PART A: IMPORTANT SHORT QUESTIONS (2–3 Marks)

Q1. What is the correct purpose of using a car horn?

The horn is a safety tool only. It must be used sparingly and only when necessary for safety purposes. Using it out of frustration or to intimidate others is rude and may even be illegal.

Q2. Why is using a mobile phone while driving dangerous?

It distracts the driver, reduces attention and reaction time, takes hands off the wheel, and causes visual distraction. Overall, it significantly impairs driving and endangers everyone on the road.

Q3. What should you do in a minor road accident?

Stay calm, park the car on the side of the road, speak the truth politely, exchange contact numbers with the other driver, and follow up to ensure the situation is properly resolved.

Q4. What is the top priority in a major accident?

Taking care of the injured is the top priority. Emergency services must be called immediately and accurate information about the location and extent of the accident must be provided.

Q5. Why should bikers wear helmets and use rear-view mirrors?

Helmets protect against head injuries in case of accidents. Rear-view mirrors reduce blind spots and help bikers see surrounding traffic, enabling better decision-making and safer riding.

Q6. What does going in the direction of traffic flow mean?

It means driving in the same direction as other vehicles. Going against traffic flow is dangerous, increases accident risk, and disrupts road order and predictability for all users.

Q7. How should an effective citizen take care of the environment?

By not littering, disposing of waste in designated bins, recycling, participating in community clean-ups, and reducing pollution. We are responsible for keeping our environment clean for present and future generations.

Q8. What does managing time mean for an effective citizen?

It means using time wisely by avoiding unnecessary gossip, reaching places on time, starting and finishing programs on schedule, and prioritizing important tasks over idle activities.

Q9. What is true patriotism according to this course?

True patriotism means doing well, helping others, following laws, and speaking truth. It also means holding leaders accountable and speaking out against injustice — not blindly supporting leadership regardless of their actions.

Q10. What are the three motives for doing good?

The three motives are: (1) Good feelings — inner satisfaction and happiness. (2) Pleasing God — fulfilling religious duty and gaining spiritual fulfillment. (3) Helping society — contributing positively to community well-being.

Q11. Why must evil be discouraged?

Because silence is seen as approval. If evil is not stopped, it spreads in society, finds a place in people's hearts, becomes contagious like a disease, and becomes very difficult to remove.

Q12. What is the role of NGOs in society?

NGOs address social problems like poverty, disease, and environmental issues that governments and individuals cannot solve alone. They work without profit motives and fill gaps left by government institutions.

Q13. What is the right to choose in democracy?

Every Pakistani citizen has the right to vote and choose their political leaders. This participation gives citizens a sense of ownership and involvement in the governance system and fosters motivation for better leadership.

Q14. Why is complete information important in democracy?

Without full information, citizens cannot make correct decisions. Incomplete or one-sided information leads to wrong conclusions, poor leadership choices, and undermines the democratic process.

Q15. What is the role of an effective citizen in correcting others?

They must correct others intelligently, politely, privately, and at the right time. Correction can be done through words, actions, or fiction while maintaining a positive spirit and highlighting the person's good qualities.

Q16. What should a witness do at an accident scene?

A witness should help if possible or leave to avoid blocking traffic. Unnecessary presence at an accident scene causes chaos, delays emergency services, and creates road congestion.

Q17. How does incorrect parking harm society?

Wrong parking blocks traffic flow, prevents other vehicles from moving, causes congestion, creates safety hazards, and may result in fines. It disrupts orderly road use for all citizens.

Q18. What is the role of media in community development?

Media must create awareness about community problems, encourage citizens to take action, and avoid spreading one-sided or incorrect information. It plays a crucial role in informing and mobilizing society.

Q19. How should elderly people be treated in a community?

With respect and dignity regardless of age or ability. Their care is a collective responsibility of family, community, and society. When families cannot provide full care, alternatives like old people's homes must be arranged.

Q20. What makes a good friend according to effective citizenship?

A good friend gives honest, sincere advice, supports others in difficulty, discourages unethical actions, and contributes to the personal growth of friends and society. True friendship never supports wrong behavior.

PART B: IMPORTANT LONG QUESTIONS (5+ Marks)

LQ1. Explain correct behavior while driving: use of horn, mobile phones, and right attitude in accidents.

Answer:

Use of Horn:

The horn is a safety tool — not a communication device for anger. It should be used sparingly and only when necessary for safety. Excessive honking is rude, may be illegal, and can cause road rage. Using the horn to intimidate others creates unnecessary tension and can distract pedestrians or other drivers, leading to accidents.

Mobile Phone Use:

Using a mobile phone while driving is extremely dangerous. It reduces the driver's attention and reaction time. Handling the phone requires taking hands off the wheel, reducing vehicle control. Drivers look at screens instead of the road (visual distraction). Overall, it significantly impairs driving performance.

Right Attitude in Accidents:

Minor Accident: Stay calm, park on the side, speak the truth, exchange contact numbers, and follow up to resolve the matter.

Major Accident: Prioritize the injured, call emergency services immediately, and provide accurate information about location and injuries.

As a Witness: Help if you can, otherwise leave. Do not block traffic or delay emergency services.

LQ2. Discuss how an effective citizen contributes to community development.

Answer:

Creating Awareness:

Citizens must recognize community problems. Leaders, schools, mosques, churches, temples, and media all play vital roles in spreading awareness and encouraging action.

Educational Institutions:

Schools and universities educate students about community responsibilities and the importance of civic participation.

Places of Worship:

Mosques, churches, and temples guide their followers toward community service and social responsibility.

