Notes Edu 301 Final term

Q#1. Life Skills ?

Answer.

Life skills are Abilities for adaptive and positive behaviour that enable humans to deal with efectively with the demands and challenges of life

(i)- Focus and self control
(ii)- Communicating.
(iii)- Team work.
(iv)- Experience.
(v)- Critical thinking etc.

Q#2. Problem Solving Skills ?

Answer.

Problem Solving is very useful learner centered teaching and learning Strategy Problem Solving Skill is the function of right brain. We do not know problem

Date Day M T W T F S

solving skills if we do not practice it. It is the need of every subject. Roblem solving skills decrease with the passage of time It is very important skill for individuals and organizations because it enable us to exert control over our environment.

Q#3 Democratic Methods?

Answer.

In democratic process when children are involved in this process, children work together to solve the problems e.g while making timetable teacher may involve the students by taking their suggestions. It Allows students to become empowered. It encourages critical thinking.

Date Day M T W T F S

Q#4 Six thinking Hats ?

Answer

(i)- The White Hat.

White hat calls for information known or needed.

(ii)- The Red Hat.

Red hat signifies feelings, hunches and intuition.

(iii)- The Black hat.

Black hat is judgement.

(iv)- The Yellow hat.

The yellow hat symoblizes brightness and optimism.

(v)- The Green hat.

focuses on creativity, the possibilities alternatives and new ideas.

(vi)- The Blue Hat

is used to manage the thinking process.

Date Day M T W T F S

Q#5 Purpose of teaching?

Answer

① Teachers Aids the learning
② Helps others to learn
③ To guide in teaching
④ To Acquire more knowledge
⑤ To discover interests, needs and problems of individuals students.
⑥ To clarify class knowledge

Q#6. Aspects of teaching?

Answer.

(1)- Experts in communication skills.
(2)- Superior listening skills.
(3)- Strong work ethic
(4)- Excellent skills.

Q#7. INQuiry learning?

Answer

inquiry is a big discipline It has own its place in education. inquiry is Actually investigation and it starts with Questioning.

Date Edu 301 Day M T W

Q#7. What is Fragmation?

Answer

Fragmation is said to be very primary level of integration

Connection is advance level form of fragmentation.

Q#8 What is Hypothesis?

Answer

Hypothesis is an educated guess about the relationship between the independent and dependent variables.

Expert opinions are involved in it.

Q#9. Morning Greetings?

Answer.

There are brain cells in the mind of children. Morning Greetings provides the environment which helps in building the connections

Date [ ][ ][ ][ ][ ][ ] Day [ ][ ][ ]

10 Social Skills ?

Answer

Communication skill is most important skill in social skills

① Respecting others
② working independantly
③ Managing time
④ Cooperating.
⑤ Sharing

11 - Scientific Method ?

Answer

Scientific method is tool that helps scientists and the rest of us to solve problems and determine answers to questions in a logical format.

12. Deductive Method ?

Answer. Deductive method needs to prove e.g teacher asks students that " water is necessary for plants to grow". Now teacher asks them to prove it. He gives them

a task to put two plants in the sunlight. Give water to one of the plants and observe it after 15 days and tell which plant grows and which one is withered. Now students are picking that plant grows and which are is withered. Also Needs water. So plants really Need water to grow. inductive Method is opposite to this method teacher directly gives an experiment to the students.

3 Exploratory learning?

Answer.

Exploratory learning is type of learning in which children explore something. It helps students to visit places and explore them. Reports of them are very useful. It is the type of learning that encourages learners to examine and manipulate new material with the purpose of discovery.

Date Day

14- Characteristics of Essential Questions?

Answer

(i)- These Questions are important as well as controversial.

(ii) Recurs Naturally throughout one's learning

(iii) Raise other important Questions

(iv) Require Divergent thinking.

15- Different learning Styles?

Answer.

(i)- Auditory.

(ii)- Visual.

(iii)- Kinesthetic / tactile.

16 Benefits of Cooperative learning?

Answer. Cooperative learning is learning method. It is Umbrella term which covers many other methods. In this learning more than one person work together. It is the method of instruction that has students working together in groups, with the goal of completing a specific task.

Date Ed430l Day

17- What is integration?

Answer

integration means putting things together.

Fragmentation is very primary level of integration

(i)- Nested integration takes Advantages of natural combinations.

