ENG510_Glossary

1. **Accent** :A distinctive way of pronouncing a language, especially one associated with a particular country, area, or social class.
2. **Argot** :Specialized terminology in general
3. **Bilingualism** :Bilingualism (or more generally: Multilingualism) is the phenomenon of speaking and understanding two or more languages. The term can refer to individuals (individual bilingualism) as well as to an entire society (social bilingualism).
4. **Cliché** :A phrase or opinion that is overused and betrays a lack of original thought.
5. **Code mixing** :Generally refers to alternations between varieties, or codes, within a clause or phrase. Often elicits more strongly negative evaluations than alternations or code switching across clauses.
6. **Code Switching** :In its most specific sense, the alternation between varieties, or codes, across sentences or clause boundaries. Often used as a cover term including code mixing as well.
7. **Communicative Competence** :What a speaker needs to know to communicate effectively in cultural settings
8. **Constraints** :A limitation or restriction.
9. **Creole** :It is a stable natural language developed from a mixture of different languages at a fairly sudden point in time: often, a pidgin transitioned into a full, native language.
10. **Desertion** :The act of deserting or abandoning or the state of being deserted or abandoned
11. **Diachronic** :Concerned with the way in which something, especially language, has developed and evolved through time.

ENG510_Glossary

12. **Dialect** :A particular form of a language which is peculiar to a specific region or social group.
13. **Diglossia** :Classically defined as a situation where two closely related languages are used in a speech community.
14. **Diminutive Expressions** :A diminutive form (abbreviated DIM) is a word-formation device used to express such meanings; in many languages, such forms can be translated as "little" and diminutives can also be formed as multi-word constructions such as "Tiny Tim". ...
15. **Discipline** :The practice of training people to obey rules or a code of behaviour, using punishment to correct disobedience.
16. **Domain** :Situations where people typically use a particular language or type of language
17. **Gender** :The state of being male or female (typically used with reference to social and cultural differences rather than biological ones).
18. **Gravity Model** :Model of the diffusion of innovations introduced to sociolinguistics by Peter Trudgill. Social innovations (including linguistic innovations) have been observed to 'hop' between large population centers in a (spatially) discontinuous manner. At its simplest, the gravity model predicts that the larger the city/town, the sooner an innovation is likely to show up there. (i.e., the 'gravitational force' is provided by the weight of numbers of people).
19. **Greetings** :Greeting is an act of communication in which human beings intentionally make their presence known to each other, to show attention to, and to suggest a type of relationship (usually cordial) or social status (formal or informal) between individuals or groups of people coming in contact with each other.
