PREPARED BY ADIL ALVI

MTH301 FINAL TERM SUBJECTIVE QUESTIONS 2010-2020

Periodic and amplitude mcqs
1) Exact or not exact question
2) Rectangular coordinate question
3) Vector valued function question
Sep 11, 2020

Most of the question was from last 5 chapter so prepare them...
Aug 24, 2019

1) Parametric equation
2) Wallis cosine formula
3) Laplace transformation
4) and theory key questions kafi they
Sep 1, 2018

1. Determine the Fourier co-efficient a0 of the following function.
f x x x ( ) 0 2 = 2 π
2. Determine the Fourier co-efficient bn of the following function
3. Double integral
4. Prove whether the following function is even, odd or neither.
f x = x3ex
5. Curl (curl of a vector function) find krna tha
6. Rectangular coordinates find krny thy from polar coordinates given thy
X = r sin theta
Y = r cos theta formula
7. Chan rule apply krna tha
8. Use Wallis sine formula to evaluate
∫5sin x dx
9. Critical points find out krny thy
10. Odd and even function find krny thy.
Aug 19, 2017

1) 2 subjective question even, odd or neither function k bare m thy
2) 1 question grad div. K bare m tha.
3) 1 question chain rule wala tha.
Aug 18, 2017

1) long q curl find out krna tha
2) coefficient bn find krna tha
3) 3 q integral k thy different trha find out krna tha with respect to x y z
4) graph dya hua tha uska area find krna that r (2_2sintheta)
5) dive find out krna tha
6) critical point find krna tha
7) From Lecture 45 L-Palace Theorems. And some other formulas

