. Which one of the following refers to using some of the components of old products in the manufacture of new products?

- ✗ Manufacturability
- ☑ Remanufacturing
- ✗ Robust design
- ✗ Automation

---

2. The frequency of capacity choice decisions is influenced by all of the following factors EXCEPT:

- ✗ Technological changes
- ✗ Cost factor
- ✗ Competitive forces
- ☑ Stability of demand

---

3. OSHA stands for: which one of the following?

- ✗ Occupational Science Hygiene Administration
- ✗ Occupational Safety Hygiene Administration
- ✗ Occupational Stock Hygiene Administration
- ☑ Occupational Safety Hygiene Agency

---

4. The total weight assigned to actual occurrences should be equal to:

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- ☑ 1

---

5. More routine purchasing, handling, and inspection is an example of:

- ✕ None of the above
- ☑ Standardization
- ✕ Mass Customization
- ✕ Customization

---

6. Which one of the following is the overall objective of product and service design?

- ☑ Customer satisfaction and profitability
- ✕ Reliability and variety
- ✕ Customer satisfaction and variety
- ✕ Quality and reliability

---

7. Which of the following is a technique for fitting a line to a set of points?

- ✕ Moving average
- ☑ Regression
- ✕ Cycle
- ✕ Trend

---

8. CBR stands for which one of the following?

- ✕ Central Board of Renovation
- ✕ Commercial Board of Revenue
- ☑ Central Board of Revenue
- ✕ Central Board of Recycling

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

9. Most of the organizations adopt a defensive design R&D Strategy in an attempt to prolong the life of the product by employing new packaging, redesigning it, improving its reliability. This is _____ phase in the product life cycle.

- ✗ Decline
- ✗ Saturation
- ☑ Maturity
- ✗ Growth

---

10. In exponential smoothing model, a denotes:

- ✗ Previous forecast
- ✗ Forecast error
- ☑ Smoothing constant
- ✗ Actual forecast

Which one of the following forecasting techniques is used to identify a trend when data is neither growing nor declining rapidly and has no seasonal characteristics?

- ☐ Trend adjusted forecast
- ☐ Delphi method
- ☐ Naive forecast
- ☑ Simple moving average

---

2. Which one of the following operating levels is best with respect to capacity?

- ☐ The level of capacity for which average unit cost is minimized
- ☐ The maximum point of the cost curve
- ☐ The level of capacity for which average unit cost is maximized
- ☑ The level of capacity for which total cost is minimized

---

3. OSHA stands for: which one of the following?

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- ☐ Occupational Safety Hygiene Administration
- ☐ Occupational Safety Hygiene Agency
- ☐ Occupational Stock Hygiene Administration
- ☐ Occupational Science Hygiene Administration

---

4. An automatic car wash is an example of which of the following?

- ☐ Customized service
- ☑ Standardized service
- ☐ Intermittent processing
- ☐ Batch processing

---

5. Which one of the following is a curve showing failure rate over time?

- ☑ Bath tub curve
- ☐ Cost curve
- ☐ Reliability curve
- ☐ Fish bone diagram

---

6. Organization whether manufacturing product or delivering a service are made to operate in three dimensions that are:

- ☐ Legal, Ethical, and Environmental
- ☐ Ethical, Environmental, Social
- ☐ Legal, Environmental, Social
- ☑ Legal, Ethical, Social

---

7. Sequence of data points that are measured typically at successive times at regular time intervals is known as:

- ☐ Moving average

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- ☐ Forecasts
- ☐ Weighted moving average
- ☑ Time series

---

8. Which one of the following statements relates to the final stage of product life cycle?

- ☐ Improved reliability, and reduced quality
- ☐ Improved packaging, and reliability
- ☐ Improved reliability, and reduced promotion costs
- ☑ Improved reliability, and reduced production costs

---

9. Which one of the following reasons account for using moving average in forecasting?

- ☐ It approximates the period average
- ☐ It eliminates the trend
- ☑ It smoothes the random fluctuations
- ☐ It counteracts the seasonal variations

---

10. Which method of forecasting is the most widely used?

- ☐ Regression analysis
- ☐ Adaptive forecasting
- ☐ Weighted moving average
- ☑ Exponential smoothing

Which method of forecasting is the most widely used?

- Exponential smoothing ☑
- Adaptive forecasting
- Regression analysis
- Weighted moving average

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

EEE is the bringing together of engineering design and manufacturing personnel early in the design phase.

- Reverse engineering
- Serviceability
- Concurrent engineering ✅
- Manufacturability

Within the operations function, which one of the following is a long-term management decision?

- Control decision
- Non-operational decision
- Strategic decision ✅
- Tactical decision

Which one of the following is correct about the range of availability on a measuring index?

- 0.5 to 1.0
- 0 to 10
- 1 to 10
- 0.01 to 1.0 ✅

Which one of the following is an application of simple exponential smoothing?

- Quality improvement
- Finding reliability
- Establishing durability
- Scheduling services ✅

Robustness of a product is related with the probability of failure.

- Directly
- Linearly
- Inversely ✅

In time series forecast, the population shifts, changing income, and cultural changes refer to:

- Seasonality

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- Cycle
- Trend ✅
- Irregular Variations

□ A product 'A' is specified to work well up to 30 degree Celsius temperature and 30% humidity. What would these specifications represent?

- Standard conditions
- Standard operating procedure
- Reliability factor
- Normal operating conditions ✅

□ Which one of the following is the most significant disadvantage of standardization?

