STA632 – Sampling Techniques (Quiz-3)

Quiz Start Time: 04:48 AM, 21 June 2025

Question # 10 of 10 (Start time: 04:52:11 AM, 21 June 2025)

Total Marks: 1

What is a potential advantage of using the ratio estimator in survey sampling?

Select the correct option

 Reload Math Equations

- | | |
|----------------------------------|---|
| ☐ | It is less sensitive to outliers in the data. |
| ☒ | It often results in more efficient estimates when the auxiliary variable is correlated with the variable of interest. |
| ☐ | It provides unbiased estimates even in the presence of non-response |
| ☐ | It is computationally simpler than other estimators. |

STA632 – Sampling Techniques (Quiz-3)

Quiz Start Time: 04:48 AM, 21 June 2025

Question # 9 of 10 (Start time: 04:51:49 AM, 21 June 2025)

Total Marks: 1

In survey sampling, What is the use of ratio estimator?

Select the correct option

 Reload Math Equations

☒	Estimating population mean
☐	Estimating population proportions

STA632 – Sampling Techniques (Quiz-3)

Quiz Start Time: 04:48 AM, 21 June 2025

Question # 8 of 10 (Start time: 04:51:25 AM, 21 June 2025)

Total Marks: 1

If the ratio estimator is unbiased, what can we conclude about its expected value?

Select the correct option

 Reload Math Equations

☒	It is equal to the true population parameter.
☐	It is equal to the sample mean.
☐	It is equal to the true population parameter.
☐	It is always equal to zero.

STA632 – Sampling Techniques (Quiz-3)

Quiz Start Time: 04:48 AM, 21 June 2025

Question # 7 of 10 (Start time: 04:51:06 AM, 21 June 2025)

Total Marks: 1

A sample which is free from bias is called:

Select the correct option

 Reload Math Equations

☐	Biased
☐	Positively biased
☒	Unbiased
☐	Negatively biased

STA632 – Sampling Techniques (Quiz-3)

Quiz Start Time: 04:48 AM, 21 June 2025

Question # 6 of 10 (Start time: 04:50:43 AM, 21 June 2025)

Total Marks: 1

When the population size is what size, it is recommended to use the entire population instead of a sample?

Select the correct option

 Reload Math Equations

☐	1000 or less
☐	1000 or greater
☐	100 or greater
☒	100 or less

STA632 – Sampling Techniques (Quiz-3)

Quiz Start Time: 04:48 AM, 21 June 2025

Question # 4 of 10 (Start time: 04:49:58 AM, 21 June 2025)

Total Marks: 1

What is a potential advantage of using the regression estimator in survey sampling?

Select the correct option

 Reload Math Equations

- ☐ It provides unbiased estimates even in the presence of non-response.
- ☐ It is less sensitive to outliers in the data.
- ☒ It often results in more efficient estimates when the auxiliary variable is correlated with the variable of interest.
- ☐ It is computationally simpler than other estimators.

STA632 – Sampling Techniques (Quiz-3)

Quiz Start Time: 04:48 AM, 21 June 2025

Question # 3 of 10 (Start time: 04:49:38 AM, 21 June 2025)

Total Marks: 1

Auxiliary variable is also called:

Select the correct option

 Reload Math Equations

- ☐ dependentVariable
- ☐ independentVariable
- ☐ sampling Variable
- ☒ supporting variable

Question # 2 of 10 (Start time: 04:49:14 AM, 21 June 2025)

Total Marks: 1

In sampling methods, what does "probability proportional to size" mean?

Select the correct option

☐

All units in the population have an equal chance of being selected

☒

The probability of selecting a unit is directly proportional to its size or measure

☐

Sampling units are chosen randomly from the population

☐

Sampling units are selected based on their alphabetical order

Question # 1 of 10 (Start time: 04:48:47 AM, 21 June 2025)

Total Marks: 1

The population Mean in Case of Unequal Cluster Sizes is:

$$\frac{\sum_{i=1}^N M_i y_i}{M'}$$

Select the correct option

☒

True

☐

False
