EDU516 Glossary

- **Achievement test**

A test to measure a student's knowledge and skills. See also test.

- **Activity-based learning**

An approach to learning by doing activities and focusing on the activity rather than focusing on grammar and vocabulary. Learners do an activity in groups; e.g. they solve a problem, draw or paint a picture or make or build something. The rules of language used in the activity are looked at either after the activity or not at all. An activity-based learning approach is more common with schoolaged children.

- **Applicant**

A person who makes a formal request for a place at a college or university

- **Approach**

~ is a theory about the nature of language and how languages are learned. It is usually manifested through sets of principles which guide the choice of teaching procedures. Examples are 'the communicative approach' and 'task-based learning'.

- **Basic skills**

The skills and competences needed to function in contemporary society, e.g. listening, speaking, reading, writing and mathematics.

- **Brainstorm**

To think of ideas (usually quickly) about a topic (often noting these down). This is often done as preparation before writing or speaking activity.

- **Coherence (n.), coherent (adj.)**

When ideas in a spoken or written text fit together clearly and smoothly, and so are logical and make sense to the listener or reader.

❖ **Cohesion (n.), cohesive (adj.)**

The way spoken or written texts are joined together with logical grammar or lexis, e.g. conjunctions (Firstly, secondly), lexical sets, referring words (it, them, this).

❖ **Collaborate (v.), collaborative (adj.**

To work together. Learners often collaborate in class when carrying out tasks, which typically involves planning, creating, discussing, evaluating, etc.

❖ **Communication strategies**

Strategies for using L2 knowledge. These are used when learners do not have the correct language for the concept they wish to express. Thus they use strategies such as paraphrase and mime.

❖ **Creative thinking**

Generating new ways of looking at a situation

❖ **Differentiated instruction**

This is also referred to as 'individualized' or 'customized' instruction. The curriculum offers several different learning experiences within one lesson to meet students' varied needs or learning styles; for example, different teaching methods for students with learning disabilities. ~ is providing instruction according to the different ability levels in a classroom

❖ **ELL**

English Language Learners

❖ **ELT**

English Language Teaching or Training–A term coined in the UK and designed to replace EFL. It is in use around the world but has yet to catch on in the USA where the same phenomenon is referred to as TESOL

❖ **First Language**

mother tongue, L1/L2.

❖ **Mother Tongue**

The very first language that you learn as a baby, which is usually the language spoken to you by your parents. Also called L1 or first language. See L1/L2.
