

## BT 401 midterm M.C.Q

1. Genetic resource is sometime called \_\_\_\_\_ **first resource**
2. Landraces is a \_\_\_\_\_ **Local variety of a domestic plant species**
3. Which one of the following is called rosewood \_\_\_\_\_ **Dalbergia Sisso**
4. ABSA stands for \_\_\_\_\_ **An Access and Benefit Sharing Agreement**
5. PGRFA stands for \_\_\_\_\_ **Plant Genetic Resources for Food and Agriculture**
6. Total area under the legume pulse crop in Pakistan \_\_\_\_\_ **1.5m hectares**
7. Which one of the following is extinct species? **White rhino**
8. Genetic stocks can be divided into \_\_\_\_\_ general groups. **Three**
9. The example of in Situ conservation is \_\_\_\_\_ **National Parks, Biosphere reserves, Gene sanctuaries**
10. \_\_\_\_\_ placing of threatened animals and plants in special care unit for their protection. **Ex Situ conservation**
11. The total number of snow leopard in Pakistan is \_\_\_\_\_ **200**
12. GSPC program was founded in \_\_\_\_\_ **1999**
13. \_\_\_\_\_ tree another name for it is Tiger's Claw. **Coral Tree**
14. According to world data base on protected area there are over \_\_\_\_\_ around world. **210,000**
15. Rhino are hunted for the \_\_\_\_\_ **Horns**
16. **Deodar Cedars** are the national tree of Pakistan.
17. Maximum area is grown under potatoes and about **88 %** occurs in Punjab.
18. Chili is at the third position of which 84% is cultivated in \_\_\_\_\_ **Sindh**
19. Pakistan is the \_\_\_\_\_ largest producer of Kinow (mandarin) and oranges in the world. **Sixth**
20. Cryopreservation in liquid nitrogen \_\_\_\_\_ **at -196 ° C**
21. How many categories of gene flow? **2**
22. Animals that are not wild and is kept as a pet or to produce food. **Domesticated Animal Resources**
23. \_\_\_\_\_ an anticoagulant is used to control clots in blood. **Heparin**
24. Dogs were probably the first tame animals have accompanied humans for some **10,000 years.**
25. A goat is a hoofed mammal in the genus \_\_\_\_\_ **Capra**

26. \_\_\_\_\_ are among the most highly specialized of the flesh-eating mammals. **Cats**
27. About **1,500** Markhors are found in Pakistan.
28. The population of this Himalayan Brown Bear is only **150 to 200** in Pakistan.
29. The strongest effect of genetic drift on \_\_\_\_\_ **small population**
30. Gene flow blocked by the physical barriers \_\_\_\_\_ **Allopathic speciation**
31. According to FAO, there are approximately;
- **31 000 species of finfish**
  - **85 000 species of mollusks**
  - **47 000 species of crustaceans**
  - **13 000 species of seaweeds**
32. Biologist suspect we are living through the \_\_\_\_\_ mass extinction. **Sixth major**
33. Honey bee pollinated how many species of plants \_\_\_\_\_ **250,000**
34. \_\_\_\_\_ disease was spread due to consuming mercury poisoned fishes by people. **MINAMATA disease**
35. \_\_\_\_\_ is a pioneer species, easily generated from seed. **Acacia nilotica**
36. Sheep was domesticated by human \_\_\_\_\_ **10,000 BC**
37. Phenylketonuria is caused by the \_\_\_\_\_ **Mutation**
38. \_\_\_\_\_ species of plant or animal that is in immediate danger of becoming extinct and needs protection to survive. **Endangered Specie**
39. The combination of all the genes present in a given population is called the **gene pool**
40. Plant **breeders** use to improve the quality and productivity of crops.
41. Population bottleneck in 1890s due to \_\_\_\_\_ **overhunting**
42. Reason for Crustaceans migration? **Breeding**
43. Sterculia khasiana was endemic tree of \_\_\_\_\_ **Khasi Hills in Meghalaya in India**
44. Which one of the following is the earliest modern protected area? **Yellow stone National Park**
45. \_\_\_\_\_ is one of the world's rarest mammals. **Indus River dolphin**
46. Mild form of breeding is called \_\_\_\_\_ **Line breeding**
47. How many types of breeding? **3**
48. There are \_\_\_\_\_ species of snow leopard found in Pakistan. **300**

49. **Genetic drift** is the phenomenon of change in of alleles (variants the frequency of a gene) in a population of organisms due to chance or random events.
50. Gene bank is a type of \_\_\_\_\_ **Ex Situ conservation**
51. Area of great genetic diversity are protected from human interference are known as \_\_\_\_\_ **gene sanctuary**
52. The Amish People around 200 German immigrants settled in \_\_\_\_\_ **Pennsylvania**
53. PGRFA stands for \_\_\_\_\_ **Plant genetic resources for food and agriculture**
54. NCCP stands for \_\_\_\_\_ **National culture collection of Pakistan**
55. Conservation of plant genetic resources is necessary for \_\_\_\_\_ **Food security and Agro biodiversity**
56. Migration is a \_\_\_\_\_ adaptation that helps animals survives. **Behavioral**
57. The type of gene transfer \_\_\_\_\_ in which genetic material passed from parent to offspring. **Vertical Gene Transfer**
58. Longest migration was observed in \_\_\_\_\_ **Artic tern bird**
59. Cause behind of extinction of stellar sea crow \_\_\_\_\_ **Hunting**
60. Darwin finches is example of \_\_\_\_\_ **Adaptive radiation**
61. Genetic diversity is the variation of individual in \_\_\_\_\_ **Amount of genetic information**
62. Which one of the following specie is easily regretted? **Acacia nilotica**
63. Sigillaria was a tree \_\_\_\_\_ **Spore bearing**
64. Which one of the following is the extinction rate of mammals? **20%**
65. Wild beest are the part of \_\_\_\_\_ **Great migration**
66. Northern areas of Pakistan are serving \_\_\_\_\_ **Habitat**
67. \_\_\_\_\_ is the transfer of DNA from one cell to another by a virus. **Transduction**
68. **Sympatric speciation** is speciation that occurs when two groups of the same species live in the same geographic location.
69. Population has more chances of survival \_\_\_\_\_ **large gene pool**
70. Since \_\_\_\_\_ in Situ conservation has received high priority to the world. **1980**
71. \_\_\_\_\_ as a mass of complimentary conservation. **DNA bank**
72. Nagoya protocol ratified by \_\_\_\_\_ parties. **97**
73. **White rhinos** are the second largest land mammal.
74. Bees are responsible for pollinating more than **250,000** species of plants.

75. Nearly **20,000 species** of plants and animals are at a high risk of extinction.

76. \_\_\_\_\_ was called string tree on account of the thin pendulous inflorescences which resembled red strings.  
**Calypha rubrinervis**

77. Myrcia skeldingii was a species of plant in the **Myrtaceae family**

78. \_\_\_\_\_ involves storage in low and non freezing temperature. **Cold storage**

79. Cryopreservation literally means preservation in \_\_\_\_\_ **frozen state**

80. \_\_\_\_\_ is the process of cooling where the water in the tissue becomes glass rather than crystals.  
**Vitrification**

VU Medical Zone effort by Amaan Khan
