Question # 2 of 10 (Start time: 10:54:49 AM, 01 July 2024)

The summary description of a given variable in a population is called as:

Select the correct option

○	Statistic
◉	Parameter
○	Sampling unit
○	Observation unit

Question # 5 of 10 (Start time: 10:56:52 AM, 01 July 2024)

Which of the following is an example of a dilemma that might face feminist business researchers conducting qualitative interviews with women?

Select the correct option

- ○ What role to adopt when interviewing male managers?
- ◉ How to overcome the issue of false consciousness?
- ○ How many female employees should be interviewed for a representative sample?
- ○ What data to use when publishing findings?

Question # 5 of 10 (Start time: 10:56:52 AM, 01 July 2024)

Which of the following is an example of a dilemma that might face feminist busi ess re

Select the correct option

○	What role to adopt when interviewing male managers?
●	How to overcome the issue of false consciousness?
○	How many female employees should be interviewed for a representative s nple
○	What data to use when publishing findings?

Question # 3 of 10 (Start time: 10:55:41 AM, 01 July 2024)

If, after pilot testing, a researcher finds that questionnaire is unable to reveal all the facts the re arch

Select the correct option

○	Data analysis may get wrong
○	Sampling issues may arise
●	Researcher may not be able to capture the required variables
○	Respondents may lose interest

Question # 4 of 10 (Start time: 10:56:13 AM, 01 July 2024)

Which of the following best defines the population element/unit of study?

Select the correct option

○	The subject on which the measurement is being taken
○	Some selected elements from a population through which we can draw conclusion abou
●	The total collection of elements about which we wish to make some inferences
○	The count of all elements in a population

Question # 1 of 10 (Start time: 10:54:09 AM, 01 July 2024)

People who are volunteer, available are used in the sampling method called _____.

Select the correct option

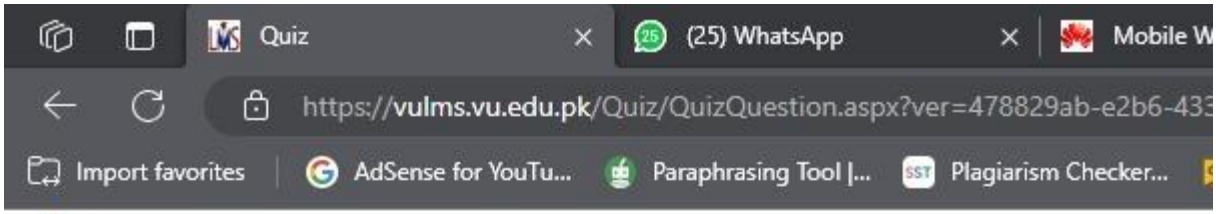

○	Systematic sampling
◉	Convenience sampling
○	Cluster sampling
○	Simple random sampling

Question # 9 of 10 (Start time: 10:59:29 AM, 01 July 2024)

You wish to make a precise estimate about the characteristics of a population c ndiv

Select the correct option

○	Quota sampling
◉	Probability sampling
○	Accidental sampling
○	Snowball sampling

The list of all units in a population is called

Select the correct option

- ○ Statistic
- ◉ Sampling Frame
- ○ Parameter
- ○ Random sampling

Question # 3 of 10 (Start time: 11:45:29 AM, 01 July 2024)

In which of the following sampling methods People are available such as volunt r or

Select the correct option

- ○ Simple random sampling
- ◉ Convenience sampling
- ○ Systematic sampling
- ○ Cluster sampling

Question # 5 of 10 (Start time: 11:46:32 AM, 01 July 2024)

In cluster sampling, subgroups are:

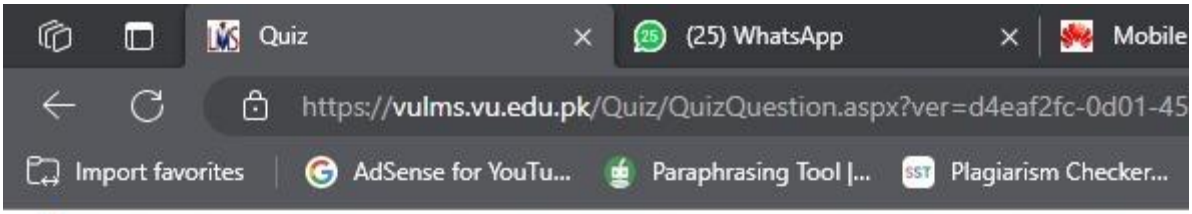

Select the correct option

○	Internally homogenous
○	None of the given option
○	Externally homogenous
◉	Externally heterogeneous

In which of the following Tests, we give extra training to the interviewer in case of ig re

Select the correct option

- ○ T- Test
- ○ Test Run
- ○ Post Hoc Test
- ◉ Pilot Test

Which of the following is NOT a form of non-probability sampling?

Select the correct option

- (●) Stratified sampling
- ( ) Snowball sampling
- ( ) Quota sampling
- ( ) Purposive sampling

Question # 9 of 10 (Start time: 11:25:52 AM, 01 July 2024)

_____ is the list of elements from which the sample is drawn.

Select the correct option

○	Population
○	Observation unit
○	Sampling unit
◉	Sampling frame

Question # 8 of 10 (Start time: 11:25:30 AM, 01 July 2024)

In random sampling, the probability of selecting an item from the population is

Select the correct option

○	Undecided
○	Zero
●	Known
○	Unknown

Question # 7 of 10 (Start time: 11:25:04 AM, 01 July 2024)

The summary description of a given variable in a population is called as:

Select the correct option

○	Sampling unit
◉	Parameter
○	Statistic
○	Observation unit

Question # 6 of 10 (Start time: 11:23:37 AM, 01 July 2024)

A researcher has taken random sample from the population divided on the bas of le he is using?

Select the correct option

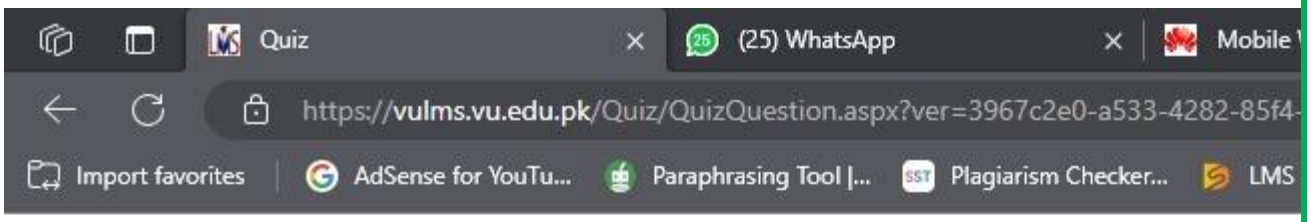

◉	Stratified random sampling
○	Simple random sample
○	Systematic sampling
○	Cluster sampling

Question # 5 of 10 (Start time: 11:23:19 AM, 01 July 2024)

Asking neutral questions is a part of:

Select the correct option

○	Verbal communication
◉	Probing tactics
○	Recording the responses
○	In house training

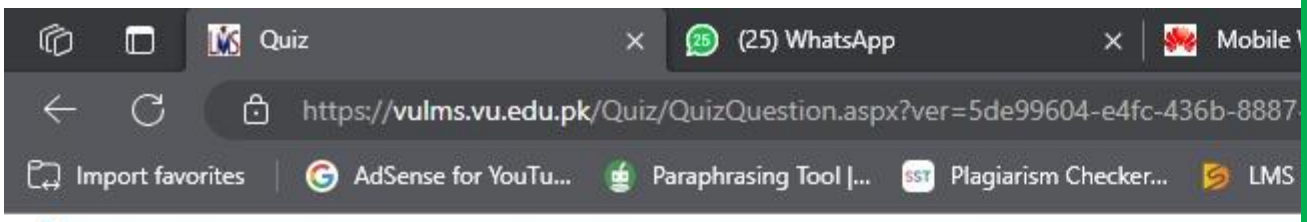

Question # 4 of 10 (Start time: 11:22:20 AM, 01 July 2024)

Which of the following provides insight into the complexity of using interviews?

Select the correct option

- (●) Accuracy, influences and language used
- ( ) Potential influence of gender or cultural differences between interviewer a
- ( ) The accuracy of the interviewee's responses
- ( ) The different semantic meanings of the language being used

Which of the following best defines the population of study?

Select the correct option

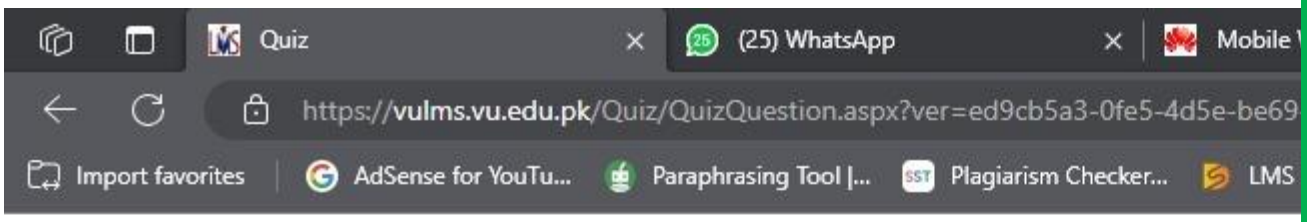

- (●) The total collection of elements about which we wish to make some inferences
- ( ) The subject on which the measurement is being taken
- ( ) Some selected elements from a population through which we can draw conclusions
- ( ) None of the given option

If, after pilot testing, a researcher finds that questionnaire is unable to reveal all the fac is not modified?

Select the correct option

○	Sampling issues may arise
○	Data analysis may get wrong
○	Respondents may lose interest
●	Researcher may not be able to capture the required variables

Question # 6 of 10 (Start time: 11:15:58 AM, 01 July 2024)

If groups of participants are selected to represent sub-groups in the population .g. s group of economics students), this is known as...

