1. **Assertiveness is ____.**
the degree to which one party attempts to satisfy his/her own concerns
the degree to which one party attempts to satisfy the other party's concerns
the degree to which one party attempts to satisfy everyone's concerns
the degree to which one party is cooperative

"Stage III: Intentions"

Assertiveness is *the degree to which one party attempts to satisfy his or her own concerns*.

Labor-management negotiations over wages exemplifies _____ bargaining.
integrative
cost-effective
distributive
third-party

"Bargaining Strategies"

The most widely cited example of *distributive* bargaining is in labor-management negotiations over wages.
Labor's representatives come to the bargaining table determined to get as much money as possible out of management.
Since every cent more that labor negotiates increases management's costs, each party bargains aggressively and treats
the other as an opponent who must be defeated.

3. ____ bargaining builds long-term relationships and facilitates working together in the future.
Integrative
Cost-effective
Distributive
Third-party

"Bargaining Strategies"

Integrative bargaining builds long-term relationships and facilitates working together in the future.

4. **During which phase of the negotiation process do the parties exchange their initial proposals or demands?**
Preparation and planning
Definition of ground rules
Clarification and justification
Bargaining and problem-solving

"The Negotiation Process"

Once you've done your planning and developed a strategy, you're ready to begin defining the

ground rules and procedures with the other party over the negotiation itself.
During this *definition of ground rules*, the parties will also exchange their initial proposals or demands.

5. **Which of the following is correct about cultural differences in negotiation?**
   Japanese negotiators communicate directly and use the word "no" often.
   In negotiations, Brazilians are likely to use physical contact.
   North America persuade by appealing to emotions.
   Arabs rely on facts and appeal to logic.

Global Implications"

While Japanese and North American negotiators were unlikely to exhibit any physical contact other
than handshaking, Brazilians touched each other almost five times every half hour.

6. **Work specialization is also referred to as ____.**
   span of control
   division of labor
   unity-of-command
   job grouping

"Work Specialization"

Work specialization is also referred to as *division of labor*.

7. **At an Alcoa aluminum tubing plant in upstate New York, production is organized into five departments:casting; press; tubing; finishing and inspecting, packing, and shipping. This is an example of ____ departmentalization.**
   product
   functions
   geography
   process

"Departmentalization"

This is an example of *process* departmentalization because each department specializes in one specific phase in the production of aluminum tubing.

8. **The ___ is characterized by highly routine operating tasks achieved through specialization.**
   matrix organization
   bureaucracy
   simple structure
   team structure

"The Bureaucracy"

The *bureaucracy* is characterized by highly routine operating tasks achieved through specialization,
very formalized rules and regulations, tasks that are grouped into functional departments, centralized authority,
narrow spans of control, and decision making that follows the chain of command.

9. **The ___ violates the unity-of-command concept.**
   simple structure
   bureaucracy
   matrix structure

virtual organization

"The Matrix Structure"

The most obvious structural characteristic of the *matrix structure* is that it breaks the unity-of-command concept. Therefore, the matrix has a dual chain of command.

10. **The ___ is also called the network or modular organization.**
    virtual organization
    team structure
    matrix
    bureaucracy

"The Virtual Organization"

The *virtual organization* is also called the network or modular organization.

11. The boundaryless organization relies heavily on ____.
    information technology
    vertical boundaries