- Frozen designs
- Interchangeable parts
- Reduced variety ✅
- Customized parts

□ A gradual, long-term upward or downward movement in data is referred to as:

- Cycle
- Random variation
- Trend ✅
- Seasonality

MAM MEHWISH 03184148783

1. **The systematic plan of action with defined resources is called:**
    - **Productivity**
    - **Flexibility**
    - **Strategy ✓**
    - **Competitiveness**
2. **Techniques having numerical data include which of the following?**
    - **Delphi method**

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- Quantitative technique ✓
- Qualitative technique
- Subjective inputs

3. Flexible operations come under the example of:
   - Mission
   - Goals
   - Strategy ✓
   - Tactics
4. Under which of the following decision environments is it impossible to assess the likelihood of various future events?
   - Certainty
   - Uncertainty ✓
   - Bounded rationality
   - Risk
5. Productivity ratios are used in:
   - Scheduling equipment
   - Financial analysis
   - Planning workforce requirements
   - All of the above ✓
6. Planning workforce requirements, scheduling of the equipment, and financial analysis are the major uses of which of the following?
   - Productivity Growth
   - Productivity ratios ✓
   - Multifactor productivity
   - Operations strategy
7. For which of the following approaches, the forecast of any period equals the previous period's forecast?
   - Judgmental forecast
   - Naive forecast ✓

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- **Delphi method**
- **Associative model**

8. **In operations management, the time required to react appropriately to a competitor's strategies or technology upgradation is called:**
   - **Changeover time**
   - **Processing time**
   - **Response Time ✓**
   - **Planning time**
9. **Productivity refers to the ratio of output to input, in your views, what are the measures by which productivity can be increased?**
   - **Inputs and outputs increase proportionately**
   - **Inputs decrease while outputs remain the same ✓**
   - **Outputs decrease while inputs remain the same**
   - **Inputs increase while outputs remain the same**
10. **"The whole is greater than the sum of the parts." denotes which of the following term?**
    - **Trade off**
    - **Synergy ✓**
    - **Optimization**

Which of the following depicts the overall broad picture of the organization that provides detailed and broader scope?

- Operations strategy
- Manufacturing units
- Marketing strategy
- **Organizational strategy** ✓

2. Which of the following includes the quantitative methods of forecasting?

- Sales force composite
- **Exponential smoothing** ✓
- Consumer market survey

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- Jury of executive opinion

3. The method that uses explanatory variables to predict the future is known as:

- Judgmental forecast
- Delphi method
- **Associative model** ✓
- Naive forecast

4. "What business are we in?" This statement will come under:

- Mission Statement ✓
- Tactics
- Goals
- Strategies

5. Four important pillars capital, quality, _____ and technology. are responsible for positively as well as negatively affecting on the Productivity of the organization.

- System
- Customers
- Process ✓
- Management

6. Which one of the following forms of productivity has units of output per dollar input?

- Energy
- Machine
- Labor
- **Capital** ✓

7. Operations based strategy involves all activities except;

- Flexibility and inventory management
- Identifying customer wants and needs ✓
- Quick response to customer needs
- Supply chain management

8. To make operations strategy effective it should be:

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- Independent of the organization's strategy
- Developed by a first line manager
- Independent of time dimension
- **Consistent with the organization's strategy** ✓

9. Which one of the following is NOT used for decision making under uncertainty?

- EMV criterion
- Mmaximin
- **Mminimax regret** ✓

10. Which one of the following is NOT a key external factor in formulating operations strategy?

- Economic conditions
- Legal environment
- **Human resources** ✓
- Political conditions

1. **Those significant characteristics that service customers perceive as minimum standards of acceptability to be considered as a potential purchase is called:**
    - Order Qualifiers ✔
    - Order Takers
    - None of the above
    - Order Winners
2. **Which one of the following is an outcome of Maximin criterion?**
    - The least of the worst regrets
    - The best of the worst possible payoff ✔
    - The best average payoff
    - The best possible payoff
3. **An organization has described its distinctive characteristics. So, what is the next step in formulating the strategy?**
    - Competitor's distinctiveness

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

- Selecting the market segment ✔
- Productivity Measures
- Environmental scanning

4. **Which one of the following is used to generate consensus forecast?**
   - Exponential smoothing
   - Time series method
   - Associative model
   - Delphi method ✔
5. **Which one of the following is NOT a key internal factor in formulating operations strategy?**
   - Human resources
   - Financial resources
   - Competition ✔
   - Products and services
6. **Forecasts help managers by reducing the degree of:**
   - Reliability
   - Accuracy
   - Precision
   - Uncertainty ✔
7. **A term strategy is referred to as:**
   - An action plan to achieve a mission ✔
   - The purpose for which an organization is established
   - The goal that is to be achieved
   - A functional area of the firm
8. **Which one of the following appears to provide the best prospect for increases in productivity?**
   - Raw materials
   - Labor
   - Capital
   - Management ✔

MAM MEHWISH 03184148783

“Low-Cost LMS Handling Available”

Miss Mehwish: 03184148783

9. **The operational strategy must be in line with the:**
    - None of the above
    - Department goals
    - Management goals
    - Organizational goals ✔
10. **Which ONE of the following statement correctly explains the difference between operations management (OM) and operations research (OR)?**
    - OM is more powerful to improve the whole system OR relies on mathematical modeling.
    - OM relies on practical scenarios and OR relies on Mathematical modeling. ✔
    - OM relies on mathematical modeling and OR is considered to be one of the critical tools of managers.
    - OM relies on mathematical modeling and OR focuses on practical scenarios.
