Soc401 lesson wise solved mcqs for midterm by Mudasar Qureshi vu360

Here are the quizzes with answers for Lessons 1-22 of SOC401 at Virtual University of Pakistan, with a minimum of 5 quizzes per lesson:

Lesson 1: Introduction to Sociology

1. What is the definition of sociology?

a) The study of human behavior in society

b) The study of human behavior in individuals

c) The study of human behavior in groups

d) The study of human behavior in organizations

Answer: a) The study of human behavior in society

1. Who is considered the father of sociology?

a) Auguste Comte

b) Karl Marx

c) Max Weber

d) Emile Durkheim

Answer: a) Auguste Comte

1. What is the main focus of sociology?

a) Individual behavior

b) Group behavior

c) Social structures and institutions

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

d) Cultural norms and values

Answer: c) Social structures and institutions

1. What is the difference between sociology and psychology?

a) Sociology studies individuals, while psychology studies society

b) Sociology studies society, while psychology studies individuals

c) Sociology studies behavior, while psychology studies mind

d) Sociology studies mind, while psychology studies behavior

Answer: b) Sociology studies society, while psychology studies individuals

1. What is the importance of sociology?

a) To understand human behavior

b) To understand social structures and institutions

c) To understand cultural norms and values

d) All of the above

Answer: d) All of the above

Lesson 2: Sociological Perspectives

1. What is the definition of a sociological perspective?

a) A way of understanding society

b) A way of understanding human behavior

c) A way of understanding social structures and institutions

d) A way of understanding cultural norms and values

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: a) A way of understanding society

1. What are the three main sociological perspectives?

a) Structural Functionalism, Conflict Theory, and Symbolic Interactionism

b) Structural Functionalism, Conflict Theory, and Social Constructionism

c) Structural Functionalism, Symbolic Interactionism, and Social Constructionism

d) Conflict Theory, Symbolic Interactionism, and Social Constructionism

Answer: a) Structural Functionalism, Conflict Theory, and Symbolic Interactionism

1. What is the focus of Structural Functionalism?

a) Social inequality and conflict

b) Social order and stability

c) Social change and progress

d) Social norms and values

Answer: b) Social order and stability

1. What is the focus of Conflict Theory?

a) Social order and stability

b) Social inequality and conflict

c) Social change and progress

d) Social norms and values

Answer: b) Social inequality and conflict

1. What is the focus of Symbolic Interactionism?

a) Social structures and institutions

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

b) Social inequality and conflict

c) Social norms and values

d) Individual behavior and interaction

Answer: d) Individual behavior and interaction

Here are the quizzes with answers for Lessons 3-5 of SOC401 at Virtual University of Pakistan:

Lesson 3: Research Methods in Sociology

1. What is the definition of research in sociology?

a) A systematic and objective study of social phenomena

b) A subjective and biased study of social phenomena

c) A study of individual behavior

d) A study of social structures and institutions

Answer: a) A systematic and objective study of social phenomena

1. What are the two main types of research methods in sociology?

a) Quantitative and qualitative

b) Experimental and non-experimental

c) Survey and observational

d) Case study and historical

Answer: a) Quantitative and qualitative

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

1. What is the purpose of a survey in sociology?

a) To observe behavior

b) To conduct experiments

c) To gather data from a large population

d) To study a single case

Answer: c) To gather data from a large population

1. What is the advantage of using a survey in sociology?

a) It allows for in-depth analysis

b) It allows for generalization

c) It is cost-effective

d) It is time-consuming

Answer: b) It allows for generalization

1. What is the disadvantage of using a survey in sociology?

a) It is time-consuming

b) It is cost-effective

c) It allows for in-depth analysis

d) It may be biased

Answer: d) It may be biased

Lesson 4: Socialization and Culture

1. What is the definition of socialization?

a) The process of learning social norms and values

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

b) The process of learning individual behavior

c) The process of learning social structures and institutions

d) The process of learning cultural norms and values

Answer: a) The process of learning social norms and values

1. What are the agents of socialization?

a) Family, education, media, and peers

b) Family, education, and media

c) Education, media, and peers

d) Family and peers

Answer: a) Family, education, media, and peers

1. What is the definition of culture?

a) The shared values, beliefs, and customs of a society

b) The individual values, beliefs, and customs of a person

c) The social structures and institutions of a society

d) The social norms and values of a society

Answer: a) The shared values, beliefs, and customs of a society

1. What is the importance of culture in sociology?

a) It shapes individual behavior

b) It shapes social structures and institutions

c) It shapes social norms and values

d) All of the above

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: d) All of the above

1. What is the difference between culture and society?

a) Culture refers to individual behavior, while society refers to social structures and institutions

b) Culture refers to social norms and values, while society refers to individual behavior

c) Culture refers to shared values, beliefs, and customs, while society refers to social structures and institutions

d) Culture refers to social structures and institutions, while society refers to shared values, beliefs, and customs

Answer: c) Culture refers to shared values, beliefs, and customs, while society refers to social structures and institutions

Lesson 5: Social Structure and Institutions

1. What is the definition of social structure?

a) The patterned relationships among individuals and groups

b) The individual behavior of a person

c) The social norms and values of a society

d) The cultural norms and values of a society

Answer: a) The patterned relationships among individuals and groups

1. What are the components of social structure?

a) Social institutions, social roles, and social relationships

b) Social institutions, social norms, and social values

c) Social roles, social relationships, and social norms

d) Social institutions, social roles, and social values

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: a) Social institutions, social roles, and social relationships

1. What is the definition of a social institution?

a) A group of people with a common goal

b) A pattern of behavior

c) A social structure that meets the needs of society

d) A cultural norm or value

Answer: c) A social structure that meets the needs of society

1. What are the examples of social institutions?

a) Family, education, religion, and government

b) Family, education, and religion

c) Education, religion, and government

d) Family and government

Answer: a) Family, education, religion, and government

1. What is the importance of social institutions in sociology?

a) They shape individual behavior

b) They shape social structures and institutions

c) They meet the needs of society

d) All of the above

Answer: d) All of the above

Here are the quizzes with answers for Lessons 6-8 of SOC401 at Virtual University of Pakistan:

Lesson 6: Social Inequality and Stratification

1. What is the definition of social inequality?

a) The unequal distribution of resources and opportunities

b) The equal distribution of resources and opportunities

c) The fair distribution of resources and opportunities

d) The just distribution of resources and opportunities

Answer: a) The unequal distribution of resources and opportunities

1. What are the types of social inequality?

a) Economic, political, and social

b) Economic, social, and cultural

c) Political, social, and cultural

d) Economic, political, and cultural

Answer: a) Economic, political, and social

1. What is the definition of social stratification?

a) The hierarchical arrangement of individuals or groups

b) The equal arrangement of individuals or groups

c) The fair arrangement of individuals or groups

d) The just arrangement of individuals or groups

Answer: a) The hierarchical arrangement of individuals or groups

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

1. What are the types of social stratification?

a) Caste, class, and estate

b) Caste, class, and slavery

c) Estate, class, and slavery

d) Caste, estate, and slavery

Answer: a) Caste, class, and estate

1. What is the importance of understanding social inequality and stratification in sociology?

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social norms and values

d) To understand social problems and issues

Answer: d) To understand social problems and issues

Lesson 7: Social Change and Development

1. What is the definition of social change?

a) A shift in social norms and values

b) A shift in social structures and institutions

c) A shift in individual behavior

d) A shift in cultural norms and values

Answer: b) A shift in social structures and institutions

1. What are the types of social change?

a) Evolutionary, revolutionary, and reformative

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

b) Evolutionary, revolutionary, and reactionary

c) Reformative, revolutionary, and reactionary

d) Evolutionary, reformative, and reactionary

Answer: a) Evolutionary, revolutionary, and reformative

1. What is the definition of social development?

a) The process of improving social structures and institutions

b) The process of improving individual behavior

c) The process of improving social norms and values

d) The process of improving cultural norms and values

Answer: a) The process of improving social structures and institutions

1. What are the factors that influence social development?

a) Economic, political, and social

b) Economic, social, and cultural

c) Political, social, and cultural

d) Economic, political, and cultural

Answer: a) Economic, political, and social

1. What is the importance of understanding social change and development in sociology?

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social norms and values

d) To understand social problems and issues

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: d) To understand social problems and issues