(ii) Sequenced integration:

Topics and units are arranged and sequenced to provide a framework for related concepts

(iii)- Shared integration:

In this integration we Mixed model brings two distinct disciplines together into shared single focus

(iv)- Threaded integration:

In this integration we big ideas enlarged. This method thinking skills, social skills, etc

(v)- Integrated.

It is the result of shifting related ideas out of subject matter content

Date Day M T W T F S

vi immersed integration:
focuses on all curricular content on interest and expertise. They make connections between thier choosen topic of interest and subjects.

(vii)- Networked integration:-
It is student-centered. In this method learners knows their topic and can self-direct their focus on necessary resources. created between learners.

*- Case Method is very good approach to know problem solving. It is the integration of skills

18. Inquiry based learning?
Answer. It is form of active learning. It is the strategy that posing Questions, problem of scenario.

Date [ ][ ][ ][ ][ ][ ][ ] Day [M][T][W][T][F][S][S]

19 How the Students learn to work in Groups?

Answer

(i)- Encourage your Students to learn in groups

(ii)- Provide them a decision topic

(iii) Assign a Name of group.

(iv)- Give your times up

(v)- Call Each Group.

20 Advantages of Group discussions?

Answer.

(i)- Group discussions is learner-centred.

(ii)- It gives All members opportunity to give their ideas and opinions on a certain topic.

(iii) It increases confidence.

(iv) Enhance the Abilities to Articulate and defend a position

21 Difference between competitive and cooperative Goal Structure?

Answer. There are different types of goal Structures. (1) Individualistic, Competitive and Cooperative.

Date Day

Competitive goal Structure is when Students percieve that they can obtain their goal if and only if other Students with whom they work fail to obtain their goals.

Cooperative Goal Structure:-

is occurs when Student percieve that they can obtain their goal if and only if the other Students with ~~without~~ whom ~~they~~ they work also obtain their goals

eg Group

22 What is the educational content of Schooling?

Answer.

Educational content ... of special interests ... on education.

It refers to ... who learn through ... experiences learn skills ... It developing thinking skills it is not About memorizing facts. It is about creating creativity

Date [ ][ ][ ][ ][ ][ ][ ][ ] Edu 301 Day [S][M][T][W][T][F][S]

23 Difference between variable and constant ?

Answer.

Variable are much important in scientific method. without variables scientific method cannot Aplied. Variable are those things that can be changed.

Constants are those things that cannot be changed.

e.g size of sugar in cake would be variable even is constant

24 Briefly describe core concept ?

Answer.

Core concepts are declarative knowledge. It can be made clear to learners. Core concept is fundamental, central concept that is essential sometimes called "big idea" It can used to bust up few set of component ideas due to this understanding of solving a problem increases.

Date [ ][ ][ ][ ][ ][ ] Day [M][T][W][T][F][S]

25 What is individual accountability of cooperative learning?

Answer.

We know cooperative learning is method in which learners works together in small groups to achieve a common goal. individual Accountability is the belief that everyone will be Accountable for his/her performance and learning

26 What is rule-example-rule?

Answer.

It is the technique used when explaining something whereby the general principle or rule is given first, then elaborated on with specific examples, and finally summarized by a restatement of the rule.

Date Day M T W T F

28 Lesson planning?

Answer

lesson planning is short term planning lesson plan identifies objectives plans material, resources and activities are mobilized for the selected objectives. It is effective process. It is thinking job.

29 Status Quo in education and teaching?

Answer Status Quo is standardization and high-stakes testing which means narrow curriculum and kills all creativity and joy for learning and teaching

30 Professional and unqualified person?

Answer Professional person is a person who involves [illegible] many concepts and principles in that profession. Professional values for teachers are

Date [ ][ ][ ][ ][ ][ ][ ][ ] Day [ ][ ][ ][ ][ ][ ]

(1) - Commitment

(2) - Honesty

(3) - intellectual honesty

(4) - Reflection in Action

(5) - Reflection on Action

So being profession we should have certain knowledge of the profession.

(ii) Unqualified profession:
Unqualified means that those people are teaching who do not have degrees in education i.e. B.Ed or M.ED.
Unqualified person cannot be sure what is going on they hope they are doing right.

31 Define Studies?
Answer Study is the devotion of time to gaining knowledge by means of books
Studies is used in the sense of search suggestive meaning of research is studies
A work a student does at home.

Date [illegible] [illegible] Day [illegible]

32 Bloom taxonomy ?

Answer It is classification system used to define and distinguish different levels of human cognition i.e thinking learning, and understanding.

