PAID VU LMS HANDLING by Mam Mehwish 03184148783
Past Papers for Mids./Finals are also Available

1. If you want to search for an exact phrase on Google then enclose it in_____.

Options:

a) Parentheses

b) Quotation marks

c) Brackets

d) Curly braces

Correct option: b) Quotation marks

2. _____ is the smallest negative number represented by using 16-bit 2's complement notation.

Options:

a) -32768

b) -16384

c) -256

d) -128

Correct option: a) -32768

3. A long string of bits is often called a _____.

Options:

a) Bitset

b) Byte

c) Word

d) Binary string

Correct option: b) Byte

MAM MEHWISH 03184148783

4. If binary representation of 8 is 1000, then how is -8 written in 2's complement notation?

Options:

a) 1000

b) 0100

c) 0000

d) 11111000

Correct option: d) 11111000

5. The "inurl" operator finds ___ web pages which contains the mentioned query in the URL of the web pages.

Options:

a) Many

b) Some

c) All

d) None

Correct option: c) All

6. FIFO is abbreviation of?

Options:

a) First initiate first out

b) First in first occupied

c) First in first out

d) For in for out

Correct option: c) First in first out

7. If a string of 8 bits undergoes a right circular shift of 2 bits, how many bits are required for an equivalent left circular shift?

Options:

a) 1 bit

MAM MEHWISH 03184148783

b) 2 bits

c) 3 bits

d) 4 bits

Correct option: b) 2 bits

8. The computers of the _____were not very flexible or efficient.

Options:

a) 1961s and 1970s

b) 1940s and 1950s

c) 1950s and 1960s

d) 1930s

Correct option: c) 1950s and 1960s

9. Which register contains the address of the next instruction?

Options:

a) Data register

b) Address register

c) Program counter

d) Instruction register

Correct option: c) Program counter

10. What type of software is employed for tasks specifically tied to machine utilization?

Options:

a) Device drivers

b) System software

c) Utility software

d) Application software

Correct option: a) Device drivers

MAM MEHWISH 03184148783

1. All bit patterns, which represent positive numbers in excess notation start with _____.

Options:

a) 0

b) 1

c) 2

d) 3

Correct option: b) 1

2. The hackers normally add many _____to such websites as the information seeker of free music.

Options:

a) Cookies

b) Malware

c) Bugs

d) Viruses

Correct option: b) Malware

3. The process involved in a_____ is like copying the data rather than moving it.

Options:

a) Shift instruction

b) Jump instruction

c) Transfer instruction

d) Add instruction

Correct option: c) Transfer instruction

4. Shift instruction Jump instructionTransfer instructionAdd instruction

Correct option: Transfer instruction

5. Truncation Error is a problem that occurs in_____.

Options:

MAM MEHWISH 03184148783

a) Excess notation

b) Excess-3 notation

c) Floating point notation

d) Two's complement notation

Correct option: c) Floating point notation

6. In the context of computer networks, WWW stands for _____.

Options:

a) Web World Wild

b) World Wild West

c) World Wide Web

d) World Wide West

Correct option: c) World Wide Web

7. If we are interested to see the map of some location, we can use map operator in the following way:
Map: Location Location: mapLocationsMph: map

Correct option: Location: map

8. The transfer of data sequentially is known as:

Options:

a) Serial communication

b) Simple communication

c) Direct communication

d) Parallel communication

Correct option: a) Serial communication

9. We can use _____ Boolean operators specially to find relevant pages.

Options:

a) Not

MAM MEHWISH 03184148783

b) And

c) Or

d) If else

Correct options: b) And, c) Or

10. Using MPEG techniques, video presentations can be successfully relayed over communication paths that provide transfer rates of.

Options:

a) 0.1 to 1 Mbps

b) 1 to 5 Mbps

c) 1.5 to 9 Mbps

d) Above 10 Mbps

Correct option: c) 1.5 to 9 Mbps

1. Software units that communicate with the controller or directly with peripheral devices are termed:

- A) Operating system
- B) Utility program
- C) System software
- D) Device drivers
- Correct option: D) Device drivers

2. What type of software is employed for tasks specifically tied to machine utilization?

- A) System software
- B) Device drivers
- C) Application software
- Correct option: A) System software

3. What would be the output when we apply NOT operation on input 1?

- A) 0

MAM MEHWISH 03184148783

- B) 1

- C) Undefined

- D) Error

- Correct option: A) 0

4. In 2-bit binary addition, how many possibilities are there?

- A) Two

- B) Three

- C) Four

- D) Five

- Correct option: C) Four

5. A _____ is a machine that can be programmed to carry out a complex series of actions automatically or guided by an external control device.

- A) Robot

- B) Motherboard

- C) Network

- D) Cell phone

- Correct option: A) Robot

6. Which tool is used by users to visualize directories or files?

- A) Internet Explorer

- B) User interface

- C) Windows Explorer

- D) Microsoft Explorer

- Correct option: C) Windows Explorer

7. What communication type involves the simultaneous transfer of signals on separate lines?

- A) Serial communication

MAM MEHWISH 03184148783

- B) Network communication
- C) Parallel communication
- D) Computer communication
- Correct option: C) Parallel communication

8. Which register contains the address of the next instruction?
- A) Data register
- B) Program counter
- C) Address register
- D) Instruction register
- Correct option: B) Program counter

9. What is the term for breaking tasks into subtasks compatible with the available processors?
- A) Interactive Processing
- B) Throughput
- C) Scaling
- Correct option: C) Scaling
