MGT503 Principle of management
Current paper And Important topics explained for subjective and objective
Solved by Sonu Ilyas Mughal

1St paper 10 September 2020

While communicating with employ how a manager can overcome the berries to ensure effective communication 5 marks

Make sure your body language is communicating a message of attentiveness, friendliness, and acceptance. Maintain eye contact when you're speaking and listening and avoid gestures such as furrowing your brow or crossing your arms. Ongoing training can help you overcome barriers to effective communication

Why do managers resist in delegation their work to employ 5 marks?
Give 5 suggestion

Some managers fear delegation because they've been burned in the past. It's important that you pass on work to people who have the necessary skills and are motivated to get the job done right. Ideally, you should be able to delegate some form of work to everyone on your team.
Why do managers have a hard time delegating work responsibility?
Other reasons why managers do not delegate as much as they could include: The belief that employees cannot do the job as well as the manager can. The belief that it takes less time to do the work than it takes to delegate the responsibility. Lack of trust in employees' motivation and commitment to quality.

Here are 6 ways that leaders at all levels can build trust in employ?

- Recognize that **building trust** takes hard work. **Trust** must be earned. ...
- Be honest and supportive. ...
- Be quiet sometimes. ...
- Be consistent. ...
- Model the behavior you seek. ...
- **Build** in accountability.

The concept of leader belongs to which management function
What leaders do?

A complete academy for all subjects and projects

Leadership is an important element of the directing function of management. Wherever, there is an organized group of people working towards a common goal, some type of leadership becomes essential. "The power of leadership is the power of integrating

What leaders do?

Demonstrate a clear vision. ...
Create open lines of communication. ...
Practice transparency. ...
Build relationships throughout your workforce. ...
Offer trust by default. ...
Own mistakes and failures. ...
Seek out feedback, and act on it. ...
Give credit where credit is due.

Leadership is setting a new direction or vision for a group that they follow, i.e.: a leader is the spearhead for that new direction. Management controls or directs people/resources in a group according to principles or values that have been established

What are the roles and responsibilities of good leadership and management in any Organization?

Positive Leadership: Roles of The Leader
ROLES OF THE LEADER. Make sure you fulfill the following critical roles of a leader to drive the success of your practice.
Provide a Vision. ...
Establish Effective Organizational Structure and Communication Protocols. ...
Be an Effective Role Model. ...
Inspire and Motivate. ...
Delegate and Empower. ...
Effective Time Management.

Intrinsic motivators how differ from extrinsic motivators?

Intrinsic motivation involves doing something because it's personally rewarding to you. Extrinsic motivation involves doing something because you want to earn a reward or avoid punishment

The 3 Types of Motivation

Extrinsic. Doing an activity to attain or avoid a separate outcome. Chances are, many of the things you do each day are extrinsically motivated. ...
Intrinsic. An internal drive for success or sense of purpose. ...
Family. Motivated by the desire to provide for your loved ones.

Importance of organizing function for an organization?

Organizing is an important means of creating coordination and communication among the various departments of the organization. Different jobs and positions are

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

interrelated by structural relationship. It specifies the channel and mode of communication among different members.

Transactional differ from transformational leader ship how Explain?

Transactional leadership works within set established goals and organizational boundaries, while a transformational approach challenges the status quo and is more future-oriented. Transactional leadership emphasizes organization, performance evaluation and rewards, and is task- and outcome-oriented.

HOW Professionals are differing from nonprofessional?

difference between professional and nonprofessional. is that professional is a person who belongs to a profession while nonprofessional is one who is not a professional; an amateur.

What is the difference between professionals and non-professionals?

The short answer is that professionals deal with things that really matter (health, wealth, the environment, …) and provide solutions to the issues that do not (yet) have "right" answers, so they have to use their expert knowledge & experience (= expertise) together with professional judgement to design a good solution. In contrast a technician follows a paradigm/protocol (which can be extremely complicated) in order to deliver the correct solution, so a mistake gives a wrong answer and professional judgement is less important.