Select the correct option

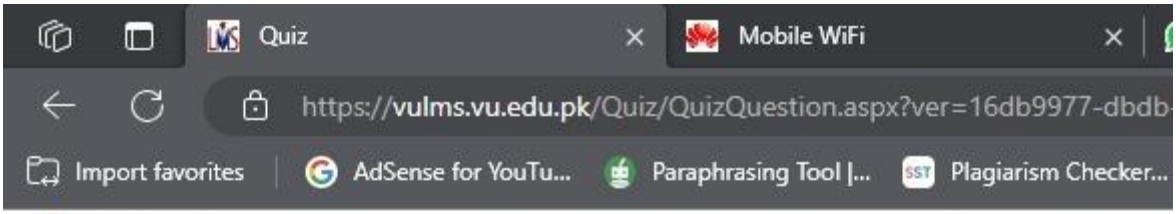

○	Haphazard sampling
○	Opportunity sampling
◉	Cluster sampling
○	Simple random sampling

Question # 3 of 10 (Start time: 11:11:50 AM, 01 July 2024)

If, after pilot testing, a researcher finds that questionnaire is unable to reveal all e fac is not modified?

Select the correct option

○	Sampling issues may arise
◉	Research may lose it focus
○	Data analysis may get wrong
○	Respondents may lose interest

Which of the following can be referred as a Reputational sampling?

Select the correct option

- ○ Convenience Sampling
- ○ Quota Sampling
- ○ Purposive Sampling
- ◉ Snowball Sampling

Import favorites | AdSense for YouTu... Paraphrasing Tool |... Plagiarism Checker... LMS iSkills

A researcher has divided population in three geographical areas and has taken ndo
salary package by making groups of persons having particular characteristics i hose

Select the correct option

○	Cluster sampling
◉	Stratified random sampling
○	Simple random sample
○	Systematic sampling

Which of the following is an example of a dilemma that might face feminist busi ess re

Select the correct option

○	What data to use when publishing findings?
◉	How to overcome the issue of false consciousness?
○	What role to adopt when interviewing male managers?
○	How many female employees should be interviewed for a representative s mple

Question # 7 of 10 (Start time: 10:58:29 AM, 01 July 2024)

Which of the following is the least obtrusive and most accurate method for reco ing

Select the correct option

○	Note taking
○	Writing notes after the interview
○	Videotaping
◉	Audiotaping

Question # 6 of 10 (Start time: 10:57:58 AM, 01 July 2024)

A researcher wants to study the impact of average hour of study in a week on C PA of students specialized in finance. The total of number of MBA students in VU is an amp

Select the correct option

○	Population
○	Sample
◉	Target population
○	Element

Question # 10 of 10 (Start time: 10:59:54 AM, 01 July 2024)

Asking neutral questions is a part of:

Select the correct option

STA630 - Research Methods (Quiz 3)

Question # 9 of 10 (Start time: 05:58:36 AM, 01 July 2024)

The small scale trial run of a particular item is called _____

Select the correct option

- ○ t-test
- ○ Test run
- ○ Post hoc test
- ◉ Pilot test

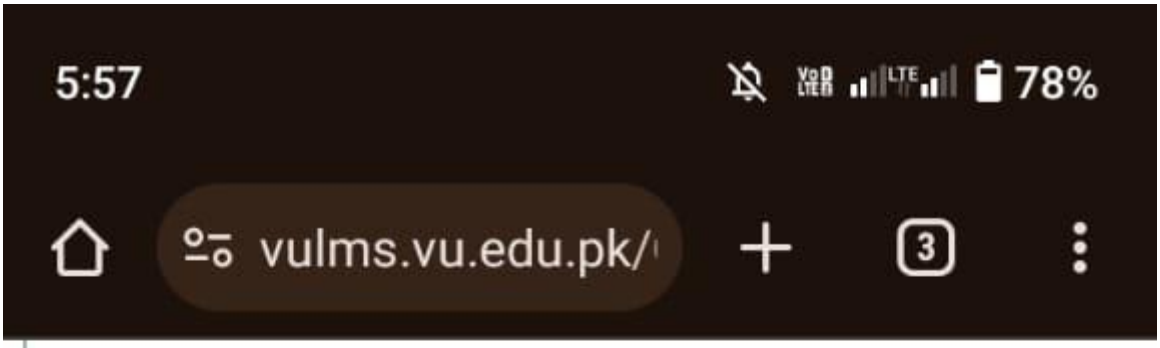

STA630 - Research Methods (Quiz 3)

Question # 7 of 10 (Start time: 05:57:43 AM, 01 July 2024)

Which of the following techniques yields a simple random sample?

Select the correct option

- ○ Listing the individuals by ethnic group and choosing a proportion from within each ethn
- ◉ Numbering all the elements of a sampling frame and then using a random number tab
- ○ Choosing volunteers from an introductory psychology class to participate
- ○ Randomly selecting schools, and then sampling everyone within the school.

STA630 - Research Methods (Quiz 3)

Question # 5 of 10 (Start time: 05:56:59 AM, 01 July 2024)

The list of all units in a population is called

Select the correct option

- ○ Statistic
- ○ Random sampling
- ◉ Sampling Frame
- ○ Parameter

STA630 - Research Methods (Quiz 3)

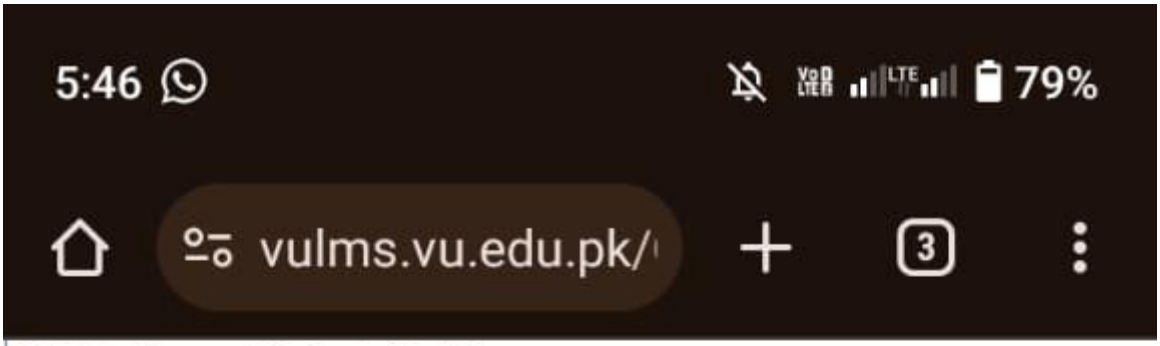

Question # 5 of 10 (Start time: 05:43:04 AM, 01 July 2024)

In which of the following sampling methods People are available such as volunteer or can be easily recru

STA630 - Research Methods (Quiz 3) Quiz

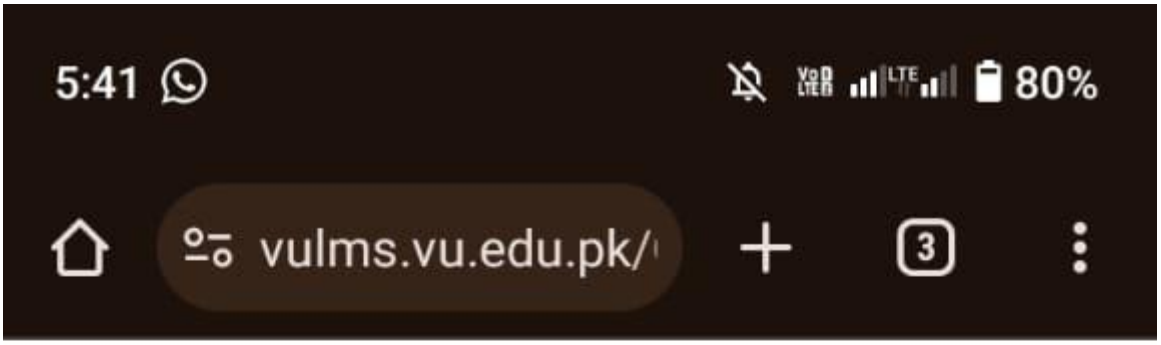

Question # 6 of 10 (Start time: 05:43:40 AM, 01 July 2024)

Which of the following is the least reliable sampling design but normally cheapest and easiest to conduct?

Select the correct option

- ○ Snowball sampling
- ○ Purposive sampling
- ○ Quota sampling
- ◉ Convenience sampling

Click to Save A

STA630 - Research Methods (Quiz 3) Quiz Start Tim

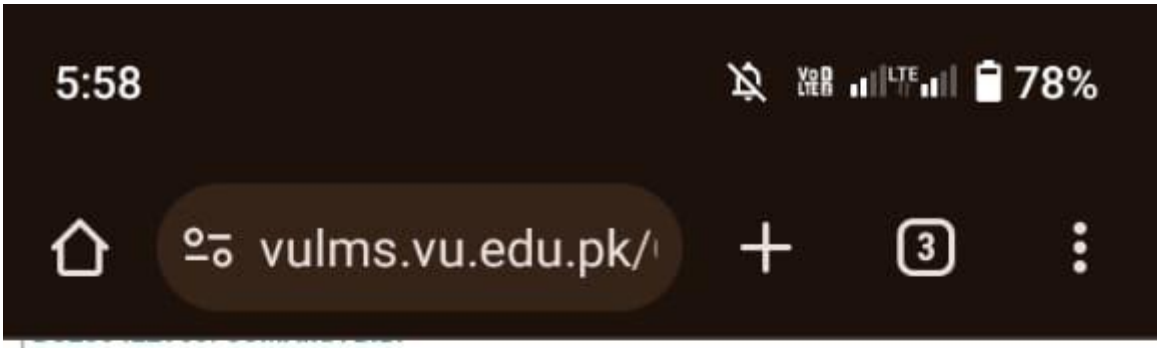

Question # 1 of 10 (Start time: 05:41:09 AM, 01 July 2024)

"Is the logistical support adequate?" is a part of _____ aspect which needs to be evaluated during pilot testing

Select the correct option

- Discovering errors in the instrument
- Staffing and activities of research team can be checked
- Sampling procedure can be checked
- Reactions of Respondents

