CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 8 of 10 (Start time: 02:44:36 PM, 17 June 2025)

The internet software has _____ layers.

Select the correct option

○	2
○	6
◉	4
○	3

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 3 of 10 (Start time: 03:01:47 PM, 17 June 2025)

Which loop structure refers as a pretest loop?

Select the correct option

○	For each
○	For
◉	While
○	Do while

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 9 of 10 (Start time: 02:44:55 PM, 17 June 2025)

Which of the following is not malware?

Select the correct option

◉	Antivirus
○	Trojan Horses
○	Spyware
○	Worms

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 10 of 10 (Start time: 02:48:30 PM, 17 June 2025)

_____ is not an Object Oriented Programming Language.

Select the correct option

○	C#
◉	HTML
○	Java
○	C++

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 2 of 10 (Start time: 02:46:31 PM, 17 June 2025)

Which of the following symbol is used as assignment operator in Ada.

Select the correct option

○	=
○	,
●	:=
○	;

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 6 of 10 (Start time: 02:47:33 PM, 17 June 2025)

A paradigm works on object called

Select the correct option

○	Imperative paradigm
○	Functional paradigm
◉	Object oriented paradigm
○	Declarative paradigm

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 10 of 10 (Start time: 02:45:08 PM, 17 June 2025)

What is a software license?

Select the correct option

◉	A legal agreement between software developers and user
○	A document that transfers ownership rights
○	A permission to change software working
○	A legal notice for copyright infringement

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 3 of 10 (Start time: 02:46:50 PM, 17 June 2025)

Which of the following language is related to functional paradigm.

Select the correct option

○	Python
○	Smalltalk
○	Prolog
●	LISP

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 5 of 10 (Start time: 02:47:20 PM, 17 June 2025)

Sequential Search Algorithm technique _____ in success.

Select the correct option

○	is always optimal
●	does not always result
○	always result
○	is fast

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 1 of 10 (Start time: 02:42:40 PM, 17 June 2025)

The term cohesion refers to this _____.

Select the correct option

○	external binding
◉	internal binding
○	control coupling
○	data coupling

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 3 of 10 (Start time: 02:43:08 PM, 17 June 2025)

Which of the following is not the advantage of TCP over UDP?

Select the correct option

- (●) Efficiency
- ( ) Flow control
- ( ) Congestion control
- ( ) Connection establishment

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 8 of 10 (Start time: 02:48:01 PM, 17 June 2025)

The Manufactured Product moves into Maintenance phase for _____ .

Select the correct option

○	Error removal
○	Error correction
○	Error detection
●	Repair process

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 7 of 10 (Start time: 02:47:48 PM, 17 June 2025)

Which of the following is not involved in the research and standardization of Software Quality Assurance?

Select the correct option

○	ISO
○	ACM
○	IEEE
●	ITM

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 5 of 10 (Start time: 03:02:16 PM, 17 June 2025)

What is the purpose of system documentation?

Select the correct option

○	Serve as a marketing tool.
○	Provide information for system installation.
○	Explain how to use the software features.
●	Describe the software's internal composition for maintenance.

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 7 of 10 (Start time: 03:02:54 PM, 17 June 2025)

What will be the output of the following statement?
int a = 10 + 4.867;

Select the correct option

◉	14
○	14.867
○	Compiler error.
○	10

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 4 of 10 (Start time: 02:43:23 PM, 17 June 2025)

What describes the relationship between a process and an algorithm?

Select the correct option

◉	A process is the activity of executing an algorithm
○	A process is a static representation of an algorithm.
○	Both the terms are the same and interchangeable.
○	An algorithm is the activity of executing a process.

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 2 of 10 (Start time: 03:01:32 PM, 17 June 2025)

When applied to a list with n entries, the binary search algorithm will interrogate an average of ------ entries

Select the correct option

○	Logn
●	Log2n
○	Nlogn
○	N

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 8 of 10 (Start time: 03:03:08 PM, 17 June 2025)

Someone can conclude that specifications of a software are met or not by:

Select the correct option

○	Verification
○	Requirement gathering
◉	Validation
○	Modularity

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 6 of 10 (Start time: 03:02:38 PM, 17 June 2025)

How does the loop structure contribute to the flexibility of an algorithm?

