Question no 26:

Answer:

Economic importance of cotton

It is chiefly grown for its fiber which is used for manufacturing of clothes for mankind

1. Cotton lint: It is the most important vegetable fiber and is woven into fabrics either alone or combined with other fibers

2. Fuzz: It is used in production of mattresses, surgical cotton, photographic film and paper.

3. Cotton seed: Depending on varieties, it contains 20-25% semi-drying edible oil which is used for cooking.

4. Cotton seed cake: Seed cakes contain 40% protein and serves as an important concentrated feed for livestock

5. Cotton stem: The stem can be used as organic manure or fuel.
