"A Collection of Study Materials for VU Zoology and Biology Students"

Dear VU Students,

- Welcome to my Google Drive folder for Zoology and Biology subject files. This folder is a collection of files related to the study of these fascinating subjects. As a fellow student, I have created this folder to help my peers with their studies and make it easier for them to access quality resources.
- In this folder, you will find a variety of files, including lecture notes, textbooks, scientific article, and other educational resources. I have spent a lot of time gathering and curating these files, so please use them responsibly and only for academic purposes.
- If you cannot find what you are looking for in this folder, or if you have any files that you would like to add, please feel free to contact me on Whatsapp. I would be more than happy to add your files to the folder, making it a valuable resource for all VU Students.

I hope you find this folder helpful and that enhance your learning experience. Best of luck with your studies!
