

STUDY WITH BIRD

STUDY WITH BIRD

Final term lesson wise preparation

ENG 201

Final term PREPARATION

STUDY WITH BIRD

Lesson 21

1. Persuasive messages aim to influence audiences who are inclined to _____.
Answer: resist
2. Before writing a persuasive message, you should ask yourself what you are writing about, who you are writing to, and what you want to _____.
Answer: happen as a result
3. The four things to keep in mind about your audience when writing persuasive messages are needs and appeals, emotion and logic, credibility, and _____.
Answer: semantics
4. Emotional appeals call on human _____ and feelings.
Answer: emotions
5. Ways of gaining credibility include being enthusiastic, sincere, an expert, having good intentions, being trustworthy, and establishing _____.
Answer: common ground
6. In persuasion, the indirect approach is used, and the AIDA plan includes attention, interest, desire, and _____.
Answer: action
7. The first objective of the attention phase is to encourage your audience to hear about your problem, idea, new product, or _____.
Answer: main idea
8. A sales letter is a document designed to generate _____.
Answer: sales
9. Selling points are the most attractive features of a product, while consumer's benefits are the particular _____ that buyers will realize from those features.
Answer: advantages
10. When defining the audience for a sales letter, marketers consider demographics and _____.
Answer: psychographics

STUDY WITH BIRD

Q1. What are persuasive messages?

Answer: Persuasive messages influence the audience by informing them and growing their understanding, allowing them to choose freely. Ethical messages aim to show benefits that fulfill a true need.

Q2. What are the four aspects to keep in mind about the audience in persuasive messages?

Answer: Needs and appeals, Emotion and logic, Credibility, Semantics.

Q3. Define the AIDA plan in organizing persuasive messages.

Answer: AIDA plan has four phases: Attention (engage audience), Interest (explain relevance), Desire (show benefits), Action (suggest specific action).

Q4. What are the steps in planning a sales letter?

Answer: Determine the main idea (selling point and benefits), Define the audience (demographics and psychographics), Choose the approach and format (honest, clear, "you" attitude).

Lesson 22

1. Reports are documents which present focused, salient content to a specific _____.
Answer: audience
2. Good reports must be accurate, show the writer's good judgment, and have a responsive format, style, and _____.
Answer: organization
3. To ensure accuracy, reports should describe facts and events in _____ terms.
Answer: concrete
4. Reports should present only objective evidence and _____ conclusions.
Answer: verifiable
5. Even if a writer has personal biases, they must keep their feelings from influencing their choice of _____.
Answer: words
6. Reports can be prepared for informational, analytical, or _____ purposes.
Answer: persuasive
7. A short report is usually submitted in the form of a letter or _____.
Answer: memorandum
8. Memo format for short reports usually contains four headings: To, From, Date, and _____.
Answer: Subject

STUDY WITH BIRD

9. The four tools for giving readers an overall structure of a report are the opening, headings and lists, smooth transitions, and the _____.
Answer: ending

10. When planning short reports, the three elements influencing length and format are audience, purpose, and _____.
Answer: subject matter

Q1. What makes a good report?

Answer: A good report is accurate, shows the writer's good judgment, and has a format, style, and organization responsive to the reader's needs.

Q2. Define a short report.

Answer: A short report is an informal report, usually submitted as a letter or memo. It ranges from a single-page statement of facts to several pages, with a personal and relaxed style.

Q3. What are the types of reports based on purpose?

Answer: Informational (presents facts without analysis), Analytical (analyzes information and provides conclusions/recommendations), Persuasive (aims to sell an idea, product, or service).

Q4. What are the key elements in developing the structure of a report?

Answer: Opening (introduces subject and main ideas), Headings and lists (divides sections clearly), Smooth transitions (link ideas), Ending (cites sources and summarizes).

Lesson 23

1. The first step in planning a report is to define the _____ and purpose.
Answer: outline
2. The person who authorizes the report defines the _____ to be answered.
Answer: questions
3. A purpose statement summarizes the specific topic and _____ of a document.
Answer: goals
4. Informational reports present data and facts without analysis or _____.
Answer: recommendations
5. Analytical reports provide both information and _____.
Answer: analysis

STUDY WITH BIRD

6. Reports can be organized in different ways, including in order of importance, sequentially, _____, spatially, geographically, or categorically.

Answer: chronology

7. The preliminary outline is the first step in planning reports and can be prepared using the _____ or decimal system.

Answer: alphanumeric

8. Primary data for reports can be collected through documents, observations, or _____.

Answer: surveys

9. A work plan describes the sequence of tasks, sources of information, and restrictions of _____.

Answer: time

10. The final step in planning a report is to analyze and interpret data, draw conclusions, and develop _____.

Answer: recommendations

Q1. What are the steps in planning a report?