In practice this has many implications:

a professional need to be able to perform the technical paradigms too, but will generally be less efficient at them as the technician performs them routinely.
the client will usually not be expert, and so the professional needs to be trusted in order to be hired for a particular task. So, the professional needs to be trustworthy, and great emphasis is placed on professional values and ethical practice to protect the reputation of the profession, because one well publicized 'bad apple' can bring the whole profession into disrepute. A significant role of 'professional institutions' and 'professional regulators' is to design and police these codes for the profession. legislation, etc. so that they can apply it to the novel situations they are asked to solve. But they also need to develop their professional judgement which is based on experience (accelerated by sharing the experience of others: another reason for the existence of 'professional institutions' and 'learned societies'), so that book learning or sitting in rows in front of a screen/board is not enough to form a competent professional.

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

a related role of 'professional institutions' and 'professional regulators' is to design and set standards of competence, and guide trainees and their employers in how to achieve them, awarding professional qualifications to those who are assessed to be competent to perform independently.
I could go on, but that's enough for the moment :-)

1. The Boston Consulting Groups (BCG) growth-share matrix compares various businesses in an organization's portfolio on the basis of relative market share and market growth rate. The corporate portfolio matrix approach has been a popular approach to determining corporate-level strategy.
The **BCG matrix,** developed by the Boston Consulting Group, is a strategy tool to guide resource allocation decisions based on market share and growth of SBUs.
The matrix defines four business groups. SBUs plotted on the BCG matrix can be categorized:
1) The **Star** has a high market share in a rapidly growing market.

2) A **Question Mark** (problem child) has a low market share in a rapidly growing market.
3) The **Cash Cow** has a high market share in a slowly growing market.
4) A **Dog** has a low market share in an area of low growth.

1. The Boston Consulting Groups (BCG) growth-share matrix compares various businesses in an organization's portfolio on the basis of relative market share and market growth rate. The corporate portfolio matrix approach has been a popular approach to determining corporate-level strategy.

1 Maslow's hierarchy of needs from the most basic to the highest.

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

a. **Physiological needs** are basic and include needs for food, water, and shelter. Maslow took the position that until these needs are satisfied to the degree necessary to maintain life, other needs will not motivate people.
b. **Safety needs** pertain to the desire to be safe, secure and free from threats to our existence. These needs can be satisfied in the workplace by job continuity, or retirement benefits.

c. **Belongingness needs** involve the desire to affiliate with and be accepted by others. These needs are satisfied for most people by family and community relationship outside of work and friendship on the job.

d. **Esteem needs** are related to the two-pronged desire to have a positive self-image and to have our contributions valued and appreciated by others. According to Maslow, once people begin to satisfy their need to belong, they tend to want to be held in esteem both by themselves and by others this kind of need produces such satisfactions as power, prestige, status and self-confidence.

e. **Self-actualization needs** pertain to the requirement of developing our capabilities and reaching our full potential. Maslow regards this as the highest need in his hierarchy. It is the desire to become what one is capable of becoming- to maximize one's potential and to accomplish something.

Level of Strategies
Many organizations develop strategies at three different levels. These three different and distinct levels of strategy are corporate, business, and functional:
Corporate-level strategy is developed by top -level management and the board of directors. The **corporate-level strategy** seeks to determine what businesses a corporation should be in or wants to be in. Two popular approaches for answering the question of what business(es) should we be in are the grand strategies framework and the corporate portfolio matrix.
1. These strategies address a. What business the organization will be coordinated to strengthen the organization's competitive position.

b. How the strategies of those businesses will be coordinated to strengthen the organization's competitive position.
c. How resources will be allocated among businesses.

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

2. Business-level strategy concentrates on the best means of competing within a particular business while also supporting the corporate-level strategy.

a. The distinction between corporate-level and business-level strategy applies only to organizations with separate divisions that compete in different industries.

b. A **strategic business unit (SBU)** is a distinct business, with its own set of competitors that can be managed reasonably independently of other businesses within the organization.

3. Functional-level strategy focuses on action plans for managing a particular functional area within

a business in a way that supports the business-level strategy.

a. Functional areas include operations, marketing, finance, human resources management, accounting, research and development, and engineering.

b. Functional strategies are usually developed by functional managers and are typically reviewed by business unit heads.

4. Coordinating strategies across these three levels is critical in maximizing strategic impact.

Need for Innovation and Flexibility. 1. The constant flow of new ideas is crucial for an organization to avoid obsolescence or failure.

