how team building helps in team cohesion with example - 5

how goal settings work for athletes

(and the question from 1-22 is) think about Bandura's self efficacy, Harter's motivational model and Vealey's sport specific model, and then formulate your own theory in which how you describe confidence - 5

describe 2 assumptions of neo-dissociation systems -3

difference between aggressiveness and assertiveness behavior- 3

and two other questions those I did not remember now....sorry guys

but trust me those also quite simple like other questions...

MCQs are also easy and simple, over all paper was easy ☐

Thank God,,,

Good luck guys for your finals.

Stay Blessed.