(1)- Knowledge.
(2). Comprehension.
(3) Application.
(4). Analysis.
(5)- Synthesis.
(6)- Evaluation.

Bloom was educationist. Taxonomy means classification. He says that learning can take place at six different levels.

33 Societal Needs ?

Answer.

1) Enlightment (2). Recognization
(3) Prosperity (4) Progress
(5) Coherence (6) Survival

Date Day M T W T F S

34 What are interpersonal skills of students?

Answer. The interpersonal skills of the students are improved when they work with their opponents instead of their friends. we need to make the students learn that all students are diversed and we need to know how we communicate with different kinds of people.

These skills are Ability to interact with people through effective listening and communication. It is important for students to have those skills because it helps them connect with people and benefits their personality development too.

35 What should a teacher know while planning a lesson?

Answer. Teacher should know the

(i)- Motivation level of students
(ii)- Content and process consideration
(iii)- Time considerations:-
(iv)- School considerations
(v)- Resource considerations
(vi) Teacher consideration

Date Day M T W T F S

36 What is Unit planning?

Answer.

Unit planning is part of our planing framework.
"Unit planning is the most important as well as the most time consuming level of planning for each teacher."
Unit planning is important because we need to know the reasons for dividing the whole thing into components.
Unit planning helps you to go through whole yearly plans.

37 What is peer learning?

Answer.

Peer learning is concept in which learning, children learn from their peers, they Actually learn more from their peers, than they learn in School by teachers.

Date Day M T W T F S

38 Describe Attention time for small children?

Answer: Attention time for small children is 10 Minutes. For elder it may be 15 Minutes.

39 Difer between Holistic vision or Detailed implementation?

Answer. Good planning has 2 components:- Holistic vision comes from curriculum planning. While detailed implementation comes from lesson planning. They are standards and benchmarks in curriculum development document.

40 Diferent between Education and instruction?

Answer.

instruction is when you teach someone how to do a particular thing.
Education is the result of going to school and learning values and acquiring culture.

Edu 301

Date Final Term Day M T W T F S

41- What is curriculum planning?

Answer. The process concerned with making decisions about what to learn. why and when to organize the teaching and learning process

Two major models of curriculum planning is are The Tayler Model or Taba model.

Tayler Model is focused on four Questions to Shape curriculum.

Taba model is focused on teacher's input.

⇨ Task Analysis Model is very important model for curriculum planning.

42 What is the most important thing that we used in Tayls model and in Bloo Ms taxonomy?

Answer. The important thing that we use in Bloo M taxonomy or Taylor model is that you observe the ultimate behaviours. In both models you identify objectives and then plan Activities.

Date [ ][ ][ ][ ][ ][ ][ ][ ] Day [M][T][W][T][F][S]

43. What is the Application level in cognitive domain?
Answer.
In cognitive domain we use use of dictionery, memorizing facts, Solving Mathmatics etc These are important for Students and teachers as well.

44- Application level in cognitive domain
Answer.
Application level in cognitive domain refers to the Ability to use learned materials in new and concrete Situations. These may include the Application of rules, methods, concepts, principles laws and theories.

45 instructional Aims for lesson planning?
Answer. It is Student-oriented These Aims are broad.
Aims are concerned with purpose Aim is what teacher want to achieve in a lesson or course

Date Day M T W T F S

46 How to define presentation in your own words?

Answer.

There are two types of presentation mode

(1)- Deductive Mode (General to specific)

(2)- inductive Mode (specific to General)

It is useful teaching method to teach concepts and procedures.

inductive Mode is better than deductive mode because it is Child-centered.

inductive mode important thing is process and procedural knowledge.

in deductive children learn reasoning and concepts.

Both Modes also called modes of presentation.

47 Date birth of jean piaget?

Answer.

Date of Birth :- 9 Aug 1896

Date of Death:- 16 sep 1980

48 What is Meant by Reflective practice?

Answer. Reflective practice is very important for teacher. It is

Date Day M T W T F S

Reflective practice is Standard of teaching profession we need to develop those practices
It is of two types. Answer-
(1)- Reflection in Action → Comes from expe
(2)- Reflection on Actio

49 Zone of proximal Development?
Answer. ZPD is gap between Actual and potential level of child is zone of proximal Development. This concept was given by Vygotsky.

50 Short term planning?
Answer. lesson planning is Short term planning. In education set a Activities for a week, a day or a lesson.

