Q1. Which of the following condition will be true if a node is NULL during the in-order traversal using recursive calls?

Node can contain only one child

Node contains only right child

Node contains only left child

Node does not contain both left and right children ✔

Q2. Which of the following is visited at last step in post-order traversal method?

Right Node

Leaf Node

Left Node

Root Node ✔

Q3. Level order traversal of a binary tree can be implemented with _____ data structure.

Linked List

Queue ✔

Binary Tree

Stack

Q4. Which of the following traversal method will be used, if we want the output as 3,4,7,9,14,15,16,18,20?

Level-order traversal

Preorder traversal

In-order traversal ✔

Post-order traversal

Q5. How many comparison(s) will be made at each level of a BST for searching a number which is not present in BST?

4

3

2

1 ✔