2. Flexibility is valuable in a context where customers/ needs may change overnight, where new competitors come and go, and where employees and their skills are shifted as need from project to project.

Spans of management determine the number of hierarchical levels in an organization.

a. A **tall structure** is one that has narrow spans of management and many hierarchical levels in an organization.

b. A **flat structure** is one that has broader spans of management and few hierarchical levels and wide spans of control.

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

A **simple structure** is an organizational design with low departmentalization, wide spans of control, authority centralized in a single person, and little formalization.

There are two generic models of organizational design.
1. A **mechanistic organization** is an organizational structure that is characterized by high specialization, rigid departmentalization, narrow spans of control, high formalization, a limited information network, and little participation in decision making by low-level employees.

2. An **organic organization** is a structure that is highly adaptive and flexible with little work specialization, minimal formalization and little direct supervision of employees.
3. When is each design favored? It "depends" on the contingency variables.

1) **Trust and its five dimensions?**
   ANSWER:

Trust is the belief in the integrity, character, and ability of a leader.

Research has identified five dimensions that make up the concept of trust.

1. Integrity (honesty and truthfulness)
2. Competence (technical and interpersonal knowledge and skills)
3. Consistency (reliability, predictability, and good judgment in handling situations)
4. Loyalty (willingness to protect a person, physically and emotionally)
5. Openness (willingness to share ideas and information freely)

2) **Scenario will be given you have to know which is suitable**
   A general manager is living a luxury life can we motivate him by intrinsic motivator or Extrinsic Motivators. justify
   You have to choose one and justify your Ans
   Following both are explain for your understanding

ANSWER:

Intrinsic Motivators

A person's internal desire to do something for his satisfaction, respect, prestige or loyalty

Extrinsic Motivators

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

Factors of motivation that comes from outside (environment) or organization like pay, bonuses, tangible benefits etc.

3) Goal setting theory Explain? (5MARKS)

Goal-Setting Theory

- This theory says that specific goals increase performance, and difficult goals, when accepted, result in higher performance than easy goals. What do we know about goals as motivators?
- An Intention to work toward a goal is a major source of job motivation. Specific and challenging goals are superior motivating forces. Specific hard goals produce a higher level of output than do generalized goals.
-
- B Is there a contradiction between achievement motivation and goal setting? No, and here's why. A. Goal-setting theory deals with people in general; achievement theory is based only on people who have a high need for achievement. Difficult goals are still recommended for the majority of employees.

- The conclusions of goal-setting theory apply to those who accept and are committed to the goals. Difficult goals will lead to higher performance only if they are accepted.

Must see handout 95 page

4) Group and its benefits

What is a Group?

A **group** is defined as two or more interacting and interdependent individuals who come together to achieve particular objectives.

1. Groups differ from mere aggregates of individual because the latter have no interdependence, interaction, or common goal.

2. Groups differ from organizations because the latter involve systematic efforts and are engaged in the production of goods and services.

3. Teamwork occurs when groups are able to work efficiently and effectively together to achieve organizational goals

5) **Grapevines AND how can be configured in a number of ways.**

The definition of grapevine is an expression that is defined as the rumor mill through which gossip and unofficial information is spread, or to the vines on which grapes grow. ... A woody vine that bears grapes is an **example** of a **grapevine**.

Grapevines can be configured in a number of ways.

a. In the single-strand chain, communication moves serially from person A to B to C and so on.

b. With the gossip chain, person A seeks out and tells others.
c. When following the probability chain, person A spreads the message randomly, as do individuals F and D.

d. In the cluster chain, the most predominant form, person A tells three selected individuals, and then one of these tells three others.

Grapevines have a number of characteristics.

a. They are fast.
b. The data produced ranges from 50 to 90 percent accurate.

6) **<u>Difference btw Verbal and nonverbal (3marks)</u>**
Nonverbal communication refers to the expression of signals or messages via gestures, facial expressions, and body language. ... Hence, **nonverbal communication** is just as important as **verbal communication** when it comes to workplace relationships

7) **Here are some issues that contribute to this employee motivation problem:**

- Unclear or nonexistent job descriptions.
- No clear chain of command.
- Disorganized directives.
- Hazy goals and objectives.

