 1) - Please choose one

What is the place of quotations in referencing?

Quotations should be given at the end.

Quotations should be given exactly as they appear in the source.

Quotations should be given in left margins only.

Quotations should not be given at all.

Question No: 35 (Marks: 1) - Please choose one

Which of the following terms refers to a statistical method that can be used to statistically equate groups on a pretest or some other variable?

Experimental control

Differential influence

Matching

Analysis of covariance

Question No: 36 (Marks: 1) - Please choose one

Which of the following could be used for randomly assigning participants to groups in an experimental study?

Split-half

Even versus Odd numbers

Use a list of random numbers or a computer randomization program

Let the researcher decide which group will be the best

Question No: 37 (Marks: 1) - Please choose one

The design in which one group of research participants is administered a treatment and is then compared, on the dependent variable, with another group of research participants who did not receive the experimental treatment is known as:

One-group posttest-only design

One-group pretest-posttest design

Posttest-only design with non-equivalent groups

Time series design

Question No: 38 (Marks: 1) - Please choose one

Which of the following is referred to as the influence of a single independent variable?

Interaction effect

Reactive effect

Main effect

Proactive effect

Question No: 39 (Marks: 1) - Please choose one

Which of the following types of analysis can be done using secondary analysis?

The analysis of specific subgroups

Longitudinal analysis

Cross-cultural analysis

All of the given options

Question No: 40 (Marks: 1) - Please choose one

Which of the following is/are advantage(s) of the self-completed questionnaire?

Inability to confirm who completed the questionnaire

Its unsuitability for some kinds of respondents

Inability to ask many questions that are not directly relevant to the respondent

Easy to justify the answer.

Question No: 1 (Marks: 1) - Please choose one

The part of the action research spiral that differentiates this research methodology from other kinds of research is;

Looking at multiple sources of data.

Taking action based on results.

Thinking about or analyzing data in more than one way.

The kinds of data that are collected.

Question No: 2 (Marks: 1) - Please choose one

If a researcher was studying the use of various instructional approaches to the "multiple intelligences" of his students, he is likely to be conducting which of the following type of research?

Basic

Evaluation

Applied

Grounded theory

Which of the following is a form of Non-random sampling?

Snowball sampling

Convenience sampling

Quota sampling

All of the given option

Nonrandom Sampling Techniques

The other major type of sampling used in quantitative research is non-random sampling (i.e., when you do not use one of the random sampling techniques). There are four main types of nonrandom sampling:

- ☐ The first type of nonrandom sampling is called convenience sampling
- ☐ The second type of nonrandom sampling is called quota sampling
- ☐ The third type of nonrandom sampling is called purposive sampling
- ☐ The fourth type of nonrandom sampling is called snowball sampling

Question No: 24 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

Simple random sampling

Systematic sampling

Quota sampling

Purposive sampling

It is similar to purposive sampling. Here is a list of the different types:

- ☐ Maximum variation sampling (purposively selecting a wide range of cases)
- ☐ Homogeneous sample selection (selecting a small and homogeneous case or set of cases for intensive study)
- ☐ Extreme-case sampling (identifying the extremes or poles of some characteristic and then selecting cases representing these extremes for examination)
- ☐ Typical-case sampling (selecting what are believed to be average cases)
- ☐ Critical-case sampling (selecting what are believed to be particularly important cases)
- ☐ Negative-case sampling (selecting cases that disconfirm the researcher's expectations and generalizations)
- ☐ Opportunistic sampling (selecting cases when the opportunity arises)
- ☐ Mixed purposeful sampling (mixing of more than one of the above sampling strategies).

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

When a manufacturer studies his most successful retailer in depth in order to determine some better ideas for displaying bicycles in its retail stores, this is an example of:

An experiment

A test market

A case study

Causal research

it is an in-depth analysis of a unit which could be an individual person, a couple, a group, or an organization. It is more like a clinical analysis in retrospect; starting from the effect and tracing the reasons back in time. The researcher takes the history of the situation and makes use of any other relevant information about the case to identify the factors leading to the present situation.

Question No: 38 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

Discussion guide

Concept test

Case study

All of the given options

Question No: 39 (Marks: 1) - Please choose one

Which of the following is a disadvantage of focus groups?

Requires objective, sensitive, and effective moderators

May not be useful for discussing sensitive topics

High cost

All of the given options

Which of the following characteristic of the scientific method is defined as the confirmation or refutation of the observation through the scientific method by using sensory experience?
Empirical

Verifiable

Observable

Cumulative

(PAGE 3)

Scientific method is concerned with the realities that are observable through “sensory experiences.” It generates knowledge which is verifiable by experience or observation

Question No: 42 (Marks: 1) - Please choose one

Basic research can also be called as

Practical research

Fundamental Research

Action research

Assessment research

basic research (also called academic research or pure research or fundamental research). Page#8

Question No: 43 (Marks: 1) - Please choose one

Which of the following statement is true about the peer review?

Name of the article's author is not mentioned to avoid biases

It should be accepted

It should be published in a well known journal

Name of the author should be mentioned for the further correspondence

Question No: 44 (Marks: 1) - Please choose one

After making the inventory of the relevant variables the next step is to:

Provide logic for the relationship

Make inventory of the propositions

Identify the relationships between the variables

Deduce hypothesis

Question No: 45 (Marks: 1) - Please choose one

Theoretical framework helps to:

Deduce the hypothesis

Reject the hypothesis

Test the hypothesis

Accept the hypothesis

From the theoretical framework, then, testable hypotheses can be developed to examine whether theory formulated is valid or not

Question No: 46 (Marks: 1) - Please choose one

Which of the following is NOT a method of narrowing a topic?

Literature review

Specifying the context

Talk to the experts

Pilot

testing

(page 33)

Question No: 47 (Marks: 1) - Please choose one

The working definition of the variables is called:

Theoretical definition

Dictionary definition

Operational definition

Fundamental definition

Operational definition is also called a working definition

Question No: 48 (Marks: 1) - Please choose one

Which of the following characteristic is reflected by an interval scale?

The distance between each participant's individual scores.

Arithmetic operations can be performed after data collection

Classify the data into exclusive categories

Question No: 48 (Marks: 1) - Please choose one

Which of the following major problem exist with non respondents in survey research?

- They tend to be alike in many ways.
- Data cannot be analyzed for only part of a sample.
- They cannot be found to determine if they are similar to respondents.