Answer: Define the outline and purpose, outline the issue for investigation, prepare a work plan, conduct research, analyze and interpret data, draw conclusions, and develop recommendations.

Q2. What is a statement of purpose in a report?

Answer: A statement of purpose is a declarative sentence summarizing the topic and goals of the report, specific, concise, clear, and goal-oriented.

Q3. Name the ways to organize informational reports.

Answer: In order of importance, Sequentially, Chronology, Spatially, Geography, Categorically.

Q4. How can primary data be collected for a report?

Answer: Primary data can be collected through documents, observations, or surveys.

Lesson 24

1. A formal report is divided into prefatory parts, body of report, and _____ parts.

Answer: supplementary

2. Prefatory parts of a report include title fly, title page, letters of authorization and transmittal, table of contents, and _____.

Answer: preface

STUDY WITH BIRD

3. The title page includes the title of the report, the authorizing person, the person preparing the report, and the _____.

Answer: date submitted

4. The introduction of a report summarizes the contents, describes the purpose, and gives an overview of the main _____.

Answer: ideas

5. The text of a report contains major sections or chapters that analyze and interpret the gathered _____.

Answer: material

6. The terminal section may include summary, conclusions, and _____.

Answer: recommendations

7. The appendix includes tables, pictorials, graphs, charts, or additional _____.

Answer: information

8. The bibliography lists the _____ from which data have been collected.

Answer: sources

9. A glossary is an alphabetic listing of special terms with their _____.

Answer: definitions

10. An index lists topics, divisions, and subdivisions with their _____ in the report.

Answer: location

Q1. What are the three main divisions of a formal report?

Answer: Prefatory parts, Body of report, Supplementary parts.

Q2. What is included in the introduction of a report?

Answer: Authorization, Problem/Purpose, Scope, Background, Sources and Methods, Definitions, Limitations, Report organization.

Q3. What is the purpose of the terminal section?

Answer: The terminal section summarizes findings, interprets facts without personal bias, and provides recommendations for action.

Q4. Name the supplementary parts of a formal report.

Answer: Appendix, Bibliography, Glossary, Index.

Lesson 25

STUDY WITH BIRD

1. The length of a report can vary from two paragraphs to _____ pages.
Answer: two hundred
2. Readers may want to use your report to solve organizational, social, or _____ problems.
Answer: personal
3. A general superstructure of reports contains six elements: introduction, method of obtaining facts, facts, discussion, conclusions, and _____.
Answer: recommendations
4. The introduction answers the reader's question: "What will we _____ by reading your report?"
Answer: gain
5. The method of obtaining facts explains how additional information on the subject can be _____.
Answer: obtained
6. Facts are the individual pieces of information that underlie and support your conclusions and _____.
Answer: recommendations
7. The discussion section interprets the facts in a way that is significant to the _____.
Answer: readers
8. Conclusions are general statements based on your _____.
Answer: facts
9. Recommendations grow out of conclusions and answer the question: "If your conclusions are valid, what should we _____?"
Answer: do
10. Executive summaries are addressed to _____ and summarize the report overall.
Answer: decision-makers

Q1. What are the report-writing situations?

Answer: Reports can vary from a two-paragraph report to a two-hundred-page report, based on project complexity and audience.

Q2. How do readers use the information you provide?

Answer: To solve organizational problems (increase efficiency), social problems (improve welfare), or personal problems (satisfy preferences).

STUDY WITH BIRD

Q3. What is the general superstructure of reports?

Answer: Introduction, Method of obtaining facts, Facts, Discussion, Conclusions, Recommendations.

Q4. What is the purpose of an executive summary?

Answer: It provides a concise summary of the report, usually addressed to decision-makers, highlighting key findings and recommendations.

Lesson 26

1. An empirical research report uses data derived from actual _____ or experimentation.
Answer: observation
2. Empirical research can be aimed at solving practical problems or extending _____ knowledge.
Answer: human
3. Readers of empirical research ask, "Why is the research _____ to us?"
Answer: important
4. Another common reader question is, "What were you trying to _____?"
Answer: find out
5. The superstructure of an empirical research report includes introduction, objectives, methods, results, discussion, conclusions, and _____.
Answer: recommendations
6. The introduction announces the topic of research and explains the _____ of the research.
Answer: importance
7. Objectives of research define the focus of the project and influence the choice of _____.
Answer: research method
8. The results section presents the data, often using _____ or graphs.
Answer: tables
9. The discussion section links interpretative comments with specific _____.
Answer: results
10. Conclusions explain the meaning of results in terms of original research questions and the general _____.
Answer: problem

STUDY WITH BIRD

Q1. Define empirical research report.

Answer: It reports the results of a study using data from actual observation or experimentation, to answer questions or test hypotheses.

Q2. What are the typical questions readers ask in empirical research?

Answer: Importance of research, research questions, soundness of method, results, interpretation, significance, and recommendations.