8) **job specialization and its benefit**

You may contact for more solved papers and Complete files of all Subject

A complete academy for all subjects and projects

The advantages of work specialization include:

- Employees can be an expert to some degree in **their** specific **task**.
- Higher levels of productivity.
- Lower quality **control** costs.
- **Job** security for employees due to specialized skills.
- Higher profit potential.

Examples of **job specialization**

When an organization fosters **specialization**, it allows employees to become more effective and efficient within their role. ... On an assembly line, production activities are broken up into simple tasks that are carried out by different employees throughout the process and system.

9) difference between mechanistic and organic organization

The **mechanistic organizational** structure uses a top-down approach to management, while **organic organizational** structure uses a more flexible management style.

What is mechanistic and organic Organization?

MECHANISTIC ORGANIZATION DEFINITION: According to Black's Law Dictionary **mechanistic organization** is "the **organization** is hierarchical and bureaucratic. ... Contrast to **organic organization**." CHARACTERISTICS: Employees are found to work separately and on their own assigned tasks.

1 Maslow's hierarchy of needs from the most basic to the highest.

a. **Physiological needs** are basic and include needs for food, water, and shelter. Maslow took the position that until these needs are satisfied to the degree necessary to maintain life, other needs will not motivate people.

b. **Safety needs** pertain to the desire to be safe, secure and free from threats to our existence. These needs can be satisfied in the workplace by job continuity, or retirement benefits.

c. **Belongingness needs** involve the desire to affiliate with and be accepted by others. These needs are satisfied for most people by family and community relationship outside of work and friendship on the job.
d. **Esteem needs** are related to the two-pronged desire to have a positive self-image and to have our contributions valued and appreciated by others. According to Maslow, once people begin to satisfy their need to belong, they tend to want to be held in esteem both by themselves and by others this kind of need produces such satisfactions as power, prestige, status and self-confidence.

e. **Self-actualization needs** pertain to the requirement of developing our capabilities and reaching our full potential. Maslow regards this as the highest need in his hierarchy. It is the desire to become what one is capable of becoming- to maximize one's potential and to accomplish something.

McGregor's Theory X and Theory Y
This theory was developed by Douglas McGregor and describes two distinct views of human nature.
1. **Theory X** was the assumption that employees dislike work, are lazy, seek to avoid responsibility, and must be coerced to perform.
2. **Theory Y** was the assumption that employees are creative, seek responsibility, and can exercise self-direction.
3. Theory X assumed that lower-order needs (Maslow's) dominated individuals, and Theory Y assumed that higher-order needs dominated.
Hygiene factors are necessary to keep workers away from feeling dissatisfied. There are several hygiene factors.
a. Pay

b. Working conditions
c. Supervisors
d. Company policies
e. Benefits

Motivators are factors that increase job satisfaction and hence motivation. They include things such as achievement, recognition, responsibility, advancement and so forth—intrinsic factors associated with job content, or those things within the job itself.
Motivator factor can only lead workers to feel satisfied and motivated.
a. Achievement

You may contact for more solved papers and Complete files of all Subject

b. Responsibility
c. Work itself
d. Recognition
e. Growth and achievement

Equity Theory
Equity Theory**,** developed by J. Stacey Adams, says that an employee perceives what he or she got from a job situation (outcomes) in relation to what he or she put into it (inputs) and then compares the inputs-outcomes ratio with the inputs-outcomes ratios of relevant others and finally corrects any inequity.
1. The **referents** are the persons, systems, or selves against which individuals compare themselves to assess equity.

2. Equity theory recognizes that individuals are concerned with their absolute rewards as well as the relationship of those rewards to what others receive.

3. What will employees do when they perceive an inequity? a. Distort either their own or others' inputs or outcomes.
b. Behave in some way to induce others to change their inputs or outcomes.
c. Behave in some way to change their inputs or outcomes.
d. Choose a different comparison person.
e. Quit their job

Power is the capacity to affect the behavior of others.
There are different types of power depending upon their sources originally identified by French and Raven.
1. Legitimate power stems from a position's placement in the managerial hierarchy and the authority vested in the position.
2. Reward power is based on the capacity to control and provide valued rewards to others.
3. Coercive power is based on the ability to obtain compliance through fear of punishment.
4. Expert power is based on the possession of expertise that is valued by others.
5. Information power result from access to and control over the distribution of important information about organizational operations and future plans.