They may have different opinions than respondents.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381580.cw/index.html

(ch#10 question 5)

Question No: 49 (Marks: 1) - Please choose one

Which of the following advantage differentiates personal interview from mail, internet and telephonic survey?

- Cheaper
- Expensive

► **Easier**

Inexpensive

(PAGE 69)

As the cost of personal interviews continues to increase, telephone interviews are becoming relatively inexpensive.

Question No: 50 (Marks: 1) - Please choose one

Which one of the following methods offers the lowest degree of geographic flexibility?

- Mail survey
- Telephone interview

Door-to-door personal interview

Internet survey

Chapter 7

Question No: 51 (Marks: 1) - Please choose one

Which of the following survey research methods is the most expensive?

AR Lucky Term

Chapter 7

Question No: 52 (Marks: 1) - Please choose one

When a respondent tells the interviewer that he reads "Best Selling English News Paper" on a daily basis so that he can impress the interviewer, this is an example of:

Administrative bias

► **Interviewer bias**

Submission bias

Response bias

Page no 66

Question No: 53 (Marks: 1) - Please choose one

All of the following are stages in the selection of a sample EXCEPT:

Determine sample size

Analyze data

Conduct fieldwork

Select a sampling frame

[http://en.wikipedia.org/wiki/Sampling_\(statistics\)](http://en.wikipedia.org/wiki/Sampling_(statistics))

Question No: 54 (Marks: 1) - Please choose one

A stratified sample in which the number of sampling units drawn from each stratum is in proportion to the population size of that stratum is called a:

Balanced stratified sample

► **Proportional stratified sample**

Cluster sampling

Convenience sample

If the number of sampling units drawn from each stratum is in proportion to the relative population size of the stratum, the sample is proportionate stratified sampling.

Question No: 55 (Marks: 1) - Please choose one

Assigning males the value of zero and females the value of one in a database to record the gender of the respondents is an example of:

Coding

Editing

Verification

Test tabulation

<http://www.audiencedialogue.net/gloss-data.html>

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

(HANDOUT PAGE 99)

There are two basic rules for code construction. First, the coding categories should be *exhaustive*

– that

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

is, coding categories should be provided for all subjects or objects or responses. With a categorical variable such as sex, making categories exhaustive is not a problem. However, when the response represents a small number of subjects or when the responses might be categorized in a class not typically found, there may be a problem.

Question No: 56 (Marks: 1) - Please choose one

Arranging data into a table is called:

- Analysis
- Frequency
- Interpretation

► **Tabulation**

<http://www.tutorvista.com/math/tabulation-of-data-tutoring>

page no 105

Question No: 57 (Marks: 1) - Please choose one

A researcher interested in a data matrix that displays the frequency of some combination of possible responses to multiple variables should construct a:

Contingency table

- Regression equation
- Marginal table
- None of the given options

(HANDOUT PAGE 105)

Question No: 58 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

- Judgment sample
- Snowball**
- Convenience sample
- Cluster sample

Page#91

HISTORIANS ORGANIZE EVIDENCE AS THEY WRITE WORKS OF HISTORY.THEY OFTEN WRITE *NARRATIVE HISTORY*.

Question No: 19 (Marks: 1) - Please choose one

What is the difference between a focus group and a group interview?

A focus group is used to analyse group interaction, whereas a group interview is used as a straightforward data collection tool.

A focus group is used only for political research, whereas group interviews are more widely used in the social sciences.

A focus group is used at the planning stage of a research project, whereas a group interview is part of the actual data collection.

A focus group is used to discuss a wide range of issues, whereas a group interview looks at one specific topic.

<http://www.southalabama.edu/coe/bset/johnson/lectures/lec7.htm>

Nonrandom Sampling Techniques

The other major type of sampling used in quantitative research is nonrandom sampling (i.e., when you do not use one of the random sampling techniques). There are four main types of nonrandom sampling:

The first type of nonrandom sampling is called convenience sampling

The second type of nonrandom sampling is called quota sampling

The third type of nonrandom sampling is called purposive sampling

The fourth type of nonrandom sampling is called snowball sampling

Question No: 24 (Marks: 1) - Please choose one

Sampling in qualitative research is similar to which type of sampling in quantitative research?

Simple random sampling

Systematic sampling

Quota sampling

Purposive sampling

It is similar to purposive sampling. Here is a list of the different types:

Maximum variation sampling (purposively selecting a wide range of cases)

Homogeneous sample selection (selecting a small and homogeneous case or set of cases for intensive study)

Extreme-case sampling (identifying the extremes or poles of some characteristic and then selecting cases representing these extremes for examination)

Typical-case sampling (selecting what are believed to be average cases)

Critical-case sampling (selecting what are believed to be particularly important cases)

Negative-case sampling (selecting cases that disconfirm the researcher's expectations and generalizations)

Opportunistic sampling (selecting cases when the opportunity arises)

Mixed purposeful sampling (mixing of more than one of the above sampling strategies).

Which of the following characteristic of the scientific method is defined as the confirmation or refutation of the observation through the scientific method by using sensory experience?

Empirical

Verifiable

Observable

Cumulative

(PAGE 3)

Scientific method is concerned with the realities that are observable through “sensory experiences.” It generates knowledge which is verifiable by experience or observation

Question No: 42 (Marks: 1) - Please choose one

Basic research can also be called as

Practical research

Fundamental Research

Action research

Assessment research

basic research (also called academic research or pure research or

fundamental research). Page#8 Question No: 43 (Marks: 1) - Please choose one

Which of the following statement is true about the peer review?

Name of the article's author is not mentioned to avoid biases

It should be accepted

It should be published in a well known journal

Name of the author should be mentioned for the further correspondence

Question No: 44 (Marks: 1) - Please choose one

After making the inventory of the relevant variables the next step is to:

Provide logic for the relationship

Make inventory of the propositions

Identify the relationships between the variables

Deduce hypothesis

Question No: 45 (Marks: 1) - Please choose one

Theoretical framework helps to:

Deduce the hypothesis

Reject the hypothesis

Test the hypothesis

Accept the hypothesis

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

From the theoretical framework, then, testable hypotheses can be developed to examine whether theory formulated is valid or not

Question No: 46 (Marks: 1) - Please choose one

Which of the following is NOT a method of narrowing a topic?

