Select correct option:

Ethical justice
Retributive justice
Distributive justice
Compensatory justice

This way of dealing with pollution is consistent with the requirements of distributive justice **Internalizing external costs is also consistent with retributive and compensatory justice.**

Question # 8 of 20 (Start time: 04:50:40 PM) Total Marks: 1
Moral standards are absorbed from?
Select correct option:

Family & Friends
Experience
Intellectual capital
All of the above.....

moral standards are first absorbed as child from family, friends, and various societal influences such as church, school, television, magazines, music, and associations.

Question # 9 of 20 (Start time: 04:51:21 PM) Total Marks: 1
Caveat vendor represents to:
Select correct option:

Let the buyer beware

Let the seller beware

Let the buyer and seller beware

None of the given options

The theory is a strong version of the doctrine of **caveat vendor: let the seller take care.**

Question # 10 of 20 (Start time: 04:52:33 PM) Total Marks: 1
Which of the following refers to the saving or rationing of natural resources for later use?
Select correct option:

Preservation
Conservation 87
Fossilization
Depletion

Conservation refers to the saving or rationing of natural resources for later use

Utilitarianism suggests that it is ethical to make decisions based on:

Select correct option:

Moral virtues

Common decency

What is best for most people. Page 13

None of the given

Utilitarianism is a general term for any view that holds that actions and policies should be evaluated on the basis of the benefits and costs they will impose on society. In any situation, the "right" action or policy is the one that will produce the greatest net benefits or the lowest net costs (when all alternatives have only net costs).

Who summarized the procedure for cost and benefit analysis?

Select correct option:

Adam Smith

Thomas Klein page 65

John Rawls

Samuel Johnson

Thomas Klein summarized the procedures for cost-benefit analysis as follows

Who is the world's largest retailer?

Select correct option:

Proctor and Gamble

Wal-Mart page 4

Liver Brothers

Dashang Group

Wal-Mart, the world's largest retailer, had sales of $258.7 billion and 1,400,000 employees;

Internalizing the external cost is NOT consistent with which of the following?

Select correct option:

Ethical justice page 64

Retributive justice

Distributive justice

Compensatory justice

This way of dealing with pollution is consistent with the requirements of distributive justice
Internalizing external costs is also consistent with retributive and compensatory justice

Select correct option:

Anti-trust view page 53

Discrimination view

Unethical view

Unlawful view

The **antitrust view** argues that prices and profits in highly concentrated industries are higher than they should be

Which of the following is NOT an objective of social audit?

Select correct option:

Scrutiny of various policy decisions

Estimation of the opportunity cost

Creating awareness among beneficiaries

Encourages local democracy page 69

Objectives of social audit
1. Assessing the physical and financial gaps between needs and resources available for local development.
2. Creating awareness among beneficiaries and providers of local social and productive services.
3. Increasing efficacy and effectiveness of local development programs.
4. Scrutiny of various policy decisions, keeping in view stakeholder interests and priorities, particularly of rural poor.
5. Estimation of the opportunity cost for stakeholders of not getting timely access to public services.

A relationship that exhibits the virtues of compassion, love, friendship, and loyalty is the example of which theory?

Select correct option:

Socialism

The ethics of care page 27

Communitarian ethics

Rawls justice and fairness

This is central to the point of view known as the **ethics of care,** an approach to ethics that many feminist ethicists have recently advanced. According to this method, we have an obligation to exercise special care toward the people with whom we have valuable, close relationships. **Compassion, concern, love, friendship, and kindness** are all sentiments or virtues that normally manifest this dimension of morality

Which of the following issues are not satisfied by utilitarianism?

Select correct option:

Justice

Right

Justice & Right

None of the above

Which of the following is not a feature of perfect competition?

Select correct option:

Buyers and sellers can freely and immediately enter or leave the market

All buyers and sellers are utility maximizes

There are numerous buyers and sellers, none of whom has a substantial share of the market

External parties regulate the price, quantity, or quality of the goods being bought and sold in the market page 45

1. There are numerous buyers and sellers, none of whom has a substantial share of the market.
2. All buyers and sellers can freely and immediately enter or leave the market.

3. Every buyer and seller has full and perfect knowledge of what every other buyer and seller is doing, including knowledge of the prices, quantities, and quality of all goods being bought and sold.
4. The goods being sold in the market are so similar to each other that no one cares from whom each buys or sells.
5. The costs and benefits of producing or using the goods being exchanged are borne entirely by those buying or selling the goods and not by any other external parties.
6. All buyers and sellers are utility maximizers: Each tries to get as much as possible for as little as possible.
7. No external parties (such as the government) regulate the price, quantity, or quality of any of the goods being bought and sold in the market.

"The possession of a livable environment is something to which every human being has a right." Who argued this statement?

Select correct option:

William T. Blackstone page 64