Lesson 8: Social Movements and Collective Behavior

1. What is the definition of a social movement?

a) A group of people working towards a common goal

b) A group of people working towards individual goals

c) A group of people working towards social change

d) A group of people working towards social stability

Answer: c) A group of people working towards social change

1. What are the types of social movements?

a) Reformative, revolutionary, and reactionary

b) Evolutionary, revolutionary, and reformative

c) Reformative, revolutionary, and radical

d) Evolutionary, reformative, and radical

Answer: a) Reformative, revolutionary, and reactionary

1. What is the definition of collective behavior?

a) The behavior of individuals in a group

b) The behavior of groups in a society

c) The behavior of individuals in a society

d) The behavior of groups in a social movement

Answer: b) The behavior of groups in a society

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

1. What are the examples of collective behavior?

a) Riots, protests, and revolutions

b) Riots, protests, and social movements

c) Protests, revolutions, and social movements

d) Riots, revolutions, and social movements

Answer: a) Riots, protests, and revolutions

1. What is the importance of understanding social movements and collective behavior in sociology?

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social norms and values

d) To understand social problems and issues

Answer: d) To understand social problems and issues

Let me know if you want me to continue with the next lessons!

Here are the quizzes with answers for Lessons 9-11 of SOC401 at Virtual University of Pakistan:

Lesson 9: Social Control and Deviance

1. What is the definition of social control?

a) The ways in which society regulates individual behavior

b) The ways in which individuals regulate social behavior

c) The ways in which society reinforces social norms

d) The ways in which individuals reinforce social norms

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: a) The ways in which society regulates individual behavior

1. What are the types of social control?

a) Formal and informal

b) Internal and external

c) Positive and negative

d) All of the above

Answer: d) All of the above

1. What is the definition of deviance?

a) Behavior that violates social norms

b) Behavior that conforms to social norms

c) Behavior that is neutral

d) Behavior that is random

Answer: a) Behavior that violates social norms

1. What are the types of deviance?

a) Criminal and non-criminal

b) Violent and non-violent

c) Individual and group

d) All of the above

Answer: d) All of the above

1. What is the importance of understanding social control and deviance in sociology?

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

vu360

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social norms and values

d) To understand social problems and issues

Answer: d) To understand social problems and issues

Lesson 10: Social Institutions and Organizations

1. What is the definition of a social institution?

a) A group of people with a common goal

b) A pattern of behavior

c) A social structure that meets the needs of society

d) A cultural norm or value

Answer: c) A social structure that meets the needs of society

1. What are the examples of social institutions?

a) Family, education, religion, and government

b) Family, education, and religion

c) Education, religion, and government

d) Family and government

Answer: a) Family, education, religion, and government

1. What is the definition of an organization?

a) A group of people working together

b) A group of people with a common goal

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

c) A social structure that meets the needs of society

d) A cultural norm or value

Answer: a) A group of people working together

1. What are the types of organizations?

a) Formal and informal

b) Bureaucratic and non-bureaucratic

c) Profit and non-profit

d) All of the above

Answer: d) All of the above

1. What is the importance of understanding social institutions and organizations in sociology?

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social norms and values

d) To understand social problems and issues

Answer: b) To understand social structures and institutions

Lesson 11: Social Change and Modernization

1. What is the definition of social change?

a) A shift in social norms and values

b) A shift in social structures and institutions

c) A shift in individual behavior

d) A shift in cultural norms and values

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: b) A shift in social structures and institutions