Literature review

Specifying the context

Talk to the experts

Pilot

testing

(page 33)

Question No: 47 (Marks: 1) - Please choose one

The working definition of the variables is called:

Theoretical definition

Dictionary definition

Operational definition

AR Lucky Term

Fundamental definition

Operational definition is also called a working definition

Question No: 48 (Marks: 1) - Please choose one

Which of the following characteristic is reflected by an interval scale?

The distance between each participant's individual scores.

Arithmetic operations can be performed after data collection

Classify the data into exclusive categories

All of the given options

Question No: 1 (Marks: 1) - Please choose one

Which of the following is the basis of the Scientific Method?

To test hypothesis in conditions that is conducive to its success.

To formulate a research problem and disprove the hypothesis.

To formulate a research problem, test the hypothesis in carefully controlled conditions that challenge the hypothesis.

To test hypothesis and if they are disproved, they should be abandoned completely.

<http://www.answers.com/topic/scientific-method>

<http://mansci.journal.informs.org/cgi/content/abstract/12/8/C-135>

Question No: 2 (Marks: 1) - Please choose one

An inductive logic is one that:

Involves testing as explicitly defined hypothesis.

Does not allow for findings to feed back into the body of knowledge.

Uses quantitative methods whenever possible.

Allows theory to emerge out of the data.

Rationale: The usual application of inductive theory, however, is to allow theory to emerge from our findings. We find an interesting question, we gather data on it and we 'theorise' from our findings. It may be that these 'theories' are, in reality, simply 'interesting insights' rather than 'grand theories' but they can be valuable for all that.

Question No: 3 (Marks: 1) - Please choose one

Which of the following is not a concept?

Leadership.

Total Quality Management.

AR Lucky Term

AR Lucky Bahi

Human Resource Management.

Intelligence Quotient (IQ).

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Rationale: Concepts are the building blocks of theory, each of which represents a label given to a common element of the social world. IQ is a measure of the concept of intelligence, it is not a concept in itself.

Question No: 4 (Marks: 1) - Please choose one

Which of the following is the definition of an independent variable?

A variable that is manipulated or controlled by the experimenter.

A response variable.

The behavioural measure made by the experimenter.

A dependent variable that is controlled by the experimenter.

<http://www.umpi.maine.edu/~stump/psysci.html>

Question No: 5 (Marks: 1) - Please choose one

The cause variable or the one that identifies forces or conditions that act on something else is known as:

Moderating variable

Independent variable

Categorical variable

Dependent variable

Page 19

The cause variable, or the one that identifies forces or conditions that act on something else, is the *independent variable*.

Question No: 6 (Marks: 1) - Please choose one

A measure is reliable if it provides consistent_____.

Hypothesis

Results

Procedure

Sensitivity

http://www.oppapers.com/search_results.php?

[action=search&query=A+measure+is+reliable+if+it+provides+consistent](http://www.oppapers.com/search_results.php?action=search&query=A+measure+is+reliable+if+it+provides+consistent)

Question No: 7 (Marks: 1) - Please choose one

Which of the following statements relates to concurrent validity?

The measure apparently reflects the content of the concept in question.

A criterion is employed on which cases are known to differ.

A future criterion is employed on which cases are known to differ.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

A measure is gauged by comparing it to measures of the same concept developed through other methods.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch06/>

Question No: 8 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

The type of data collected.

The data-collection technique.

The level of manipulation used to elicit data collection.

All of the given options.

Question No: 9 (Marks: 1) - Please choose one

Cross cultural studies are an example of:

Comparative design.

Longitudinal design.

Experimental design.

Case study design.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch02/>

The comparative design typically studies two contrasting cases, so that a better understanding of social phenomena can be formed. Clearly, cross-cultural studies are a good example, therefore, of comparative design in action.

Question No: 10 (Marks: 1) - Please choose one

When constructing a questionnaire, there are few principles to which you should adhere.

Which of the following is NOT one of those principles?

Avoid using "leading" or "loaded" questions

Avoid double-barreled questions

Avoid ambiguity and confusion

Avoid arranging questions in a sequence

Page 77_78

Question No: 11 (Marks: 1) - Please choose one

Which of the following statements is true about closed ended questions and open ended questions?

A closed ended question means that the chances of unreliable post-coding is small, whereas an open ended question means that there is a possibility of data processing error.

A closed ended question allows for the researchers terminology to be used, whereas an open ended question allows the respondent to use terms they are familiar

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

with.

A closed ended question allows for easy processing, whereas coding an open

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

ended question can be very time consuming.

A closed ended question has many advantages over open ended question.

Statistic

Ref .Page No.89: A **sampling unit** is that element or set of elements considered for selection in some stage of sampling. Sampling may be done in single stage or in multiple stages.

Question No: 28 (Marks: 1) - Please choose one

If you are going on the street and suddenly a TV reporter starts taking your interview regarding any issue, which of the following sampling technique is used by the TV reporter?

Purposive Sampling

Snowball Sampling

Convenience Sampling

Quota Sampling

Ref. Page No.90: **Convenience sampling** (also called *haphazard or accidental sampling*) refers to sampling by obtaining units or people who are most conveniently available. For example, it may be convenient and economical to sample employees in companies in a nearby area, sample from a pool of friends and neighbors. The person-on-the street interview conducted by TV programs is another example. TV interviewers go on the street with camera and microphone to talk to few people who are convenient to interview. The people walking past a TV studio in the middle of the day do not represent everyone (homemakers, people in the rural areas).

Question No: 29 (Marks: 1) - Please choose one

Which of the following sampling is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently?

Convenience Sampling

Quota Sampling

Snowball Sampling

Purposive Sampling

Ref .Page No.90: **Convenience sampling** is most often used during the exploratory phase of a research project and is perhaps the best way of getting some basic information quickly and efficiently. Often such sample is taken to test ideas or even to gain ideas about a subject of interest.

Question No: 30 (Marks: 1) - Please choose one

Which of the following sampling method is the best way to select a group of people for a study if you are interested in making statements about the larger population?

Convenience sampling

Quota sampling

Purposive sampling

Random sampling

Q#27

Question No: 31 (Marks: 1) - Please choose one

In which of the following conditions, each part of the construct should be measured with at least one indicator?