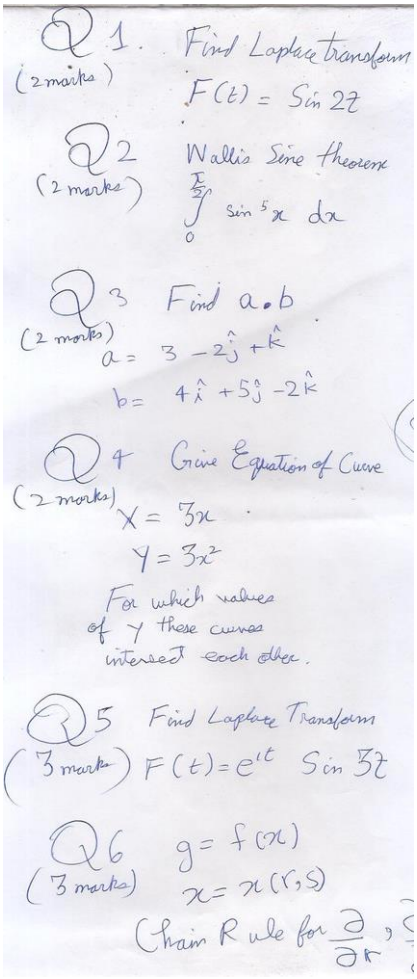

For any query feel free to ask adilalvi21@gmail.com

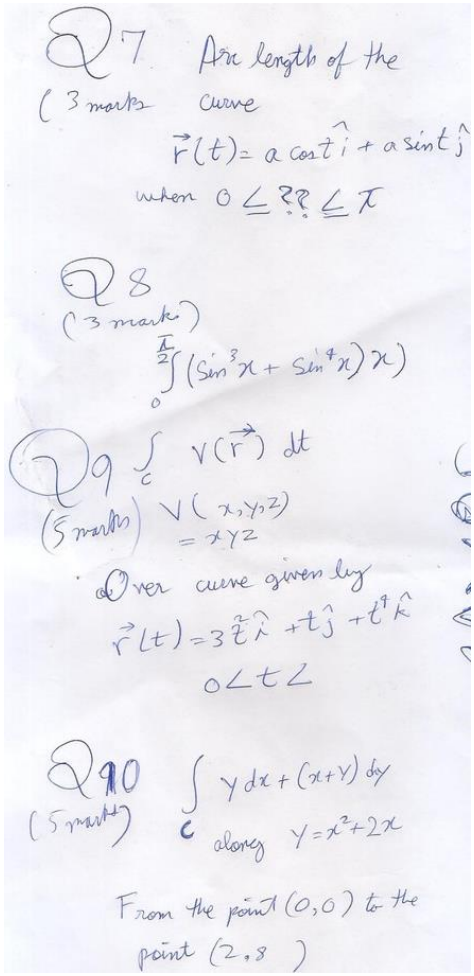

PREPARED BY ADIL ALVI

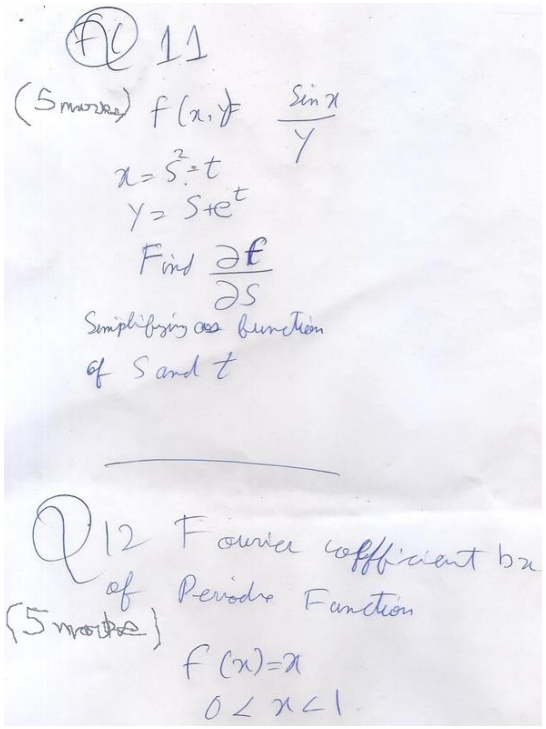

Feb 26, 2017

1) double integral tha with limits asan tha
2) divergent vector me se tha 2 Q thay
3) curl vector se bhi tha 2 Q thay
4) critical point ka bhi 1 Q tha
5) arc length se bhi 2 Q thay
6) 1 parabola ka tha symmetry btani thi

Mar 3, 2016

2015

1) There were 4 graph questions
2) A question of odd function
3) There were 3 about Laplace transform
4) 2 about Laplace inverse transform
5) 1 about domain
6) 1 coordinate related
7) 1 octant related
8) 1 was about disk equation

For any query feel free to ask adilalvi21@gmail.com

PREPARED BY ADIL ALVI

9) Equation related to who? Euler, gauss, Laplace or strokes
10) 1 about derivative
11) 1 about absolute extrema
12) 1 about double integral
13) 3 on polar equation (radius, angle)
14) 1 was about integral of sum of partial derivatives
15) 1 was about vectors
16) 1was for defining integral of partial derivative
17) Derivative was given find vector value function such that function is continuous
18) Derivative of vector value function
19) Find integral
20) Integral of circular path
21) When is vector field value constant?
22) One was to find line integral of a scalar with respect to vector
23) 1 was about Wallis sine

Aug 30, 2014

40 MCQS 95% in past papers
41) Find Laplace tranfrom. (2)
F(t) if

$F(t) = e^{3t}$

42) marks (2)

$f(x,y) = x^2 y - e^{2x}$

find

$\frac{\partial^2 f}{\partial x^2} = ?$

ans

$2xy - xe^{2x}$

43) div $\vec{F}$ **if** $\vec{F} = x^2 z\,\hat{i} + xy^2\,\hat{j} + (y+2z)\,\hat{k}$ **(2)**

44) Arc length of a curve vector valued function. (2)

$\vec{r} = \cos^2\hat{i} + \sin^2\hat{j}$

where

$0 \le t \le \frac{\pi}{2}$

2014

(2marks)
1 was about Laplace theorem
2 was I think about Laplace theorem
3 was to evaluate integral. Also something about line segment was written
4 was to use Wallis theorem
(3marks)
1. Find new integral after order is changed

For any query feel free to ask adilalvi21@gmail.com

PREPARED BY ADIL ALVI

2. F (t) = e^2t sin 3t then find Laplace
3. is this exact or not.dont remember what
4. Question about curl.

(5marks)

1. Fourier series
2. Also Fourier series
3. Chain rule
4. Evaluate integral

Aug 30, 2014

(2marks)

1) Wallis cosine formula
2) line integral
3) graph
4) prove function is even or odd

(3marks)

1) Find axb
2) find curl F
3) tangent vector
4) find Fourier coefficient (a0)

(5marks)

1) Determine whether vector field is conserved or not
2) line integral
3) 2nd partial derivative test
4) find Fourier coefficient (bn)

Aug 30, 2014

1) 3 questions from Fourier series:
2) 1 from Wallis sin theorm
3) 1 from Laplace transformation
4) 3 from vectors