Click to Save Answer &

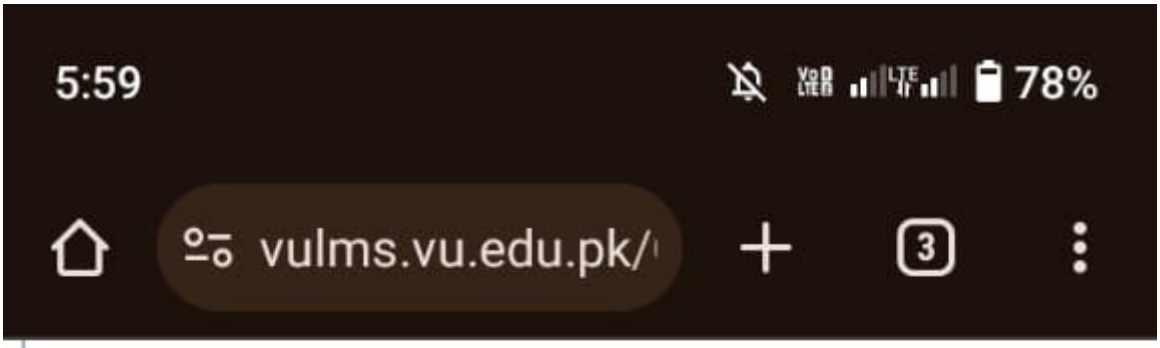

STA630 - Research Methods (Quiz 3)

Question # 8 of 10 (Start time: 05:58:10 AM, 01 July 2024)

All of the following are the principles of asking interview questions, EXCEPT:

Select the correct option

- ○ Ask questions exactly as they are worded in the questionnaire
- ○ Repeat questions that are misunderstood or misinterpreted.
- ○ Ask the question in the order in which they are presented in the questionnaire.
- ◉ Read each question rapidly

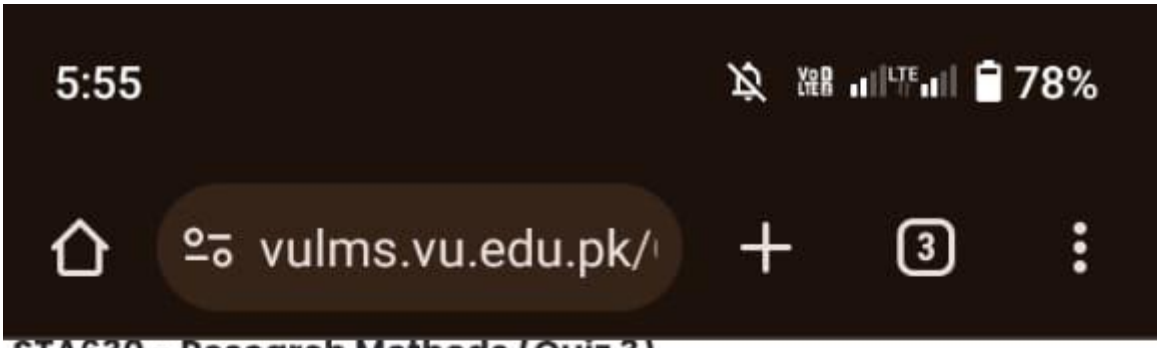

STA630 - Research Methods (Quiz 3)

Question # 10 of 10 (Start time: 05:59:03 AM, 01 July 2024)

What is the main purpose of pilot testing?

Select the correct option

- ○ To evaluate the research
- ○ To accumulate responses
- ○ To identify respondent
- ◉ To identify potential problems

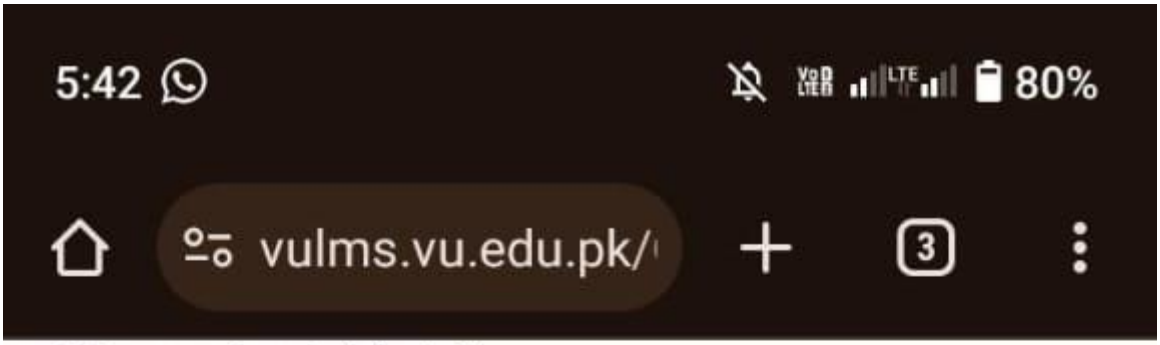

STA630 - Research Methods (Quiz 3)

Question # 2 of 10 (Start time: 05:55:25 AM, 01 July 2024)

In stratified sampling, strata are:

Select the correct option

- ○ None of the given option
- ◉ Internally heterogeneous
- ○ Internally homogenous
- ○ Externally homogenous

STA630 - Research Methods (Quiz 3)

Question # 4 of 10 (Start time: 05:42:34 AM, 01 July 2024)

Which of the following provides insight into the complexity of using interviews?

Select the correct option

- ○ The accuracy of the interviewee's responses
- ○ The different semantic meanings of the language being used
- ○ Potential influence of gender or cultural differences between interviewer and intervie
- ◉ Accuracy, influences and language used

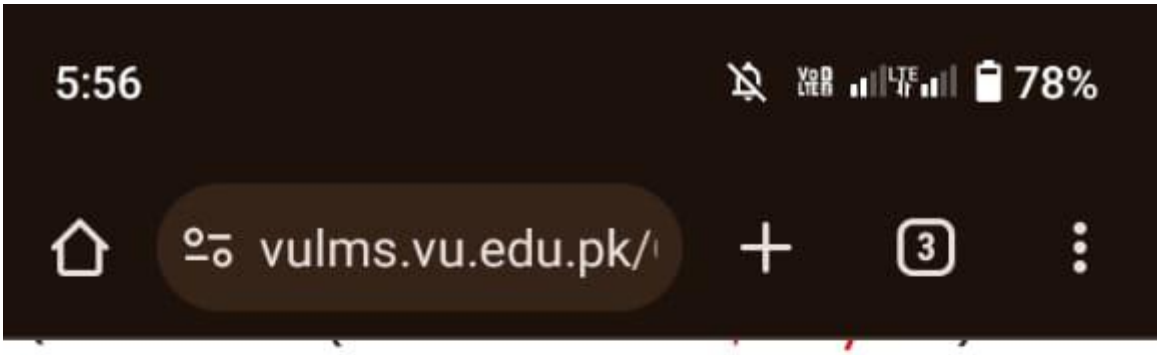

STA630 - Research Methods (Quiz 3)

Question # 8 of 10 (Start time: 05:44:27 AM, 01 July 2024)

In cluster sampling, subgroups are:

Select the correct option

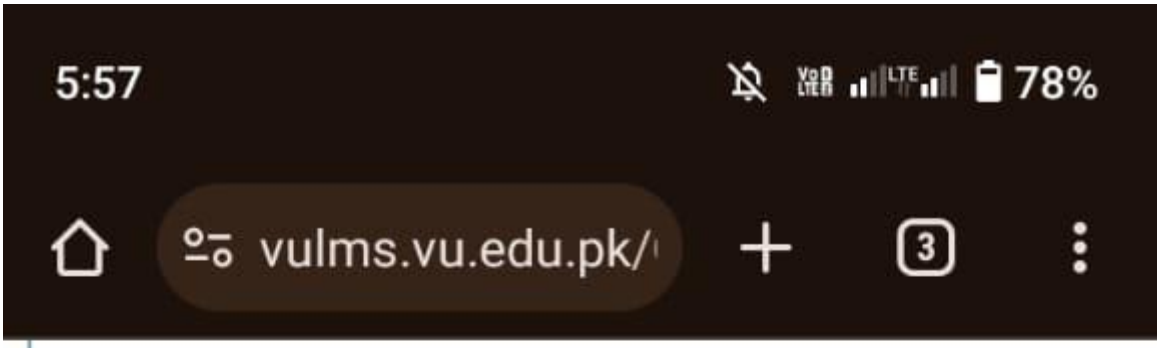

○	None of the given option
○	Internally homogenous
○	Externally heterogeneous
●	Externally homogenous

In stratified sampling, strata are:

Select the correct option

- [x] Internally heterogeneous
- [ ] Externally heterogeneous
- [ ] None of the given option
- [ ] Externally homogenous

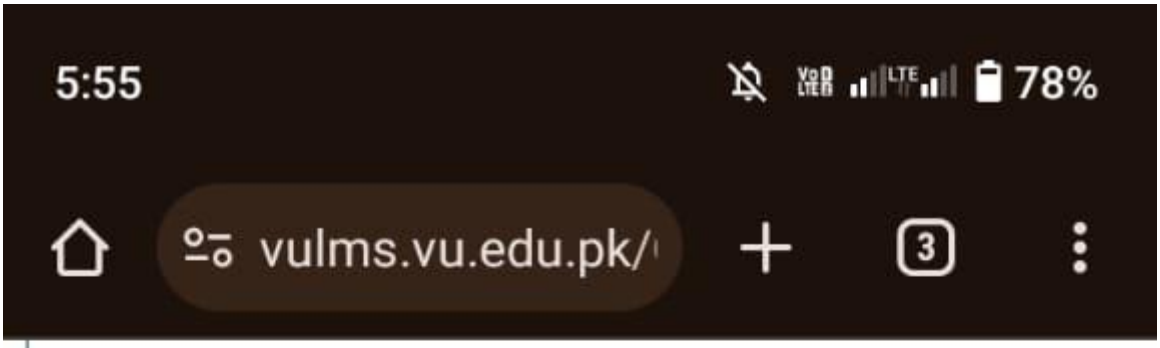

STA630 - Research Methods (Quiz 3)

Question # 6 of 10 (Start time: 05:57:21 AM, 01 July 2024)

Pilot testing can be beneficial in:

Select the correct option

- ○ Collecting sample
- ○ Determining population
- ◉ Analysis of data
- ○ Structuring open ended questions

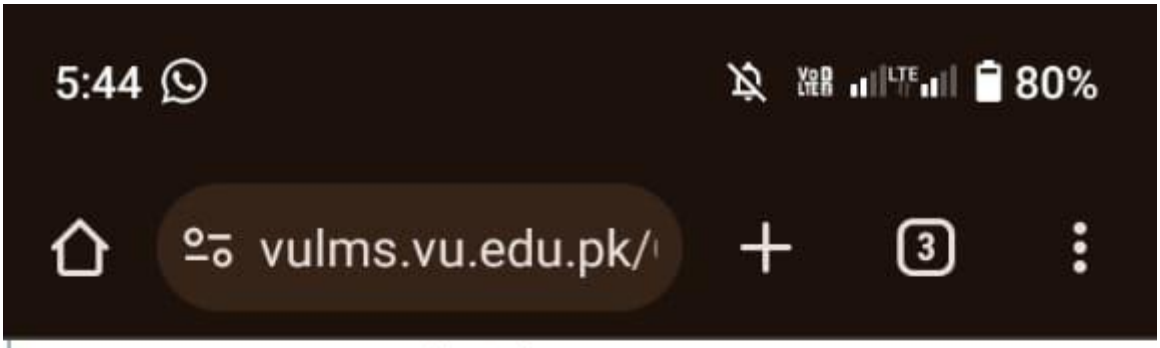

STA630 - Research Methods (Quiz 3)

Question # 1 of 10 (Start time: 05:55:04 AM, 01 July 2024)

A researcher has divided population in three geographical areas and ha level of education, age and salary package by making groups of person the following sampling technique he is using?