51 What is Multi Methodology?
Answer. Diferent type of mental functions occur in the left and right Hemisphere. our brain is composed of right and left hemisphere

Edu301

Date Day M T W T F S

These are responsible for different kinds of functions.

Right	vs	left
(1) Visual		verbal.
(2) Non verbal		logical.
(3) Spatial		Categorical.
(4) Divergent thinking		Convergent thinking
(5) intuition		Detail.

S2 What is Meant by Elaboration Method?

Answer.

Elaboration means Adding on. It requires Concious and deliberate thought during which we relate the new information with something Already known and understood.

S3 What is the Requirements of lesson plan?

Answer. lesson plan is very important document.

(1)- Subject (2) instructional objectives (3) Rationale. (4) Content and process. (5) instructional objectives.

Date Day M T W T F S

54 Three characteristics of performance objectives?

Answer Performance objectives is measurable objectives. A Teacher work hard to create these kind of objectives.

(1)- Performance.
(2)- Condition.
(3)- Criterion measure.

55 What is Meant by condition in education?

Answer.

Condition is a description of the conditions under which learner's performance is to occur. They determine how, when, where and with what of performance.

56 How to define Modeling processes?

Answer. There are Four important modeling processes. ① Attention. ② Retention. ③ Production ④ Motivation.

Date Day M T W T F S

S7. Why Activities are important?

Answer. Activities are very important because we do not teach processes to our students unless we do not include learning Activities.
Due to these students social skills increases.

S8 Why School is important for Social Development?

Answer. Social Development.

(1)- Highly cooperative.
(2)- Has special friends.
(3) observe School rules.
(4) Enjoys Simple table Games.

Due to Social development Children increase their vocabulary and language development.
So School is very important because it provides environment due to this Social development take place.

Date Day

Q8 How you define a Good teacher?

Answer

(1)- Expert in Communication Skills

(2)- Superior listening Skills

(3)- Strong work ethic

(4) Friendliness.

Q9- Some Benefits of Unit Plan?

Answer.

Unit planning is most important as well as the most time consuming level of planning for each teacher

(1)- Shortage of time is Common Complaint by teachers is Solved by using unit plans.

(2) Unit planning helps you to go through whole yearly plans.

(3) It can enhance the Student learning.

(4) It is organized Approach that help teachers reflect upon what students needs to Accomplish each unit, and how and when they will Accomplish it.

Date | Edu 301 | Day

61- What is Meant by Sequencing in education?

Answer.

Sequencing is Art of developing logical plan for instructional Activities.
Such a plan consists of steps.
The steps are in progression.
They start from simple and go to complex.
It lacks logical plan.
sequencing in education means the teacher must come up with At least one example so that the Students can understand the concept easily
According to Research total Sequencing time may be 10 years.

62 Write the Approaches for problem based learning?

Answer. Problem Based learning (PBL) is consist of presenting Students with authentic and meaningfull problem situations that can serve

Date Day M T W T F S

as springboards for investigation and inquiry.
due to this students develop their thinking, problem solving and intellectual skills
It starts from
Problem based learning is start
① from problem engagement.
② inquiry and investigation.
③ Problem Resolution.
④ Problem debriefing.

In this learning Students try to clasify the problem.

63 Diference between instructional vs curriculum development?

Answer.

instructional vs	curriculum develo-
① identify pupil Needs.	identify Societal Needs.
② Writing and sequencing objectives.	Writing standards of sequence
③ selecting methods.	Benchmash in Sequence.
④ Assesment procedures	Assesment.
⑤ Resources.	Resources

Date Day M T W T F S

64 What is Meant by projects?

Answer.

By projects we developed skills.

① Critical thinking skills.
② Creative thinking skills.
③ Social skills

Project provide perfect opportunities for teachers to plan mini conference. They should provide structure for sharing of students work.

kind of projects-

(1) Exploratory projects.
(2) Research projects.
(3) Product focused projects.

Roject types are

(1) Making a classroom cookbook.
② Making cookbook for diabties.
③ Making cookbook for high Blood pressure.

Projects tend to multidimensional and they encourage student to extend their understanding.

Date Day M T W T F S

65 History of Reflective practice?
Answer.
Earlier in 20th century John Dewey was among the first to write about reflective practice with his exploration of experience, interaction and reflection.
Soon after other researcher Jean Piaget or kurt Lewin also developing relevant theories of human learning and development.

