Question # 2 of 10 (Start time: 11:42:48 AM, 17 July 2023) Total Marks: 1

Creameries buy milk in many different ways sometimes at a flat rate of .....

Select the correct option

- litre
- all of these
- per gram
- per kg

ic Principles of Dairy Farming

Milk used for bottling or drinking must by la ontain 3.6% fat and 8.5% SNF.

Creameries buy milk in many different ways – sometimes at a flat rate per kg.

Sometimes, however, it may be by percentage butterfat or protein.

Milk composition varies also amongst different breeds.

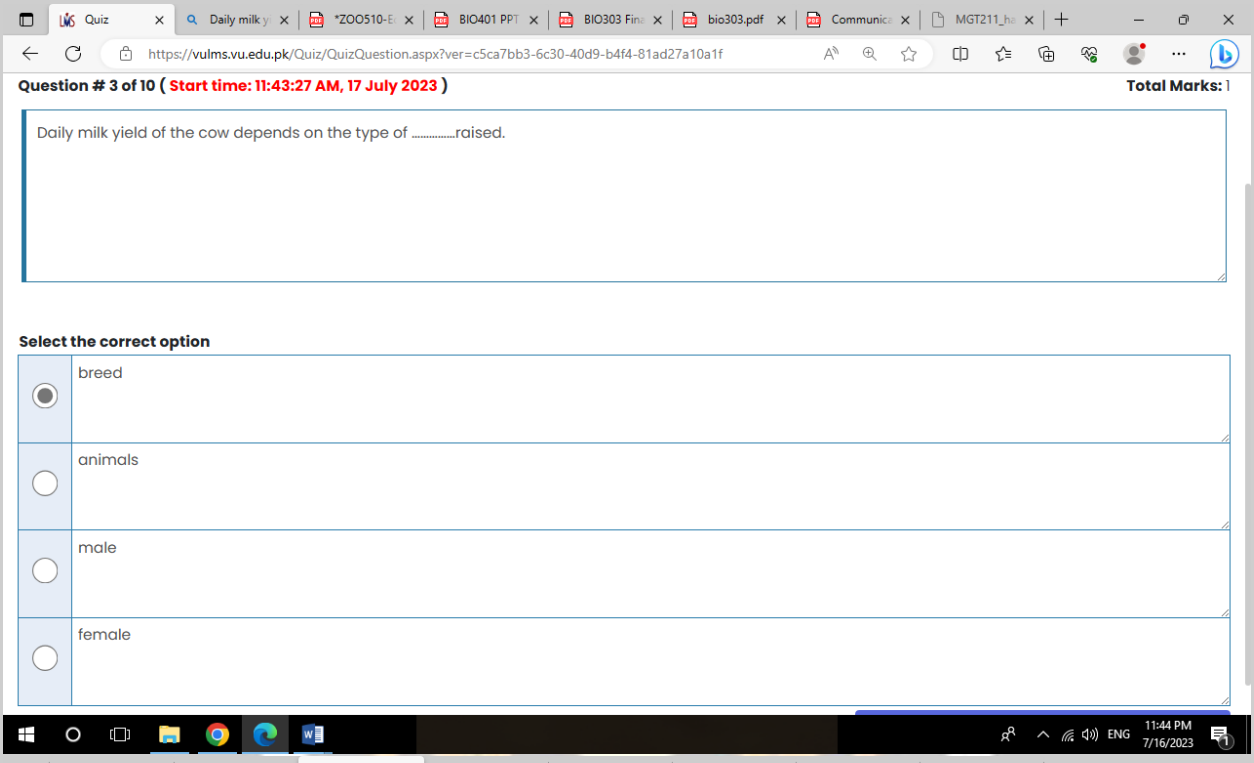

The milk of the Jersey cow has the highest butterfat and SNF content of any cow.

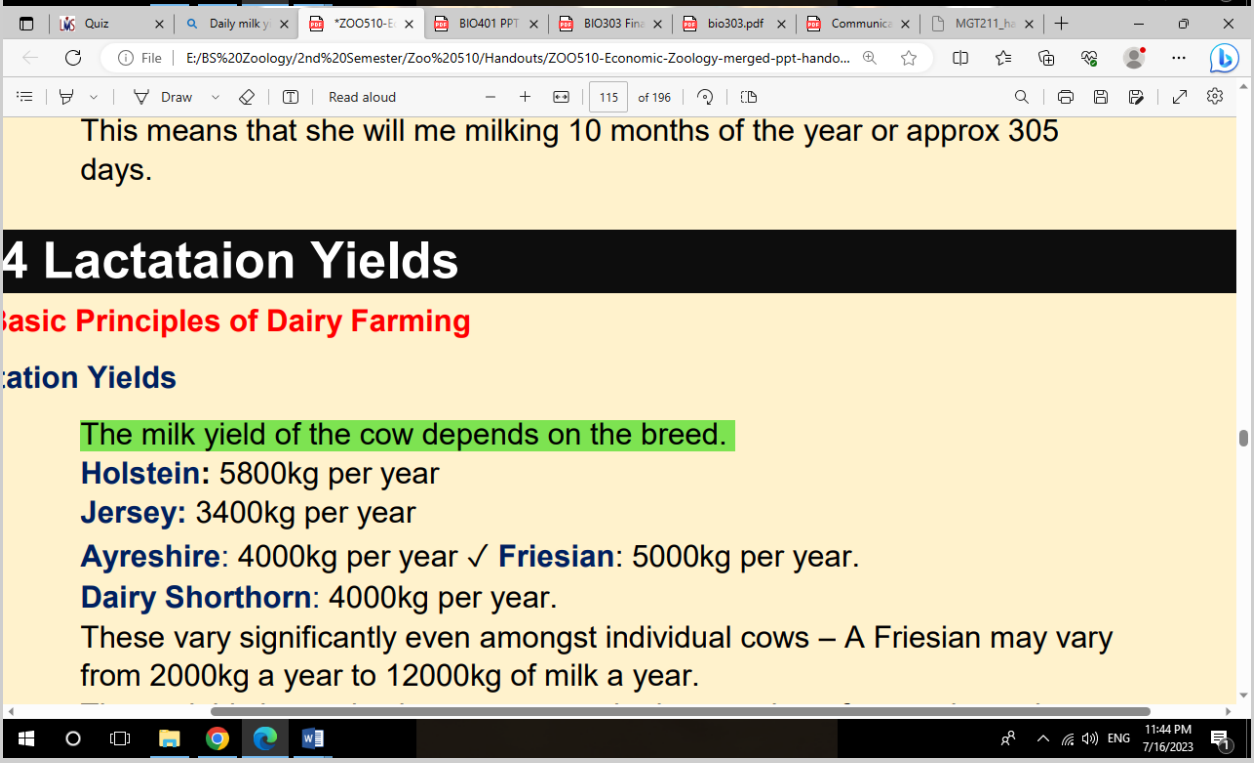

Also the composition of milk varies during milking.

The milk at the start may only contain 1% fat, while the milk at the end ("The Stripping") may contain 10% fat

Question # 10 of 10 (Start time: 11:48:20 AM, 17 July 2023) **Total Marks:** 1

Quality of feed affects has a bearing on animal .....

Select the correct option

- absorption
- digestion
- nutrition
- excretion

Feed Quality

- Quality of feed affects its value for animal nutrition.
- Quality factors include palatability and nutrient content.
- Palatability refers to how well the animal will accept feed.
- Improper harvesting or handling will reduce quality.
- If an animal does not find a feed palatable it will not eat enough, make good gains, grow properly or produce meat, milk or eggs.
- Feeds on produced on well fertilized soils will produce feed, especially