Unidimensionality

Scale

Weighing

Index Construction

(Page 102)

Each part of the construct should be measured with at least one indicator. Of course, it is better to measure the parts of a construct with multiple indicators.

Question No: 32 (Marks: 1) - Please choose one

Which of the following number of variables involved in Descriptive Statistics?

Bivariate

Multivariate

Univariate

All of the given options

Ref. Page No. 105 : *Descriptive statistics* describe numerical data. They can be categorized by the number of variables involved: univariate, bivariate, or multivariate (for one, two, and three or more variables).

Question No: 33 (Marks: 1) - Please choose one

All of the following are types of personal communication, except;

Letters

Memos

Telephone conversations

Emails

Page 167

Personal communication through letters, memos, telephone conversations, and the like, should be cited in the text only and not included in the reference list since these are not retrievable data.:

Question No: 34 (Marks: 1) - Please choose one

Which of the following terms refers to a statistical method that can be used to statistically equate groups on a pretest or some other variable?

Experimental control

Differential influence

Matching

Analysis of covariance

Discontinuous variable

Dependent variable

Independent variable

Intervening variable

[Page 19](#)

Question No: 4 (Marks: 1) - Please choose one

Which of the following statements best defines hypothesis?

A quantitative study.

A tentative prediction of the results of the research.

A qualitative research design.

The operational definition of the study.

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9865/2525651.cw/content/index.html

Q#24

Question No: 5 (Marks: 1) - Please choose one

Which of the following is the BEST hypothesis?

Students taking formative quizzes will perform better on exams at the end of the chapter than students not taking these quizzes.

Taller students will have higher test scores than shorter students.

Students taught in a cooperative group setting should do better than students in a traditional class.

Students using laptops will do well.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1488/381002.cw/index.html

Question No: 6 (Marks: 1) - Please choose one

Which of the following is the characteristic/s of Hypotheses in qualitative research studies?

Hypotheses are very specific and stated prior to beginning the study.

Hypotheses are never used.

Hypotheses are often generated as the data are collected, interpreted, and analyzed.

Hypotheses are always stated after the research study has been completed.

Q#18

Question No: 8 (Marks: 1) - Please choose one

Which of the following refers to "A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program is which type of review"?

Integrative review

Theoretical review

Self-study review

Historical review

Page 26

Self-study reviews increase the reader's confidence. A review that only demonstrates familiarity with an area is rarely published but it often is part of an educational program. In addition to giving others confidence in a reviewer's command of field, it has the side benefit of building the reviewer's self confidence.

Question No: 9 (Marks: 1) - Please choose one

Quantitative research has been criticised because:

The reliance on instruments and procedures makes it high in ecological validity.

The measurement process suggests a spurious and artificial sense of accuracy.

It underestimates the similarities between objects in the natural and social worlds.

It has no validity.

<http://www.oup.com/uk/orc/bin/9780199202959/01student/cqs/ch06/>

Q#8

Question No: 10 (Marks: 1) - Please choose one

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

Are easily calculated.

Require only one administration of a test.

Are more accurate than all other types of estimates.

Are usually higher.

Question No: 52 (Marks: 1) - Please choose one

When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:

Judgment sample

Snowball

Convenience sample

Cluster sample

Page#91

And also here is link

[http://wiki.answers.com/Q/You are in charge of promoting a new flavor of toothpaste yet to be produced in a toothpaste manufacturing unit Which sampling techniques will you use to get the required data from a population](http://wiki.answers.com/Q/You_are_in_charge_of_promoting_a_new_flavor_of_toothpaste_yet_to_be_produced_in_a_toothpaste_manufacturing_unit_Which_sampling_techniques_will_you_use_to_get_the_required_data_from_a_population)

Snowball sampling relies on referrals from initial subjects to generate additional subjects. While this technique can dramatically lower search costs, it comes at the expense of introducing bias because the technique itself reduces the likelihood that the sample will represent a good cross section from the population.

Question No: 53 (Marks: 1) - Please choose one

When a local television station sends a crew to interview joggers in the Iqbal park on a beautiful spring day, this represents what type of sample?

Cluster sample

Convenience sample

Multistage area sample

Systematic sample

AR Lucky Bahi

Which of the following is an advantage of focus group interviews?

- Provide multiple perspectives
- Low degree of scrutiny
- Inexpensive**
- Easy to use for sensitive topics

Page#156

The primary advantage of focus groups is its ability to quickly and inexpensively grasp the core issues of the topic.

<http://www.webcredible.co.uk/user-friendly-resources/web-usability/focus-groups.shtml>

Question No: 60 (Marks: 1) - Please choose one

Which of the following is the ideal size of a focus group?

- 1-2 participants
- 3-5 participants
- 6-12 participants**
- 12-20 participants

Page#152

A focus group discussion is a group discussion of 6-12 persons guided by a facilitator, during which group members talk freely and spontaneously about a certain topic.

Question No: 61 (Marks: 1) - Please choose one

The written set of guidelines that describes an outline of topics to be covered by a focus group moderator is called a:

Discussion guide

- Concept test
- Case study
- All of the given options

<http://www.answers.com/topic/focus-group>

A focus group is a marketing research tool in which a small group of people (typically eight to ten individuals) engages in a roundtable discussion of selected topics of interest in an informal setting. The focus group discussion is typically directed by a moderator who guides the discussion in order to obtain the group's opinions about or reactions to specific products or marketing-oriented issues, known as test concepts.

Question No: 3 (Marks: 1) - Please choose one

Which of the following is characteristic of action research?

Variables are tightly controlled.

Results are generalizable.

Results demonstrate cause-and-effect relationships.

Data are usually qualitative.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381508.cw/index.html

Question No: 4 (Marks: 1) - Please choose one

Research may differ along a series of dimensions. Which of the following may be applied to this statement?

The level of manipulation used to elicit data collection.

The data-collection technique.

The type of data collected.

Type, technique and manipulation of data collection.

Question No: 5 (Marks: 1) - Please choose one

Which of the following is NOT a drawback to free response items?

Results from free response items take longer to analyze.

Many participants tend not to answer free response items.

Free response items allow participants to add information that was not directly requested.

Many participants tend to be less truthful in free response items.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

AR Lucky Bahi

Which of the following refers to the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable?

Replication pattern

Specification pattern

Suppressor variable pattern

Negative linear relationship

(page 110)

The replication pattern is the easiest to understand. It is when the partials replicate or reproduce the same relationship that existed in the bivariate table before considering the control variable.