Select the correct option

- ○ Systematic sampling
- ○ Simple random sample
- ○ Cluster sampling
- ◉ Stratified random sampling

STA630 - Research Methods (Quiz 3)

Question # 7 of 10 (Start time: 05:44:02 AM, 01 July 2024)

Which of the following is NOT a form of non-probability sampling?

Select the correct option

- ○ Snowball sampling
- ○ Quota sampling
- ◉ Stratified sampling
- ○ Purposive sampling

STA630 - Research Methods (Quiz 3) Quiz St Ti

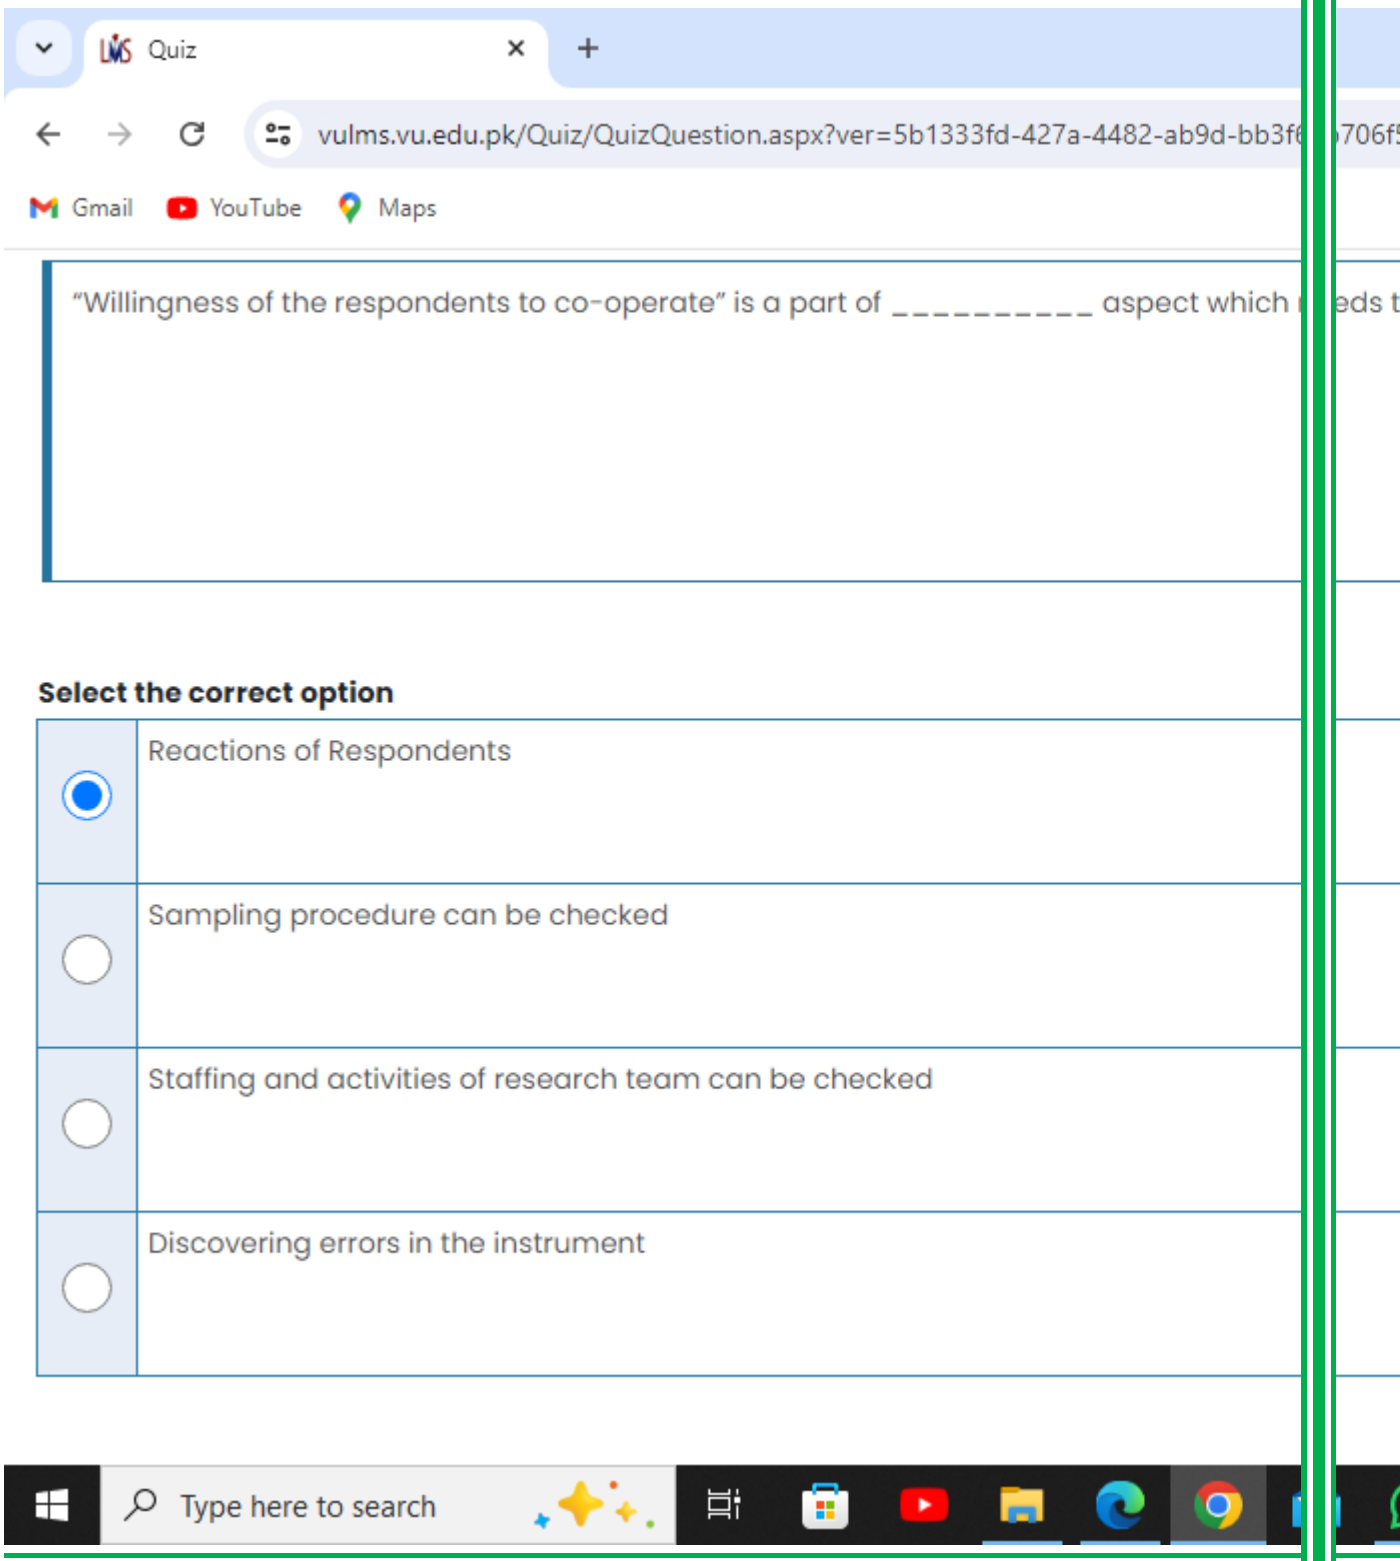

Question # 3 of 10 (Start time: 05:42:05 AM, 01 July 2024)