Q3. What is the purpose of the methods section in an empirical research report?

Answer: To allow readers to assess research design, understand limitations, and enable replication of the study.

Q4. What is the role of recommendations in empirical research reports?

Answer: To advise readers on practical actions based on research findings, especially when addressing practical problems.

Lesson 27

1. Feasibility reports help decision-makers choose between two or more courses of _____.

Answer: action

2. Decision-makers ask, "Why is it important for us to consider these _____?"

Answer: alternatives

3. A feasibility report evaluates alternatives using specific _____.

Answer: criteria

4. The superstructure of a feasibility report includes introduction, criteria, methods, overview, evaluation, conclusions, and _____.

Answer: recommendations

5. Methods of obtaining facts can include library research, interviews, surveys, and _____ research.

Answer: laboratory

6. Presenting criteria early helps readers understand the validity of conclusions and the _____ of the study.

Answer: scope

STUDY WITH BIRD

7. Four common types of criteria are: Will it work, Can we implement it, Can we afford it, and Is it _____?

Answer: desirable

8. The evaluation section organizes assessment around the selected _____.

Answer: criteria

9. Conclusions provide the overall assessment of the feasibility of the studied _____.

Answer: alternatives

10. Recommendations answer the decision-maker's question, "What do you think we should _____?"

Answer: do

Q1. What is the typical purpose of a feasibility report?

Answer: To help decision-makers choose between two or more alternatives to achieve a goal or solve a problem.

Q2. Why should criteria be presented early in a feasibility report?

Answer: To let readers evaluate the validity of conclusions, understand the scope, and make sense of the alternatives.

Q3. What are the four common types of criteria used in feasibility studies?

Answer: Effectiveness, implementability, affordability, and desirability of the course of action.

Q4. What is the role of the overview of alternatives section?

Answer: To ensure readers understand each alternative before detailed evaluation.

Lesson 28

1. A progress report states the progress made towards the goal during the reporting period, discusses significant costs and scheduling issues, and lists _____ objectives to be carried out.

Answer: future

2. Project _____ and accountability are the main objectives of a progress report.

Answer: monitoring

3. Progress reports can be prepared to tell your readers about your progress on _____ project or on all your projects.

Answer: one

STUDY WITH BIRD

4. Almost all progress reports have readers primarily concerned with the _____.

Answer: future

5. Readers of progress reports ask “What work does your report cover?” and “What is the _____ of the work?”

Answer: purpose

6. The conventional superstructure for writing progress reports includes Introduction, Facts, Discussion, Conclusions, and _____.

Answer: Recommendations

7. In the discussion section, you answer questions such as “Is your work progressing as _____?”

Answer: planned

8. When organizing the discussion, material can be arranged around _____ periods.

Answer: time

9. Findings are important to readers because they may involve information that can be used _____ by others.

Answer: right away

10. Recommendations in a progress report may be directed at overcoming _____ in the future.

Answer: problems

1. Define Progress Report:

A progress report states the progress made towards the goal during the reporting period, discusses significant costs and scheduling issues, and lists future objectives to be carried out.

2. What are the typical writing situations for progress reports?

Progress reports are written either to tell readers about progress on one particular project or to summarize work on all projects over regular intervals.

3. Why are readers concerned with the future in progress reports?

Readers use information about past accomplishments and problems to plan for future actions, manage projects, and coordinate with interdependent projects.

4. What are the main elements of the superstructure for progress reports?

Introduction, Facts, Discussion, Conclusions, and Recommendations.

STUDY WITH BIRD

1. A proposal is a special type of _____ report designed to get products, plans, or projects accepted by outside business or government clients.
Answer: analytical
2. Proposal readers are considered cautious _____ because they invest resources like time and money.
Answer: investors
3. Readers of proposals often ask about the _____ of the work and why it is important.
Answer: problem
4. The conventional superstructure for proposals includes Introduction, Problem, Solution, and _____.
Answer: Costs
5. Proposal readers want to know if the proposer is _____ to deliver the expected results.
Answer: capable
6. In describing the product, you should explain how you reach objectives, provide enough _____, and explain the desirability of the product.
Answer: details
7. When writing proposals, the schedule is often presented using a _____ chart.
Answer: schedule
8. Discussion of qualifications assures readers that the personnel involved have the required _____ and capability.
Answer: experience
9. When proposing a project that involves multiple people, describing the _____ structure increases persuasiveness.
Answer: management
10. Proposals may vary in length from less than a page to _____ of pages.
Answer: hundreds

1. **Define Proposal:**

A proposal is a special type of analytical report designed to get products, plans, or projects accepted by outside business or government clients.

2. **Why are proposal readers called investors?**

Because they invest resources like time and money in the proposed plan and make careful decisions knowing their resources are limited.