Mar 1, 2013

Q1. 'r' vector diya huwa tha in terms of 't' variable aur kaha gya tha k 't' ki value find krain when both "r(t)" and "r'(t) " are perpendicular.
Q2. Aik function F diya huwa tha check krna tha k conservative hai k ni.
Q3. F (t) =1 ki Laplace equal to 1/s hoti hai is ko prove krna tha
Q4. Relative Extrema ya may b maxima ko define krna tha.
Q5. r diya huwa tha interms of sin(theta) and cos(theta) and we had to find arc-length.
Q6. periodic function ka graph diya huwa tha aur us ka function likhna tha
Q7. (x^3)(e^x) ko check krna tha k even hai ya odd
Q8. e^3x ki laplace find krna thi
Q9. f(x,y,z) diya huwa tha aur is ki tangent plane ki equation find krna thi
Q10. Definite integral of cos^6(x) from 0 to pi ki value Wallis formula se find krna thi
NO QUESTION FROM FOURIER SERIES....

Mar 1, 2013

For any query feel free to ask adilalvi21@gmail.com

PREPARED BY ADIL ALVI

1) Domain finding
2) Laplace expression
3) Will's sine formula
4) Evaluation of integrals
5) Curl finding
6) Conversion
7) .Determine the Fourier coefficients n b for a periodic function f (t) of period 2 defined by
4 (1 + t) -1 < t < 0
( )
0 0 < t < 1
8) Determine whether the following vector field F ® is conservative or not.
F(x, y, z) (4x z) i (3y z) j (y x) k
9) Find the line integral with respect to arc-length
X= t, y= 3/2e^2/3 f(x, y) 1/1+x^2 ds
Jul 20, 2013

1) Write for chain rule if, X=(1,2,3), Y=(4,5,6), Z=(2,3,4)
2) Find the periodic function for the graph
3) Find the given function is even or Odd? F(x) =-cos7x
4) the given differentiate is correct or not? Z= (2xy+6x) + (+2)
5) Find the equation of normal line (parametric function) on the surface of equation and the points are (-2, 3, 4)
6) Wallis formula to get the cosine of
7) Find the region where the function is continuous
Jul 23, 2012

Very very important chapters
Laplace Transforms
Scalar Field
Vector Filed
Periodic Functions
Fourier series
MCQs from Graph, Laplace Transforms, and integral
Feb 10, 2012

MCQ'S
1) Lecture 27 k saray graph hai wo sub k graph or equations yad ker le us me se mere 3 4 mcqs aaye the sirf graph select kerna tha ya graph diya gaya tha equation select kerni thi
2) is that exact differential or not true or false tha
3) Periods se 8 10 mcqs aaye the hame ye select kerna tha k iski equation kya hogi jo image di gae hai uska amplitude kya hai, uska period kya hai yani is tarah se question aaye the
4) Fourier series se mcqs aaye the
5) Check where function is even or odd
6) Laplace correction se 2 mcqs aaye the
7) Wallis sine formula se 2 mcqs aaye the

For any query feel free to ask adilalvi21@gmail.com

PREPARED BY ADIL ALVI

SUBJECTIVE

Q1.Evalute the double integral

Q2. Check whether the function has relative minima or relative maxima

Yaha per sub kuch diya gaya hai jese bus hame equate ker k maloom kerna hai kya hai ye either maxima or minama

Q3.find the curl of the vector function examples of page 174 handout Lecture 34.

Q4. Line integral se aik question aaya tha lecture 31 page 159,160 handout

Q5.wallis sine formula

Q6 periods se question bohat saray the.

Q7.check whether the function is even or odd

Q8. Find the limit of the function of 3 variable xyz

Q9. r (t) = (cost) i+ (sint) j+2k 0<=t<=2pi

Feb 11, 2012

1: Define alternate hypothesis 2 marks

2: Find Covariance Cov(X, Y) if var(X) =7, var(Y) =6 and correlation coefficient r between X and Y is 0.3?

3: calculate contribution rate. Fixed cost, sale price per unit and variable cost was given.

4: calculate discounted value

5: what will be y-intercept ‘b’ in the regression line Y=aX+b if Y = 9, X = 3 and a = 2?

6: Suppose a coin is flipped 3 times. What is the probability of getting two tails and one head?

7: What will be the correlation coefficient r between variables X and Y if varX=4,varY=9 and Cov(X, Y)=3
