4. Write a short note on the continual of Pakistan for education 5 marks

5. What are the madrasa debate challenges 5 marks Repeated

Challenges

1. Registration of madaaris is a major problem which is debated across the board. The exact figure of madaaris is not clearly identified. Only those madaaris which are registered with one of the

five previously mentioned wafaqs or boards can be numbered. It is believed that a large number of madaaris are operating without any formal affiliation and registration.

2. Madrasa curriculum is under heated debate inside the madaaris and beyond. According to one

school of thought, madrasa curriculum does not address the modern requirement of the present era. Many observers believe that some subjects being taught in madaaris foster provocation, leading students to extremism and militancy.

3. Since 1999, the issue of madaaris reforms has been negotiated between the government and the administrations of wafaqs or boards. It is not clear what development has been made so far. What are the demands of the madaaris and which of them have been accepted by the government? What is the stance of the government in this regard?

4. Fund raising is also a major issue. Some analysts believe that madaaris take funds from foreign countries to promote their agendas. It is considered that madaaris are being used as platforms for exerting influence of their favored sect(s) by foreign countries.

5. Funding education of foreign students is an important topic of debate between the government and the madaaris. Modalities of education of foreign students in Pakistani madaaris are yet to be resolved.

What are reform that opportunities the socio-cultural issues in education? 5

In teacher –training we focus a lot on the content, professional characteristics but we do not focus On how to deal with the minorities. If we included these type of content in teacher training, then we could see a lot more tolerant society.

Create interface with other minorities. Bring them on grounds, in classrooms, so that when they mix in constructive healthy activities they will learn to be tolerant.

AN.K Compilation (EDU401)

Make the subject Ethics as compulsory for all students. All religions teach the same values.

Develop public private partnership to build resources. In this way many minorities come into play via private members of the society.

Encourage public curricula reforms. Unless we begin with the textbooks, we cannot bring harmony.

We have to include some portion of the minorities that have really contributed in the society of Pakistan then we must include them. This refers to the education opportunities of socio-culturally disadvantaged groups. Even females are disadvantaged in our minorities.

The school attendance of females also gets affected by socio-cultural issues. Boys are more likely To make it to school. Those kinds of things need to be addressed Could see a lot more tolerant society.

Federal government

Obstacles of free and accessible education?

Incorporating free and accessible education as a guiding principle typically requires change in education systems, and this change process is frequently faced with several challenges. It involves

important shifts and changes at the systems as well as the societal level.

It is important to note that these change processes towards free and accessible education often begin at small scale and involve overcoming some obstacles such as:

- Existing attitudes and values
- Lack of understanding
- Lack of necessary skills
- Limited resources
- Inappropriate organization