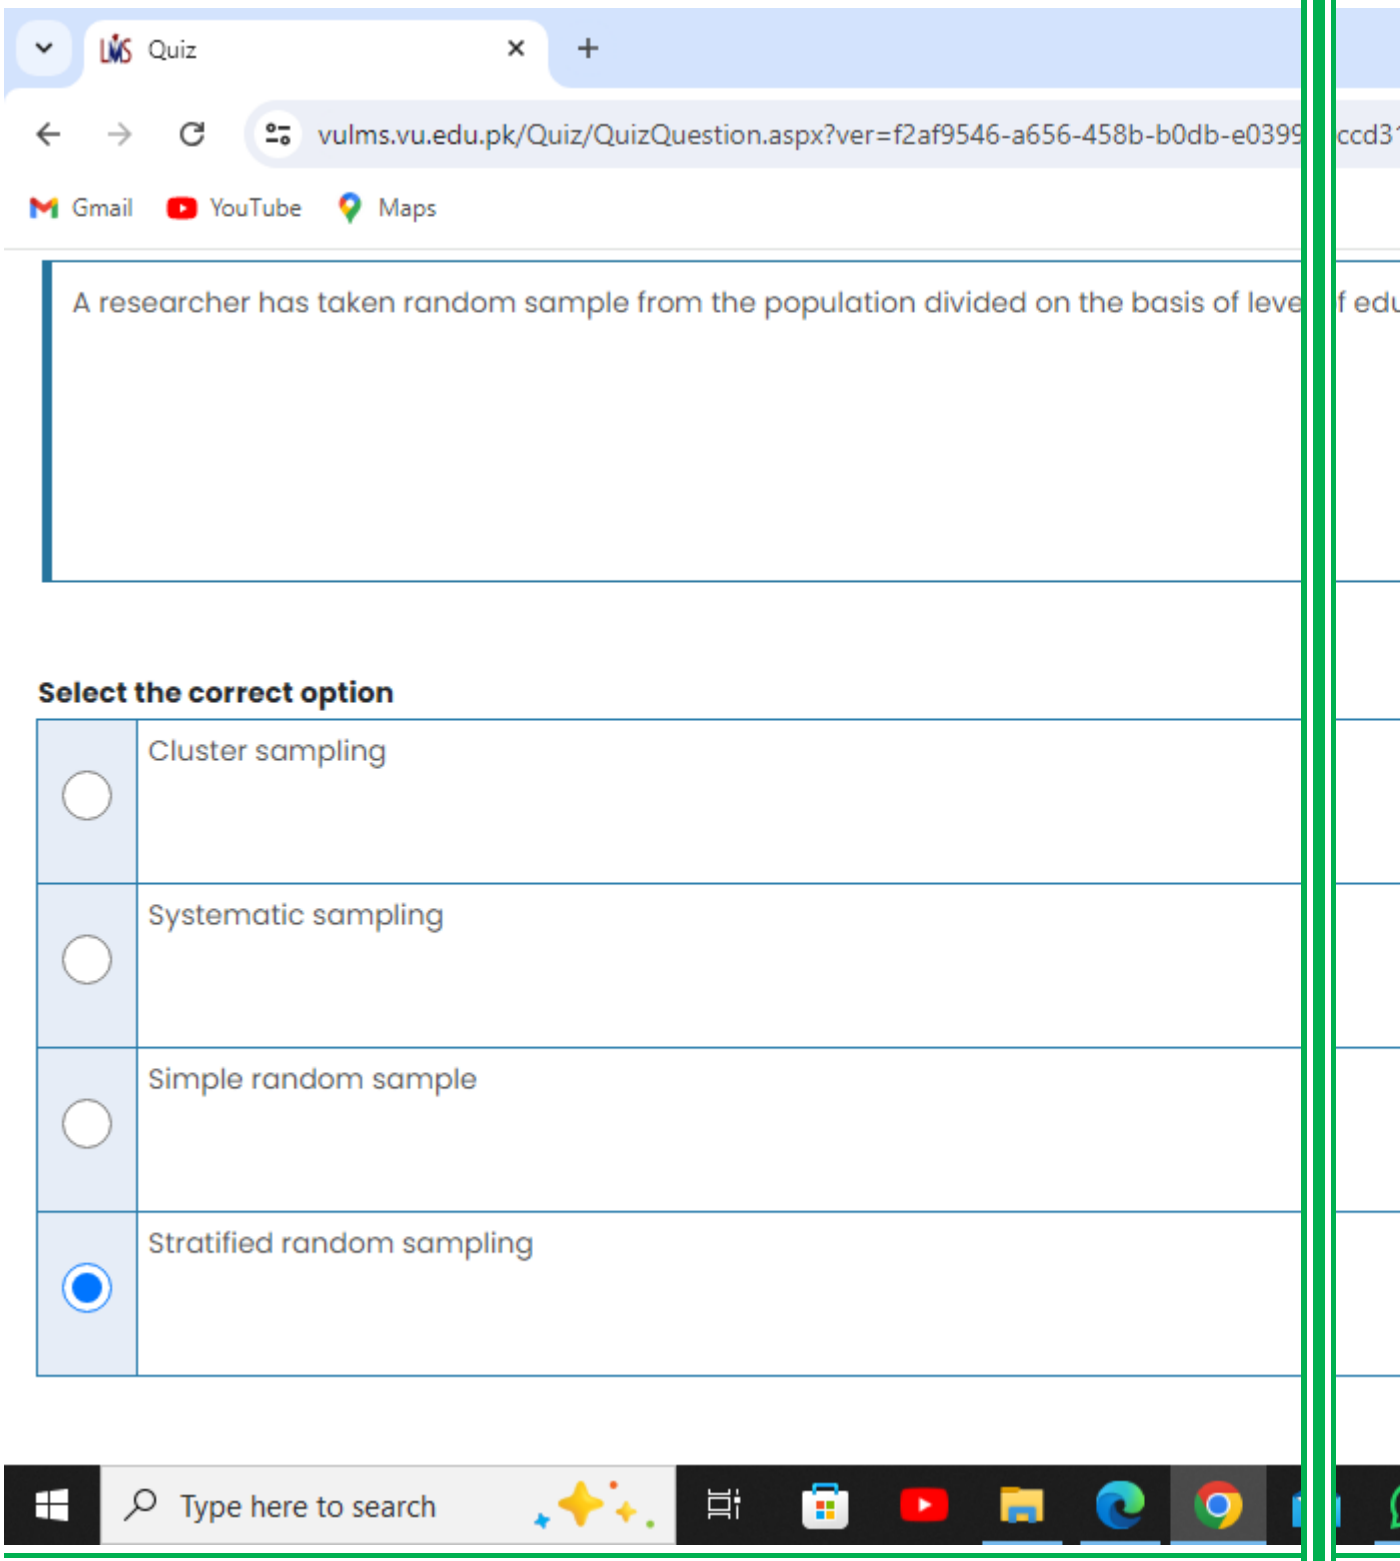

You wish to make a precise estimate about the characteristics of a population of individuals. You should use:

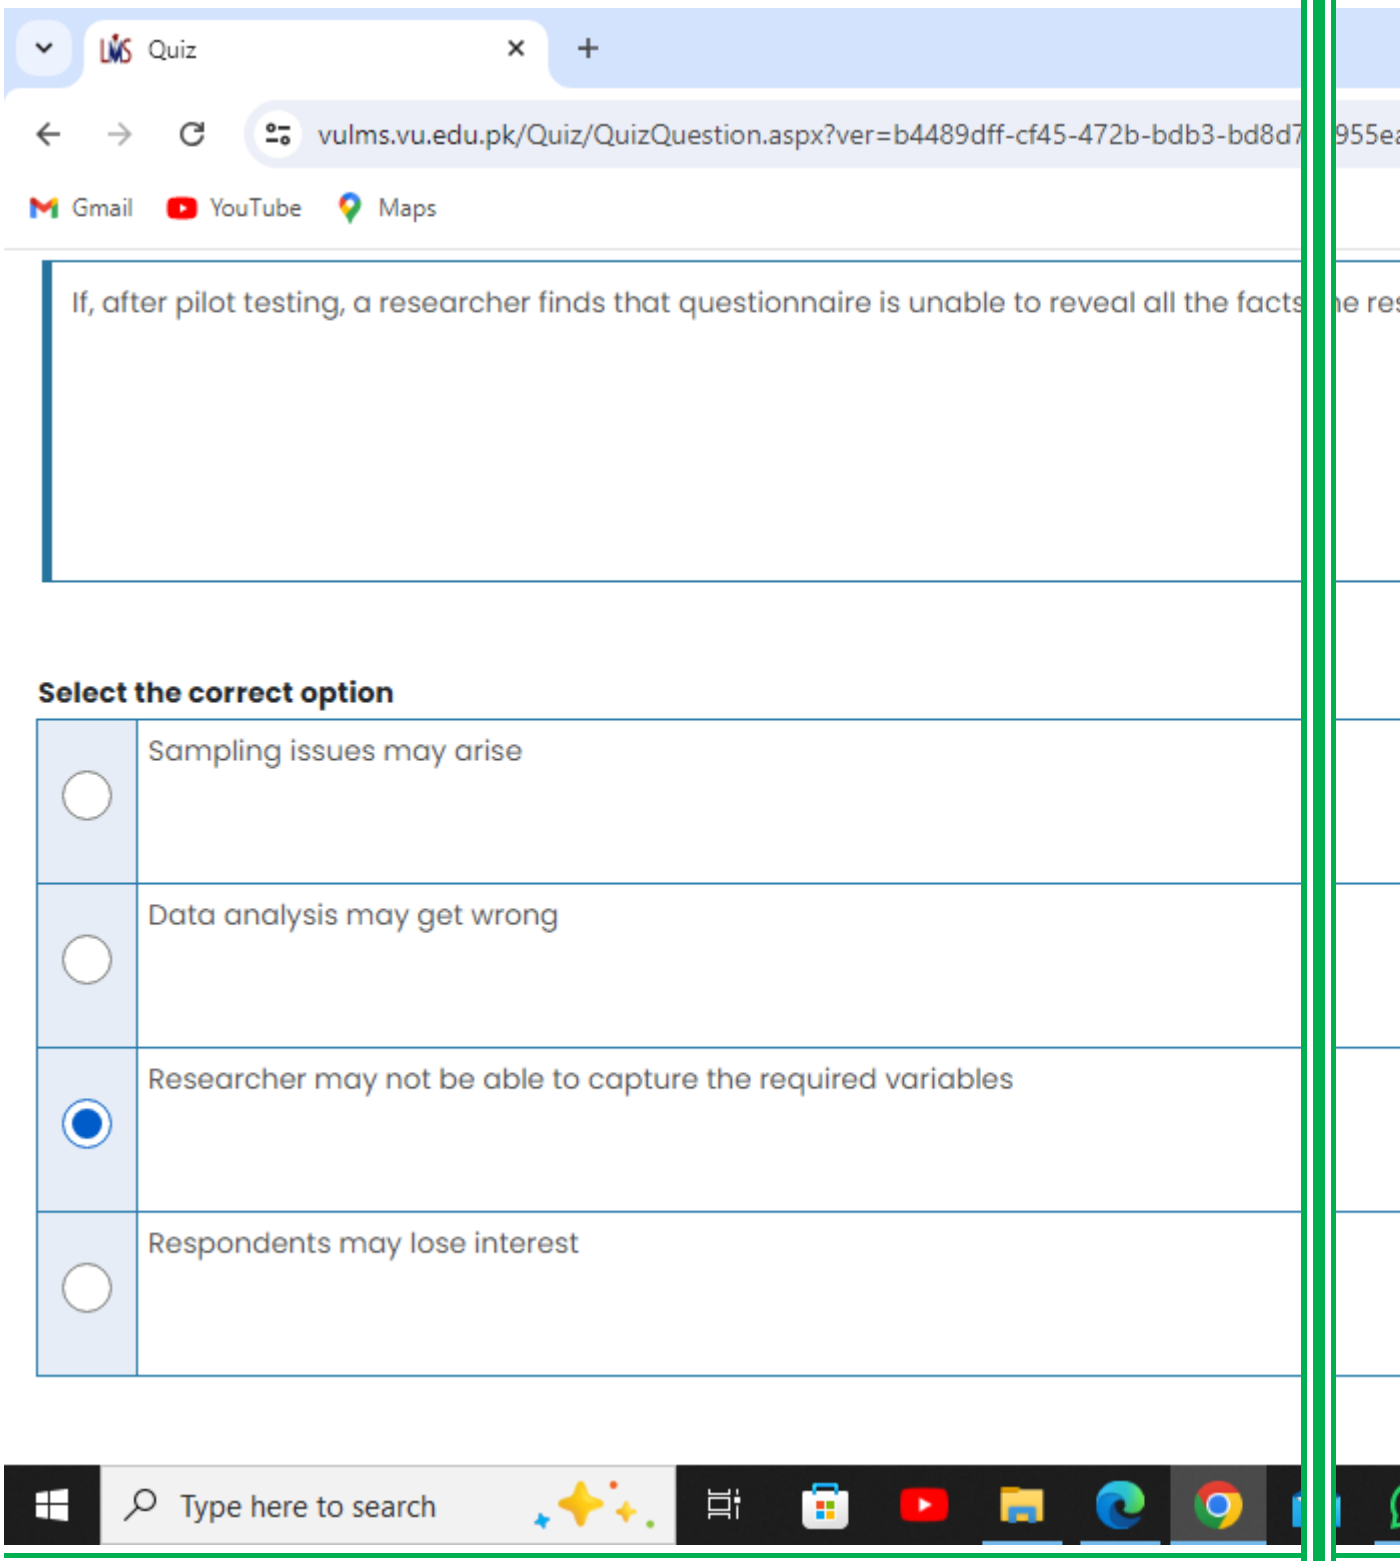

Select the correct option

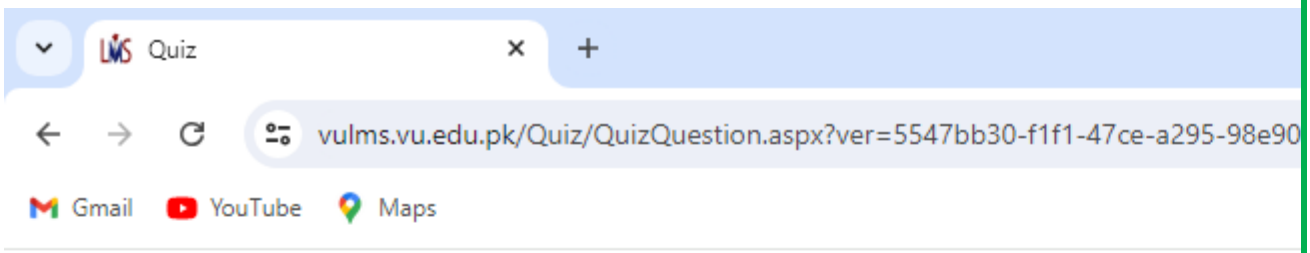

- ○ Accidental sampling
- ◉ Probability sampling
- ○ Snowball sampling
- ○ Quota sampling

Which of the following best defines the population of study?

Select the correct option

○	None of the given option
●	The total collection of elements about which we wish to make some inferences
○	The subject on which the measurement is being taken
○	Some selected elements from a population through which we can draw conclusion abou

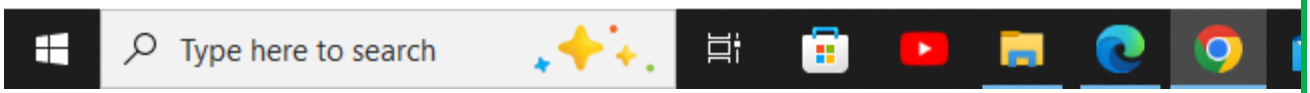

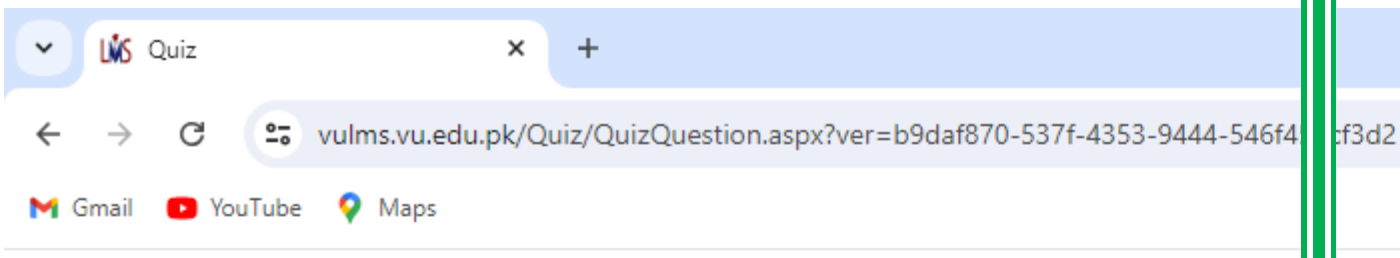

Which of the following is the least reliable sampling design but normally cheapest and e iest t

Select the correct option

- (●) Convenience sampling
- ( ) Purposive sampling
- ( ) Snowball sampling
- ( ) Quota sampling

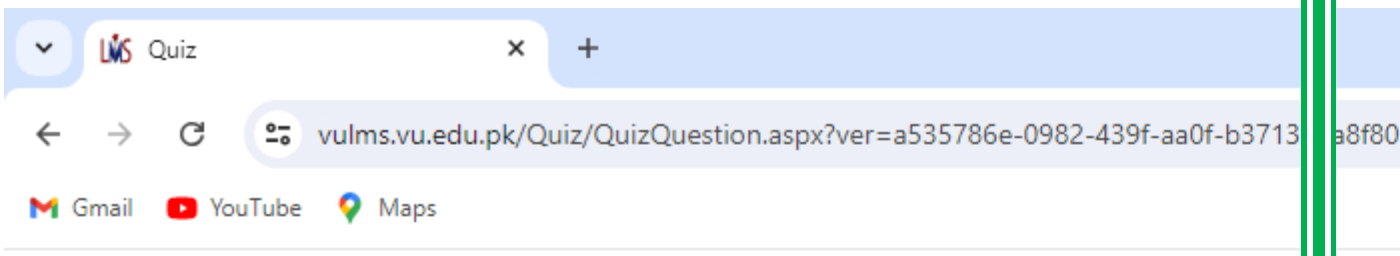

Which of the following concerns is MOST likely to become a problem if Mr. Baber uses pu

Select the correct option

- ○ Generalizability from the sample to the population.
- ○ Subjects participating in the study.
- ◉ Selection of participants who are thought to be informative, articulate, and experie
- ○ Statistically equal groups.

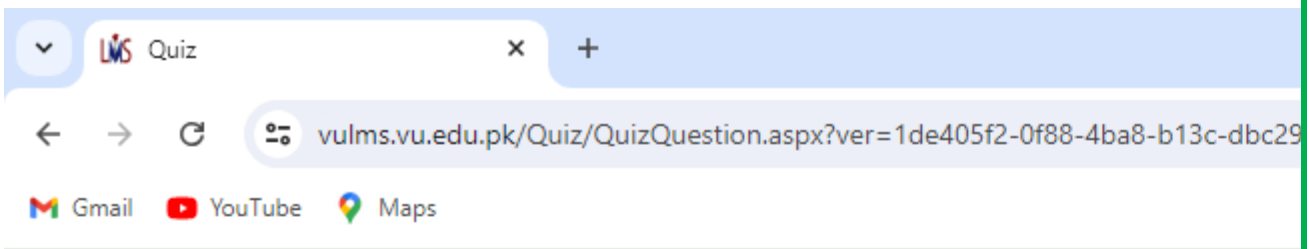

Which of the following best defines the population element/unit of study?

Select the correct option

- ○ The count of all elements in a population
- ○ Some selected elements from a population through which we can draw conclusion
- ● The subject on which the measurement is being taken
- ○ The total collection of elements about which we wish to make some inferences

