Which of the given is not a component of STL?

a. Container

b. Algorithm

c. Iterator

d. Cursor

Which of the following function is used to add an element to the end of a vector?

a. end()

b. push_back()

c. insert()

d. back()

Which of the following is the correct syntax for creating a function Test(T) friend of a template class?

a. void friend Test(T);

b. void Test(T);

c. friend void Test(T);

d. void Test(T) friend;

Which of the following is an example of partial specialization?

PAID ASSIGNEMNTS QUIZES GDB CONTACT 03147094561

a. template< class T, class U>

b. template< class T, float>

c. template< int , float , char>

d. template< int >

Which of the following is an example of general template?

a. template< class T, class U>

b. template< class T, float>

c. template< class T, class U, int >

d. template< int , float , int >

Which of the following is true about friend functions in template classes?

a. They must be defined inside the class.

b. They can access private and protected members of the class.

c. They can only access public members of the class.

d. They are inherited by derived classes.

Which of the following is the correct syntax for creating a template class X friend of a template class Y?

PAID ASSIGNEMNTS QUIZES GDB CONTACT 03147094561

a. friend X<T>;

b. friend X;

c. X<T>;

d. X<T> friend;

Which one of the following is an example of complete specialization?

a. template <typename T> class Vector<T*> { };

b. template<> class Vector <char*> { };

c. template <class T> class Vector< T *> { };

d. template <typename T> class Vector { };

The partial specialization pattern <T*> says that this specialization is to be used for every _____.

a. Meta type

b. Pointer type

c. Virtual type

d. Data type

Which of the following is the correct syntax to declare a vector of type int?

a. vector {int} sampleVector;

b. int <vector> sampleVector;

@hamzabahtti25

PAID ASSIGNEMNTS QUIZES GDB CONTACT 03147094561

c. vector<int> sampleVector;

d. sampleVector vector<int> ;

Which of the following is the correct syntax to declare a vector of type int?

a. vector {int} sampleVector;

b. sampleVector vector<int> ;

c. vector<int> sampleVector;

d. int <vector> sampleVector;

Which of the following is true about friend functions in template classes?

a. They can only access public members of the class.

b. They are inherited by derived classes.

c. They can access private and protected members of the class.

d. They must be defined inside the class.

Which of the given is not a Sequence Container?

a. Set

b. Vector

c. List

d. Deque

Which of the following is the correct syntax for creating a template class X friend of a template class Y?

a. X<T>;

b. X<T> friend;

c. friend X;

d. friend X<T>;

Which of the following function is used to add an element to the end of a vector?

a. end()

b. insert()

c. push_back()

d. back()

@hamzabahtti25

Which of the following is the correct syntax for creating a function Test(T) friend of a template class?

a. void Test(T);

b. void friend Test(T);

c. void Test(T) friend;

d. friend void Test(T);