Question No: 24 (Marks: 1) - Please choose one

As a researcher you need **Not** to;

Master the literature

Take numerous detailed notes

Create a bibliography list

Learn your findings

(page 147)

As the researcher masters the literature and takes numerous detailed notes, he or she completes many specific tasks: creating a bibliography list (on cards or on computer) with complete citations, taking notes that are neither too skimpy nor too extensive, leaving margins on note cards for adding themes later on, taking all note in the same format, and developing a file on themes or working hypothesis.

A researcher adjusts initial concepts, questions, or focus on the basis of what he or she discovers in the evidence. New issues and questions arise as he or she reads and considers arrange of research reports at different levels of analysis (e.g., general context and detailed narratives on specific topic), and multiple studies on a topic, crossing topic boundaries.

Question No: 25 (Marks: 1) - Please choose one

Which of the following relates with an abstract model of underlying relations or causal mechanism?

Analysis

Synthesis

Results

Findings

Synthesis links specific evidence with an abstract model of underlying relations or causal mechanism

Question No: 6 (Marks: 1) - Please choose one

A sampling design in which the elements in the population do NOT have a known or predetermined chance of being selected as sample subject is:

Convenience sampling

Stratified sampling

Non-Probability sampling

Probability sampling

Page No.90

http://www.slidefinder.net/s/sampling_sample_design_in602_week/5349303

Question No: 7 (Marks: 1) - Please choose one

_____is the population for which results are required.

Finite population

Infinite population

Target population

None of the given options

The target population is the population of individuals which we are interested in describing and making statistical inferences about.

Question No: 5 (Marks: 1) - Please choose one

The extent to which a test provides scores that are meaningful, appropriate, or useful is referred to as;

Reliability

Accuracy Internal

validity **Validity**

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9866/2525945.cw/content/index.html

Question No: 6 (Marks: 1) - Please choose one

Mr. Hasan s son has applied to a high school in Florida, but the application was denied solely on his low score on the Iowa Test of Basic Skills (ITBS). His son wants to attend this school and contend his current grades and other standardized test scores speak well

to both his past work and future academic capability. Which of the following characteristics of the ITBS is being questioned by this student?

Construct validity

Content validity

Predictive validity

Concurrent validity

(page 56)

Question No: 7 (Marks: 1) - Please choose one

Internal consistency estimates of reliability such as the KR-20 or Cronbach's alpha are used more frequently than other estimates such as test-retest or parallel forms because internal consistency estimates;

Are easily calculated.

Require only one administration of a test.

Are more accurate than all other types of estimates. Are usually higher.

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1489/381232.cw/index.html

Question No: 33 (Marks: 1) - Please choose one

Determining the sample interval (represented by K), randomly selecting a number between 1 to K, and including each K element in your sample are the steps for which form of sampling?

Simple Random Sampling

Stratified Random Sampling

Systematic Sampling Cluster sampling

http://www.google.com.pk/#sclient=psy&hl=en&site=&source=hp&q=Determining+the+sample+interval+%28represented+by+K%29%2C+randomly+selecting+a+number+between+1+to+K%2C+and+including+each+K+element+in+your+sample+are+the+steps+for+which+form+of+sampling%3F+Simple+Random+Sampling+Stratified+Random+Sampling+Systematic+Sampling+Cluster+sampling&aq=f&aqi=&aql=&oq=&gs_rfai=&pbx=1&fp=165a74728c73b339

Systematic sampling

Simple or stratified in nature

Systematic in the “picking-up” of element. E.g. every 5th. visitor, every 10th.

House, every 15th. minute

Steps:

Number the population (1,...,N)

Decide on the sample size, n

Decide on the interval size, $k = N/n$

Select an integer between 1 and k

Take case for every kth. unit

The most critical area of an article to read is;

Introduction

Abstract

Results section

Limitations

Question No: 16 (Marks: 1) - Please choose one

The cover letter to a questionnaire study should contain all of the following, EXCEPT;

A list of participants

A self-addressed, stamped envelope

Purpose of the study

Reasons to respond

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381582.cw/index.html

Question No: 17 (Marks: 1) - Please choose one

Questions that include negatives should be avoided because:

The respondent may miss out the negative word.

The respondent may be unsure how to answer if the question includes a doublenegative.

The respondent may be led by the question.

All of the given options

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/>

Question No: 18 (Marks: 1) - Please choose one

Which of the following is an advantage of open ended questions?

They allow respondents to answer in their own terms.

They prevent respondents from giving unusual answers.

They allow respondents to put less effort into their answer.

They allow respondents to code their answers in advance.

<http://www.oup.com/uk/orc/bin/9780199284986/01student/cqs/ch10/>

Question No: 19 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behavior?

Respondents tend to answer by giving the most socially desirable answer. Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they

Question No: 20 (Marks: 1) - Please choose one

The most important characteristic of the sample in survey research is that it is:

Representative of the target population

Convenient to access

Easily observed in naturalistic settings

Large enough to compare differences between subgroups

REF:

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1490/381619.cw/index.html

Question No: 21 (Marks: 1) - Please choose one

Which of the following concerns is MOST likely to become a problem if Mr. Baber uses purposive sampling techniques?

Generalizability from the sample to the population

Statistically equal groups

Subjects participating in the study

Selection of participants who are thought to be informative, articulate, and experienced with the research topic and setting

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1488/381088.cw/index.html

http://wps.prenhall.com/chet_airasian_edresearch_8/38/9866/2525919.cw/index.html

Question No: 22 (Marks: 1) - Please choose one

The logic of purposive sampling is:

To use participants because the researcher has access to them
That a random sample can generalize to a population

That a few information-rich participants studied in depth yield many insights about a topic

To include all participants, even though they are not all relevant to the problem

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1488/381150.cw/index.html

Question No: 23 (Marks: 1) - Please choose one

Which of the following could indicate a statistically significant correlation?

0.12

0.34

-0.45

Either .34 or -.45

Question No: 24 (Marks: 1) - Please choose one

Which of the following is a characteristic of qualitative research that affects how a researcher approaches data analysis?