66 Write Advantages of cooperative learning?
Answer.
(1) Students work in teams to master learning goals.
(2) Teams are made up of high, average and low achieving students.
(3) Wherever possible, teams include a racial, cultural and gender mix.

67 What is planning?
Answer. A planning is process of thinking about the Activities required to Achieve a desired goal.

Edu301

Date | Day M T W T F S

68- Difference between Essential Questions or Unit Question?

Answer

Essential Questions.	Unit Questions.
① Must a story have Moral. Hero or Vilian	What is Moral of Story) who is Hero in Story.
② who is friend?	② Are Pakistan and iran good friends

69- Write Name of three countries which using pre-School?

Answer.

in British called as "Nursery".
in United States as "pre-School or pre-K"
in Pakistan there are different Names -
In private sector ie Montessori education, Kindergarten education play group, toddler or kids education.

In Gov sector called as "Kachi Class".

Date Day M T W T F S

70. Developmental Milestone?

Answer.

Developmental Milestone are set of functional skills or age-specific tasks that most children can do at certain age range. All children are unique they have their own developmental milestones e.g some start walking very son some take lot of time.

71- What is integrated curriculum?

Answer.

The integrated curriculum is great gift to experienced teachers. It is like getting a new pair of lenses that make teaching a lot more exiting and help us look forward into the next century. It helps student take control of their own learning. integrated curriculum combines disciplines in a synergistic manner that makes the knowledge of one subject inseperable from that of another subject.

Date Day M T W T F S

72 Extrinsic or intrinsic motivation?

Answer.

intrinsic motivation may be defined as what motivates us to do something when we dont have to do anything.

Extrinsic or intrinsic are two opposing ways to motivate people.

Extrinsic motivation deals with motivation that are outside of your passions, and personel self esteem e.g Money, bonuses, nice cars expensive houses etc

intrinsic motivation is you get paid for doing what you truly enjoy doing. nice cars and houses dont motivate you as much as your joy in work.

73 Approaches for problem based learning?

Answer (1) Modeling (2) Guiding (3) Fade out

Date Day

74- 1st step in Lesson plan?

Answer.

Starts with Subject
Chose learning goal-

75. What is critical thinking?

Answer.

The process of determining the Authenticity, Accuracy or value of something characterized by the Ability to seek reasons and Alternatives, percieve the total Situations, and change one's view based on evidence Also called logical thinking.

It is the disciplined manner of thought that a person uses to Access the validity of something.

76- According to Bandura three things in Modeling?

Answer ① observational learning
② inhibitory effect.
③ Disinhibitory effect

Edu301

Date ☐☐☐☐☐☐☐☐ Day M T W T F S

77 What type of changes in Adolsence ?

Answer.

Adolsence is a time of profound brain growth and change is contrary to long-held ideas. that the brain was mostly fully formed by the end of childhood.

During 2nd decade of life several changes occur in our brai

By the end of Adolsense, the human brain, the most complicated three pound mass of matter in the known universe, contains over 10 billion Neurons and 100 Billion support cells 10 billion Neurons from over 100 trillion connections

our brain like computer can maturing circuit-neural connections that can perform several tasks.

Date Day M T W T F S

78 How behaviorism relate to learning?
Answer.
In behaviorism, learning is defined as a permanent change in behavior.
Behaviorism is relate to learning because it is a learning theory that only focuses on objectively observable behaviors.
Behaviorism, Also Known as behaviorism psychology, is a theory of learning based on that idea that all behaviors are acquired through conditioning Behaviorists believe that our responses to environmental Stimuli Shape our actions.

79 Who is the father of Scientific Method?
Answer. Galileo is the father of Scientific method.

80 Another Name of presentation?
Answer. Presentation is teacher-centered method.
It Sometimes called as lecture method.

Name

Day M T W T F S

21 Difference between Guided or unguided inquiry?

Answer

Guided inquiry is carefully planned
Guided inquiry is grounded in a constructivist approach to learning
In guided inquiry teacher originates the problem to be solved
To give students guide, the teacher may explain or give clues or procedures in solving the problem
During guided inductive inquiry the teacher plays the key role in asking questions prompting responses and structuring the material and situations.
In unguided inquiry learners progress from stating specific observations to making inference or generalizations.
Unguided learning is important but teachers role is very passive in the sense that teacher is not active participant in the inquiry process

Date Day M T W T F

82 What is productive learning community?

Answer.

Productive learning community is something where children are producing some good processes and ultimately processing some good results.

It is overall climate in which students feel positive about themselves and their peers, etc.