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

6. Referent power results from being admired, personally identified with, or liked by others

1. Three types of leadership behavior styles were identified.

a. **Autocratic** leaders tend to make unilateral decisions, dictate work methods, limit worker knowledge about goals to just the next step to be performed, and sometimes give feedback that is punitive.
b. **Democratic** leaders tend to involve the group in decision making, let the group determine work methods, make overall goals known, and use feedback as an opportunity for helpful coaching.

c. **Laissez-faire** leaders generally give the group complete freedom, provide necessary materials, participate only to answer questions, and avoid giving feedback.

Group processes are the dynamic, inner workings of groups as they operate over a period of time.

1. Process loss is the energy diverted from the task to develop and operate the group itself.
2. **Positive synergy** is the force that results when the combined gains from group interaction (as opposed to individuals operating alone) are greater than group process losses.
3. **Negative synergy** is the force that results when group process losses are greater than any gains achieved from combining the forces of group members.

Stages of Groups Development
1. It has been proposed that groups progress through a series of five stages, but may regress with changes in membership. a. Stage 1: **Forming** occurs as group members attempt to assess the ground rules that will apply to a task and to group interaction.
b. Stage 2: **Storming** occurs as group members experience conflict with one another as they locate and attempt to resolve differences of opinion regarding key issues.

c. Stage 3: **Norming** occurs as group members begin to build group cohesion, as well as develop a consensus about norms for performing a task and relating to one another.

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

d. Stage 4: **Performing** occurs as energy is channeled toward a task and as norms support teamwork.

e. Stage 5: **Adjourning** occurs as group members prepare for disengagement as the group nears successful completion of its goals.

Techniques for Improving Group Decision Making.

a. **Brainstorming** is an idea-generating process that encourages alternatives while withholding criticism.

b. **Nominal group technique** is a group decision-making technique in which group members are physically present but operate independently.
c. **Electronic meetings** are one way that decision-making groups can interact by way of linked computers.

There are different types of teams. Four characteristics can be used to distinguish different types of teams.
1. Teams can vary in their *purpose or goal.*

2. The *duration* of a team tends to be either permanent or temporary.
3. *Team membership* can be either functional or cross-functional.
4. Finally, teams can either be *supervised or self-managed.*
5. Given these four characteristics, some of the most popular types of teams used today include the following:

a. A **functional team** is a type of work team that is composed of a manager and his or her subordinates from a particular functional area.
b. A **self-directed or self-managed team** is one that operates without a manager and is responsible for a complete work process or segment that delivers a product or service to an external or internal customer.
c. A **virtual team** is one that uses computer technology to link physically dispersed members in order to achieve a common goal.

d. Finally, a **cross-functional team** is one in which individuals who are experts in various specialties (or functions) work together on various organizational tasks.

There are eight characteristics associated with effective teams.

03063548328 Sonu Ilyas Mughal

A complete academy for all subjects and projects

1. Clear goals

2. Relevant skills
3. Mutual trust
4. Unified commitment
5. Good communication
6. Negotiating skills
7. Appropriate leadership
8. Internal and external support

The communication process can be analyzed into its basic components

1. The **sender** is the initiator of the message.

2. **Encoding** is the process of translating the intended meaning into symbols. a. Symbols include words and gestures.
b. The sender's choice of symbols depends upon 1) Sender encoding skills.
2) Assessments of the ability of the intended receiver to understand various symbols
3) Judgments regarding the appropriateness of the use of certain symbols
4) Past experience in similar situations
5) Job status and education
6) Emotional state at the time of the communication attempt

3. The **message** is the encoding-process outcome, which consists of verbal and nonverbal symbols that have been developed to convey meaning to the receiver. a. The **medium** is the method used to convey the message to the intended receiver, e.g., telephone, meeting, formal report.

b. Factors to consider when selecting a medium include relative speed, cost, intelligibility, convenience, timing, flow of communication, feedback options, interpersonal dynamics, and documentation.

4. The **receiver** is the person with whom the message is exchanged.

a. **Decoding** is the process of translating the symbols into the interpreted message. 1) Effective communication results in the senders and receivers achieving a common meaning.

