CS201 midterm preparation file

ZB

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of God , Most
Gracious, Most merciful

CS201

MCQS

1. What is the primary function of an operating system?

- a) Manage hardware
- b) Manage software
- c) Manage memory
- d) All of the above

Answer: d) All of the above

2. Which of the following is a binary number?

- a) 101101
- b) 1000
- c) 101010
- d) All of the above

Answer: d) All of the above

3. What is the main function of the ALU in a computer?

- a) Perform arithmetic and logical operations
- b) Store data
- c) Control input/output devices
- d) Manage memory

Answer: a) Perform arithmetic and logical operations

4. What does CPU stand for?

- a) Central Processing Unit
- b) Central Performance Unit
- c) Computer Performance Unit
- d) Central Program Unit

Answer: a) Central Processing Unit

5. Which of the following is a valid data type in C?

- a) integer
- b) float
- c) char
- d) All of the above

Answer: d) All of the above

6. In which memory is data stored permanently?

- a) RAM
- b) ROM
- c) Cache memory
- d) Register memory

Answer: b) ROM

7. Which language is considered the first programming language?

- a) C
- b) Java
- c) Assembly
- d) Fortran

Answer: d) Fortran

8. Which of the following is used to store large amounts of data?

- a) RAM
- b) Hard Drive
- c) CPU
- d) Cache

Answer: b) Hard Drive

9. Which operator is used for logical AND in C?

- a) &
- b) &&
- c) |
- d) ||

Answer: b) &&

10. What does the term "compiling" mean?

- a) Running a program
- b) Translating high-level code into machine code
- c) Debugging code
- d) Writing source code

Answer: b) Translating high-level code into machine code

11. Which of the following is NOT a part of the CPU?

- a) ALU
- b) Register
- c) Memory
- d) Cache

Answer: c) Memory

12. Which of the following is a valid variable name in C?

- a) 1variable
- b) var_name
- c) @var
- d) variable name

Answer: b) var_name

MCQS

Midterm preparation file

ZB

13. Which of these is an example of a high-level programming language?

- a) Assembly
- b) Machine language
- c) Python
- d) Binary code

Answer: c) Python

14. Which of the following is true about an array in C?

- a) Arrays have fixed size
- b) Arrays can grow dynamically
- c) Arrays can store only integers
- d) Arrays can store only strings

Answer: a) Arrays have fixed size

15. What is the function of the 'printf' statement in C?

- a) Print output to the screen
- b) Read input from the user
- c) Store data in memory
- d) None of the above

Answer: a) Print output to the screen

16. Which of the following is a valid C function declaration?

- a) int main()
- b) void main()
- c) int main(void)
- d) All of the above

Answer: d) All of the above

17. Which of the following is the correct syntax for a for loop in C?

- a) for (i=0; i<10; i++)
- b) for (i=0; i<10; i+=2)
- c) for (int i = 0; i < 10; i++)
- d) All of the above

Answer: d) All of the above

18. Which of the following is a valid conditional operator in C?

- a) ? :
- b) & :
- c) ->
- d) ++

Answer: a) ? :

19. What is the purpose of a pointer in C?

- a) To store the address of a variable
- b) To store the value of a variable
- c) To perform arithmetic operations
- d) To loop through an array

Answer: a) To store the address of a variable

20. What is the function of the 'scanf' function in C?

- a) Display output
- b) Read input
- c) Store output
- d) None of the above

Answer: b) Read input

21. What does the term "recursion" refer to in programming?

- a) A process where a function calls itself
- b) A type of loop
- c) A way of storing variables
- d) A method of sorting data

Answer: a) A process where a function calls itself

22. Which of the following is the correct way to declare a pointer in C?

- a) int ptr;
- b) int ptr;
- c) int ptr;
- d) ptr int;

*Answer: a) int ptr;

23. Which of the following is used for error handling in C?

- a) exception handling
- b) try-catch block
- c) error() function
- d) none of the above

Answer: d) none of the above

24. Which of the following is a type of loop in C?

- a) while
- b) do-while
- c) for
- d) All of the above

Answer: d) All of the above

Midterm preparation file

25. What is the default value of an uninitialized static variable in C?

- a) 0
- b) NULL
- c) Undefined
- d) Garbage value

Answer: a) 0

26. Which of the following is a valid comment in C?

- a) // This is a comment
- b) /* This is a comment */
- c) # This is a comment
- d) Both a and b

Answer: d) Both a and b

27. Which of the following is a keyword in C?

- a) function
- b) include
- c) main
- d) int

Answer: d) int

28. What is the correct format specifier for printing a float in C?

- a) %d
- b) %f
- c) %s
- d) %c

Answer: b) %f

Midterm preparation file

29. What does the 'break' statement do in C?

- a) Exit from a loop or switch case
- b) Continue to the next iteration of a loop
- c) Pause the execution
- d) None of the above