Select the correct option

○	By increasing the error-proneness.
○	By reducing the flexibility of the algorithm.
○	By explicitly writing the body multiple times.
◉	By allowing for a variable number of iterations.

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 7 of 10 (Start time: 02:44:25 PM, 17 June 2025)

In the Java programming language, what is the equivalent term for an "activation" in the context of concurrent processing?

Select the correct option

○	Task
◉	Thread
○	Operation
○	Function

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 9 of 10 (Start time: 02:48:15 PM, 17 June 2025)

A process which is used by the software industry to design, develop and test high quality software is known as:

Select the correct option

○	Testing process
◉	Software life cycle
○	Software
○	Development manual

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 4 of 10 (Start time: 02:47:05 PM, 17 June 2025)

What is the significance of the termination condition in the context of loop control?

Select the correct option

○	It ensures the loop body is executed indefinitely
○	It prevents the loop from executing the body
●	It ensures the termination of the looping process
○	It has no impact on loop control

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 5 of 10 (Start time: 02:43:50 PM, 17 June 2025)

What is a digital signature in the context of public-key encryption?

Select the correct option

○	A certificate provided by a trusted authority
○	A method to decrypt messages with private key
○	An encrypted message with public key
◉	An authentic mark on the message produced with the private key

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 2 of 10 (Start time: 02:42:54 PM, 17 June 2025)

The _____ divides long messages into small segments, which are transmitted over the Internet.

Select the correct option

○	Link layer
○	Application layer
◉	Transport layer
○	Network layer

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 1 of 10 (Start time: 02:46:14 PM, 17 June 2025)

What does the term "waterfall" in the waterfall model analogy represent?

Select the correct option

○	The iterative approach to software development
◉	The strict, one-directional flow of the development process
○	The trial-and-error nature of software development
○	The flexibility in the development process

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 10 of 10 (Start time: 03:04:01 PM, 17 June 2025)

What advantage does a loop structure provide over explicitly writing the body multiple times?

Select the correct option

○	It simplifies the structure of the algorithm.
○	It reduces the flexibility of the algorithm.
○	It increases the error-proneness of the algorithm.
◉	It allows for greater flexibility without knowing in advance how many iterations are needed.

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 9 of 10 (Start time: 03:03:25 PM, 17 June 2025)

In the given example, what does the loop do?

```
while (pH level > 4):
    add a drop of sulfuric acid
```

Select the correct option

○	Adds a drop of sulfuric acid regardless of the pH level.
○	Adds a drop of sulfuric acid if the pH level is less than or equal to 4.
●	Adds a drop of sulfuric acid if the pH level is greater than 4.
○	Adds a drop of sulfuric acid only once.

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 6 of 10 (Start time: 02:44:10 PM, 17 June 2025)

In the context of the insertion sort algorithm, what is the restriction imposed on sorting a list?

Select the correct option

- ○ Insertion sort can only be used on the list containing numeric values
- ○ Create a copy of the list to sort items one by one into the new list
- ○ Make a tree of the list to sort entries
- ◉ Sort using the same storage space without extra memory space

sec(s)

CS101 - Introduction to Computing (Semester Quiz # 03) **Quiz Start Time: 03:01 PM, 17 June 2025**

Question # 4 of 10 (Start time: 03:02:00 PM, 17 June 2025) **Total Marks:** 1

Which organizations have adopted and published standards for popular programming languages to address the lack of agreement on language definitions?

Select the correct option

Reload Math Equations

- ○ Programming Language Alliance
- ○ International Compiler Consortium
- ○ Compiler Writers Association
- ◉ American National Standards Institute (ANSI) and International Organization for Standardization (ISO)

Click to Save Answer & Move to Next Question

CS101 - Introduction to Computing (Semester Quiz # 03)

Question # 1 of 10 (Start time: 03:01:07 PM, 17 June 2025)

Which of the following is the correct sequence of network layers for the flow of message at the sender side?

Select the correct option

○	Link layer to Network layer to Transport layer to Application layer
●	Application layer to Transport layer to Network layer to Link layer
○	Network layer to Link layer to Transport layer to Application layer
○	Application layer to Link layer to Network layer to Transport layer