STUDY WITH BIRD

3. **What are the main questions readers ask in proposals?**

Readers ask about the problem, the solution, the costs, and the capability of the proposer to carry out the work.

4. **What is the conventional superstructure for proposals?**

It includes Introduction, Problem, Objectives, Product, Method, Resources, Schedule, Qualification, Management, and Costs.

LESSON 30

1. The simplest instructions are only a few _____ long.

Answer: sentences

2. Instructions written by General Electric, Rolls Royce, and McDonnell Douglas are _____ and highly complex.

Answer: hundreds—or even thousands of pages long

3. While writing instructions, you should remember that instructions shape _____ of the readers.

Answer: attitudes

4. A good _____ design is essential in instructions.

Answer: visual

5. Instructions often need to be _____ to ensure they work for the intended audience.

Answer: tested

6. Readers often dislike using instructions and may try to do the job using _____.

Answer: common sense

7. In instructions, page design helps readers easily find the next _____.

Answer: step

8. Visual aids can be more economical than words in showing readers the _____ of the machine.

Answer: parts

9. The conventional superstructure for instructions includes introduction, description of equipment, theory of operations, lists of materials and equipment, and _____.

Answer: guide to troubleshooting

10. Directions in instructions should use the _____ voice and imperative mood.

Answer: active

STUDY WITH BIRD

1. **Define Instructions.**

Answer: Instructions are communications written to help readers perform a task and guide them through a procedure clearly and effectively.

2. **Types of information included in the superstructure of instructions?**

Answer: Introduction, Subject, Aim, Intended Readers, Scope, Organization, Usage, Motivation, Background, Description of Equipment, Theory of Operation, List of Materials and Equipment, Directions.

3. **Why is testing instructions indispensable?**

Answer: Testing ensures the instructions work for the intended audience and prevents errors, accidents, or misunderstandings.

4. **What is the role of visual design in instructions?**

Answer: Visual design helps readers quickly find steps, understand connections, and encourages them to use the instructions effectively.

LESSON 31

1. Visual aids are instructional aids that present information _____.

Answer: visually

2. Visual aids can include posters, scale models, graphs, tables, diagrams, flow charts, or _____.

Answer: videotapes

3. Some airlines use sheets that are completely _____ for emergency instructions.

Answer: wordless

4. When using a program to make a line graph, you must decide which variable goes on the horizontal and which on the _____ axis.

Answer: vertical

5. Visual aids can clarify relationships among _____ data.

Answer: numerical

6. Visual aids can make detailed information easy to _____.

Answer: find

7. You should consider your readers' _____ when choosing visual aids.

Answer: attitudes

8. Visual aids should be kept _____ to avoid confusion.

Answer: simple

STUDY WITH BIRD

9. Titles of visual aids should be _____ yet informative.

Answer: brief

10. You should fully integrate visual aids with your _____ to create a unified message.

Answer: prose

1. **Define Visual Aids.**

Answer: Visual aids are instructional tools like posters, graphs, diagrams, or videos that present information visually to enhance understanding.

2. **Why should visual aids be simple?**

Answer: To avoid confusion and communicate information clearly without overwhelming the reader.

3. **How can visual aids support arguments?**

Answer: By providing clear evidence visually, such as graphs or tables, to persuade the audience.

4. **How should visual aids be integrated with prose?**

Answer: Introduce them in the text, state the conclusions to draw, and make them easy to locate.

LESSON 32

1. A _____ is one of the most versatile and widely used visual aids.

Answer: table

2. In a table, information is arranged in rows and _____.

Answer: columns

3. A _____ represents numerical quantities using rectangles called bars.

Answer: bar graph

4. Pictographs use _____ instead of bars to represent quantities.

Answer: drawings

5. Line graphs show how one quantity changes as a function of another or _____.

Answer: variable

6. Pie charts depict the composition of a _____.

Answer: whole

STUDY WITH BIRD

7. Diagrams depict subjects more _____ than drawings.

Answer: abstractly

8. Flow charts use geometric shapes and arrows to represent _____ of events.

Answer: succession

9. Organizational charts show the hierarchy and reporting relationships in an _____.

Answer: organization

10. Schedule charts show major steps in a project and tell when they will be _____.

Answer: performed

1. **List 12 types of visual aids.**

Answer: Tables, Bar graphs, Pictographs, Line graphs, Pie charts, Photographs, Drawings, Diagrams, Flow charts, Organizational charts, Schedule charts, Budget statements.

2. **Why use a pictograph?**

Answer: To make data visually interesting and emphasize practical consequences of the quantities.

3. **Difference between a diagram and a drawing?**

Answer: Drawings show actual appearance; diagrams depict subjects more abstractly to convey complex information.

4. **Purpose of budget statements in visual aids?**

Answer: To show how money will be gained or spent, explain expenses, summarize savings, or report costs.

