Here are the answers vu360:

1. Dictionary

- A book or digital collection of words, phrases, and their meanings, pronunciation, and usage.

2. Language Learning Stages

- The stages of language acquisition, including:
 - Pre-linguistic stage (babbling)
 - Phonological stage (sound recognition)
 - Morphological stage (word formation)
 - Syntactical stage (sentence structure)
 - Lexical stage (vocabulary expansion)

3. Two Phrase Structure Rule

- A rule in generative grammar that states a sentence can be divided into two phrases: a noun phrase (NP) and a verb phrase (VP).

4. Sign Linguistics and Pragmatics

- Sign linguistics: the study of sign languages, their structure, and grammar.
- Pragmatics: the study of how language is used in context to communicate effectively.

5. Standard Varieties of English

- The standardized forms of English language, including:
 - Received Pronunciation (RP)
 - General American English (GAE)
 - Standard Australian English (SAE)

6. Wave Model

- A model of language change, proposing that language changes spread like waves through a population.

7. Instruments role in Semantics

- Instruments (words, phrases, sentences) used to convey meaning in language.

8. Direct Speech Act

- A speech act that directly conveys the speaker's intention, without implication or inference.

9. Aphasia

- A language disorder resulting from brain damage, affecting language comprehension and production.

10. Language Barrier

- An obstacle to communication due to language differences or difficulties.

11. Discourse

- Language use in social contexts, including conversation, writing, and communication.

12. Sentence

- A unit of language consisting of a subject and a predicate.

13. Invisible Meaning

- The implied or inferred meaning of language, beyond the literal interpretation.

14. Surface structure

- The superficial or literal meaning of language.

15. Deep structure

- The underlying or implied meaning of language.

16. Cortex

- The part of the brain responsible for language processing and production.

17. Deixis

- Words or phrases that rely on context to convey meaning (e.g., "here", "there", "now").

18. Coherence

- The connection and consistency of language in a text or conversation.

19. Multilingualism

- The ability to speak and understand multiple languages.

20. Bilingualism

- The ability to speak and understand two languages.

21. Denotative Meaning

- The literal or dictionary definition of a word or phrase.

22. Prototype

- A central or typical example of a category or concept.