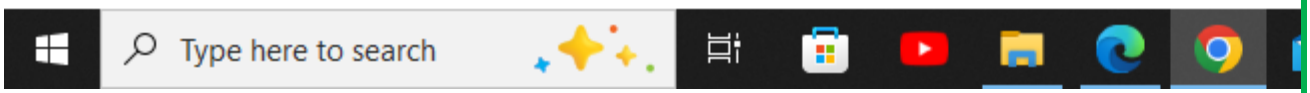

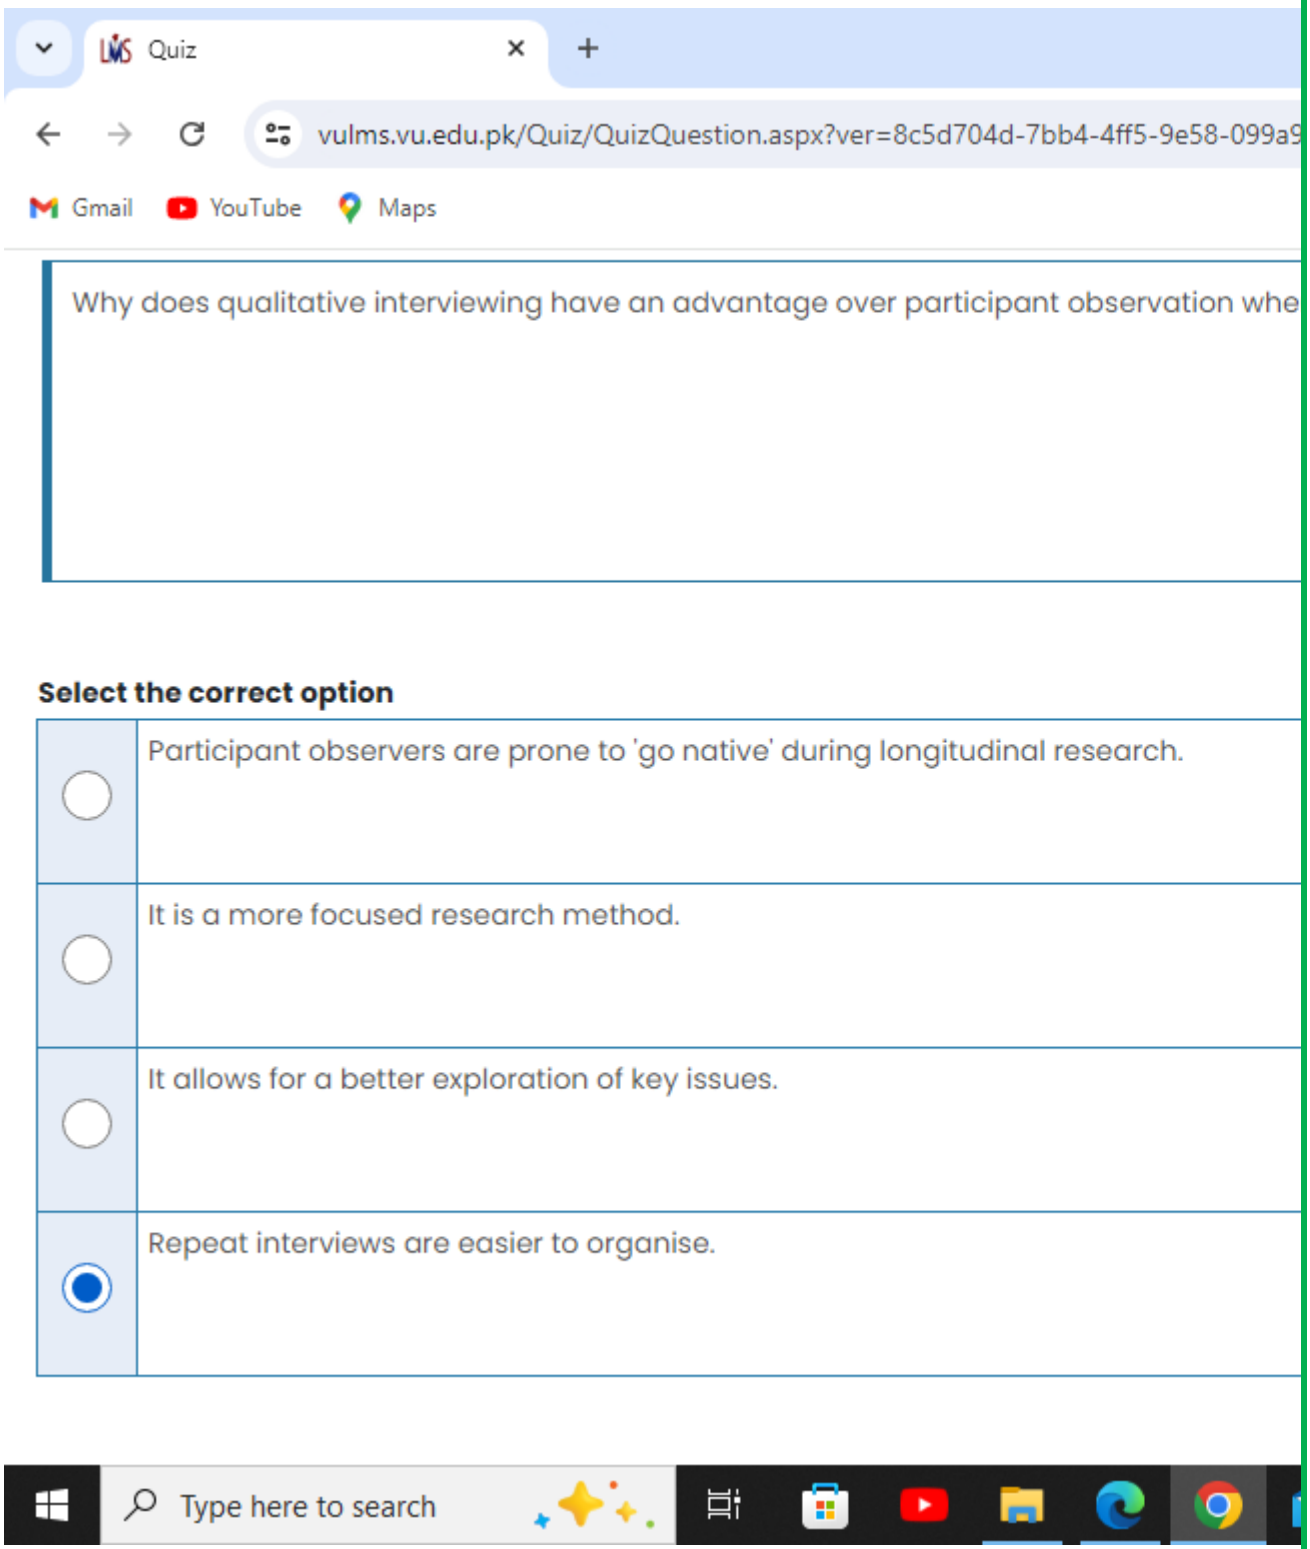

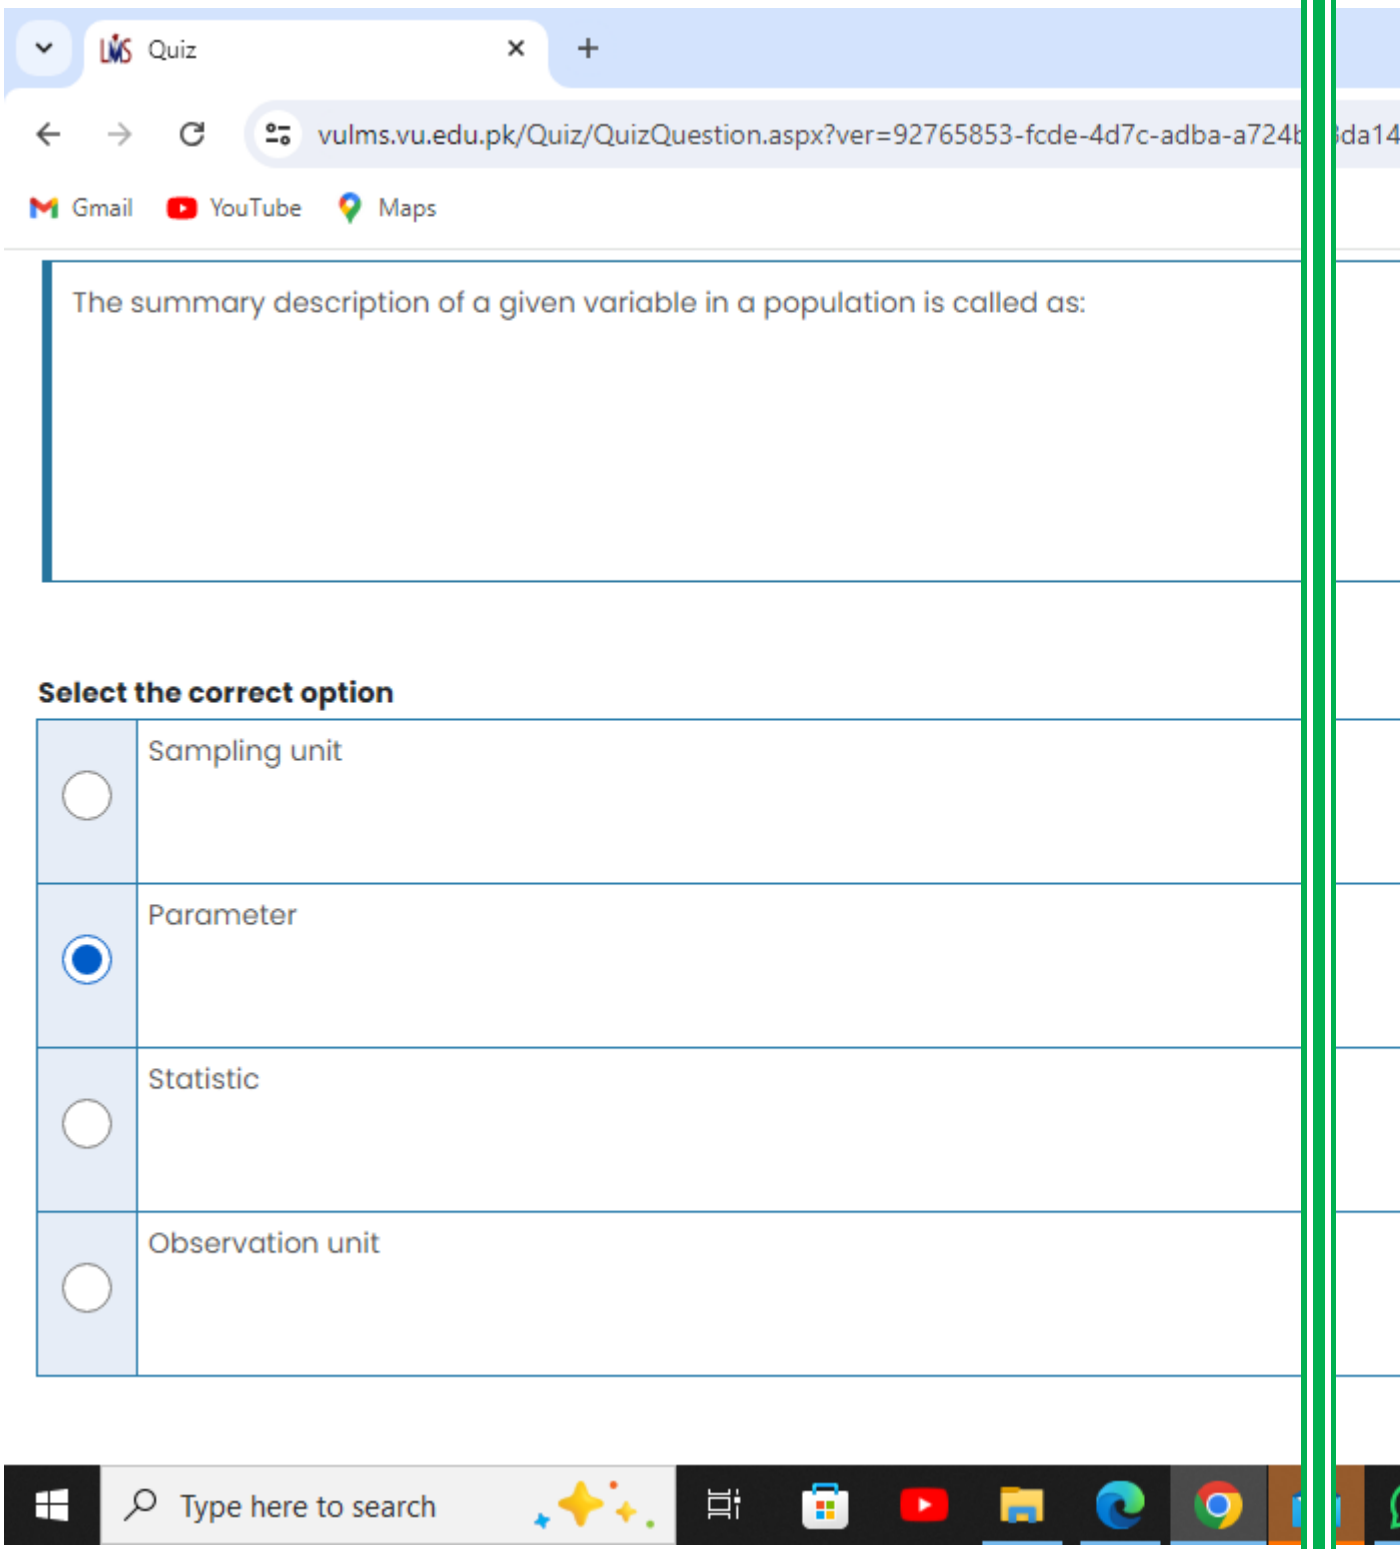

Which of the following provides insight into the complexity of using interviews?

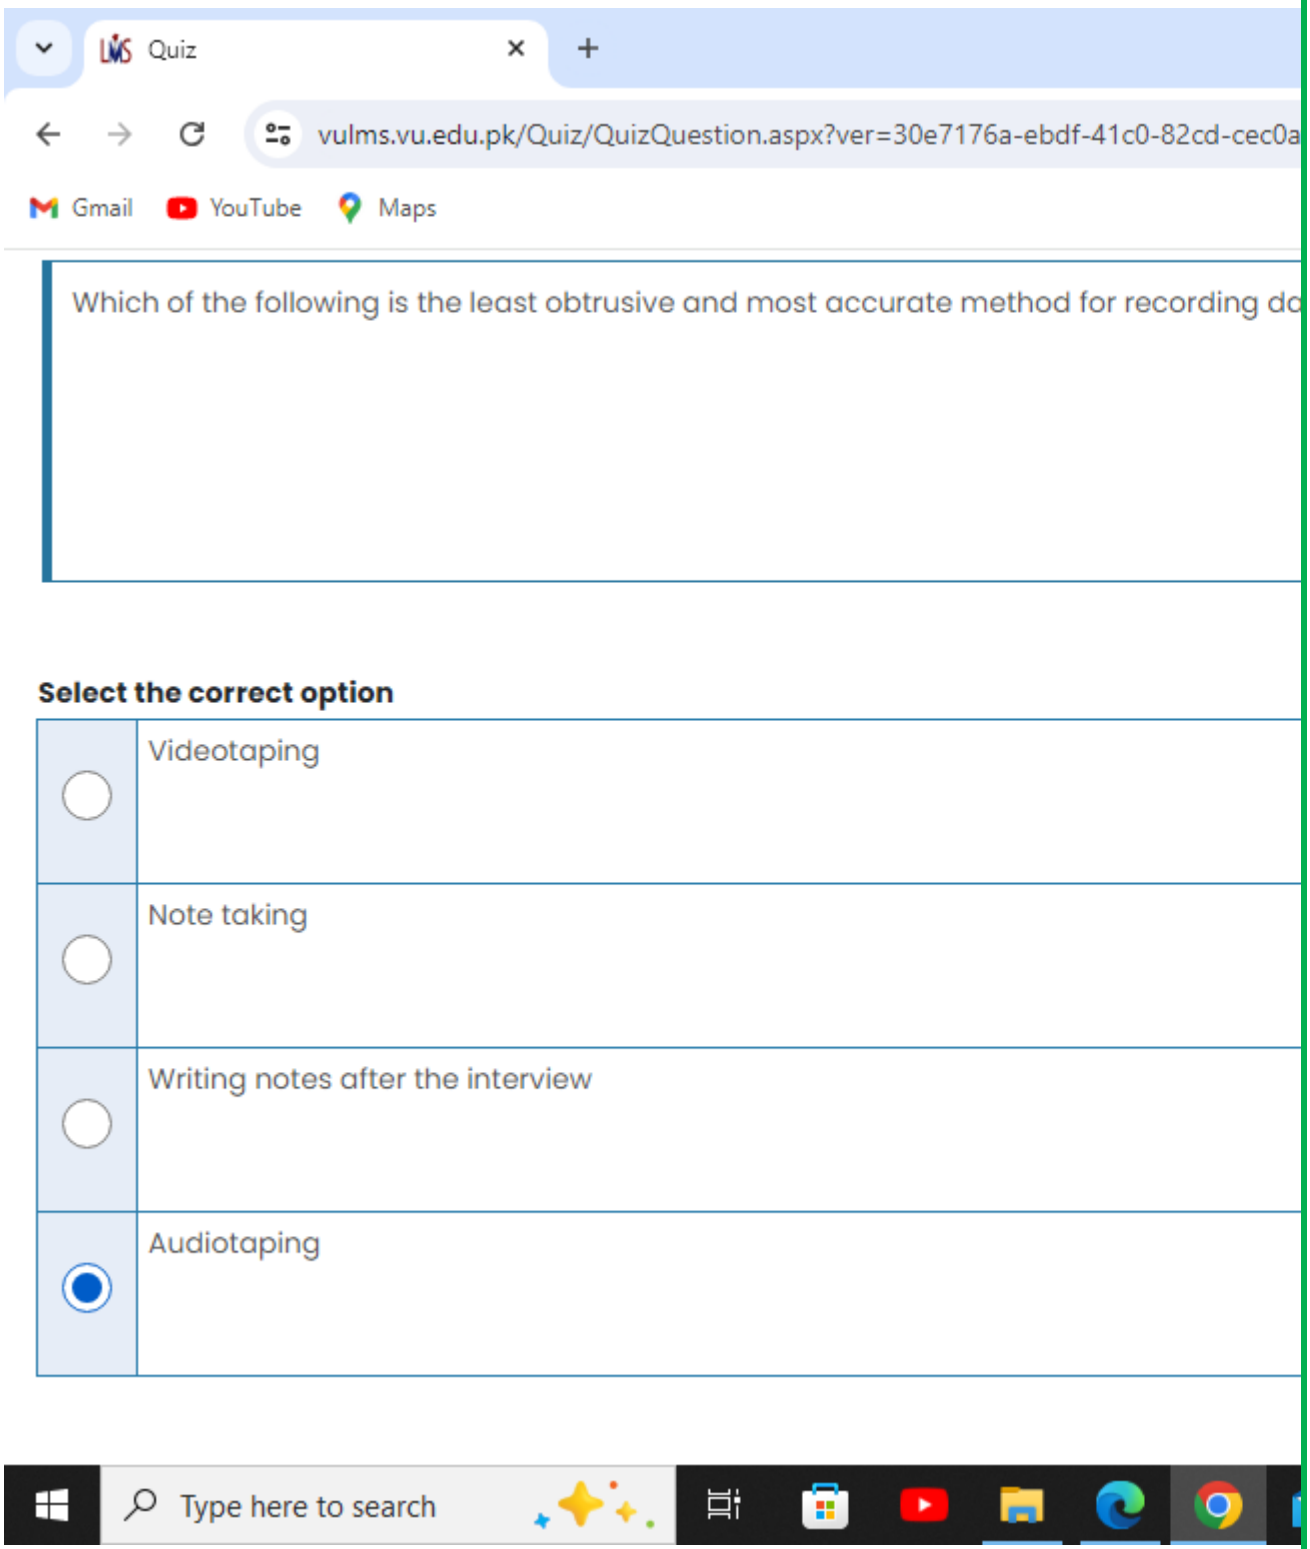

Select the correct option

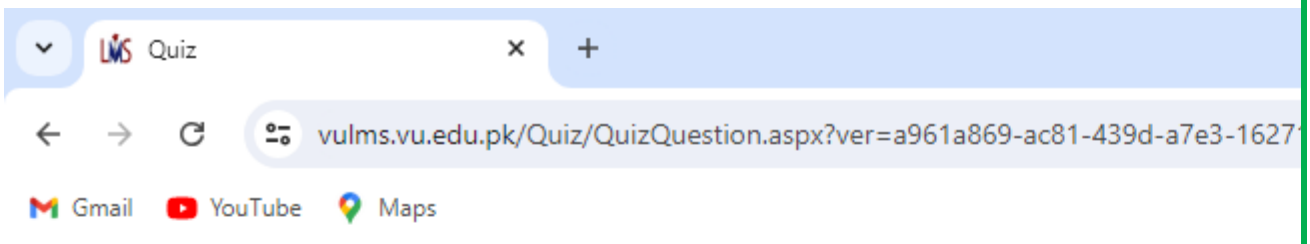

○	The accuracy of the interviewee's responses
○	The different semantic meanings of the language being used
●	Accuracy, influences and language used
○	Potential influence of gender or cultural differences between interviewer and interv wee