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

There is no single way to gain understanding of phenomena

Reality is described with language that potentially has different semantic meanings for the researcher and participants

There are many ways to report data

A measure that indicates the average performance of a group on some variable is known as;

Mean
Analysis of covariance
Chi square
Standard deviation

http://wps.prenhall.com/chet_airasian_edresearch_7/5/1491/381743.cw/index.html

Question No: 26 (Marks: 1) - Please choose one

The findings from a study of decision making processes within a Pakistani financial services company can be generalized to:

Companies all over the world
Decision making processes in all financial services companies
Decision making processes in the all Pakistani companies
Decision making processes in the researched companies

business and management researcher should be cautious of overgeneralizing findings beyond the researched organization to alternative culture

Question No: 27 (Marks: 1) - Please choose one

The study of documents used by writers is a method of _____.

Regression analysis
In-dept analysis

Content analysis

Time series analysis
(page 129)

In a way content analysis is also the study of documents through which the writerstry to communicate, though some of the documents (like population census) may simply contain figures.

Question No: 28 (Marks: 1) - Please choose one

Which of the following is an excellent way to enhance the validity of observational data collection?

Spend an extended period of time in the field.
Obtain participant trust.
Recognize your own biases.

Spend time in field, obtain participant trust, recognize biases.

Any variable that has a limited number of distinct values and which cannot be divided into fractions, is a discontinuous variable. Such a variable is also called as categorical variable or classificatory variable, or discrete variable.

Question No: 6 (Marks: 1) - Please choose one

Which of the following is not a role of hypothesis? Guides the direction of the study
Identifies relevant and irrelevant facts
Provides framework for organizing the conclusions
Determine feasibility of

conducting the study (Page 24)

Question No: 7 (Marks: 1) - Please choose one

Deductive research is useful in which of the following cases?

The researcher uses an existing theory to develop a hypothesis.
The researcher subjects a hypothesis to empirical scrutiny.

The researcher has to transform concepts within a hypothesis into researchable entities.

Use of existing theory, empirical scrutiny, transformation of concept.

The survey researcher follows a deductive approach. He or she begins with a theoretical or applied research problem and ends with empirical measurement and data analysis.

<http://www.scribd.com/doc/34923440/Chapter-01>

Question No: 8 (Marks: 1) - Please choose one

When embarking upon a research project, which of the following issues should be considered?

That the data from the study will be treated anonymously and confidentially.

Coherent research question, pilot work and confidentiality.

Pilot work should be carried out to assess the practical issues and feasibility of the research.

That the research should be based upon a coherent research question.

AR Lucky Bahi

Test-Retest Reliability

Test-retest reliability refers to the consistency of participant's responses over time (usually a few weeks, why?)

Assumes the characteristic being measured is stable over time—not expected to change between test and retest

Question No: 11 (Marks: 1) - Please choose one

Which of the following functions is performed by the Ratio scale? Categorize

Distance

Order

Unique origin

Question No: 12 (Marks: 1) - Please choose one

Which of the following is measured by the Interval

scale? Order of the object

Magnitude of the object

Categorize the object

All of the given options

On interval measurement scales, one unit on the scale represents the same magnitude on the trait or characteristic being measured across the whole range of the scale.

Question No: 13 (Marks: 1) - Please choose one

Which one of the following is not a type of scales used in measurement of concepts?

Normal

Scale Ordinal

Scale Interval

scale Ratio

Scale

Types of Measurement Scales: Nominal, Ordinal Scale, Interval scale, Ratio Scale.

Question No: 14 (Marks: 1) - Please choose one

Procedures determining which of the following two issues are rarely used in quantitative research?

Reliability and validity

Accessibility and

replicability Quality and

quantity Objectivity and

subjectivity

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

Ref: The cost and time involved in the procedures for testing reliability and validity prevent many researchers from applying them to their research.

Question No: 16 (Marks: 1) - Please choose one

Which of the following statements might assist response rates?

Please photocopy the questionnaire five times and pass on to your work colleagues.

Please make sure that the questionnaire is completed with a fountain pen.

Please read the attached journal article on the ontological foundations of positivism prior

to completing the questionnaire.

Please put the completed questionnaire in the enclosed stamped addressed envelope and place in the mail out tray.

Question No: 17 (Marks: 1) - Please choose one

What should the researcher do if they have achieved a low response rate?

Copy responses and paste them again.

Abandon the research project entirely.

Recognize and accept the possible limitations of a low response rate.

Fill in some more questionnaires themselves.

Question No: 18 (Marks: 1) - Please choose one

Which of the following is an example of a question about normative standards and values?

How many workers are employed at this plant?

What is your attitude towards the management at this plant?

Do you always cast your vote in trade union elections?

Are you aware of the main features of the European Union Directive for informing and consulting employees?

Ref: These types of questions are closely related to question about attitudes and beliefs.

Question No: 19 (Marks: 1) - Please choose one

Questions that include negatives should be avoided because:

The respondent may miss out the negative word.

The respondent may be unsure how to answer if the question includes a double negative.

The respondent may be led by the question.

All of the given options.

Ref: When using a Likert scale it can be difficult to avoid asking a question with a negative, however the researcher should attempt to avoid them if possible.

Question No: 20 (Marks: 1) - Please choose one

Which of the following is likely to happen if clear instructions are not given as to how the

respondent should answer the question?

Respondents may delete inappropriate answers rather than select appropriate ones.

Respondents may choose only one answer when they need to choose as many as

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

apply.

Respondents may complete questions that are not relevant to them.

All of the given options.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

SUBSCRIBE

AR Lucky Bahi

Ref: Clear instructions are vital as they allow for the respondent to move quickly and efficiently through the questionnaire which may in turn aid response rate.

Question No: 21 (Marks: 1) - Please choose one

Which of the following is NOT an example of a problem with using social survey research to investigate behaviour?

Respondents tend to answer by giving the most socially desirable answer.

Respondents may inadvertently omit key terms in the question.

Respondents may not give an honest reply to what they see as a threatening question.

Respondents may be unwilling to reveal information as they believe they are likely to be identified.

Question No: 22 (Marks: 1) - Please choose one

Why should a business researcher record and transcribe interviews?

It overcomes all possible ethical considerations.

The response of participants can be more readily shared with senior management.

It allows a more thorough examination of what the interviewee has said.

It allows the researcher to demonstrate his/her technical proficiency.

Ref: Having an accurate record of the interview on a tape recording means not only that analysis is easier, but also that the actual interview will not be punctuated by the researcher having to take notes.