LESSON 33

1. Specifications are the most important documents in the _____ phase of computer industry work.

Answer: design

2. Requirement specifications result from _____ research.

Answer: market

3. Functional specifications form the basis for precise _____ specifications.

Answer: design

4. Design specifications are used as the basis for test plans and _____ documentation.

Answer: user

STUDY WITH BIRD

5. Test specifications contain a step-by-step description of the _____ procedure.

Answer: testing

6. An abstract condenses the entire report focusing on what was done, what was found out, and its _____.

Answer: significance

7. The table of contents contains headings and _____ of the report with page numbers.

Answer: subheadings

8. The discussion section contains an analysis of _____ issues important to the report.

Answer: technical

9. Recommendations in a report tell readers what to do with the information provided and are _____.

Answer: optional

10. Appendices include derivations of equations, raw data, and sample _____.

Answer: calculations

1. **Define Requirement Specifications.**

Answer: Specifications based on market research, describing what the product should do, its functions, and approximate cost.

2. **What is included in Functional Specifications?**

Answer: Functional description, configuration, physical characteristics, standards, risks, cost targets, maintenance, resources, documentation, glossary.

3. **Purpose of Design Specifications.**

Answer: Provide detailed information for creating the product, guiding test plans, and developing user documentation.

4. **What is the role of an Analysis Report?**

Answer: To analyze technical issues, present evidence, conclusions, and optional recommendations in a structured and flexible format.

Lesson 34

1. Writer's block is the experience of getting _____ while writing.

Answer: stuck

STUDY WITH BIRD

2. One factor of writer's block is _____ of information.

Answer: lack

3. Poorly defined _____ makes writing more difficult and may block it altogether.

Answer: purpose

4. A poorly analyzed _____ can also be a source of writer's block.

Answer: audience

5. Lack of _____ in your writing abilities is a common factor of writer's block.

Answer: confidence

6. Organizational problems are discovered during the _____ phase.

Answer: editing

7. Accurate _____ enhances communication but does not ensure it.

Answer: punctuation

8. Readability is the likelihood that an audience will be able to read and _____ a piece of documentation.

Answer: comprehend

9. The formula used to measure readability by locating the audience on a grade scale is called _____.

Answer: Gunning's Fog Index

10. One of the four basic sentence structures is subject-verb-object, abbreviated as _____.

Answer: SVO

1. **Define Writer's Block.**

Answer: Writer's block is the experience of getting stuck while writing due to factors like lack of information, poorly defined purpose, poor audience analysis, or lack of confidence.

2. **What are the steps to edit your work?**

Answer: Editing involves improving: 1) Organizational logic, 2) Mechanical development of the topic, 3) Writer's style, 4) Quality of the manuscript.

3. **List four types of sentence structures.**

Answer: 1) Subject-verb (SV), 2) Subject-verb-object (SVO), 3) Subject-linking verb-complement (SLVC), 4) Subject-verb-indirect object-object (SVIO).

STUDY WITH BIRD

4. **What is Gunning's Fog Index used for?**

Answer: It is a formula used to determine the readability of a text by estimating the grade level required to understand it.

Lesson 35

1. Paragraph _____ ensures that all sentences relate to a single topic.

Answer: unity

2. Paragraph _____ ensures that sentences flow logically from one to another.

Answer: coherence

3. _____ words and phrases are used to link ideas between sentences and paragraphs.

Answer: Transitional

4. Linking pronouns improve paragraph _____.

Answer: coherence

5. Repetition of _____ helps emphasize the main idea.

Answer: key words

6. Paragraphs can be developed using exemplification, narration, process, and _____.

Answer: description

7. Analogy explains one object or process in terms of _____.

Answer: another

8. Cause and effect paragraphs show how one event is influenced or _____ by another.

Answer: caused

9. Classification and division organize material by grouping or _____ it into parts.

Answer: breaking

10. Enumeration is used to _____ a series or list of items.

Answer: itemize

1. **Define Paragraph Unity.**

Answer: Paragraph unity means all sentences in a paragraph relate directly to the main topic, supporting a single idea.

STUDY WITH BIRD

2. **What is the purpose of Transitional Words and Phrases?**

Answer: They link ideas between sentences and paragraphs to improve flow and coherence.

3. **List three methods of Paragraph Development.**

Answer: 1) Exemplification, 2) Narration, 3) Process (also includes description, analogy, cause and effect, comparison and contrast, classification, definition, analysis, and enumeration).

4. **Explain Enumeration in paragraph writing.**

Answer: Enumeration is a technique used to list items or points systematically to emphasize and organize a series of observations.