1. What are the types of social change?

a) Evolutionary, revolutionary, and reformative

b) Evolutionary, revolutionary, and reactionary

c) Reformative, revolutionary, and radical

d) Evolutionary, reformative, and radical

Answer: a) Evolutionary, revolutionary, and reformative

1. What is the definition of modernization?

a) The process of becoming modern

b) The process of becoming traditional

c) The process of becoming industrialized

d) The process of becoming developed

Answer: a) The process of becoming modern

1. What are the characteristics of modernization?

a) Industrialization, urbanization, and secularization

b) Industrialization, urbanization, and rationalization

c) Industrialization, secularization, and rationalization

d) Urbanization, secularization, and rationalization

Answer: a) Industrialization, urbanization, and secularization

1. What is the importance of understanding social change and modernization in sociology?

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social norms and values

d) To understand social problems and issues

Answer: d) To understand social problems and issues

Let me know if you want me to continue with the next lessons!

Here are the quizzes with answers for Lessons 12-15 of SOC401 at Virtual University of Pakistan:

Lesson 12: Globalization and Social Change

1. What is the definition of globalization?

a) The process of becoming modern

b) The process of becoming traditional

c) The increasing interconnectedness of the world

d) The decreasing interconnectedness of the world

Answer: c) The increasing interconnectedness of the world

1. What are the characteristics of globalization?

a) Industrialization, urbanization, and secularization

b) Globalization, urbanization, and rationalization

c) Industrialization, secularization, and rationalization

d) Globalization, liberalization, and privatization

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: d) Globalization, liberalization, and privatization

1. How has globalization affected social change?

a) It has led to more equality and justice

b) It has led to more inequality and injustice

c) It has had no impact on social change

d) It has led to more stability and security

Answer: b) It has led to more inequality and injustice

1. What are the positive effects of globalization?

a) Increased economic growth and job opportunities

b) Increased cultural exchange and understanding

c) Increased political stability and security

d) All of the above

Answer: d) All of the above

1. What are the negative effects of globalization?

a) Increased economic inequality and poverty

b) Increased cultural homogenization and loss of traditional values

c) Increased political instability and conflict

d) All of the above

Answer: d) All of the above

Lesson 13: Social Movements and Collective Action

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

VU360

1. What is the definition of a social movement?

a) A group of people working towards a common goal

b) A group of people working towards individual goals

c) A group of people working towards social change

d) A group of people working towards social stability

Answer: c) A group of people working towards social change

1. What are the types of social movements?

a) Reformative, revolutionary, and reactionary

b) Evolutionary, revolutionary, and reformative

c) Reformative, revolutionary, and radical

d) Evolutionary, reformative, and radical

Answer: a) Reformative, revolutionary, and reactionary

1. What is the definition of collective action?

a) The behavior of individuals in a group

b) The behavior of groups in a society

c) The behavior of individuals in a society

d) The behavior of groups towards social change

Answer: d) The behavior of groups towards social change

1. What are the examples of collective action?

a) Riots, protests, and revolutions

b) Strikes, boycotts, and demonstrations

c) Social movements, revolutions, and reforms

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

VU360

d) All of the above

Answer: d) All of the above

1. What is the importance of understanding social movements and collective action in sociology?

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social norms and values

d) To understand social problems and issues

Answer: d) To understand social problems and issues

Lesson 14: Social Policy and Welfare

1. What is the definition of social policy?

a) The actions of government to address social problems

b) The actions of individuals to address social problems

c) The actions of organizations to address social problems

d) The actions of communities to address social problems

Answer: a) The actions of government to address social problems

1. What are the types of social policy?

a) Economic, political, and social

b) Economic, social, and cultural

c) Political, social, and cultural

d) Economic, political, and cultural

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: a) Economic, political, and social