Question No: 23 (Marks: 1) - Please choose one

Why does qualitative interviewing have an advantage over participant observation when it comes to longitudinal research?

Repeat interviews are easier to organise.

It allows for a better exploration of key issues.

It is a more focused research method.

Participant observers are prone to 'go native' during longitudinal research.

Ref: Re-visiting research sites for follow up interviews is likely to be easier than arranging a series of subsequent observations.

Question No: 24 (Marks: 1) - Please choose one

Mr. Jamil is studying the use of individualized instruction with elementary school students. He is particularly interested in understanding what problems are encountered—and how those problems are resolved—when teachers switch to this approach. Which sampling strategy is he likely to use to select his sample?

Intensity

Convenience

Purposive

Quota

Question No: 25 (Marks: 1) - Please choose one

The logic of purposive sampling is:

To use participants because the researcher has access to them.

That a random sample can generalize to a population.

AR Lucky Term

Sta630 Final Term Objective Past Papers – Quiz (1-4) Final Term

That a few information-rich participants studied in depth yield many insights about a topic.

To include all participants, even though they are not all relevant to the problem.

Question No: 26 (Marks: 1) - Please choose one

Which type of sampling strategy is exemplified by selecting specific principals because faculty and colleagues the researcher has spoken to believe them to be highly effective?
Intensity
Homogeneous

Snowball

Quota

Ref: Snowball sampling is a special non probability method used when the desired sample characteristic is rare. It may be extremely difficult or cost prohibitive to locate respondents in these situations. Snowball sampling relies on referrals from initial subjects to generate additional subjects.

Question No: 27 (Marks: 1) - Please choose one

Which of the following is NOT characteristic of qualitative data?
Rich descriptions

Concise

Voluminous

Unorganized

Ref: Qualitative data is anything but concise and succinct. ,

Question No: 28 (Marks: 1) - Please choose one

Which of the following is a drawback of a computerized analysis of data?
The likelihood of re-examination of the data is diminished.
The computer expedites the analysis of data but cannot code it.
Analysis of qualitative data is best appreciated if a researcher has some experience doing so without a computer.

Re-examination, lack of coding, analysis of qualitative data.

Question No: 64 (Marks: 1) - Please choose one

Which of the following represents this reference, "Cornett, M., Wiley, B. J., & Sankar,

S. (1998). The pleasures of nurturing, London: McMunster Publishing"?

Book by more than one author

Edited book

Book by a single author
Journal Article

Chapter in an edited book: This is an article written by single or multiple authors and is printed in the edited book. Riley, T., & Brecht, M. L. (1998). The success in mentoring process. In R. Williams (Ed.) Mentoring and career success. pp. 129-150. New York: Wilson Press.

MCQ's for QUIZ#3 ---BY ABU SULTAN---STA630---Lecture # 27 to 37	
Statement	Answer
If groups of participants are selected to represent sub-groups in the population (e.g. such as selecting an entire class of management students to be compared to a group of economics students), this is known as...	Cluster sampling
Which of the following term refers to a statistical method that can be used to statistically equate groups on a pretest or some other variable?	Analysis of covariance
Which of the following is NOT a major method of data collection?	Correlation
Which type of observer is likely to get a reasonable insight into the participant's views and develop a good rapport with him?	Participant observation
The group that receives the experimental treatment condition is called as _____	Experimental group
The final stage in the coding process is	Data cleaning
An expectant pause is a part of:	Probing
Which of the following is an example of an issue that would be checked in a pilot testing?	Logical relationship between questions
Asking neutral questions is a part of	Probing
Which of the following best defines the population of study?	The total collection of individuals about which the researcher wants to draw conclusions

A researcher wants to study the impact of average hour of study in a week on CGPA of MBA students in virtual university of Pakistan. He focused on specifically the students specialized in finance. The total of number of MBA students in VU is an example of which of the following?	Target population
Assigning numbers or other symbols to the responses, to group them into limited number of categories is called _____	Coding
Which is most likely to yield qualitative data?	Focus group
Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with woman?	How to overcome
Which of the following is not true about stratified random sampling?	Proportions in the sample
Which one of the following aspect needs to be evaluated during “Pilot Testing”?	All of the options
A census taker often collects data through which of the following?	Secondary data
Mr. Raheel is concerned about potential problems with the reliability of his observers, which strategy would you suggests he should follow?	Specification and monitoring
In frequency tables total of columns and rows are called	Marginal totals
Which of the following elements are not required for structuring Observation in Non reactive research	Accreditation
Which of the following experimental designs has only one group, a pretest, a treatment and a posttest.	One Group pretest posttest

A form of the nonequivalent comparison-group design is recommend when:	All of the
Frequency distribution technique can be used for which of the following scales?	All of the option
Which of the following issues should NOT be mentioned in an introductory statement of questionnaire?	What the fir the resear
In qusai-experimental research design, causal interpretations can be made	Only when the have been r select
All of the following are the instruction to record answers to open ended questions EXCEPT:	Use the inte own w
A numerical value calculated from population is called	Param
Coding categories should be:	Mutually e and indep
Which of the following give a more “accurate” representation of the population from which a sample has been taken?	A large samp simple ra sampl
The process of changing data from their original form to a format that is more suitable to perform data analysis is called as	Data transfo
Pilot testing can be beneficial in:	Analysis
Bar charts or graphs are used for:	Discrete v
Which of the following is not example of historical comparative research?	Turno
Which of the following is a measure in which a researcher adds or combines several distinct indicators of a construct into a single score?	Inde

SUBSCRIBE

AR Lucky Bahi

Which of the following is not something a researcher will have to consider when thinking about their sample size?	Length of question
In random sampling, the probability of selecting an item from the population is:	Known
Historians organize evidence usually in which of the following form?	Narrative
All of the given options are factors affecting internal validity of an experiment EXCEPT;	Recency
A collection of related records is called	File
Which is most likely to yield qualitative data?	Focus group
When constructing a questionnaire, it is imperative to do each of the following EXCEPT	Use "leading" or "loaded" questions
Non probability sampling is used when which of the following condition fulfills	Researcher is concerned
In experimental research, a specific event in the external environment occurring between the first and second measurement that is beyond the control of the experimenter and that affects the validity of an experiment, is termed as;	History effect
Which of the following can be referred as a Reputational sampling?	Snowball sampling
The posttest-only design with nonequivalent groups is likely to control for which of the following threats to internal validity	Difference in attributes
Which of the following is a measure of inflation?	Consumer price index
Ways to manipulate and summarize numbers that represent data from research projects is termed as:	Statistics
Which of the following experimental designs has two groups, both the groups are exposed to pretest and posttests, the experimental group is exposed to treatment while the control group is not?	Pretest and posttest experimental group design