Media:

TV, newspapers, radio, and social media highlight community needs and inspire action — but must avoid spreading false or one-sided information.

Caring for the Elderly:

Elderly care is a collective duty. When families cannot provide full care, community support and alternatives like old people's homes are needed.

Role of NGOs:

NGOs fill gaps left by governments by addressing poverty, disease, and environmental issues. They must be transparent, accountable, and regularly audited.

LQ3. What democratic norms should an effective citizen adopt?**Answer:****Right to Choose:**

Every citizen has the right to vote. This right makes citizens part of the system and builds a sense of ownership, responsibility, and belonging.

Informed Decision-Making:

Citizens must gather complete and accurate information before voting. Emotional attachment to parties or leaders must not override facts and analysis.

Norms of Disagreement:

Discussions in democracy are natural but must remain within moral limits. Mudslinging, insults, and character assassination destroy the purpose of debate and damage moral values.

Full Information:

Media must provide complete, balanced information. Exaggeration is a lie and must be avoided. Citizens should analyze both strengths and weaknesses of all leaders and parties.

Purpose of Democracy:

Democracy is better than dictatorship because it gives citizens a voice and allows for improvement through elections. Even with its flaws, it allows change and accountability.

LQ4. How should an effective citizen correct others? Explain methods and the spirit of correction.**Answer:****Why Correct Others?**

Correction is a form of helping. If we ignore others' mistakes, those mistakes can harm them, their families, and society. Evil, if unchecked, spreads like a disease and weakens our natural hatred for wrong.

Through Words:

Either directly or indirectly. Indirect correction is often gentler and protects the person's ego. However, some people may need direct correction as they miss indirect hints.

Through Actions/Deeds:

Demonstrating correct behavior in front of someone is often more effective than words. Treating a subordinate kindly in front of a harsh person can correct their behavior effectively.

Through Fiction:

Stories, novels, dramas, and films help people recognize their own mistakes without feeling attacked. Their ego remains unhurt and self-correction becomes possible.

Key Rules of Intelligent Correction:

Choose the right moment (when emotions are calm). Correct privately, not publicly. Use polite tone and positive words. Acknowledge good qualities while mentioning flaws. Make it a team effort, not a personal attack.

Positive Spirit:

Correction should never involve condemnation or showing superiority. The goal is improvement, not humiliation. Always maintain a positive attitude and highlight good qualities alongside pointing out flaws.

LQ5. Explain the role of an effective citizen in environmental care and time management.**Answer:****Environmental Care:**

Every citizen is responsible for keeping the environment clean for present and future generations.

Key duties: Not throwing garbage outside homes, cars, or in public spaces. Picking up litter from roads and public areas. Recycling and reducing waste. Participating in community clean-up drives. Reducing air, water, and noise pollution. Littering harms wildlife, pollutes ecosystems, and degrades community beauty.

Time Management:

Time is a limited and precious resource.

Key aspects: Avoid unnecessary gossip — it wastes time and reduces productivity. Reach places on time — shows respect and reliability. Start programs on time — demonstrates professionalism and reliability. Finish programs on time — respects participants' schedules and ensures all content is covered properly.

Good time management reduces stress, improves productivity, and leads to personal and social success.

LQ6. Discuss the different roles of an effective citizen in personal and professional life.**Answer:****As a Parent:**

Generate patriotism and love of country in children. Provide quality education, know your children's company, and create a positive home environment.

As a Child:

Be respectful toward parents. Learn their positive qualities and avoid their negative habits. Help parents whenever needed.

As a Student:

Have an urge to learn. Respect teachers. Find your area of interest and give extra effort to it to achieve excellence.

As a Professional:

Foster connections, share insights, attend conferences, and continuously improve. A prosperous community is built on the professional growth of its people.

As a Businessperson:

Be honest in all transactions. Support customers. Give back to society through social initiatives like poverty alleviation and education.

As an Employer:

Offer fair compensation, provide a positive work environment, and show additional kindness to employees.

As an Employee:

Be loyal, use time efficiently, protect company resources, maintain confidentiality, and never engage in illegal or immoral activities.

PART F: FREQUENTLY CONFUSED POINTS

Concept	Wrong Thinking (TRAP)	Correct Understanding
Horn Use	Horn can be used to express frustration in traffic.	Horn is ONLY for safety. Using it for frustration is rude and possibly illegal.
Strictness vs. Rudeness	Being strict is the same as being rude.	Strictness = being serious when needed. Rudeness = constant anger and disrespect.
Patriotism	A patriot always supports their country's leaders.	True patriotism includes speaking out against injustice and holding leaders accountable.
Self-Praise	Loving praise is always good for motivation.	Limited appreciation is natural; obsession with praise leads to arrogance and poor decisions.
Democracy vs. Dictatorship	Dictatorship is more efficient so it might be better.	Democracy, despite flaws, is better because it gives citizens a voice and creates accountability.
Correcting vs. Condemning	Correcting someone means criticizing them harshly.	Correction is a positive helping act done with care, good tone, right timing, and acknowledging good qualities.
NGOs vs. Govt. Orgs	NGOs are government departments.	NGOs are independent, non-profit organizations that address social gaps governments cannot fill alone.
Minor vs. Major Accident	Both accidents need the same response.	Minor = stay calm, park, exchange numbers. Major = attend to injured FIRST, then call emergency services.
Encouraging Virtue	More praise always encourages virtue better.	Encouragement is good but exaggeration is a lie. Accurate and honest praise truly encourages virtue.
Community Dev.	Community development is only the government's job.	It is a shared responsibility of citizens, leaders, institutions, places of worship, media, and NGOs.