83 What is observing?

Answer. observational learning is something that we learn by observing others. There are no of people who learn things by observing other people e.g if someone is cooking, you can observe them and learn how to cook food. It means we can learn several things by observing. So teachers is role models, whatever they can do in classrooms, students observe them.

Edu 301

Date Day M T W T F S

84 Define Approaches of problem based learning?

Answer.

On problem based learning the focus is on process.
On project based learning focus is on ultimate outcome and product.

inQuiry base learning and project learning are the learning Approaches.

Approaches for problem based learning?

(1)- Modeling (Teacher displays himself as model)
(2)- Guiding (in this provides guideline)
(3)- Fade out (in this step provide opportunities to the students to experience and solve the problems to their own.

85 Advantages of Advanced organizer Model?

Answer. Advanced organizer

Date Day M T W T F S

are used to teach different concepts to the students.

(2) It can used to make connections between pieces of information

(3) Also Help Students to Allocate time for particular lesson.

Teacher present this model because due to this model Students will better understand and remember it.

Q6 Age Requirements for formal operational Stage?

Answer.

Stages	Age	Major Features
Sensorimotor	0 to 2 yrs	infant use their bodies to form cognitive structure.
Preoperational	2 to 7 yrs	use of symbols, rapid language growth
Concrete operational	7 to 11 yrs	Can reason About physical objects.
Formal operational	11+ yrs.	Abstract thinking leads to reasoning with symbols.

Date Day M T W T F S

87 What is Sequenced integration?

Answer.

Sequenced integration is where different subjects or disciplines are sequenced in timetable

Topics and units are taught independently, but they are arranged and sequenced to provide a framework for related concepts.

88 What is Mental planning?

Answer.

Third form of teacher planning is called mental planning. It is based on reflective thinking. Mental process needs to be there while planning.

89 Write ways to improve social-aged child Social Ability?

Answer. ① Love ur child. Hug them, talk with

② Encourage your child to try new things

③ Give opportunity ur child to play with other children their age.

Date Day M T W T F S

90 Arguments of critical thinking?

Answer

A crucial part of the critical thinking is to identify, construct, and evaluate Arguments.

But in logic and critical thinking, an Argument is a list of statements, one of which is the conclusion and the others are the premises or Assumptions of the Arguements.

91- Who one more real life problems Literate or educated person?

Answer.

Literacy is About acquiring the skills and learning, while education is About Applying these skills and learning for the benefits of others people

Literate person cannot called as educated person. Educated person faces some problem because due to his knowledge

Date | | | | | | | | Day M T W T F S

Omer - Edu 301

he cope up All sort of problem with his Ability.

92 Pre-Schooling Name in British School?

Answer.

"Nursery School" or Simply "Nursery".

93 Give one example of Negative punishment?

Answer. Negative punishment is taking away of an Appetitive Stimulus to decrease a certain behavior.

e.g. A teenager comes home an hour after curfew and the parents take away the teens cell phone for two days. If the frequency of coming home after curfew decreases, the removal of the phone is negative punishment.

Date Day M T W T F S

94 if Student fails to learn Abstraction concept then as a teacher what will you do as a teacher?

Answer.

If Student fails to learn abstract concept then as a teacher needs to go to recycling mode.

Go to Concrete and then understand the mind level of their Students. reads them properly and Assign tasks which is interesting for them.

Go to Simplex instead of complex.

95 What is BrainStorming?

Answer

in BrainStorming we write the central information in middle and then Ask Students to Comeup with their ideas.

Important thing in brainStorming you do not reject ideas.

BrainStorming is an effective

Day M T W T F S

Date

strategy when you are going to gain ideas or describe something. It can be used for compairing or contrasting. very important tool for compairing and contrasting is Venn ~~Tool~~ Diagram.
It depends upon concepts.

96 Discovery learning by John Dewey?
Answer.

Discovery learning is learner-centered method.
Discovery learning is a method which employs spirit of discovery.

John Dewey.
Discovery learning encompases an instructional model and strategies that focus on active, hands on learning opportunities for students.
teaching
In this method students interact with environments and tries to learn something.

Day M T W T F S

Date

97. Piaget's Stages?

Answer- ① Sensorimotor ② Pre-operational.
③ Concrete operational ④ Formal operational

98 Types of Goal Structure?

Answer.

It is the way that goals specify the degree of interdependence sought among students

There are three types of goal structure.

① individualistic
② Competitive.
③ Cooperative.
