BT604

Questions:-

1. Definition of ascomycete
2. Defi.....of catabolism 1
3. Defi ....of white 4.biotechnology
4. E coli discoverd in
5. In chemical substance bacteria fungi kill by
6. In spred plating ..sample volume is
7. Obligate aerobese need oxygen(2mcq)
8. batch fermentation...
9. Ascomycete 5marks
10. Antibiotic 5 marks
11. Imperfect fungi
12. Microbial growth
13. Note on yeast
14. Metabolic Regulation 2
15. Uses of Citric Acid 2
16. Factors for oxygen transfer to the medium of fermenter 2
17. Uses of microbial enzymes in industries 5
18. Ways of cell harvesting 3
19. Why foam is produced and what problem is caused during fermentation 3
20. 5 microorganisms named classified as GRAS 3
21. Stirred tank reactors 5
22. Yeast as a eukaryotic host in industrial area 5
23. Recovery product processes 10
24. Describe microbial growth kinetics..2
25. What is imperfect fungi?..2
26. Explain briefly yeast..3
27. What is ATP bioluminator..3
28. Write a note in ascomycetes..5
29. What are Antibiotics and their effect on microbes..5