1. What is the definition of welfare?

a) The well-being of individuals and society

b) The well-being of individuals only

c) The well-being of society only

d) The well-being of organizations only

Answer: a) The well-being of individuals and society

1. What are the examples of welfare programs?

a) Social security, healthcare, and education

b) Social security, healthcare, and employment

c) Healthcare, education, and housing

d) Social security, education, and housing

Answer: a) Social security, healthcare, and education

1. What is the importance of understanding social policy and welfare in sociology?

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social norms and values

d) To understand social problems and issues

Answer: d) To understand social problems and issues

Here are the quizzes with answers for Lesson 15 of SOC401 at Virtual University of Pakistan:

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Lesson 15: Research Methods in Sociology

1. What is the definition of research in sociology?

a) A systematic and objective study of social phenomena

b) A subjective and biased study of social phenomena

c) A study of individual behavior

d) A study of social structures and institutions

Answer: a) A systematic and objective study of social phenomena

1. What are the types of research methods in sociology?

a) Quantitative and qualitative

b) Experimental and non-experimental

c) Survey and observational

d) Case study and historical

Answer: a) Quantitative and qualitative

1. What is the definition of a survey?

a) A systematic collection of data through interviews or questionnaires

b) A systematic collection of data through observations

c) A systematic collection of data through experiments

d) A systematic collection of data through case studies

Answer: a) A systematic collection of data through interviews or questionnaires

1. What is the definition of an experiment?

a) A controlled study of the relationship between variables

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

b) A controlled study of the relationship between variables in a laboratory setting

c) A controlled study of the relationship between variables in a natural setting

d) A controlled study of the relationship between variables using surveys

Answer: a) A controlled study of the relationship between variables

1. What is the importance of research methods in sociology?

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social phenomena using scientific methods

d) To understand social problems and issues

Answer: c) To understand social phenomena using scientific methods

Here are the quizzes with answers for Lessons 16-18 of SOC401 at Virtual University of Pakistan:

Lesson 16: Quantitative Research Methods

1. What is the definition of quantitative research?

a) A systematic and objective study of social phenomena using numerical data

b) A subjective and biased study of social phenomena using numerical data

c) A study of individual behavior using numerical data

d) A study of social structures and institutions using numerical data

Answer: a) A systematic and objective study of social phenomena using numerical data

1. What are the types of quantitative research methods?

a) Surveys, experiments, and observational studies

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

b) Surveys, experiments, and case studies

c) Experiments, observational studies, and content analysis

d) Surveys, case studies, and content analysis

Answer: a) Surveys, experiments, and observational studies

1. What is the definition of a survey?

a) A systematic collection of data through interviews or questionnaires

b) A systematic collection of data through observations

c) A systematic collection of data through experiments

d) A systematic collection of data through case studies

Answer: a) A systematic collection of data through interviews or questionnaires

1. What is the definition of an experiment?

a) A controlled study of the relationship between variables

b) A controlled study of the relationship between variables in a laboratory setting

c) A controlled study of the relationship between variables in a natural setting

d) A controlled study of the relationship between variables using surveys

Answer: a) A controlled study of the relationship between variables

1. What is the importance of quantitative research methods in sociology?

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social phenomena using numerical data

d) To understand social problems and issues

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: c) To understand social phenomena using numerical data

Lesson 17: Qualitative Research Methods

1. What is the definition of qualitative research?

a) A systematic and objective study of social phenomena using non-numerical data

b) A subjective and biased study of social phenomena using non-numerical data

c) A study of individual behavior using non-numerical data

d) A study of social structures and institutions using non-numerical data

Answer: a) A systematic and objective study of social phenomena using non-numerical data

1. What are the types of qualitative research methods?

a) Case studies, content analysis, and observational studies

b) Case studies, content analysis, and experiments

c) Content analysis, observational studies, and surveys

d) Case studies, observational studies, and surveys

Answer: a) Case studies, content analysis, and observational studies

1. What is the definition of a case study?

a) An in-depth study of a single case or a small number of cases

b) A systematic collection of data through interviews or questionnaires

c) A controlled study of the relationship between variables

d) A systematic collection of data through observations

Answer: a) An in-depth study of a single case or a small number of cases

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

1. What is the definition of content analysis?

a) A systematic analysis of texts, images, or other media

b) A systematic collection of data through observations

c) A controlled study of the relationship between variables

d) A systematic collection of data through interviews or questionnaires

Answer: a) A systematic analysis of texts, images, or other media

1. What is the importance of qualitative research methods in sociology?

a) To understand individual behavior

b) To understand social structures and institutions

c) To understand social phenomena using non-numerical data

d) To understand social problems and issues

Answer: c) To understand social phenomena using non-numerical data

Here are the quizzes with answers for Lesson 18 of SOC401 at Virtual University of Pakistan:

Lesson 18: Research Ethics

1. What is the definition of research ethics?

a) The principles and guidelines that govern the conduct of research

b) The principles and guidelines that govern the conduct of experiments

c) The principles and guidelines that govern the conduct of surveys

d) The principles and guidelines that govern the conduct of case studies

Answer: a) The principles and guidelines that govern the conduct of research

1. What are the key principles of research ethics?

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

a) Informed consent, confidentiality, and anonymity

b) Informed consent, confidentiality, and objectivity

c) Informed consent, anonymity, and objectivity

d) Confidentiality, anonymity, and objectivity

Answer: a) Informed consent, confidentiality, and anonymity

1. What is the importance of informed consent in research ethics?

a) To ensure that participants understand the purpose and risks of the research

b) To ensure that participants understand the purpose and benefits of the research

c) To ensure that participants understand the purpose and methods of the research

d) To ensure that participants understand the purpose and duration of the research

Answer: a) To ensure that participants understand the purpose and risks of the research

1. What is the importance of confidentiality in research ethics?

a) To protect the privacy of participants

b) To protect the identity of participants

c) To protect the data collected from participants

d) To protect the researcher's reputation

Answer: a) To protect the privacy of participants

1. What is the importance of anonymity in research ethics?

a) To protect the identity of participants

b) To protect the privacy of participants

c) To protect the data collected from participants

d) To protect the researcher's reputation

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: a) To protect the identity of participants

Let me know if you have any further questions or if you'd like me to continue with the next lesson!

Lesson 19: Social Research and Policy

1. What is the definition of social research?

a) A systematic and objective study of social phenomena

b) A subjective and biased study of social phenomena

c) A study of individual behavior

d) A study of social structures and institutions

Answer: a) A systematic and objective study of social phenomena

1. How does social research inform policy?

a) By providing data and evidence to support policy decisions

b) By providing personal opinions and biases to support policy decisions

c) By providing case studies and anecdotes to support policy decisions

d) By providing experimental results to support policy decisions

Answer: a) By providing data and evidence to support policy decisions

1. What are the types of social research that inform policy?

a) Basic research, applied research, and evaluative research

b) Basic research, applied research, and experimental research

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

c) Applied research, evaluative research, and case study research

d) Basic research, evaluative research, and survey research

Answer: a) Basic research, applied research, and evaluative research

1. What is the importance of social research in policy-making?

a) To provide a scientific basis for policy decisions

b) To provide a personal basis for policy decisions

c) To provide a political basis for policy decisions

d) To provide a moral basis for policy decisions

Answer: a) To provide a scientific basis for policy decisions

Lesson 20: Social Change and Development

1. What is the definition of social change?

a) A shift in social norms and values

b) A shift in social structures and institutions

c) A shift in individual behavior

d) A shift in cultural norms and values

Answer: b) A shift in social structures and institutions

1. What are the types of social change?

a) Evolutionary, revolutionary, and reformative

b) Evolutionary, revolutionary, and reactionary

c) Reformative, revolutionary, and radical

d) Evolutionary, reformative, and radical

https://chat.whatsapp.com/F5zhJsjtf5yL4RjDODz1fL

Answer: a) Evolutionary, revolutionary, and reformative

1. What is the definition of development?

a) The process of becoming modern

b) The process of becoming traditional

c) The process of improving social structures and institutions

d) The process of improving individual behavior

Answer: c) The process of improving social structures and institutions

1. What are the factors that influence development?

a) Economic, political, and social

b) Economic, social, and cultural