Lesson 36

1. Stacked modifiers and nouns can be hard to read and sometimes create _____.

Answer: ambiguity

2. Wordiness should be avoided by saying what you have to say in as _____ words as possible.

Answer: few

3. Active verbs make for _____ prose, while passive verbs use more words.

Answer: concise

4. Turning verbs into nouns unnecessarily is called _____.

Answer: nominalization

5. Avoid unnecessary _____, especially when modifiers repeat information.

Answer: repetition

6. Sentences that contain more information than the reader can easily follow are called _____ sentences.

Answer: overloaded

7. A sentence missing a subject, a verb, or both but punctuated as a complete sentence is a _____.

Answer: sentence fragment

8. Linking two independent clauses with just a comma is known as a _____.

Answer: comma splice

9. A sentence where two independent clauses run together without punctuation or conjunction is called a _____ sentence.

Answer: fused

STUDY WITH BIRD

10. Pronouns must agree in gender and number with their _____.

Answer: antecedents

1. **Define Passive Voice and Active Voice.**

Answer: Active voice uses verbs that emphasize the performer of the action and creates concise prose. Passive voice de-emphasizes or eliminates mention of the performer and uses more words.

2. **Define Nominalizations.**

Answer: Nominalizations are noun forms created from verbs that can make writing wordy because they require both a noun and a verb instead of just using the verb form.

3. **Factors causing Wordiness.**

Answer: Excessive passive voice, excessive nominalization, unnecessary repetition, and unnecessary words or phrases cause wordy writing.

4. **What is Agreement in sentences?**

Answer: Agreement is the consistency between subjects and verbs, and pronouns and their antecedents, ensuring coherence, grammar, and clarity.

Lesson 37

1. Parallelism ensures that parts of a sentence that are the same in function are also the same in _____.

Answer: structure

2. Using too many short sentences creates _____ prose.

Answer: choppy

3. A modifier placed incorrectly can create a _____ in meaning.

Answer: ambiguity

4. A modifier whose connection to the sentence is implied but not explicit is called a _____ modifier.

Answer: dangling

5. Using two negative words to express a negative idea creates a _____.

Answer: positive

STUDY WITH BIRD

6. Shifts in tense, mood, person, or voice without reason are called _____ shifts.

Answer: inappropriate

7. A comparison missing the item being compared with is called an _____ comparison.

Answer: incomplete

8. Pronoun reference identifies a pronoun with its intended _____.

Answer: antecedent

9. A pronoun can appear in _____, _____, or possessive case.

Answer: subjective, objective

10. To emphasize that an event occurred before another, use a form of the perfect auxiliary _____.

Answer: have

1. **Define Dangling Modifier.**

Answer: A dangling modifier is a word or phrase whose intended connection to a sentence is not made explicit, causing confusion.

2. **Define Sequence of Tenses.**

Answer: Sequence of tenses is the accurate choice of verb tenses to express the timing or order of events described in a sentence or paragraph.

3. **Factors causing Inappropriate Shifts.**

Answer: Inconsistent use of tense, mood, person, or voice within a sentence or paragraph without justification causes inappropriate shifts.

4. **What is Parallelism in writing?**

Answer: Parallelism is the principle that parts of a sentence or items in a list of the same function should have the same grammatical structure.

Lesson 38

1. Clear writing uses specific, carefully chosen words rather than _____ language.

Answer: abstract or general

2. Using too little detail leads to _____ language.

Answer: vague

3. Using unnecessarily fancy words is called _____ language.

Answer: ornate

STUDY WITH BIRD

4. Words that convey specialized meanings in technical writing are called _____ terms.

Answer: technical

5. Language biased on sex, age, or ethnicity is called _____ language.

Answer: biased

6. Use commas to separate items in a _____.

Answer: series

7. A modifier that adds nonessential information is called a _____ modifier.

Answer: nonrestrictive

8. Place a comma after _____ clauses or introductory phrases.

Answer: introductory

9. Periods are used to end _____ or imperative sentences.

Answer: declarative

10. Place commas inside _____ but outside parentheses.

Answer: quotation marks

1. **Define Technical Terms.**

Answer: Technical terms are specialized words used in a field to convey concentrated meanings built up over long study.

2. **Define Biased Language.**

Answer: Biased language refers to words or expressions that could show prejudice based on sex, age, ability, or ethnicity.

3. **Rules for Using Commas with Introductory Elements.**

Answer: Use a comma after transitional words, phrases, or introductory clauses to separate them from the main sentence.

4. **Difference between Abstract, Vague, and Ornate Language.**

Answer: Abstract language is general and nonspecific, vague language lacks necessary detail, and ornate language uses unnecessarily fancy words.