SUBSCRIBE

AR Lucky Bahi

Which of the following describes the situation in which the control variable intervenes between the original independent variable and the dependent variables?	Interpretatio
Secondary/existing data may include which of the following?	All of the option
In an experimental research study, the primary goal is to isolate and identify the effect produced by which of the following?	Independent
Which of the following would allow me to have the MOST control over environmental variables when conducting a research study?	True exper desig
Which of the following is an advantage of open question?	They a respondents to a own
“What is the level of satisfaction in your organization?” which of the following represents the problem associated with this question?	It is an ope quest
Which of the following occurs when one partial replicate the initial bivariate relationship but other partials do not?	Specificatio
The summary description of a given variable in a population is called as:	Param
In data collection process, when a researcher has to conduct an in depth interview, which of the following tool is necessary?	Observ
The faculty members of a university consists of 85% staff with masters as highest qualification. Rest of 15% can be divided as 10% M.Phil, 4% Phd. And 1% post doctorate as highest qualification. A researcher want the sample of each category in proportion as given above. Which of the following is the best choice for him to take sample?	Quota sam
Which of the following number of variables involved in Descriptive Statistics? Bivariate Univariate Multivariate All of the given options	All of the giv

Why does qualitative interviewing have an advantage over participant observation when it comes to longitudinal research?	Repeat inter easier to o
Asking neutral questions is a part of:	Probing
Pilot study is -	A small sca
All of the following are the principles of asking interview questions, EXCEPT;	Read each rapid
Sample is subset of	Popula
An expectant pause is a part of:	Probing
How do you find comfort at your work place? Very good, good, fair, poor This question is poorly structured. In your opinion what is the problem in its design?	Ambiguity a vagueness
Which of the following best defines the population element/unit of study?	The subject measuremen take
What is the main purpose of pilot testing?	To identify proble
_____ is not an example of non-probability sampling technique	clust
Have you ever had or been treated for skin allergy? Yes, No. Which type of question is it?	Loaded q
The difference between parameter and statistics is called	Sampling
The list of all units in a population is called	Sampling

SUBSCRIBE

AR Lucky Bahi

_____ is the list of elements from which the sample is drawn	Sampling
_____ is that unit about which information is collected and which provides the basis of analysis	Elem
Which of the following can be referred as a Reputational sampling?	Snowball S
Which of the following is a measure of inflation?	Consumer P
An important issue in index construction is to _____ items	Weig
Which of the following elements of observation is/are included in Non-reactive research?	All of the optio
All of the following are stages in the selection of a sample EXCEPT;	Analyze
A stratified sample in which the number of sampling units drawn from each stratum is in proportion to the population size of the stratum is called a:	Proport stratified
Assigning males the value of zero and female the value of one in a database to record the gender of the respondent is an example of:	Codi
Arranging data in a table is called:	Tabula
When initial subjects are selected randomly and additional subjects are obtained from recommendations of names from the initial subjects, this sampling technique is called:	Snowb
When different interviewers are used in a pretest from those use in the posttest and this produces different results in the study, this is an example of:	Instrumen effe

Which of the following is a threat to the internal validity of experiment using a repeated measure design?	Instrumentation effects
Many researcher beginner researchers believe that research involves testing, treating and testing again. This is an example of:	Pre-experimental research
Which of the following sampling is least reliable but normally the cheapest and easiest to conduct:	Convenience sampling
Which of the following is a form of non-random sampling?	All of the above

	option
Which of the following has greatly facilitated the researcher to conduct tabulation and statistical analysis?	All of the above options
Sampling in qualitative research is similar to which type of sampling in quantitative research?	Purposive sampling
Which of the following is least likely to occur as an ethical problem with electronic research?	People are not able to be anonymous
All of the following are unethical issues, EXCEPT;	Seeking permission for entry
The extent to which a test provides scores that are meaningful, appropriate, or useful is referred to as;	Accuracy
Which of the following functions is performed by the Ordinal scale?	Ordering

What is the difference between interval/ratio and ordinal variables?	Ordinal variables fixed zero point
Which type of sampling strategy is exemplified by selecting two types of individuals: those who are extremely happy and those who are extremely sad?	Intens
Which of the following steps begins the analysis of qualitative data?	Describing the content and participants
Which of the following represents the most general conceptualization in qualitative data analysis?	Top
Which of the following best describes qualitative data coding?	Numerical representation concepts identified
The bivariate tables derived from trivariate table are called;	Correlation
Quasi-experimental research is used because:	Random assignment is...
Which of the following can be referred as Haphazard Sampling?	Convenience Sampling
Most threats to _____ are taken care of by the experiment's design, while most threats to _____ need to be taken care of by the designer of the experiment.	External validity validity

Which of the following is a disadvantage of focus groups?	Requires o sensitive
Mr. Ali is concerned about potential problems with the reliability of his observers. Which strategy would you suggest, he should follow? Train his observers carefully Monitor his observers in the field Specify the observational variables	All of the giv options
All of the given options	
Control in experimental research is best described as an attempt to:	Limits threat internal valid
Which of the following groups does not receive the experimental treatment condition:	Control
Experimental research builds on the principles of _____ approach more directly than do the other research techniques;	Positi
Which of the following terms best describes data that were originally collected at an earlier time by a different person for a different purpose?	Secondar
Easiest way to describe the numerical data of one variable is with a:	Frequency distribution
We compare across rows if percentage down by _____	Colum

We compare up and down in columns if percentage across _____	Row
Moderate size of table is _____	9 to
The largest percentage forms a pattern across cells is called _____ relationship	Curvili
If there is no relationship in table the cells percentage look approximately _____ across rows and columns.	Equ
A _____ relationship looks like larger percentage in the diagonal cells.	Line
Researchers read percentage table to make _____	Compar
In non-experimental research, a researcher controls for alternative explanations with _____	Statis
Alternative explanations are operationalized as a third variable called _____	Control v
Random assignment or randomization is _____	Unbia