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

2) The receiver needs to consider the medium and the context of the message.

b. **Noise** is any factor in the communication process that interferes with exchanging messages and achieving common meaning.
c. **Feedback** is the basic response of the receiver to the interpreted message. 1) The receiver becomes the sender during feedback.
2) Feedback provides preliminary information to the sender about the success of the communication.

3) **One-way communication** is the communication that results when the communication process does not allow for feedback.
4) **Two-way communication** is the communication that results when the communication process explicitly includes feedback.

ORGANIZATIONAL COMMUNICATION
Formal versus Informal Communication
1. **Formal communication** refers to communication that follows the official chain of command or is part of the communication required to do one's job.
2. **Informal communication** is organizational communication that is not defined by the organization's structural hierarchy. a. Informal communication systems permit employees to satisfy their needs for social interaction.
b. Informal communication systems can improve an organization's performance by creating alternative, and frequently faster and more efficient, channels of communication.

Direction of Communication Flow
1. **Downward communication**—flows from a manager to employees and is used to inform, direct, coordinate, and evaluate employees.

2. **Upward communication** flows from employees to managers a. Upward communication can be used in order to keep managers aware of how employees feel about their jobs, their coworkers, and the organization in general.

b. The organizational culture influences the extent of upward communication. A climate of trust, respect, and participative decision making will encourage

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

considerable upward communication. A highly mechanistic and authoritarian environment will severely limit upward communication in both style and content.

What Is Organizational Performance?
Performance is the end result of an activity. Managers are concerned with **organizational performance—** the accumulated end results of all the organization's work process and activities.
Measures of Organizational Performance
Employees need to see the connection between what they do and the outcomes. The most frequently used organizational performance measures include organizational productivity, organizational effectiveness, and industry rankings.

Some of important QA SOLVED

Answer to Test Yourself on Management Viewpoints and Theories!!!!
1. What are some early evidences of management practice?

Some early evidences of management practice are the Egyptian pyramids, the Great Wall of China, and the status of Venice as a major economic trade center in the 1400s.
2. Explain why division of labor and the Industrial Revolution were important to the study of management.

Division of labor increases productivity by increasing each worker's skill and dexterity, saves time that is commonly lost in changing tasks, and creates labor-saving inventions and machinery. During the Industrial Revolution, business owners were creating large businesses that required formalized management practice.
3. What are the four major approaches to the study of management?

The four major approaches to the study of management are scientific, general administrative, quantitative, and organizational behavior. Each is correct and makes an important contribution to our overall understanding of management.
Principles of Management – MGT503 **VU**
4. What relevance does scientific management have to current management practice?

Scientific management is the use of scientific methods to define the "one best way" for a job to be done. Its relevance to current management practice is that managers

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

still use many of the techniques developed by Taylor, the Gilbreth, and other practitioners.

5. Describe Frederick W. Taylor's contributions to scientific management?

Frederick Taylor defined four principles of management—develops a science for each element of an individual's work; scientifically select, train, teach, and develop each worker; cooperate with workers to ensure that all work is done in accordance with the principles of science; and divide work and responsibility almost equally between management and workers.

6. Explain Frank and Lillian Gilbreth's contributions to scientific management?

Frank and Lillian Gilbreth studied work arrangements to eliminate wasteful hand and body motions. They also experimented with the design and use of proper tools and equipment for optimizing work performance.

7. Describe Fayol's principles of management and how they compare with Taylor's?

Henri Fayol's principles of management were division of work, authority, discipline, unity of command, unity of direction, subordination of individual interests, remuneration, centralization, scalar chain, order, equity, and stability of tenure of personnel, initiative, and esprit de corps. In contrast to Taylor's principles, Fayol's focused on the entire organization and not just the individual worker.

8. What did Weber contribution to the general administrative theories of management?

Max Weber described an ideal type of organization called a bureaucracy, characterized by division of labor, a clearly defined hierarchy, detailed rules and regulations, and impersonal relationships. Rules and controls were to be applied uniformly, avoiding involvement with individual personalities and preferences of employees.

