

# ENG520

**Final-Term (✨✨✨✨✨✨)**

## ABSTRACT

*This comprehensive collection of notes is accurately crafted to empower students to excel academically, ensuring they achieve a minimum of 80% marks in their examinations. The content is organized with clarity and precision, focusing on key concepts, critical analyses, and practical applications tailored to the syllabus. These notes serve as a reliable resource for both thorough preparation and last-minute revision. Designed to inspire confidence and mastery, this guide is an essential tool for students striving for academic excellence.*

Testing and Evaluation

**ENG520_Testing and Evaluation**
**Final-Term (✨✨✨✨✨)**

# 1. Testing & Evaluation

- **Testing**: Measuring students' learning through tests
- **Evaluation**: Judging students' performance using test results

# 2. Objective Test Items

Objective tests have fixed answers and reliable scoring.

### Types:

- True / False
- Multiple Choice (MCQs)
- Matching
- Short Answer / Completion

# 3. Distractor

A **distractor** is an incorrect option in an MCQ designed to look plausible.

**Purpose**:

- Distinguish strong students from weak ones
- Reduce guessing

# 4. True / False Items

### Uses

- Distinguish fact from opinion
- Test cause–effect relationship
- Measure basic knowledge

### Advantages

- Easy to construct
- Covers wide content

### Limitations

- High guessing chance
- Measures lower-level learning only

### Suggestions

- Avoid ambiguity
- Avoid negatives
- Avoid trivial statements

# 5. Multiple Choice Questions (MCQs)

### Advantages

- Objective scoring
- Broad syllabus coverage
- Can test higher-order thinking

# 6. Matching Exercises

### Definition

Two columns: premises & responses to test associations.

### Uses

- Facts, dates, symbols, definitions

### Advantages

- Compact
- Time-saving

### Limitations

- Measures rote learning
- Prone to clues

# 7. Short Answer & Completion Items

### Definition

Supply-type questions answered by word, phrase, number, or symbol.

### Uses

- Facts

- Terminology
- Simple interpretation

### Limitations

- Cannot test complex skills

### Suggestions

- Ask direct questions
- Keep answers brief & specific

## 8. Essay Type Questions

### Types

1. **Restricted Response** – limited answer
2. **Extended Response** – free, detailed answer

### Learning Outcomes

- Analysis
- Comparison
- Cause–effect
- Evaluation

### Advantages

- Test higher-order thinking
- No guessing

### Limitations

- Scoring is subjective
- Time consuming

## 9. Scoring Rubrics

### Rubric

A set of criteria for scoring performance.

### Types

- **Holistic**: overall judgment
- **Analytic**: separate criteria scores

### Steps to Design Rubric

1. Identify goal
2. Select criteria
3. Create rubric
4. Share with students

# 10. Item Analysis

Used to improve test quality.

### Common Statistics

- Item difficulty (p-value)
- Item discrimination

# 11. Item Difficulty (CTT)

- Proportion of students answering correctly
- Range: 0.00 – 1.00
- 0.4–0.6 = moderate difficulty

# 12. Distractor Analysis

Checks how well incorrect options work.

# 13. Test Theories

### Classical Test Theory (CTT)

- Focuses on test-level scores

### Item Response Theory (IRT)

- Links ability (θ) with item response

# 14. Item Characteristic Curve (ICC)

Graph showing:

- Item difficulty
- Discrimination
- Guessing

# 15. Guessing in IRT

### Types

- Blind guessing
- Informed guessing

Represented by **G-parameter**

# 16. Test Administration Issues

- Cheating
- Test anxiety
- Poor conditions
- Scoring errors

### Solutions

- Clear rules
- Time warnings
- Supportive environment

# 17. High-Stakes Testing

Tests affecting students' future (SSC, HSSC, IELTS).

### Recommendations

- Fairness
- Alignment with curriculum
- Valid passing scores

# 18. Standardized vs Informal Tests

- **Standardized**: norm-referenced, professionally designed
- **Informal**: teacher-made, criterion-referenced

# 19. Achievement Test

Measures defined learning outcomes.

### Features

- Reliable
- Standard administration
- Norms provided

## 20. Raw Score

Total marks obtained without interpretation.

## 21. Norm vs Criterion Referenced

- **Norm-referenced**: compares students
- **Criterion-referenced**: measures mastery

## 22. Assessment Bodies in Pakistan

- BISEs
- Examination Commission
- Boards of Technical Education

## 23. NEAS (National Education Assessment System)

### Objectives

- Monitor standards
- Inform policy
- Improve teaching & learning

## 24. Motivation During Testing

- Reduce fear
- Encourage best effort
- Maintain calm environment
