BT302 - Immunology (QUIZ#2) | **Total Questions :10**

Please read the following instructions carefully!

1. Quiz will be based upon Multiple Choice Questions (MCQs).
2. You have to attempt the quiz online. You can start attempting the quiz any time within given date(s) of a particular subject by clicking the link for Quiz in VULMS.
3. Each question has a fixed time of 90 seconds. So you have to save your answer before 90 seconds. But due to unstable internet speeds, it is recommended that you should save your answer within 60 seconds. While attempting a question, keep an eye on the remaining time.
4. Attempting quiz is unidirectional. Once you move forward to the next question, you can not go back to the previous one. Therefore before moving to the next question, make sure that you have selected the best option.
5. **DO NOT** press **Back Button** / **Backspace Button** while attempting a question, otherwise you will lose that question.
6. **DO NOT** refresh the page unnecessarily, **specially** when following messages appear
   - Saving...
   - Question Timeout: Now loading next question...
7. **Javascript MUST be enabled** in your browser, otherwise you will not be able to attempt the quiz.
8. If for any reason, you lose access to Internet (like power failure or disconnection of internet), you will be able to attempt the quiz again from the question next to the last shown question. But remember that you have to complete the quiz before expiry of the deadline.
9. If any student failed to attempt the quiz in given time then no re-take or offline quiz will be held.

Important Announcement

1. It has come to the University's knowledge that some students are using unfair means while attempting their Mid-Term quiz.
2. The University is monitoring & analyzing the quiz attempts and if a student is found involved in using unfair means, i.e., helping tools/software, Web Extension, Add-ons etc., an Unfair Means Case (UMC) will be made against such student(s) including cancellation of their Mid-Term quiz.

BT302 - Immunology (QUIZ#2)

Quiz Start Time: 09:53 AM, 18 February 2022

Question # 9 of 10 (Start time: 10:05:28 AM, 18 February 2022)

Total Marks: 1

During Myeloperoxidase (MPO) dependent intracellular killing of microbes, ... are formed which are bacteriocidal.

Select the correct option

- superoxide radicals
- halide ions
- hydrogen peroxide
- singlet oxygen

Quiz Start Time: 09:53 AM, 18 February 2022

Question # 7 of 10 (Start time: 10:03:09 AM, 18 February 2022)

Total Marks: 1

These all are true for immune evasion EXCEPT .....

Select the correct option

- Maximizes the ability of organism to develop infection
- Enhance the ability of tumor cells to evade
- Occurs either by weak immune response
- Humoral immunity cannot be evaded only

Question # 6 of 10 (Start time: 10:01:48 AM, 18 February 2022)

Total Marks: 1

The mechanism of immune evasion by Listeria monocytogenes is _____

Select the correct option

- inactivation of reactive oxygen species
- inactivation of reactive nitrogen species
- disruption of phagosome membrane
- inhibition of phagolysosome formation

Question # 10 of 10 (Start time: 11:07:13 AM, 18 February 2022)

Th2 cells upon activation secrete cytokines like IL-4 and IL-5 which activate .....

Select the correct option

- ○ APC
- ○ CTL
- ○ Macrophages
- ○ B-cells

Question # 9 of 10 (Start time: 11:06:05 AM, 18 February 2022)

Vesicular pathogens are presented in combination with class I MHC to .....

Select the correct option

- B-cells
- NK cells
- T cytotoxic cells
- T helper cells

Question # 8 of 10 (Start time: 11:05:42 AM, 18 February 2022)

During Myeloperoxidase (MPO) dependent intracellular killing of microbes, _____ are formed which are bacteriocidal.

Select the correct option

- hydrogen peroxide
- halide ions
- superoxide radicals
- singlet oxygen

Question # 7 of 10 (Start time: 11:05:21 AM, 18 February 2022)

These all are true for inflammosomes EXCEPT .....

Select the correct option

- expressed in myeloid cells
- multi-protein oligomer
- component of adaptive immune system
- promotes the maturation & secretion of pro-inflammatory cytokines

Question # 6 of 10 (Start time: 11:04:50 AM, 18 February 2022)

Chemotaxsis is the movement of circulating ..... to the site of infection.

Select the correct option

- phagocytes
- immunoglobulin
- B-cells
- Natural killer cells

Question # 5 of 10 (Start time: 11:04:03 AM, 18 February 2022)

Upon CTL degranulation, polyperforin channels are developed in the presence of .....

Select the correct option

- ○ Factor B
- ○ Magnesium
- ○ Factor D
- ○ Calcium

Question # 4 of 10 (Start time: 11:03:22 AM, 18 February 2022)

Th1 cells release cytokine like IFNγ upon activation which is inhibitory for .....

Select the correct option

- CTL
- mast cells
- macrophages
- Th2 cells

Question # 3 of 10 (Start time: 11:03:05 AM, 18 February 2022)

Pro-Inflammatory cytokines are involved in _____ of inflammatory process.

Select the correct option

- up regulation
- down regulation
- inhibition
- control

Question # 2 of 10 (Start time: 11:02:41 AM, 18 February 2022)

Lymphokine activated cells are specific for the killing of _____ cells.

Select the correct option

- parasitic
- tumor
- bacterial
- viral

Question # 1 of 10 (Start time: 11:02:19 AM, 18 February 2022)

S. aureus produces ..... enzyme to resist the process of phagocytosis.

Select the correct option

- coagulase
- oxidase
- protease
- lysozyme