LESSON 39

STUDY WITH BIRD

1. Use colons to introduce and emphasize _____, quotations, and explanations.

Answer: lists

2. Colons are used to express _____.

Answer: ratios

3. Use a semicolon to join two _____ clauses.

Answer: independent

4. A question mark is used to end an _____ sentence.

Answer: interrogative

5. Exclamation points in technical writing are used to end _____ statements.

Answer: warning or caution

6. Apostrophes are used to form the _____ case of nouns.

Answer: possessive

7. Quotation marks are used to indicate direct _____ from other documents.

Answer: quotations

8. Hyphens link compound _____, compound modifiers, and certain prefixes.

Answer: nouns

9. Dashes indicate abrupt _____ in thought or to set off elements.

Answer: shifts

10. Brackets are used to set off _____ references, comments, or corrections.

Answer: explanatory

1. **Define colon.**

Answer: A colon is a punctuation mark used to introduce lists, quotations, explanations, ratios, and to separate titles from subtitles.

2. **Define semicolon.**

Answer: A semicolon is used to join two independent clauses or to separate sentence elements that contain commas.

3. **List three types of hyphen usage.**

Answer: 1) To link compound nouns, 2) to link compound modifiers, 3) to connect prefixes to nouns.

STUDY WITH BIRD

4. When are parentheses used?

Answer: Parentheses are used to enclose qualifying details or entire sentences that add relevant but non-essential information.

LESSON 40

1. The first words of sentences and proper names should be _____.

Answer: capitalized

2. Italics are used to emphasize foreign words, terms, or _____.

Answer: titles of journals and books

3. Always abbreviate certain words such as Mr., Ms., B.A., and _____.

Answer: Ph.D.

4. Acronyms are formed by combining letters of the _____ words.

Answer: principal

5. In scientific writing, numbers are usually written in _____ numerals.

Answer: Arabic

6. Numbers less than one in scientific writing are preceded by a _____.

Answer: zero

7. Tables and figures are numbered sequentially as Table 1, Table 2, and _____.

Answer: Table 3

8. Symbols should be used consistently and explained when _____.

Answer: unfamiliar

9. Equations should be integrated into the body of the document and include _____.

Answer: explanation of terms

10. When proofreading, be careful with British and American English _____.

Answer: spellings

1. Define capitalization.

Answer: Capitalization is writing the first word of a sentence, proper names, and important words in titles with a capital letter.

2. Define acronyms.

Answer: Acronyms are abbreviations formed from the first letters of principal words to shorten phrases.

STUDY WITH BIRD

3. **What are the rules for using numbers in scientific writing?**

Answer: Use Arabic numerals for both cardinal and ordinal numbers; use zero for numbers less than one; spell out numbers in non-technical prose.

4. **When should italics be used?**

Answer: Italics are used for titles of books and journals, foreign words, emphasized terms, and names of specific vessels.

LESSON 41

1. Oral communication satisfies people's need to be part of the _____.

Answer: human community

2. The two key skills to improve in oral communication are speaking and _____.

Answer: listening

3. Active listening involves giving full attention and using _____ signals.

Answer: verbal and non-verbal

4. Content listening focuses on understanding and retaining _____.

Answer: information

5. Critical listening involves analyzing _____ and making a judgment.

Answer: opinion

6. Active listening can be improved by maintaining _____ contact.

Answer: eye

7. Interviews can be categorized as job, informative, persuasive, exit, evaluation, _____.

Answer: counseling, conflict-resolution, disciplinary, and termination interviews

8. Listening supports effective relationships and enhances _____ delivery.

Answer: organizational

9. When listening, it is important to avoid distractions and exercise your _____.

Answer: mind

10. Telephone communication should be planned using agendas, faxes, and _____.

Answer: consolidated calls

1. **Define active listening.**

Answer: Active listening is fully concentrating on the speaker, using all senses, and giving feedback to ensure understanding.

STUDY WITH BIRD

2. **What are the three types of listening?**

Answer: Content listening, critical listening, and active listening.

3. **List four purposes of interviews.**

Answer: 1) Obtain information, 2) solve a problem, 3) create goodwill, 4) persuade action.

4. **What is the importance of oral communication in organizations?**

Answer: It helps build morale, establish group identity, and transmit subtle messages through facial expressions, gestures, and tone.

Lesson 42

1. Planning an interview is similar to planning any other form of _____.

Answer: communication

2. Even as an interviewee, you can gain control over the conversation by anticipating the _____ and planning your answers.

Answer: interviewer's questions

3. Open-ended questions invite the interviewee to offer an _____, not just a yes, no, or one-word answer.

Answer: opinion

4. Direct open-ended questions suggest a _____ and call for an explanation.

Answer: response

5. Closed-ended questions require _____ or short responses.

Answer: yes or no answers

6. Questions that mirror a respondent's previous answer are called _____ questions.

Answer: restatement

7. Good interviews have an opening, a body, and a _____.

Answer: close

8. Members who assume self-oriented roles are motivated mainly to fulfill _____.

Answer: personal needs

9. A group that meets regularly develops unwritten rules governing the behavior of the members called _____.

Answer: group norms

STUDY WITH BIRD

10. The process of group decision-making passes through four phases: orientation, conflict, emergence, and _____.

Answer: reinforcement

1. **Define Interview Planning.**

Planning an interview involves stating your purpose, analyzing the other person, formulating your main idea, and deciding on length, style, and organization.