9. Explain how the quantitative approach evolved and how it has contributed to the field of management.

The quantitative approach, also called operations research or management science, is the use of quantitative techniques to improve decision making, and it evolved out of the development of mathematical and statistical solutions to military problems during World War II. After the war, many quantitative techniques that had been used for military problems were applied to the business sector. The quantitative approach has added another dimension to the evolution of management practice

You may contact for more solved papers and Complete files of all Subject
03063548328 Sonu Ilyas Mughal

and thinking and has contributed most directly to management decision making in planning and control.

10. What is organizational behavior?
Organizational behavior is the field of study concerned with the actions or behavior of people at work.
11. What were some of the contributions of the early advocates of OB?

Early advocates of the OB approach were Robert Owen, who proposed an idealized workplace where work hours would be regulated, child labor outlawed, public education and meals provided, and business involved in community projects; Hugo Munsterberg, who created the field of industrial psychology, the study of individuals at work to maximize their productivity and adjustment; Mary Parker Follett, who thought that organizations should be based on a group ethic rather than on individualism to release individual potential; and Chester Barnard, who saw organizations as social systems that required human cooperation.
12. Describe the Hawthorne studies and their contribution to management practice.

The Hawthorne studies, conducted at the Western Electric Company Works in Cicero Illinois, from 1924 through the early 1930s, exposed an experimental group of workers to various lighting intensities while providing a control group with constant intensity. As the level of light was increased in the experimental group, the output of both groups increased. The series of studies led to a new emphasis on the human behavior factor and helped change the dominant theme of the time that employees were not different from any other machines the organization used.

13. How is globalization affecting the way managers do their jobs?
Management is no longer constrained by national borders, and managers in organizations of all sizes and types around the world are faced with the opportunities and challenges of operating in a global market.
14. What is workforce diversity, and what implications does it have for managers?

Workforce diversity exists when workers are more heterogeneous in terms of gender, race, ethnicity, age, and other characteristics that reflect their differences. It's an important issue because as more women, minorities, elderly, and immigrants enter the job market in the first part of the 21st century, monumental changes are predicted in the workplace.
15. Discuss the three important themes in the definition of entrepreneurship?

First, is the pursuit of opportunities, because entrepreneurship is about pursuing environmental trends and changes that no one else has seen or paid attention to. Second, is innovation, because entrepreneurship involves changing, revolutionizing, transforming, and introducing products or services or new ways of doing business. Third, is growth, because entrepreneurs are not content to stay small or to stay the same in size.

16. How is e-commerce different from e-business, and what are the main forms of e-commerce transactions?
E-business is more than e-commerce, although e-business can include e-commerce. E-business is a comprehensive term describing the way an organization does its work by using electronic linkages with its key constituencies. The main forms of e-commerce transactions are **business-to-business, business-to-consumer, consumer-to-consumer, and government-to-business**.
17. Describe the three categories of e-business involvement.

The three main categories of e-business are: **enhanced**—using the Internet to enhance but not replace traditional ways of doing business; **enabled**—using the Internet to perform its traditional business functions better, but not to sell anything; **tota**l—whole existence is made possible by and revolves around the Internet.
18. Why should managers be concerned about innovation and flexibility?

Without a constant flow of new ideas an organization is doomed to obsolescence or failure. Also, flexibility is required in a context where customers/needs may change overnight, where new competitors come and go quickly, and where employees and their skills are shifted as needed from project to project
19. What is TQM, and how is it affecting manager's jobs?

TQM is a philosophy of management driven by continual improvement and response to customer, employee, and supplier needs and expectations. It encompasses employees and suppliers as well as the people who purchase the organization's goods or services. The objective of managers is to create an organization committed to continuous improvement in work processes.

20. How does knowledge management fit into the concept of a learning organization?

A learning organization is one that has developed the capacity to continuously learn, adapt, and change. Knowledge management involves cultivating a learning culture where organizational members systematically gather knowledge and share it with others in the organization in order to achieve better performance.

21. What is workplace spirituality and how is it an issue that managers must deal with?

Workplace Spirituality is recognition of an inner life that nourishes and is nourished by meaningful work that takes place in the context of community. Workers and society in general, are searching for a deeper understanding of who they are and why they're here on Earth. They want more than just a steady job and a paycheck. Current research studies looking at the relationship between workplace spirituality and productivity have shown interesting results. Workplace spirituality is likely to be manifested in how managers treat employees and how employees' contributions are respected and valued.