Answer: a) Exit from a loop or switch case

30. What is the purpose of the 'continue' statement in C?

- a) Exit from a loop
- b) Skip the current iteration and proceed with the next iteration
- c) Jump to a specific location in the program
- d) Stop the execution of a program

Answer: b) Skip the current iteration and proceed with the next iteration

31. Which of the following is true for a stack data structure?

- a) It follows FIFO (First In, First Out) order
- b) It follows LIFO (Last In, First Out) order
- c) It can only store integers
- d) It has no size limit

Answer: b) It follows LIFO (Last In, First Out) order

32. Which of the following is NOT a feature of object-oriented programming?

- a) Encapsulation
- b) Abstraction
- c) Inheritance
- d) Sequential processing

Answer: d) Sequential processing

Midterm preparation file

33. What is the purpose of the 'malloc' function in C?

- a) To allocate memory
- b) To free allocated memory
- c) To reallocate memory
- d) To input data

Answer: a) To allocate memory

34. Which of the following is true about the 'free' function in C?

- a) It releases dynamically allocated memory
- b) It allocates memory
- c) It stores data
- d) None of the above

Answer: a) It releases dynamically allocated memory

35. What is the correct way to declare a function in C?

- a) return_type function_name()
- b) function_name() return_type
- c) function_name return_type()
- d) return_type function_name[]

Answer: a) return_type function_name()

36. Which of the following operators is used for pointer dereferencing in C?

- a) &
- b) *
- c) ->
- d) &&

****Answer: b) *****

Midterm preparation file

37. Which of the following is the default access modifier for members of a class in C++?

- a) private
- b) public
- c) protected
- d) None of the above

Answer: a) private

38. Which of the following is NOT a valid access specifier in C++?

- a) private
- b) protected
- c) public
- d) confidential

Answer: d) confidential

39. Which of the following is true about inheritance in object-oriented programming?

- a) It allows one class to inherit properties of another class
- b) It allows a class to hide its implementation
- c) It allows multiple classes to be combined into one class
- d) It has no effect in object-oriented languages

Answer: a) It allows one class to inherit properties of another class

40. Which of the following is true about polymorphism in object-oriented programming?

- a) It allows objects to take many forms
- b) It allows data hiding
- c) It allows data to be shared across classes
- d) It restricts access to data

Answer: a) It allows objects to take many forms

MCQS

Midterm preparation file

41. Which of the following is an example of a constant in C?

- a) `#define PI 3.14`
- b) `const int x = 5;`
- c) Both a and b
- d) None of the above

Answer: c) Both a and b

42. Which of the following is true about constructors in C++?

- a) A constructor is used to initialize an object
- b) A constructor is called manually by the user
- c) A constructor can only have one parameter
- d) Constructors are only used in inheritance

Answer: a) A constructor is used to initialize an object

43. What is the purpose of the 'this' pointer in C++?

- a) It points to the current object
- b) It stores the memory address of a class
- c) It refers to a function
- d) It is used to access private members

Answer: a) It points to the current object

44. Which of the following is used for exception handling in C++?

- a) try-catch block
- b) exception keyword
- c) assert function
- d) None of the above

Answer: a) try-catch block

45. Which of the following is a valid constructor definition in C++?

- a) MyClass() {}
- b) MyClass(void) {}
- c) MyClass(int a) {}
- d) All of the above

Answer: d) All of the above

46. Which of the following data types is used for storing decimal values in C?

- a) int
- b) float
- c) char
- d) bool

Answer: b) float

Passing criteria of this course

Letter Grade	Grade Points	Equivalent Percentage
A+	4.00	90-100
A	4.00	85-89
A-	3.66 - 3.99	80-84
B+	3.33 - 3.65	75-79
B	3.00 - 3.32	71-74
B-	2.66 - 2.99	68-70
C	2.00 - 2.65	61-67
D	1.00 - 1.99	50-60
F	0.00	00-49

Passing Criteria for a Course:

The passing criteria is defined in such a way that it ensures the student shall be consistent in his studies throughout the semester.

Therefore, for passing a course/subject, student shall fulfill the following:

- Secure minimum **20%** score in Formative Assessments/Mid terms
- Secure minimum **20%** score in Final Term Examinations.
- Secure at least **40%** marks in aggregate while fulfilling the above requirements

Course Selection and Credit Hours

Q: How do I select courses when the course selection is open?

A: Follow these steps:

- 1. Check the credit hours allowed by your university (e.g., 21, 18, or 15 credit hours).**
- 2. Each subject typically has 3 credit hours.**
- 3. Divide the total allowed credit hours by 3 to determine how many subjects you can select.**

Examples:

21 credit hours = 7 subjects

15 credit hours = 5 subjects

Remember, the university may allow different credit hours for each student, so check your specific allowance.

By following these steps, you can make informed decisions during course selection and manage your credit hours effectively.