2. **Types of Interview Questions.**

Open-ended, direct open-ended, closed-ended, and restatement questions.

3. **Explain Self-Oriented Roles.**

Self-oriented roles focus on personal needs, such as controlling, withdrawing, attention-seeking, and diverting, which are less productive.

4. **Purpose of Group Norms.**

Group norms guide member behavior, encourage conformity, and support productivity or, in some cases, groupthink.

Lesson 43

1. Speeches and presentations can be categorized according to their _____.

Answer: purpose

2. When your purpose is to persuade, you generally begin by providing _____ that increase audience understanding.

Answer: facts and figures

3. Analyzing your audience helps you decide the _____ and content of your speech.

Answer: style

4. The main idea is the one-sentence generalization that links your subject and _____ to the audience.

Answer: purpose

5. For a short speech of ten minutes or less, use the _____ approach if the subject involves routine information or good news.

Answer: direct

6. The average speaker delivers about _____ words per minute.

Answer: 125 to 150

STUDY WITH BIRD

7. A small group allows a more _____ approach encouraging audience participation.

Answer: casual

8. Establishing credibility is important because a speaker with high credibility is more _____.

Answer: persuasive

9. Previewing the presentation helps the audience understand the _____.

Answer: message framework

10. A speech or presentation can accomplish several purposes _____.

Answer: simultaneously

1. Define Purpose of a Speech.

The purpose determines the content, style, and audience participation of the speech or presentation.

2. Factors in Analyzing the Audience.

Consider audience size, composition, prior knowledge, attitude, and relationship with the speaker.

3. How to Establish the Main Idea.

Focus on the big picture, find a one-sentence generalization, and relate it to audience interest.

4. Explain the Importance of Previewing.

Previewing the presentation adds authority, clarifies structure, and helps the audience understand the main points.

Lesson 44

1. The bulk of your speech is devoted to the discussion of the _____ points in your outline.

Answer: main

2. Transitional words like “therefore” and “because” show how ideas are _____.

Answer: related

3. To maintain attention, relate your subject to the audience’s _____.

Answer: needs

4. The close should take about _____ percent of the total time.

Answer: 10

5. Restate the main points during the _____.

Answer: close

STUDY WITH BIRD

6. Visual aids help the audience absorb and _____ information.

Answer: remember

7. Text visuals should not exceed _____ lines with six words per line.

Answer: six

8. Visual aids should illustrate only the _____ points.

Answer: main

9. The style of a speech depends on audience size, subject, purpose, budget, and _____.

Answer: time available

10. Encouraging participation in small groups requires _____ and observation.

Answer: listening skills

1. **How to Hold Audience Attention?**

Relate subject to audience needs, show relevance, and introduce variety in presentation.

2. **Explain the Question-and-Answer Period.**

It allows interaction, clarifies points, and engages the audience during or after the speech.

3. **Guidelines for Designing Visual Aids.**

Keep them simple, illustrate only main points, use clear type, and one idea per visual.

4. **How to End a Speech Effectively?**

Restate key points, outline next steps, keep it positive, and avoid introducing new ideas.

Lesson 45

1. Modes of delivering business messages include _____, memoranda, letters, reports, and emails.

Answer: written communication

2. Reader-centered writing focuses on _____ and the needs of the audience.

Answer: understanding the reader

3. The first step in writing a resume is _____, which involves stating your career goals.

Answer: defining your objectives

STUDY WITH BIRD

4. In audience analysis, one must determine the audience's _____ and purpose in reading the document.

Answer: expertise

5. The 7 Cs of communication include clarity, _____, coherence, and conciseness.

Answer: accuracy

6. When planning business messages, it is important to establish the main _____ of the message.

Answer: idea

7. A memorandum is typically used _____ an organization to establish a record.

Answer: within

8. The indirect approach in writing bad news messages is used to _____ the audience to accept the message.

Answer: prepare

9. Feasibility reports present criteria, overview alternatives, evaluate options, and _____ obviously unsuitable alternatives.

Answer: dismiss

10. Visual aids such as tables, graphs, diagrams, and charts are used to _____ communication objectives.

Answer: achieve

1. **Define Reader-Centered Writing.**

Answer: Reader-centered writing focuses on the needs, interests, and expectations of the audience. It ensures clarity, conciseness, and relevance in communication.

2. **List the steps for Writing a Letter of Application.**

Answer: Defining your objectives, planning, drafting, evaluating, revising.

3. **What are the main components of a letter of recommendation?**

Answer: Head, Body, Footer, and Headings.

4. **What is the importance of using visual aids in communication?**

Answer: Visual aids help make complex information understandable, support key points, and improve reader comprehension.
